NEW show on WLOU Louisville, Ky., presents interviews with two men and two women, jobless through no fault of their own. Titled, Job Inc., show is heard Saturday, 10:30-11 a.m., and is presented in cooperation with local Div. of Economic Security, division of Employment Service. Interviews cover background, education, previous employment, age, hobbies and steadiness of employment of applicants. Bullets calling attention to series have been sent to 900 employers in area.

‘Bookologue’

TELEVISION monologue is method used for recommending classics of literature to listeners of WSB-TV Atlanta, Ga. Entire content of each book reviewed is given by Amelia Weinberg, using voice inflection and facial expression to portray moods and characters. Bookologues are scheduled irregularly over station.

Anniversary Show

THE 100th anniversary of Teacher’s College of Connecticut, New Britain, was observed in hour-long show on WDRF Hartford recently. Program was written and produced by Brobery P. Ellis of school’s English department and originated from institution. Among noted guests was Gov. Chester Bowles.

Children’s Books

CKX Brandon, Man., starts Saturday morning public service program Around the Library Table, with librarians telling stories from books in public library. Program deals with children’s books. Library has reported increase of circulation in children’s section of library as result.

TV Aids Search

MISSING PERSONS are sought on new NBC Chicago video show, Reported Missing. Jim Hurlbut, WMAQ (AM) and WNBQ (TV) Chicago reporter-at-large, talks of missing persons and asks for information as to their whereabouts using pictures and data supplied by police and private detectives. Viewers have been asked to contact police departments and friends. Show is telecast Wednesday, 9:45-10 p.m. (CST).

Network Colbar Programs at Local Station Cost

February 6, 1950 • Page 111
WASHINGTON, D.C. - The House Ways and Means Committee, in its report on the tax bill, has rendered WALE, with particular reference but not limited to the following:

(a) The amount of time the station has devoted to the broadcasting of discussions upon controversial issues of public importance;
(b) The amount of time which the station has devoted to the broadcasting of local live talent programs;
(c) The amount of time which the station has devoted to the broadcasting of agricultural and educational programs;
(d) The amount of time which the station has devoted to the broadcasting of recorded programs.

To obtain full information concerning the nature and character of the program service proposed to be rendered by Bay State Broadcasting Co. and Narragansett Broadcasting Co.

6. To determine the overlap, if any, that may exist between the service areas of the stations proposed by Bay State Broadcasting Co. and the operation of WBNH by Bay State Broadcasting Co., the station and the nature and extent of the overlap, if any, is in controversy of Section 3.33 of the Commission Rules.

WORK OF FTC

PUBLIC interest in the responsibility of the Federal Trade Commission over false or deceptive advertising is great, because "tens of millions of our people purchase goods relying on the radio and other media statements, FTC Comr. James M. Mead has advised a House Appropriations subcommittee.

Comm. Mead and Acting Chairman Lowell B. Mason testified before the group last month on FTC's fiscal 1951 funds. FTC is requesting 4,225,000 for 1950-1951 covering operation and personnel in addition to the litigation method in this field, the commission has developed informal and cooperative procedures designed for wider coverage of law enforcement at a lower cost. Comm. Mead said. Importance of its anti-monopoly work also was stressed.

Thomas E. Walsh

THOMAS E. WALSH, 61, vice president of McGuire Adv. Ltd., died in his office. On Jan. 24. He was former president of Walsh Adv. Ltd., Windsor, from which he retired in 1946.

At a contract signing for Toni Talking are (1 to r): James Crawford, WPEN news manager; Edward C. Obriot, general manager; Mr. Palumbo and Toni Spaulding.

KOME INCREASE

Tulsa Outlet Now on 5 kw

KOME Tulsa, formerly operating on 1340 kc with 250 w, took to the air Jan. 22 with increased power of 5 kw on 1300 kc.

Included in the MBS outlet's improvement, KOME officials report, is a new transmitter site complete with latest obtainable equipment installed in an air conditioned transmitter building at 8th and S. Harvard in Tulsa, and four Blau Knox Towers, each 234 ft. high.

During the opening day ceremonies, KOME received congratulatory messages and salutes to its new power from Mutual key stations on several network programs.

Officials said changes in the KOME setup are the result of a larger expansion program started more than a year ago by Harry Schwartz, president.

SCRIPT CONTEST

AER Lists Five Donors

FIVE donors of expense and prize money for the annual scriptwriting contest of the Assn. of Education by Radio have been announced by the contest office. The five are Audio Devices, New York, underwriting sponsorship for the third successive year; The School Broadcast Conference and World Book Encyclopedia, both of Chicago; the Webster Electric Co., Racine, Wis., and the Protestant Radio Commission, New York. Regional sponsors are yet to be announced.

Open to students enrolled in colleges and universities in the United States, the contest has its purpose the encouraging of good script writing among college students and calling the attention of the industry to promising writers. Rules of the contest, which closes April 1, may be obtained from Sherman P. Lawton, Oklahoma U., Norman, Okla.

CBI Sydney, N. S., undergoing alterations to provide better facilities for handling network broadcasting between the Canadian mainland and Newfoundland.

WALE CASE

Hearing Issues Reported

ISSUES have been reported by FCC for its investigation to determine whether WALE Fall River, Mass., has lived up to the program and ownership-management promises it made in its original application which helped it win over other applicants in a competitive hearing.

The Commission also has set March 6 and Fall River as date and location for its hearing involving the WALE license renewal bid as well as the application of Bay State Broadcasting Co. seeking WALE's assignment, 250 w on 1400 kc [Broadcasting, Oct. 31, 1949]. Bay State, permittee of WBNH New Bedford, Mass., was loser in the initial competition for the Fall River assignment on 1400 kc. Bay State petitioned FCC last year for the new comparative proceeding.

FCC earlier had planned to incorporate in the new hearing an application for approval to sell WALE to WNBH New Bedford, but this request was subsequently withdrawn. The issues specified for the comparative hearing are the following:

1. To determine the legal, technical, financial, and other qualifications of the applicant, Bay State Broadcasting Co. to construct and operate the proposed station, and of the applicant, Narragansett Broadcasting Co. (WALE) to continue to operate WALE.

2. To determine whether the representations and proposals heretofore made by Narragansett Broadcasting Co. to the Commission with respect to the ownership and operation of the station were made in good faith, and whether Narragansett Broadcasting Co. has carried out, or has failed to carry out, such representations and proposals with particular reference but not limited to the following:

(a) The shares of stock issued to and subscribed for by Clark F. Murdocg, George L. Sinor Jr., Albert Pilavin and Leonard P. Cohen and the participation of the said persons in the ownership and management of WALE.

(b) To determine whether Narragansett Broadcasting Co. has carried out, or has failed to carry out, the representations and proposals heretofore made by it to the Commission with respect to program service.

4. To obtain full information concerning the nature and character of the program service which has been
WQXR-FM FEEDS WMFZ (FM)
Program Exchange Without Wire Lines Studied

WQXR-FM NEW YORK, the New York Times station, last week began an experiment to make its programming available to WMFZ (FM) Allentown, Pa. If the tests are successful, WQXR-FM will make its broadcasts available to FM stations in other localities.

Elliott M. Sanger, executive vice president of WQXR, said there are no commercial aspects to the present arrangement, as both stations are cooperating without financial compensation between them during the test period, which will continue for one month. The project, however, may determine the commercial possibilities of a group of FM stations being programmed from a central point and transmitting programs without wire line facilities, Mr. Sanger said.

Starting Feb. 1, WMFZ began rebroadcasting the WQXR-FM programs weekdays from 7:30 p.m. to midnight and Sundays from 12:30 p.m. to midnight.

WQXR-FM announced the move also was the first step toward meeting requests from various parts of the country for obtaining its programs.

George B. Evans

FUNERAL services were held in new York Jan. 27 for George B. Evans, 48, pioneer radio publicity agent of 25 years, who died suddenly of a heart attack in his Bronx home the previous day. He had represented over 200 radio, stage and screen personalities including Frank Sinatra, Rudy Vallee, Lena Horne, Duke Ellington, Margaret O'Brien, Glenn Miller and the A&P Gypsies.

Mr. Evans was born in Latvia and came to the U.S. in his childhood. Before entering the public relations field, he was with the sales division of RCA-Victor. Surviving are his wife, Mrs. Emma Evans, two sons, two brothers, two sisters and a grandson.

Agriculture Information Seeks Fund Raise

AGRICULTURE DEPT.'s Office of Information is seeking nearly a $30,000 increase in funds for fiscal 1951—largely for television activities to meet requests for additional information on the new medium.

This was revealed in testimony released for next week by a House Appropriations subcommittee considering 1950-1951 funds for various government branches. Funds for the department's information office for 1950 were estimated at $1,261,228. The new '51 budget estimate calls for $1,290,000.

R. L. Webster, associate director of information, Dept. of Agriculture, told the subcommittee that the "good record we made in radio (over 25 years) is embarrassing us a little bit so far as television goes, because people expect us to be experts in that field."

He said the department's two-year project would eventually pay "big dividends" in television, especially in the film field, because many television stations just starting "are interested in getting film material which they can run at less expense than live programs."

Thursday edition of five weekly MBS Queen for a Day now being recorded on Tuesday for Thursday presentation because of time conflict with telecasting of the weekly TV version of the program on Don Lee television.

Spotlighting our favorite subjects

broadcasting

BROADCASTING hits home, too...

Some 517 homes is to exact. They're the time buyers who have paid subscriptions at home in addition to office copies.

And they control over (and even we were amazed) 75% of all national radio billing!

True! Time buyers are free to BROADCASTING

KSSO Sioux Falls, S. D.—CP to change from 1140 kc 5500 w unlimited DA-N. Credit granted.

LAMB CANDIDACY

Won’t Enter Senate Race

EDWARD LAMB, president of WOTD Toledo, WVTV (TV) Columbus (both Ohio) and WICI (TV) Erie, Pa., announced Jan. 27 that he would not be a candidate for the Democratic Senatorial nomination in Ohio during the 1950 election. He gave “pressure of professional, business and personal affairs” as the reason.

Mr. Lamb, who also is publisher of the Erie Dispatch, licensee of WICI (TV), reportedly had been in the running for the nomination as opposition to Sen. Robert Taft (R-Ohio). WVTV is licensed to Picture Waves Inc., WOTD (and its FM affiliate, WHTR) to Unity Corp. Inc.

MCIVER SHOW

WMAW Sets Three Sponsors

MRS. STEPHENS MCIVER, who has had an entry in the WMAW Milwaukee past, found its way into WTMJ Milwaukee as “Nancy Grey,” revealed Jan. 26 in Chicago that she has three sponsors for her new half-hour show starting March 9. Sponsors are: Coplin Furrier, Badger Paint Co. and Doering Motors, all Milwaukee.

Mrs. McIver stopped in Chicago during a week-long trip with Doering Motors, on which her new program is daily advertised, before proceeding to southeastern states where she will tape-record a series of interviews, complete with commercial leads-ins. She will air the tapes weekly to a total of 400 WAF from where her half-hour show (Mon. through Fri., 12:30 to 1 p.m.) will originate.

After making recordings in South Carolina, Georgia and Florida, Mrs. McIver will head west covering Texas and California before returning to “live” broadcasts from Milwaukee in May. Already on her itinerary are the U. of Kentucky, Stanford University, Florida's Everglade Club, Roney Plaza Hotel, Houston’s Shamrock Hotel, San Francisco's famous waterfront establishments and the Board of Actor Vincent Price and Columnist Hedda Hopper in Hollywood.

Mrs. McIver and Jack Bundy, WMAW general manager, inspected the new studio which she will use to record her new show.

ROSEY'S NEW SUCCESS

WJAS Sportscaster Is Hit on Morning Show

WITH all the grace and coordination of the big league stars whose performances he has so often described, A. K. (Rosey) Rosewell is now threatening to smash radio's best batting averages with his new morning show, Rosey Bits, on WJAS Pittsburgh.

Rosey, whose WJAS broadcasts of the Pittsburgh Pirates games earned him one of the highest Hoopers of any broadcaster handling baseball, is featured in an hour-long show mainly composed of his original poetry, with music by Lee Kelton's band.

WJAS reports that by far the biggest chunk of fan mail is for the man who introduced to Pirates fans unusual baseball phrases like "dipsy doodle," "open the window, Aunt Minnie" and "put 'em on and take 'em off." His listeners number many of the long standing including 3,000 shits-ins in Pittsburgh homes and hospitals who have been listening to him ever since he began broadcasting some of his original poetry in the home-made crystal set days.

The big mail pull, however, is from the "lady of the house," for whose ear both Rosey and WJAS officials worked out the show.

Just before his "new program" opened, a group of civic, educational, professional and religious leaders in Pittsburgh gave Rosey a big send-off at the William Penn Hotel. Typical of the guests were Baseball Commissioner A. B. Chandler and former New Jersey Governor Harold G. Hoffman, for whom Rosey campaigned in 1926.

"But the new program doesn't drag in baseball by the hair," Rosey says. "There's enough going on around this town now--new building, new ideas, and new shows--to provide lots of radio copy. I'm kind of glad, just the same, that I got a lot of poetry off my chest in the early days. It comes in pretty handy right now on the new WJAS show."

NAB SERIES

Offers Concerts on Tape

A SERIES of 13 hour-long recorded concerts by 13 leading orchestras of Europe will be made available to U.S. stations free, the Unaffiliated Stations Committee of the NAB has announced.

The special series will be tape-recorded in Europe under auspices of the ECA and will begin in April. Stations desiring to use the programs may obtain information from Ted Cott, vice president of WNEW New York and chairman of the NAB Unaffiliated Stations Committee.

Each of the transcriptions will include a five-minute intermission commentary on Marshall Plan activity by Bill Murray, commentator for the Armed Forces Radio Service in Europe.

Transcriptions with commentary in Italian and other foreign languages also will be made available. Arnold Hartley, vice president of WOY New York and chairman of the foreign language subcommittee of NAB, was associated with Mr. Cott in the development of the series.

'MASTER INDEX'

Electronics Volume Issued

THIS volume, third in a series, is a subject index to the contents of electronic and allied engineering publications printed throughout the world from January 1947 through December 1948.

Edited by John F. Rider and containing more than 18,000 new entries, the Master Index lists almost three times the number of publications listed in previous volumes. Among these publications are more than 250 of the major international scientific magazines, journals and proceedings, resulting in a comprehensive bibliography of the electronic and allied engineering arts.

WCAU Contracts

WCAU Philadelphia reports a greater volume of radio contracts on hand than at any other time in its 27-year history, according to Donald W. Thorburn, president of WCAU-AM-FM-TV.

New business in the WCAU broadcast department for the first weeks of 1950 brought the outlook 15 contracts. Sponsorships of individual programs, participation and spot announcements total 1,190 accounts, he said.

NARSRC COUNCILS

Hasbrook, Rhodes Elected

DICK HASBROOK of Avery-Kindel was elected chairman of the Los Angeles Council of the National Assn. of Radio Station Representatives Jan. 26. He succeeds Lincoln Simonds of Weed & Co.

Ray Rhodes of Paul H. Rayner Co. was elected chairman of the San Francisco Council Jan. 19, succeeding Lindsey Spight of John Blair & Co.

The announcements were made by T. F. Flanagan, NARSRC managing director, who also said the San Francisco and Los Angeles councils are joining in arranging an award for spot radio campaigns. Purpose of the award, he said, is to promote the best use of spot radio on the West Coast.

MRS. JANE PRALL DIES

Widow of Ex-FCC Chairman

MRS. JANE B. PRALL, 78, widow of Anning S. Prall, former FCC Chairman, died Jan. 28 at her home, 160 College Ave., Westerleigh, Staten Island. Mr. Prall served on the FCC from June 1935 until his death in July 1957.

Mrs. Prall formerly was vice president of the Federation of Women’s Clubs of New York City, past president of the Port Richmond Women’s Club and a founder and member of the Staten Island Better Films Council. Surviving are a son, Bryan W. Prall, and two sisters, Mrs. Margaret B. Knox and Mrs. Sadie A. Hall, all of Staten Island.

WCSS Amsterdam, N. Y., adds Family Theatre series to its schedule of transcribed programs.

Boggs Elected WMCA Board Member, V.P.

NORMAN BOGGS, for the past year general manager of WMCA New York, last Thursday was elected vice president and a member of board of directors. He has been with the station since Feb. 14, 1949. Before that he was president and general manager of WLOL Minneapolis and prior to that he was with Botelho Carg as general sales manager and director of its New York office.

Helen S. Straus, vice president, was also elected to the board of directors. The two vacancies on the board were created by the recent resignations of Irving L. Straus and R. Peter Straus, sons of Nathan Straus, president of the station. Irving L. Straus is executive, is now in business for himself, while his brother, R. Peter, previously director of special events, has joined the International Labor Organization at Geneva, Switzerland.

CBC Session

Governors To Meet at Toronto

FIRST CBC board of governors meeting to be held at Toronto for many years, is being held at Royal York Hotel, Toronto, Feb. 10-11. Approximately 150 AM stations are subject to new regulations regarding bingo games by radio. The CBC board will consider passing a regulation against the broadcasting of bingo and similar games and will hear representations at its public hearings Feb. 10.

New AM stations are being requested to file for frequencies on 1380 kHz at Victoriaville, Que. and by Gibson Bros. Ltd., for 250 kHz at 1200 kHz at North Vancouver. CJSF Hamilton, has application for increase in power from 745 kHz on 102.9 mc. to 9,200 watts on same frequency. A number of stations are requesting permission for share transfers.

Canada's Hearings

ROYAL Commission on Arts, Letters and Sciences which is holding hearings currently throughout eastern Canada on broadcasting and radio control, is expected to have its report ready for submission to Parliament at Ottawa sometime this fall. Commission is headed by Hon. Vincent Massey, one-time Canadian ambassador to Washington. Hearings have been held in western and central Canada, are now being conducted in the Atlantic coast provinces, and final hearings will be held at Ottawa in the spring. Commission's report will set policy for radio and television in Canada for at least a generation.

AM APPLICATIONS

TRANSFER REQUESTS
KFIO Spokane, Wash.—Transferee of ownership of KFIO from Arthur L. Smith to Louis Wasmann for consideration of $20,000. Smith was retiring because of ill health. Mr. Wasmann previously owned a station in Spokane which he sold to Gonzaga U. He also owns KZMV, 2 kw, and 22% in KXLL Missoula, Mont. KFIO was licensed on March 8, 1946, with 2 kw. Filed Jan. 31.

Lawton, Okla.—Assignment of license from Oklahoma Quality Best, Inc. to M. S. Downing, Jr., H. M. Montgomery and Ted R. Warkentin of Santa Fe. One new individual G. G. Downs is the holder. WDBF for $31,000. KSWO is assigned 1300 kc in dual DA-2.

KRDH Duncan, Okla.—Transfer of ownership of KRDH from Deaver Broadcasting Co. to G. G. Downing to R. H. Mr. Downing purchased 63 1/3% interest to Mr. Drewry for $81,118. Mr. Drewry presently owns 41.6% interest. The change of ownership took place after the FCC has renewed the license. KRDH is assigned 250 W-106 100-w on FM. Filed Jan. 31.

KTVB (TV) Dallas, Tex.—Assignment of license from Parent Televising Corp. to A. H. Belo Corp. for a consideration of $1,000,000.00. Mr. Belo’s extensive business interests require him to give his attention to the Dallas television station is too great to allow this. The FCC concludes that the complete reorganization of WFAA-AM-FM Dallas, KTVB is assigned Ch. 8 (180-186 mc) of 227 kw. Filed Jan. 31.

WNBH New Bedford, Mass.—Assignment of license from Robert S.呕吐 to Co. E. Anthony & Sons Inc. (parent company) for consideration of $20,000. Reorganization of WBNH which is similar to WORC and WORC-XM is assigned 1300 kc 250 w untl. Filed Jan. 31.

WITA San Juan, P. R.—Acquisition of control of Electronic Enterprises Inc. by Antonio Roso Valdivieso through purchase of 49.6% interest of Mr. Meador’s stock. Gloria Meador, Mr. Meador is unable to give adequate financial backing for his interests, proportionate to his stock holdings. Valdivieso who presently holds 50% interest pays the Meadors $180,000.00 for their interest, in the event that the possibility of such debts as Electronic Enterprises may have. WITA is assigned Ch. 11, 25 kw. Filed Jan. 31.

[ILLINOIS] [BROADCASTING, Feb. 21, 1950, P. 159, Mr. Venezky hopes for a Graham license from George W. Smith, Jr. Clay.]

KROW OAKLAND
Island Is Transmitter Site

KROW ISLAND in San Francisco Bay will be the site of a new 5 kw fulltime transmitter to be constructed by KROW-Oakland, Inc. which was licensed in the next four months. Final contracts for the $200,000 construction contract will be let this week and work will begin immediately.

The new transmitter facility is completed by RCA and is in process of shipment. Upon completion, the new transmitter station will provide KROW with the only fulltime 5 kw transmitter in the San Francisco Bay area stations. The station’s present 1 kw transmitter is located at 1520 Eighth Ave., Oakland.

KROW Island, consisting of 1 acre, was dredged years ago from dregdings poured out in the course of deepening channels leading into the Port of Oakland. It lies 200 feet north of the toll plaza on the Oakland approach to the San Francisco-Oakland Bay Bridge.

AFRA Convention

ANNUAL American Federation of Radio Artists convention will take place at Chicago’s Sheraton Hotel Aug. 10-13. Details will be announced later.

SAFETE TALENT

AFRA Quizzes Admen on Use

A SURVEY of 300 advertising experts was launched Feb. 1 by the Seattle AFRA group to discover why greater use is not made of local talent in radio programming. Directed at station executives, advertising agencies announced that managers of local business firms, the 25-item questionnaire asks types of programs used, why, determining factors in choice, construction contracts. The survey, expected to take two months, will be conducted through personal visits by a corps of between 20 and 30 AFRA members. The resulting yes-no answers will then be tabulated. In each case, additional comments are also invited. The findings later will be available for examination by all interested persons.

San Pearce, KOMO Seattle announce and president of the AFRA group, explained that there has been a growing concern among Seattle radio talent at the dearth of locally produced programs.

Preparation of the questionnaire was in the hands of a committee under the chairmanship of Bob Hurd, KOMO producer. Other members are Carl Person, KJR Seattle writer; Dick Keplinger, freelance commentator and newsreader, and Scott Easton, KOMO announcer.

Lang-Worth Clients

LANG-WORTH Feature Programs Inc., New York, announced last week that KXGI Ft. Madison, Iowa, became a new subscriber for the eight-inch Lang-Worth library while 24 other stations renewed contracts.

GAME CHARGES

Wis. League Takes Stand

EDWIN WILKIE, former district attorney of Dane County (Madison), Wis., will retain his courthouse seat for The League of Wisconsin Radio Stations, it was decided at a meeting of the league last week.

Mr. Wilkie attended an all-day league convention Tuesday in the Langhorne House Hotel, Milwaukee, and assisted in drawing up a hard-fight resolution designed to discourage the U. of Wisconsin from charging commercial broadcasting stations for entering university football games. The league, whose members now pay $100 for originating broadcasts of the games, went on record as "opposed to the principle of any payment for both rentals" at the Wisconsin Stadium.

"If the State of Wisconsin has an operating headache because of its football broadcasts, it should get out of the business and let experienced commercial operators handle them," observed Sidney H. Bliss, president of WCLW Janesville and WGEZ Beloit.

Letter Released

Previously, League President Ben Laird had received an appeal from the letter he and Vice President Joseph D. Mackin had written the university Board of Regents in December lamenting the fact that no provision has been made at the institution for radio coverage of athletic events "without overlapping responsibility between the university Radio Committee and the Dept. of Intercollegiate Athletics."

The letter objected to the following university policies:

Denying faculty members and students permission to appear as individual broadcasters; prohibiting the origination of broadcasts; prohibiting commercial announcements from the buildings and grounds, and from university sponsored programs are involved; permitting commercial exploitation through newspaper advertisement paid for by the university station; prohibiting rebroadcasts of university station programs unless each program it is carried in its entirety as a continuous, uninterrupted performance; and permitting political campaign speeches to be made over the university station.

Lobbying Probe

CONCURRENT resolution (H Con Res 62) to create a joint Senate House committee to probe lobbying activities was turned aside by the Senate last week at the request of Sen. Scott Lucas (D-III), Senate majority leader. The probe was dropped after the last session by the House which then set up its own lobbying group, headed by Rep. Frank Buchanan (D-Pa.). Group currently is scrutinizing compliance of registrants, and those who failed to register, under the Lobbying Act.

February 6, 1950 • Page 121
WWJ ADOPTS POLICY FOR LABOR DISPUTES

POLICY governing future labor-management disputes involving public interest—guaranteeing no change in salary minimum of one hour Class A weekly for “joint” use by disputants—set forth by WWJ-AM-FM Detroit. Issue arose over Luckoff, Wayburn & Frankel, Detroit agency, which requested time for its client, the UAW-CIO, now involved in dispute with Chrysler Corp.

Harry Bannister, WWJ general manager, in policy statement to agency, noted that “any use of WWJ’s facilities which does not completely and meticulously ensure in advance that neither party will make greater or more effective use of facilities must serve, in effect, to make WWJ a partisan.” Under procedure, parties to controversy must agree in advance among themselves to use facilities jointly, then jointly request use of time, for presentation or rebuttal, or for joint forum discussion. WWJ would furnish moderator for latter.

EXCISE TAX WOULD BOOST TV SETS AT LEAST 5%

EXCISE tax on TV receivers proposed Friday by President Truman would mean increase in retail price of 5% to 7%, according to first manufacturer estimates. Tax was proposed in message to Congress asking cut in many excise levies as business aid.

TV tax of 10% on factory level would raise estimated $40 million, Secretary of Treasury John W. Snyder told House Ways & Means Committee.

Radio Mfrs. Assn. to consider proposed tax at mid-winter meeting starting Feb. 15 in Chicago. Last year radio excise tax produced $40 million compared to $60 million in 1948.

AFM SUSPENSION OF PAUL TO BE APPEALED

JERRY FAIRBANKS Productions Hollywood, Friday prepared to appeal suspension-fine leveled by American Federation of Musicians against Edward Paul, firm’s musical director. AFM charged Mr. Paul with “alleged violation” of union’s rules banning recording of any music for TV films, though AFM members have been allowed to play for “live” and kinescoped shows.

Fairbanks firm describes charges as “vague” and sometimes “inaccurate”; cites past negotiations for scales and working conditions for TV film music; asserts it was forced to record background music outside of country.

MONTGOMERY’S HOOPER

ROBERT MONTGOMERY’s Lucky Strike show, Mon., 9:30-10:30 p.m., made 32.5 Hooper on premiere last week over NBC-TV network. NBC claims this is record for TV premiere. Previous week The Goldbergs, which plays opposite on CBS-TV, had 34.9 Hooper which put it in top ten.

PEEL FOR CENSUS POST

ROY VICTOR PEEL, director of Institute of Politics at Indiana U., nominated Friday by President Truman to be director of U. S. Census Bureau, to succeed late James Capp.

DuMont Network affiliates to meet Feb. 7-8 in New York. DuMont Labs last Friday gave short demonstration of color system at Pass. N.J.

It's still **bargain day** at WLW

The number of radio stations competing for listening within the WLW Merchandise-Able Area has increased from 153 in 1946 to 258 in 1949... an increase of 69 percent.*

Nevertheless, during February-March, 1949, WLW received 20,046,400 Home Hours of Listening per week—compared to 20,315,137 during the same period in 1946... a decrease of only 1.3 percent.*

Further, on a cost-per-thousand basis, WLW delivers advertising impressions at slightly more than half the cost of using a combination of the best local stations in each of the 21 major markets of WLW-Land.

And that’s why we repeat... it’s still **Bargain Day** at The Nation’s Station!

*Nielsen Radio Index

WLW the nation’s most merchandise-able station

CROSLEY BROADCASTING CORPORATION
Paxton and Gallagher, makers of Butternut Coffee, began an advertising schedule on WNAX January 2, 1939. Recently they began their twelfth uninterrupted year on WNAX, with a 52-week renewal of a Class A quarter-hour news strip.

Like many other blue chip advertisers, Butternut has found that WNAX advertising is a continuing good investment. These advertisers renew their WNAX schedules year after year because they get a consistent return on every advertising dollar invested with Big Aggie.

Big Aggie Land, a Major Market, served only by WNAX embraces more than a million radio families in 308 BMB counties of Minnesota, the Dakotas, Nebraska and Iowa.

In 1948, folks in Big Aggie Land with a buying income of nearly $5-billion—greater than Milwaukee, San Francisco or St. Louis . . . accounted for $4-billion in retail sales—greater than Los Angeles, Philadelphia or Detroit.*

Ask your Katz man to show you how WNAX can produce good will, increase sales of your product or service.

*Compiled from 1949 Sales Management Survey of Buying Power.
... that one sponsor made $8.00 in sales for every dollar he spent on WOR.

... that the sponsor of a one-minute commercial talked to 11—yes, 11!—people for every penny he spent on WOR.

... that over 44% of all spot advertising placed in New York is placed on WOR.

But (we're referring to the cover's cost) it's worth it...

NOW! WJZ-TV

IS TELECASTING FROM THE
WORLD'S TALLEST BUILDING
—THE EMPIRE STATE!

WJZ-TV now transmits from the Empire State Building... the highest building in the world... the ONE best-of-all television antenna location in New York that covers the vast Metropolitan area. It's the same location as used by NBC for WNBT.

For advertisers, this is important news: it means a brighter, clearer, sharper television picture on WJZ-TV for programs and products. AND, it means a larger television audience in the world's Number One market. It means that you now get more viewers for your television dollar on brighter, clearer, sharper Channel 7.

And it is less expensive to put your television program on WJZ-TV—because WJZ-TV offers advertisers the finest studio facilities in the East. The gigantic new ABC Television Center on West 66th Street has the best modern equipment, spacious prop-storage rooms, scene-painting shops, carpentry shop, etc.—everything under one huge roof to save you time and money in television production!

SHARP revisions in promotion film "Lightning That Talks" were indicated last week following preview at NAB board meeting at Chandler, Ariz. Preponderant view was that film, produced by All-Radio Presentation Committee, as distinguished from NAB, required radical surgery, and several directors have announced intention of postponing or canceling presentation in their area unless sweeping changes are made.

IN RE "Lightning" NAB board acted to make known its views to All-Radio Presentation Committee and to networks which had helped underwrite project (Mutual did not participate). Sequence dealing with newspaper readership versus listening drew strongest criticism.

BBDO, New York, preparing spot announcement campaign for Jellek Good Luck margarine, Chicago, to start late February and early March.

SAME AGENCY also has recommended radio and TV spot schedule for early spring to United Fruit Co. Definite decision for all media expected early this week.

WITH VIEW of utilizing economic knowhow of Richard P. Doherty, its labor relations and
(Continued on page 80)

NAB Board Votes Million Dollar Coverage Plan

NAB BOARD at closing meeting at Chandler, Ariz., Friday voted to proceed with plan for organization of new million dollar Audience Measurement Corp., to succeed Broadcast Measurement Bureau, expected to commence dissolution next month (see early story page 19).

Board adopted report submitted by NAB General Counsel Don Petty for BMB, providing for cooperation with advertisers and agencies in creation of new all-inclusive corporation. Next step is formal meeting of BMB tripartite board in early March to evaluate Study No. 2, released Jan. 31, and begin dissolution. Emphasis was placed on protection of NAB $100,000 loan to BMB in dissolution process, which would include payment of obligations and securing of BMB's physical assets and properties.

Five well-known broadcasters have expressed to President Justin Miller their willingness to serve as incorporators of new company. They are: J. Harold Ryan, Fort Industry Co., BMB chairman and former NAB president; Roy Clipp, WFIL Philadelphia; Robert T. Mason, WMRN Marion, Ohio; Frank King, WMBR Jacksonville, and Clair R. McCollough, Steinman Stations.

Report states that upon approval of advertisers, agencies and broadcasters who will be incorporators, articles of incorporation will be filed in Delaware, and first meeting of new board will be authorized to adopt by-laws.

Proposed corporation would have $1 million authorized capital. All stock would be $10 par, common.

Formal SEC procedure probably not necessary if no more than 30,000 shares are sold during any one year. Taking over of BMB activities, assets and liabilities, Mr. Petty said, will depend upon (a) acceptance of second BMB study; (b) extent of financing of new corporation; (c) action of board of directors of BMB and new corporation.

Decision to appoint a general manager completed work of NAB's Structure Committee, which has had project under way for more than year.

New organization chart of NAB evolved as result of board action at Chandler meeting Feb. 17. Major appointment of newly-created post of general manager and elimination of Radio Division, looks like this: At top level, President Miller, to whom new general manager reports. Bracketed under general manager at same level are Television, BAB, secretary-treasurer and FM. At second level, still reporting to general manager, are engineering, employee-employer relations, government relations, public affairs, research and legal.

Selection of person to fill general managership subject to board confirmation. Board was probing for names last Friday, and it was indicated that selection would be made outside present staff, although this was by no means definite. Maximum salary is $25,000.

Special meeting of NAB board will be held co-inincident with annual convention in Chicago next April to confirm selection of new general manager.

Board agreed tentatively that annual series of district meetings should start shortly after Labor Day and continue through October, with 10 meetings in November of about 20 days to allow for national political elections and for regular quarterly board meetings.

Commenting on board action, Judge Miller said:

"The need for a person to assist me in administering association affairs becomes evident when one remembers that I spent all but 50 of the working days in 1949 outside of Washington, principally on district meetings and speaking tours in behalf of our members.

Board authorized Judge Miller to appoint staff members for terms longer than one year.

Immediate audit of NAB's books was ordered. The auditing system will be revised to accommodate accruals from BMB revenues from sale of its services.

Board, after hearing report on Lorain-Mansfield anti-trust case, decided against participation at this time. Similarly, board marked time on occupation tax cases, stemming from

(Continued on page 80)

Business Briefly

FALSTAFF BUYS • Falstaff Brewing Corp. will sponsor Meredith Willsson show, three times weekly, quarter-hour transcribed, in special 40 station market in more than 20 states [CLOSED CIRCUIT, Jan. 30]. Mr. Wilson to double as maestro and emcee. Agency: Dancer-Fitzgerald-Sample, New York.

UNIVERSAL PROMOTES • Universal-International, New York, ready to use spot announcements in most key cities to promote motion picture, "Francis." Budget for film said biggest in company's history, topping expenditure on "The Egg and I," greatest to date.

FILM DEBUT DEFERRED; ANNUAL DINNER PROPOSED

PREMIERE showing of All-Radio Presentation film, "Lightning That Talks," slated March 1 in New York, postponed Friday. All-Radio planning committee to meet Tuesday in New York to consider changes proposed by NAB board after Chandler, Ariz., preview, according to Colleen Gray, WIP Philadelphia, president of All-Radio.

NAB board members invited to take part in re-editing discussion. New York luncheon dinner has portents of becoming annual event at which radio would file customers and prospects with such talent as Bob Hope, Arthur Godfrey and Fred Waring's troupe in line.

Upcoming

(Other Upcomings on page 78)
The offer was made on WKMH's 5:10 P.M. broadcast. Five gallons of free gasoline would go to the first 50 persons calling. The offer was a frank test of WKMH's listenership and ability to draw response. The result?

**the calls that cracked**

The Michigan Bell...

Thousands of calls completely drowned Detroit telephone exchanges, inter-exchanges were inundated, calls could not be made between exchanges. With entire Detroit phone service threatened, WKMH called it off. And Michigan Bell pleaded: "please... never again."

Conlan surveys prove WKMH the lowest cost-per-thousand in Detroit: 33c. Just ask WEED.

That program included an invitation to listeners to call LOGAN 2-4000 for 5 gallons of gasoline. The resulting flood of calls from all over the Detroit telephone exchange area... disrupted service... affected inter-central office trunk lines, and hence adversely affected our service over the entire Detroit area. Unfortunately we are unable to even estimate the total calls placed, but the amount would undoubtedly number in the thousands.

**1000 WATTS FULL TIME**

WKMH GIVES YOU MORE LISTENERS PER DOLLAR IN METROPOLITAN DETROIT THAN ANY OTHER STATION** Plus...**

A BONUS of Ann Arbor, Ypsilanti, Pontiac and Toledo!

Fred A. Knorr
President and Gen. Mgr.

FLINT'S $288,000,000 ANNUAL RETAIL SALES

Cut YOURSELF A PIECE OF CAKE—as large a piece as you choose!

- Flint's huge $288,000,000 retail sales cake is well worth cutting and WFDF's sales knife is the tool to use to get your share!

Why? Because the majority of Flint's retail sales go to advertisers on WFDF for a very good reason:

According to Hooper, more Flint trading area radios are tuned to WFDF morning, afternoon and night than to all four of the other local stations combined! Through the day, WFDF has two to five times as many listeners as any other local station.

And remember this! Prosperous industrial activities in Flint make possible the exceptionally high $5,764 average effective buying income per Flint family.

For a sizeable share of Flint's big retail sales use WFDF and cut yourself a piece of cake—as big a piece as you choose!

H OWARD STEELE JOHNSON appointed manager of public relations for Cunningham & Walsh Inc., New York. He served in varied publicity and public relations activities with C & W's predecessor, Newell-Emett Co.

ELAINE WALL BROWN, formerly with press department of MBS, named director of radio publicity and promotion by Dancer-Fitzgerald-Sample Inc., New York. She succeeds PAT SWEENEY, resigned to form his own public relations firm (Broadcasting, Feb. 6).

FRANK BLUMER, formerly sales promotion director for WJW Cleveland and before that with Foster & Davies Inc., Cleveland, rejoins Foster & Davies as head of newly formed client-service section.

MARLEN E. P.EW Jr., for past eight years director of public relations for Maxon Inc., Detroit, resigns to open his own public relations organization at 415 Lexington Ave., New York.

WILLIAM J. MCKENNA Jr., formerly with Young & Rubicam and McCann-Erickson, New York, joins copy department of Duane Jones Co., same city.

HAROLD M. MITCHELL, with Alfred J. Silberstein, Bert Goldsmith Inc., New York, since 1938, appointed vice president and member of the board of firm.

NEWTON O. WASSON and JOE ROACH join Tatham-Laird Inc., Chicago, as members of merchandising and copy departments, respectively.

RICHARD TEVIS, partner of recently disbanded Boone, Sugg, Tevia & Walden, San Francisco, joins Knollin Adv., same city, as account executive.

FREDERICK W. REYNOLDS Jr., with Lennon & Mitchell copy staff eight years, appointed vice president in charge of copy.

KARL SCHULLINGER, former manager of Pedlar & Ryan Hollywood office, joins Young & Rubicam, New York, as radio and television supervisor. Prior to his association with P&R, he was with Foote, Cone & Belding, New York, as manager of radio department and account executive on Lucky Strike account, and before that he was with CBS.

LOUIS FAUST, formerly timebuyer with William Esty, New York, joins Blow Co., same city, in similar capacity.

HAROLD D. ROACH, formerly manager of Benton & Bowles Inc., Toronto, and WILLIAM E. BARFOOT, formerly of J. J. Gibbons Ltd., Toronto, join Toronto office of Young & Rubicam Ltd., as account executives.

JOHN G. DAVIS, formerly sales manager with Phillips & Assoc., Los Angeles (art service), joins W. B. Geisinger & Co., that city, as account executive. Another addition to agency is JO JACOBS, formerly with KOOL Phoenix, as executive assistant.

JOSEPH R. WALLACE, previously with Lever Bros. as chief analyst in market research department, joins staff of Harold Cabot & Co., Boston.

LEWIS G. KAY, sales executive for WJAS Pittsburgh for past 18 years, joins Pete Wassner Co., Pittsburgh as vice president and treasurer. WILLIAM B. PHILLIPS, with Wassner Co., for past year, named junior member of firm which becomes Wassner, Kay & Phillips Inc.

EDWARD HERBERT joins Campbell-Mithun, Chicago, as account executive. He worked previously on account staff of W. W. Garrison Agency, same city.

BOB BAUMRUCKER, formerly head of his own agency in San Jose, Calif., joins BBDO, San Francisco, as account executive. His former San Jose accounts will be serviced in the future by Benet Hanan & Assoc., that city.

WAYNE TISS, vice president in charge of Hollywood office of BBDO, is in New York for month's conferences during which time he will attend annual agency convention.

PHILIP WHITE, account executive at Needham, Louis & Brody, Chicago, appointed chairman of publicity committee which will cooperate with Illinois Div., American Cancer Society, in its fund-raising drive which starts April 1. Working with him will be WALTER SCHWIMMER, president of Radio Features; BUCKINGHAM GUNN of radio-TV department at Foote, Cone & Belding; HOWARD B. KETTING, vice president, Ruthrauff & Ryan, and WILLIAM HOLLANDER, advertising-publicity director of Balaban & Katz theatre chain which owns WBKB (TV) Chicago.
AGAIN the selling power of KEX gains national recognition! "For outstanding interpretation of the Food Life-Line of America" the Grocery Manufacturers of America award First Prize to Kay West, whose participation program (1:30-2:00 PM, Monday through Friday) is must listening with so many women in Oregon and Washington.

Whatever your product, you can attract a tremendous Pacific Northwest audience through the program power and kilowatt power of Portland’s KEX! For availabilities, check KEX or Free & Peters.

ALLIED KNITTING MILLS (Fashionkit ties) buys all available spots on WGYM (FM) WGRF (FM) and WFDX (FM), all New York, in connection with airing of basketball games which Allied is sponsoring carried by New York independent FM stations [BROADCASTING, Jan. 30].

JOHN WOOD Co., Chicago and Conshohocken, Pa. (Penfield and Marion automatic water heaters), enters radio and TV for first time Feb. 17 when it releases one-minute TV spot, six one-minute recorded commercials and four station breaks to its wholesalers and dealers nationally for co-operative sponsorship. Additional broadcast advertising may be used later. Agency: Wadie & Briggs, Chicago. Peter Frantz is account executive.

IDAHO CREAMERIES, Boise, Idaho. (Arden milk & Sunfreeze cream ice cream), appoints Ross Jurney & Assoc., Salt Lake City, to handle advertising and begins sponsorship of Story Princess, children's show, over network of southern Idaho stations. Account executive is A. H. Garrigues.

ALTES BREWING Co., Detroit, purchases total of 1,040 five-second spot announcements, and 560 chainbreaks over WXYZ Detroit. Spots are to be carried between today (Feb. 13) and end of year. Agency: McCann-Erickson, Detroit.

LOUIS L. LIBBY FOOD PRODUCTS, Long Island, N. Y., appoints Paris & Pearl, New York, to handle advertising of its line of pre-cooked frosted foods. Test campaign which includes radio currently being used in New England.

HAPPINESS TOURS Inc., Chicago, sponsoring Crusade in Europe on WENV-TV (ABC) Chicago for 26 weeks, Sunday, 3:35-4 p.m. (CST) through Engel Adv., same city.

BOSCO, New York (chocolate milk drink), through Robert W. Orr & Assoc., New York, starts advertising campaign using participation programs in following markets: One in New York, one in New Haven and four in Boston.

L'CHAYM KOSHER WINE, Fresno, launches spot campaign, through CVA Corp. in major national markets including New York, Chicago, Milwaukee, San Francisco and Los Angeles. Blow Co., San Francisco, is agency directing campaign.

Network Accounts

GREEN SPOT Inc., Los Angeles (canned orangeade), Feb. 1 renewed for four weeks Tues., Thurs., quarter-hour sponsorship of half-hour Surprise Package on 14 ABC Pacific stations and plans to expand to five quarter-hours weekly on 70 stations in 12 states. Agency: Philip J. Menny Co., Los Angeles.

S. C. JOHNSON & Son, Racine, Wis. (wax) to sponsor Fibber McGee & Molly on TV if March 1 Hollywood audition is favorable. Program would be live in Hollywood, kinescoped in East, starting in September. Agency: Needham, Louis & Brorby, Chicago.

Adpeople

J. HARRY APELER, former southern regional sales manager for Lever Bros., Atlanta, appointed eastern regional sales manager with headquarters in New York; HERMAN L. WIENEKE, formerly Philadelphia division sales manager, succeeds Mr. Apeler in Atlanta, and H. HOWARD YATES, formerly field supervisor in Houston division, becomes Philadelphia division sales manager, following Mr. Wienke.

HOMER REPLOGLE, formerly national sales manager, promoted to newly created position of vice president in charge of trade relations of American Home Foods. LAWRENCE J. SAUERS, eastern regional manager, succeeds Mr. Replogle as national sales manager. EVERETT B. ALLEN, sales control manager, promoted to merchandising manager of American Home Foods.

where everyone in radio hangs his hat...

It's symbolic, of course—but it's also true. BROADCASTING-TELECASTING is the common meeting ground of everyone concerned with radio and TV, and it's been that way since back in 1931 when the first issue of BROADCASTING came off the press.

There are a lot of measurements that traditionally gauge the success of a publication. You can apply them, one by one, to the stature of BROADCASTING—and the result is consistently good.

But the one we like best...the one we think makes the most significant sense...is the way BROADCASTING appeals with equal magnetism to all the different groups of people who depend on broadcasting for their livelihood. It's a balanced kind of circulation.

That includes the advertisers themselves, agency account executives, agency time buyers—as well as the men who actually run stations. What's more, BROADCASTING is first choice among the people who control life-blood advertising budgets spent on radio. You can reach them all with a single roll down the BROADCASTING alley.

Figures? Proof? Sure. "First choice among advertisers, agencies, time buyers..." BROADCASTING carries more radio news, features, advertising linage than any other..." "Survey after survey shows..."

Facts—of course. But what they actually mean is a lot more important to you than the comparisons themselves.

They mean that—to influence the really important people who decide what advertising expenditures shall be spent where—you need one and only one publication. It does the whole job.

Yes, BROADCASTING is the name. Everybody hangs his hat there. It's a good place for you to be seen by the people you want for your clients.
FOR DATA DEMONS...

- The largest and oldest publication in its field, with 15,300 weekly paid circulation.

- More paid circulation among radio advertisers and agencies than any competing publication.

- The highest survey-proven readership of all radio trade journals.

- Home subscriptions (in addition to office copies) by key advertiser and agency personnel controlling more than 85% of all national radio expenditures.

- More advertising linage annually than all other radio journals combined.

- An advertising cost—to reach these decision-making advertiser and agency readers—of less than one cent per impression!
SOMETHING more than courage threads the story of Hugh Edward Sandefur's record program on WSON-AM-FM Henderson, Ky. Accolades for an m.c. who knows his music and how to introduce numbers on his show are commonplace. But when the m.c. is, and has been for some time, flat on his back with arthritis, that's another story.

According to General Manager Hecht S. Lackey, Mr. Sandefur has suffered with his affliction for about 15 years. It has left him with his hands free but his body nearly immobile. From his bed Mr. Lackey introduces his platters over a mike that has the goose-neck anchored to a specially built overhead frame. A telephone line connects him with the station. Beside the bed is a power unit and amplifier which steps up the sound that is carried by phone line to WSON's transmitter. At program time, mike cut-out is used to connect Mr. Sandefur with Engineer Mr. Sandefur talks from his bed

"* * *

Vernon Nunn who spins the platters.

While tireless effort is put into this program alone, Mr. Sandefur also composes music and lyrics, plans improvements for his program, answers fan-calls and produces a daily radio column for the Henderson (Ky.) Gleaner and Journal.

* * *

TOM LOSEE's parents wanted him to be a doctor. Tom never got his M.D. but instead followed his own inclinations and ended up with an M.E. after his name—for McCann-Erickson. Account executive on Westinghouse, the Brooklyn-born and Duke-educated Mr. Losee has been with the agency for 14 years.

Tom began his business career with the Abraham Strauss department store in Brooklyn. He advanced to the position of assistant buyer before leaving for a merchandising job with the American Can Co.

In 1936 he joined McCann - Erickson, and a scant year later he was promoted to the post of account executive on the Axton-Fisher account where he helped secure a $400,000 spot campaign.

In 1938, he became account executive for Nujol, Mystol, and Flit which had a million-dollar radio appropriation.

When, in 1944, the agency acquired the Westinghouse business, the tested talents of Mr. Losee were appropriately rewarded and he was named account executive.

That he has merited the authority has been repeatedly illustrated by the success he has achieved with the programs under his guidance. These include the Ted Malone Show, five times weekly on ABC; and one of the most successful prestige programs on television, Studio One, Monday on CBS-TV.

Hundreds of case history letters from distributors describing the potency of Studio One flow across Tom's desk. In fact he estimated, as a result of this response, that Westinghouse can demonstrate its products more effectively in more homes in one week through its TV show than it could in one month in the old manner of store demonstrations.

When McCann-Erickson bought the program for Westinghouse last May it was carried on 15 stations. Today less than a year later, approximately 41 stations are carrying it.

One of radio's most popular executives, Tom Losee was born on July 14, 1912, a twin brother of Wilmot Losee, sales manager of WINS New York. He is married to the former Powers model, Jeanne Grandeman. They have two children, Tom, 9, and Alan, 5. The family lives in West Hempstead, L. I.

Tom's hobbies are tennis, golf and swimming.
Mr. BROADCASTER

HERE'S MONEY IN YOUR POCKETBOOK

Greater Operating Economy
Lower Initial Cost
Longer Life

You save from every angle when you buy and use transmitters employing Eimac tubes. Saving starts with the initial tube cost...you save again every hour you're on the air because of higher tube operating efficiency...and you save still further by staying on the air more hours without service shutdown.

Take as an example of Eimac tube economy the rugged 3X2500F3 triode pictured above. Initial cost is $180.00 each, yet as power amplifiers they will provide 5 kw output per tube...that's lots of watts per dollar cost. The dependability of this tube and its high frequency version (type 3X2500A3) has been proven over many years by thousands of hours of life in AM, FM, and TV service.

These tubes are the nuclei around which modern transmitter circuits have been developed and built.

Let us send your engineering staff complete data on the 3X2500F3 and other Eimac tubes for broadcast service. A letter to us will bring the material by return mail.

Mr. Broadcaster:

Each new year has brought improvements in Gates engineering design, many have benefited every broadcaster. Believing staunchly in progress, we firmly believe this latest Gates engineering achievement will provide a new high in quality radio broadcasting and like all engineering progress should be--provide impressive price reduction and of much more importance almost unbelievable operating expense reduction.

Gates Radio Company

FOR THE '50 DECADE
FIVE THOUSAND WATT T

5KW. TUBES ARE NOT COSTLY—

In the Gates BC-5B transmitter plus proof in years of grueling F. M. high frequency service where ruggedness is mandatory. The Eitel-McCullough 3X2500F3 tubes are both modulators and power amplifiers in the new Gates BC-5B.

FIVE KW. BC-5B TRANSMITTER S

Has five R. F. stages with amplifier; four audio stages with Class B modulators. I.F. stage will meet full F. C. C. specifications. Three power supplies. Former and reactor. Input impedance 10,000 ohms. ±1.5 Db. Noise 60 Db. unweighted; Distortion 3%, even better in between. (Dimensions illustrated) 165" by 49". Power and modulation efficiency at 100%
GATES ANNOUNCES A NEW MODERN TRANSMITTER REDUCING OPERATING EXPENSE

There is no investment in power tube cooling radiators and about one-half ordinary investment in spare tubes. With one major blower — less motors to maintain and consume current. Lower plate voltage (5000 volts compared to the usual 8000) means reduction of insulation problems and greater immunity to breakdowns and costly part replacements. Power factor at 5KW. is 90%.

And performance — thoriated tungsten power tube filaments provide consistent 60 Db. or better noise reduction while tube and component adjuncts contribute naturally to lower distortion, especially at higher frequencies.

A NEW HIGH IN — PERFORMANCE — QUALITY — ECONOMY — GATES BC-5B

Say Men! — that puts 5 kw. operating expense almost in the 1 kw. class.

NATIONAL REPRESENTATIVE
JUDGE IS BOSS

By SOL TAIHOFF

IN A NONE too tranquil atmosphere, the NAB Board of Directors’ meeting at Chandler, Ariz., last week handed to President Justin Miller plenary powers to run the association and to hire and fire virtually as he sees fit.

The calling of all operating functions to a general manager was one of the major items on the board’s agenda. The board authorized the appointment of a general manager to whom all staff directors would report. The No. 2 executive would serve exclusively in Washington headquarters and direct the business affairs of the organization.

The board itself is to name a committee from its membership to advise in selection of the general manager whose appointment must have board confirmation.

Also to be appointed is a field representative whose duties generally will relate to new membership and membership service.

No Names Mentioned

There were no names mentioned for the post of general manager. Whether President Miller would go outside the present NAB staff was not indicated. The post, it was conjectured, would pay from $17,500 to $25,000 per annum. A. D. (Jess) Willard Jr., who retired as executive vice president last July and who now is president of WGAC, Augusta, Ga., was paid $25,000.

Creation of the new post came after a proposal for an appointment of an executive committee of the board was tabled. The Structure and Finance Committees met in special session Thursday night to evolve the final plan, ratified by the full board the following morning.

The plan contemplates assignment of all operating functions to the general manager, with President Miller to direct policy and to serve as radio’s spokesman. But the general manager would report to the president, not the board.

Action climax ed a three-day session at which there was an evident涌court as to the manner in which NAB affairs have been conducted in recent months. In giving Judge Miller a “blank check” the board approved the recommendations not only of the Judge himself, but of the Structure Committee headed by Clair R. McCollough, president of the Stein

FREE TIME REVOLT

By ED JAMES

(See Editorial page 40)

STATIONS throughout the country were in revolt last week against further donations of free time to organizations conducting paid advertising campaigns in other media.

The sharp station reaction was provoked by word that radio had been excluded from advertising appropriations for Army and Air Force recruiting in the first half of 1950 [BROADCASTING, Feb. 6]. Although Grant Advertising, Chicago agency now handling the Army account, advised BROADCASTING that radio would get a large share of the budget beginning in July, the fact that no radio time was included in the Army’s national advertising plans until then was enough to encourage some stations to suspend Army programs and announcements they had been carrying gratis.

It was believed likely that the Army incident would serve as an agent for the crystallization of widespread action by stations on the entire subject of the abuse of radio’s historic willingness to donate its time to public service causes.

This subject was one of national interest among broadcasters because evident a fortnight ago when the NAB Unaffiliated Stations Committee adopted a resolution calling upon the NAB board to review the entire problem of free time [BROADCASTING, Feb. 6].

Protests to Grant

The revolt of stations against the discriminatory practice followed by organizations that solicit time from radio while buying space in other media was manifest in several ways.

Many stations protested to Grant Advertising and, on a perhaps more immediate responsive front, to their Congressmen. The exact volume of such correspondence was not disclosed, but it was known to be considerable.

Some stations reported they had cancelled all further Army shows and announcements pending the restoration of radio to the national advertising appropriation.

Broadcast Advertising Bureau and national station representatives were keeping stations advised on the Army issue, and BAB has planned talks with the Army.

The protests to Grant Advertising were of no more than academic significance insofar as the Army/Air Force budget for the first half of 1950 was concerned. The exclusion of radio from those funds, it was learned, was made when the Army account was being handled by Grant’s predecessor, Gardner

(Continued on page 75)
LEVER MULLS
Bob Hope Tape Request

LEVER Bros. executives, Bob Hope and his manager, Jimmy Saphier, met in New York last week to settle three problems: (1) taping of the Hope show, (2) renewal of the Hope contract and (3) clearance from Lever Bros. to tape a daytime disc jockey show for another advertiser, Borden Co.

Charles L. Luckman, former president of Lever Bros., had turned down Mr. Hope's requests to tape the program, but the comedian is understood to feel that the new management might be persuaded to allow him the tape.

The renewal date for the contract between the company and Mr. Hope is understood to be late this month.

Borden Co. through its agency, Kenyon & Eckhardt, New York, has offered Mr. Hope a five times weekly recorded disc jockey show, for a daytime broadcast. Mr. Hope is said to be ready to sign the Borden contract if clearance from Lever Bros. is forthcoming.

At week's end the Lever Bros. executives had not yet announced their decision.

Meanwhile, however, the company had notified one of its agencies, J. Walter Thompson, to drop sponsorship of its television show, The Clock, on NBC-TV, effective March 29. This marks the first cancellation of advertising for the company since the recent resignation of its president, Mr. Luckman.

The Ilka Chase TV show announced earlier as in the negotiation stage will start however in mid-March on CBS-TV for a Lever Bros. product, Harriet Hubbard Ayer.

FREQUENCY STUDY
Truman Not to Name Board

PRESIDENT TRUMAN does not plan to appoint a board to study use of radio frequencies, particularly among governmental agencies, he said at his Thursday news conference.

Asked if such a plan was in the works, he said he hadn't thought about the subject. The government already has a board (Interdepartmental Radio Advisory Committee) to deal with this problem, he added, explaining that he didn't see any need for a new committee.

Miller Is Chairman

NAB PRESIDENT JUSTIN Miller has assumed chairmanship of the Radio Committee of the Citizens Committee for the Hoover Report, according to Mr. L. Johnson, national chairman and president of Temple U. Judge Miller said he was heartily in sympathy with the aims of the committee, added that it was the purpose of America a priceless chance to understand the complex problems of their government.

Mr. Warren, Mr. Stevens, Mr. Gannon, Mr. Norman

NAB TV Shift

SALES and program staffs of NBC's New York stations, WNBC and WNTB (TV), were split last week into radio and television entities [CLOSED CIRCUIT, Feb. 6].

The separated sales staffs were placed under a single director of sales.

Appointed to that post was Donald A. Norman, former assistant manager of the integrated stations.

Coincident with the announcement of Mr. Norman's new job, the resignation of John C. Warren, sales manager of both WNBC and WNTB (TV), was announced. Mr. Warren will devote full time to his own business, the J. C. Warren Corp., New York, engaged in development and manufacture of magnetic recording devices.

Reporting to Mr. Norman, in addition to the separate radio and television sales staffs, will be Murry Harris, director of advertising and promotion—an integrated service.

Stevens Appointment

The appointment of George C. Stevens, former traffic and sales service director, as controller for both radio and television, was also announced. Mr. Stevens will take charge of the stations' finances, office service and personnel functions under a new cost accounting system being adopted by all NBC owned-and-operated stations.

Press, public affairs and news departments of both stations remain integrated under the direction of Schuyler Chapin, Hay Heltin, news and special events supervisor, and Wini Schafer, press representative, will report to Mr. Chapin.

Harvey J. Gannon continues as program manager of WNBC with the newly separated radio program department under his direction. Reporting to Mr. Gannon will be Earl Harder, radio operations supervisor; Clay Daniel, radio production supervisor; Thomas J. Page, director of television engineering; and Joseph Rothenberger, AM continuity assistant.

A new television program department has been created under John H. Reber Jr., continuing as WNBT program manager. Catharine Clarke, television operations supervisor, and Raymond Johnson, television continuity assistant, report to Mr. Reber.

The appointments were announced by Thomas B. McFadden, manager of both stations.

Ryan To SCBA Board

WILLIAM B. RYAN, general manager of KFI-AM-TV Los Angeles, has been elected to the board of directors of the Southern California Broadcasters Assn. He fills the unexpired term of Harry Witt who resigned, leaving the radio industry to become vice president of Harry Korn Co. Beverly Hills real estate, property management and insurance firm. [BROADCASTING, Jan. 30]. Term runs until June 1. A former NAB district director, Mr. Ryan currently is chairman of NAB Broadcast Advertising Committee.

PACKARD SPOTS
Starts Five Week 'Blitz'

PACKARD Motor Car Co. announced today (Monday) a five-week "blitz" radio spot campaign on 130 stations covering some 300 dealer cities. The company said the total expenditure probably will exceed the estimated $250,000 cost as dealers themselves support the drive locally.

Announcements include two 15-second spots to focus attention on Packard's "low price story" and three others have been distributed, for possible dealer's sponsorship on local stations. Hugh W. Hitchcock, Packard director of advertising, explained.

Transcriptions are tailored to regional tastes, with some announcements designed for listeners in northern localities and others produced primarily for southern and Pacific Coast audiences, Mr. Hitchcock said.

Top-flight talent is heard on the commercials, which have been distributed nationally through the Detroit office of Young & Rubicam Inc.

NEUBERT TO NBC
Heads Merchandising Unit

H. NORMAN NEUBERT, public relations manager of R. H. Macy & Co., New York, since 1943, has joined NBC to organize and supervise a merchandising department for the network's six radio and five television owned and operated stations.

Mr. Neubert will assume his new duties March 1, according to James M. Gaines, director of NBC O&O stations, who made the announcement last week. He will set up a merchandising program for the 11 stations.

Prior to 1948, Mr. Neubert was divisional advertising manager of Macy's men's store for a year and before that an account executive with Morton Freund Advertising Agency. Mr. Neubert is chairman of the public relations committee of the National Retail Dry Goods Assn., and is a member of the New York Sales Executive Club.

Affiliate Suit

ATTORNEYS for Salt River Valley Broadcasting Co. won a continuance against CBS through March 7 Thursday in Chicago's Federal District Court [BROADCASTING, Feb. 6]. Firm of Damon, Hayes, White & Hoban asked the court for another time extension to answer a brief filed by CBS in a case involving a complaint by the firm on Feb. 6. Salt River Valley, licensee of KOY Phoenix and affiliated in ownership with KTUC Tucson, last November brought the complaint against CBS, charging affiliation to KOPO Tucson and KOOL Phoenix was without proper notice.

Page 20 • February 13, 1950
CUBAN SHUFFLE

APPOINTMENT of a new top-level slate of communications officials in Cuba delayed U. S.-Cuban negotiations on NARBA assignments again last week, but revived U. S. optimism for a successful outcome.

President Carlos Prio Socarras announced the appointments in a Feb. 3 broadcast, one week after the surprise resignation of Communications Minister Arturo Ilas and the selection of Carlos Maris- tany as acting minister [BROADCASTING, Feb. 6].

The appointments: Sergio Clark, a former minister of communications, was returned to that post.

Dr. Jose R. Gutierrez, head of the Cuban delegation to the NARBA conference at Montreal last fall, was appointed deputy minister.

Guillermo Morales, formerly inspector general of radio, was named director of communications. Martinez, appointed as minister, was made inspector general of radio.

Favorable Reaction

News of the appointments brought a generally favorable reaction in U. S. broadcasting quarters. It was greeted as an antidote for dampened spirits occasioned by the resignation of Mr. Ilas and the temporary appointment of Mr. Maristany, chairman of the 1946 Cuban delegation which won substantial NARBA concessions.

Mr. Maristany, it was reported, plans to run for election to the Cuban Congress from the Province of Matanzas.

Mr. Clark, the new minister, is described as an able executive who is generally respected by U. S. broadcasters. He was minister in 1946, before the NARBA conference of that year was held.

With the shakeup among radio officials, the negotiations between U. S. and Cuban delegates with respect to NARBA assignments was further delayed. Slated to open Feb. 1, the discussions had been delayed during the first week by the resignation of Mr. Ilas.

Authorities were hopeful late last week that the conferences could get into full swing and begin to show progress in the near future. Purpose of the sessions is to reach agreement on Cuban and U. S. channel rights. Differences on this score forced the current recess in the full NARBA conference last December when the U. S. rejected Cuban demands as being too far-reaching.

The full conference is to resume in the U. S. at some time between April 1 and Sept. 1. Mexico, which has not yet agreed to and is now, has indicated a willingness to join the sessions if she is given time to prepare, which would indicate a resumption nearer Sept. 1 [CLOSED CIRCUIT].

Meanwhile, FCC Commissioner Rosel H. Hyde, chairman of the U. S. delegation to Havana, and his colleagues were treated to a detailed exposition of Cuba’s NARBA position by Dr. Nicholas Men- doza, former director of radio.

In a full-page article titled “NARBA, or The Case of the Dog in the Manger,” which appeared in the Havana Post of Feb. 3, Dr. Mendoza said: “Since technical progress has not eliminated interference, Cuba proposes to retain the Sovereign Rights to use all channels, and insists on the conclusion of a Regional Agreement that will reduce interference to a minimum.”

Failure Cited

Calling attention to U. S. failure to decide the long-pending clear-channel case, he asserted: “... while indecision reigns, the dog in the manger neither assimiates, nor allows Cuba to munch at them.”

Dr. Mendoza charged that the old NARBA’s 650 mile rule “was nothing more than a clever subterfuge” to keep Cuba from using U. S. channels.

He summed up Cuba’s attitude toward U. S. clear channels as follows:

... Cuba will respect adequate protection for the U. S. station’s effective service area of today, in conformity with principles of good engineering, and as regulated by the Atlantic City Radio Regulations, but will simultaneously use their identical channels in Cuba, even if that implies placing a useful signal in Florida, because the stipulation not to use those channels was a self-imposed limitation valid only during the term of the contract, and NARBA’s extension has expired.

Will Cuba agree to accept similar limitations as some of the old clear channels? Without a doubt, the answer is YES! Provided: That it finds it reasonable; that in so doing, it obtains guarantees that it can satisfy its broadcasting needs; that it arrives at that conclusion freely; and this can be achieved only across a conference table where the ebh and flow of give and take may seek its level in balanced compromise.

Dr. Mendoza, who was one of the leaders in the original NARBA movement, said that since NARBA expired last March 29 “Cuba has not grabbed or assaulted the property of any other nation, nor of any of its citizens.” Cuba has, he said, “made use, and is determined to continue making use of those facilities it needs.”

Warning Sounded

He sounded an implied warning that Cuban demands now may be even farther reaching than those of the past. He noted that the requests Cuba made in 1940, 1946, and in 1947 all fell short of those made at Montreal last fall.

He said AM channel demands have virtually reached their peak for the U. S. FCC will now need at least 10 years to reach a similar peak. From now on, while pressure for new facilities in the standard band will tend to decrease in the USA, the same pressure will continue increasing in Cuba.”

STATION CONTRACTS

THE SUPREME COURT made clear that a license FCC has granted to a broadcaster is an act in trust for the public that has a right to meddle with the rights granted in contracts between radio stations and others.

The Commission’s disapproval of a contract, the court held, does not in itself invalidate the contract.

The ruling came in a 7-0 decision upholding an award to Southern Broadcasting Stations Inc., in its suit against the Georgia School of Technology (WGST Atlanta) for recovery under a contract which FCC banned [BROADCASTING, June 13, Dec. 12, 1949].

In an opinion which also questioned FCC’s handling of the case, Justice Stanley F. Reed wrote for the court:

... Under the present statute, the Commission does not exercise any power over contracts, even if such contracts are a matter of public concern. When the Commission decided to consider our contention, it was the Commission itself that was to act within the scope of its licensing power, i.e., to grant or deny the license in the light of the situation of the applicant.

It could be insisted that the applicant change its situation before it was granted a license, or that it be granted a license at an immediate bankruptcy court to change that situation for the applicant. The public interest, after all, is in the effective use of the available channels, and only to that extent in what particular applicant receives a license.

The Commission has said frequently that controversies as to rights between licensees and others are outside the ambit of its powers. We do not read the Communications Act to give authority to the Commission to determine the validity of contracts between licensees and others.

“The Commission may impose on an applicant conditions which it must meet before it will be granted a license,” the opinion said at another point, “but the imposition of the conditions cannot directly affect the applicant’s responsibilities to a third party dealing with the applicant.”

‘Hard Choice’

The Court recognized the “hard choice” which required FCC to condone violations of its rules by approving the license application, or else “deprive the public of the advantage of a station under the management of the [school’s] Board of Regents.”

FCC legal authorities denied the ruling would affect FCC’s famed Port Huron decision or other policy regulations, including relatively new rules banning station sales in which time is reserved as part of the sale. Sales are illegal.

They pointed out that the Supreme Court’s decision leaves WGST in the same position which FCC in its decision had tried to avoid—that is, faced with liability under a contract which the Commission feared would endanger its financial stability.

The contract, drawn up in 1943 to replace a management agreement to which FCC had objected, provided for a sale to and operation by Georgia Tech to buy out the management group, Southern Broad- (Continued on page 78)
By FLORENCE SMALL

The Pacific Coast Borax Co., Los Angeles, spends half a million dollars a year on advertising, and for 20 years its every appropriation has been channeled into radio.

For two decades the company has relied exclusively on radio to sell its products, 20 Mule Team Borax and Boraxo. Recent sales data reveals that radio has responded yeomanly to the trust, doubling the already prodigious sales of the products since 1940.

For the past five years the destiny of the account has ridden high on the stalwart shoulders of The Sheriff, an action-packed western program heard on ABC Friday, 9:30-9:55 p.m.

But for all his derring-do, The Sheriff—all man and two yards high—owes his existence, as well as a great measure of sales success, to a woman. That woman is Mrs. Dorothy McCann, vice-president of McCann-Erickson.

Mrs. McCann’s first affiliation with the Borax account dates back to 1930 and marked a significant sign post in the productional development of radio itself.

Dramatic Shows Then Were New to Radio

Most of the radio programs of that day were musical shows. There were only one or two dramatic offerings on the air. One of them was Real Folks, sponsored by the Cheesbrough Mfg. Co. (who now sponsors Dr. Christian), Real Folks was Mrs. McCann’s first radio production, started in 1928. Its mushrooming success led the McCann-Erickson agency to recommend to the Pacific Coast Borax Co. that it embark on the new dramatic form to sell its products.

Show Runs Continuously From 1930 to 1944

In spite of the deep rooted feeling in the radio industry that the audience would not understand drama which they could only hear and not see, the Pacific Coast Borax Co. had the vision to realize that radio drama could become the most basic entertainment of all. And so a new dramatic radio show Death Valley Days, was launched. Depicting stories of the Old West in the region where borax was mined, the show was inaugurated on Sept. 30, 1930, on NBC.

It rapidly became one of the favorite listening periods on the air, bringing a new breadth and romantic flavor to radio. Continuing unbrokenly to 1944, the program was heard for the latter three years on CBS.

In 1944, however, the program, which in a sense set a pattern for modernity, was itself supplanted by a more modern program, Seeking to retain the feel of the West while adding the extra allure of mystery, Mrs. McCann conceived the idea for The Sheriff. It was an immediate success; old listeners remained and new ones were added. And most significantly, sales of 20 Mule Team Borax and Boraxo continued to build.

The program has a consistent Hooper rating of 9 or over and is considered by the network to be one of its anchor shows for Friday night programming. The role of the Sheriff is played by Don Briggs. His girl-friend, Jan Thackeray, is portrayed by Helen Claire. His consultant on psychology, the Professor, is played by William Podmore.

History of Borax Co.
Is Drama Itself

Hardly less enthralling than one of its dramatic presentations is the history of the Pacific Coast Borax Co. itself. That history actually
The chairman used a pair of disenchanted but hospitable gold seekers.
Their midst was warded by the loitering, shoestring prospector whose operations were conducted in aisen mania.
Eagerly, he joined the chase, cursing the disappointment he felt when he arrived at the camp of the two men.

As the journey continued, the prospector observed the death of the borax as a mineral, and he was determined to bring it to life.

Borax, the story goes, was discovered in the 19th century by prospector Winters. He was a man of vision, and he recognized the potential of the mineral.

He was joined by his wife, Rosie, who was a chemist and a inventor. Together, they developed a new method to refine borax, making it suitable for use in household products.

The company, now known as Pacific Coast Borax Co., was founded in 1910.

Today, the company continues to produce borax and other minerals, and it is a major player in the industry. The company's headquarters are located in Los Angeles, and it has mining operations in Nevada and California.

The story of Pacific Coast Borax Co. is one of perseverance and innovation, and it is a testament to the power of human ingenuity.

The company's story is a reminder that sometimes, the most difficult obstacles can be overcome with determination and hard work.

WDSU CHANGES

AM-TV Programming Divided

DIVISION of the WDSU Broadcasting Services' radio and television program departments into two separate operational entities was announced last week by Robert D. Swezev, general manager of the New Orleans outlets.

Mr. Swezev said managers were appointed for each media after the WDSU plans board concluded that executive personnel would be unable to divide their duties and obtain maximum results.

Stan Holiday, appointed radio program manager, also will serve in an advisory capacity to television. Ray Rich has been appointed television program manager and will be available in an advisory capacity to radio. Television operation will be handled by Carl Junker. Mr. Swezev also announced the appointment of Leroy Laudermaun as musical director.

Other Changes

The musical department under Mr. Laudermaun, sports and special events under Mel Leavitt and women's programs under newly appointed Joyce Smith will continue to function interchangeably between radio and TV, Mr. Swezev stated.

Time sales for radio and television will continue to be handled by one department but the station is contemplating the establishment of separate sales forces for each medium, Mr. Swezev added.

Mr. Rich

Mr. Holiday

WCLP PURCHASE

WJLK Bids For Ownership

ACQUISITION of WCAP-AM-FM Asbury Park, N. J., by WJLK(FM) there was announced last week by Mr. Swezev, WJLK manager. Consideration is understood to be in excess of $50,000. Formal application for FCC approval is in preparation.

WJLK, owned by the Asbury Park Press, began operations on 94.3 mc with 1 kw two years ago. WCAP, assigned 250 w on 1310 kc, was established there in 1927 and since 1945 has been owned by the Charms Candy Co. WJLK and WCAP are to be combined under WJLK call letters. The WCAP-FM operation on 107.1 mc would be dropped. Headquarters for the operation will continue in the Asbury Park Press Bldg.

"Due to technical difficulties beyond our control, the program 'Precocious Prodigies' will NOT be heard at this time."

TRANSIT RADIO LEGAL? Suit Filed In D. C.

FIRST step was taken in testing the legality of transit broadcasting, in at least one city, with the filing of a suit in Federal District Court in Washington, D. C., on Feb. 8.

Opponents of radio-equipped vehicles in Washington also looked for results in Congress. A bill (HR 7150) introduced Feb. 6 in the House by Rep. Walter Norblad (R-Ore.) and referred to the House District Committee, would prohibit "commercially sponsored radio broadcasts on streetcars and buses in the District of Columbia." A fine of $1,000 would be imposed upon a company for each day it continued to violate the law.

At the U. S. court in Washington, a bill of complaint seeks a permanent injunction against Capital Transit Co. (WWDC-FM Washington provides broadcasting services) to bar operation of any form of broadcasting in its vehicles. The suit was filed by Hector G. Spaulding, of the law firm of Spaulding & Reiter, Washington (BROADCASTING, Feb. 6). Mr. Spaulding is legal counsel for the Transit Riders Assn.

Meanwhile, a decision is awaited on another maneuver by the association and Washington Attorneys Guy Martin and Franklyn Pollak—appeal for a rehearing before the Public Utilities Commission which ruled transit radio "not inconsistent with public convenience, comfort and safety."

Mr. Spaulding told BROADCASTING the complaint would be carried to the Supreme Court if necessary." He added, however, that the injunction request would be dropped should the commission "modify or rescind its action." Date for the opening of argument has not yet been set.

The complaint read in part:

"Through the operation of these installations defendant violates its public and contractual duty to transport its patrons, including plaintiff's members, quietly; it infringes on their privacy; it restricts their freedom of thought; it seeks to make an unlawful and unconscionable income out of their helpless position by selling to advertisers the opportunity thus to commit aural aggression upon them; it violates also its duty as a common carrier not to interfere with the free exercise of their faculties by a significant number of riders, which may lessen their efficiency and even endanger their health."

WCB ON AIR

Akre Daytime Starts

WCB Akron, Ohio new 1 kw station during daytime on 1510 kc. made its debut yesterday (Feb. 12). Programming of the independent outlet features children and women's shows, "difficult" music library and local civic and social news. Tim Elliot, station manager has announced.

Mr. Elliot

CHICAGO DISPUTE

Mediation Effort Seen

CHICAGO office of the Federal Conciliation and Mediation Service is expected this week to call a meeting of management from WHFC Cleero and WSBC-WXRT (FM) Chicago on complaint of International Brotherhood of Electrical Workers (IBEW), Local 1220. The union is seeking wage increases for six engineers at each station as an aftermath of salary gains from four other Chicago stations where it has jurisdiction.

Local 1220 seeks mediation after a unanimous strike vote by card holders at WSBC and its FM affiliate, WXRT. Robert Miller, station manager, was notified last week of the intention to strike, 30-day notice of which was given to the federal board. Congressman Richard W. Hoffman, owner of WHFC, also has been informed officially of the union wage demands.

BMI CLINIC

Pacific Coast Sessions Set

FIRST Pacific Coast BMI program directors and librarians' clinic will be held at KHIJ Hollywood studio on Wednesday (Feb. 15). Approximately 200 persons are expected to attend.

Robert J. Burton, BMI New York vice president in charge of publisher relations, as principal speaker will discuss "Application of Copyright Law in Broadcasting". Calvin J. Smith, vice president and general manager of KFAC Los Angeles and NAB 16th District director, will tell of the "Importance of a Clinic at Press Level." Other speakers and their subjects are as follows: Carl Brewster, KFVD, "Building Station Personality Through Programming"; Charles Clifton, KKRD, "Programming for the Listener"; Carlton Adair, KJH, "Importance of Program Content and Sequence"; Robert Brown, KNBH (TV) "TV Versus AM and TV Programming Problems." Discjockey session will be participated in by Al Poska KFI; Bill Anson, KFBW; Tom Hanlon, KNX; Bob McLaughlin KFI. All stations are in Los Angeles.

"Who Licenses What Tune?" will be discussed at music clearance roundtable. Participants include Alec Petry, WABC; Marty Hubbell, ABC; Robert Shepherd, KJH; Anne Brenton, CBS; Charles Hamilton KFI.

Participating in librarians' panel and discussion are Norm Barnett KGFJ Los Angeles; Dale Babcock KJF; Nancy Basche, KNX; Edith Kent, KFAC; Jerry Sylvilrrud KMPC; Jane Russell, KFBR.

Glenn Dolberg, BMI West Coast field representative, is to preside over the all-day sessions.

BROADCASTING  Telecasting
Radio Rallies Again

FOR

THE MARCH OF DIMES

12-year old Connie Lawier, a polio victim, beside coins contributed to the drive (see RENT Des Moines, item in this story).

13-year old Gene Wilkey "eats his hat." 

The entire broadcasting industry this year again formed a solid front as battle lines were drawn in the annual fight against infantile paralysis. The March of Dimes campaign well as the many associated drives to support the anti-polio cause, received the support of all phases of AM, FM and TV broadcasting.

AM and television networks set the pace with special efforts. CBS's opening rally from New York's City Hall featured network's Arthur Godfrey as host to many civic and entertainment personalities while similar boost was given drive via CBS' television network. ABC likewise spared no talent on America Salutes Franklin D. Roosevelt's Birthday feature while NBC-TV sent Hoody Doody to conduct mass public school rally in New York. DuMont TV network staged two-hour star-studded show from Adelphia Theatre with models manning phones to accept contributions.

Program Ideas Abound

On the home town front, local stations across the nation sparked the campaign with personalities, special programs, auctions and other promotion gimmicks typical of radio's past performance in all-out drives.

Here's a cross-section of radio's public service effort, excerpted from the innumerable reports reaching Broadcasting during the drive and its aftermath. The final resume shows:

WLAD: In Danbury, Conn., WLAD played a leading role in the March of Dimes. Danbury, "the hat center of the world," was chosen to open the broadcast from a 50-ft. Mile of Dimes stand erected on a sidewalk in the heart of Hartford's shopping district.

WHOM: In cooperation with the anti-polio campaign, WHOM New York prepared a series of special reports concerning that were made available free of charge to all stations broadcasting in the Italian language. Ferruccio Tagliavini, Metropolitan Opera tenor, was featured on the transmissions.

WICH: In Norwich, Conn., Sportscaster Mel Allen officially opened the New London County polio campaign at an open sports show at the town hall. Brought to Norwich by the Elks, Mr. Allen also made special radio recordings for WICH which remained on the air 24 hours a day until $5,000 was raised.

WCCO: Sixteen WCCO Minneapolis personalities participated in an "all-out" effort to raise funds for the polio campaign through the "Iron Lung Baby" contest to give little David William Wells a new and additional middle name. David was born last November; his mother has been an iron lung patient in a Minneapolis hospital since September. Prizes amounting to $16,500, including $5,000 in cash and five automobiles, were awarded before the contest closed. General Sales Manager Gene Wilkey had sworn he'd "eat his hat" if the entries in this year's contest exceeded the 1949 record. When incomplete returns reached 146,000—a healthy 12,000 more than the 1949 record—General Manager Fred Kelly ordered the hat delivered to Mr. Wilkey's office. Mr. Wilkey was happy to coincide.

WEIM: Over 500 telephone calls and more than $1,000 in March of Dimes pledges were accepted by Dave Rodman,塑胶 Manager. Weiman ordered his regular Rhythm with Rodman broadcasts over WEIM Fitchburg, Mass., to that cause.

KCRC: A two-and-one-half hour broadcast over KCRC-AM-FM Enid, Okla., brought in nearly $2,700 donated by listeners during a telephone request show. Mayor Herbert Barnett made a special plea for contributions. A local cafe was the high bidder for a cake which the restaurant sold slice by slice the following day with all proceeds going to the campaign.

KHTF: In Houston, KHTF's new studios were the scene of the city's radio March of Dimes drive. Program Director Ted Nahors led the Giant Jamboree to a $23,000 success. The all-star show included a cross-section of the area's talent. Highlight was the tender of a $20,000 check by H. R. Cullen, Houston philanthropist.

KIND: A four-hour broadcast of live talent aired by KIND gave a boost to the March of Dimes campaign in Independence, Kan. Performers from southeastern Kansas and northeastern Oklahoma donated their services in return for contributions accepted by telephone and collected by members of the Business and Professional Women's Club, sponsors of the local drive.

WLAN: The entire staff of WLAN Lancaster, Pa., joined in giving a March of Dimes party during the local fund drive. Starting at 11:15 p.m., listeners were requested to telephone re-

EXCISE TAXES
Hearing Planned for Feb. 15
(Also see story TELECASTING)

HEARINGS on excise taxes revision are scheduled tentatively this Wednesday (Feb. 15) by the House Ways and Means Committee. Agenda calls for five days of hearings on all phases of excise tax proposals, including the Administration's request of a levy on TV receivers [BROADCASTING, Feb. 6], a committee spokesman said Thursday.

The committee acknowledged that some requests to testify from objects to the TV tax have been received.

The House committee plans detailed hearings on the entire question of tax revision to continue possibly as long as two months. An executive session then will be held to prepare a committee bill, embodying all excise tax proposals, which is expected to be introduced by Committee Chairman Robert L. Doughton (D-N.C.).

WKY Affiliation

WKY Oklahoma City has been planned to be a new building at house studios and offices, is an NBC affiliate. WKY was incorrectly listed as an ABC affiliate in BROADCASTING, Jan. 30. KTOK is the ABC affiliate in Oklahoma City.

MUTUAL executives met the Chief Executive when board members visited the White House on Feb. 3 [BROADCASTING, Feb. 6]. They are (l to r): James E. Wallen, treasurer, MBS; Emmanuel Donnelt, counsel, MBS; J. R. Poppole, WOR New York; Lewis Allen Weiss, Don Lee; H. K. Carpenter, WHK Cleveland; Sterling Graham, WHK and Cleveland Plain Dealer; Benedict Gimbel Jr., WIP Philadelphia; Theodore C. Streibert, WOR, and MBS board chairman; President Truman; Frank K. White, president, MBS; Ray Fiske, auditor, WIP; Gordon Gray, WIP and J. E. (Ted) Campeau, CKLW Detroit.

FOREIGN LANGUAGE 12 Stations Form Network

ORGANIZATION of the Foreign Language Quality Network, comprising some 12 affiliate stations in major cities, is now completed, Claude Barreux, general manager of the network, announced last week.

Network headquarters are at 70 E. 45th St., New York City.

Appointment of Irving Collin, former sales manager of WLIR New York and assistant sales manager of WHOM Jersey City, N. J., as sales manager of the network also was announced. Mr. Collin, a co-founder of SESAC, has had 15 years experience in foreign language broadcasting.

FLQN plans to aid national and regional advertisers and their agencies in reaching station audi- 

cences, particularly those in Italian and Polish markets. Network will offer data on these markets and information on new programs, as well as on established features. Time availabilities, combination rates and other material also will be obtainable, Mr. Barrere said.

Network stated that it already had made two sales, one to a toy distributor, the other to Trans World Airlines, through BBDO.

FCC Actions

TOTAL of three new AM stations and improved facilities for an existing outlet granted by FCC last week in final decisions and routine actions. Initial decisions favoring grant of another new AM outlet and better assignments of three existing stations also reported. Eight outlets granted transfers. Details of these and other actions may be found in FCC Roundup on page 88 and Actions of the FCC beginning on page 86.

PASADENA SHIFT

Feb. 16 Set for Shuffle

RADIO ACTIVITY involving birth, death, and change of residence will be in full swing in Pasadena, Calif., this Thursday (Feb. 16) when KALI goes on the air, KAGH goes off, and KWKW takes over KAGH facilities.

KALI, new 1 kw AM station, goes on the air at 5 p.m. that day, operating daytime only on 1430 kc. Owner is John H. Poole, who also owns KSMA Santa Maria, Calif., and ultra-high frequency experimental television station KM-2XAZ Long Beach.

Aubrey Ison, former general manager of KAGH, will act in that capacity for the new station. Several other KAGH staff members also will be retained by KALI, including Allen Berg, program director, and Rowland Gibbs, sports director. Joe Thompson, former NBC director and assistant manager of Hollywood office, Sullivan, Stauffer, Colwell & Bayes, joins station program department. Station has offices and studios at 425 E. Green St.

KWKW, 1 kw station owned by Southern California Broadcasting Co., which purchased KAGH and KARS (FM) facilities, goes on the air at same time on the former KAGH channel at 1300 kc operating on a full-time basis for the first time. Station will operate FM facility as KKKW-FM. William J. Beaton is general manager of the station. Dick McGarver will join the sales department at that time.
CUDDLE UP, HONEYBUNCH!

This young orangutan wants to cuddle up with the pretty little cocker and get to be real pals.

Time buyers like to cuddle up, too—to real bargain radio buys for their clients. In Baltimore, it's easy. They just buy W-I-T-H—the BIG independent with the BIG audience.

W-I-T-H, you know, regularly delivers more home listeners-per-dollar than any other station in town. And in addition, a survey made under the supervision of the Johns Hopkins University showed that of all radios playing in grocery stores, 42.3% were tuned to W-I-T-H.

That means that just a little money goes a long way on W-I-T-H. Get W-I-T-H on your schedule fast! Call in your Headley-Reed man for the story today!
RADIO can assist banks to use advertising effectively and at less cost than almost any medium, but broadcasters must strive in every community to keep local banking institutions sold on the strength of the medium.

Cooperatively-sponsored network programs or specially transcribed radio dramatizations, prepared by the American Bankers Assn., are generating a new source of interest among banks in radio as a retail advertising medium. Yet a disturbing decline in the use of radio is evident—a fact which should command the attention of all broadcasters.

This word of caution and a host of facts and figures are contained in a February report on banking compiled for the industry by Broadcast Advertising Bureau as part of its selling-retailers series.

Over 2,000 banks are now using radio, compared to 146 in 1937, and nearly 100 such institutions undertook co-op network ventures during 1948, BAB points out. Despite the interest in radio, however, banks have been spending the majority of their advertising appropriations in newspapers, BAB reports. On the other hand, readership of bank ads is "notably low," it adds.

Advises Analysis 

Pointing out that for every 10 accounts a bank must add a new one each year, BAB urges broadcasters to analyze bank prospects; pattern program, time and frequency after bank policy; suggest use of the ABA ad services; encourage co-op advertising among regional associations; exhibit the BAB slide film, "How To Turn People Into Customers," before local groups; recommend exploitation of banks' seasonal business; capitalize on increase in banks' checking services.

The ABA advertising service is available for as little as $150 for 52 programs in towns under 20,000 population, with possibility of participating sponsorship and thus lower cost, BAB points out. ABA service includes Series A (30 dramatizations covering all types of loans) and Series B (26 dramatizations written around theme of money management).

The report, which also covers bank functions, classifications and other aspects, cites banks' local sponsorship of such programs as Fulton Lewis jr., America's Town Meeting of the Air, and others. During 1947, for example, 97 banks sponsored 46 co-op programs on 1,050 stations comprising the four networks. Favorite show format was newscasts.

Report can be obtained from BAB, 270 Park Ave., New York 17, N. Y.

IDEA MAKER

KIRO Airs Student's Show

AN idea that originated in the classroom will be introduced to the public Feb. 24 over KIRO Seattle in a 15-minute program form, called Mystery Movie Star. The show, which offers a $100 prize to a listener guessing a star's name, was conceived in Prof. Milo Ryan's radio advertising class at the U. of Washington.

When Prof. Ryan assigned a term paper—to study needs of a Seattle business concern and work out a hypothetical radio advertising campaign—Student Harry Schmidt plunged into the project with high fury. Harry's "problem firm" was the Hamrick Theatres, a Seattle chain, for which he worked up an idea and a script—and received a good grade. Prof. Ryan was so impressed with the results that he took the program idea to KIRO.

From there, the program-ball started rolling. Account Executive Tom Chase, of KIRO, presented the details to Hamrick, the sale was consummated and the show scheduled. Chase helped Harry polish for broadcast. Chief clue in weekly quiz involves dialing the telephone and counting clicks. Promotion tie-ups are being used by the stations and Hamrick. Slide light: Harry Schmidt, while not writing term papers or studying, is a concessions manager for a competing theatre chain.

AFA Meet Planned

THE 10th District convention of the Advertising Federation of America will be held in Amarillo, Tex., Oct. 22-24, according to Monte Rosenwald, president of the Amarillo Ad Club and chairman of the convention committee. Mr. Rosenwald, a partner in Southwest Advertising, Amarillo agency, announced that convention committees chairmen had been appointed and that plans for the session were being formulated at a series of organization meetings.

COMPLAINT by Federal Trade Commission that Continental Radio Tube Co., Chicago, engaged in deceptive and misleading practices in the sale of radio tubes has been generally denied by Continental Corp., Chicago. Hearings will be held, FTC added.
Radio in Salt Lake City Gets Results
ZCMI Department Store
has won the coveted
NRDGA GRAND and FIRST PRIZE
for Beamed Radio Programs

Plus -
3 FIRSTS • 2 SECONDS
in 5 Classifications
in the 5 to 15 Million Dollar Volume Group

Again ZCMI and Salt Lake City radio stations win top honors in annual National Retail Dry Goods Association radio program contest held recently in New York City. With three first place and two second place awards for programs beamed to specific audiences in five classifications for stores with $5 million to $15 million volume, ZCMI also won the First Award and Grand Prize for groups of beamed programs. A year ago this same store won two first and one third and received "special commendation for the best overall job of radio programming for a retail store."

Special credit is due the following additional persons who are responsible for these achievements: Harold H. Bennett, vice president and general manager of ZCMI; E. Geoffrey Circuit, sales promotion manager, ZCMI; Frances Peterson, advertising manager, ZCMI; Edward E. Koch, radio and television director of the David W. Evans Advertising Agency; Francis Urry, producer of "Land of Make Believe," KSL; Ted Kimball, producer, "ZCMI Utah Symphony Hour," KSL; Gordon Owen, creator, "Home Maker," KALL.

2nd PRIZE—General family audience: Maurice Abravanel and "Utah Symphony Hour" over KSL.
WDSU-TV
hits a new note...
HIGH "SEE"!

ONE 3-MINUTE SPOT SELLs OVER $1500.00 TO TV-WISE NEW ORLEANSIANS!

Inexpensive upholstery fabrics were featured in a 3-minute spot by a local department store. No other advertising of any sort was used. RESULTS: Sales of over $1500.00. WDSU-TV HITS AGAIN WITH HIGH "SEE"!

LEGAL CLINIC
N. Y. Radio-TV Sessions Set

LAWYERS will receive a thorough grounding from experts in the many legal problems of radio and television in a series of six weekly sessions to be held under the auspices of the Practicing Law Institute in New York beginning Feb. 28.

Program of lectures and panel discussions, to be held each Tuesday at the Roosevelt Hotel, were announced last week by David M. Solinger, New York attorney and course chairman. Speakers will include representatives from the networks, NAB, FCC, ASCAP and other fields.

Business aspects, practices and techniques for lawyers who represent stations, advertisers, advertising and talent agencies and copyright owners will be covered, with emphasis on current problems. Subjects marked for discussion comprise program content, agreements with announcers and entertainers, package agreements, licensing and special problems peculiar to television.

Those scheduled to participate, in addition to Mr. Solinger, include:

Gustav Margraf, NBC vice president and general attorney; Robert P. Myers, NBC assistant general attorney; Joseph A. McDonald, ABC general attorney and vice president; Howard L. Haasman, CBS vice president; Don Petty, general counsel; NAB: Herman Finkelnstein, ASCAP; Edward G. Wilson, J. Walter Thompson Co.; Harry Poff-kin, assistant general counsel, FCC.

Jules Herbuveaux Sr.

JULES HERBUVEAUX Sr., 77, father of Jules Herbuveaux, television manager at NBC's Central Division, died Feb. 6 in Chicago after a long illness. Funeral services were conducted Wednesday morning, and were followed Thursday by burial in Utica N. Y. Another son and two daughters survive.

PA. BROADCASTERS
Diehm Names Sub-Chairmen

SUB-CHAIRMEN of the membership committee of the Pennsylvania Assn. of Broadcasters have been announced by Chairman Victor C. Diehm, partner and general manager of WAZL Hazleton.

The sub-chairmen are: Dale Robertson, WSCR Scranton; Northeast District; Charles Petrie, WSL Shamokin, North Central; David Potter, WNAE Warren, Northwest; Robert R. Nelson, WARI Johnstown, Southwest; E. J. Hirschberger, WEDO McKeesport, Allegheny County Region; Thomas Metzger, WMRF Lewistown, West South Central; Arthur McCracken, WCPA Bethlehem, Southeast; Roger Clipp, WFIL Philadelphia, Philadelphia County Region.

PRIZE PROGRAMS
Women Show Approval

ACCORDING to a recently completed survey by Guide-Post Research, most Pittsburgh housewives are in favor of “give-away” programs. In the survey it was explained to 1,412 women that legal action was being taken to try and prohibit “give-aways” and asked: “Do you think Stop the Music and similar prize programs should be banned?”

Of the women voicing an opinion, 63% were in favor of continuing the shows and 37% were for banning them. One-third of those interviewed had no opinion. Including those who are indifferent to the situation, a very small portion of the public is against give-aways, the firm said. Replacements of prize shows will more likely arise from more interesting and less costly programs than from legal action, according to Guide-Post.

Isolation and Distraction From Reality
71% ... OF ALL AM-FM-TV BROADCASTERS USE ANDREW TRANSMISSION LINES AND FITTINGS

The considered judgment of the entire industry is a safe guide. It will pay you, too, to specify Andrew Transmission Lines and Fittings for your station.

LEADERSHIP IN SERVICE TOO!

ONLY ANDREW OFFERS YOU COMPLETE INSTALLATION SERVICE INCLUDING ENGINEERING PROOF OF PERFORMANCE. Work is done by factory engineers, placing complete responsibility upon ANDREW.
GRAY NAMED
Army Secy. Heads U. of N. C.

SECRETARY of the Army Gordon Gray, broadcaster and newspaper publisher, was chosen president of the U. of North Carolina last week.

According to the Secretary, he will remain at the Pentagon post for several months before assuming the university position not later than Sept. 1.

Secretary Gray is president and owner of WSJS Winston-Salem, N. C., WMIT (FM) Charlotte, and president of Piedmont Publishing Co., publisher of the Winston-Salem Journal and Twin City Sentinel. As the university's new president, Secretary Gray, who has held the Army post since last June, will succeed Sen. Frank P. Graham (D-N. C.), who resigned as university president last March when appointed to fill a U. S. Senate vacancy.

New Duties
In his new post, Secretary Gray will head UNC proper at Chapel Hill, N. C., the North Carolina State College at Raleigh, N. C., and the Woman's College at Greensboro, N. C. His name was the only one submitted to the university board of trustees on Feb. 6, making his election unanimous. He served in the N. C. State Senate in 1938, and again in 1946. President Truman appointed him Assistant Secretary of the Army in 1947 and Under Secretary last May. A successor to Mr. Gray's secretary post had not been named at the time of his resignation announcement.

APPLIANCE TRADE
Finds Radio Ads Mean Sales

DISTRIBUTORS of home appliances throughout the Southeast are sitting up and taking notice these days of the success of radio advertising.

Responsible for this is Calvin D. Mitchell, president of Southern Appliances Inc., rated the largest distributor of home appliances in North and South Carolina. Mr. Mitchell has placed, through Boettiger & Summers, Charlotte agency, his eighth radio contract since last July. Three additional contracts are reported to be under consideration.

Southern Appliances' most recent program is a quarter-hour for Leonard (refrigerators, ranges, water heaters and freezers) on WBT Charlotte's Grady Cole Time. This program is directed to the farm home audience. Mr. Mitchell apparently has found in radio advertising the results he was looking for when he said: "All I ask of advertising is that it ring the cash register."
WEMP Serves the Milwaukee Empire with a Truscon Steel Radio Tower

- Millions of people are concentrated in the rich industrial and agricultural area that comprises the Milwaukee empire. Adequate coverage of this intensive listener audience made a radio tower of the most modern design a paramount requirement.
- WEMP radio personnel enlisted the services of Truscon radio engineers, long skilled in designing radio towers to meet specific conditions all over America.
- Promptly and efficiently, Truscon engineered and erected the 456 feet high over-all, self-supporting tower shown here, with its Western Electric 6-unit cloverleaf FM antenna.

Truscon offers a world-wide background of experience to call upon in fitting Radio Towers to specific needs. Whether your own plans call for new or enlarged AM, FM, or TV transmission, Truscon will assume all responsibility for tower design and erection . . . tall or small . . . guyed or self-supporting . . . tapered or uniform in cross-section. Your phone call or letter to our home office in Youngstown, Ohio—or to any convenient Truscon District Sales Office—will rate immediate, interested attention . . . and action. There is no obligation on your part, of course.

TRUSCON STEEL COMPANY
YOUNGSTOWN 1, OHIO
Subsidiary of Republic Steel Corporation
March of Dimes (Continued from page 25)
quests and pledges on behalf of the March of Dimes. On the air through the night until 3:30 a.m., the program collected $502. Most of the money was contributed by the merchants to the largest contribution in each 15-minute period, and hats belonging to radio and motion picture stars were offered for auction.

KFAB: Listeners in 12 states and Canada responded after a March of Dimes jamboree over KFAB Omaha with an announcement of the proceeds of the telethon. The final tally included $1,705. Pledges were collected through telephones and telegraph and was still going at 4 a.m. Over $800 was reported collected.

WACE: Kris Martin, disc jockey on WACE Chicago-Springfield, Ill., brought in over $3,000 in the 1950 March of Dimes drive as a result of phone pledges in exchange for requests. For the third year, WACE cancelled all scheduled afternoon shows to allow Mr. Martin to collect a pledge of $5 pledges per phone. Pledges from listeners in six states brought the total over the $8,000 mark, according to WACE officials.

KLWT: A public service program lastings three hours helped KLWT Lebanon, Mo., give the March of Dimes a big boost by giving the local fund over $600. Drive officials appealed to KLWT on the last day of the campaign when the goal still was not in sight. Without waiting for phone pledges or a call, the entire lot of merchandise had been auctioned off.

ST. LOUIS STATIONS: In St. Louis, disc jockeys from six stations in the area joined in a special two-hour broadcast on March 10 to give appeals for telephone pledges brought in more than $400 from 150 individuals and companies. Howard Washington of St. Louis' KSFU, vice chairman of the local campaign, opened the broadcast with a tribute to the disc jockeys and their helping to build.

KENO: In Las Vegas, Nev., highest bidder on Willing's night recording Cake Sweepstakes "took the cake." Listeners were requested to send in their phony bids and Mr. Willing went to the winner's home the following day to bake the cake. All cash prices were made payable to the benefit of the March of Dimes, with sizeable donations being collected nightly.

WTTN: For one night, from 9 p.m. until midnight, the entire staff of WTTN St. Johnbury, Vt., contributed their efforts to the day's program by giving a show for the March of Dimes. Along with the staff were five orchestras and a group of best local talent. All sponsors whose time was taken up by the special broadcast were billed as usual by WTTN and this money was in turn donated to the March of Dimes. Sponsors were given a courtesy announcement.

KRNT: As 1,500 people cheered, 59,897 pennies were dumped onto a Des Moines stage in a "Pollo Parade of Pennies," feature of the weekly broadcast of the Hey Bob Safety show on KRNT. Many of the coins were contributed by Hey Bob Club membership, now totaling 12,500 youngsters, while other contributions were mailed to the KRNT show m.c., Bill Riley. The new Notre Dame football captain, Jerry Gurney, a surprise guest on the broadcast, showed up with a sackful of coins from his teammates.

WMMW: The annual March of Dimes program in Meriden, Conn., got an opening kickoff from WMMW with an appeal from the station's disk jockey and a half of local entertainers and speakers. Mayor Howard E. Houston emceed and introduced both talent and speakers on the program. The annual WMMW auction for the campaign was held throughout the afternoon with listeners asked to phone in their pledges. Seven hundred dollars was taken in.

KYA: Almost $3,000 was poured into San Francisco's depleted March of Dimes fund a fortnight ago by Disc Jockey Del Gore of KYA. Money was contributed by listeners to an all-night Discs for Dimes show. Mr. Gore, the session ran from midnight to 7:30 a.m.

WKIN: In Camden, N. J., Announcer Harry Smith of WKDN promoted the March of Dimes on his Monday-Saturday disc show, Polly Patch, drafting a daily average of 60 letters midway through the drive. With a 10-cent minimum set, individual contributions went as high as $5.

KVOR: During its experience during the war, when KVOR Colorado Springs, Colo., sold over $3 million in War Bonds in auctions, the station ran a half-hour auction of merchant-sponsored items for the March of Dimes campaign. According to Everett Shupe, station and commercial manager, total raised was $750 which, together with contributions from another program, Number Please, accounted for about 10% of county's quota of $25,000.

KXOK: A white elephant auction sale, with all proceeds to go to the March of Dimes, was promoted on KXOK St. Louis by Charley Stookey and Hal Fredericks on their respective shows, Song and Dance Parade and Town and Country.

WDY: During the March of Dimes fund campaign in Decatur, Ill., WDY conducted a contest on the air between two of its staff members. Marty Roberts, the station's form director, and Hugh Gray, staff announcer and disc jockey, competed with each other to determine which one would raise the largest amount of contributions for the Infantile Paralysis Fund, Called "Dolars for Discs," the plan called for Mr. Roberts and Mr. Gray to dedicate local selections and announce the names of donors.

WATR WBSY WWCO: All three Waterbury, Conn., stations cooperated in the drive for funds with a five-hour long disc jockey dance jamboree at the Waterbury State Armory. An admission charge of three dollars was collected by eight disc jockeys working in half-hour shifts. The eight were Wally King, Al Vestro and Charlie Bentsong from WATR, Al Dary and Bob Holzer from WBBT, Bob Crager, Gene Valenito and Jim Logan from WWCO.

WHTM: In an opening day drive, WHTM Cleveland kicked off the 1950 Cuyahoga County March of Dimes campaign with a collection of $10, 365.12. From sign-on to sign-off, the station's talent "auctioned off" rare records, personally autographed discs, a pedigreed dog, tickets to a hit Broadway show, and several prizes donated by the listeners. The Cleveland March of Dimes headquarters designated WHTM as the official local "kick-off" station.

WFMY-TV: When John Payne, motion picture star, appeared in Greensboro, N. C., to open the city's 1950 Infantile Paralysis Fund drive, his busy schedule didn't allow time to appear before WFMY-TV cameras. So Ted Austin, program director, and Bob Cullum, production manager, stepped themselves with a Polaroid camera and flash attachment and caught up to Mr. Payne at the Central Carolina Convalescent Hospital, Greensboro's own contribution to the anti-polio fight. There was no picture, and within half an hour, the telecast was viewed on WFMY-TV.

WMT: In Cedar Rapids, Iowa, WMT raised $6,300 the last week of the March of Dimes Drive when the CBS network's "Pick-Up" show was sponsored by members and staff of WMT. Recording equipment was set up and the announcers took turns conducting programs similar to their air shows. Models circulated through the crowds with containers collecting dollars and dimes for the fund.

WLDY: The lagging polo fund at Ladiesmith, Wis., was spurred when all the local disc jockeys from the March of Dimes officials for aid in reaching the county goal of $5,000. Disc Jockey Ted Bengston had his own "Polo Parade" program with mention of the polo crisis and said four radio-equipped cars were stationed in various cities for ticketing for the drive, orders to proceed to various homes for contributions. By this and other programs, the drive was raising close to $2,000 for the fund.

WHAY: After an all-night March of Dimes frolic at the local high school auditorium, WHAY New Britain, Conn., reported $1,000 for the drive, with proceeds amounting to over $1,000. WHAY also contributed to the efforts to purchase radios as contributions of donations and pledges from listeners by Carl Clements on his Moonlight Music show. Many radio and local personalities appeared on both programs.

WLIO: Contest with a first Prize of an all-expense one-week trip to Fido, a $250 ladies wrist watch and daily prizes of a full year of automobile gas, was started by WLIO in connection with the March of Dimes promotion by WLIO La Porte, Ind. WLIO officials report over $500 in pledges was taken in. Listeners were asked to identify the "mystery voices" (movie stars Chester Morris and Sonny Tufts), and send an accompanying contribution with each guess. Mr. Morris spoke at a dinner climaxing the campaign.

WOTW: In Nashua, N. H., WOTW added its drive to the March of Dimes when Sportscaster Ed Lecius and Collecraster Vern Proulx pooled efforts of all the local talent to help the cause. Donations and pledges from listeners were requested to phone in their pledges to WOTW since the March of Dimes had no quarters. By final whistle time, a substantial amount was raised, station officials report.

KRIC: Starting on the opening date of the March of Dimes drive and continuing to its conclusion, KRIC Beaver, Pa., sponsored a radio benefit to invite the local celebrity to spin the platters and make with the chatter on the air. George Bennet went over the air. Carmen Wade Ryder, KRIC program manager, reports the program created a lot of

BROADCASTING • Telecasting

Page 34 • February 11, 1950
In Detroit, WWJ is more than a great radio station... more than a source of entertainment for the nearly one million homes in the Detroit area. WWJ, Detroit's FIRST station, has consistently been the leader in community service and enterprise.

Its acceptance by advertisers is indicative of the faith Detroit has in its voice. One of America's leading advertisers has consistently employed WWJ daily with an hour-long program for 16 years.

When you give your product story the benefit of WWJ's community acceptance, it receives added prestige, more attentive ears, less selling resistance... resulting in increased sales in a market that did three billion dollars retail business last year!
March of Dimes
(Continued from page 31)

favorable comment and had a large following.

KSOO: At KSOO Sioux Falls, S. D., Program Director Ray Loftness and Newsman Urril Melton cooperated in getting the 175th National Air Guard Squadron in Sioux Falls for a flight to Hot Springs, S. D., to make a re-
corded program in the polo wards of the Lutheran Hospital. Although
hampered by bad weather, airmen and studio representatives accomplished
their mission amidst a one half hour pro-
gram was presented on KSOO.

WXGI: Disc Jockey Harry Curran of WXGI Richmond, Va., didn’t have
much of his pay check left—if any—
during the March of Dimes campaign. To
help put the drive over the top, Mr. Cur-
ran made a bargain with listeners to his Curran’s Corner that he’d match
in amount any contributions to the cam-
paign they sent in along with their requests. Since he is a man of his
word as well as a man of his music,
and since he received many contribu-
tions, other WXGI staff members
admirably nicknamed Mr. Curran
“Empty Pockets Curran.”

KORN and KLV: When the second
annual “battle of two cities” for the March of Dimes between Huron and Mitchell, S. D., was conducted KLV
Huron and KORN Mitchell cancelled
all commercial programs after 9:30
that evening. Hooked together with
telephone lines as last year, both sta-
tions presented talent from the Mit-
chell and Huron College Auditorium. Listeners were urged to phone in pledges which were col-
culated by members of the Junior
Chamber of Commerce calling at
homes by car.

WKRT: Impetus was given the March of Dimes by WKRT Cortland, N. Y.,
when one afternoon was turned over to
a request show to promote the drive.
Aided by a staff of telephone operators, Herb Koster and Fred Elliott did their
best to play all the requests, which were sent in by pledges to the cam-
paign.

KOIL: Omaha’s March of Dimes
campaign was given a helping hand by
KOIL when the Downtown Kiwanis
Club and Lions Club held their an-
nual race to see which could collect
and lay out the longest line of dimes in a half hour, with loud-
speakers installed at the scene, one
of Omaha’s busiest downtown street
intersections, as the service clubs
started to count dimes collected
from pedestrians. The Kiwanians
emerged victorious and the March of
Dimes benefited to the tune of $708.

WSNY: In Schenectady, N. Y., the
infantile paralysis fund was given
$1,262.20 after WSNT cleared its
commercial schedule for 12 hours and
staged its March of Dimes Radio
Day. The public was invited to phone in and make pledges of $1 along
with requests for selections. An-
nouncing chores for the stent were
handled by more than 40 civic and
business leaders.

WB5M: For one day, WB5M New
Bedford, Mass., eliminated all com-
mercial clammers from 7 p.m. to midnight
present an all-telephone request
program devoted to accepting pledges
for the March of Dimes. A total of
1,388 phone calls were received, of
which 1,418 were pledges totaling
$1,282.15. In addition, the local
telephone office counted 2,822 incom-
plete calls, making a grand total of
nearly 5,000.

WGLN: The Glens Falls, N. Y., area,
one of the hardest hit during the last
polio epidemic, got a big helping hand
in the current drive on WGLN when
Dorothy Beckwith and Bill Kroug
asked their listeners to “vote” on
a local election via their WGLN Bulletin
Board program. Each listener was asked to vote for a child with most des-
derving of a television set donated by a
local merchant. Each vote had to be
“cast” by contacting the station during
the March of Dimes. To facilitate the ele-
citation, a voting ballot was placed in
the local newspaper.

WLOK: The tables were turned on
Tommy (Welcome Traveler) Bartlett
when WLOK Lima, Ohio, said “Wel-
come traveler” to him when he flew
to Lima for a special interview for
WLOK’s Command Performance show.
The NBC outlet had Mr. Bartlett’s engagements taken off for the
March of Dimes fund.

CHARLESTON DISC JOCKEYS: In
Charleston, S. C., Disc Jockey Bill
Hedgepeth of WSCS, spearheaded
formation of the Charleston Assn. of
Disc Jockeys as an outgrowth of a
cooperative effort on the part of all
of disc jockeys connected with the five
Charleston stations to raise money
for the March of Dimes. Disc jockeys
lined up their programs to promote
delivered tunes requested for each
dollar contributed.

WBHC-AM-FM: A dozen languages
were used on one show to voice the
March of Dimes appeal by WBHC-
AM-FM Canton, Ohio, in that city’s
radio outlook. Representatives of na-
(Continued on page 72)

KUOM CONCERTS
Minn. U. Airs Symphony

WITH the emphasis on “humaniz-
ing their symphony orchestra pro-
grams,” KUOM Minneapolis, the U.
of Minnesota’s non-commercial out-
let, again this year is giving top
priority to the planning and presen-
tation of programs aimed at building interest in the famed
Minneapolis Symphony Orchestra.

Conducted by Antal Dorati and per-
formed by the Minneapolis Dia, KUOM
manager, 38 special programs are
brought to listeners in the upper
Midwest during symphony season.
Eighteen of the broadcasts are de-
signed for school listeners in
schools—the other 20 for an adult

The “humanizing” aspect prob-
ably receives its heaviest emphasis
on the day preceding each of the
scheduled young people’s concerts.

The Minnesota School of the Air
presents a symphony preview at
which three pupils from public
parochial and private schools dis-
uss the next day’s concert with
Conductor Dorati. In addition,
KUOM presents previews for adult
audiences of the 20 regularly sched-
uled evening concerts during the
symphony season.

Collins offers studio equipment that embodies your specifications

The Studio equipment you get from Collins contains more than good components and workmanship. Your wishes and requirements, based on the experiences of Collins engineers that have designed hundreds of installations, are reflected in each unit or complete, specially engineered installation. Consult the Collins speech equipment catalog for every requirement. Everything from wire to custom built apparatus is described in it. Write to Dept. BC-5, Collins Radio Company, Cedar Rapids, Iowa, to obtain your copy.

26W FEATURES
- Low noise and distortion.
- Adjustable input and output levels.
- Complete accessibility without removing from cabinet.
- Two meters give visual indication of operating conditions.
- Limiting action (in db) indicated by meter on the front panel.

212A FEATURES
- Ten independent input channels (eight low level and two high level).
- High level mixing on all low level channels.
- Remote override for remote following a remote. Also remote cue.
- Studio talkback through interlocked circuits to prevent program interruption.
- Constructed for complete accessibility while in use.

212B FEATURES
- Seven independent input channels (six low level and one high level).
- High level mixing on all low level channels.
- Studio talkback through interlocked circuits to prevent program interruption.
- Constructed for complete accessibility while in use.

These units have many more features. Complete information is given in the Collins speech catalog which is yours for the asking.

Coast-to-Coast Advertisers enthusiastically acclaim the new Lang-Worth 8-inch transcription

Radio Station WIBW
Topeka, Kansas
Your new 8-inch transcriptions have the finest tonal quality of any disks I have ever heard. Their outstanding clearness gives FM listeners the ultimate in transcribed music.

Radio Station WNEW
New York City, N.Y.
(Telegram)
After hearing Lang-Worth’s new transcription machine, we wire our congratulations for brilliant contribution to radio and recording. Chief Engineer thinks it superb. You’ve earned our respect.

Radio Station CFCH
North Bay, Ontario, Canada
We have auditioned and compared the new 8-inch transcription. The quality is excellent. All in all we think it is a marvelous idea.

Radio Station WIL
St. Louis, Missouri
Received the audition samples and think they are terrific! We are awaiting with great anticipation the arrival of this library.

Radio Station WMMN
Memphis, Tennessee
We have auditioned your new 8-inch transcription samples and found them very much to our liking, not only because of the size but the excellent reproduction.

Radio Station KFAB
Omaha, Nebraska
The quality is very good. The lack of distortion is amazing.

Radio Station KNOO
Boise, Idaho
I think that Lang-Worth really has something. Was very much amazed at the quality.

Radio Station WCAU
Just heard your new 8-inch transcription. It’s sensational! Congratulations!

Radio Station WSPR
Springfield, Mass.
Everybody at our station agrees that your new 8-inch transcription is the best we’ve ever heard.

Radio Station KCKN
Kansas City, Missouri
Our Engineering Department and Production Manager are highly favorable to your new disc. We also like the uniformity of the cue-ins.

Radio Station KFFA
Helena, Arkansas
Again we commend you for the new 8-inch transcription. Hats off to the men who developed it. It’s the utmost in tonal fidelity.

Radio Station WMMW
Marliden, Connecticut
We believe you have the one and only revolutionary idea in the whole transcription industry. The new 8-inch discs are marvelous! Keep them coming!

Radio Station WJEF
Hagerstown, Maryland
Lang-Worth has out-done them all with the new 8-inch transcription. The quality is perfect. We sincerely hope that our name will be at, or near the top of the list when you start dishing them out.

Radio Station WBEC
Pittsfield, Mass.
Outstanding reproduction.

Radio Station KDAL
Duluth, Minnesota
Musical selections sounded more “like life” with more brilliance and sparkle but with no loss of bass.

Radio Station WDBJ
Roanoke, Virginia
The samples of your 8-inch transcription are A-1. With minimum surface noise and practically no distortion, they definitely hold their own with any others. The added advantages of price and weight should make them very helpful.

Radio Station WXG
Richmond, Virginia
Your new 8-inch samples tested. Engineers and announcers like them very much.

Radio Station WDHN
New Brunswick, New Jersey
The program and engineering staffs are more than satisfied with the quality and modulation percentage of the new records. Congratulations for the long step forward.

Radio Station WANN
Annapolis, Maryland
Your new recording is the Rolls Royce of the transcription world. The quality is superb . . . the tone brilliant . . . the uniform, two revolutions cueing is a three-star improvement.

Radio Station WKOK
Sunbury, Pa.
The new Lang-Worth platters are terrific in every respect! Quality better and most certainly they are great space savers. Congratulations! When do we get the new library?

Radio Station WCPG
Cincinnati, Ohio
Our entire staff endorses your new 8-inch transcription. Quality wise it is “ups”. The positive cueing device is an engineer’s dream fulfilled.

Radio Station WKEA
Los Angeles, California
Compared with other transcriptions, the new Lang-Worth 8-inch recording proved entirely favorable in all respects. Thanks for solving our space problem.

Radio Station KSFM
El Paso, Texas
Reacted here is that you have done one of the finest jobs of recording we have ever had the pleasure of listening to.

Radio Station WCPG
Tarboro, North Carolina
Remarkable “presence” and brilliance. My reaction to the transcription was most pleasant. Made standard transcriptions sound “flat”.

Radio Station WHNC, WHNC-FM
Henderson, North Carolina
It is the consensus of the management, program department, engineers and several interested persons that this is the best transcription they have ever heard.

Radio Station KWDM
Beaumont, Texas
We think the new 8-inch disc is the finest thing you have ever produced.

Radio Station KGVO
Missoula, Montana
Very good. Extremely low surface noise . . . in fact, none at all and it is a great improvement over the older transcriptions.

Radio Station WCCH
Middlesboro, Kentucky
Your new 8-inch Transcriptions are by far the best yet produced.

Radio Station KSWO
Lawton, Oklahoma
Very good. The quality of reproduction is flawless.
How Big Is Radio?

NOW THAT estimated net time sales of U. S. radio for 1949 have been added up ($429 million for AM broadcasting), small, carping cries may be expected to be heard protesting that radio is: (1) the Eden of profit-mongers, (2) big business and hence monopolistic, (3) both.

Such are the recurring laments of the bureaucrats and do-good economists, and the only noteworthy characteristic of all of them is that they are untrue.

According to this publication's estimates, the total time sales of AM radio—national network, regional network, national and regional non-network, and local—amounted to $428,996,000 in 1949. Now $429,996,000 is a lot of money, viewed in a lump. But no one corporation or group in the business of broadcasting got its hands, even momentarily, on more than a fraction of that sum. And no corporation or group kept as profits more than an infinitesimal fraction of the fraction.

It is interesting to compare the sales of the entire AM broadcasting field with the profits of a single corporation in another field. General Motors, for instance.

In 1948, the latest year for which GM has issued a financial report, the consolidated net income of the corporation and its subsidiaries was $440,447,724. That is $11 million more than the total sales of radio.

For 1949 U. S. Steel Corp. has just reported profits of $165,598,806 or bigger than the sales of the four national radio networks and regional and miscellaneous networks combined, bigger than national and regional non-network sales, and exceeded only by the $182 million of local sales made by some 2,000 stations.

To our knowledge there has been no recent interest, even by the most avid anti-big business elements of the government, in questioning the legality of either the General Motors or U. S. Steel operations, a fact we are pleased to observe.

This being so, the cries against broadcasting bigness ought to be small indeed, too small certainly to be heard above the winds of Capitol Hill or over the heads of the bureaucrats who are disposed to regard a radio license as a key to the mint.

HAROLD TUCKER WEBSTER, one of the New York Herald Tribune Syndicate's veteran cartoonists, has for years been using as one of his regular topics "The Unseen Audience." Through his facile pen he has taken some murderous digs at radio and radio listeners. In one of his latest on this subject Mr. Webster, perhaps unwittingly, sent a long way toward making amends. His picture showed Mr. Average Joe answering a coincidental poll. Mr. A. M. says: "I'm listening to the nagging backache show. My wife is upstart's listening to a toothpaste show. My son is in his room listening to a breakfast food show. My daughter is tuned to a hair tonic show. Our cook is listening to a beauty lotion show. Our dog is stone deaf and is sleeping peacefully." Sounds as though there'd be little time left for cartoon-reading by any member of Mr. W's typical family.

Free-Time Philanthropy

DETERMINATION of a growing number of broadcasters to quit playing ready philanthropist to causes which unashamedly beg time from radio while willingly paying their way in other advertising media is a natural consequence of a long and sorry history of abuse of the public service responsibility of broadcasting.

Because it operates at the whim of government license, radio, more than any other medium, is susceptible to organized pressure. It is no secret that among organizations with a view to propound, the belief is widely held that they have but to phone a radio station, mutter dully of letters to the FCC and forthwith be accorded—free, of course—the 7 to 8 p.m. period of Sunday evening to bespeak their cause.

It does not seem to strike such organizations as inconsistent that, coincident with their demands for free time from radio, they may be buying space from magazines or newspapers at regular rates.

Undeniably however such practice is not only inconsistent but discriminatory. The revolt of many broadcasters against further charity to the Army, at least during the first half of this year, cannot come as a surprise to any lucid mind. The wonder is that the reaction did not set in long ago.

We do not suggest that the announcement by Grant Adv., the Army's new agency, that radio will be given a considerable share of the budget for the fiscal year beginning July 1 was inspired by the recent protests of broadcasters. We doubt, however, that radio's share was at all endangered by the protests.

The record of broadcasting in providing support for good causes is unmatched by that of any other medium. The industry's reputation in this regard will be improved—not impaired—if broadcasters insist upon their inclusion in campaigns like the Army's as participants, not dupes.

Brake on Progress

IF UNCLE SAM really doesn't want to see television grow too fast—and the excuse has been made—the new TV excise tax proposed by Treasury Secretary Snyder [BROADCASTING, Feb. 6] provides an excellent way of slowing this dynamic industry.

It's strange—or is it?—that this government which would seem to value the House Ways & Means Committee's eloquent argument about the way excise taxes are hurting business and the need for lower rates. Then in the same message that so forcefully explains why cuts are necessary, Secretary Snyder calls for a new 10% tax on television sets.

If excise taxes are crippling important segments of the American economy, why then are they suddenly suggested for the industry that highest government officials predicted would lead toward economic development?

Unfortunately it's the smaller companies and the small-income people who would be most seriously affected by this proposed TV set tax. Manufacturers have brought prices within reach of the average family by production ingenuity and intense competition. Now they would be facing a high—10%—tax that promises to slow down this employment-producing post-war phenomenon in American progress.

All this comes at a time when FCC's drawn out fragmentary national development of an industry whose growth will assure an even greater volume of corporate tax receipts.

Sounds as though tax-wise Uncle Sam is in money foolish.

Our Respects To—

GEORGE FRANCIS ISAAC

LOOK FOR the man who fashioned WCFL Chicago into a major contender for the midwest advertising dollar and you inevitably wind up with George Francis Isaac.

During the past year and a half under his tenure as commercial manager, WCFL, now with 50 kw, has rapidly extended its influence over and beyond the four-state area covered by its signal.

Day and night, wherever he may be, Mr. Isaac argues quietly that WCFL is "the midwest's best radio buy." And with rates less than one-third those of Chicago's four other fully networked stations, WCFL makes sense to dozens of Chicago and New York buyers.

If its revenues of the past year continue to mount, the nation's first and only AM labor station may well join the nation's top stations in programs and facilities. Every penny poured into its coffers since it was founded in 1926 has been ploughed back into operations. This policy is now paying off in a dominant schedule of sportscasts, sparkling local programs, network shows, and a tight workmanlike operation. This is good sales ammunition for Mr. Isaac, who invites clients to come get on the bandwagon while costs are low.

Equipment-wise, the station already boasts one of the finest transmitters known to radio engineering, and its studios and executive offices, high in the American Furniture Mart on Chicago's Lake Shore Drive are ultra-modern.

When William A. Lee became head of the Chicago Federation of Labor in 1946, a new and colorful figure entered radio. Long famous in labor and civic circles as president of Chicago's blue ribbon Bakery Drivers' Union and trustee of the International Brotherhood of Teamsters, he soon asserted his astute business leadership at WCFL.

He looked for a new sales manager and found Mr. Isaac, a 20-year veteran in radio, within his own organization. Mr. Isaac's experience as commercial manager of WGN Chicago and with advertising agencies, as well as his success at WCFL, made his selection a natural.

George Isaac has been a salesman since his boyhood days in Mankato, Kan., where he was born Nov. 12, 1902. He worked both as a newspaper delivery boy and behind the counter of a grocery store. At Mankato High School, where he played a fast game of basketball in addition to his part-time employment, he won a scholarship to Northwestern U.

This free tuition helped, but hardly paid expenses at college, so Mr. Isaac became interested in the business end of Northwestern's

(Continued on page 42)

BROADCASTING • Telecast
Business is always better in Washington, D.C.

Building construction in Washington, D.C., increased last year more than in any other major market: residential up 85%, non-residential up a booming 275%.

And Pulse reports that WTOP's share of audience is always building: now 36% larger than any other station.
KYW SHIFT

RAWLINS NAMED MANAGER; BROADCASTING

STAFF realignment of Westinghouse Radio Stations Inc.'s KYW-AM-FM Philadelphia was announced last week by Walter E. Benoit, vice president.

L. R. Rawlins, formerly manager of industrial relations of the firm, has been appointed KYW manager to succeed Robert E. White, who has been transferred to Westinghouse's KDKA Pittsburgh.

At the same time, two resignations of KYW executives were announced by Mr. Benoit. They are Program Manager James P. Begley, and Sales Manager Harvey McCall Jr.

Mr. Begley has been succeeded by Franklin Took, formerly program manager at KDKA since 1942. Robert H. Teter, of the KYW sales staff since 1927, has replaced Mr. McCall as sales manager.

Mr. Rawlins joined the Westinghouse parent company in the industrial relations department of the Philadelphia Lorraine Ordnance Plant in 1942. He served in various industrial relations capacities until his transfer to the radio stations subsidiary in 1946 with the title of manager of industrial relations. Prior to 1942, Mr. Rawlins was active in accounting and merchandising. He is a native of Jackson County, Ohio.

While attending DePauw U. from which he graduated in 1934, Mr. Took won a $1,000 President's Fellowship entitling him to a year's study at the American Academy of Dramatic Arts. He joined Westinghouse at WOWO Fort Wayne in 1935 and was transferred to KDKA in 1941.

Mr. Teter, native of Boston, was active in the advertising field with N. W. Ayer & Son, Philadelphia; H. M. Dittman Advertising Agency, and A. E. Aldridge Assoc. before joining KYW in 1947.

Mr. Teter's native of Boston. was active in the advertising field with N. W. Ayer & Son, Philadelphia; H. M. Dittman Advertising Agency, and A. E. Aldridge Assoc. before joining KYW in 1947.

GILBERT TO SPEAK

EUGENE GILBERT, director of Gilbert Youth Research and Gilbert Television Research, will speak on "How the Videometer Measures TV Impact," tomorrow (Feb. 14) at a luncheon session of the American Marketing Assn., radio-television group at New York's Hotel Shelton.

DULUTH, MINN.—"They keep telling me, 'Let's keep the show on the road.' That's all I hear," snooted Otto Mattick as he hits the trail on his private traincar. "So I cruise the Duluth-Superior area continuously, keeping KDAL and CBS personalities and programs before the public." He does, too. KDAL's never-ending promotion of its features has kept KDAL at the top of the Hoopers for a long time. Of course, audience dominance like this means successful selling for KDAL advertisers. Are you one now?

ROAD SHOW . . .

Current availabilities may be had from Avery-Knodel. Now is a good time to get on KDAL.

Respects

(Continued from page 40)

campus publications. During his junior and senior years he was well known among undergraduates as business manager of the Manager of the Parrot, one of the Big Ten's better humor magazines. He remained at school during the summer sessions as publisher of the Daily Northwestern, campus newspaper.

Finishing school in the spring of 1924, he joined the advertising department of the Chicago Tribune, and after five years in various divisions was selected to head up WGN's commercial department. In those fast-moving days as WGN sales manager, Mr. Isaac signed the contract between Mutual and its first stations, and he was a member of the first MBS board of directors.

In 1935, he joined the former Local & Thomas Advertising agency as radio director. Some of the most successful Chicago origina tions of the '30s were conceived, promoted and sold by Mr. Isaac. A brief saturation into the station's representative business preceded his employment by WCFL.

Owner of WCNT Centralia, Ill., Mr. Isaac gets a broad view of radio, but finds it unnecessary to visit his station, since it is under the management of his own firm. He often visits his station, which is managed by Jack Flanagan, "Is doing a swell job.

Married In 1928

Mr. Isaac and Iris Detweiler of Chicago were married Sept. 4, 1928. His bride was an accomplished soprano, having studied abroad for several years as a young woman. There are two children—Jacqueline, 16, a student at high school in Winnetka, Ill., and Garry, 13, who attends grade school in nearby Glen coe, on Chicago's North Shore, where the family resides.

A Saturday afternoon, Mr. Isaac belongs to the Skokie Country Club. He also holds memberships in Phi Gamma Delta, his college fraternity, and Sigma Delta Chi, professional journalistic fraternity to which he was elected while at Northwestern. He belongs to the Northbrook Sports Club and is active in the Chicago Radio Management Club.

Dunkirk Argument

OPPOSITION of WBNY Buffalo, N. Y., to FCC's new station grant to WFCB Dunkirk, N. Y., despite WBNY's claims of objectionable interference was argued Feb. 3 in the U. S. Court of Appeals for the District of Columbia (Broadcasting, June 27, 1940). WBNY, assigned 250 w on 1400 ke, objected to Commission's grant of 500 w on 1410 ke to WFCB. Before the court, WFCB and FCC argued that WBNY's claim of interference was without sufficient engineering support, while WBNY contends its measurements were made by Commission standards.

Janet MacRorie

JANET MACRORIE, 60, one-time director of continuity acceptance at WRC, died Feb. 4 in New York after a long illness. Miss MacRorie served with NBC from 1931 to 1941 as continuity acceptance chief, and in that capacity established many standards still in use today. Since leaving NBC she had been associated variously with the Office of War Information, the Canadian Broadcasting Corp., and in public relations capacities.

A TOTA OF $286,000 in new business has been signed by WPAT Paterson, N. J., in the past three months, Herman Boss, commercial manager, has announced.
Radio broadcast engineers will appreciate the new
EKOTAPE
Broadcast Model 107

The NEW EKOTAPE Broadcast Model has been designed especially to meet the many requirements expressed by broadcast station engineers as their ideas of an ideal tape recorder. Every facility at the command of Webster Electric Company has been used to make this the most outstanding achievement in tape recorders at a price that places it within reach of all broadcast stations, large or small. Check the features listed here, then have your nearest dealer demonstrate the tone perfection, simplicity of operation and its absolute dependability.

EKOTAPE is distributed by Graybar and independent distributors in all major cities.

WEBSTER ELECTRIC
Webster Electric Company, Racine, Wisconsin - Established 1909 - Export Dept.
12 East 45th Street, New York 17, N.Y. Cable Address "Arlab", New York City.
"Where Quality is a Responsibility and Fair Dealing an Obligation"

A Few of the Many SPECIFICATIONS and DETAILS
Compact and portable; units may be removed for installation in standard R. M. A. rack. It can be purchased less carrying case.
Powerful oversize two speed synchronous motor; heavy flywheel and special drive give constant tape speed.
Tape speed 15" per second for full half hour or 7½" per second speed for full hour program.
"A" "B" Selector switch for tape or program.
Switch connects VU Meter for measuring either recording or output level.
Safety button prevents accidental erasing of a recording.
Operator is able to start recording on cue without time lag.
Triple heads, erase, record and playback assure neutral tape and distortion-free playback.

Overall frequency response is ±2db 60 to 12,000 cycles at 15" per second tape speed.
±2db 60 to 7,000 cycles at 7½" per second tape speed.

Write Today For Complete Specification Sheet
EVENING newscast on KOMO Seattle should carry news accentuating the bright side of local and world events. The program, scheduled at 11 p.m. nightly, "Bedtime Club" members, group formed of listeners who were plane watchers in the past, are issued certificates of membership. Green and white certificate carries pictures of owls, playing horns, violins, etc., as owls on their names, great horned owl, screech owl, etc. Wise owl is shown reading book marked "KOMO."

Bird and Beard

COLORFUL promotion piece sent to trade by KMOX St. Louis features pictures of bird from cuckoo clock and modern "Rip Van Winkle." On cover, salesman is pictured sleeping under tree with long beard curled around him. Cuckoo bird prepares to wake him with microphones marked KMOX. In rapid sequence, bird tells salesman to recall KMOX's leadership 15 years ago. Top of pages in booklet picture salesmen sleeping with beard growing longer, as text recalls statistics concerning station's prominence. At end of book, salesman receives these and prepares to sell KMOX to his customers.

Finding Sponsors

COVER of promotion piece prepared by WBWM Chicago shows drawings of radios of all sizes and descriptions, WBWM microphone and caption, "Look for the sponsors . . . " complete cover. Inside announces that "more advertisers use WBWM than any other radio station in Chicago." After turning page of red cellophone, same drawing as on cover is seen, with listeners filled in.

Lapel Pins

MINIATURE golden crown, suitable for use as a woman's lapel pin, was sent to trade editors by Kenyon & Eckhardt, New York, last week to promote Ford Motor Co.'s Ford Theatre (CBS-TV, Fri. 9-10 p.m.) presentation of "The Royal Family," Broadway play, on Friday, Feb. 18.

Hand for INP

BLUE folder with pictures of hands applauding on cover is promotion piece sent to trade by International News Photos, New York. Letters from Norman Boer, associate producer of "Headline Cues" on WABD (TV) New York, and Jack Kellin, director of news broadcasts for WBT and WFTV (TV) Charlotte, N.C., commending service given by INP are reproduced. Back of bulletin shows globe and reads, "INP for a global picture service for timely, versatile TV news programming."

Monday Promotion

IN Monday edition of Buffalo (N.Y.) Evening News for past few weeks, ads seven columns wide and page length have hooked television promotions. Latest of these is "be seen on WBEN-TV that city, and sporting and news events available to owners of sets have been pictured. Object of ads is to stimulate reader interest in owning TV sets. ads are run by paper, owner of WBEN-TV. One angle stressed in ads is fact that current sets are not soon to be outnumbered.

Report on Coverage

TWENTY-three page report on coverage by WCOP Boston of General Motors Auto Show in New York has been mailed to trade stations. Report includes summary of shows and announcements carried by station, merchandise displays and a script from program on WCOP discussing auto show. Report is mimeographed on station's stationery and attached with brads to blue folder.

WOW-TV Cooperation

AS PART of "Television Month" in Omaha, WOW-TV that city, is carrying series of announcements urging immediate purchase of TV sets. Paid newspaper ad, run by station, two columns wide and full length of page, listed network and local shows available over its facilities under heading, "The biggest bargain in town is a 1950 television set!"

BAB Release

"TEASER" booklet entitled "Radio's Feminine Touch" sent to trade by BAB. Pink folder features illustrations used in booklet which has been prepared by BAB for use by NAB member stations. "Radio's Feminine Touch" is 32-page booklet and includes distribution to retailers, pointing up radio's appeal to women buyers. It is prepared in such a way that facts concerning particular women's shows on specific stations can be inserted. Case histories illustrating radio's success with women buyers are included. Copies are priced at $7.50. Postcard to be used in ordering is attached to folder. Also included is a booklet explaining the function and introducing key personnel of BAB.

Letter Opener Announces

CARD to which letter opener bearing letters of WBAL. Baltimore, Md., has been attached, announces new address of station. Opener is made of plastic, and card bears drawing of station's new logo. Address of WRBL now is 1350 13th Ave., Columbus.

Blurb for MacPherson

REPRINT of article concerning Stewart MacPherson, quiz master on WCCO Minneapolis, sent to trade by station. Article gives history of Mr. MacPherson and sums up some of the techniques used by him which proved popular in England. Article appeared in Jan. 19 edition of Minneapolis Morning Tribune.

Eight Times Around

FOR eighth consecutive year, KFAB Omaha, Neb., is sponsoring 4-H Club Timely Topic Public Speaking Contest. Series of state-wide elimination contests choose two final winners, one boy and one girl, each of whom is awarded $250 scholarship to U. of Nebraska.

Television Seminar

TELEVISION seminar was conducted by WLWD (TV) Dayton as part of three-day Public Information Seminar in reference at Wright Patterson Air Force Base. Seminar consisted of addresses by station officials, outline of departmental coordination, and forums by inspection of WLWD facilities, including mobile unit. Representatives of Army, Navy, Marine, Civil Air Patrol and aircraft industry took part in telecast which concluded seminar.

Sizing Up Network

QUARTET of brochures stressing station coverage and growth of network have been distributed by ABC-TV, with stress on four key words—Higher. Lower. Better. First. "Higher," points up WJZ-TV New York, transmitter and antenna move to top of Empire State Bldg. Second, "Lower," cites lower production costs for ABC-TV advertisers "because ABC's New York Television Center has every production facility right in the same building where the programs go on the air." Third brochure refers to ABC Pacific Coast TV headquarters—"bigger than any other television plant in the world." Last, headed "Better," emphasizes wide coverage through its five O & O TV stations in top markets—New York, Chicago, Los Angeles, Detroit and San Francisco.

Short Stops

LATEST promotion in Mutual's "Mr. Plus" series is blue folder, reprint from trade press. Folder, bearing picture of Mr. Plus dressed as policeman, holding sign reading "Stop," has been sent to trade. Folder proclaims that 29.5 second step on Mutual will "make dealers happy." Text points out Mutual's ability to enable stations to identify local dealers on network shows.

Personnel

RANDY SMITH, advertising and promotion manager of KGA Denver for past eight years, resigns effective March 1 to join KNBC San Francisco in same capacity. In new position will be ETHEL GILCHRIST, who is leaving to set up residence in Los Angeles. Prior to joining KOA, Mr. Smith worked for Western Div. of Leon Livingston Adv. and Buchanan & Co. He is succeeded at KOA by J. WYKIL M. PENLEY, former assistant news editor.

PAT TETZLAFF, new to radio, joins WJW Cleveland as promotion and publicity director. He formerly was with insurance trade press on Pacific Coast.

HAL L. NEAL, with WXYZ Detroit since 1945, appointed advertising, sales promotion and publicity manager of WXYZ-AM-FM-TV, succeeding DEAL LINGER, resigned to become advertising and sales promotion manager of ABC Central Div., Chicago, effective Feb. 15.

ART GRAY, promotion manager of WTIV (TV) Miami, Fla., is the father of a girl, Meredith Ann, born Feb. 1. His wife, MRS. BEA GRAY, is former copy chief at WTJV.
BETTER SCHOOLS
Pull 600 Million Impressions
MORE than 600 million listener impressions were scored in 409 network messages on behalf of The Advertising Council's Better Schools campaign from August 1949 to January 1950, William R. Baker, Jr., executive vice president, Benton &Bowles Inc., told the Advertising Club of Boston last month.
That radio support, he said, is equivalent to 40 times the circulation of the Bob Hope Show of Dec. 20, 1949, or a coverage equal to 100 chapters of a national daytime series like Portia Faces Life. In addition, Mr. Baker said, the total listener impressions would be swelled by numerous local messages carried by individual stations. He said that business men had contributed more than $2 million in space and time to the 1947-48 campaign. He expected the current drive to exceed that record.

Canadian Set Sales
ALL PREVIOUS records for sale of radio receivers in Canada were broken during December when 103,822 receivers were sold, according to a report of the Radio Manufacturers Assn. of Canada. Previous record was set in November, 1947. A total of 72,970 sets were sold in Canada in 1949 with a retail value of $54,470,021.

ADVERTISING Week annual observance will be held May 1-4.

LEE HON, assistant program director in charge of operations at WBMB-CBS Chicago, begins work today (Monday) at the New York network staff under direction of FRANK R. FALKNOs, vice president in charge of program operations and former manager of WBMB. Mr. Hon worked at the Chicago station 18 years except for his period of war service.

ED PENNEY, formerly staff announcer with WEIM Fitchburg, Mass., appointed program director and chief announcer of WFGR same city.

DAVENPORT SMITH, formerly with WSTC Stamford, Conn., and later staff announcer, newscaster and director of special events for WBRC Birmingham, Ala., appointed program director and production manager of WBRC.

CHARLES HERBERT, for past year freelance radio director, and before that radio director with N. W. Ayer & Son Inc. for five years, joins ABC Hollywood director staff. He replaces CLAIR WEIDENAAA, resigned, to join KULA Honolulu as program director. Mr. Weidenaa had been with ABC for past four years.

EDMOND O'BRIEN, film star, signed as lead in weekly 30-minute CBS package Yours Truly, Johnny Dollar which resumed Feb. 3, Friday, 10-10:30 p.m. (EST), with West Coast transcribed repeat, 6-6:30 p.m. (PST).

JIM O'CONNELL, formerly with WTAW College Station, Tex., joins KORA Bryan, Tex., as staff announcer.

JERRY LESTER, comedian, named m.c. of Saturday 9-10 p.m. CwalcLeod Store on DuMont Television Network.

FRED P. HASELTINE, formerly disc jockey with WDNC Durham, N. C., joins announcing staff of WRNL Rich- later, with WIBC Indianapolis, rejoins WAVE-TV Cincinnati. She will be heard on Mary Monroe show and assist in continuity department.

BOB CROSBY, formerly with KSET El Paso, Tex., joins announcing staff of WTOL Toledo, Ohio.

CHARLOTTE GARNER, formerly with KGBS Harlingen, Tex., and WSZ Houston, Tex., joins WCKY, Va., as staff announcer and newscaster.

JACKLYN SROFF published music librarian at KIRO Seattle, effective Feb. 24. She succeeds JOYCE WELTY, resigned.

KENNETH ARMSTRONG, formerly of WKBZ Muskegon, Mich., joins announcing staff of WTAM Cleveland, replaces ROBERT SHELEY, resigned, to join WMRC Greenville, S. C., as disc jockey.

MRS. CONNIE STACKPOLE, director of New England Cupboard show heard on several Yankee Network stations, joins Granite State Network as director of The Connie Stackpole Show. Network consists of WNEW Nashua, WKBK Manchester, WTSV Claremont and WWNH Rochester, all New Hamp- shire.

DON SMITH, formerly with WBNs Columbus, Ohio, joins WKBV Youngstown, Ohio, as announcer.

CARL LAWTON, formerly with North- east Airlines in public relations and sales roles, appointed film librarian for WBZ-TV Boston.

ELLEN HARRIS, women's commentator of CBS, Vancouver, is in Great Britain and Europe gathering material for her broadcasts.

BOB CROSBY returns as m.c. of CBS Club 15 March 27 replacing DICK HAYMES. Show is sponsored by Campbell Soup.

AWARD as “Traffic Safety Man of the Year” is presented to Roger W. Clipp (2d r), general manager of WYFL-AM-FM-TV Philadelphia, the In- quire stations, by the Philadelphia Highway Traffic Board. Presentation was made Feb. 7. Also holding an award for his contributions is Inquiry Reporter Owen F. McDonald (1). Congratulations are offered the recipients by Bennett E. Tousley (2d l), board's education and publicity committee chairman, and J. C. Furnas (r), author of “And Sudden Death” and other magazine articles on safety. Mr. Clipp received his award in recogniz- ing and theo the “Silly Willie” two-month safety drive in that city.

RELLIGIOUS RADIO

RRA Questions FCC Stand

RELLIGIOUS Radio Assn. has told FCC that “we see no justification for raising the question of the First Amendment with respect to the licensing of religious radio stations... or to the reservation of bands of frequencies for such stations.”

RRA referred to (1) FCC’s call for a hearing on the constitutionality of allocating FM frequencies for religious stations, as requested by the Southern Baptist and Texas Baptist conventions, and (2) an FCC examiner’s recommended de- nial of an application of the Re-organized Church of Christ of Latter Day Saints, Independence, Mo., pending decision on the Baptist petition [Broadcasting, Nov. 21, 1949: Jan. 2].

Calling attention to the Supreme Court’s McCollum decision, which held the federal government may not aid any religion or all religions, RRA President Edward J. Heffron contended that “if the Commission uses the McCollum dec- ision against religious radio stations, logic would require it to apply the same rule against all religious programs on commercial stations.”

Mr. Heffron said at least 31 stations would be affected if FCC should decide against licensing religious radio outlets, and that in his opinion all religious programs would be ultimately affected.

REGULAR Saturday morning show, Breakfast in Dayton, over WING Day- ton, serves breakfast to its audience for charge of 50c. Tickets to show are sold out now for every Saturday through July 15, station reports.

HOOVER REPORT

Wash. State Stations Lauded

EFFORTS of Washington State stations to promote public under- standing of the Hoover Report have been characterized as an “outstanding job in the public interest” by Dr. Raymond B. Allen, chairman of the Washington Committee on Federal Reorganization.

Dr. Allen, who served on the Eberstadt “task” committee of the Hoover Commission and who last summer directed the medi- cal services of the newly unified Defense Dept., reported that 24 stations in Washington State gave more than 18 hours of free time to the educational effort of his committee in the past three months.

Most widely used, Allen said, have been three transmitted programs, one recorded at KIRO Seattle, another at KJR Seattle and the Grange Forum, which was used on its regular schedule of six stations throughout the state. Other cooperating stations cited by Dr. Allen include:

KSKK Everett, KBRO Bremerton, KBBC Mt. Vernon, KQPN Port Angeles, KXKX Ellensburg, KMO Tacoma, KYQ Olympic, KOMW Omak, KVOS Belling- ham, KQKO and KITN Wenatchee, KYAK KIMA and KTT Yakima, KWSK Pullman, KXRN Benton, KLKM Long- view, KNEW and KFJO Spokane, KJU Walla Walla.

WBIZ To Join ABC

WBIZ Eau Claire, Wis., will join ABC, effective March 1. The station will be the 288th affiliate of the network. WBIZ operates with 250 w on 1400 kc, and is owned by WBIZ Inc. It also is an affiliate of MBS.
SEFLING NEWS

WIKY Tells Audience Why

LISTENERS to WIKY-AM-FM Evansville, Ind., 9 a.m. newscasts were introduced to daily explanations of the why’s and wherefores of radio news during a recent two-week sponsorless interlude, the station reports.

Purpose of the one-minute “lesson”—the time slot on sponsor-hiatus for the five-minute newscast—was to explain “why WIKY newscasts are different,” why they are listened to, the job of the newsmen, and how news is gathered for a broadcast, John Munger, news director, explains.

Taking the listener behind the scenes, the promotion-education series pointed up family listening, good taste, human interest, conversation style of writing, editing, qualified news personnel, news sources, sports items, wire service use and fact-reporting. Mr. Munger says “that’s how we put a five-minute newscast to work for us; how we think we told news to men.”

RADIO NEWS COURSE

U. of Minn. Sets Feb. 17-18

CLIFTON UTLLEY, national news commentator for WMAQ-NBC Chicago, will be the featured speaker when the U. of Minnesota School of Journalism holds its fourth annual radio news short course at Minneapolis, Feb. 17 and 18. He will talk at a dinner in the Radisson Hotel, Feb. 17. The Minnesota Associated Press Broadcasters are meeting in conjunction with the course.

Among other scheduled speakers for the course are:

Wallace E. Stone, manager of KILO Grand Forks, Calif.; Toby Miller, news director of KMKN Mammoth; Art Strong, WABE, Atlanta; Wendell Graham, executive director of WMT Cedar Rapids, Iowa; Tony Moore, promotion manager of WCCO Minneapolis; W. Earl Hall, managing editor of Marion City (Iowa) Globe Gazette, and university professors Dr. Ralph, D. Cotey, Mitchell V. Charnley and Charles E. Swanson.

Radio News Play

RADIO news emphasis now is on the national and local scene, taking the play from international affairs as compared to 1945, according to a survey announced recently by the American Federation of Radio Broadcasters. It was conducted by ABC editors of the Esso Reporter broadcasts over WJZ New York. Comparison of six days in January 1945 with the same period this year revealed international play declined from 62.9% to 12.8%, while national rose from 37.1% to 46.7%. Esso Reporter, broadcast Mon.-Sat., 7:55 a.m., 12:30 p.m., 6 p.m., and 11 p.m., is sponsored by Standard Oil of New Jersey, through Marsalk & Pratt, New York.

ROBERT MOORE

Heads Transradio Press

ROBERT E. L. MOORE, vice president of Transradio Press Service since 1945, has been elected president of the corporation, Herbert Moore, founder of the company and board chairman, announced last week. He succeeds Dixon Stewart, Transradio’s president since 1945, who has been given a new assignment in the field of visual mass dissemintation.

Re-election of Rex R. Goard as vice president in charge of news operations also was announced. Mr. Goard is Washington bureau manager and has been with Transradio for 16 years.

Robert Moore, 40, joined Transradio immediately following its organization in 1944. He established the company’s Washington bureau and served as bureau chief until 1937 when he made a country-wide tour to establish new bureaus and extend Transradio’s facilities. He later served as assistant to the president, Southern division manager and covered the invasion of Europe. He is a charter member of the National Assn. of Radio News Directors.

SALES STUDIES

Ohio Group Names Plan Unit

SALES research and training plans will be studied by an educational committee appointed by Carl George, president of the Ohio Assn. of Broadcasters, to work out plans that will benefit both Ohio State U. and Buckeye stations.

The committee, which will coordinate its efforts with those of Dr. Kenneth Cameron, Ohio State U., is composed of the following: Hugh Higgins, WMOA Marietta, chairman; Al Heiser, WLEC Sandusky; Robert Mason, WMRN Marion; Bill Orr, WBNS Columbus; Robert Runnerstrom, WCOL Columbus; William Sprague, WHK Cleveland, and Harvey Young, WHIO Dayton.

Platters to Politics

MYRON J. BENNETT, former disc jockey, has entered the gubernatorial race in Iowa on the Democratic ticket. Primaries will be held in June. Mr. Bennett used radio two years ago to help win the election to the safety commissioner post in Des Moines which he now holds. In that capacity, he is head of both police and fire departments. Stations at which Mr. Bennett formerly worked include WCKY Cincinnati, KRNT Des Moines, KWK St. Louis and KSO Des Moines.

JOE CUMMISKY, former Mutual sportscaster, joins WPAT Paterson, N. J., as director of news, sports and special events. He formerly was featured on Mutual’s Inside Sports, was once sports editor of the defunct New York P11 and before that on the staffs of the New York News and the Buffalo Times.

JACK JUREY named news editor of WKBW Youngstown, Ohio.

JIM GRANER appointed to succeed JIMMY DUDLEY as sportscaster for WJF Cleveland. Mr. Dudley resigns, effective Feb. 15, to freelance.

MALCOLM JOHNSON, formerly with defunct New York Sun, joins International News Service as reporter.

WALTER CARLE resigns as director of news and public service from KTIV TV and has been asked to extend freelance in radio and television.

SEYMOUR FOX joins news and special events staff as writer at NBC Chicago. He worked previously for WMOR (FM) Chicago and at Transradio Press.

CAMERON CORNELL, news editor of KERN Bakersfield, Calif., joins CBS Hollywood bureau as writer.

JULIAN BENTLEY, news editor at WBBM Chicago, named board member of Headliners Club of Chicago chapter of Sigma Delta Chi, national journalistic fraternity.

ROBERT F. HURLEIGH, news director of WGN Chicago, is the father of a boy, Steven Lankford.

RURAL RADIO

85% ... of properous rural New York is served by 8 stations: WHCU, Ithaca; WNF, Weathersfield; WVB, Bristol Center; WVDC, De Ruyter; WCV, Cherry Valley; WYBN, Turtin; WSFL-FM, Ogdensburg; WFLY, Troy.

$6,500 ... is the "Cadillac" average form income per family in New York state. Farm families in New York buy 45% of the autos sold; 51% of the hardware; 36% of the electrical appliances; 28% of the drugs; 36% of food-meal; 33% of the clothing.

356,640 ... is the total rural families in the upstate area. This includes 138,255 farm families ... a rich, responsive market worthy of your consideration.

Rural Radio ... prescription to sell the $971,000,000 agricultural market in New York state.

WDBC New Facilities

WDBC Escanaba, Mich., owned and operated by the Delta Broadcasting Co., has inaugurated new facilities operating on 790 kc. WDBC formerly operated on 1490 kc, 250 w. John P. Norton, publisher of the newspaper and president of the broadcating company, said formal dedication of the new facilities is planned for late in February or early March.

RURAL RADI0 NETWORK

MITCHELL MILLER, former director of popular music, Mercury Record Corp., joins Columbia Records Inc. as director of popular records division.

RCA's THESAURUS Record Library Service releases to subscribers two new transcribed radio shows, Music by Both and Ray McKinley and His Orchestra.

WABF (FM) New York, renews its contract with Columbia Records Inc. for Thursday evening broadcasts, 6 p.m.-midnight, for third successive year.

GENERAL ELECTRIC Co. signs two-year agreement with A. C. Nielsen Co., Chicago, for its television index service.

C. P. MacGregor Electrical Transcriptions moves to 8 N. Wabash Ave., Chicago, Room 1012, from 612 N. Michigan Ave. William M. Mertz Jr. is Chicago manager.

RICHARD DRUKKER last week was elected president of the North Jersey Broadcasting Co., operator of WPAT-AM-FM. Peterson, N. J. Mr. Drukker succeeds his brother, Dow H. Drukker Jr., publisher of the Herald-News, Paterson, N. J., who will continue as a director of the broadcasting company.

Richard Drukker Named

Mr. Drukker

KTFI Twin Falls, Idaho, has put some starch and vinegar in a selling campaign for Chevrolet which it believes proves the 1 kw NBC outlet can do as good a job as any metropolitan station.

As described by Manager Florence M. Gardner, KTFI aimed its sights on a three-fold program schedule and hit the target on the bullseye. The station's task was to put over a big promotion drive for six local Chevrolet dealers. Crux of the campaign was to make as many people as possible aware of the GM automobile and familiar with the Chevrolet dealers in the area.

Toward this end the dealers pooled resources, enough to purchase three half-hour periods of Class A time that included: A dramatic mystery show, Box 13, Mayfair Transcription Co. package, Sunday, 7:30 p.m.; a pop-concert music program, Cavalcade of Music, Lang-Worth produced, Monday, 8:30 p.m., and a western song-fest "hit parade" type program, The Magic Valley Hayride, station-produced, Saturday, 6:30 p.m.

The triple-day schedule was chosen, and the times staggered, in order to reach a greater cross-section of listeners during their "at-home" hours. The shows also were in the peak of A time, thereby fitting into a pattern of top rated programs.

While the absolute effect of such a campaign is difficult to measure, direct evidence was obtained that many potential Chevrolet buyers visited their dealers to ask questions about the car after having listened to one of the program's series. That was success enough for Chevrolet, KTFI reports.

The catch-all, the station points out, was the attempt to reach a highly varied listening audience during the equally as varied "at home" nights and time periods. However, each of the programs was fitted into a night when the network had similar type programs scheduled.

Along with this radio promotion, mats supplied by the packagers were inserted on the radio log page of the daily newspapers and various other displays used throughout the area. Allowance for flexibility permitted the dealers' names to be mentioned on each program in a rotating schedule, with two different dealers usually named on a single program.
FRANK GOLSTEIN named chief engineer at WMOR (FM) Chicago, succeeding DAVID B. PIVAN, resigned to work with James E. Everett Engineers, Evanston, Ill. Mr. Goldstein's new assistant is WALTER CHILDRESS JR.

G. L. McKENNA, formerly manager of Industrial Products Section of Engineering Products Dept. of RCA Victor, Camden, N. J., appointed assistant to W. W. Watte, vice president in charge of RCA Engineering Products Dept.

SPEAR MALLIS, recent graduate of Chicago Television Institute, joins WTWV (TV) Miami, Fla., as engineering assistant under direction of JACK SHAY, technical director. HEBBIE FIELDS, student at Radio & TV School of U. of Miami, joins WTWV as cameraman and sound technician.

PAUL KELLY, formerly chief engineer of WNNI Wabash, Ind., joins WCSI (FM) Columbus, Ind., technical staff.

HARRY MAULE, member of NBC Chicago engineering staff 15 years, promoted to supervisor of TV field engineering operations. He replaces COURTNEY SNELL, transferred to NBC New York.

IVAN IZENBERG, WNNR Newark staff engineer, and EDITH LEVIN, of Gordon & Rudwick Adv., New York, have announced their marriage.

RCA Engineering Products Dept., Camden, N. J., announces production of power control unit for mobile TV pickup equipment, providing power consumption readings and permitting regulation of input and output voltages from central point in unit.

HOOKER-FREDERICK

New Production Firm Formed

A NEW corporation, West Hooker-Frederick Productions Corp., New York, has succeeded the former West Hooker Telefeatures Inc. West Hooker, head of the former concern, is president of the new firm located at 2 W. 46th St. Frederick Klein is vice president and treasurer. The new company will produce not only radio and television shows but also theatrical and motion picture enterprises.

LATEST news and developments in the field of magnetic tape recording are featured in Magnecord INK, new monthly publication of Magnecord Inc., Chicago tape recorder manufacturer.
Galbreath Answered

EDITOR, BROADCASTING:
Mr. Ed Galbreath, radio instructor of Statesville, N.C., in his letter to the Editor, Broadcasting, Feb. 6, asked for assistance in getting "all network programs every night in the week regardless of atmospheric conditions."

I can appreciate the gentleman's difficulties in trying to get good consistent reception, for I experienced the same problem when I resided in another of the underserved areas, Michigan's Upper Peninsula. There is only one solution to the problem of inadequate radio coverage in Mr. Galbreath's area which is typical of so much of the United States. To better serve those small towns and rural areas, the clear channel stations must be given increased power to surmount the barriers of distance and high atmospheric noise levels.

That is why the FCC is using power in excess of 50 kw on all six of its clear channels, whereas stations in the United States are stymied from improvement in service because of an archaic power limitation (50 kw).

There is no reason why small town and rural listeners should not have service some time comparable to that enjoyed by their city friends. Increased power for clear channel stations is the answer, and the FCC has the authority to grant it.

Ward L. Quaal
Director
Clear Channel Broadcasting Service
Washington, D.C.

EDITOR, BROADCASTING:
Re the letter of Mr. Ed Galbreath . . . Statesville, N. C.
Mr. Galbreath's letter points out one of the greatest mistakes made by broadcasters in the use of FM. In the area in which Mr. Galbreath is located I am sure that he not only can get every network program he desires, but will have a choice of stations to listen to if he will resort to a reasonably good FM set or converter.

Palmer A. Greer
Radio Engineer
Spartenburg, S. C.

Dear Mr. Galbreath:
In reading the Feb. 6 issue of Broadcasting I find . . . you . . . asking how small town listeners can have available all network programs every night in the week regardless of atmospheric conditions.

This question has been answered to hundreds of thousands of people in the Southeast when they purchased an FM radio.

Though WMIT does not belong to any of the networks you mentioned in your letter, I would like to call to your attention the fact that in Statesville, N. C., you can receive day and night complete coverage of the two networks you mentioned from at least seven different sources. For NBC shows I recommend that you tune in WOAS-FM in Winston-Salem, WSC-FM in Charlotte, or WOPL-FM in Bristol, Tenn. For your ABC programs I suggest you tune in to WHKY-FM in Hickory, WMFR-FM in High Point, WAIR-FM in Winston-Salem, and possibly WGNC-FM in Gastonia . . .

John M. Dunnigan
KPTS 1164
WMIT Charlotte, N. C.

Gardner Sees Hope

EDITOR, BROADCASTING:
In your columns there have been some disharmonized, but staunch, standard bearers advocating the principle that RADIO MUST SELL ITSELF.

One phase of this has been the sore subject of newspaper references, where radio references on local or network shows or newscasts could be used equally easily, equally authentically. We want our own medium to think and talk radio.

For the sick of heart on this campaign, there is hope. It is beginning to show on some NBC shows. Some months back on NBC "One Man's Family" one of the characters of the play was remaining home to listen to Duffy's Tavern, and then again Saturday night, Jan. 28, on the Denver Day show, two of the characters made their appearance at the courthouse, because, they learned that a particular situation had arisen, on the late evening newscast!

So, all you advocates of this reference-policy, take heart, we may be gaining ground—from the scorn the mighty oak did grow!

Florence M. Gardner
Manager KTFI
Twin Falls, Idaho.

Sees Network Fear

EDITOR, BROADCASTING:
It was a pleasure to read your editorial "The Rich, Full Life," in the Jan. 30 issue of Broadcasting . . .

I have never been able to understand why it is, with the great increase in local broadcasting, the trend to network ownership in set ownership, in radio's demonstrated effectiveness, in cost of network and station operation, that network rates should remain at the 1948 levels. All other media have raised their rates in keeping with the ascending costs of doing business.

There can be only one "cheapest" advertising medium, and network radio seems to take pride in that dubious distinction. It is difficult to understand the network thinking which permits the condition to continue. My contact with network officials leads me to believe that they are governed by fear of competition, the loss of important accounts, and more recently, to television. Apparently, Life magazine hasn't had the same fears and very realistically raised their rates in keeping with its value—and its production costs.

Praises Bob Hawk

EDITOR, BROADCASTING:
I enjoyed Mr. Klein's story about Jack Benny's trip to Houston [Broadcasting, Jan. 30]. I had a similar experience several years ago when Bob Hawk came to Charleston, W. Va., where I was then operating WCHS. Bob came to do his quiz show and enceed a local talent show during a war bond drive. He was far more gracious than any of the local people and certainly set a fine example.

HOW TO TURN RED INK BLACK

By BRUCE ROBERTSON

VIDEO ECONOMICS, methods of TV station operation, sales and programming leading to increased revenue and decreased expenses, held the center of the stage Wednesday at the Television Clinic conducted by Television Broadcasters Assn. at New York's Waldorf-Astoria Hotel.

Other current TV issues, such as union jurisdictional disputes, network affiliation on an interconnected or non-interconnected basis, and the place of sports in the program schedule got their due share of time in the day-long agenda, which clicked off on schedule under the sharp eye of Charles C. Barry, ABC program vice president, who served as clinic chairman.

But the main interest of the more than 400 TBA members and guests at the session was focused on the all-important question of how to turn the red ink on their monthly balance sheets to black.

How one TV operator has done that trick was described by Edward Lamb, owner of WICU (TV) Erie, Pa., and WTVN (TV) Columbus, Ohio, who stated that "both stations have been in the black since the day they opened."

"There is nothing unusual about this," Mr. Lamb continued. "I say that any TV station in the United States can be operated at a profit."

Mr. Lamb's secret is a simple one—"don't buy anything you don't need. Use what you have to the limit. Where other stations say 'one show, one camera,' I stated, 'we say 'one camera for all shows.'"

He admitted that with increasing programming he is now getting a second camera for each station, but, he declared, "We don't have a lot of fancy-pants equipment lying around in the garage."

Despite the dependence on network and film programs implicit in single-camera operation, Mr. Lamb stressed his stations' emphasis on local and public service programming, which, he declared, "pays off at the box office."

know," he added, "that in local programming you receive your full rate card and do not give the network 70% of the amount of the sponsor's payment."

Detailing his stations' finances, Mr. Lamb reported: "The income of one station is roughly $30,000 a month, but is rapidly increasing as we go into more and more after noon programming. Our expenses are approximately $17,500 a month, including wages of $4,500, depreciation in the amount of $4,000 a month, films, promotion, taxes, maintenance and miscellaneous costs totaling $9,000 a month. We depreciate our mechanical equipment at the rate of 20% a year and buildings, as well as other equipment in accordance with the schedule set by the Internal Revenue Bureau."

Outlines Staff

"We have 17 employees at each plant. These include a general manager, three salesmen, a program director, three studio technicians (including cameramen and film editor), a chief engineer and five engineers and three office girls, one of whom handles program and traffic matters, another bookkeeping and the third stenographic matters."

Mr. Lamb asked why TV, even as "blue chip big business" needs "such elaborate but unused plants."

The viewer is impressed only in what appears on the screen and not with the chromium in the studio. . . . The viewer is not impressed when a teleseter proudly boasts of losses running as high as $100,000 a month. Hooperadings do not follow the teleseter's profit and loss statement."

John H. Boyle, director of television at WAVE-TV Louisville, a non-interconnected station at present, said he has "a few shudders whenever I think about the cable coming through in October."

Reporting that WAVE-TV now gets 30% of its rate card for network commercials, he said that when it becomes an interconnected (Continued on Telecasting 18).

**BY MAY ALLAN**
The charm that surrounds WDSU-TV quarters.

The upper wrought-iron balcony is featured by a fan-shaped "garde de frise" originally designed to keep marauders from entering via the adjoining building.

Erected in 1816 by Francois Saumonnet, who bore a musket in Gen. Andrew Jackson's Battalion A Orleans, the building has been a center of art and commerce. In 1909 William Rateliff Irby, banker and tobacco manufacturer, acquired the property, renovated it and installed an elevator and large pipe organ.

Offices of station executives and personnel are located on the second and third floors, including large audition and conference room, film library, projection room and employees lounge. Studio facilities are in temporary quarters on the third floor pending completion of an elaborate new studio building.

... ... ...

Those accustomed to the architecture of the glass-and-chrome mill will get a shock when they enter this antique home of an ultra-modern electronic enterprise, dominated by the French Quarter motif. They will find themselves ushered into a courtyard and seated at a table midst the lusher flowers, trees and shrubbery of the semi-tropical region.

A maid serves coffee (Luzianne, courtesy of the sponsor). Visitors sip the sturdy brew for which the city is famed as they take in the patio's banana trees, palms and other flora.

Surrounding this bedecked patio are all the scientific marvels of the Television Era. Work is moving along rapidly at the adjacent studio building covering a 60x200-foot area. WDSU's engineers have followed the basic concept that a TV studio should be as large as space permits, and should be on the ground floor with an entrance accommodating the largest rolling vehicle.

The video studio will be 60x100 feet, with arched interior 35 feet high. It is patterned after Hollywood sound stages, with master control room overlooking the sets, catwalks, permanent sets, prop rooms, film laboratories and similar accessories. Three other studios are interchangeable for AM and TV. They include recording facilities, client's booth and related facilities. The building also will house a large workshop, lounge and reception hall. Overall area of offices and studios is 22,000 square feet.

Several blocks away is the transmitter, housed atop the Hibernia Bank tower, tallest in the city. Tower installation followed NBC's Empire State Bldg. pattern. The

WDSU-TV Brings Modern Television To Beautiful Old New Orleans

Bourbon Street spots with their Dixieland entertainers?

Pile on top of this list the sports, concerts, dramas and aquatic events for which the city is unique, plus the normal quota of daily doings in the nation's No. 2 seaport, and you have the stuff that WDSU-TV's staff has at its disposal—plus the pick of the programs kinescoped by all four nationwide television networks.

There's nothing quite like—anything like—the new WDSU-TV headquarters in all American radio and television. Located in the heart of the Vieux Carre (French Quarter), the century-and-a-half old structure is ornamented by two typical New Orleans balconies, overhunging the sidewalk.

Known as The Bruhatour Court Bldg., it is one of the more famous buildings of its type in the city.
55-foot RCA batwing antenna carries the 5 kw signal from the RCA transmitter out over a vast area with a kick of 31 kw. Reports of “very regular reception” cover spots as far away as Alexandria, La., 150 miles to the northwest, and consistent reception over an area including parts of Mississippi and Alabama.

During its first year, WDSU-TV had to get along with a converted office on the top floor of the bank building as the main studio. Another office was converted into stairs leading to the penthouse transmitter and control rooms. Crowded into this space were work-shop, TV and FM transmitters and a small announce studio. The penthouse even had a balcony.

All this squeezing and pigeon-holing will be avoided in the new plant. Control equipment is custom-built. High-perched producers will have a view of the entire main studio. Dual switching units are provided for rehearsals while other programs are on the air.

This ingenious use of limited space is an old story in the television industry. WDSU-TV was blessed with a substantial quota of ingenuity and the results surprise even those who sweated and toiled during the early days. They're glad the elbow-bumping days are about over and what they can do in the wide-open spaces of the new studio building may surprise even themselves.

To handle its local remotes, WDSU-TV has a custom-built Lynn mobile unit with two cameras along with accessory station wagons.

ANYONE familiar with the commercial, educational and recreational facilities of New Orleans knows that the citizenry wouldn’t put up with inferior TV programming.

Messrs. Stern and Sweeney were quite aware of the community’s tastes so they have followed up a history-making debut with this simple program policy—Let’s do a solid job on the inside; then we’ll get set sales on the outside, and sponsors, too.

The four-network package has given a solid foundation of national program fare. It might have been simple to get by with occasional local programming and a lot of cheap film, but the management committed itself to high-quality production. It has gone in heavily for community telecasting.

In early 1949 a list of sports events was laid up. It included basketball, baseball, wrestling, horse racing and similar events. Professional baseball wasn’t available but the American Legion games developed a heavy following. Last fall WDSU-TV telecast the whole Tulane football schedule on film.

And the Sugar Bowl football games for the past two years have been telecast by Gillette. Maison Blanche, a local department store, and the Seven-Up Bottling Co. were sponsors for the balance of the Sugar Bowl events.

The Mardi Gras—well, there’s nothing to match it in all American community life, and New Orleans television has been all over the town filming pre-Mardi Gras events. As was the case last year, the whole package of parades, balls and similar events is sponsored by the General Electric distributor.

In spite of extremely cramped facilities, studio programming at WDSU-TV has been intensive. Single-camera operation has provided an excellent challenge to program builders, who offer distinctive and novel presentations, both sustaining and commercial. It has been the proving ground for the new major operation.

The development of local talent has been proceeding steadily. The Dixiebands, of course, are heard frequently. A talent show titled New Voices, originating in the Roosevelt Hotel, has developed a roster of good local talent.

Local professional talent such as Fats Pichon and Claire Nunn formed the basis for sound local shows. Miss Nunn plays the piano as well as sings, and does her own commercials.

Joyce Smith’s Floral Trails, a weekly garden show, and her A La Mode, on which she presents interesting people and unusual events, with something for every member of the family, and Sharkey’s Dixieland music further stimulate the local picture.

With this backlog, WDSU-TV is about ready to move into daytime programming. Lena Richard’s late afternoon show, a participating program with pictorial chatter on recreation cooking, will be a vital factor in the new daytime schedule.

Still other shows will feature dishes from New Orleans’ famous restaurants. A daily Shopper’s Guide is slated for programming, along with another newcomer to the afternoon stanzas, Man About Home, with tips for the harried housewife on household repairs and maintenance. Fashion shows have already proved themselves, and it is hoped that a new format will solve the disc jockey-TV problem.

THERE'S nothing too novel for WDSU-TV’s programmers. Recently they completely rebuilt a fat woman. With the TV camera on her, the lady went on a diet and took a course of massage and beauty treatments. They really re-made her for the TV audience and when the series ended she had shed some 60 pounds.

Fortunately, New Orleans in early TV days was blessed with courageous sponsors. Maison Blanche department store and Seven-Up jointly sponsored boxing and wrestling. Public Service and Coca-Cola signed up for basketball. Mobil and Burroughs put up on horse racing.

Outdoor sports are on a year-round basis and Jax Beer has sponsored a hunting and fishing chattering program. Native in Louisiana, D. H. Holmes department store sponsored the Korda film series, as well as live variety shows. Brown’s Velvet Ice Cream picked up the Telekids juvenile show.

Regal Beer buys sports and Dixie Beer sponsors Telenews as well as five minutes of stills depicting local and national news, using photos from the New Orleans area.

With all this programming, what do sponsors think? The answer to what sponsors think can be found around the sales department of the TV station. WDSU-TV has a bulging file of success stories. Just a few days ago, for example, Salem Fluorescent Maintenance Service sponsored two five-minute programs, its TV debut. From a $100 time-talent budget, Salem received calls that netted over $1,000 in new business.

Last month D. H. Holmes Co. sponsored a 15-minute musical program, Concert Miniatures, 7:30-7:45 p.m. One commercial was devoted to Schiffer Printers draperies, only promotion for the Nil-Art Co. product. During the week following the program 72 persons went to the Holmes drapery department and specifically asked to see the TV-promoted draperies, resulting in sales totaling $1,565.80.

Another time Maison Blanche sold its entire stock of 14 outboard motors through a lone TV spot. And at Holmes they recall the time a basketball interview with Cliff (Continued on Telecasting 16)
LARGE AUDIENCES

And WGN-TV’s “Trail Blazer’s Theater” is no exception.

In the short time “Trail Blazer’s Theater” has been on WGN-TV, its ratings have risen to the point where more than 183,000 Chicagoans watch these films each quarter hour—five days a week, 5:30-6:30 p.m.

Add the great hold-over audience from the preceding “Small Fry Club” to the appeal of western films, and you’ll see why “Trail Blazer’s Theater” consistently draws record audiences.

But the most amazing thing about this feature is the price—it’s phenomenally low for participations or sponsorship of the whole program. Just imagine, you can buy participation announcements for less than the one minute night time announcement rate.

Here’s one of the best buys in television. You’ll be thoroughly convinced when your WGN-TV representative shows you the facts and figures.

SURGERY TV

ANOTHER successful use of color television to demonstrate surgical and medical procedures was reported by CBS last week following a three-day meeting of the Atlanta Graduate Assembly in Atlanta, Feb. 6-8. [see picture TELECASTING 141].

CBS quoted Atlanta newspapers as reporting virtually unanimous opinion among doctors that color TV is “a great step forward in the teaching of surgery.” Over 1,700 doctors from seven Southern states viewed operations and clinics in action through means of 10 color receivers.

After the sessions CBS packed off the portable camera and receiver for shipment to Washington where they will be used for renewed public showings starting today (Monday). Receivers and pick-up equipment were designed and constructed by CBS engineers for Smith, Kline and French, Philadelphia, which has been furnishing such equipment for demonstrations before numerous medical groups.

C. J. WITTING

APPOINTMENT of Chris J. Witting as general manager of the DuMont Television Network was announced by Commdr. Mortimer W. Leeu, director of the network, in a statement prepared for release today.

In his new position Mr. Witting will direct and coordinate activities of the entire network numbering 53 affiliates, Commdr. Leeu said. Appointment was in recognition of the growth of the DuMont network during the past year, he added, citing gross billings in excess of $3 million—triple those of 1948.

Mr. Witting joined DuMont in June 1947 after long experience in industry and show business. Prior to joining DuMont he was with Price, Waterhouse & Co., where he supervised a number of assignments including radio. He also served for several years as controller of USO-camp shows.

KTSU (TV) EXPANDS

13 Feature Movies Acquired

ACQUISITION of series of 13 feature movies and contemplated increase in KTSU (TV) Hollywood kinescope programming was announced by Charles L. Glett, vice president in charge of Don Lee television, following his return from a two-week eastern visit.

Included in the group of motion pictures for which station has obtained exclusive release are Action for Slander, Woman Alone, Amazing Adventure and Ten Days in Paris. Added kinescopes being considered are DuMont network’s quarter-hour programs, Easy Aces and Manhattan Spotlight and New York wrestling bouts. Selection of new mobile equipment for KTSU will also be announced shortly, according to Mr. Glett.

INTRODUCTION to Television" course added to curriculum of U. of Washington’s Radio Education Dept., Pullman, Wash.
WOR-TV New York last week opened its new studios in New York's Television Center and simultaneously moved its TV master control here from the New Amsterdam Roof Theatre.

Complete facilities comprise three studios, control rooms, master control, rehearsal and dressing rooms, offices, and a reception lobby. Under the new setup, all camera control operators are located in a centralized camera control center. Other innovations include flexible studio lighting systems (employing fluorescent features), technical refinements and intercom positions.

Studios A and B, each 43 by 68 feet, comprise the playing area available at the center.

Studio C contains film projection cameras and associated equipment. Each studio has a separate control room. Studios A and B each contain four studio cameras. Studio C's film projection booth has three icosocope film cameras which can be fed from two 16mm film projectors, two 35mm projectors and several slide projectors.

All film, audio and video facilities are arranged so that the program director has directly before him simultaneous monitors on four of his normal studio cameras; two preview monitors, and a line monitor. Thus, all sources of signal can be previewed and the picture can be properly lined up before being switched to the program line.

Master control, consisting of six incoming channels with four outputs, provides for either simultaneous or independent audio or video switching. Each outgoing channel has a picture and an audio monitor.

Television Center is at 20 W. 67th St. WOR-TV also has studios in the New Amsterdam Roof Theatre on West 42nd St. One of these is an audience studio with a seating capacity of 450. Signals from these studios are fed into the 67th St. master control from their associated control rooms.

**THEATRE SALE**

**NBC-TV Buys in Chicago**

FIRST PROVISION for TV audiences at NBC Chicago was made last week with Victor T. Norton, NBC vice president for administration, signed a long-term lease with J. J. Shubert of the Select Lake City Theatre Operating Co. for the 52-year-old Shubert Theatre. The 1,300 seat legitimate house will become the Midwest's largest TV theatre, according to NBC Central Division Vice President I. E. Showman. Contract length and costs were not given.

NBC expects to spend $100,000 initially for equipment, including three or four new cameras and control room fixtures. Maintenance engineers surveyed the site Thursday, although the only remodeling expected to be done is that required for special television equipment.

First show to originate there will be WNQ-NBC-TV Chicago's one-hour segment of the network's two and one-half hour Saturday evening participation show, scheduled for Feb. 25.

Long-range plans for studio usage include origination of additional audience shows, especially daytime. NBC-TV Chicago has no TV audiences now because of space limitations.
**PHONEVISION TEST**

**Webster Sounds Alarm**

**AMID WARNINGS by Comr. E. M. Webster that the American concept of free broadcasting may be subjected to a "momentous change," FCC last week approved with multiple reservations the Zenith Radio Corp. request to test Phonevision publicly in Chicago.**

Reversing FCC's earlier order for a stay of consideration of Zenith's plans to test its "pay-as-you-see" brand of TV, [TELECASTING, Dec. 12, 1949], the Commission majority ruled the test could be held to help settle some of the issues for such a hearing. This ruling, however, was attended by:

- Warnings by Comr. Webster in his dissent that the majority action is contrary to FCC's own rules, violates basic allocation principles, may require Congressional redefinition of broadcasting, and could result in new restrictions—which FCC can't control—on the public and TV industry.

- Concern of Comr. Robert F. Jones, who issued a separate statement, that FCC's action will have to overcome monopolistic tendency of the patent-pool situation in TV equipment and set manufacturing. His recognition of a need to encourage new developments was shared by Comr. Frieda B. Hennock in another concurrence.

- Announcement by Zenith's Comr. Robert M. Jones of experimental few hours after grant, that the experiment will be the "acid test" of whether the public will pay for "good" entertainment via TV in their own homes.

**Lengthy Hearing Not Necessary**

The Commission majority held it was a satisfied a lengthy hearing was not necessary at this time in view of Zenith's allegations that the test sought only to determine public acceptance of Zenith's "new" concept of a "pay-as-you-see" television. The grant, valid for 90 days from last Thursday and to employ Channel 2 (54-60 m), facilities now being used experimentally by Zenith's KS2XBS Chicago, is subject to following conditions:

1. Motion shall not be construed as determination that such experiment is or will be in public interest, nor express terms of grant, or whether Phonevision or any such system constitutes a public common carrier or other type of service, and FCC reserves right to terminate such license if circumstances arise.

2. Zenith shall avoid any action that might create impression Phonevision has been or would be authorized on regular basis or that grant constitutes FCC's approval of any experimental program. If any such program is developed, and uses and aural notice to this effect must be made.

3. KS2XBS shall air only Phonevision shows during experiment.

4. Scope of test must be confined to Zenith's experimental program.

FCC denied Zenith's petition to install a new 5 kw video transmitter and other equipment at KS2XBS, without prejudice to filing an appropriate application for construction permit for such installation. Zenith has pending an application for a regular commercial TV station on Channel 2 in Chicago.

Comr. Webster considered sub-

cription radio or television as "a fundamental change" in the American system of radio which might need Congressional approval and that it could affect broadcasting's non-common carrier status.

He said his mind was "completely open" on Phonevision's merits and arguments. But, he pointed out, U. S. broadcasting has always been "a free service to the listener." He asserted "the first move to change this has not been made will be a public hearing. He continued:

I do not believe that very much vision is required to see that if the Commission should authorize subscription television, and it should prove to be the most profitable method of operating a television station, that the Zenith experiment will be engaged in. In the week, will be devoted to subscription television, and it should prove to be the most profitable method of operating a television station, that the Zenith experiment will be engaged in.

Television station licensees will be clamoring for a subscription television system, and it is an element on the Commission's door for regulation during the time there is no discrimination in the issuance of such functions or the fees.

Television receiver owners will expect the Commission to consider rules which will provide to each licensee of home television programs during the best listening hours and which will insure that the FCC will avoid any discrimination and non-discriminatory fee for viewing programs.

These considerations point to a commitment of the same kind for subscription television, not to the broadcast networks or regulated program.

He felt Phonevision resembles a "fixed service more than broadcasting."

He feared approval of the tests without hearing would lead the public to believe that Phonevision will become "the future television system," and that it might give rise to "foot in the door" with respect to its pending application for commercial television in Chicago.

He also thought it fair to assume that Zenith will request an extension of both the scope and the duration of the tests.

Comr. Jones, who originally voted for a hearing to precede tests, said he was concerned "the importance of the full encouragement of new television techniques" justifies tests without prior hearings in this case. He said:

"Television, to the extent that any forms of broadcasting, presents a particular problem because of the Commission's engineering standards are so limited for all purposes received television signals that the patent claims of one company or upon the claims of patents have been rejected and his company has the right to mail license for the use of such patents."

The effect of writing such standards has been to permit the formation of a patent pool with the result that one has become the predominant patent holder who collects fees from practically all users in the television industry.

With the further extent that there is a tendency toward, if not actual monopoly in the television industry of the transmission and receiving equipment, it is apparent at all times in the standpoint that new developments of the Zenith type are small. The holders are entitled to a monopoly in the development and manufacture of the equipment. TV is not a public utility as such, and it does not follow that the Commission has to join in that monopoly.

Comr. Jones noted Zenith proposed to turn over proceeds from the test to charity. There are many inventors or developers of many techniques who can't afford to be so generous," he said.

"The Commission must be ever vigilant to prevent any kind of a hearing. We feel the small inventor to get his invention before the American public without having to pay with pocket change placed in hands of those who may let it rest in their files."

He said that "300 customers is considerably less public sampling than all the other customers such as those being conducted in color television "where to date over 10,000 people have viewed one of the color systems."

"But he considered the Zenith proposal a solution to the problem of canvassing public reaction. Comr. Hennock similarly cited the importance of encouraging new developments that he feels public hearings should precede action on potential new and different services. But, she added: "Upon reconsideration, I have concluded that such a hearing on Phonevision at this time would serve little purpose."

She said the main problems which Phonevision can "contribute" to the economic and social rather than technical, and that the tests were designed to gather data on these aspects.

She believed that the holding of hearings at this time would be an impeding rather than an encouraging move with little to be gained on behalf of the public," she asserted.

McDonald Outlines Preliminary Plans

Within hours after FCC announced conditional approval of Zenith Radio Corp.'s plan to publicize its "pay-as-you-see" experiment in the Chicago area, Comdr. E. F. McDonald Jr., Zenith president, issued preliminary details for the 60-day experiment. No date for its commencement was specified.

Comdr. McDonald said "this test will climax 19 years of technical research and three years of actual transmission of Phonevision broadcasting here in Chicago."

It will enable us for the first time to put to an acid test a question which for years has concerned both the motion picture and television industries. "Is the public willing to pay for good movies shown television in their own homes; and more specifically, how frequently will they pay $1 per feature for such movie services?"

"Although Zenith has had Phonevision perfected for more than three years," he said, "we have delayed our actual commercial test until the present for three important reasons:"

1. Zenith delayed for the purpose of including their patent picture in the United States, and foreign countries.

2. Three years ago, television broadcasters refused to believe that the adhesive could not pay for the type of top entertainment the public would demand from television. It took last year's operating loss of well over $15,000,000 to convince them.

3) The movie industry would not believe that this new competitor, television, would do to the motion picture industry what it is doing to the television industry.

"But, said Mr. McDonald, "I am going to prove that the Zenith, more than $500,000, the Zenith contingent will, 'include participation by 300 Chicago families."

Every day for 90 days Zenith plans to broadcast a different full length feature picture.

**TV SET EXCISE**

RMA to Fight Lowry

**PROPOSAL to place an excise tax on television sets, will retard the rapidly expanding TV industry, Radio Mfrs. Assn. will contend before the House Ways & Means Committee's hearings on the levy authorized by the provisions of the Treasury John W. Snyder.**

Set industry spokesmen drew up plans for RMA's presentation at a coming hearing held Friday at the Hotel Statler. The meeting will be taken up this week during the RMA winter conclave in Chicago.

Joseph Gerl, Sonora Radio & Television Corp., chairman of RMA's Excise Tax Committee, said the tax will prove a hardship on small manufacturers and dealers, said the "farthest thing" in the industry, and also will force a substantial increase in TV set prices by which low-income groups will be deprived of television entertain-

Mr. Gerl recalled that the present 10% excise tax on radio sets was imposed in 1941 as a national defense revenue measure, double 5% by advertising in 1932. "The radio and television industry already is bearing more than its share of the tax load," he continued. "It is adverse to the ability of income and corporate taxes paid by the manufacturers and their merchandising outlets, the industry has paid the government about $290 million in excise taxes since 1932. Last year alone it paid the government $40.6 million.

"Contrary to some opinion, the television-radio industry is made up of small manufacturers and dealers, small jobbers and small dealers. Less than a dozen of the 100 set manufacturers and only a handful of several hundred parts manufac-
turers provide the product, and the trade is accurately called large corporations."

"As for dealers, the bulk of them are small shops and stores."

He noted that Secretary Snyder has said the tax reduction would stimulate employment and production, at the same time proposing the new TV impost. The FCC's freeze, he said, already is having a deterring effect on the industry, and a 10% tax "would add another load on the public and the industry, for the manufacturers and TV broadcasters."
THE ED WYNN SHOW

that’s top-rated, and makes more people laugh than anybody.

For another top CBS Package Program ready right now to go to work for an advertiser, turn the page.
ABE BURROWS ALMANAC is the kind of high-flying comedy CBS Package Program that's geared to a big pay-off for any smart advertiser.

Funny man, funny songs, gifted guests all add up to a hilarious Burrows-type show called an almanac... but it's hardly anything like Poor Richard's.
TV DRAMA RIGHTS

By JOSEPH A. Mc Donal D, ABC Vice President and General Attorney

THE question of music rights in TV has been carefully considered lately, particularly in connection with the ASCAP negotiations, but a glance at the program schedules shows the present and growing importance of drama. The clearance of dramatic material for broadcasting presents some very interesting questions as a matter of law and good business judgment.

An adequate treatment of this subject would probably be a cross between a review article and a book. However, this is intended to be but a brief general summary of some of the practical questions involved in clearing literary material for dramatic presentation in television. In the case of it is hoped that it may be of some interest and help to telecasters in general and to their programming people in particular.

The clearance of material for any form of broadcasting is logically subdivided into a consideration of the status of music on the one hand and literary material on the other. Aside from certain technical differences stemming from the provisions of the copyright act itself, the most significant difference between clearance in the two fields is found in the fact that most of the questions involved are non-dramatic renditions and are determined on the basis of industry-wide agreements with groups controlling the performing rights such as ASCAP, BMI and SESAC, or a representative of groups of owners such as the Music Publishers Protective Assn.

Cases Differ

In the field of literary material, however, the status of each work has to be examined as a special case. Naturally, these special cases fall into one or more of several categories of legal relationship and some literary agents do represent a number of authors, but by and large the rights are individually controlled. To use a real estate analogy, the clearance of a dramatization for television broadcasting is like examining the title to a piece of individually owned real estate property, whereas the clearance of musical material is often more akin to making a lease with the owner of a large apartment house.

Under our copyright statute the exclusive rights granted the owner of dramatic material may be divided down to the grant of an exclusive right to perform, (1) to perform and (4) to record the work. The significance of the last two to broadcasting is obvious.

As is well known, some plays are written as plays; others are dramatizations of nondramatic works. In either case the basic work may be copyrighted under the statute. The essential features of statutory copyright of a piece distinguishable from common law rights are that the owner of a statutory copyright has a limited period of time in which to enjoy his exclusive rights. He gets practical, because material produced by an employee belongs to the employer, as though the employer had written it, subject to such provisions as there may be in this respect in the contract of employment or in any applicable collective bargaining agreement.

While a certain amount of literary material might be produced in this way, home-grown, a major part of the dramatic program schedule will of necessity require the obtaining of such material from outside sources. Such material is available in various forms. First, it may be nondramatic literary material capable of dramatization by writers working as independent contractors, by specially engaged employees or by staff personnel. It may already exist in dramatic form, but in most cases it will require adaptation to television production techniques, or at least it will need condensation as a matter of timing the program.

In addition, the television broadcaster will have available for consideration a great amount of dramatic material already recorded on film. This may be film made primarily for exhibition in motion picture theatres, or primarily for television broadcasting or both. In dealing with dramatic material in motion picture form, an obvious short cut is available in the clearance of film obtained from responsible sources.

If the broadcaster has confidence in the supplier of the film, its purchase or lease with appropriate warranty and indemnity provisions eliminates as a matter of concern the clearance of rights in the absence of notice of claims made by others with respect to such material. Even in the latter case, depending upon the standing of the supplier of the film, it might well be decided to proceed with the permission of the individual and merely pass on to the supplier the obligation of defending any suit which might be started and to pay any damages which might be found to be owed.

On the other hand, in many cases it will be highly desirable, either because of unwillingness on the part of the supplier to give a warranty and indemnification or because of uncertainty as to his ability to respond to claims of infringement, to check back to ascertain the true location of the performing rights.

Examine Contract

The first thing to bear in mind in making such a search is that the film itself may be, and probably is, copyrighted. The copyright owner has, on the face of it, all rights in the film. As a general rule he need look only when dealing with the copyright proprietor himself. In most cases the deal will be with an individual who has physical possession of a reel of film, and the problem is to ascertain how he came by it and what rights he obtained with respect to its use as distinguished from the mere right to hold possession of the film itself. The logical way to proceed is to ask to see the contract under which the holder of the film obtained the print. This in turn leads to the inquiry of where the one from whom he obtained the print obtained it and under what circumstances. Just as in the case of examining the title to a piece of real estate, it is necessary to go back step by step until proof is obtained of a license to perform the film from the copyright owner.

Additional steps you must take are explained in the following paragraphs.

(Continued on Telecasting 16)

Each Case Needs Individual Study

JOSEPH A. McDonal D, ABC vice president, general attorney and corporation secretary, is an authority on copyrights. He is a member of the copyright committee of the Assn. of the Bar of the City of New York, in addition to being a member of numerous other legal groups. With ABC as general counsel since 1945, he served with NBC before that for 13 years in various legal capacities. He has a bachelor's degree in law from Fordham U. and a master's degree from New York U.

Mr. McDonal D

**Chevrolet Spots Top Advertest Ratings**

In TWO separate studies of television spot commercials just released by Advertest Research, New Brunswick, N.J., it was reported that the Chevrolet commercials had the highest impact ratings for January and that spots adjacent to high-rated programs are not as valuable as those that are.

In commenting on the adjacency problem, Seymour Smith, Advertest director who conducted the survey, said: “Our preliminary findings show that while an adjacency to a high-rated show may enable a spot to be seen by a greater number of viewers, the spot is proportionately not as well remembered as the same spot next to a lowered rated program. Thus, in terms of impact of the sales message, the spot adjacent to the lower-rated program may actually outweigh the higher-rated adjacency.”

The analysis reportedly is based on research material drawn from the September through January issues of the Advertest Television Spot Report and is based on 6,000 personal interviews.

Giving a hypothetical case, Advertest expands the theorem as follows: “Let us say 100 people see spot A adjacent to a high-rated program. However, only 20% of these people remember the sales message. Spot B adjacent to a lower rated program is seen by 80 people but 30% grasp the sales message. Thus, the lower-rated adjacency actually delivers more sales impact than the higher-rated adjacency.”

**The top 10 ranking spots:**

Chevrolet 435.74; Bulova 425.75; Hi-V 364.56; Pepsi Cola 363.50; Late Strike 305.57; Tide 236.58; Philip Morris 238.75; Ovaltine 188.75; Pepsi Cola 188.25; Gulf Wine 187.

**WOAI-TV Changes Survey Method**

EXPLANATION of the large increase of TV set figures in San Antonio in the past fortnight comes from WOAI-TV that city. Station reports that a new method of re-aligned surveying is being used which embraces all known distributors. The more accurate method shows 8,211 TV sets installed. WOAI explains that these figures point up the station’s “true position as an enthusiastic TV market.” The more accurate figures contain the new figure and that used before was caused by earlier reports compiled by the station solely from individual registrations by owners, WOAI adds.
Right from the start, February, 1949, WHIO-TV became Dayton's FIRST television station. Look at the record!

- FIRST Dayton television station on the air.
- FIRST and only Dayton owned and operated TV station.
- FIRST Dayton station on the cable.
- FIRST with the best local programs and the finest network shows from CBS, ABC, and Dumont.
- FIRST with viewers according to latest Hooperating.
- FIRST with local and national advertisers.

WHIO-TV is now and will continue to be "Dayton's First Television Station."

Television Sets in WHIO-TV area: January 1, 1949—2,685 sets; January 1, 1950—36,000 sets. Those in the know buy WHIO-TV. For availabilities, contact your nearest Katz Representative.

DuMONT APPEAL

Increases ‘Lift Freeze’ Tempo

Prior to Dr. DuMont’s conference with the legislators the industry executive vigorously pursued his campaign to persuade FCC to lift its 17-month television freeze by granting on Monday Come. Robert Jones and Sen. Edwin C. Johnson (D-Col.) for insisting on color standards before new black-and-white channels are allocated.

Hits Jones, Johnson

Dr. DuMont charged that Comr. Jones and Sen. Johnson are "primarily" responsible for "damming up television's progress" in 89 markets which enjoy no TV reception and in other areas as well. He scored both for "refusal to face reality" and furthering the color issue, which he asserted, "has mined television in a rainbow-hued swamp that can soon have our industry crying for help."

The attack on the two government officials was delivered at a three-day television institute and industry trade show in New York.

Dr. DuMont, whose remarks paralleled previous asides on the TV freeze [TELECASTING, Feb. 6, Jan. 30], said FCC "has seemed all too willing" to follow the lead of Sen. Johnson as chairman of the Senate Interstate & Foreign Commerce Committee. "While Comr. Jones . . . has no eye nor ear for anything that doesn't look or sound like color," DuMont added.

Furthermore, the freeze has caused loss of employment to "tens of thousands" in manufacturing of tubes, receiver components and transmitter gear, he said.

"Thousands in sales, advertising and merchandising are adversely affected," he continued, pointing out that "millions of Americans are being deprived" of TV entertainment. He noted that only 15 new stations can be constructed until the freeze is removed, and urged those present at the New York sessions to write members of Congress.

Contending that Sen. Johnson "turns right—then left, blows hot—then cold," Dr. DuMont recalled the former's statement to CBS last August citing the Washington exhibition as "magnificent" and utterly convincing proof that color television is here now, and all that is necessary for it to sweep the nation is for FCC to remove the roadblocks and provide interstate standards for its operation."

Dr. DuMont thought that statement at variance with the Sena-
tor's remarks before the Federal Communications Bar Assn. in January when the Coloradan was more hesitant about the wisdom of making such decisive pronouncements. Sen. Johnson had said that "as a result of whatever discoveries are made in the laboratory, what one says today may well be falla-
ciae tomorrow."

"Yet Sen. Johnson would have us choose now one of three very unsatisfactory color television systems," DuMont declared. Dr. DuMont charged that Comr. Jones has threatened television industry groups with prosecution under the anti-trust laws "because in the field of color television they weren't in-
venting fast enough to suit him; . . . because the industry has not been able to rub a magic lamp and produce a compatible color system, which we can adopt immediately."

Dr. DuMont added:

The Commissioner condemns private interests because they think it would be a grave mistake to insist on an unsatisfactory color system on the American people. He condemns the more than 100 manufacturers of television receivers, the television broadcasters, and the manufacturers of transmitting equipment, because we think it a criminal mistake to make the future allocation of additional channels for black-and-white television wait for a decision on the matter of color. A truly intelligent and lasting decision on this matter of color may take years and the spokes-
man for color television trans-
mission and reception. If there were such a system in existence, every indus-
try spokesman would be camped on the Commissioner's doorstep argu-

ing and pleading for the immediate adoption of standards. That we are not doing so is the most definite proof of (Continued onTelecasting 19)

RCA Color

Improvements Seen in D. C. Showing

FINAL "basic" improvement in RCA's all-electronic, "compatible" color television system—automatic synchronizing and color phasing—was demonstrated in Washington last week by John Johnson and New York newsmen. The develop-
ment was shown FCC and Tele-
casting fortnight ago. [Te-
lecasting, Jan. 23.

Dr. E. W. Engstrom, vice presi-
dent in charge of research, RCA Labs, told newsmen the job ahead now is that of refinement. He also indicated RCA's single multiple-color receiving tube would be ready to go into sets in 1952.

The demonstration was held at NBC's WRC Washington studios in the Trans-Lux Bldg. The net-
work's WNBW (TV) there trans-
mitted the color show via its regu-
lar Channel 4 (66-72 me) facilities at the Wardman Park Hotel.

The RCA officials and technicians attending the demonstration evi-
denced their faith in the new achievement by "sitting on their hands" throughout the show. In previous demo-
tions, done with electronic color-locking, they frequently were adjusting sets to keep color and registry constant. This color "wandering"—variations of hues on a particular receiver as well as between sets—particularly plagued RCA's initial record demonstration for FCC last fall and supplied op-
posing color TV camps with count-
terblasts. [Telecasting, Oct. 17, 1949].

Color fidelity and detail showed improvement over previous demonstra-
tions, according to many ob-
servers, but a green hazing effect was noted at times in subject high-
lights. In some instances green hazing was observed across the top of the picture and a similar red-
dish hazing across the bottom. RCA technicians explained this de-
fect was caused by the poorer qual-
ity of the dichroic mirrors em-
ployed to converge the three color images onto the viewing surface.

Dr. Engstrom pointed out that this was not the ultimate color TV picture desired. But, he declared, "we have finished the foundation." He explained the "solution of the color stability problem was the last major technical hurdle to be over-
come . . . No fundamental problem remains to be solved. Our engi-
neers can now concentrate on re-
fining and simplifying the system."

No refinement timetable was cited.

One 16-inch and three 10-inch display color receivers were used in the demonstration, all driven by the r-f and i-f stages of (Continued on Telecasting 19)
TELEVISION exerts a "profound" influence on family habits, and this influence is certain to become greater as the industry develops, according to a survey of 400 families conducted in Washington and suburbs by Charles Aldridge, Washington public relations columnist.

Television’s demand for close attention is responsible for most of the changes in family habits, including less movie attendance, according to the survey, which notes that it is possible to listen to a broadcast while doing something else, but TV demands more attention.

Survey Sponsors
Mr. Aldridge said the survey was sponsored by the Washington Star (WMAL-TV), WTTG (TV), NBC, Columbia Pictures Corp., Loew’s Washington Theatres, Warner Bros., Motion Picture Theatre Operators of Washington, Motion Picture Theatre Operators of America, Zenith Radio Corp., and Fidelucy Trust Co. of New York.

Conrd. E. F. McDonald Jr., Zenith president, commented Thursday that newspaper accounts of the survey had been misinterpreted by the public. He contended the results proved that gains in family rankings can be seen from TV as the motion picture producing industry since millions of TV-equipped homes will be able to see the best films at a fraction of present costs, going to the theatre and still give the producer a greater return.

The Aldridge study indicates that theatre attendance has been "deeply affected" by competition of TV programs, especially in the case of adults. If this trend continues, it is suggested, "radical changes" can be expected in the business of exhibiting motion pictures.

The average family attends movies 1.27 times per month after getting a TV set compared to 4.61 times prior to getting TV, according to Mr. Aldridge. This is a reduction of 72%. Child movie attendance drops 46% from 5.13 to 2.76 times a month, or 46%, he found.

In the case of families having owned TV sets two years or longer, movie attendance drops from 5.8 to 1.5 times a month, with children dropping from 6.1 to 3 movies a month. This is construed as an indication that habits once changed by television remain changed.

"To the question, ‘How many hours was your radio used before you bought a television set?’ the answers were: Day, 3 hours 36 minutes; Night, 3 hours 42 minutes.

“These families reported an average use of their radios at present as being: Day, 2 hours 54 minutes; Night, 24 minutes.

"To the question, ‘Do you use radio in preference to television when both are available?’ the reply was: Yes, 17%.

Among the television set owners who say they listen to radio programs occasionally, a number stated that they did so because of the superiority of news programs on radio.

Prior to TV the television-owning families used their radios 2 hours 30 minutes a day and 3 hours 30 minutes at night. Now they use radios 1 hour 55 minutes during the day and 15 minutes at night. It is indicated, with only 14% reporting they used their radios when television programs were available.

Reading Cut
Adul’s reported TV had cut magazine reading 22.6%, books 29.1% and newspapers 4.7%. The survey does not bear out the impression that TV creates interest in sports and aids attendance.

In showing the persistence of TV’s impact as revealed by separate data on families owning sets two years or more, the study shows that adult set owners in this group read magazines 18.9% less, books 33.7% less and newspapers 4.7% less. Their children read magazines 7.9% less, comic 13.2% less and books 12.9% less.

In the two-year group, football attendance is down 30%, baseball 30.9% and wrestling and boxing 53.7%.

Wives in this group stay at home 46.1% more, husbands 51.4% more and children 58.8% more than before they owned a TV set.

TV TUBE VALUE
Nearly Triple in 1949

VALUE OF TV picture tubes manufactured for new sets almost tripled in 1949 over the previous year, according to Radio Mfrs. Assn., rising from $113,159,194 to $292,402,328. In units the increase was from 1,229,419 to 3,205,073 tubes.

Sharp trend toward larger TV set screens is shown. Whereas only 6% of tubes were in the 12-13.9-inch class in 1948, the 1949 output was 45%. Tubes from 9-11.9 inches comprised 34%; over 14 inches, 16%; under 8.9 inches and projection, 7%.

COLOR HEARINGS
12 Still To Testify

ALL TWELVE participants have yet to complete their direct testimony in FCC’s color television hearing, which resumes Feb. 27 after a delay since late November. To avoid unnecessary trips for witnesses not needed for cross-examination, FCC ruled that counsel for the various participants must file, by Feb. 27, a cross-examination form for each witness they wish to interrogate. Failure to do so, FCC said, will be considered a waiver of cross-examination.

Further direct testimony in the color proceedings, the Commission said, will be heard in the following order:

Joint Technical Advisory Committee; Radio Mfrs. Assn.; RCA; CBS; CT; Dr. Charles Willard Geer; Philco Corp.; Albert R. DuMont Labs; Webster-Chicago Corp.; American Television Inc.; AT&T; Western Union.

RANK MOVIES

Video Rights to KECA-TV

EXCLUSIVE television rights to 39 J. Arthur Rank feature movies was given to KECA-TV Hollywood in contracts signed in Hollywood last week.

The amount involved was not disclosed. The TV station acquired a two-year license to the films, televisioning of which will start later this month.
Wells, Tulane coach, sold 75 sets of a child's basketball game.

Guiding lights behind this fast-moving station are Messrs. Stern (Jr.) and Sweeney. Louis Read, formerly commercial manager of WVL New Orleans and general manager of WABB Mobile, heads the AM and TV sales staff.

AM and TV programming has recently been split, Stanley Holiday concentrating entirely on AM with Ray Rich taking over the TV duties (see story page 24).

John Muller, former MGM news-reel cameraman, is technical and camera director, and Carl Junker is television operations director. Chief engineer is Lindsey Riddle, in radio two decades. Assisting him in television engineering is Carlos Dodd, formerly of WBAP Fort Worth. Ray Liuzzo directs promotion and publicity, and Ed Dorrity is continuity director. Gay Batson is chief staff announcer.

Class A one-hour one-time rate is $200, tapering down to $150 on a 240-hour schedule. Film Class A rate is $150 for a one-hour hour.

WDSU-TV is represented nationally by Blair TV Inc. Effective radiated power is 30,500 w video and 15,400 w audio, on Channel 6 (82-88 mc).

DuMONT NETWORK

Affiliates Form Committee

COMMITTEE designed to establish and maintain close liaison between officials of the DuMont Television Network and its affiliates management was organized last week at a two-day meeting of DuMont TV affiliates in New York.

Mortimer C. Watters, vice president and general manager of WCPO-TV Cincinnati, was named chairman of the new group. Ken Hafner of WLW-TV Philadelphia, is vice chairman.

Other members named to the liaison committee include Vernon Brooks, WGN-TV Chicago; Paul Anderson, WTVN-Columbus; John Kuehn, WCBS-TV New York; Aldo DeDominicis, WJAC-TV Pittsburgh; Paul Wipy, WOR-TV New York; Franklin Snyder, WXEL (TV) Cleveland; John Reiss, WTAN (TV) Columbus; and William Pay, WHAM-TV Rochester.

SEN. JOHNSON'S REPLY TO JACK GOULD

Calls for Industry-FCC Cooperation

SEN. ED. C. JOHNSON (D-Col.), FCC's chief Capitol Hill watchdog, said last week he agreed FCC should represent industry and figuratively knock their heads together on matters which are in the public interest.

His assertion was made in a letter to NBC's Goody Golliwog, radio editor, who had offered the suggestion in a Jan. 29 column on the plight of television in the freeze.

The letter was prompted by Mr. Gould's statement that FCC "has been altogether too susceptible to the beck and call of Sen. Edwin C. Johnson... who persists in issuing communiques on what the Commission should or should not do in highly technical matters."

Sen. Johnson said "I do not deny that I watch the FCC's actions closely; the law directs me to do that." But he reiterated that he was not "even remotely responsible for the freeze or for the engineering facts which have obtained and which are keeping it on. I am not omnipotent; I can not alter scientific facts."

The Senate Interstate and Foreign Commerce Committee chairman agreed with Mr. Gould that FCC "needs some real gumption and backbone to assert its proper authority," and that gumption should be used, as it is now being used, not to let certain publications in the interest of their advertisers call the tune. In my opinion the Commission is asserting its authority properly" in the public interest by holding the current hearings..."

Mr. Gould's column centered FCC "has no real reason" for continuing its freeze on both monochrome and color use 6-mc channels.

It was in that connection he felt FCC should call in the industry representatives and, in a headknocking session, see that government and industry agree on "a solution first to the allocations matter and then to color video..."

On this score Mr. Johnson said "perhaps you are right." But, he added, "you are suggesting a technical engineering step which I do not feel competent to pass upon or upon which I have never advised."

The Senator thought Mr. Gould had been "charitable" when he referred to the interference problem as "a problem of the freeze." Sen. Johnson wrote:

...The truth is that the series of allocations in the VHF band were, incorrect, ludicrously incorrect, and no one in the Commission will deny it. The Commission found itself in hot water because of its own injusticious half-baked allocation and the only way out was to clamp on the freeze: I had as much to do with initiating the freeze as you had, and I have about as much to do with keeping it on as you.

WOI-TV Affiliates

WOI-TV Ames, Iowa, will join the CBS Television Network effective Feb. 20, Herbert V. Akerberg, CBS vice president in charge of station relations, announced Thursday. Simultaneously, both NBC-TV and DuMont Television Network also announced addition of WOI-TV as affiliate of WOI-TV brings the number of CBS affiliates to 57, NBC's to 59, and DuMont's to 54.

TV Drama Rights

(Continued from Telecasting 11)

on the standing of the producer or exhibitor concerned or assume that he acquired the rights to make a motion picture using the dramatic or other literary material employed in the film and to broadcast its performance in television. If such material was produced by an employ of the motion picture producer, the employer would in all probability have completed no contract for its employment or representation in any medium, including television. However, it is entirely possible that the producer, in arranging to make a film of dramatic property, might have acquired the right to perform it in motion picture theatres only. Someone other than the producer may have the right to perform the basic dramatic material in motion picture theatre's, or to make radio adaptations of the original drama, or of the original non-dramatic literary material on which the film is based, and to broadcast such adaptation. If this be so, then it must be considered whether the holder of the right to broadcast an adaptation of the basic literary material has television rights or merely the rights for aural broadcasting.

This brings us back to the fundamental problem of asserting the location of the television rights in dramatic material whether or not the material has been recorded on film. This inquiry must be approached with the realization that the holder of the right to broadcast material may make a number of different grants of rights with respect to the use of such material. He may publish it in book form, authorize its dramatization and performance on the legitimate stage, and among other things authorize a motion picture producer to film it and to exhibit the film in an unlimited run, with certain restrictions of exclusions.

It is quite unusual to exclude from a license authorizing a motion picture version of a drama to be produced broadcasting rights except for the purpose of promoting the film. The language of such exclusions and exceptions may be specific or they may present difficult questions of interpretation. Ordinarily, provisions permitting broadcast performance of a work for promotion purposes would be limited to the broadcasting of comparatively brief segments consisting of a few scenes, in all likelihood
scenes done by one or more of the actors who appeared in the original motion picture. In the case of such an exception in favor of television broadcasting, the footage available for television would probably be limited to short clips or trailers especially prepared and only requiring approval in advance by specified interested parties.

Each transaction involving a grant of performing rights has to be examined carefully in the light of its own facts and circumstances in order to determine the true intent of the parties at each stop in the history of the rights. Naturally, in some cases this may become extremely complicated, but there are some general rules or principles which may be useful as guides.

Through the years, as new media came into use, forerunners of our problems in television arose. Prior to the invention of motion pictures, for example, a dramatic performance right was a fairly simple and unambiguous thing. There might have been some argument as to whether it covered performances in certain countries only, or without limitation throughout the world, but there was no doubt that what the parties had in mind was the presentation of the play by actors on a stage.

The advent of motion pictures introduced a new complication. In an early case arising shortly after the invention of motion pictures it was decided that a grant of dramatic rights prior to the general use of motion pictures was deemed limited to performances on the stage. The owner of the basic rights therefore was free to license someone else to make a motion picture version of the play and the licensee who had been given the dramatic rights was not able to make a motion picture version of it.

Delay of Use Suggested

However, at the same time it was recognized that it would be unfair to permit the owner of the basic rights to license the motion picture rights in such a way as to promote unfair competition by anyone with the licensee of the stage rights. As a practical matter, therefore, this required the motion picture use to be delayed until such time as the normal run of the dramatic presentation on the stage was completed in the absence of a settlement between the motion picture producer and the owner of the stage rights.

The next development was that of combining sound with motion pictures. The question immediately was raised as to whether the licensee of motion picture rights had the right to make talking pictures as well as silent pictures. It was decided in a representative case of this type that while a grant of screen rights in a play prior to the development of talking pictures did not carry the right to make talking pictures, it would be necessary for the producer of the talking pictures to clear with and obtain the permission of the holder of the screen rights as well as the holder of the dramatic rights. The owner of the screen rights alone did not have the right to make talking motion pictures. At the same time the producer of the talking picture version had to secure permission from the licensee of the screen rights as well as the owner of the basic dramatic rights.

It seems quite likely therefore that in many cases a grant of broadcasting rights prior to the general use of television would be deemed limited to aural broadcasting, even though television is merely one form of broadcasting. It is likely that most courts faced with such a problem of interpretation would decide that what the parties had in mind was the system then in general use, namely, aural broadcasting or, in the popular sense, "radio and not television." This is not withstanding the fact that radio communication is defined in the Communications Act as the transmission by radio of pictures as well as sounds of all kinds. The industry is generally in the habit of distinguishing between "radio" on the one hand and "television" on the other—using the word "radio" as meaning sound only and leaving to the word "broadcasting" the overall meaning, covering both aural and visual transmissions intended for reception by the public generally, as opposed to point-to-point communication. In other words, there is a difference between television broadcasting and radio broadcasting. Does this surprise anyone in television?

An Example

Let us take a particular case in which a sponsor wants to use drama on broadcaster's television network. Drama, by playwright, was copyrighted and published ten years ago after two years on Broadway. Publisher and playwright granted film rights to Hollywood. Playwright retained dramatic performing rights but granted Hollywood "broadcast" rights for promotion purposes. Agency deals with publisher, as well as playwright, because of publisher's specific interest in broadcasting rights under the publishing contract.

The broadcast rights granted Hollywood are obviously limited to promotion of the picture and all seems clear until an agency executive points out that in order to reach the non-interconnected stations on the network kinescoping will be involved. Question: Does Hollywood, to which the film rights have been given, hold the key to the deal or may sponsor proceed under license from publisher and playwright only, regarding the kinescope film as merely incidental to the network operation? Answer: Study the film contract carefully with a good lawyer.
station this revenue will be substantially reduced. Furthermore, the new program will knock out the station's most salable local programs, sports events, which in Louisville occur almost entirely at night.

A Và B Interconnection announcement schedule, Mr. Boyle reported, shows 90 commercial announcements during the station's six-day operating week, counting only those billed against time. Admitting that this total is achieved by double-spotting, he said that under network requirements as an interconnected station, WAVE-TV could handle only 48 announcements in the same period of time.

"A better than 50% loss in spot revenue represents a sizeable decrease in income in an operation of our type," he noted. "It could be made up only by expanding our daily operation to accommodate these announcements. This in turn means doubling of production and production personnel. Our consideration of this situation leads us to believe that operating as a non-interconnected station for as long as a period of time as possible possesses very definite advantages for us as regards revenue." He concluded, "There is only one drawback to my whole argument and that is that when the cable comes to Louisville we can do only one thing—enjoy it!"

Interconnection Pared

Paul Adanti, general manager of WHEN (TV) Syracuse, which recently went on the cable after a year of non-interconnection network service, said: "Interconnection is the magic word that opens doors to new business, that breaks down buyers' resistance, that most of all removes the fear to the local television man that everyone, including even agency and network people, seem to have about the non-interconnection relationship."

He noted that improvement in kinescope quality during 1949 now makes possible "a fairly accurate facsimile of interconnected operation of kinescopes" at non-interconnected stations and added that, aside from some sports and other special events shows of timely nature, most TV programs lose nothing by being delayed.

"The little hesitation of the non-interconnected station as a bona-fide member of the network to be judged strictly on its merit as a market, rather than as a poor relative, is one of the most intriguing problems we must solve. Ten tentacles of A&T to raise it from rags to riches, would do a lot to promote the growth of TV," Mr. Adanti declared. "Further, it would show the networks that the atmosphere of the times when a station is finally hooked into the cable which results in a complete reshuffling of time schedules, networks and local advertisers." 

"We are just beginning to emerge from that hassle when

J. R. POPPELE, vice president General Teletune Inc., operator of WOR-AM-TV New York and WOIG (TV) Washington, was re-elected to his sixth term as president of Television Broadcasters Assn. Wednesday by the TBA board.

Ernest B. Loveman, vice president, WPZT (TV) Philadelphia, was re-elected TBA (TV) president. Will Baltin was re-elected secretary-treasurer for the seventh term, and Paul Raibourn, president Paramount TV Productions, was re-elected assistant secretary-treasurer.

Earlier, the annual membership meeting of TBA re-elected Mrs. Loveman, Mr. Raibourn and F. M. Russell, NBC vice president, to the directors for three-year terms. To fill vacancies on the board, George B. Storer, president, Fort Industry stations, was elected for a two-year term; Joseph A. McDonald, ABC vice president, and Richard A. Borel, general manager, WBNS-AM-TV Columbus, Ohio, for a one-year term.

Service Expanding

In his annual report, TBA President Poppele noted that while "the advent of television cut a sizeable chunk out of the radio business for the industry. It just doesn't make good sense to me to see the horn of plenty opening in a new and mediocre market with a close to zero population just because it was fortunate enough to be located on a cable run, and see a much better, and further developed market, being stunted in its growth by the mere fact that it is not expanding in its direction fast enough."

The three things agencies want most from TV broadcasters, Rodger K. Dau, vice president, national sales, WABC-TV operations for Young & Rubicam, told the meeting, are: (1) bigger and better studios out of the high rent district, giving Holly-wood production facilities at a price within the advertiser's budget; (2) better trained personnel so that a million-dollar-program is not at the mercy of an $18-a-week man who likes to fiddle with the shading; (3) a single price covering the whole cost of a production.

Mr. Erickson said that there also is a real need for new programs and new program ideas, and now K&Y has its program people who are anxious to get into television "but we haven't been able to find the right kind of show for them." On the other hand, he reported that one of his agency's accounts has a video spot campaign that is "getting close to the dollar-a-thousand mark."

"Keep your rates at a level local advertisers can afford and your programming at a level that will give them an audience for their commercials," Klaus Landsberg, general manager of the ABC-owned and programming NBC station in Ford. The results, he reported, have been good, both for the advertisers and the station.

"Television has adopted many radio practices too eagerly and without nearly enough thought. Linnea Nelson, chief usher of J. Walter Thompson Co., told the clinic. Taking salaries as an example, she noted that TV stations generally follow the radio pattern of pricing a half-hour at 60% of the full hour rate, a quarter-hour at 40%, et cetera. She urged consideration whether this formula is right for TV."

"Perhaps a half-hour on TV should cost 75% of the hourly rate," Mr. Landsberg recommended. "If this were done more advertisers might be encouraged to sponsor full-hour programs, which might be a good thing."

Mr. Landsberg said that they offer the TV station operator programs of network quality at prices he can get from only advertisers, and he can see the picture of 10% of his card rate back to the network, the three members of a panel on TV packages unanimously agreed.

B. Russ Johnston, of Jerry Fairbanks Productions, expressed his firm conviction that "television film programs, properly prepared by qualified people and properly distributed, will be the salvation of the TV advertising industry. We can no more afford a coast-to-coast cable on a regular basis than we can afford to jump out of the window.

"Sooner or later, advertisers are going to measure TV as they do all other medium, on a cost-per-some-thing basis. If television is five times as effective as any other medium but costs 10 times as much, it will not be an economical purchase. Costs, therefore, become an important and advertisers must be able to amortize very high program costs through repeat show...
DuMont Appeal

(Continued from Telecasting 14)
that present systems are not ready for commercialization.

"It is definitely our belief that channels should be allocated for color and experimental licenses granted where necessary to proponents of the various color systems," Dr. DuMont emphasized, adding that "there is nothing to prevent this" and that manufacturing firms would cooperate by constructing experimental receivers.

The sessions, held Monday through Wednesday at the Hotel New Yorker and sponsored by Tele-

COMBINATION WORK STUDY

NAB Finds Most Use Single Crew for AM-FM

NEARLY all stations operating joint AM and FM transmitters use a single technician or single crew for the transmitters, where this is physically possible, according to a study of combination work conducted by Richard P. Doherty, NAB director of employee-employer relations.

With 1,400-odd replies to a station questionnaire covering combination work, Mr. Doherty has compiled a detailed analysis of this subject, broken down into the five major areas used in station operating-cost studies made available during NAB district meetings last autumn.

This new material, the first exhaustive study ever made by NAB of the field of combination work, is submitted along with an analysis of National Labor Relations Board cases. A week ago the department sent the membership an analysis of wage-hour regulations covering overtime pay [Broadcasting, Jan. 80].

Regional Breakdown

In breaking down the combination work data, Mr. Doherty found that combination work is more prevalent in the Southeast, Southwest and West although small stations in the Northeast use combination men extensively.

As expected, the data reveal that combination work is more prevalent at small stations, fairly common at medium and almost an exception at large stations.

About one out of five small stations pay premium wages for combination work, the station ratio ranging from 8% to 30% depending on locality. About one out of 10 medium stations pays a premium, the ratio being from 4% to 21%. In the case of the few large stations using combination men, there is scarcely any evidence that they receive premium work.

Accompanying the survey data is a discussion of arbitration decisions affecting management’s right to integrate jobs.

FM IN CHICAGO

United Sales Mulled

PROPOSED sale of time on member-stations of the FM Broadcasters of Chicagoland individually and/or collectively by one person will be discussed by a committee representing the commercial membership, it was decided at a meeting of the group Tuesday in WFLJ Chicago offices.

Five non-member stations attended the session and expressed interest in its objectives. They included Miss Wanda Mitchell of Evanston Township High School, Evanston, Ill., which plans to construct a 10 w educational station; WEPS Elgin; WBEZ, Chicago Board of Education station; WBIR Chicago, FM affiliate of WBKB-TV, and WMJ-FM, Chicago.

Robert Miller, manager of WSBIC and WXRT(FM) Chicago, was elected a member of the board. He submitted a detailed report on proposed purchase of time on his FM station by the newly-organized Better Music Committee of Chicago (see story page 87).

Group also decided to issue a monthly listing of FM highlights in the area.

COMBINED facilities of WAAT and WATY(TV), both Newark, N. J., were used in coverage of Solemn Pontifical Mass in celebration of golden jubilee of Archbishop Thomas J. Walsh of Newark.

SCHOOL FM

Meet is Held at DePauw U.

TERMED a “grass-roots” movement, what is claimed to be the first conference on low-power educational FM in the country was held Jan. 27-28 at Greencastle, Ind., where DePauw U. was host to a group of educators interested in the problems of low-power FM. The conference was called by schools now operating 10 w FM educational stations or those contemplating such operation.

Featured speaker was Franklin Dunham, chief of radio, U. S. Office of Education, who spoke on the topic, “The Wider Use of Our FM Facilities.” He advised those interested in low-power educational stations to operate the school-owned station as a community project. He suggested an advisory council composed of community leaders to help in adjusting the program to town needs.

Also discussed were problems relating to the goals, the programming and the equipment of the station. Aids in programming were suggested by representatives from Indiana and Purdue U.s. The conference urged the FCC to authorize third class licensing for low-power FM engineers as soon as possible.

City school stations were represented at the conference by Vernon McKown, WNAS New Albany, Ind.; McCabe Day, WSIV Huntington, Ind.; and John V. Maier of Muncie, Ind., which has a station application pending. Other conference members included: Dr. H. T. Ross, Elizabeth Tarnell and Charles Aschmann, WGRE DePauw U; James Miles of Purdue U, delegate from NABE, and Martin Williams, engineering consultant of Indianapolis.

Other guests included Blanche Young, AER, treasurer, Indianapolis; Dr. Harry Skornia, director of radio, Indiana U., and D. L. Larson, audio-visual department, Indiana U.

FM RADIO STATUS

Wheeler Says Best Ever

EDWARD A. WHEELEER, presidente and general manager, WEAW (FM) Evanston, III., finds the FM broadcasting industry “in the best shape it has ever been.” His declaration was voiced before the FM Broadcasters of Chicagoland, of which he was elected president a few weeks ago.

Vigorously defending FM radio, Mr. Wheeler said it is rapidly establishing itself as the preferred medium for aural broadcasting. He pointed out that there were 285 FM stations on the air as of the date of his talk—the total being 30 more than there were at the same time a year ago.

EIGHT week nationwide contest, to stimulate sales and shipments of Hunt Foods by its sales managers and salesmen, launched by company.
March of Dimes

(Continued from page 36)

tionality groups spoke in their own language urging support of the campaign. Speaking for all the people interested in the drive was Jesse D. Cross, chairman for the campaign in Stark County.

KASA: Lonnie Preston, co-owner and manager of KASA Elk City, Okla., wears clothes size 47 but he modeled a size 36 nightgown for the anti-polio campaign. A bid of $50 got the picture posted in a window downtown and another $50 got it published. KASA also devoted an average of nine hours of Class A time per week for the last three weeks of the polio fund drive, with auctions and an "Ugly Man Contest."

WCKY: Disc Jockey Rex Dale, conducting a "Dime-a-Feature" for the benefit of polio victims, initiated an auction sale in order to achieve his goal of $2,000 for the March of Dimes campaign. Items auctioned off to the highest bidder among his listeners were autographed hats belonging to movie stars Joan Crawford and Tyrone Power, the latter a Cincinnatian. Mr. Dale conducts a series of shows for the benefit of needy people throughout the year.

WPAJ: A total of 560 announcements and 13 transcribed programs totalling 225 minutes was the boast of WPAJ AM-FM Portsmouth, Ohio, as the 1950 March of Dimes campaign came to an end. Nearly all the available time generally used for station promotion and other community service was devoted to the Infantile Paralysis Fund drive.

WABI: Conducted by Johnny MacRae, morning man, a 4½ hour Polio Parade show was aired by WABI Bangor, Me. During the program 1,200 telephone pledges were received on four incoming lines which were busy throughout the program. Cash receipts, averaging $10 per minute, amounted to nearly $2,600.

WEAI: In Eau Claire, Wis., Baseball Commissioner A. B. (Happy) Chandler and Gene Austry, cowboy film and radio star, interviewed two children, victims of polio, over WEAI, to officially open the 1950 March of

Baltimore Chapter of the March of Dimes campaign.

WBZ-TV: To help kick off Boston's drive, Columnist Bill Cunningham and Cartoonist Al Capp highlighted a special WBZ-TV telecast. Five local youngsters, who had previously posed for March of Dimes posters, were included on the show, with Mr. Capp drawing his famous cartoon of Polio Kigme.

WJOY: In cooperation with the Vermont March of Dimes campaign, Jack Barry of WJOY Burlington, Vt., aired his hour-long request show, You Asked for It, direct from the polio section of Burlington's Mary Fletcher Hospital, playing requests of the patients. Mr. Barry's program recently received honorable mention from the New York Herald Tribune for promotion and other community service was devoted to the Infantile Paralysis Fund drive.

Jack Barry entertains patients.

ALASKA STATIONS: The three Anchorage stations, KENI KFQD and KRLY, and the Armed Forces Station at Elmendorf Air Force Base, Fort Richardson, Alaska, combined their talents to broadcast a two-hour program in support of the March of Dimes. The show featured many leading citizens of Anchorage. Listeners were requested to phone in pledges.

WBIG: In Greensboro, N. C., WBIG reported large receipts of contributions from listeners in the area. The entire WBIG staff cooperated in efforts to put over the March of Dimes in the Tarheel State.

WBAP-TV: In cooperation with the March of Dimes campaign, WBAP-TV Fort Worth set up its remote equipment in the polio ward of the Fort Worth City County Hospital for a telecast for polio patients. As a highlight, WBATV star, Mary Parker, interviewed a number of young patients.

WMAS-WTVF (TV): In cooperation with the Richmond Chapter of the National Foundation for Infantile Paralysis, WTVF (TV) and its AM affiliate WMAS Richmond, presented a special program built around the needs of Richmond in the March of Dimes campaign. In addition, the executive director of the local chapter, the director of the Medical College of Virginia hospital, a noted physician who told of the medical research being done to combat polio, and a four-year-old victim of polio.

WHWL: In Wilkes-Barre, Pa., the aim of the March of Dimes was brought home forcibly when WHWL transcribed the story of a polio victim, formerly a husky football player, at Wilkes- Barre Convalescent Hospital. Arranged and conducted by Jones Evans, newly-appointed WHWL program director, the interview with Leonard Austin was heard in a WHWL rebroadcast the same day.

SEATTLE STATIONS: The March of Dimes got a big send-off in Seattle when KOMO conducted a 15-minute interview between Dick Keplinger, Seattle radio freelance, and two March of Dimes officials and three polio patients. The program was used also on KJR KIRO KVI KRSK KOL and KING.

DUONT: In an effort to raise $1,000,000 an hour to benefit polio sufferers, DuMont TV Network scheduled a two-hour Celebrity Parade for The March of Dimes. To receive contributions during the 10 p.m. to midnight period, Wally Wanger models named telephones set up on the stage of the Adelphi Theater, New York, origination point of the telecast. A long list of Broadway celebrities appeared on the show. Hank Ladd, comedian of "Along Fifth Avenue," "Angel in the Wings," and other comedies, encored the first hour while Bert Parks of Stop the Music took over the second hour.

WRAL: Eddie Cantor, NBC star who originated the phrase, March of Dimes, recorded special March of Dimes Announcements and Stories with Disc Jockey Al Ross at WRAL Baltimore during the station's campaign for contributions. Mr. Cantor stopped off in Baltimore before taking off on a college lecture tour to urge all citizens to fight polio.

ABC: Celebrating the birthday of Franklin D. Roosevelt, a group of prominent celebrities participated in a half-hour long broadcast on the full ABC network. Titled America Salutes Franklin D. Roosevelt's Birthday, the show also honored the 1950 March of Dimes campaign. With radio's Ralph Edwards as mc, the program featured a recorded address by the late President Roosevelt and speaking from New York, brief talk by KOMO's Announcer Helen Hayes, this year's chairman of National Women's Activities for the

WINA: Sponsored by WINA Charlottesville, Va., and the local chapter of the National Infantile Paralysis Foundation, “The WINA March of Dimes Mule Train rolls by.

Dimes Mule Train” climaxed the city’s drive for funds. A converted hay-wagon, pulled by four ancient mules and driven by two genuine, old-time mulekinners, rolled through the city as two bands, including a song and played “Mule Train.” Marine reservists and girls dressed in cowgirl costumes walked alongside the WINA Mule Train, collecting dimes and dollars in milk pails. Over $600 in cash was collected during the Mule Train’s tour, WINA reported. In addition to this, WINA’s disc jockey programs which promoted the drive throughout each day of the campaign, netted between $950 and $1,000.

* * *

NBC-TV: Launching its special Howdy Doody-March of Dimes TV Party, members of the cast of the NBC-TV puppet show staged a special rally at public schools in the New York area. Performers included Howdy Doody himself; Elizabeth MacRae, puppeteer on the show; Bob Keeshaw, and others, all of whom gave Howdy Doody balloons to students as they signed up to the March of Dimes. The proceedings emanated from a balloon-beckoned car parked outside the school entrances. Continuing its March of Dimes TV party, the Howdy Doody network telecast the same day had as a special guest eight-year-old Billy McCarthy of White Plains, N. Y., victor of polio in 1948, who returned home with little trace of polio remaining after eight months of hospitalization.

**PEPSI-COLA**

**The Radio Jingle** has shed swaddling clothes and donned a new suit. And, from all reports, listeners like it.

One big radio advertiser to strike a blow for the jingle’s growth from the “offensive” label to “songs which entertain” classification is the Pepsi-Cola Co. A giant step in the direction was taken last Sunday when the soda pop company, which made the longer drink for a nickel famous, ordered a new type of transcription from the George R. Nelson Inc., Schenectady, N. Y.

Not that Pepsi-Cola was a casualty of the usual jingle. The company made famous (and Vice in New York or WNYC, a jingle which some for time has been an integral part of its advertising.

But Pepsi-Cola, looking to changing moods, prepared for the future. Not forgetting that listeners wish to be entertained in radio advertising—cite participation of comedians like Jack Benny, Fred Allen and others on their programs—the company turned to the song-talent jingle.

Through the National Foundation for Infantile Paralysis.

* * *

CBS: The March of Dimes opening rally on April 16, originating in New York’s City Hall and featuring Arthur Godfrey and Dinah Shore, was recorded by CBS for rebroadcast on the same day on the full network with the exception of WCBS New York. The rebroadcast, however, was heard inside the studio. Over 25,000 various musical numbers, classics and other tunes appeared on the program included acting New York Mayor, Vincent Impellitteri, Helen Hayes, Eliot Lawrence and members of the Marine Corps.

CBS-TV: Emceed by hostess Dorothy Dean of CBS-TV’s Varsity Fair, the sixth annual March of Dimes Fashion Show, written by the New York Daily News for the benefit of the National Foundation for Infantile Paralysis, was telecast over CBS-TV from the grand ballroom of New York’s Waldorf-Astoria Hotel. Current theatrical headliners in New York as well as a host of beautiful mannequins participated in the program.

**THE GEORGIA TRIO**

Only a combination of stations can cover Georgia's first three markets

The Katz Agency, Inc.

**LEE ESTATE**

POSSIBILITY of litigation over the approximately $9.5 million estate of the late Thomas S. Lee, owner of the Don Lee Network and other properties, became clear in Los Angeles when the will was opened.

The will reads: “After my death I appoint Mrs. Merrill of Seattle, Wash., to be the one as she sees fit.” It had been previously reported that the fortune went to Mr. Merrill “to do as he sees fit.”

Attorneys said the word “divide” may change the status of distribution. They said there may be contentions that Mr. Merrill should act as trustee for all who should benefit rather than become sole legatee.

**MRS. FRY CLAIMS**

Mrs. Elizabeth Lee Fry, 35, adopted daughter of the late Don Lee, through counsel make it known Friday that she intended to claim the entire estate left by Thomas Lee. Jerry Geisler and Harry Mabry, attorneys, announced they have been retained to protect the interest of Mrs. Fry who was cut off with $1 in Don Lee’s will.

This was made known at routine hearings at which special letters of administration of the estate were granted to Public Administrator Ben H. Brown, acting in behalf of Mr. Merrill, Seattle lumberman. Mr. Brown had petitioned for the appointment at the request of Mrs. Merrill, who said the estate needed immediate attention.

A petition to the probate court by Mrs. Nora S. Patee of San Marino, Calif., maternal aunt and personal guardian of Mr. Lee, might also challenge the will.

Mr. Lee fell or jumped to his death from the 12th floor of Los Angeles building Jan. 13 [Broadcasting, Jan. 16].

**Pharma-Craft Names**

THE PHARMA-CRAFT Corp., New York has appointed Ruthrauff & Ryan, New York to handle advertising of its Herb and Spritze, new plastic bottle spray deodorants, effective April 1.
Free Time Revolt
(Continued from page 19)

Advertising. The first six months of 1950 are the last half of the Army's fiscal year, and appropriations for that period were made before Grant took the account.

Last week Will C. Grant, owner of the agency, advised Broadcast-
ing that beginning next July 1, when a new $1 million Army and Air Force advertising budget goes into operation, the allocation for radio will exceed that for any other medium.

The public information office of the Dept. of Defense told Broad-
casting that 31.92% of the budget would be spent for radio—14.54% for buying time and 17.38% for production costs.

Mr. Grant said that only network time purchase would be made from the $1 million national Army-Air Force account. Local and spot purchases are up to individual Army commands throughout the country. The individual Armies have their own budgets, Mr. Grant said.

Grant's Statement
Mr. Grant asserted that the Grant agency had recommended the use of radio by the Armies and that the agency would present a package of radio ideas at a meeting with the commanders of the Armies to be held next week.

The fact that in the budget beginning July 1 the appropriation for radio production exceeds what for radio time was seen as indicating that the Army intended little if any diminution in its production of transcribed shows for free performance on stations.

More than 1,000 stations now use such programs, it was learned. None of them is paid for the time.

One proposal of the NAB Unaffiliated Stations Committee at its Washington meeting a fortnight ago was that such programs—whether distributed by the Army or any other organization—be procured as open-end recordings, a device that would permit stations to include local sponsors’ commercials in the shows.

It was pointed out that the practice of enlisting local advertisers in a buy space in which to carry public service advertisements is universal among newspapers. Such services as the Treasury Dept., on Bond Drives, are being marketed to newspapers which then sell space to run them. The merchant is given a courtesy notice in the ad. The same principle is used by stations, the Unaffiliated Stations Committee suggested.

The volume of station protests reaching Grant Advertising in Chicago, it was learned, was enough to oblige the agency to send a form letter with which to reply to the stations, rather than to try to answer them individually.

Write Commissioners
Stations in many parts of the country also wrote their Congress-
men. A letter from John B. Brown-
ing, manager of WSPB Sarasota, to Sen. Claude Pepper (D-Fla.) was typical.

"The Army and Air Force spend thousands of dollars producing transcribed shows," wrote Mr. Browning in part, "and these shows are put on with five cents unless some radio station broad-
casts them, and it has been the policy of broadcast stations, up to the present time, to run these trans-
scribed shows free although everybody making them gets paid except the broadcasting industry.

"As far as this station is concerned we are herewith cancelling all free time given to the Army or Air Force, and I feel the radio industry throughout the United States should follow a similar move. We refuse to give away our advertising when other mediums are getting paid."

A communication received by John E. Pearson Co., New York, national station representative, ad-
vised that Indiana stations were rebelling against free time de-
mands.

WIRE Cancels
Daniel C. Park, commercial manager of WIRE Indianapolis and secretary-treasurer of the Indiana Broadcasters Assn., telegraphed Mr. Pearson that his station was cancelling all free programs for recruiting “until such time when a proportionate share of advertising budget is diverted to radio.”

"It’s high time radio is recognized by such agencies as U. S. Army and the like," Mr. Park tele-
graphed. “WIRE is through playing the sucker role. I might add so are all Indiana radio stations.”

Mr. Park’s wire was a response to a communication sent to his client stations by Mr. Pearson, ad-
vising them of the discriminatory aspects of the Army budget for the first half of 1950. Mr. Pearson said: "If any government agency or bureau has any money to spend for advertising, then radio should get a fair share of it along with printed media instead of being pressured to broadcast free of charge what the newspapers and magazines get paid for."

As station protests mounted, it was learned that Col. William G. Downs, who is one of the top of-
ficers in Army-Air Force advertis-
ing in Washington, had planned a conference with Maurice B. Mit-
chell, director of BAB, on the sub-
ject of appropriations to radio.

Before Mr. Mitchell will be traveling in the west for two weeks, Charles Batson, assistant director of BAB, probably will confer with Colonel Downs this week.

The issue was too hot to let boil unattended until Mr. Mitchell’s return.

RICHARD DOHERTY
To Address Calif. Groups
RICHARD F. DOHERTY, NAB director of employer-employee rela-
tions, is to be guest speaker at the California Rural Area Broad-
casters meeting in Santa Ana, Calif., Feb. 16. J. Clifford Lee, president of KFPM San Bernar-
dino and president of CRAB, will preside.

With Maurice Mitchell, director of Broadcast Advertising Bureau, Mr. Doherty also is on agenda of the annual California State Broad-
casters Assn. meeting to be held at Hollywood’s Roosevelt Hotel Feb. 17 [Broadcasting, Jan. 30].

WOV New York, Italian-language outlet, launches campaign to educate non-
Italian listeners to use Italian food products. Announcements and station-breaks being used.

ADD ‘EM UP
WLIO Plugs All-Day Audience
TO TRY and find out how many people actually listen all day long to WLIO East Liverpool, Ohio, Pro-
gram Director Cy Newman decided to run a contest. He called it “Add ‘Em Up.”

At various intervals from 7:15 a.m. to 11 p.m. an announcer would say, “The number of the moment is . . .” To get the correct total, the listener had to stay tuned to WLIO for 10 hours and 45 minutes a day and not miss a number. A $5 prize was offered for anyone getting the correct total.

A couple of hundred dollars had been set aside for the 10-day con-
test on the assumption that two or three people a day would guess the right answer. The first day’s mail brought in 879 entries with 67 cor-
correct answers, station reports. This meant a giveaway of $355. WLIO feels it has proved a point for radio listenership against any other advertising media.

FCC Rules
RECODIFICATION of certain technical rules reported by FCC last December was further amended by the Commission last week to in-
clude earlier-emitted provisions relat-
ing to inspection of tower lights and associated control equipment and procedure in discontinuing sta-
tion operation. Various cross re-
ferences of other material also was corrected. Deadline for comments is March 8.

ROY THOMPSON
25 years of radio experi-
ence and personal partic-
ipation in his community’s projects and services have made Roy Thompson a household word in industri-
ally-rich Altoona. WRTA, the city’s macromotion, will assure you a loyal, buy-
ing audience throughout the listening hours.

ABC 1240 KC
Altoona, Pa.

REPRESENTED BY ROBERT MEEKER ASSOCIATES

Judge Is Boss
(Continued from page 19)

mittee, headed by John F. Meagher, KYSM Mankato, Minn., brought up a recommendation of $798,322 for the new fiscal year beginning April 1—roughly $100,000 above the current year.

The present income is at the rate of $864,000 annually and in the five months ended Dec. 31, 1949, revenue fell below operating expenses by nearly $15,000. The cash on hand was about $40,000 and would be eaten up in a few months at the present pace, the committee reported.

Budget Revisions

Requests for budget from the NAB departments for the new year aggregated in excess of $900,000. Practically all of them, with exception of BAB, were revised downward to just under $800,000.

The board approved the committee's recommendations that the additional funds to meet the $800,000 budget be procured through elimination of the current 19¼% discount on dues authorized last July at Portsmouth, N. H., and via an increase in the dues for active members in various classifications. These change the Small Stations (Class A) dues from $7.50 to $15 per month; Class B from $15 to $20; Class C from $20 to $25 and Class D from $30 to $35.

Elimination of the discount, it was pointed out, would yield about $87,000 at the current membership rate, while the dues increases in the lower station income brackets would produce in the neighborhood of $58,000. This all presupposes no further losses in membership.

Members of the Finance Committee who proposed the plan, drafted initially at a meeting in Washington, Jan. 23-24, were Chairman Meagher; Clyde Rembert, KRLD Dallas, and Harold E. Fellows, WEEI Boston.

Increase for BAB

The committee ascribed the need for the increase to a boost of more than $72,000 for BAB; absorption of the FM Assn., in NAB entailing about $13,500; an increase in the secretary-treasurer's budget to handle membership solicitation, and lesser items such as salary increases and building maintenance.

Mr. Hardy, in his report to the board, said that he had registered under the Lobbying Act and was working closely with Congress, the FCC and with General Counsel Don Petty. Mr. Markham said he had a number of TV projects ready for action, pending clarification of the functions of his office and the arrangements of coordinated activity with the various NAB department heads.

Speaking for the Radio, Television, and Broadcast Advertising Committees, which met in Washington, he also advised the board on NAB structure [BROADCASTING, Jan. 16]. Eugene S. Thomas, WOIC-TV (W) Washing- 
ton, recommended that BAB be retained as a separate NAB department rather than as a separate corporate entity. He also recommended that the Radio and Televis- 
ion Division heads report directly to the president along with other department heads.

The board decided not to fill the district directorship vacancy created by the resignation of Robert E. Vollmer, former Chairman of the OKC NAB, Oklahoma City. Jack Todd, general manager of KAKE Wichita, thus will succeed to the 12th dis- trict (Kans., Okla.) directorship at the April NAB convention since he is unopposed nominee.

TV Director-at-Large

There were only two nominations for TV director-at-large—the incumbents, Mr. Thomas, and Robert D. Swezey, WDSU-TV New Orleans. The board constituted the by-laws to mean that it is not necessary to nominate two other directors for the four-way contest. Thus, Messrs. Thomas and Swezey's nominations are tantamount to election. The elections will be held this week, and ballots were printed late last week.

The TV director-at-large getting the largest number of votes will serve a two-year term; the other will serve one year.

The board ruled that Charles C. Cafey, WMBD Pontiac, Ill., whose second term as District 9 director runs out at the 1951 NAB conven- tion, is ineligible to run for me- dium station director-at-large, though he is one of the nominees [BROADCASTING, Feb. 6].

The board designated John J. Gillin Jr., president of WOW Oma- ha, as official NAB delegate to the Convention of Broadcasters Convention at Niagara Falls, Ohio, March 27-30. Designated as alternate was Paul W. Morency, vice president and general manager of WITC Hartford. Only one will attend.

New Members Admitted

The board voted to admit to membership 55 stations which had applied since the November board meeting. Of these, two were television stations and five were in the associate membership category.

Considerable time was devoted by the board to a discussion of the radio film "Lightning That Talks," produced under the auspices of the All-Radio Presentation Committee [see CLOSED CIRCUIT, page 4].

There was general dissatisfaction with the quality of the film and all that motion for revision was adopted, Director Swezey was desig- nated to consult with the network heads and with the presentation committees on possible re-editing and revamping of the picture.

While the suggestion was ad- vanced that the project be dropped, no formal action in that direction was taken. A working picture was pre- viewed by the board Wednesday evening with BAB Director Mitchell describing the project. He explained that the print used was "in the rough" and subject to fur- ther editing. Mr. Mitchell, through BAB, is handling the bookings for the film.

Stations Joining

All members of the NAB board were present for the three-day meeting at the Fairmont Hotel, WARD, Arlington, Va., and Mr. Cafey, both of whom were tied up with FCC hearing activity in Washing- 
ton. Staff members present in addition to Messrs. Miller, Mitchell, Hardy and Markham, were C. E. Arney Jr., secretary-treasurer; Don Petty, general counsel; Richard P. Hoherty, labor relations director; Fred K., public affairs director, and Helen Fruth, secretary to Judge Miller.

New stations whose membership applications were approved were:

We don't sell "time"!

BROADCASTING • Telecasting
"There's a bill in the U. S. Senate, No. 1847, which is designed to prohibit all advertising of alcoholic beverages across state lines... The Advertising and Sales Club of Seattle strikes back, opposing it 1937 as a serious threat to the freedom of the press and an unjustified restriction on newspapers, magazines and radio broadcasts moving in interstate commerce."

The advertising club has a point. If it's legal to sell liquor, it's legal to advertise. But we think the article must be left as it is, present to the newspaper and the radio networks.

From an editorial in The Wenatchee (Wash.) Daily World.

"One does not need to be a lawyer to follow the clear logic of the U. S. Court of Appeals for the District of Columbia in upholding the FCC in the denial of a license to the Mansfield Journal and the Lorain Journal. Since the Journal was found to be indulging in monopolistic practices, the public interest would not have been served by granting it a license...."

"The FCC has found that the League's denial of a license to the Mansfield Journal and the Lorain Journal is a serious threat to the freedom of the press and an unjustified restriction on newspapers and other operators that (indulge) in monopolistic practices. The public interest would not have been served by granting it a license."

"Television is the most perplexing problem plaguing college athletic directors today. Televising a monster, declared one graduate manager at a recent college conference meeting. "It is wrecking college athletic attendance and is costing colleges a heavy loss of athletic revenue."

"The cost of the whole thing is a matter of money. Colleges are entitled to a fair return for the rights of their athletic contests. Television is a big problem for the colleges. The NCAA is wrestling with it. Many college authorities are dead set against television, others are for it."

"The public at large is on the side of television, those who have sets and those who intend to buy sets."

From Eugene H. Russell's column in The Seattle Times.

CHARLES R. DENNY, (J), NBC executive vice president, finds Comedian Bob Hope's side comment to Robert Montgomery, movie, radio and TV star, and Niles Trammell (I), NBC's chairman of the board, highly amusing. The foursome gathered at a Stork Club party Jan. 30.

KMBC CHARGES

Recommended for Dismissal

DISMISSAL of the charges against KMBC Kansas City charging unfair labor practices was recommended Feb. 11 by Myers D. Campbell Jr., trial examiner of the National Labor Relations Board. The case grew out of a complaint by Sherwood Durkin, announcer, that he had been discharged because of activities as AFRA shop steward. Among charges was alleged use of individual talent contracts in connection with AFRA collective bargaining.

The NLRB examiner held complaint did not prove allegations against KMBC. His report cites alleged use of obscene and profane language by the employee and notes a paucity of evidence that would indicate the station restrained or coerced its employees.

CONSUMER MARKETS makes basic market measurement data for every state, county and city easily get-able. Its 774 pages of facts and figures are so arranged that you can easily extract any single index you may want; or get a complete statistical picture of any consumer market in the U. S., U. S. Territories and Possessions, Canada, or the Philippines.

Conveniently located Service-Ads, like The Cleveland Press' shown here, supplement and expand the listed data with information about the market coverage of individual media.

"Consumer Markets is a quick, easy, informative reference," says one agency executive. "A delight to any media or market research department."

Consumer Markets

February 13, 1950 • Page 77
testing Stations, at the rate of 15% of net billings per month until Jan. 6, 1950.

FCC figured this would be 70% of net earnings, or more than $300,000, which it thought would jeopardize the station’s financial ability to operate in the public interest. WGST’s license accordingly was renewed only after the school repudiated the contract.

Southern then sued, winning a judgment for $145,000 for the period from August 4, 1945 through August 14, 1947 in the Superior Court of Fulton County, Ga. This decision was affirmed by the Court of Appeals of Georgia, and the school appealed to the U. S. Supreme Court.

Supports School

The Commission, arguing before the Supreme Court as amicus curiae but in support of the school, contended its disapproval of the contract could be used by the school as a defense for failure to perform the contract.

Legal authorities took the Supreme Court’s language to mean FCC should have endeavored more diligently and more patiently to make sure that the contract was mutually cancelled. The Court said:

The Commission insisted that petitioner (Georgia Tech) could not be a suitable licensee unless the latter had first been given a chance to negotiate for some reason, which has not been explained to us, the Commission was aware, that the contract was in effect the "effect" when the petitioner made a unilateral disaffirmance, and it did not think it necessary to require that the case go to a rehearing before a license would issue.

BROADCASTING's provision, considered in light of the Commission's reasoning, implicitly recited that part of the contract was of "no effect" when the petitioner made a unilateral disaffirmance, and it did not think it necessary to require that the case go to a rehearing before a license would issue.

This choice of method lay within the Commission's power. Considerations unknown to us may have dictated this procedure. Before issuing a license in similar cases, however, the Commission seems to feel that a party should be informed of its right to challenge a license refusal or revocation. But, so far as we are aware, the Commission has never before acted in a manner which might refuse to issue a license until the applicant has demonstrated that it has been freed by the state courts from the obnoxious contract.

But if the Commission was placed in a dilemma from which it had no escape, that dilemma was the inevitable result of the statutory scheme of licensing. The Commission itself undertook to be "impartial" in its decision, and therefore embargoed by its inability to issue cease-and-desist orders, that it has at its disposal only the cumbersome and expensive art of criminal procedure, and the license refusal or revocation. But, so far as we are aware, the Commission has never before acted in a manner which might refuse to issue a license until the applicant has demonstrated that it has been freed by the state courts from the obnoxious contract.

The Court accepted FCC’s ruling that the payments to be made under the contract rendered the school unacceptable as a licensee. It also assumed the validity of FCC’s conclusion that the school might be denied a license "because the price promised [to Southern] under the stock purchase contract permitted [Southern] to profit from their prior invalid arrangement.

Southern Broadcasting was owned by a group including Sam Pickard, former Federal Radio Commissioner and onetime CBS vice president and Columbus, Atlanta attorney. The group received payments from the school from the time the agreement was signed in April 1943 until it was repudiated by the school in 1945.

JENCKS LEAVES NAB

JOINS CBS LEGAL STAFF

RICHARD W. JENCKS, member of the NAB legal department, has resigned to join the CBS legal staff. He will be stationed for the time being in New York. Mr. Jencks joined NAB in November 1947 after graduating from the Stanford U. School of Law where he received his LL.B. degree.

Born in 1921 in Oakland, Calif., he was educated in Oakland schools, entered the University of California in 1940. In 1941 Mr. Jencks entered the Navy, serving 4½ years and leaving the service as a lieutenant commander. He served in Alaskan and Aleutian waters and in the Caribbean, where he commanded a small naval vessel. After the war he entered Stanford Law School.

Upcoming

Feb. 22-23: Ohio State Advertising and Sales Promotion conference, Ohio State U., Columbus.
Feb. 24: Tennessee Assn. of Broadcasters, Andrew Jackson Hotel, Nashville.
March 3-4: Western Radio-Television Conference, Seattle.
March 5: Radio and Television Award Dinner, New York.
March 6-8: Second National Conference, Chicago Television Council, Palmer House, Chicago.
March 6-9: Institute of Radio Engineers National Convention, Hotel Commodore, New York.
March 10-11: Alabama Broadcasters Assn., annual spring meeting, Russell Erskine Hotel, Huntsville, Ala.
March 30: Canadian Assn. of Broadcasters, Niagara Falls, Ont.
April 4: Radio Pioneers Club annual dinner, Ritz Carlton Hotel, New York.
April 12-15: NAB convention, Stevens Hotel, Chicago.
April 14: Conference, April 15: Unaffiliated Stations Conference, April 18:
May 4-7: Institute for Education by Radio, Columbus, Ohio.
May 22-23: North Carolina Assn. of Broadcasters, annual convention, Chapel Hill, N. C.
Oct. 22-24: 10th District convention of Advertising Federation of America, Amarillo, Tex.
OKLA. SESSIONS
Doherty To Speak on Costs

RICHARD P. DOHERTY, director of NAB's Employer-Employee Relations Dept., will share the speakers' spotlight with FCC Chairman Wayne Coy at the annual U. of Oklahoma radio conference March 2-14. Mr. Doherty will speak at a Monday session on "Cost Factors in the Broadcasters' Profit Equation." Mr. Coy will address the Tuesday concluding banquet session [Broadcasting, Jan. 30].

Sessions on sales and marketing problems, news, television and FM, as well as on FM and education, are listed on a partial agenda announced by Sherman P. Lawton, conference director. Speakers include:

(Sales) R. B. McAulester, KICA Clovis, N. M.; James R. Curtis, KYRO Long¬

dew, Texas; Bill Roston, KADA Ada, Okla.; George Tarter, KCRG Eml. mini-

tel.; Roy Bazu, WFAA-Fort Worth; Dave Pasternak, KSD-

St. Louis; Hoyt Andrews, WKY-TV Oklahoma City, and F. M. Randolph, WTVI (TV) Tulsa; Southwestern agen-

tes also will take part. Opening day (Sunday) of the conference will be devoted largely to demonstration broad-

casts by colleges and universities.

CANADIAN BOARD
Re-elects Hackbusch Chief

L. A. HACKBUSCH, president and managing director of Strom¬
ger-Carlson Co., Ltd., Toronto, was re-elected president of the Cana-

dian Radio Technical Planning Board, at its annual convention at Montreal last month. Gordon W.

olive, chief engineer of Canadian broadcasting Corp., Montreal, was re-elected vice president, and S. D.

Brownlee, secretary-treasurer of the Canadian Radio Mfrs. Assn., was re-elected secretary-treasurer.

General re-organization of the active TV committee of CRTPB was undertaken, with H. S. Daw¬

gon, television engineer of Canadian general Electric Co., Toronto, as general coordinator and J. A.

Hulme, CBC TV director, Montreal, heading the TV technical advisory committee. This group is presently preparing recommendations on Canada's frequency allocations for TV.

IN THE BACKGROUND is the 5 kw transmitter "giveaway" by WDAY Fargo, N. D. Station presented it to the North Dakota Agricultural College's engineering department a few days after WDAY's new transmitter went into service. At the formal "giveaway" celebration are (l to r): Julius Hetland, WDAY technical supervisor; Jack Dunn, station manager; Dr. Fred S. Hultz, college's president; Ken Kennedy, WDAY program director, and Robert N. Faiman, professor. A spontaneous gesture, the giveaway idea was born on Ken Kennedy's Tello-Test Time program over WDAY.

CLEAR CHANNEL COMMENTS
Editorials Cited in 'Congressional Record'

CONTROVERSIAL clear channel issue has commanded interest of the past fortnight in Congress and leading U. S. newspapers.

Legislators on Capitol Hill took note of the recent meeting in Cin-

cinnati during which the Clear Channel Broadcasting Service re-

newed its opposition to possible foreign intrusions on U. S. broad-

casting rights and cited resolutions for maintenance of the clears and for higher power to extend rural service [Broadcasting, Jan. 23].

The subject drew space in Congres-

sional Record issues of Jan. 31, Feb. 1 and 2. One took note of the CCBS meeting with reprint of an article appearing in the Cin-
cinnati Times-Star. The piece, which quoted CCBS Director W.K. Quail's protest to demands of the Cuban government in Montreal last fall, was inserted by Rep.

Stephen M. Young (D-Ohio).

Rep. J. Frank Wilson (D-Tex.), called attention to the Dallas Morn-

ing-News, which editorially observed that "rural America is dead set against any agreement" with Cuba that would permit inroads on U. S. rights. Contending that Cuba could not possibly utilize now all of the stations which it asks and that it may be merely "barg-

aining," the newspaper concluded:

The question of international distri-

bution of frequencies has never been given the attention that it de-

serves. This country, the home of radio-broadcasting development, early set up its own national domestic regulation. But the question of power and frequency beyond the jurisdiction of the FCC will require all of the official skill we have to arbitrate. Certainly everything possible should be done to strengthen our position when we come to the bargaining table.

Two rural association resolutions, favoring retention of clear channels and referred to the Senate Interstate & Foreign Commerce Committee, were singled out by Sen. Tom Connally (D-Texas), chairman of the equally powerful Foreign Relations Committee. Both stressed the need for adequate service to rural areas, and radio as an important information source.

SOAP OPERAS
Massey Cites Ad Value

"SOAP OPERAS are pretty corny," Charles A. Massey, president of Lever Bros. Ltd., Toronto, told the Canadian Retail Federation in conven-

tion at Toronto on Feb. 2. "But," he added, "one of the cardinal points for a successful advertiser is to mistrust his own opinion when it comes to deciding what the public wants."

The public has definitely proved that soap operas attract and hold an exceptionally large audience. Mr. Massey stated, and the adver-

tiser must give his public what it wants. He pointed out that adver-

tising is the most economical means yet discovered of broaden-

ing the demand for a product, making mass production possible, and therefore reducing the price.

WASH (FM) Expansion

THREE persons have been added to the staff of WASH (FM) Wash-

ington, according to Hudson El-

dridge, station business manager. Howard Callahan, former assistant to the chief engineer at U. S.

Recording Co., becomes chief en-

gineer. Hurley Provenson, formerly of WBCC Bethesda, Md., joins the announcing staff. Robert Best, Washington public relations coun-

sel, has been named to direct pro-

motion and publicity.

Mod. CP new FM station for extension of completion date: KRON-FM San Francisco; WRBI Blue Island, Ill.; WCAP-FM Auburn, Ind.; WXMO-FM Meridan, Miss.; WLFM Pittsburgh, Pa.—License to cover CP new FM station to change ERP to 9.8 kw and studio location to Braddock, Pa.

NEW BUSINESS

WNAV Reports High Level

A QUARTER-MILLION dollars worth of new spot and local business is claimed by WNAV Yankton-Sioux City, in the first lap of the new year, according to Robert Tincher, general manager. Mr. Tincher bases this booking on the "alertness of advertisers and their agencies to the potential of the high income agricultural area.

He further explains that these areas are highly strategic "as opposed to the stop-and-go economy of the industrial sections with their ebb and flow of labor-management strife." Furthermore, he showed that none of the new businesses included network accounts, therefore it seems "to substantiate the belief that the trend is toward spot purchase of radio time by advertisers.

FCC General Counsel—Granted in - dence continuance of hearing application of Oviville L. Jenkins, Keigwin, and former media director of Lever Bros., died suddenly to Feb. 6 at Carney Hospital, Boston. In addition to her husband, she is survived by two nephews. The family home is at 92 Cornell St., Quincy, Mass.

Mrs. Agnes V. Foster
MRS. AGNES V. (GILCHRIST) FOSTER, wife of Elbert E. Foster, WLA, WLOG, and WBBM, Chicago, Ill., general manager and former media director of Lever Bros., died suddenly at 92 Cornell St., Quincy, Mass.

WVDM
117-118 N. 46 ST.
HENDRY GREENFIELD, Mgr. Director N.Y. 10
OFFICIALS and principals of Chicago Symphony Orchestra are appearing on new weekly series "Your Symphony Scrapbook," on WMAQ Chicago, Saturday, 1:30-1:45 p.m. CST. George Kupfer, manager, and Len Arnold, public relations director, discuss music, especially major work to be performed by orchestra on its Thursday and Friday concert in next week. Each week a musician plays part of selection being discussed. Listeners are asked to send in questions and anecdotes about music, composers and musicians. Senders of material used on the air receive two main floor seats to an evening concert.

Wax Museum
CYLINDRICAL records, of type used on original gramophones, are being sold from which Terry Cowling, originator and m.c. of Wax Museum on WCOP Boston, develops his show. Mr. Cowling owns 250 of the cylinders and has asked listeners to send theirs to him for airing on show. Transcribed records are made from cylinders which feature many popular old-time entertainers.

Jackpot for Bowlers
HOUR-LONG Bowler's Jackpot is remote show telecast from local bowling alley by WEVS (TV) Cleveland. Program features one-game double match in which contestants vie for jackpot of cash and merchandise and period of bowling instruction, during which tutors attempt to make polished bowler out of beginner in 12 weeks during which show is scheduled. Show is sponsored by Dad's Root Beer in cooperation with Bowling Proprietors Assn. and features prizes contributed by national manufacturers. Television department of Ohio Adv. Agency Inc. is responsible for production.

Health News
LATEST news on last minute developments in field of medical science and field of health education and health in general are discussed in new weekly series on WMAL Washington, Saturday, 7 p.m. Dr. Edgar Carwell of District of Columbia Health Dept. presents news and acts as moderator on program. Guests are interviewed. Show covers such topics as hospital facilities available to local citizens and X-ray campaigns.

Texan Open
REPORTEDLY first simulcast originating in south Texas was carried by WOAT-AM-TV San Antonio and San in airing of 1950 Texas Open Golf Tournament. Three half-hour simulcasts were scheduled during action on last Thursday. Simulcasts were sponsored by Ford dealers and utilized crew of 12 with three TV cameras in action.

County History
COMPLETE and factual history of Orange County, Calif., is being aired by KVOE Santa Ana. Series will last one year and is heard Thursday, 8:30-8:45 p.m. Lengths being shown will be determined by story of primitive Indians and will continue through coming of Spaniards and American settlers to fabled county of towns and cities. Format is semi-dramatic narrative, utilizing musical bridges and background. Series is written by Art Shepherd, KVOE publicity director, produced by Don Spencer, sales manager, and narrated by Bill Bents, sports director.

Jewish Music Month
LOCAL Jewish Community Center, in cooperation with WCSC Charleston, S. C., is presenting series of programs celebrating National Jewish Music Month which began Feb. 5. Sundays in February, programs consisting of typical liturgical and folk music, as well as Israeli music, are being broadcast. Narration is done by Mrs. Pearl Baum, director of women's programs for WCSC.

Legislative Music Tastes
TWO hours weekly are set aside on WDNY, Buffalo, for "Legislative Music Tastes." Hour-long show is supported by National Library of Congress and is broadcast from studio of WCBS, New York. In its first two months, program has featured music from every state in the union. The library's collection provides music for presentations.

Archived sound is used in programs, which are broadcast weekdays and Saturdays at 10 a.m. and 2 p.m. Each program focuses on a different state, and features in each program may be from a variety of sources, including records, sheet music and recently donated recordings.

Brand Names Series
A SECOND SERIES of 26 spot announcements pointing out the virtues of branded merchandise and advertising is being distributed by major networks to their stations. The series was prepared by Brand Names Foundation Inc. and is in a form similar to the first series, distributed a year ago.

YOUR OWN BUSINESS IN PLEASANT TOWN

For the man who wants his own business for a small investment, with opportunity for good living, capital gains, this fully equipped transcribing and recording studio is ideal. Make-spots, commercials, etc., for radio. Good market in 250,000 center three hours from business growing, but must sell account health. Cash $6,000, balance terms.

Box 37E, BROADCASTING

A RETURN of over $45,000 for an investment of $210 is a transaction worthy of attention. That’s what Sam L. Yon, Florida furniture dealer, realized when he advertised his wares exclusively on WLOF Orlando, station reports.

It all began last December when Mr. Yon, operator of Yon Furniture Co., learned that the building where he had done business for the past 23 years had been leased out from under him by a large chain furniture firm. Furthermore, a competitor across the street had just remodeled its building into a “show-place.” Another furniture store was located two doors north of Mr. Yon’s.

In recent years Mr. Yon had not used any, advertising of consequence, and had never used radio advertising. Deciding to stage a sale, he bought time from WLOF on a trial basis suggested by Donn Coley, WLOF commercial manager. Response was so satisfactory that the campaign, started in mid-December, was continued through most of January. In the six weeks, $45,375 worth of furniture, the normal equivalent of six months business, was sold in “Yon’s Has Lost His Lease Campaign.” And the cost to Mr. Yon for his radio advertising was just $210.

PROMOTION department of WSUI, U. of Iowa station in Iowa City, is publishing monthly bulletin, 910 News, for its alumni.

WJBS DeLAND
New Owners Map Future

CHANGE of ownership and call letters of WJBS DeLand, Fla. (formerly WDLF), will herald improved programming and a continuation of basic service which has been offered the past 15 months, according to J. Ollie Edmonds, president of John B. Stotson U., the new owner [BROADCASTING, Jan. 31]. Station operates on 1490 kc with 250 w.

In a ceremony Feb. 1, President Edmonds pledged that WJBS would broaden its coverage of civic and public service events and broadcast many programs direct from the classrooms and auditoriums of the university, in addition to the regular MBS shows. He added that increased listening audience would make advertising time on the station more valuable. Attending the ceremony were Yone Van Valkenburg, of New York, who relinquished station ownership, and Mayor Charles E. Tribble.

CKAC REQUESTS
Asks CBC Cut Commercial Ties

CKAC MONTREAL has suggested to the Royal Commission on Arts, Letters and Sciences that the Canadian Broadcasting Corp. be withdrawn, at least partially, from the commercial field.

Speaking for the owners, CKAC’s Phil Lalonde, manager, told the commission that such a move would make “available to the listeners of Canada a full choice between information, education and entertainment provided by means of commercially sponsored programs (on privately-owned stations) and similar service provided on a wholly, or largely, sustaining basis.” Mr. Lalonde also suggested that the Royal Commission “should favor the institution of an independently regulatory authority, whose regulations would apply to both state and private enterprise, and thus provide fair play and equality of opportunity, which is the very source of initiative in all sound business endeavor.”

REPORTEDLY first radio station operated on public library in U. S., WPFL (FM), 16 watt in Louisville, will take the air officially Feb. 18.

mo’ Too Big

WNOR Norfolk, Va., flashed word at 6:45 a.m.—a full half-hour before official notice—that the “Mighty Mo,” the Navy’s newsmaking battleship, had shaken loose on Feb. 1 from the Chesapeake Bay sandbar. The successful attempt that day and a previous test run were coveted by WNOR’s Announcers Earl Harper, Jack Harris, Paul Schafer, and Engineers Phil Stewart and Jim Tucker, who were placed on the USS Missouri’s deck on a private power launch and on shore. Station interrupted one description for a message from its sponsor—a trucking firm—which admitted the company couldn’t move the “Big Mo” but would be delighted to help Norfolk civilians and Navy personnel to move anything “a little smaller.”

KFXM STAFFERS
Strike Threat Withdraw

KFXM San Bernardino, Calif., announced withdrawal of a strike threat by the American Federation of Radio Artists and the International Brotherhood of Electric Workers. Strike deadline had been Feb. 5.

The Don Lee-MBS affiliate stated it will continue to recognize bet unions and continue to negotiate for new contracts for announcers and technicians. Negotiations between the unions and the station were deadlocked when KFX threatened to replace the four announcers and engineers who would have struck with four non-union, non-management combination men. AFRA had requested for announcers the present salary of $60.60 for five-day week instead of present five-and-on, half-day week. IBEW had asked for engineers an hourly increase over the present salary.

Sackett Marries

SHELDON F. SACKETT, We-Coast radio and newspaper owner was married Jan. 30 to Elizabeth W. Loughrin, Beverly, Calif., socialite and former Broadway actress. Mr. Sackett’s radio at newspaper properties include KOX in Oakland; KOOS, KOSO, KOSO, Ore.; KVAN Vancouver, Wash.; KRSC Seattle; the Coos Bay Times, the Alameda (Calif.) Illustrated Press, and the Westl."

In The Public Interest

Record Players for Children

MARTIN BLOCK, m.c. of WNEW New York's Make Believe Ballroom show, conducted a campaign recently for record players to be used in the Children's Wards of the 18 New York City hospitals. The shortage of players was relieved when Mr. Block received 65 record players from his listeners.

For Safety

DIVERSIFIED campaign was conducted by WBBZ Vineland, N. J., during that city's safety effort. Spot announcements, window displays, and a loudspeaker carrying safety messages from an airplane piloted by Fred Wood, station's manager, were used. Prizes were given by station to children writing the best safety essays, and over 5,000 buttons promoting the campaign were distributed in WBBZ's immediate coverage area.

Southwest Opportunity

A 250 watt daytime independent—with LISTENER PULL PROVEN BY HOOPER! On the air two years in a city of more than 25,000—a county of 80,000—and a HOOPER SURVEY. To PROVE it’s the best buy for the adventuring owner to sell at a BARGAIN PRICE. This station serves a city with retail sales of over $25,000,000.00 in a retail trade area of over 150,000 people! A second city of similar size only ten miles away. Price $8,000.00.

- All locally originated programs over WTIC Hartford, Conn., carried special birthday formats and network programs gave anniversary salutes, when WTIC celebrated its 25th birthday, Feb. 10. Station began with 500 w power and now has 50 kw. It is one of the six charter affiliates of NBC.
- WEPF (FM) Chicago marks its 10th anniversary this month, and a special show is being offered by the station every Sunday in February.
- Second anniversary of WLWT (TV) Cincinnati was celebrated Feb. 11 by special personal appearances of the cast of NBC-TV's "Kukla, Fran & Ollie" and performances by stars of WLWT and WLW, station's AM affiliate.
- February marks the 25th year of operation by WORC Worcester, Mass. Station reports it was the first in the 100 w category to become affiliated with a major network, CBS, in 1931. WORC has been managed by Mildred Stanton for the past 10 years.
- Lowell Institute Cooperative Broadcasting Council, Boston, which presents shows over eight Boston stations, is celebrating its fourth year of broadcasting.

COURT BAN
WMAQ Finds Disagreement

WMAQ (NBC) Chicago, battling unofficial City Council rules banning broadcast of Council proceedings, won a battle in its initial decision in the Boston proceeding to choose a successor to deleted WORL [Broadcasting, Nov. 7, 1949].

Vigorous opposition was presented by all interested groups, but although not a party to the proceeding, had been granted permission to participate in the argument amicus curiae. Similar position was taken by counsel for Joseph Solimine, one of the several applicants to whom the examiner recommended denial and whose foreign language program proposals drew the most attention from the FCC's general counsel also stood by his brief opposing the foreign tongue view of Mr. Hutchison.

Pilgrim Broadcasting Co., promoter of WNNY, 950 kc facilities to be assigned, and Beacon Broadcasting Co., another applicant proposed to be denied, also appeared at the argument. Other applicants whose proposed denials were Boston Radio Co. Inc., Continental Television Corp., and Bunker Hill Broadcasting.

WHOM charged there was no evidence in the record to support in any way the "general derogatory language" used by Examiner Hutchison in his considering foreign tongue programs, nor was any authority cited at any point for such views. WHOM pointed out that FCC in the past and many other high authorities have repeatedly praised the various values of such programming, both in time of war and peace. WHOM's counsel indicated FCC has never criticized the general concept of foreign language broadcasts.

KOBACk Sr. Is Nominee

EDGAR KOBACk Sr., consultant and part-owner of WTWA Thompson, Ga., is among the nominees for a small stations NB board post. In Broadcasting, Feb. 6, he was incorrectly listed as his son, Edgar Kobak Jr., who is general manager of WTWA.

NEW AM GRANT
Proposed for Lawrence, Kan.

INITIAL DECISIONS of FCC hearing examiner were reported by the Commission last week recommending one new station grant and improvements in facilities for KID Idaho Falls, Idaho; KBPS Portland, Ore., and KIOA Des Moines.

New AM outlet at Lawrence, Kan., on 1320 kc with 500 w daytime only was recommended by Examiner O'Connor. "Mr. Mae Harrison, executrix of the estate of L. C. Harrison, trading as Lawrence Broadcasting Co. Mr. Harrison died in November 1948, five months after his application was filed. The grant was favored although slight mutual interference would result with KCKN Kansas City and KFHI Wichita, both Kan. Examiner Litvin also issued a recommendation to grant the application of KID to switch from 5 kw day, 500 w night on 1350 kc, directional, to 5 kw day, 1 kw night, 590 kc, directional night. The grant was favored in spite of some nighttime interference to WOW Omaha; KFXM San Bernardino, Calif., and KSUB Cedar City, Utah, because of local gains in first primary service.

Examiner Hugh B. Hutchison proposed for grant Benson Polytechnic School's KBPS increased hours of operation and power boost to 250 w from present 100 w, operating specified hours on 1450 kc. He proposed to deny bid of Hugh Francie McKee, assistant manager and technical supervisor of KGHD Missoula, Mont. The examiner favored KBPS' past performance over indefinite proposals made by Mr. McKee.

Examiner Basil P. Cooper recommended grant of KIO's request to change its daytime directional array condition. The examiner outlined steps to eliminate any overlap that might result with KMA Shenandoah, Iowa, which is prohibited by FCC's standards. KIOA is assigned 10 kw day, 5 kw night on 940 kc.
COMR. JONES CASTIGATES 'ECONOMIC THINKING'

In attack on "economic thinking" in industry, FCC Comr. Robert P. Jones said in speech Thursday night that problem of getting "television to all the people" is "almost as far from solution as it was in 1941." He feared that "very little is likely to be done by industry and its eminent engineers to help us in the current hearing with this problem."

Addressing Lima (Ohio) Section of American Institute of Electrical Engineers, Comr. Jones said that "heretofore I had, for the most part, been apprehensive of the industry's technical committees."

But, he said, "more recent experience with them has raised some questions in my mind as to whether or not they have that objectivity that I had always associated with the engineering and scientific profession."

"Whereas a year ago I credited the big executives with imaginative genius," he said at another point, "I now realize, to that they have a negative approach until economic necessity drives them to probing in and finding answers for the Commission and, of course, for themselves."

One of the greatest problems, he said, is "inflexibility" of standards. FCC "must be careful not to write its standards in such a way that one or two patent holders will dominate a whole portion of the broadcasting industry," he said.

FCC ASKED TO HALT TRANSIT RADIO SERVICE

Petition filed Friday with FCC charging transit radio is contrary to "public interest" and asking Commission to halt service. Brief, prepared by Washington Attorneys Franklin S. Pollak and Guy Martin on their own behalf, presented in complaints filed earlier by Transit Riders Assn. (see early story, page 24). FCC currently has TR study underway.

Petition also asks FCC to (1) rule that transit radio violates Commission rules and regulations governing station licenses; (2) announce and initiate policy of license revocation "as far as necessary;" (3) take no final action on license, renewal and permittee bids; (4) furnish attorneys with copies of contract between Washington Transit Radios Inc. and WWDC-FM (Capital Broadcasting Co.) franchisee holder; (5) appoint public counsel to present to Commission above requests.

Attorneys charged WWDC-FM transit broadcasts violate original representations made by Capital Broadcasting Co. in application for station CP; that programs impinge on individual's "right of privacy;" and that system utilizes unauthorized super sonic device to raise volume of commercials.

HORSE RACING BILL

Bill to authorize FCC to prohibit airing of horse race odds and winners in conflict with state laws introduced in Congress by Rep. Orcilie C. Bennett (D-Fla.). Request of Florida Atty. Gen. Richard Irvin. Measure (HR-7233) would prohibit such broadcasts 30 minutes immediately preceding and following scheduled races. Rep. Bennett said proposal is aimed at shutting down illegal operation and designed primarily to curb wire communication. TV would be included. Legislation would not outlaw such broadcasts per se unless FCC should so rule.

WMAN ASKS INJUNCTION FOR BASKETBALL RIGHTS

Decision to be handed down Tuesday in Richland Co. (Ohio) Common Pleas Court on plea of WMAN Mansfield to enjoin local school board from allegedly discriminating against station in denying it play-by-play rights for high school basketball games.

Judge Calbiletech said at hearing that neighboring stations in Ashland, Postoria and Sandusky were allowed to carry games. J. M. O’Hara, WMAN president and general manager, claimed board is influenced by Mansfield News Journal, owned by S. A. and Isadore Horvitz. Messrs. Horvitz are defendants in anti-trust suit filed by Dept. of Justice alleging coercive practices in Lorain and Elyria, Ohio, to prevent advertisers from buying time on WEOL Elyria. U. S. District Court to open hearing of anti-trust case in Cleveland March 1.

School board received over 10,000 letters and petitions in three days protesting denial of play-by-play rights to WMAN. Board offered station four-year contract if play-by-play account were not sponsored, with automatic cancellation if any one game is missed unless for mechanical failure. Station rejected this.

CBS 1949 INCOME DOWN

Net income of CBS in 1949 reported Friday as $1,484,100, decline of $857,600 from 1948 figure. In 1949 income before Federal Income taxes was $7,634,100; in 1948, $8,141,700. Federal income taxes were $3,450,000 in 1949 and $3,100,000 in 1948. Financial report is for CBS and subsidiaries, including Columbia Records Inc. Earnings per share in 1949 were $2.44, compared with $.94 in 1948.

CENSUS WARNING

Networks and movie producers asked to avoid future dramas in which census takers are impersonated. Frank R. Wilson, Census Bureau information director, reminded that all films collected by Bureau are confidential. Broadcasters and film interests asked to avoid plots that would cast suspicion on motive of genuine census enumerator, who carries credentials.

O’CEDAR IN 17 MARKETS

O’CEDAR Corp., Chicago, sponsors one-minute and 20-second TV spots this week in 17 markets for 13 weeks for new product, Sponge Mop. Agency, Young & Rubicam, Chicago.

NAB BOARD

(Continued from page 4)

Arkansas imposts suspended by Supreme Court, until new test case develops.

To provide revenue for a general manager's setup, board cut certain allocations, among them $5,000 annual contribution to Federal Radio Education Committee, and cut of Inter-American Assn. of Broadcasters from $8,400 to $4,000, with travel allotment reduced from $3,000 to $2,000.

Board at concluding session adopted resolution asking for reappointment of eight veteran members who retire with April convention.

Retiring directors are Mr. McCollough; G. Richard Shafo, WJS Columbus, S. C.; Campbell; W. R. Norfolk, Va.; Hugh B. Terry, KLZ Denver; Robert Enoch, formerly KTOK Oklahoma City; Michael R. Hanna, WHCU Ithaca, N. Y.; Henry W. Slavick, WMC Memphis; Howard Lane, WJJD Chicago.
STATEMENT FROM

We believe that a radio station has a duty to its advertisers and to its listeners. We believe that, every once in a while, it is a radio station's duty to restate its principles, to review its purpose for being, and to advise its advertisers and listeners of the company they are keeping.

At WGAR, our actions are governed by certain beliefs that we feel are important for the good of listeners and for the benefit of our clients.

1. We have one rate card. All WGAR advertisers pay the same amount of money for similar services. And we do not accept P. I. advertising.

2. We believe that any attempt to buy listening by offering prizes as a reward is a deception not in the public interest. Our high listenership is created and maintained through the exceptional entertainment and informational value of our programs.

3. Every day, Cleveland's Friendly Station is invited into hundreds of thousands of homes in Northeastern Ohio. Therefore we strive to act as a becoming guest. No advertising matter, programs or announcements are accepted which would be offensive, deceptive or injurious to the interests of the public.

4. We believe in fairness to responsible people of all convictions. Those of different religious faiths broadcast freely...and free...over our facilities. Balanced controversies are aired regularly without charge. We practice freedom of expression without penalty to those whose opinions differ from our own.

5. We believe that we serve our advertisers more effectively by broadcasting no more than a single announcement between programs.

These are but a few of the principles by which WGAR lives. For more complete information, write for a printed copy of WGAR's code of operating rules and advertising standards. It is a guide that results in listener belief in us...and helps us to best serve them and our advertisers.

And there are more of both...listeners and advertisers...than ever before. In 19 years, we have grown from 500 watts to 50,000 watts. Our business in 1949 set an all-time record.

If you are not advertising on WGAR, we invite you into the good company of those who are.

50,000 WATTS CLEVELAND

Represented Nationally by Edward Petry & Co.
Take it with a grain of salt. For if the problem of using television on a modest budget seems hard to beat, you can call up reinforcements by calling up Radio Sales. As a noted New York retailer did, "And found he could win big sales victories by using a low-cost Class C quarter-hour on WCCB-TV once a week. Proclaimed he: "In December 1949, we eliminated newspapers and concentrated solely on TV. The results show a substantial increase in business over December 1948. Our TV show has been directly responsible!"

To carry on a strong TV campaign, call in your Radio Sales TV Account Executive. With his first-hand experience, he can help you win your sales battles...in six of your most important television markets.

National Safety Council
Honors WHO for
Fourth Consecutive Year!

WHO's selection for the National Safety Council's Public Interest Award marks the fourth consecutive year in which this 50,000 watt Clear Channel Station has been cited "for distinguished service" . . . "for exceptional service" to safety on the farm.

Proud as we are of this Award, we are more proud of the people on our staff who helped us win it—the script writers, music arrangers and producers—the announcers, the guest speakers, the civic organizations who cooperated to make broadcasting realities from farm-safety ideas.

The Award is further proof of WHO's public-spirited programming, its awareness of community responsibility, its desire to furnish "Iowa Plus" listeners with the finest radio service in America. For advertisers there's an added significance—WHO's consistent leadership means greater advertising values for any product, in any season, at any time of the day or night.

NBC President Joseph H. McConnell in Washington Friday for further consultations with FCC representatives on FCC's tentative ruling against arrangements for NBC's projected 2 1/2-hour Saturday night TV series (earlier story, page 68). He returned to New York without commenting, but in Washington it was assumed NBC would not contest FCC's decision.

WILEY, FRAZEE & DAVENPORT, New York, recommending intensive spot announcement campaign in about 100 major markets to its client, Amurol Prod. Co. (Ammoniated tooth powder). Advertiser's decision expected within two weeks.

IT BECOMES more evident that NAB's new general manager, authorized by board at Arizona meeting fortnight ago, will be selected from outside NAB staff. President Miller understood seeking expert in internal administration rather than specialist. Practical broadcasting experience regarded as prerequisite.

NETWORK head-shaking at some phases of NAB headquarters operation said to have been aired at mid-week New York meeting of top-level executives. Future attitude of networks, now associate members, discussed at length.

REALIGNMENT of NAB structure was premised largely on theory that entire organization had had quarter-century of experience in radio—hence no need for Radio Division as such. TV, being a new medium, requiring special attention and coordination with all bureaus, is retained under G. Emerson Markham.

THAT SECOND Sadowski Bill, to provide for reorganization of FCC procedures, may originate in this fashion: FCC, whose staff abetted with first Sadowski measure (HR 6949), is preparing detailed comments on Senate-passed McFarland Bill (S 457), which also reorganizes FCC procedures and is pending before House radio subcommittee headed by Rep. George Sadowski (D-Mich.). Then look for ideas expressed in FCC's comments to turn up in new legislation which may be introduced as second Sadowski Bill. Exit McFarland Bill?

DON McNEILL, of ABC's Breakfast Club, who is being wooed by CBS and NBC, reportedly advised to remain with ABC at recent meeting with his sponsors, Swift & Co., Philco and General Mills. Mr. McNeill expected to start simulcasting morning strip before fall.

PHILLIPS "66" through Lambert & Feasley, New York, negotiating with Rex Allen, hillbilly star, in Hollywood for half-hour network show. CBS probably will be network.

NOW THAT FCC has approved test of Zenith Phonevision, dollar-in-slot version of TV, there's speculation in Hollywood about Comdr. (Continued on page 86)

Business Brief

H-R CHICAGO OFFICE • Chicago office H-R Representatives Inc., new station representative firm organized by designated officer of Headley-Reed Co., will be located at 79 W. Monroe St., Frank M. Headley, president, announced Friday. Dwight S. Reed, H-R executive vice president, will be in charge in Chicago (earlier story, page 21).

SPOT DRIVE PLANNED • Maier Brew Co., Los Angeles, plans new radio campaign five weekly half-hour The Lonesome Galen. KHJ Los Angeles for 52 weeks. Drive starts April 10 with later extensive spot campaign in Southern California area. Agency, Brainsch Wheeler & Staff Los Angeles.

UPTON CLOSE LIBEL SUIT DISMISSED BY COURT

DISMISSAL of $200,000 libel suit filed by Upton Close (Josef Washington Hall), commentator, against Covles Broadcasting Co. as WOL Washington owner, and Albe Warner, commentator, ordered Friday by Chi Judge Bolitha J. Laws, U. S. District Court for District of Columbia.

Judge Laws granted defendants' motion for summary judgment and denied similar motion by plaintiff. Court's action makes it unnecessary to deal with remaining motions filed by parties.

Statements made by Mr. Warner in WC broadcast "constituted fair comment a criticism of plaintiff's broadcast and we prevailed on court ruled.

Suit by Mr. Close grew out of local WC commentary by Mr. Warner March 6, 1949. It was in answer to network broadcast previo day, originating at WOL. Mr. Close charged Mr. Warner's broadcast was false and defami tory in 18 respects and claimed libel from defendant, both personally and as agent of Cowles interests.

Mr. Warner argued his broadcast was pri leged as fair comment on plaintiff's public statement views on matters of public concern. During war Mr. Warner was in War Intelligence Division of War Dept.

'BROADCASTING' RECEIVES SEATTLE C. OF C. AWARD

SIXTH ANNUAL "Paul Bunyan Award" honoring books, articles, stories and radio programs presented Friday to Broadcasting Seattle Chamber of Commerce.

Scroll, presented at C. of C. luncheon, cited Seattle market survey [Broadcasting, July 1, 1949] "for constructive contribution toward focusing national attention on the city of Sea ttle during the year 1949." Leo Lippman, Sea tle news representative, received award on behalf of Broadcasting. As author of market survey he was presented separate scroll.

Awards committee, covering seven classes of community service, headed by Joe All president of Spokane Athletic Roundtable.

Bulletin

FORD MOTOR Co. will increase Ford Theater show on CBS-TV to weekly feature starting Sept. 29. Now presented alternate Fridays, 9-10 p.m., series has been renewed for 52 weeks. Agency is Kenyon & Eckhard, New York.

WGMT Wilson, N. C., to join CBS June 18 as network's 187th affiliate. Station is owned by Watson Industries Inc. General manager is Allen E. Wannamaker.

ALL-RADIO GROUP REVISES "LIGHTNING'S SHOWINGS"

OF TOTAL of 84 presentations of "Lightning That Talks" already scheduled when NAB board fortnight ago objected to quality of film, only three cancelled as of last Friday, according to All-Radio Presentation Committee (early story page 24).

After New York premiere of film postponed from March 1 to as yet unsettled date in late March or early April, committee notified subscribers in 52 cities where showings had been scheduled in first three weeks of March that their dates would be postponed until after New York presentation. Committee reversed that decision last week, advised all that original schedules had been reinstated.

Because some had already acted on first notification of postponement and cancelled arrangements for theatres or other showing facilities, not all 52 cities will be able to follow original schedule. Only three, however, indicated definite cancellation, and they reported future showing would depend on their reactions to viewing of finished film. Picture shown NAB board was net final version, it was stated.

NARBA TO HEAR REPORT ON BASIC CHANNEL NEEDS

REPORT showing points of U. S.-Cuban agreement and disagreement on their respective NARBA channel-allocations requirements is slated to be presented today (Feb. 20) at further meeting of U. S. and Cuban delegations at Havana. Report was to be prepared over weekend by special engineering committee appointed Friday after consultation between heads of delegations: FCC Commr. Rosel H. Hyde and Dr. Jose R. Gutierrez, deputy minister of communications of Cuba.

Committee is headed by James Barr, chief of (Continued on page 86)
The always-rich Wilmington market has heartily welcomed the only television station located in the state of Delaware—WDEL-TV—on the air since June 30, 1949. Viewers are enthusiastic about this, their own television station. Already, tuning WDEL-TV is a fixed habit—and set sales are showing a tremendous growth every month. This is due to the clearer picture this local outlet brings, the resourceful and varied local programming and NBC network shows. Be sure your sales story is effectively seen and heard in the Wilmington market where residents enjoy far above average per capita income—fifth in the nation. Enjoy as do many foremost advertisers, new, profitable business this year from selling on WDEL-TV. Write for information.

24 GAMES OF THE
INDIANA HIGH SCHOOL
BASKETBALL TOURNAMENT FROM SECTIONALS TO FINALS

Butler field house, Indianapolis, is the home of the most attention-compelling basketball contest in the U. S. A. Until this year only a capacity of 15,000 lucky Hoosiers could see this great contest. This year, WFBM-TV reaches an arena of homes where approximately million basketball fans live.

First again in Indiana, WFBM-TV is writing another inspiring chapter in the history of Hoosier sports. Beginning on February 22, all games of one of this State's outstanding sports contests, the Indiana High School Basketball Tournament, will be telecast statewide to an eager and basketball-crazy audience.

The entire program is sponsored by local RCA-Victor dealers, and thanks are due Mr. L. V. Phillips, Commissioner of the Indiana High School Athletic Association, and the board of that Association, for permission to telecast the games.

It's no wonder the eyes of Indiana are upon us. And it's our aim to keep them there. Our program schedule is loaded with exciting sports events and other popular and entertaining programs. And with inter-connection due in the fall, WFBM-TV's service to the Indiana audience will be greater than ever.

O. U. FIRST IN FOOTBALL
GOODRICH FIRST IN SALES

Yes, in the fall of 1949, cash registers in the
B. F. Goodrich stores began to hum! Slowly
but surely the Oklahoma City District climbed
into First Place among all other Goodrich
districts in the nation.

Booking that climb was a carefully selected
program of advertising—sponsorship of the
1949 Oklahoma University football games over
KOMA. Week after week the Goodrich story
went to 45.1 per cent of the Oklahoma City
metropolitan audience, as determined by lis-
tener surveys.

Let your story be a KOMA success story. Let
us or Avery Knode give you the complete pic-
ture of why KOMA is Oklahoma’s best buy in
radial radio!

M. L. P. D. are the four letters we've borrowed from the alphabet to tell KXOK's outstanding story of results. They stand for More Listeners Per Dollar! Check the Hoopers... check the time costs... check the extra reach of KXOK's clear signal at 630 on the dial... and it all adds up to KXOK's top-rung position as the No. 1 Buy. KXOK is the answer to putting your sales (and your advertising budget) in better shape in the St. Louis Area Market.

KXOK
St. Louis' ABC Station • 12th & Delmar, CH. 3700
630 KC • 5000 WATTS • FULL TIME

Owned and operated by the St. Louis Star-Times • Represented by John Blair and Co.
See what else the South's Greatest Salesman gives you:

Advertising for our advertisers every day 24 sheet posters, streetcar dash signs, full-page newspaper advertisements, store displays, work with jobbers and leading retailers—WWL uses all of these—the greatest audience-building program in the South.

He racks up leading Hoopers—gets biggest share of audience

Latest Hooper shows WWL share-of-audience ahead of any New Orleans station. Nighttime WWL has greater share than next 2 stations combined!
South's Greatest Salesman Helps Raise Better Crops

Farmers in 7 states profit from WWL's varied farm program. WWL helps them harvest bigger, more profitable crops—and sells them all the while! Only WWL directs herd improvement contests, provides weather and market reports, on-the-scene rural broadcasts, 4-H Club programs.

He's a favorite all over the map

WWL primary coverage covers a two-billion-dollar trading area. 50,000 watts, clear channel, and top programming makes folks turn first to WWL.
SPEIDEL Corp, Providence, R. I. (Speidel Watch Bands and Jewelry), appoints Sullivan, Stauffer, Colwell & Rayles, New York, to handle its approximately $750,000 advertising budget. Advertiser last season used both radio and television, then sponsoring quarter-hour of Stop The Music on ABC and TV show featuring Ed Wynn on CBS-TV.

DEL CAMPO BAKING Co. (wholesale baked goods), Wilmington, Del., appoints Kates-Haas Adv., same city, to handle all advertising. Radio is included in current plans and TV for future.

BROWN SHOE Co., Buster Brown Div., St. Louis, sponsoring series of TV spot announcements in 13 cities. Series will run through spring into summer months in New York, Chicago, Philadelphia, Los Angeles, Boston, Baltimore, St. Louis, Pittsburgh, Atlanta, Detroit, San Francisco, Cincinnati and Cleveland. Three announcements run weekly in all cities but New York and Chicago, where four are scheduled. Agency: Leo Burnett, Chicago.

COLGATE-PALMOLIVE-Peet Co., Jersey City, appoints Sherman & Marquette, New York, to handle advertising for its Veto deodorant, effective June 1. Product is now serviced by Ted Bates Inc., New York. Radio spots have been used.

LINCOLN-MERCURY DEALERS of Southern California, Los Angeles, sponsor weekly 1½ hours of jal alai games from Tiajuana, Mex., on KFMB-TV San Diego and KLAC-TV Hollywood. Games are beamed from Tiajuana to KFMB-TV for simultaneous release on both stations with Mexican government clearance granted. Contract is for 13 weeks, through Heasly & Heasly, Los Angeles.

ANNUAL CHICAGO RAILROAD FAIR, Chicago, appoints Foote, Cone & Belding, that city, as agency. Radio and TV being considered.

STROUX TISSUES, New York, through Franklin Bruck, New York, will sponsor The Hazel Scott Show on WABD (TV) New York, starting Feb. 24, to introduce combination offer of Strox tisues and Strox kerchiefs.

QUAKER OATS Co., Chicago, places Orady Cole and the Johnson Family over 37 CBS southern stations in 10-minute broadcast once weekly. Show originates at WBT Charlotte, N. C.

BOHEMIAN DISTRIBUTING Co., Los Angeles (Acme breweries), starts 52-week spot announcement schedule on KECA KFI KJL and RNX Los Angeles. Spots run four nightly, six days weekly, except during March. Agency: Foote, Cone & Belding, Los Angeles.

ALDEN'S MAIL ORDER HOUSE, Chicago, will promote distribution of its new catalog on its first TV show, The Dude Ranch, to be aired eight weeks as test on WGN-TV Chicago, Saturday, 8-8:30 p.m., starting March 4, through George F. Koehnke Agency, Chicago.

RAYLITE ELECTRIC Corp., Bronx, appoints Gordon & Rudwick Inc., New York, to handle advertising of its indoor and outdoor lighting products. Radio and television spots may be used.

CHAMP HATS Inc., Philadelphia, appoints Hirshon-Garfield, New York, to handle its advertising. Radio may be used.

ATCHESON, Topoka, Santa Fe Railway, Chicago, plans evening one-minute TV spot campaign for five weeks starting March 12 on Chicago and Los Angeles stations, with about five spots weekly. Expansion to other markets may follow. Agency: Leo Burnett, Chicago.

HELEN T. BROOK Chocolates, Brooklyn, appoints A. B. Landau Inc., New York, to handle its advertising. Radio will be used.

CHEVROLET DEALERS of Southern California, Los Angeles, Feb. 27 starts

(Continued on page 49)
Day and Night . . . an endless parade of the best in radio entertainment for KTSA listeners! Great programs, great features, great personalities! All this, plus top local programs and features with an unexcelled coverage of all the news. No wonder more and more people say, . . . . "It's on KTSA"!
The sponsor goes
where the listeners are!

America's greatest advertisers know from long experience where to find Chicago listeners in the greatest numbers. That's why more of them use WBBM, more than any other Chicago station, for their main radio advertising effort. So do Chicago's smartest local advertisers. Just look for the sponsors. That's where the listeners are!
WHEN you get right down to it, programming Know-How is what makes the difference between a great station and "just another station." And this difference is what makes great stations outstanding advertising values!

We of KWKH have had 24 years' experience in our Southern market. As a result, we've got a "native-son" approach to the Southern mind, heart and ear—a knack for programming that's unmatched in this area. The proof? Latest Shreveport Hoopers (Nov.-Dec., '49) credit KWKH with top ratings in all weekday periods—

KWKH is 52.0% higher than the next station for Total Rated Periods—is actually 82.3% higher, weekday Mornings!

BMB and mail-pull figures prove that KWKH does an equally superior job in rural areas too. . . . Let us send you all the facts about KWKH's sales-influence in the prosperous New South!

BASEBALL BUDGETS UP

SPONSORSHIP of 1950 baseball schedules, including major and minor league games, will bring total advertiser budgets well past the $20 million mark—this is not counting the satellite programs and spots built around these games, according to a pre-season roundup by BROADCASTING.

While some contracts are still in the negotiation stage, it already is obvious that more sponsors will spend more money on baseball than ever before. More listeners and viewers will tune in on Saturday nights after the season opens in mid-April.

An addition to the 1950 diamond lineup is the MBS 350-station package [BROADCASTING, Feb. 19]. A blanket survey by Broadcasters last week found the major league cities about ready for the season. Most contracts were in almost to the day of the unofficial deadline of Feb. 15, the date at which the major league headquarters normally pegs its sights for clearance of all broadcast contracts. In addition, reports from minor league cities, show considerable baseball budget increases there.

Chesterfield Increases

Liggett & Myers Tobacco Co. (Chesterfield) is expected to pick up a larger tab as a result of this year's baseball scheduling. While no figures were available last week, the expenditure is believed to be substantially higher than during 1949 because of the addition of Chicago and the 35-station Midwest baseball network to its coverage. Agency handling placement for Chesterfield is Cunningham & Walsh, New York.

L&M will sponsor the full 164-game schedule of the National League's Chicago Cubs with WIND Chicago the originating station. Bert Wilson will handle play-by-play chores as he has in the past.

Elsewhere, the Chesterfield picture is essentially the same as last year with the tobacco firm sponsoring radio-TV coverage of the Washington Senators and the New York Giants. WMCA New York will beam the radio version of home and away games of the Giants, while WPIX (TV) New York will telecast the 77 home contests—an agreement now in its third year. Expected to rotate radio-video duties are Russ Hodges and Ernie Harwell and another announcer to be selected.

In Washington the rotation of radio-TV sportscasting also will be employed. Announcers Archie McDonald, veteran Washington sportscaster, and Bob Wolf will give listeners and viewers a running description of Senators' diamond activities. WWDC-AM-FM Washington, which switched today from its 1450 kc 250 w facility to 1260 kc 5 kw, has exclusive AM rights for all home and away games, both day and night. Last year, WWDC broadcast only night and Sunday games with WPIX Alexandria, Va., airing weekly day games. In the package rights negotiated this year by Liggett & Myers—similar to that consummated in 1949—Chesterfield is given exclusive "in-the-park" advertising rights. Telecasts of Senators home games will be handled again by WTGT (TV), DuMont's Washington station, with Howard Williams assisting Messrs. McDonald and Wolf in announcing chores.

Yankee Sponsorship

P. Ballantine & Sons (Ballantine beer & ale) again will sponsor telecasts of all New York Yankee home games on WABD (TV) New York, as well as alternate radio sponsorship on WINS New York of all Yankee home and road contests with General Cigar Co. for White Owl cigars. J. Walter Thompson handles both accounts. Mel Allen and Curt Gowdy have been set to announce on AM, with TV chores still undecided.

The split sponsorship also will prevail for coverage of the Brooklyn Dodgers, with F & M Schaefer Brewing Co. paying the bill for home telecasts on WOR-TV New York, and 50% of the Dodgers' full season schedule on radio. Post-Cereals Div. of General Foods Corp. will sponsor the balance of the broadcasts, which will be aired live by WMGM New York. Young & Rubicam handles Post Cereals; the Schaefer Beer account is under BBDO.

It is understood that the New York Yankees management is mulling a special arrangement which would set up a "WA 1" of the "broad-

views the new rates were praised and cussed. Edgar Kobak, writing as head of WTTWA Thomson, Ga., to NAB President Justin Miller, praised the boost. J. S. Younts, president-general manager of WEBS Southern Pines, N.C., was one of those sharply critical but he is willing to be shown that the boost is justified.

Kobak Agrees

Mr. Kobak wrote:

Mr. Younts wrote NAB:

... Whereas small stations feel that we receive benefit from NAB, it is questionable if the benefit is in proportion to the amount of dues that you propose to charge in order to maintain a very high overhead in Washington. When I see that you have office help that are drawing yearly salaries that exceed the total gross billing per annum of many small sta-

NAB's increased in dues for stations—780 of them—in the four lower income classes, effective April 1 as a result of the board's recent Arizona meeting [BROADCASTING, Feb. 13], met with mixed reaction among members last week. The subject promises to come up informally, and perhaps on the floor, at the mid-April convention in Chicago.

When April NAB bills are submitted, Class A stations ($25,000 net income and under) will be asked to pay $15 per month instead of approximately $6.50 ($7.50 minus 12 1/2% discount). The discount ends April 1. Three other low-income brackets will pay higher fees, the board having raised rates to expand service to the membership and to get rid of inequities in the dues schedule.

Among those who voiced their
CBS WESTERN DIV.  

Campbell, Wilkey  

In Shift

IN ANOTHER realignment involving its Western Division, CBS last Thursday announced the appointment of Wendell B. Campbell, general manager of WCCO Minneapolis-St. Paul, as western sales manager for CBS network sales, and the elevation of Gene Wilkey, WCCO assistant general manager, to Mr. Campbell's vacated post at the CBS owned-and-operated 50 kw outlet.

Mr. Campbell will headquarter in Chicago, succeeding Don Roberts, w. o. resigned as CBS western sales manager. Mr. Roberts' future plans were not announced, nor was there any replacement indicated for Mr. Wilkey at WCCO.

Both changes take effect today (Monday), according to J. L. Van Volkenburg, CBS vice president in charge of network sales, and J. Kelly Smith, CBS vice president in charge of station administration, who made the announcement.

Mr. Campbell joined CBS' Radio Sales department in August 1938 and was western sales manager of CBS Radio Sales until September 1942. He then moved to KMOX St. Louis to become sales manager of the CBS owned-and-operated station. Later he was elevated to assistant general manager, then to general manager in 1945. He was named general manager of WCCO last year.

Mr. Wilkey came to WCCO from WDOD Chattanooga, a CBS affiliate, serving as production director and later program director and assistant general manager. Mr. Wilkey also has been general sales manager of the Twin Cities' CBS outlet since late 1949.

CBS AFFILIATES

Coast Advisory Meet Set

SALES and programming as well as general operation problems will be discussed by some 85 station owners and managers at a 9th District CBS Stations Advisory Board meeting in Beverly Hills (Calif.) Hotel, Feb. 27-28. Meeting was called by Clyde F. Combs, general manager of KROY Sacramento and director of CBS Stations Advisory Board.

Several of the network's New York executives will participate in the sessions. They include: Frank Stanton, president; H. V. Akerberg, vice president in charge of station relations; John J. Karol, general sales manager, and Louis Zusanman, director of advertising.

West Coast network executives attending are:

Howard S. Meighan, vice president and general executive; Arthur Hull Hayes, vice president and general manager of KCBS San Francisco; Harry Ackerman, vice president and director of network and TV programs, Hollywood; Merle S. Jones, general manager of KNX Hollywood and CBS Pacific Network; A. E. Joselyn, director of CBS Hollywood operations; Wayne R. Steffen, KNX-CBS Pacific Network sales manager; George W. Allen, western program director.
A NEW station representative organization, H-R Representatives Inc., opened offices in New York's Chrysler Building last Thursday. Principals of the new outfit, who until a week before its formation had been executives of Headley-Reed Co., are: Frank M. Headley, president and treasurer; Dwight S. Reed, executive vice president; Paul R. Weeks, secretary.

This trio and George R. Marchant, secretary and assistant treasurer, New York Air Brake Co., comprise the board of the new company. Mr. Headley formerly was president of Headley-Reed Co.; Mr. Reed was vice president and manager of the Chicago office, a function he will continue for H-R representatives; Mr. Weeks was a member of the New York sales staff. H-R will open offices in Los Angeles and San Francisco shortly.

This week, announcing the resignations of these three on Feb. 11, the board of Headley-Reed elected Frank W. Miller Sr., president; Sterling B. Beeson, vice president in charge of engineering; William R. Faber, vice president in charge of television; Frank W. Miller Jr., secretary and treasurer. Mr. Miller Sr., chief stockholder in Headley-Reed, also serves as president of Kelly-Smith Co., a newspaper representative. His son, a secretary of Kelly-Smith Co., Messrs. Beeson and Faber for several years have been members of the New York sales staff of Headley-Reed.

Wraith Chicago Head

John Wrath, for the past six years a salesman in the Headley-Reed office in Chicago, was appointed manager of that office. J. W. Swattman remains as head of the Atlanta office. Harold Lindquist is in charge of the Los Angeles office and Harold Barrett in charge of the Detroit office.

Headley-Reed Co. was launched in August 1939 to take over the radio station representative functions of Kelly-Smith Co., which had inaugurated a radio division in October 1936 primarily to represent the radio properties of newspaper representatives of the first firm. Mr. Sr. Miller has been majority stockholder in Headley-Reed since its inception, with Messrs. Headley and Reed as minority stockholders.

Disagreements over operating policies led eventually to the resignations of the top Headley-Reed personnel and to their formation of H-R representatives.

Mr. Headley announced that in addition to Mr. Miller Sr. and Mr. Veeks, another long-term staff member of Headley-Reed would join his new organization. She is Carrie Chernet, for the past 11 years office manager of Headley-Reed Co., and Mr. Veeks.

The company's offices will be in Suite 1015 of the Chrysler Building, New York, telephone Mur- ray Hill 5-7483.

Mr. Headley, coincident with his moving to the new offices of H-R Representatives Thursday, announced the first station to engage his new firm was KMPC Los Angeles, a 50kw outlet owned by G. A. Richards. KMPC was formerly represented by Headley-Reed.

Mr. Headley said other station clients would be announced soon. He said the policy of H-R Representatives would "concentrate on sales, not station relations."

Mr. REED Mr. HEADLEY Mr. WEEKS

NETWORK LICENSING

A SURPRISE BILL to require licensing of networks by the FCC and to arm the Commission with sanctions against the networks was introduced in the House last Wednesday by Rep. Harry R. Sheppard (D-Calif.).

He said the bill would supersede his pending measure (HR-2410) which instead of licensing networks would prohibit their ownership of stations [BROADCASTING, Feb. 14, 1949]. This measure was slated for study in House subcommittee hearings slated March 18.

The new measure, Rep. Sheppard said, is designed to protect network affiliates from "any discrimination or coercive practices," and at the license "permits considerably less" FCC regulation of both independent and affiliated stations.

It would also "protect all sponsors and the agencies from discrimination or intimidation on the part of any network" and permit them "to be free to determine where and when their programs shall be broadcast, in addition to their regular network "broadcast," Rep. Sheppard said.

Network licensing as provided in the bill would be similar to the established station licensing procedures.

Additionally, stations seemingly would be permitted to rebroadcast any network program with the "express permission of the sponsor," and any other program with "the express permission of the originating station."

A network would have to have a license if it consisted of two or more stations located in different states and was operated for the purpose of broadcasting "a substantial number of identical radio programs."

Licenses would be issued for three-year terms, as in the case of radio stations.

Licenses of network owned stations could be revoked or suspended for a period up to 90 days (and any construction permits held by the network could be revoked) for submitting false information to FCC; failure to operate substantially as provided in the license; willful and flagrant violations of the Communications Act, FCC rules, or U.S. treaty; for attempts to coerce any station to violate FCC rules or otherwise operate improperly; for violation of any FCC cease-and-desist order.

Show Cause

Before revoking or suspending a license or issuing a cease-and-desist order, FCC would be required to institute show-cause proceedings against the network concerned. After hearing has been held the Commission could fine the network up to $500 a day for each day the offense was found to have been committed. This would be in lieu of revocation or suspension, but might be in addition to issuance of a cease-desist order.

Failure to pay the "fine" assessed would, unless FCC's order were set aside by the courts, result in revocation of the network license. The money would be paid to the U. S. Treasury.

The legislation would make it unlawful for any network or network representative to attempt "by threat of economic injury" or "by the offer of any inducement" to prevent any sponsor from permitting the network's program to be rebroadcast into his program. This would not apply where the subject of the broadcast is a sports event or other production to which an admission fee is charged.

Matt would empower FCC to investigate network practices with respect to affiliates and sponsors, and to issue appropriate regulations. With respect to the rights of stations, the bill also provides: "If by reason of any action by the sponsor of a network program the network refuses to pay a radio station affiliated with it, at the rate to which the station would otherwise be entitled under the contract or affiliation, for broadcasting the program, and the station does not broadcast the program, no other station within the primary service area (as defined by the Commission) of the affiliated station shall rebroadcast the program without the express permission of the affiliated station."

Pan-X Campaign

APPROXIMATELY $800,000 will be spent by Pan-X Co., Los Angeles, to introduce new Pan-X liquid cooking agent in a six-month national radio and television spot campaign on 50 stations in 20 major markets. The radio campaign starts Feb. 27; TV campaign begins about March 15, Agency is Cowan-Whitmore, Los Angeles.
Pabst Pins

It's Blue Ribbon

On Radio and Television

By BILL THOMPSON

Bart & Co., Beer Brewery, Whiskey Distillery & Vinegar Refinery on Prairieville Street, south side of the summit of the hill above Kilbourntown. Herewith we give notice to our friends that henceforth we will have bottom fermentation beer for sale, also good corn whiskey and vinegar by the barrel. We will endeavor to give our worthy customers prompt and satisfactory service. For barley we will pay 44¢ per bushel.

ON WASHINGTON'S BIRTHDAY, 1845, the above advertisement appeared in the Wisconsin Banner, a Milwaukee weekly.

This single-column insertion by Pabst Brewing Co.'s founding fathers, costing little more than the quotation for a bushel of barley, marked the beginning of 105 years of uninterrupted advertising by the company.

In 1950, Pabst will spend more than $5 million for advertising, with a major portion allocated for radio and television. With this budget it hopes to better its 1949 sales record, which was the largest in its history.

The company's first radio program in 1926 (for the makers of Blue Ribbon Malt, who have since merged with Pabst) featured Richie Craig Jr., "the Blue Ribbon jester," in three 15-minute periods weekly over the CBS network. The show cost $970 a week for talent, including a guest star. Time costs totaled $2,300 weekly.

One of Mr. Craig's first guests was an orchestra leader named Ben Bernie. Pabst officials never forgot the "terrific pace" of his patter. In 1928, the late Mr. Bernie and his orchestra signed for a half-hour show at $1,500 weekly, and his Blue Ribbon Malt tag, "The Most of the Best," became a household phrase. He was paid $1,750 his second year, $2,000 his third, and by 1933 got $4000 weekly after agreeing that he would not broadcast for any other product.

The advanced state of Pabst preparations for the revival of brewing in 1933 is indicated by the fact that the year of repeal, when both Pabst and its biggest rival were producing beer, the competitor's properties were assessed at about the same rate as the cost of those of Pabst. However, a year before beer production commenced Pabst had buildings and machinery rated at 36% more than that of its rival.

Pabst also had prepared for advertising its product at the second Chicago World's Fair, which opened that year. (At the first, the World's Columbian Exposition of 1893, Pabst beer won a first award. The company's exhibit, featuring a gold model of its Milwaukee brewery, was widely acclaimed.) The famous Pabst Pavilion, where Ben Bernie reigned, was on the drawing boards by 1932; shortly after it appeared "A Century Of Progress," on Chicago's lakefront, would be a reality.

By 1935 Pabst had gained its share of the steady increase in total beer consumption during the post-prohibition upswing. A survey of 10 cities by the Ross Federal Research Corp. demonstrated the general effectiveness of its advertising campaigns. Personal interviews of 2,517 people showed that of those who heard and seen beer advertising, 50% were using the product advertised, and 75% of these drank Pabst. A still more positive proof of advertising effectiveness was Pabst's sales leadership in 1936.

Network Radio Shelved

However, network radio was laid aside temporarily so that Pabst could place its advertising budget on a more flexible basis, which would permit gearing expenditures in various markets more directly to sales. This move opened up Pabst's era of spot and special events radio, which was continued through 1948 when the company resumed network advertising.

The first of Pabst's big-time radio appropriations went for the Groucho Marx show in March 1945. The Marx package cost $8,755, but total expenses amounted to between $10,000 and $12,000 a week. In June 1944, Kenny Baker and Robert Armbruster's orchestra, plus outstanding guest stars, came on for the remainder of the year. In 1945, Danny Kaye, Eve Arden and Lionel Stander, together with Harry James' orchestra, took over.

This first radio venture by Mr. Kaye was preceded during the summer by a schedule featuring the

POSTLUDE to Cary Grant's performance in "Mr. Blanding Builds His Dream House," the first production on Screen Directors' Playhouse was this gathering of Mr. Blanding to bring to his firm's board a new advertising idea. The theme: 'Pabst advertising director; and Henry Legler of Warwick & Legler, agency handling account.

BROADCASTING • Telecasting
Fred Pabst

James orchestra. In the summer of 1946, Orson Welles' Mercury Theatre signed on, to be followed in the fall by one of Pabst's most durable performers—Eddie Cantor.

With Mr. Cantor as spearhead, the company made its radio shows and its slogan, "Thirty-three Fine Brews Blended Into One Great Beer," the core of its promotional efforts. Distribution of point-of-purchase materials, such as pocket calendars and cardboard store displays, which began during the sponsorship of Groucho Marx, was accelerated in 175 cities.

It was "like parting with an old friend," company officials say, when Mr. Cantor left Pabst last October. Pabst had to fill the need for a different type program. So Life of Riley was taken on for both AM and TV but not as a simulcast because William Bendix, who stars in the sound version, was tied up by motion picture commitments. Jackie Gleason, Broadway and Hollywood comedian, plays Riley on TV.

Heavy Sports Schedule

For years, Pabst has set a record among brewers for sponsorship of sports events. Prior to 1949, the company carried all of its sports on AM, but during the past year has increased television in a big way. It sponsored the 1949 Chicago Cubs home games, the recent Chicago championship pro football game between the Bears and the Cardinals, and also Chicago's Ninth Annual All-Star Bowling Tournament, a two-day event. It carried the New York football Giants 1949 home games on AM, as well as the Hollywood Stars and Angels baseball games on TV. Beginning March 1, Pabst will sponsor the fights from New York's St. Nicholas Arena over the CBS-TV network (Wednesday nights for nine weeks).

If Nate Perlestein, Pabst's radio and television-minded advertising director, has his way, the company's name will become more and more associated with sports. Although only 41, Mr. Perlestein has lived up to the reputation established by Pabst advertising men of bygone days, notably A. Cressy Morrison, who launched a three-year "Blue Ribbon" campaign in Harper's in 1895, and Joseph R. Kramers, who set up the company's first high-level ($229,830) national advertising budget through J. Walter Thompson in 1903.

At 18, Nate Perlestein had a part-time job handling publicity for Ben Bernie's orchestra while attending Northwestern U.'s downtown commerce school. He later joined the Chicago advertising firm of Mattei, Fosarty & Jordan, which had acquired the Bernie account, and helped produce the "Ole Maestro's" Pabst Pavillon show at the 1933 Chicago Fair. He became radio director of Morris, Windmiller & Eningen Agency in the mid-30s, and remained with the firm as radio and promotion director after it became Morris, Schenker & Roth.

Mr. Perlestein was 31 when he first became an employee of Pabst in 1939. He was named merchandising manager of Pabst Sales Co., Chicago, on Jan. 1, 1945, he was promoted to advertising manager of the sales organization, and in July 1948 was named advertising director of Pabst's overall operations. Including its largest subsidiary, Hoffman Beverage Co.

Radio's Power Laundered

"Radio is an effective medium for Pabst because it reaches the largest number of people while they are at home relaxing," Mr. Perlestein told Broadcasting. "We like to contribute to that relaxation by giving them programs, commercials, rather than to repeatedly slap the listener down with annoying plugs."

"In the broader sense, aside from its value as a commercial medium, radio is the backbone of America. It gives enjoyment in the home, keeping the family together. It is an important part of our American democracy."

With a background in merchandising, Mr. Perlestein is missing no bets in merchandising Pabst radio and TV shows. He spends about 3½ months each year fanning out from Chicago office to trouble-shoot markets.

Always alert to changing conditions in markets and competition, he holds frequent conferences with Warwick & Legler, New York agency which has handled the Pabst account for the past five years.

The history of the Pabst Brewing Co. is too long and involved to recount in detail. Here, however, are the chief milestones:

In 1842, two sons of Jacob Best Sr., great-grandfather of the present Frederick Pabst, set out from their father's brew house and winery in Mettenheim, Germany, for the "land of promise." Jacob Jr. and Charles Best set up a vinegar factory in Milwaukee and prospered so well that in less than two years their father, and his two other sons, Philip and Lorenz, joined them to establish Best & Co. brewery.

In 1848 a youth named Frederick Pabst also came to the United States from Germany and by 1857 was a steamship captain on the Great Lakes. In 1862, he was married to Phillip Best's daughter, Maria, and two years later became an equal partner in Phillip Best & Co., successor to Best & Co. In 1886, the partnership between Phillip Best and Captain Pabst, as the latter was known throughout the company's history, was dissolved. A new agreement was drawn up between the Captain and Emil Schandein, who during this time had married another of Phillip Best's daughters, Lisette.

Capt. Pabst's Acquisitions

This marked the beginning of the most striking years of success in the Pabst history, since the Captain was a most colorful character. He absorbed the Melms Brewery in Milwaukee in 1878; incorporated the Phillip Best Brewing Co. in 1873 with capitalization of $300,000 (himself as president and Mr. Schandein as vice president); started bottling beer in 1875, and was awarded a gold medal for his beer at the Philadelphia Centennial Exposition in 1876, and a similar award at the World's Fair in Paris in 1878; and by 1884 increased capital to $2 million.

Four months after Emil Schandein died in November 1888, the company acquired the name Pabst Brewing Co. for the first time, and capital stock was increased to $4 million. During the same year, the Captain refused to sell out to a British syndicate, the first in a series of refusals. In October 1892, Falk, Jung & Borchert Brewing Co. was absorbed and capital increased to $10 million. During this same year the Pabst Bldg. was erected in Milwaukee, and the Captain became first president of the Wisconsin National Bank.

In November 1899 Pabst, already advertising-minded, gave Diamond Match Co., its largest order to date for advertising on book matches. Captain Pabst died Jan. 1, 1904, and his son, Gustav, was elected president. Three years later the company's beer won the "highest award" at the International Foods Exposition in Antwerp. In 1916, Gustav Pabst was elected president of the United States Brewers Assn. By 1920, prohibition had forced Pabst to dissolve its brewing company, but it set up the Pabst Corp., capitalized at $5 million. A year later Gustav Pabst, who had excelled at beer production, resigned so his younger brother, Fred, could become president and specialize in the development of new products. Sheboygan (Wis.) Beverage Co. and the cheese division of Pabst Holstein Farms (unrelated to the earlier brewing operation) were acquired in 1923, and Puritan Malt

(Continued on page 51)
FOUR high school students who won the annual Voice of Democracy radio script contest, in a competition that drew a million entries, will receive their $500 scholarships and spend this week in the nation's capital as guests of NAB, Radio Mfrs. Assn. and the U. S. Junior Chamber of Commerce.

The winning scripts were by blind transcriptions in a contest involving 28,000 high schools in 48 states, District of Columbia and Puerto Rico. The young students wrote and voiced broadcast scripts on the subject, "I Speak for Democracy."

High spot of the week's events will be the awards luncheon Wednesday at the Hotel Statler, Washington, D.C. Earl J. McGrath, U. S. Commissioner of Education, will preside. Edward W. Barrett, Assistant Secretary of State for Public Affairs, will make the presentations during a 15-minute nationwide broadcast on MBS, 1:15-1:30 p.m.

The Office of Education has endorsed the annual contest. The Voice of Democracy Committee is headed by Robert K. Richards, NAB director of public affairs.

Open Tuesday

Formal events for the four young winners began with a Tuesday luncheon in the Senate restaurant. The winners will visit both houses of Congress and hear their scripts read into the Congressional Record. The Wednesday luncheon will be broadcast by Voice of America to all English-speaking countries. NBC will carry the four winners in a new program with Morgan Beatty.

Thursday morning's sight-seeing tour will end at 12:15 p.m. at the White House where the winners will be received by President Truman. In the afternoon they will visit Mt. Vernon.

Saturday morning the quartet will be taken to Williamsburg. A three-day visit will include a Sunday evening reception by NAB and a dinner with John D. Rockefeller III and Colonial Williamsburg hosts. Mr. Rockefeller is chairman of the board of Colonial Williamsburg.

Luncheon Set

Monday Mr. Rockefeller will be host at a luncheon for Gen. George C. Marshall, president of the American Red Cross. Gen. Marshall and Mr. Rockefeller will be heard in a broadcast on CBS, 5-5:30 p.m., with Voice of America sending the program to all English-speaking nations. The winning students will address the youth of the world during the broadcast, which will originate in the historic House of Burghers of the colonial capital.

Winning students who will receive the acclaim of official Washington and Williamsburg are Richard L. Chapman, Brookings, S. D.; Gloria Chomiak, Wilmington, Del.; Anne Pinkney, Trinidad, Col.; Robert Shanks, Lebanon, Ind.

National judges, who chose winners after local and sectional eliminations, are Mr. Beatty; Mrs. Raymond Clapper; Associate Justice Tom C. Clark, of the U. S. Supreme Court; Wayne Coy, FCC chairman; Douglas Southall Freeman, editor and author; Andrew D. Holt, president, National Education Assn.; J. Edgar Hoover, FBI director; Edward R. Murrow, CBS commentator; James Stewart, actor.

GOVERNOR RECORDING

New Firm to Handle Tape

THE GOVERNOR RECORDING Corp., designed for transcribing and editing of tape recorded material, has been established by Herbert M. Moss, radio and television producer, with Stephen F. Temmer, former supervisor of tape recording for ABC.

The new firm's offices will be at 2 West 46 St., New York. Telephone lines will connect the company's tape recorders to all network studios in New York from which they will service advertising agencies and industrial clients as well as civic organizations.

The new tape recording firm will have a production unit supervised by Mr. Moss.

LIBEL SUIT

KYW Asks Dismissal

ONE PHASE of argument on the libel suit filed against five Philadelphia stations [Broadcasting, Feb. 12] was completed last week in the city's Federal District Court.

KYW Philadelphia (Westinghouse Radio Inc.) placed its plea before the court asking for dismissal of the bill of complaint.

KYW's counsel contended that there is no liability on the stations involved under Section 315 of the Federal Communications Act of 1934 which prohibits federal censorship of a political speech. The other stations (WCAU WPIL WPEN WIBG) are taking similar positions.

The libel suit was filed by Attorney David H. H. Felix, of Philadelphia, charging the stations with airing a political speech of alleged "false and malicious publication by broadcast" last October. He asked $50,000 in damages from each of the stations.

ALL-RADIO FILM

DESPISTE postponement of what had been originally planned as the premiere of "Lightning That Talks" in New York, the All-Radio Presentation Committee last week decided to cling to original showing dates already arranged in other sections of the country.

The first wave of showings will be held from early March through May in cities that had already reserved dates.

FCC Actions

THREE new AM and one new FM stations approved by FCC last week. Initial decision reported to grant another AM outlet. Six stations granted ownership transfers. One AM and eight FM authorizations deleted. Details of these and other FCC actions may be found in FCC Roundup on page 84 and Actions of the FCC beginning on page 64.

NBC Harris-Faye Pact

NBC HAS SIGNED an exclusive contract with Phil Harris and Alice Faye covering their weekly radio program and giving the network first call on their television services when they decide to launch their own video show. Contract was signed last week by the two entertainers and Niles Trammell, chairman of the board of NBC. Under the new pact, the pair will retain their current Sunday-7:30 p.m. slot, Mr. Trammell stated.

Hormel Renews

GEORGE A. HORMEL & CO., Austin, Minn. (canned meat products), through BBDO, Minneapolis, renews Music With the Girls on ABC Sunday, 5:30-6 p.m. (CST), for 52 weeks from March 12.

The precise date of the New York presentation, originally scheduled for March 1, was not set. It will be in late March or early April.

At a meeting in New York last week, the committee announced that changes in the film suggested by the NAB board after seeing it in Phoenix a fortnight ago were already made in the final version. The committee emphasized that the film shown to the NAB directors was not the finished picture.

Twenty cities have arranged to present 35mm showing of the film and 64 cities to show 16mm versions in the first schedule, the committee reported.

A proposal to revive the non-New York presentations in view of the postponement of the New York premiere was voted down by the committee.

It was learned that the New York committee was considering three dates, one in late March and the other two in early April, for the New York presentation. One of them will be chosen this week.

The decision to proceed with non-New York showings as originally planned was taken because of the difficulty in revamping the distribution schedule, it was said.
AD COUNCIL

Holds Sixth White House Meeting

REPRESENTATIVES of radio, advertising and industry convened in Washington last week for the sixth White House meeting of The Advertising Council and its committees.

High praise was heard for radio’s part in supporting Advertising Council backed campaigns. During the Wednesday night board session a 20-second television film spot, on behalf of the Census campaign to open in March, was previewed. This is the Council’s first endeavor in the television field. The film was prepared by Benton & Bowles, volunteer agency on the account.

At a Wednesday night dinner at the Statler Hotel, Vice Admiral Ross T. McIntire, USN (Ret.), chairman of the President’s Committee on National Employ the Physically Handicapped Week, presented an award to the Council for its efforts on the campaign. In his remarks Admiral McIntire praised radio, reportedly the chief medium used.

Wilson Cited

Charles E. Wilson, president of General Electric and chairman of the Council’s Industries Advisory Committee, received a special citation for his leadership as chairman of the sponsor’s committee of the United Church Canvas. The citation was received in Mr. Wilson’s absence by Charles G. Mortimer Jr., vice president in charge of marketing, General Foods Corp., and a member of the Council’s board of directors. More than $8 million worth of time and space reportedly was contributed to the campaign.

Also at the Wednesday dinner session, Secretary John W. Snyder thanked the Council for its support of the Savings Bonds campaign. Radio was widely used in this endeavor. Robert M. Gray, advertising and sales promotion manager, Esso Standard Oil Co., gave a 16-month progress report on the American Economic System campaign, widely backed by radio. Mr. Gray is coordinator on the account and a member of the Council’s board of directors.

Thursday morning the group witnessed a demonstration of CBS color television. Following introductory remarks by Frank Stanton, CBS president, a shortened version of the program seen by over 15,000 Washingtonians in the past few weeks was presented.

Closed Sessions

Gathered for the day and a half meeting were members of the Advertising Council, its board of directors and staff, plus the members of the Industries Advisory Committee and Public Policy Committee. A majority of the time was spent in closed sessions with heads of government departments. As one of his last official acts, David Lilienthal, former chairman of the Atomic Energy Commission, addressed the group Wednesday.

Dr. John R. Steelman, assistant to the President, presided at these sessions. In addition to Mr. Lilienthal and others connected with the AEC, the conference heard from Dean Acheson, Secretary of State; Livingston Merchant, acting Assistant Secretary for the Far East; Paul G. Hoffman, administrator, Economic Cooperation Administration; Charles Sawyer, Secretary of Commerce; Charles Brannan, Secretary of Agriculture, and Frank Pace Jr., director, Bureau of the Budget.

Wednesday afternoon the group met briefly with the President. A cocktail party was held Wednesday evening.

Nunn, Standard Oil Co. of Indiana and coordinator for the Stop Accidents campaign. Mr. Gray is coordinator on the American Economic System campaign.

A FEATURED speaker Wednesday night, Treasury Secretary John W. Snyder (2nd l), participates in a discussion with (l to r) Nile Trammell, chairman of the board, NBC; Charles G. Mortimer Jr., vice president in charge of marketing, General Foods Corp., and Lee R. Jackson, Firestone Tire & Rubber Co. Messrs. Trammell and Mortimer are members of the Council’s board of directors.
Decision Awaits NARBA Pact

THE LONG-AWAITED clear-channel decision is being held up by FCC pending completion of current NARBA negotiations, it was revealed last week with the release of testimony in Congressional hearings on FCC’s 1950-51 budget.

This disclosure came during testimony which also: 

- Reported progress on FCC’s plans to reorganize its staff into four functional bureaus [CLOSED CIRCUIT, Dec. 12, 1949];
- Raised new doubts about the lifting of the television freeze, while putting late summer as the earliest conceivable lifting date (see story page 68);
- Revived the old question of fixing cut-off dates for the filing of competing applications;
- Disavowed FCC ability to determine what goes on the air (see story this page);
- Reflected FCC opposition to an extension of the AM license term beyond the present three years, or of the TV license beyond one year at the present time.

- Indicated belief that sooner or later, as spectrum space becomes more and more scarce, non-broadcast services will start demanding frequencies used by the broadcast services.

One of the testimony was given by FCC Chairman Wayne Coy during the Jan. 30 appearance of the Commission and its top staff executives before a closed session of the House Appropriations Subcommittee on Independent Offices [BROADCASTING, Feb. 6]. The testimony was released by the committee last Saturday, although the appropriations bill itself has not yet been reported out of committee. For FCC, the President’s request was for $6,512,000, approximately 21% above the previous year’s $5,050 figure.

Chairman Coy, while giving no hint of Commission thinking on the clear-channel question, said the decision is currently being held up because of the NARBA negotiations. U. S. and Cuban negotiations are now underway and full NARBA sessions are slated to resume after April 1.

“It seemed to us that it was not advisable to make a decision in advance of [a new NARBA],” he said, “because an agreement might be reached which might act to change the terms of the decision in the clear-channel case, and cause it to have to be reopened immediately and at a new competition made.”

**Decision Seen**

But he appeared confident that “if we can get a North American regional agreement this year, with Mexico, Cuba, and other countries in the Caribbean area, we can expect a decision from the Commission in the clear-channel case.”

This, he said, would clear the way for action on some 111 applications currently pending before the FCC, while the clear-channel decision is reached.

Chairman Coy told the appropriations group, headed by Rep. Albert Gore (D-Tenn.), that FCC has a full-time planning group at work on reorganization studies. The group is slated to complete its study of common carrier functions and make appropriate recommendations to FCC about the end of February, and will then study safety and special service and broadcasting functions.

Four principal line bureaus would be created: Broadcast, Common Carrier, Safety & Special Services, and Field Engineering & Monitoring. Each would have a director and would control its own professional discipline of law, engineering, and accounting. (The field engineering and monitoring division already is set up along functional lines.)

Chairman Coy said “considerable progress” had been made toward reorganization, but that “anticipating the timing and the many professional disciplines involved in the organization is extremely difficult.”

He felt certain there would be “a long transition period during which the organization studies, re-assignments of personnel, changing procedures, and many other things will have a temporary regarding effect upon our work.”

He said FCC is prohibited from hiring a special reorganization consultant to help blueprint the reorganization plan, as the appropriations group had suggested. Rep. Thomas suggested $20,000 or $25,000 might be appropriated for that purpose.

Chairman Coy said he thought the projected reorganization “will greatly increase our effectiveness” and “that we can get more of our work done in the time we have hereofore been able to do.” He felt it “will in part meet the disparity between what we think we should have for the job — and what we have been able to get as an appropriation to carry that on.”

**WHAT THEY SHALL HEAR**

Coy Says ‘Dangerous’ for Seven To Decide

CHAIRMAN Wayne Coy assured a House appropriations subcommittee in testimony released last week (see very above) that he felt it would be “very dangerous” for any seven persons to have authority to say what shall go on the air.

He also thinks it’s possible that giveaways may become virtually extinct by the time FCC’s anti-giveaway rules are court-tested, even though the court test may come within a few weeks.

Rep. Albert Gore (D-Tenn.) was pushing him as to whether FCC had considered “requiring these deep-abdomen, vociferous, hired laughing participants on the supposedly funny-man, warwhacking shows to stay a certain distance from the microphone.”

He said he hadn’t, and then Rep. John Phillips (R-Calif.) that it was his habit in such cases to rely on “one of those little buttons on your set that you can cut the program off.” Rep. Gore felt that “hundreds of those sands” are turning off their sets “because that kind of tripe comes over the air.” To this Chairman Coy replied:

That raises a rather difficult problem, he said, as to how far any communications commission can go. There are seven of us, and we have to determine the kinds of programs that would suit us. I do not believe we are smart enough to pick out what would suit the American people. We are a group of people with widely diverse interests, and I think it is not our province to have the authority to determine what went on the air.

The real control of American radio is in the hands of the public, and Mr. Phillips has given the answer to that. People just will not listen to things they do not want to hear. As to the radio networks and independent stations, if you can imagine their getting as bad as Mr. Phillips indicated they think they are, when he can find nothing but bad, people will just quit turning on the radio and the radio will be dead if they cannot get people to listen to it.

... Two or three years ago the giveaway programs were among the most popular programs on the air. Today, I do not believe there is one program in the country that is not either at the top radio programs, and I would say that nearly half of the giveaway programs have disappeared from the air. They may pop up between now and Christmas, but before we are able to litigate this in the court the legality of our regulations (several giveaways), but I still think we ought to litigate it.

Chairman Coy said FCC foresees “nothing but increasing demand” from the non-broadcast services, with the likelihood that eventually these users will be seeking frequencies allocated to broadcasting.

Committee Chairman Thomas, in a statement, said that the FCC is operating under a workload that is “simply staggering,” and offered the reason is the Commission’s failure to “delegate enough authority to the staff.” He paid tribute to FCC’s preparation for the budget hearing.

He felt FCC’s administrative services “are a little high,” with a total of some 119 persons assigned to such duties. Chairman Coy did not regard that as more than necessary.

Rep. Francis Case (R-S. D.) wanted to know if the Commission’s workload wouldn’t be reduced materially if television stations were licensed for three years instead of one, and AM stations for perhaps six instead of three.

License Period

Chairman Coy replied that television stations were still too few to pose any great problem in this respect. While it is a new service “we want to get a more direct look at how the service is developing,” he said, adding that eventually the license period undoubtedly will be lengthened.

As to licensing AM stations for “five or ten years,” Mr. Coy said:

We could do so if we believed that that should be done. But we do not think it should be done at the present time. We think that the people who hold these frequencies and have allowed them in the public interest ought to be held accountable for their operation, at least as often as every three years.

Chairman Coy did not seem to agree fully with the Committee’s action abolishing the Avco Rule which permitted competitive bidding for stations up for sale. Radio frequencies, he said, “are public property and it would seem that there ought to be some competition for them, and that the holders of them who want to get out of business ought not to be permitted to select their successors as licensees.”

**Hi-V Elects Godfrey**

ARTHUR GODFREY, radio and TV star, and his business manager, C. Leo DeOrsey of Washington, D. C., have been elected to the board of directors of the Hi-V Company, makers of Hi-V orange juice and other food concentrates.

Plans are underway for an intensive television and newspaper advertising campaign. Franklin Bruck, New York, is the advertising agency.

---

THE "Voice of Fisher's" (r)—otherwise unidentified— and Ken Fisher, treasurer of Fisher Flouring Mills Co., looks over a three-column newspaper ad heralding the mystery personality's transcribed program scheduled five mornings weekly on KOMO Seattle.

The new show is in addition to Fisher's 23 weekly newscasts, Fisher's News—Morning, Noon and Night on KOMO.
What's around the corner?

Whatever it is, these cute little kittens seem to be fascinated by it.

What's around the corner for your sales program in Baltimore? One thing is sure: if it's low-cost results from radio you want, W·I·T·H ought to be on your list.

W·I·T·H is the station that delivers more home listeners-per-dollar than any other station in town. And in addition, a survey made under the supervision of the Johns Hopkins University showed that of all radios playing in taverns, 67.3% were tuned to W·I·T·H.

That means that you get big results from small appropriations on W·I·T·H. Call in your Headley-Reed man and get the whole W·I·T·H story today!
ONE RADIO STATION—WLS—is mentioned by 97% of Illinois, Indiana, Michigan and Wisconsin live stock producers who answered the question, “What radio station do you depend upon for live stock market reports? Please list these stations in order of their importance to you?” Of the 1,086 live stock producers completing questionnaires, 97% or 1,063 mentioned WLS. A total of 78 other radio stations received only 1,164 mentions—just a fraction more than received by the one station, WLS.

77% Put WLS First

The Chicago Producers Commission Association, a member of the National Live Stock Producers Association, sent 7,858 questionnaires to its own list of leading live stock men. The questionnaire does not mention any radio station but was planned to give a maximum of useful information to the Producers Association and all market services.

Returns were unusually high at 14.1%. With 97% of the responding live stock producers mentioning WLS as one of the stations they depend on, 28.8% listed only WLS! Another 46.1% made WLS their first choice, while also naming one or more other radio stations. Adding the 28.8% who listed WLS only, to the 46.1% who made WLS their first choice, gives a total of 77.9% of all those responding who put WLS first!

Live Stock Capital

Chicago radio stations were mentioned a total of 1,653 times, while radio stations outside Chicago were mentioned only 564 times, indexing the importance of Chicago as the live stock capital of this broad Midwest region.

A Wide Margin

Three other major Chicago stations received mention in the returned questionnaires, but the margin between WLS and all others was wide, as shown by the chart on this page.

Station “B” was first choice with only 12.4%, against the 77.9% first choices for WLS. Stations “C” and “D” divided the second and third choice with a total of 13.6%—WLS and second choice 11.5%, “C” 2.6% and “D” 0.5%.

Towns Effected, Too

Live stock market reports are not exclusively the business of the live stock producer or farmer. In Midwest cities and towns, particu-

larly those of 10,000 and under, the whole community has a big stake in the farmer’s prosperity. Automatic dealers depend on farm-bought trucks and cars for their profit—grocery and drug stores build their volume on farm family purchases. Daily live stock market reports are a regular listening habit with scores of townsmen.

This close town-farm relationship has established WLS listener loyalty in the entire market—farm and town alike. Backing up services such as market reports is the family-style entertainment found only on the WLS National Barn Dance and the daily programs featuring Barn Dance stars.

All Needed Services

WLS treats homemakers’ information, regional news, weather, grain markets, and educational programs with the same thorough-

heit, and their audience and its needs. Dinner Bell Time—Feature Foods—duPont Award winning School Time—Farm Bulletin Board Prairie Traveler—This Farming Business—Noontime News—all are unduplicated in the WLS service area. All rendered a needed service at the right time.

Quick Response

This explains why the single WLS announcement of Edith Hansen’s birthday brings over 4,000 letters from her WLS Kitchen Club audience. It explains the steady increase in number of quality dealers for several current WLS advertisers.

It explains why a 50,000-watt, clear channel radio station is regarded as a next-door neighbor in homes from the heart of Chicago to the outer edges of a four-state territory.

First in Midwest Entertainment

The friendly acceptance WLS programs receive in the multi-million family homes of the Chicago Midwest is based on service, family entertainment—and on the feeling of personal friendship established by the WLS entertainers who travel half a million miles to appear before three-fourths of a million people in a single year.

This is just one of the plus features working for every WLS advertiser to bring acceptance of his sales message over the neighborly clear channel station noted for—

★ Largest entertainment staff traveling the Chicago Midwest
★ Special shows 3-times daily at three State Fairs
★ A million letters a year for 20 years
★ Live stock market reports that are first choice with 77% of live stock producers
★ 42 Dinner Bell remote broadcasts during 1949
★ Friendly, widely-known announcers
★ Its own classroom program and its own staff pastor
★ Two packed houses every Saturday night in Chicago for the WLS National Barn Dance

Feature of the Week

THERE are flexibility and sales in the business triangle of radio, the retailer and the advertiser. WJR Detroit, which calls itself the city’s Goodwill Station, has plotted the graph with a promotional campaign that pays off in plaudits on its goodwill register.

By cooperation with a grocer’s trade journal, Grocer’s Spotlight, WJR reports it is attaining remarkable success with its promotional program, Grocery Grag-Bag. For the public, the show entertains and provides service. For the retailer, it provides an opportunity to become a city-wide personality as a businessman. And to radio, the program promotes products of advertisers who are its commercial life-blood.

The show has a quiz format and is broadcast each week from a grocer’s store chosen from listeners’ nominations. Selection is based on outstanding jobs done for both the community and the store’s customers. The grocer, or store manager, is cited as “Grocer of the Week.”

One of the heaviest trade and public responses in the city’s history was recorded by WJR following the initial broadcast on Jan. 14. It brought 380 letters and calls commenting on the broadcast. They came from listeners, grocers and wholesalers. Listeners wrote giving their choice for future programs; grocers asked that their stores be chosen as the next site for program origination, and food industry representatives called to ask their products be included in programming.

Particular appeal to the food and

On All Accounts

I F YOU SHOULD chance to see Bob Livingston of WBBM Chicago loitering around a pad- dock, don’t jump to the conclusion he’s a horse player. Bob is a horse fancier.

The sales manager of Columbia’s key midwest station was scarcely out of his teens—only a dozen years ago—when he signed a fable, “Black Satin,” won a grand championship at the Illinois State Fair.

Bob knows his odds too. He got his first job at WBBM by playing percentages. It was New Year’s week of 1946 when he wandered into the office of station representative Howard Wilson in Chicago. The manager, Sil Aston (now general manager of WATT Chicago), tossed him an issue of Broad- casting, while he was warming his toes, and Bob opened it to a column featuring the biography of WBBM Sales Manager Ernie Shomo.

Bob noted that Mr. Shomo, who has since been named general manager at KMOX St. Louis, acquired his first sales job at WBBM after only one call. The decisiveness of the station’s action prompted Bob to make his next move in that direction.

Seven interviews and two weeks later, Bob went to work for WBBM. Within a year he sold such programs as Elgin American’s Wayne King Show, which signalled that company’s entry into radio; Can- field Ginger Ale’s Party Time, a Saturday nighter; Cory Corp. three-quarter-hours weekly; and the first participations ever purchased by Jay’s Potato Chips. By Feb- ruary 1947 he was moved to New York as WBBM’s eastern repre- sentative, remaining there until he succeeded Mr. Shomo as WBBM sales manager last October.

Christened Robert James Livingston, Bob was born in Washington, D. C., July 4, 1917. His father, George, was chief of the U. S. Bureau of Markets at the time, but soon moved the family to Minneapolis where at the request of milling interests, he founded Livingston’s Economic Service. Bob attended grade school in the Twin Cities and went two years to Shattuck Military Acad- emy, Faribault, Minn. In his junior year, the family moved to a 420-acre farm near Champaign, I1., and his father began commuting between Champaign and Chi- cago, where he headquartered as

BUT . . .

YOU WON'T NET MUCH
IN WESTERN MICHIGAN
WITHOUT WKZO-WJE!

There are three sound reasons why WKZO and WJEF consistently come up with the best radio advertising results in Western Michigan:

1. **They have more urban listeners.**
   These two CBS outlets get the highest Hoopers in their home cities. WKZO gets a whopping big 59.5% Share of Audience in Kalamazoo, and WJEF heads the list in Grand Rapids with 26.5% (Total Rated Periods, Nov.-Dec. '49).

2. **They have more rural listeners.**
   BMB figures prove that outside urban limits, WKZO and WJEF get the largest "circulation" throughout the town, village and farm areas of Western Michigan.

3. **They cost less per listener.**
   In delivering about 54.5% more listeners than the next-best two-station choice in the area, this strong combination costs about 20% less!

For all the proof of WKZO-WJEF’s outstanding superiority in Western Michigan, write to us or ask Avery-Knode, Inc!

*In 1926 Laurie Mitchell got one this long, weighing 976 pounds, in Bay of Islands, New Zealand.

AVERY-KNODEL, INC., EXCLUSIVE NATIONAL REPRESENTATIVES
Executive vice president of the Millers' National Federation.

Before and after classes at Champagne High School, Bob learned farming—especially the breeding of purebred Morgan horses. In addition to taking state fair prizes with "Black Satin," he made a hobby of showing other Morgans at fairs.

Bob studied agriculture at the U. of Illinois and Ohio State U., choosing the latter because it was his father's alma mater. He left before graduating, however, to become associated with the Vidal Research Corp., Camden, N. J. Experiments in the molding and laminating of plastics prepared Bob for a war-time venture as one of the founders of Fulton Molded Products Co., Hartford City, Ind. The firm handled subcontract work on Curtiss C-76 airplanes during the early years of the war, and did experimental work for Wright Field and the Naval aircraft factory.

Bob entered the service in 1943, and while stationed with the Army Air Forces at Gulfport Field, Miss., first scouted the possibility of a career in radio. Released from service due to a physical disability in January 1944, he joined the local sales staff of WDZ Tuxedo Ill. He was named sales manager eight months later, and the following year made the jump to WBAP.

Bob and Patricia Callaghan of Chicago, a former member of the WBBM staff, were married July 15, 1947. They live on Chicago's Lake Shore Drive with their daughter, Susan, aged 11 months.

While in New York, Bob lived on the Sound in Greenwich, Conn. and spent most of his leisure time on their boat, "Hust," fishing for weakfish or just loafing. Back in the midwest, Bob has resumed his first sports-love, fresh water fishing.

WBAP TOUR
So. American Cattle Study

UNDER sponsorship of WBAP Fort Worth, 21 Texas cattlemen and their wives left on a 21-day South American tour Feb. 11 to see how livestock is raised in the lower half of the hemisphere.

Traveling by Pan American Airways, the party is headed by Layne Beaty, WBAP farm editor. The Texans are scheduled to visit Lima, Santiago, Buenos Aires, Montevideo, Sao Paulo, Ureba (Brazil), Rio de Janeiro, and San Juan, Puerto Rico, inspecting ranches nearby.

In reporting the trip for WBAP, Mr. Beaty is using a tape recorder on route for interviews and special broadcasts. These, as well as movies he is making for WBAP-TV, are being flown back as the trip progresses.

RELIEF SERIES
Stress Protestant Work

The transcribed series Operations, Good Samarians, is being made available to stations by Church World Service to tell the story of united Protestant relief efforts for the "One Great Hour of Sharing" program to be observed in U. S. churches on March 12.

One of the series, comprising six 15-minute transcriptions, is an interview between Albert Crews of the Protestant Radio Commission and a displaced person brought to this country by Church World Service, overseas relief agency for major Protestant denominations. Mr. Crews formerly was with NBC and served as General McArthur's chief of radio before joining the Protestant Radio Commission.

followed by idea and information forums with panels of Canadian broadcasters to answer questions gathered from the entire broadcasting industry.

Also on the program are bus tours Tuesday and Wednesday to WBEN-TV Buffalo.

FREE & PETERS, INC., Exclusive National Representatives
HOOPER

TO HELP advertisers, agencies and broadcasters deal with the problem of evaluating the postwar multiplication of audience measurement services for radio and television and the even more difficult problem of financing this multiplicity of services, C. E. Hooper, president, C. E. Hooper Inc., has asked the AAAA, ANA and NAB to establish standards for both procedures and prices of such research.

In an open letter to Paul B. West, ANA president; Frederic R. Gamble, AAAA president, and Justin Miller, NAB president, released for publication today (Feb. 20), Mr. Hooper proposes that these three trade associations examine the research procedures of all audience measurement services “with an eye to issuing a validation, or the opposite, of the basic soundness of the procedures.”

He further suggests that the associations also examine “the pattern of subscription” cost of each measurement firm and finally to examine the “justification” for any experimental projects these organizations may undertake.

Following Mr. Hooper’s address last month before the New York Radio & Television Research Council (Broadcasting, Jan. 16), his letter contains a vigorous attack upon the “unadjusted diary and aided recall methods” being used in radio and TV audience studies, particularly at the local level. Such methods not only develop “substantially inflated” audience figures, but also endanger the present buyer-seller relationship and “lay the whole field of broadcasting wide open to attack from competing media,” Mr. Hooper declares.

Letter follows in full text:

This is an open letter addressed to the president of the ANA, the president of the NAB and the president of the AAA. I choose to make it an “open” letter because the constitutions of the three associations may not provide for any official action being taken on this subject. The mere fact of throwing the subject open may create the opportunity for constructive “unofficial” action.

In years past, the membership of your association was burdened financially, and dealings were confused, by duplication in radio audience measurements. These problems were resolved by the wind-up of the Cooperative Analysis of Broadcasting. Today the problem is multiplication of radio

Along Came the 'California Caravan'

By DAVE GLICKMAN

MANY people were dubious 4½ years ago when diminutivel Lou Holzer, vice president in charge of radio and television for Lockwood-Shackelford Co. Inc., Los Angeles agency, set out to conquer what then was considered radio's biggest bugaboo—medical sponsorship. He was determined to have the California Medical Assn., San Francisco, as an agency client.

"Impossible!" shouted the skeptics. The chorus that echoed that sentiment was equally as loud. After all, wasn't there an unwritten law among the mediad that made it unethical for them to promote their personal services through the medium of any kind of advertising? Hadn't most air-time advertising experts long considered it a fruitless effort to invade the field of scalpels and stethoscopes with so much as salable spots?

But today the story is quite different. Even the skeptics are smiling with the hustling Lou Holzer. The double-th Thomas chorus is taking some of the bow as if the idea was theirs. It is all because Mr. Holzer's personally created and produced weekly 30-minute California Caravan on 14 California Don Lee-Mutual stations, Sunday, 3:30 p.m. (PST) now in its fourth year under sponsorship of California Medical Assn., goes merrily along piling up memberships for the organization's California Physicians Service. In fact membership has more than tripled since the program started back in the summer of 1946.

The weekly California Caravan—a documentary series, dramatizing little known, entertaining and interesting facts about the history of California—has done and continues to do a job.

This has been attested to by present and past officers of California Medical Assn. Further proof is the fact that the weekly California Caravan recently was renewed for another 52 weeks on the 14 California Don Lee-Mutual stations.

"Radio is a vital medium in the year-in, year-out task of maintaining effective public relations with the people of California," said Dr. R. Stanley Kneeshaw of San Jose, president of CMA, in lauding acceptance being created by California Caravan.

"The tremendous job of informing and educating the public on benefits of voluntary health coverage is being ably done through intelligent use of our regional network programming," he continued. "The doctors of California will continue to work for the improvement of medical care and radio will assist in carrying the story to the 10 million people of this state."

Membership Drive

Dr. E. Vincent Askey, eminent Los Angeles physician and past president of CMA, declared: "I am convinced that our state-wide program over Don Lee Broadcasting System has contributed greatly in building the present membership in California Physicians Service to over 900,000."

"But things were different in the early days before California Medical Assn. started advertising. It was early 1946. World War II, as everybody knows, had caused changes everywhere. Even the doctors found themselves confronted with a new era. Such things as food shortages, meat problems and the like, had created a new and serious threat to national health. Then too there was talk of socialized medicine.

Although the CMA's voluntary prepaid health care program—California Physicians Service—had been in force since 1939, not enough people knew about it.

Here is where Mr. Holzer got his assignment to follow through on the medias. He knew about this voluntary health service. He talked to officers of CMA and to many of its 10,000 member doctors. They indicated an interest in promoting California Physicians Service through radio. But how was the question?

Lou Holzer proceeded to search for the answer as to what kind of a radio program could best reach the people with dignified messages about benefits of prepaid voluntary medical insurance offered through California Physicians Service.

"The program we needed had to have 'class' and at the same time appeal to listeners in all walks of life," Mr. Holzer said. "Cost of such a campaign was also an important factor. The budget was limited.

"We knew that a giveaway program wasn't dignified enough for such a profession. Musical? It was considered, but that sort of show reaches a particular type of listener only. So we tossed that one aside too.

"An educational approach seemed to be our best bet; educa-tional, yet entertaining. It had to be 'different'; something 'new.' This gave us our start. At least we had an idea to work from."

It soon impressed Mr. Holzer that perhaps a series of stories about California, done in "caravan" style might be the answer. He figured that there must be a stock of unlimited, colorful and true stories about California; stories which would be thoroughly entertaining and enjoyable to listeners if dramatized properly.

A meticulous search of libraries, Chambers of Commerce, maps, news data, and other sources surprised even Mr. Holzer. He found a wealth of material that could be dramatized; material which could be packed with humor, adventure, romance and mystery. Most important however, was that the material was adaptable in accordance with the dignified standards of the proposed medical sponsorship. It had 'sales' possibilities too.

Wheels Start Turning

Writers were set to work. Auditions were held. Rehearsals followed.

It was on June 15, 1946, that Mr. Holzer directed his first California Caravan program on 17 California Don Lee-Mutual stations for California Medical Assn. It was a 15-minute documentary, taking over the Saturday, 9:15 p.m. spot on the regional network.

Doctors who witnessed the broadcast were unanimous in their approval of this first production. Others who "listened in" congratulated.

Editorial

NAB: Present & Future

NO MATTER how you look at it, the NAB is in the throes of one of its periodic upheavals. Conflicting forces within radio have precipitated unrest in the trade association at more or less frequent intervals. This time there has been the added ingredient of evident dissatisfaction with management.

The NAB board, at its meeting in Arizona earlier this month, took measures to stem the tide of declining income resulting from resignations and at the same time to provide for a more efficient and more spirited operation in Washington. It handed to President Justin Miller extremely broad powers to hire and fire. It authorized appointment of a general manager who would be anchored to Washington, leaving Judge Miller free to handle the more momentous problems of the professional scene and in the field. And it authorized the appointment, under the general manager, of a field man whose job it is to solicit new membership and handle "station relations" with present members.

At first blush, the appointment of a general manager would appear to be a return to the structure which obtained prior to last July, when the board abolished the post of executive vice president. However, it will function in Washington at all times. He will do no barnstorming. He will watch the NAB's dollars, the supply of which has been declining to the point of an unfavorable balance sheet between income and overhead.

Certainly the new procedure is worth trying. It would be tragic if the NAB were undermined financially to the point where it could not perform its job of fighting radio's battles on a constant, consistent basis. Judge Miller asked for and received practically unlimited authority. He wants and has been given operations assistance. He must now stand or fall on his ability to direct both the policy and business aspects of this $400,000-a-year organization.

The task becomes more difficult because the 27-man board next April loses at least eight of its most influential and experienced members. These are men like Mr. McCollough, Campbell Arnow, Hugh Terry, Dick Shaffo, Howard Lane, Hank Slavick, Mike Hanna, and Everett Dillard. With one exception they could not succeed themselves because of the change in association rules. They have been among the most conscientious members of the board, and they well deserved the tribute paid them by their fellow members at the Arizona meeting.

An outside audit is to be made to see precisely where the NAB stands. The preliminary check indicated the association has liquid assets that soon could be eaten up at the present rate of overhead and membership revenue.

In the interim, we cannot advocate too strongly that active and associate members alike return to the field and their membership. The NAB is bigger than any one man or any one segment of radio and TV. It is the one unified group that stands between the dignity of the most powerful of all media and those elements, both government and private, that would destroy radio's freedom and independence.

P. I. Plunder

ONE OF THE most amazing phenomena of the postwar era is the consistent demand for radio sets and combinations, despite the TV sellout wherein supply does not meet demand. The pace is at about 10 million radios per year—which compares favorably with the prewar demand when there was practically no television circulation.

This continued demand for radios is being put to effective use in the drive for more business, largely through the inspired efforts of the Broadcast Advertising Bureau. Broadcasters have overcome their jitters.

Yet radio continues to be sold short. The worst blights are from within the medium itself. P. I. business and cut-throat selling without regard to the rate-card are doing more to undermine confidence in radio than the threats of the competitive media.

The boldest move yet toward rooting out of these iniquitous practices is being made by KRNT in Des Moines. This Cowles station is campaigning against such business in trade paper space. It states that it does not accept P. I.'s and that it refuses to enter into competition with any manufacturer or advertiser, or any dealers or agents representing them. It proclaims no rate cuts, or rate variations.

"We are not crusading for other stations to continue these practices," stated Robert Dillon, KRNT manager. "But we do believe that the per-inquiry-rate plan is bad for the radio industry and if allowed to proceed will have a serious effect on the medium's otherwise bright future."

Other-than-rate-card business exists only because there are stations which will accept it. Radio is enough of a bargain-buy today. It doesn't have to demean itself by resorting to unethical practices.

Dollarvision

COMR. E. M. WEBSTER, of the FCC, is not bash by habit or inclination. Thus it is doubly important not to slip lightly over his sharp dissent in the Phonivision case [TELECASTING, Feb. 12].

His colleagues felt that Zenith, without prior hearings, should be allowed to go ahead with a 90-day, $400,000-plus test of Phonivision, the Zenith system of subscription, or dollar-in-the-slot, television. Mr. Webster objected stoutly.

"It would be hard to question Comr. Webster's assertion that subscription television would be a "momentous change" in the American concept of broadcasting. The Commissioner says: . . . Since the beginning of broadcasting in the U.S. in the early 1920's, broadcast reception has been a free service to the listener. The 80 million radio and television set owners in the U.S. have never been required to show an official or any other form of licensing authority, for the privilege of listening to or viewing programs . . . . This American system of broadcasting has been held up to the entire world as the envy and pride of America in broadcasting. It has been widely proclaimed as the "American way."

"To our minds there is grave doubt that such a revolutionary change may be classified as "broadcasting," any more than Subscription Radio. Certainly it does not meet the traditional definition of the word. Comr. Webster thinks it more akin to the Fixed Services."

Subscription radio of any sort represents a revolutionary departure from the concept of free broadcast service. And it seems quite reasonable, as Comr. Webster noted, that Congress might want to reconsider the non-common carrier status of radio if it includes Phonivision.

Our Respects To—

JAMES MARSHALL GAINES

PROBABLY the biggest man ever to come out of Saxe, Va. (pop. 125, including men, women and children), is James Marshall Gaines.

Undeniably Mr. Gaines is a man of imposing stature, however you look at him. Not only is he one of the three top operations chiefs of NBC, he also stands six feet, two inches high and weighs—well, enough to discourage anyone from taking him lightly.

As director of owned-and-operated stations—one of the three operational units into which NBC was recently split—Mr. Gaines has in his command 16 stations, four of them television, six AM and the other six FM. The fact that a big share of the network's profits comes from the owned-and-operated AM stations is particularly significant, as it detracts from Mr. Gaines' weight around NBC.

James Gaines' present circumstances in the urbane elegance of NBC's New York headquarters are as far removed from his origin as any. Radio City from a southern tobacco patch. Indeed that is the exact course he has followed.

He was born May 8, 1911, on a tobacco plantation in the village of Saxe, Charlotte County, Va. The plantation was owned by his father's family, and young James arrived while his mother and father were in temporary residence there during the father's recuperation from an illness.

When Mr. Gaines was a year old, his father was able to return to his business—a school of business—in Poughkeepsie, N. Y. A few years later the family moved to East Orange, N. J., where James Gaines grew up and attended school.

After graduating from high school he took a two-year course at a branch of his father's business school in New York, where he studied accounting, bookkeeping and other commercial arts which were to become so highly admired many years later in the reorganization plan of NBC.

Mr. Gaines' choice of business school subjects was extremely fortunate. It is coming in handy in the present adoption by all O & O stations of a cost accounting system which, to anyone of lesser educational resources than Mr. Gaines, is a mystery and an ominous one at that.

Although upon completing his term at school he was formidably equipped with knowledge of the intricacies of business, Mr. Gaines was without specific ambitions. For a few years he changed from one job to another, including one post as floorwalker at Bamberger's store.

(Continued on page 42)
HOW can you find the most productive station?

THAT'S EASY! Look for the major station that carries the most locally sponsored programs—you'll find the station that's getting results.

No one knows better than the local advertiser the importance of getting the most for his advertising dollar. He can't afford to advertise on a major station unless he does get results.

That's the reason you'll find more local advertisers consistently sponsoring more programs on WGN than any other Chicago major station.

It isn't enough that people listen—listeners have to ACT! WGN listeners do just that. That's why more local and spot advertisers make WGN their top choice in Chicago.

When you buy in Chicago...buy the best...WGN

A Clear Channel Station... Serving the Middle West

DON RALPH, formerly of KGDM Stockton, Calif., and for past two years news editor and special events director of KCVR, Los Angeles, was appointed general manager of KCVR.

DR. AUGUSTIN FRIGON, general manager of Canadian Broadcasting Corp., is on sick leave, recovering from serious operation. DONALD MANSON, assistant general manager, is acting general manager.

KARL KOERPER, vice president and managing director of KMBC and KFBR Kansas City, Mo., named member of board of trustees of Wm. Allen White Foundation of U. of Kansas.

DONN TATUM, vice president and general counsel, Don Lee Broadcasting System, named chairman of radio committee for Red Cross Fund Drive.

BENEDICT GIBBEL, Jr., president and general manager of WIP Philadelphia, appointed head of radio divisions on publicity committee for annual Cancer Drive of Philadelphia Chapter, American Cancer Society.

Respects

(Continued from page 40)

in Newark, N. J., another in the offices of Hearne's Department Store in New York, and another as assistant to the general manager of the Automobile Merchants Assn. of New York.

It was from the automobile association that he moved into radio. As assistant to the general manager of the association, Mr. Gaines was assisting in the staging of the annual New York Automobile Show. In those days WINS New York used to schedule broadcasts direct from the show, featuring interviews with motor executives.

In the 1937 show, one such interview was scheduled with the late Walter P. Chrysler Sr., and at the last moment no professional writer was available to create Mr. Chrysler's script. Mr. Gaines, whose literary experience until then had not been more refined than the writing of business letters, volunteered to put words in the motor manufacturer's mouth.

Although theretofore untutored in writing skills, Mr. Gaines' script for Mr. Chrysler made a more lasting impression than do many radio scripts turned out by highly-paid writers. Nearly a year later Mr. Chrysler, recalling the performance of Mr. Gaines, recommended the youth for a job with Major Bowes, whom Mr. Chrysler was then sponsoring.

The Major hired Mr. Gaines as an advance man to conduct field operations in "Honor Cities" featured on the Major's Amateur Hour. It was the habit of the program to select a different city each week, a tactic that succeeded in arousing great promotional and publicity clamor for the show.

Constant Travelers

Mr. Gaines, as advance man, roved the nation ceaselessly for more than four years, until he glumly began to believe that all life was bounded on the one side by a railroad station and on the other by a hotel room.

Mr. Gaines was in a different city in a different state every week. In the course of his more than four years service with Major Bowes, Mr. Gaines visited more than 200 cities.

At the beginning of 1941, whatever itch had once been in Mr. Gaines' foot had long since turned to numbness. He was worse off than the man without a country; he was a man without even a town.

It was at this moment that James Gaines, during a pause between trains, spied in the Major's New York office a handsome girl, Eugenia Keller, who was in charge of auditions for the amateur show. As soon as his itinerary permitted, he married her.

Six months after the marriage, he quit Major Bowes and joined the station relations department of NBC. Last week, Mr. Gaines celebrated his eighth anniversary in the more sedentary service of NBC by preparing for a trip to inspect the network's properties on the West Coast.

On Jan. 1, 1944, Mr. Gaines was transferred to the advertising and promotion department of the network as assistant director. In October 1945 he became assistant to William S. Hedges, vice president in charge of planning and development.

One of the things that he and Mr. Hedges planned was the divestiture of programming of the network's New York outlet, WNEW (now WNBC), from the network's program department. Having helped plan the divestiture, Mr. Gaines was put in charge of its execution. In February of 1948, he became director of owned-and-operated stations and late that year was named, in addition to that duty, assistant to Harry C. Kopf, then administrative vice president in charge of sales.

Last month, he was appointed to head the owned-and-operated stations with, with the radio network and television network, comprise the three operating divisions of the reorganized NBC.

Mr. and Mrs. Gaines have three children, Richard, 7; Susan, 5, and Betsy, 2. They live in Port Washington, Long Island.

Mr. Gaines believes there is no spare time activities save reading and inefctual golf. Travel is not one of his hobbies. Last time he took a vacation, he stayed at home.

P&G PRODUCTIONS

Smith and Craig Appointed

TWO appointments in its television and radio divisions were announced last Wednesday (Feb. 15) by Procter & Gamble Productions Inc., Hollywood. The company stated that these changes were made because of the increasing interrelation between nighttime radio and television.

Gill Smith was named manager of television and nighttime radio production. He also will have responsibility for the company's programming in these fields. William F. Craig was appointed associate manager of TV and night radio production. Gilbert A. Ralston will continue as executive producer of television.

The company pointed out that management of its nighttime programming activities remains separate and distinct from the daytime operation which is headed by William M. Ramsey. His assistants will continue to be A. H. Morrison and R. E. Short.

CBS Players' entry, The Key, was named "most professional" among all participating networks in first monthly competition of Associated Net-Workshops. Gus Raye, CBS Hollywood soundman, was producer-director of radio play.

NCCJ AWARDS

NBC, CBS, ABC To Be Cited

NBC is slated to receive two of the four 1949 network awards announced last week by The National Council of Christians and Jews. CBS and ABC also will be honored, along with individual stations, in presentations to be made this week.

NBC received the top NCCJ network award for its "Eternal Light" series. In the single program category NBC also was cited for its Punishment Without Crime program, aired as part of the network's weekday series. Also honored for single network programs were CBS for its Neither Free Nor Equal and ABC for Someone You Know. Individual station awards will go to WMAQ Chicago for its Destination Freedom and WBAL-AM-TV Baltimore for spot announcements stressing inter-group cooperation.

NCCJ extended a special award to CBS and The Goldbergs for "sympathetic radio-television treatment of a Jewish family." Elaine Gottlieb, a young writer, was singled out for a "personality" award for her Pepper Young's Family.

The eight awards, to be presented at the Brotherhood Week, are in recognition of outstanding contributions the past year in promoting "understanding and respect" among different groups in American life, according to Dr. Everett R. Clinchy, NCCJ president, who made the announcement. Certificates of honor will be sent to the networks and stations and presented to the recipients on the programs.

MICHIGAN MEET

Conference Set for March 10

DESIGNED to promote cooperation among radio men, educators and community leaders, the fifth annual Michigan Radio Conference will be held Friday, March 10, in Michigan State College Union Bldg., East Lansing, according to Prof. Joe A. Callaway, conference director.

The "Discussion 66" technique, directed by its originator, J. Donald Phillips, has been selected to provide the method for exchange of ideas at the all-day session. Those attending will be divided into groups of six to determine the major problems they want settled. Then a spokesman for each group will announce the questions. All this will precede the programs at which the speakers, having heard the problems, will attempt to incorporate the answers into their talks.

Speakers will include Dr. Lee Thompson, Michigan's state superintendent of public instruction; Prof. Garnet R. Garrison, Michigan U. Radio Dept., and Robert J. Coleman, director of WKAR East Lansing. The Associated Press of Broadcasters also has been invited to participate.
In addition to the salaries of the directors of each department, the company has been granted a bonus of $200,000 for the year ended June 30, 1949, in recognition of its financial performance and continued growth. The bonus is payable in equal installments during the year.

The company's cash position at the end of the year was $3,000,000, with a working capital of $2,000,000. The long-term debt was $1,000,000, down from $1,500,000 the previous year. The company's stockholders' equity increased to $5,000,000 from $4,500,000.

The company's earnings per share for the year were $1.25, an increase of 20% over the previous year's earnings of $1.04 per share.

The board of directors declared a dividend of 10 cents per share on the company's common stock, payable May 1, 1950, to stockholders of record on April 15, 1950.

The company's management, led by President William B. Williams, expressed its gratitude to the company's employees and the community for their continued support and contributions to the company's success.

The company's future plans include the expansion of its facilities and the exploration of new markets to further its growth and profitability.
PRESSING need for a vast radio propaganda network, “capable of laying a signal into every radio receiver in the world,” was pointed out by Sen. William Benton (D-Conn.) in an address before the Connecticut Educational Assn. at Waterbury, Conn.

Noting that the impact of U. S. radio abroad is only a fraction of its potential strength, Sen. Benton singled out U. S. relations with China, which has received billions of dollars in arms. “Would we not have been wise to have invested a few tens of millions in radio broadcasting and in motion pictures?”, he inquired.

Gen. George Marshall, in an off-the-record address after his return from China in 1946, called for use of radio and motion pictures on a scale “hitherto undreamed of,” the Senator pointed out.

Sen. Benton, onetime assistant secretary of state for public affairs and former ambassador of increased Voice of America operations, observed that the U. S. Information Advisory Commission had criticized the State Department, and the Budget Bureau for slashing overseas information funds. He pointed out that the U. S. spends less today on this program than Procter & Gamble spends in advertising its soaps.

MAJOR LEAGUE BASEBALL
Rings the Bell for LIBERTY!

Millions of people listen to major league baseball over Liberty Broadcasting System...and major league baseball has made Liberty the largest baseball network in the history of radio!

L E E F O D D

ED GARDNER
Again Denies Tax Exapison

ED GARDNER, “Archie” of NBC’s Duffey’s Tavern, told the Associated Press Feb. 9 that his contract with the Puerto Rican government calls for launching of a motion picture industry program to San Juan to evade income tax payments. With respect to local taxes, Mr. Gardner added that he is in the same tax bracket as the other industries in San Juan where a 12-year tax “holiday” is in effect [Broadcasting, Oct. 10, 1949].

Earlier, Thomas J. Lynch, U. S. counsel, told the House Ways & Means Committee, now studying ways to plug tax loopholes, that Mr. Gardner agreed to produce his radio and forthcoming television shows under a tax-free agreement.

Mr. Gardner filed a request in Puerto Rico, where his program is tape-recorded for sponsorship by Blatz Brewing Co. on NBC.

T H O M A S L. DAVIS appointed commercial manager of WAAF Chil- cago, succeeding BRADLEY R. EDWARDS, who is placed in charge of sales for WAAF-AM-FM. He will be assisted by HAROLD R. WETTER- STEED and BEN V. KIRK. WAAF-AM-FM will begin operation soon with DEH- RESTER, program director for WAAAF, supervising programming for both stations.

PERRY WALDERS, commercial man-ager at WQWQ-AM-FM Washington, resigns effective March 1 to take sales executive post with WNTW Washington, VINCENT F. CALLA- HAN, WQWQ promotion director and formerly with WRC and WMAL Washington, WBB Boston and WWJ New Orleans, named WQWQ director of sales.

CONTINENTAL RADIO SALES, Philadelphia, appointed national represen- tative for KFKE Junction City, Kan.

KENNETH J. ADAMS leaves KTO San Bernardino, Calif., to Join KLAS Las Vegas, KLVN Las Vegas, and WNDM Las Vegas, N. J. They are assigned to cover retail business in greater New York area.

SONJA CWGWER, formerly with Young & Rubicam, San Francisco, joins sales department of KSFY and KPIX (TV), same city.

JACK MEDER, new to radio, joins sales staff of WIS-AM-FM Columbus, S. C.

LEE FODDREN, national sales man-ager for WINS, is now named head of Speaker’s Bureau of Advertising Club of Denver.

RICHARD HUHDUN
Cites Sales From Radio, TV

NEW RECORDS are being set for Richard Hudnutt Home Permanent as a result of its advertising and sales drive.

“The first results of our 1950 campaign are beginning to come in,” said Charles A. Pennock, president of the Joseph Hudnut Co. “Our first results prove that today’s market responds to aggressive promotion and advertising.”

The firm is currently using Walter Winchell on ABC, in radio, and TV participation shows, Cavalcade of Stars and Cavalcade of Bands on the DuMont Network in 20 major cities, plus hundreds of other radio and TV shows, trade aids, trade paper advertising and a publicity and promotional pro- gram. Kenyon & Eckhardt, New York, is advertising agency, handling the Winchell show.

CANADA RATINGS
U. S. Programs Top List

TEN programs originating in the United States topped in popularity the 39 network programs aired in Canada in January, according to Elliott-Haynes Ltd., Toronto. Programs and their ratings were:

Charlie McCarthy 35, Radio Theatre 34.6, Fibber McGee & Molly 33.4, Amos ‘n’ Andy 32.8, Our Miss Peggy 27.8, Ten to One 27.1, The Voice of the City 27.3, King of the Radio Set 27.1, Mystery Theater Questions 23, My Friend Irma 22.7, Aldrich Family 21.1, and Mystery Theatre 20.6.

The following daytime network shows in January were:

EDITOR, Broadcasting:

I've intended writing you before, thanking you for the fine story you gave me on The Better Way in Broadcasting a month ago. But I've been on the move—learning every day what Intense readership your magazine has. Over half the station owners and managers I talk to tell me: "Yes, I read about your series in Broadcasting." This is truly remarkable, considering that my story was but one in your vast coverage. . . .

Ads Get Results

EDITOR, Broadcasting:

I just learned of another way to profitably use Broadcasting. I read the ads . . . . A new account, a healthy one from a local hatchery, is now on our books because of three large ads in past issues of Broadcasting. These ads (page 109, 4/11/49, pages 42 and 43, 5/23/49, and page 5, 6/27/49), showing how individual stations had sold baby chicks, with the obvious implication that they can sell many other products and services, proved to be the clincher in bringing a new advertiser to KJYV.

Ralph Doerr
KJYV Huron, S. D.

Laud 'Yearbook'

EDITOR, Broadcasting:

I have received a copy of the 1950 Yearbook, and it looks like a humdinger. Congratulations to you and your staff . . . .

Describes Sports Show

EDITOR,Broadcasting:

...I read Broadcasting from cover to cover. After getting a few notes on radio shows, I've decided to divulge my...six day week sport show....

The idea has been in use for...four years. Sponsored by...CBS. D. Kalor's Brewery. Monday it's built around an open letter or Sportstorial. Tuesday Meet Mr. I usually an outstanding sport celebrity....Wednesday Sports Quiz, with a run down of 'local' sports celebrityals. Allowing the audience to identify him by telephone. Thursday the show is built around a favorite story...then Friday, a dramatic skit...five minutes in length. Each evening, we turn the pages of the sports book. Until at the end, the book is closed "Until Tomorrow Night." Ed Romance Sports Director WPPA Pottsville, Pa.

Cites Summary

EDITOR, Broadcasting:

Broadcasting's Weekly Television Summary is one of the first items to which we turn each week. Thanks for striving to keep its figures as up-to-date as possible.

It would be not only helpful but interesting if from time to time a tabular report could be presented showing sport totals by area—Far West, South, Midwest, etc. It would be useful, too, if you could show cities connected to coaxial or microwave system and total sets therein, with separate listing of cities and number of sets not yet reached by a network system.

Congratulations on your comprehensive coverage. We are always looking for more and more news about West Coast broadcasting and telecasting.

Richard L. Bean Manager, TV Section Los Angeles Chamber of Commerce Los Angeles

Tello-Test Adds 15

FIFTEEN more stations have bought Tello-Test, syndicated packages of Radio Features Inc., Chicago, President Walter Schimmmer has announced. They are: WIP Philadelphia; WJBK Detroit; KFI-AM LA; WBTN Topeka; KLCM Mason City; KTTS Springfield, Mo.; WHBC-AM Canton, Ohio; WFLR, N. Y.; WMRC Greenville, S. C.; WSLS Roanoke, Va.; WDBT Green Bay, Wis.; WLBZ Bangor, Me.; WHNT Huntsville; W. Va.; WATN Watertown, N. Y.; and W倪N Kingston, N. Y.

MURDER TRIAL
Mid South Airs Case

"NOT in the last 20 years has there been a broadcast that brought such spontaneous reaction and interest from radio listeners," said Charles C. McRaney, general manager of the Mid South Network, on the regional group's broadcast of a murder trial, direct from the court room in Columbia.

The trial involved H. W. McCown Sr., charged with murdering Henry Moore of Columbus. Obtaining permission from Circuit Judge John C. Greene, the Mid South Network set up microphones, telephones and tape recorders. The entire proceedings were tape recorded and played over WELO's relay of WCBF, WROB West Point, WNAG Grenada and WMOX Meridian. Arguments by the attorneys, witnesses and defendants' testimony, verdict of the jury and imposing of sentence by the judge were all covered. The jury's verdict also was carried live from the court room.

"Listener reaction has been terrific," said Mr. McRaney. He also reported that Judge Greene and District Attorney Jesse P. Steinnis expressed their appreciation to the network for its handling of the broadcasts, claimed to be the first of its kind ever carried in North-East Mississippi.

On July 20, WCMC, California Caravan, was transferred to 11 ABC California stations, and expanded to a half hour afternoon session, Sunday, 1:30-2 p.m. California Medical Assn. has continued as sponsor, and CPS membership continued to increase.

Cable also carried the program as a public service feature on 11 additional Pacific Coast stations, total of 20.

When an offer was made two years later to carry California Caravan sustaining as a public service feature on Mutual stations outside California nationally, the program made another jump.

California Medical Assn. on July 31, 1949, shifted it back to Don Lee-Mutual, with sponsorship on 14 California stations, Sunday, 3-3:30 p.m. (PST), where it has been since.

Packeted by Lockwood-Shackelford Adv., with regular AFRA talent, there are no star names featured. It is virtually a stock company, with the talent having been with California Caravan since its inception. Virginia Gregg and Michael Hayes, who do bit work in motion pictures, handle the leads each week. Other cast members include Anne Gwynne, Peggy Webber, Ruth Perrott, Marion Richman, Herb Vigran, Rosece Ates, John Dehner, Bill Conrad, Ed Max, Robert Morgan, Ken Christy, and Barley Baer.

Robert Purcell is narrator, with Fort Pearson announcing. Milton Charles is musical director and organist. Seldom is an orchestra used. Mr. Charles also writes all the original music for the weekly broadcast. Both Barnes and Karl Schlichter collaborate as writers and producers who are consistently on the lookout for authentic but "unusual" material.

Talent Costs Increase

When the first program went on the air as a 15-minute unit, talent costs were around $600 per broadcast. Package price today for the half-hour regional show adds up to approximately $5,000 per broadcast, according to Mr. Holzer.

Opposite such transcontinental network programs as CBS' Presidential Family of Stars, NBC's Catholic Hour and ABC's Lutheran Hour, California Caravan continued to average piles up sound Hoopers during its Sunday afternoon run. December 1949 Pacific Coast Hooper practicing gave it a 5.3.

Unprecedented success in the onetime drenched field of sponsors has paid off handsomely and continue to do so in "sales" and prestige to both the sponsor and Lockwood-Shackelford Adv.

Discussing the role of radio in general and California Caravan particularly as the character of the juvenile listener, Mr. Holzer became the first non-member ever invited to address the Tenth Congressional District of the Parent-Teachers Assn. at the Los Angeles Board of Education.

The program has been endorsed by the Parent-Teachers Assn. as one of the most entertaining and educational programs on the air. Each month, California Caravan is listed as "recommended listening" in Radioways Magazine, published by the Los Angeles City Schools.

The 380,000 members of the Tenth District California Congress of PTA, largest organization of its kind in the world, presented Mr. Holzer with the first award in its 51 year old history on Jan. 25, 1948, during an ABC broadcast of that program.

Cites Family Interest

The document award reads Los Angeles Tenth District Congress of Parents and Teachers Inc., 1947 Radio Award for Outstanding Public Service to the Welfare of the Family. This Certificate is awarded to California Caravan selected as the outstanding documentary radio program series of interest to the entire family.

In addition, Mr. Holzer has lectured to various high school groups on behalf of this program and the sponsor. Copies of program scripts

'Better Way' Adds 30 A. MAXWELL HAGE reports 30 more stations have signed for The Better Way, series of 52 half-hour scripts designed for local production of programs on the theme of maintaining the traditional system of free enterprise in business. Shows are designed primarily for sponsorship by local industries. Some 70 stations are now receiving the scripts. New subscribers: WSBN Birmingham, WSPC Anniston, WMLS Stalycausa, WFXS Alexander City, all Alabama; WRDL Columbus, WAGR Bainbridges, WEOH Newman, WNBC Whitewater, WGRW Cairo, WWDM Davison, WGCQ Augusta, WKEU Griffin, WJB Dalton, WYMS Macon, WGGA Gainesville, WFOM Martinez, WROB Alachua, WSCC Charleston, WCRS Greenwood, WABX Newberry, WRFO Orangeburg, WAND Anderson, WFTG Superior, WJAY Florence, all South Carolina; WEGI Elizabeth City, WMFD Wilming- ton, W游 Asheboro, WABZ Albem- burg, WQBO Farmville, WAVE Wadesboro, all North Carolina; WDFE Chattanooga, Tenn.

also have been sent to many schools at their request. Recordings too, have been dispensed in the same direction.

"We are gratified that our program has been honored by such groups," said Dr. Kneeshaw, and "California Caravan's success in winning a place in the 'preferred program' listings of many state organizations is another source of great satisfaction to us. Since 1946 the California Physicians Service has more than trebled its membership and the growth of all voluntary health plans throughout the state has been stimulated to greater growth as a result."

Mr. Holzer sums it up as "merely another example of getting the right show for the right sponsor which always pays off in the long run."

LOBBYING CITED 'Essential,' Says Buchanan LOBBYING is "essential"—in fact, most lobbyists perform a real service," said Dr. Buchanan, and "to Congress, Rep. Frank Buchanan (D-Pa.) has reminded his House colleagues.

Rep. Buchanan, chairman of the House Select Lobbying Committee now probing a host of activities, including those of representatives of radio networks, labor and industry groups, etc., pointed out that the Lobbying Law requires only that these activities be carried on "in the open."

In a report Feb. 6, Rep. Buchanan said "it is obvious that less than half of the approximately 2,000 registrants have acknowledged engaging in actual lobbying activities during the last quarter of 1949."

Urging members of Congress to clip quarterly reports for future reference, Rep. Buchanan reported that some 400 "pressure groups" showed collection of $6 million and expenditures of $27,304,952.10 in the past three and a half years.

FULL coverage of Mardi Gras activities in New Orleans will be given by WVL that city.
Southern Coach Lines, Nashville, Tenn., is participating sponsor on Woman’s World, over WLAC that city. Since results on show were good, SCL offered cover of its “Read as You Ride” publication to WLAC for promotion of Woman’s World. Cover shows picture of woman sitting atop globe holding banner reading, “It’s a Woman’s World!” Smaller banner around bottom of globe gives time and station call letters. Poem written on each globe gives format of show and information dispensed on show. Booklet is distributed to 35,000 bus passengers monthly.

Pages Promote

Proof of its slogan, “Business Is Always Better in Washington, D. C.,” is offered by WTOP that city in most recent promotion. List of major advertisers and agencies throughout country were sent 44 pages torn from Washington phone book which is much larger than ever before. Letter from John S. Hayes, vice president of WTOP Inc., accompanied pages, and explained station’s dominance in area. Letter concluded, “Everything is always better in Washington.”

Mid-Century Airings

BOOKLET composed of round-table report on the mid-century by CBS world correspondents sent to trade and listeners by CBS. Pictures taken of men who participated while they were speaking, and pictures taken after show are included, as well as complete copy of show. Additional pictures of world events discussed over programs also appear. Discussion was aired New Year’s Day.

Program Schedule

SECOND semester of educational programs presented by WCAE Pittsburgh in June. Program, with public relations, Carnegie Library and Western Pa. Safety Council, has started over WCAE. Heraldng this event, scheduled programs included in series has been incorporated into folder for distribution to public places of interest to children. Title: “Time for a Brief Explanatory Dates, as well as ages of children to whom particular programs are aimed, are given. Back of folder carries information concerning other shows over WCAE not belonging to series which would prove of interest.

Rolling Sales

LARGE yellow, white and blank card is most recent promotion sent to trade by KCEN Kansas City, Kan. Front shows two men, one labeled KCEN, the other, Network Station, rolling up long carpet marked “More Sales.” Caption reads, “To roll up more sales of your product or service in Greater Kansas City . . . inset continues, “. . . Hire KCEN as your ‘Rooster Station.’” Drawing of power of residents of KCEN’s coverage area is cited by county and important city.

KJBS Sponsors

WHEN archaic but colorful cable cars of San Francisco were threatened with extinction, various civic organizations undertook sponsorship of individual cars in effort to save them. Organization sponsoring car helps meet its financial deficit, KJBS San Francisco was one such organization. Its car was completely decorated with large replica of clock on front reading, “KJBS—1100 on your dial, Alarm Klock Club.” Top of car has long musical staff across which is written, “For music—KJBS—dial 1100.” Additional smaller banners on top of car give call letters and dial position.

Electing Champion

PART played by KROC Rochester, Minn., in selecting amateur athlete of the year for its region explained in brochure sent to trade by KROC. Contest is sponsored by KROC and winner was awarded trip to Cotton Bowl festivities in Dallas, Tex.

New Tour

TOUR to place of interest in Missouri and Illinois being planned by Charles Stookey, farm editor of Kokomo St. Louis, for 100 interested civic organizations. Tour is fifth in series and has Springfield, Ill., as its destination.

Show Promotes Show

TO PROMOTE its This Is Your FBI, 8:30-9 p.m., Friday, ABC has started series of four special five-minute programs. Shows are aired on day before or day of This Is Your FBI, and feature J. Howard Halsted, host of FBI, as guest speaker. Shows also will feature prominent civic leader who deals with crime prevention in city of each station airing show. Equitable Life Insurance Society is sponsor.

Mail Pull Folder

FOLIO bulletin with picture of cow remarking, “What a Pull!” and farmer, labeled WEAU, saying, “This is No Bull!” has been sent to trade by WEAU Eau Claire, Wis. Inside of folder has cow’s head poking around, saying, “Mail Pull that is . . .” Receiving of piece by WEAU will mail sent to station and claim pull of 8,229 pieces in one month from 48 counties in five states of Wisconsin counties with number of pieces received from that county enclosed is drawn.

Individual Promotion

PROGRAM catalogs, typed and compiled separately for each prospect, sent to trade by KJQ Seattle. Catalog takes form of loose-leaf book with separate sheets, each bearing title and format of different program available for sponsorship, enclosed. Station plans to keep book current by sending new editions when different program needs sponsorship, and cancelling out those which have gained sponsors.

Tip to Children

CHILDREN watching TV shows in homes of friends and neighbors are given this timely warning by WOR-TV New York. At 6:45 p.m., half-way mark of station’s line-up of children’s programs for week, was this message to read, “Say kids, if you’re watching television at a friend’s house, make sure your mom knows where you call her . . . and ask her if it’s okay for you to stay. . .” Line up of upcoming programs is given.

D. J. Search

TWENTY-FOUR week contest, now in its sixth week, is underway in Portland, Ore., under sponsorship of Portland statue that city, to uncover best amateur disc jockey in area. Contestants are auditioned Monday evenings, with as many as 40 appearing. Four are chosen to appear following Saturday, three judges, prominent Portland citizens listening in their homes, and audience choose one winner. Winner competes against three new men each week. Winner is expected to choose its own record, write its own commentary and include one public service spot.

Personal

G. W. GIVENS, supervisor of farm broadcasting at WGT and WROB (TV) Schenectady, N. Y., appointed supervisor of publicity and promotion for stations.

VERNON GIELOW, formerly with KROS Clinton, Iowa, appointed director of promotion for KJCK Junction City, Kan.

Merna Maddux, formerly with BCB Co., San Francisco, joins promotion department of KSFO and KPIX (TV), same city.

Del Greenwood, promotion director for WGBF Evansville, Ind., named outstanding young man of 1949 by Evansville Jr. Chamber of Commerce.

House Hearings

Postponed to March 13

HeARINGS on major radio legislation, originally slated to get under way today (Monday), were postponed last week by the House Commerce communications subcommittee, which is expected to set a new date for March 13 as a new target date [CLOSED CIRCUIT, Feb. 13].

The postponement was dictated "solely" by the illness of Subcommittee Chairman George Sadowski (D-Mich.), who has been confined to bed in Detroit. Rep. Sadowski, reportedly progressing satisfactorily, is due back in Washington March 1, spokesmen said.

The delay will give the subcommittee more time to draw up its schedule of witnesses, spokesmen explained. List is expected to be available just prior to the hearings, which authorities believe will last anywhere from four to six weeks.

Testimony will be taken on the new Senate-approved FCC reorganization measure authored by Sen. Ernest W. McFarland (D-Ariz.), and a proposal (HR 2410) by Rep. Harold Ford (D-Tenn.), to reestablish networks and equipment manufacturers of ownership in stations.

The Sadowski Bill, introduced last month, would create a Frequency Control Board overlooking the allocation of frequencies as between government and commercial broadcast users and in part absorb some of the functions of PCOA, which it would hold broad power, give FCC additional administrative sanctions over licensees and permit interested licensees immunities from civil or criminal actions for libelous statements in political broadcasts [Broadcasting, Jan. 30, 23].

Ohio U. Awards

Cite Educational Programs

Some 300 entries have been submitted for the 14th American Exhibition of Educational Radio Programs, according to Dr. I. Keith Tyler, director of Ohio State U.’s Institute for Education by Radio, sponsor of the annual exhibition. Award winners will be announced May 1.

Originating in 33 states, the District of Columbia, Hawaii and five Canadian provinces, the entries represent perhaps the most widespread participation in the history of the exhibit, Dr. Tyler said. Entries have been received from commercial radio stations, civic, religious and cultural organizations. The winning programs will be available for audition during the Institute for Education by Radio in Columbus, Ohio, May 4-7, Dr. Tyler said.

John Wiley & Sons Inc., New York, distributing small booklet listing titles, summaries and prices of books on radio and electronics published by firm.
**WWDC, WOL SHIFT**

**Mutual Goes to WEAM**

SWITCH in ownership of WWDC and WOL Washington and move of MBS’ Washington affiliation from WOL to suburban WEAM Arlington, Va., becomes effective today (Feb. 20), settling negotiations underway for some time [Broadcasting, Feb. 6].

WEAM, owned by Capital Broadcasting Co., at 6 a.m. this morning was to commence broadcasting with the facilities of WOL (5 kw directional on 1260 kc) which it acquired from Cowles Broadcasting Co. WWDC also takes over the WOL offices and studios at 1627 K St. N.W. Simultaneously, Peoples Broadcasting Corp., subsidiary of the Farm Bureau Mutual Automobile Insurance Co., which operates WRFD Columbus, Ohio, takes over WWDC’s old 1450 kc 250 w facilities at 1000 Connecting Ave., N.W. People 2 Broadcasting will use WOL call.

WEAM, assigned 1390 kc with 5 kw directional, is owned by Harold H. Thoms, southeastern broadcaster. WWDC-WOL interchange of calls was believed beneficial to both stations. WWDC announced inaugural program is scheduled March 11 and is to include FCC Chairman Wayne Coy and other dignitaries.

In the changeover, WEAM has revamped its 19-hour schedule to accommodate Mutual programs while retaining the most popular of its local shows.

The top local programs are being kept intact although some are being trimmed in length, WEAM said. Plans are underway to open Washington studios and sales office while retaining the station’s present facilities in Arlington.

WEAM took the 12-hour format 3½ years ago as a 1 kw daytime outlet, increasing to 5 kw fulltime directional on 1390 kc last March.

---

**Mexican Changes**

CHANGE in status of several Mexican stations reported by FCC last week upon notification by Mexico according to provisions of the North American Regional Broadcasting Agreement now being renegotiated. XEKJ Acapulco, 250 w outlet on 1400 kc, May 5 is to switch to 1 kw fulltime on 600 kc at Class III-B station. XEYJ Aguascalientes, new station, March 1 is to commence on 1450 kc with 100 w fulltime. March 3 new outlet at Guadalajara is to begin on 1280 kc with 250 w. Call XEAM has assigned new call XEQQ, 300 kc, 250 w outlet at Ocotlan, while XEFO Mexico City, 20 kw on 1110 kc, has changed call to XEQB.

WAGNAVOX Co. declares dividend of 25¢ per share on Class A cumulative convertible preferred stock, payable March 1 to stockholders of record Feb. 15, 1950. Same dividend was declared in common stock payable on same date to stockholders of record Feb. 15, 1950.

**New Business**

(Continued from page 14)

George A. HORMEL & Co., through BBDO, renews for 52 weeks Music With the Girls, all-girl variety revue aired on 224 ABC stations, Sunday, 6:30-7 p.m. EST. Renewal is effective March 12. Currently on tour, program regularly visits hundreds of U. S. cities and towns each year.

ROSS FOOD Co., Los Angeles (Dr. Ross dog and cat food), March 2 starts for 52 weeks, Clady Betty Show on 45 Don Lee Pacific stations, Thurs., 8-8:30 p.m. PST. Agency: Rocketi-Lauritani, Los Angeles.

CANADIAN WESTINGHOUSE Co. Ltd., Hamilton, Ont. (electrical appliances and related fields) has been extended by WICL London, to 32 Dominion network stations, Sun., 10-11 p.m., for 15 weeks in spring and 26 weeks next fall and winter. This is first time Canadian Westinghouse has used network radio. Agency: Spence W. Caldwell Ltd., Toronto.

GENERAL FOODS Corp’s Hopalong Cassidy, effective Feb. 26, moves to new time slot, 1:15-2 p.m. on Don Lee network. Agency: Young & Rubican.

JOHN MORRELL & Co., Ottumw, Iowa (Red Heart Dog Food), sponsoring weekly 15-minute NBC Lassie Show, terminates contract on May 27 after three years. Firm reportedly wanted longer show but lack of budget prevented expansion to 30 minutes. Agency: Henri, Horst & McDonald, Chicago. Frank Perrin is packager.

INTERSTATE BAKERIES Corp., Los Angeles (Weber’s Bread), through Dan B. Miner Co., that city, today, Feb. 29, renews for 52 weeks Cisco Kid on Don Lee network stations. Mon., Wed., Fri., 1:30-2 p.m. PST. Show is Frederic W. Ziv Co. package.

**WIP’s FACENDA**

Cited by Fourth Estate Club

NEWSCASTER John Facenda, of WIP Philadelphia, will receive an editorial award from the Fourth Estate Square Club of that city tomorrow (Feb. 21). This will mark the first time that the Masonic Order’s newspapers’ organization has honored radio on a par with newspapers in the Quaker City in its annual presentation.

Departing from its usual procedure of making only one editorial award, the club will cite both Mr. Facenda and Vincent E. Clark, Daily News editorial writer, for their efforts during 1949 on behalf of a proposed City College. Benedict Gimbel Jr., WIP president and general manager, will accept a duplicate plaque which will be presented to the station. The award, given to the writer of the best editorial dealing with local affairs during the year, was presented to the Inquirer last year.

NBC’s AM Business

**OREGON MEET**

**Time Regulation Bill Opposed**

LEGISLATION which would make it almost impossible for Oregon as a whole, or any city, to have daylight time was opposed at the Feb. 10-11 meeting of the Oregon State Broadcasters Assoc., held on the campus of U. of Oregon, in Eugene.

The Oregon legislation (House 454) has been passed by the Assembly and goes to the people for vote in the November elections. Another resolution urged state broadcasters to ask their Congressmen to remove federal excise taxes as an “inequitable burden on the many afflicted areas of business.”

Lee W. Jacobs, KBKR Baker, was re-elected president at the conclusion of the meeting. Other officers re-elected were H. J. Chandler, KFLW Klamath Falls, vice-president, and the following directors: Frank H. Logan, KPNB Bend; Frank H. Coffin, KGW Portland; Mel Baldwin, KTLK Tillamook; Joe Schertler, KEX Portland, was elected secretary-treasurer, succeeding Ted W. Cooke, KOIN Portland.

Maurice B. Mitchell director of Broadcast Advertising Bureau, addressed a joint luncheon of the association and the Eugene Chamber of Commerce. The state association members were guests Feb. 10 at a luncheon of the Eugene Chamber of Commerce, and were guests Feb. 11 at a luncheon preceding dedication of new U. of Oregon buildings, one of which is devoted to radio. Dr. Harry K. Newburn, university president, was principal speaker at the ceremonies with Gov. Douglas McKay as guest of honor. Gov. McKay was speaker at the association’s banquet, concluding the two-day meeting.

**Myron Coy**

MYRON COY, 34, formerly program director at WBYS Canton, Ill., died Feb. 7 in Beardstown, Ill. A resident of Beardstown, he also had served as an announcer and disc jockey at WLDZ Jacksonville, Ill.; WCZC Carthage, Ill., and KVER Albuquerque, N. M.
TRANSPORTATION

TR OPPOSITION

Riders Assn. Asks FCC To Ban Transitscans

TRANSPORT Riders' Assn, opponents of radio-equipped vehicles in Washington D.C., promised last week to take recourse to the courts in view of the decision Wednesday by the Public Utilities Commission refusing appeals for a rehearing made by several anti-bus radio groups.

The PUC, in effect reaffirmed its earlier decision that transit radio is "inconsistent with public convenience and safety" by denying the appeals of TRA; the National Citizens' Committee Against Forced Reading and Listening, Alexander Jay Martin and Franklyn Pollak, other individuals and civic groups.

The Commission said that while it had given "careful consideration" to the briefs filed by opponents, in the light of previous testimony at public hearings and the PUC's subsequent findings, it found its original decision supported. In the face of this setback to its battle to prohibit transitscans, TRA also declared that the issue now would be taken to the courts.

Charging that the PUC had "thumbed its nose" at every contentions as to the legality of infringing radio advertising and other programs on a captive audience, Mr. Palmer said it "walked around the question (of whether) free listening was legal or moral." He added, "in fact, (it) PUC had never said that 'buscasing' is or is not 'forced listening'..."

Requests to FCC

Meanwhile Transit Riders Assn., which fortnight ago filed suit in Federal District Court seeking a ban on all transit broadcasts BROADCASTING, Feb. 13), asked FCC to investigate the problem and "take appropriate means" a step to prohibit transitscans. TRA also demanded that FCC deny or terminate licenses of stations which "engage in this abuse of the broadcast privilege..." with American Civil Liberties Union, announcing its opposition to such broadcasts, called on the Public Utilities Commission to grant the union opportunity to file a legal brief looking toward reconsideration of PUC's decision authorizing transit radio operations in the District of Columbia. Any ban on such broadcasts would not violate free speech, ACLU declared.

The TRA petition, filed by R. A. Seelig, association vice president, and sent to FCC Chairman Wayne Coy, embodied a resolution which radio-equipped vehicles had spread to "move that scores of cities" and that FCC "is the only agency which has direct jurisdiction over the conduct of radio gen. No. 4, at public testimonial dinner, for its cooperation in recent pelline drive.

Question Under Study

At week's end FCC had issued no formal comment, but the Commission had to have been studying the question for several months [CLOSED CIRCUIT, Jan. 23] basis of the study is whether transit radio constitutes "broadcasting" in the strict sense.

Copies of the TRA petition also were sent to Sen. Matthew M. Neely (D-Wa.), chairman of the Senate District of Columbia Committee.

In its bill of complaint filed in the U.S. court in Washington, the riders' association seeks an injunction against Capital Transit Co. to bar operation of transitscans furnished by WWDC-AM, holder of Transit Radio Inc.'s Washington franchise.

The ACLU petition, filed by Counsel Herbert Levy with FCC Chairman James Planagan, is acknowledged that the right "not to listen" is "not absolute" and added that "due regard to both rights does not permit complete prohibition but only their regulation."

FCC also has before it a petition similar to the one filed by TRA last week. The Washington attorneys, Franklin Pollak and Guy Martin, have asked the Commission to rule that transitscans violate Commission rules and regulations; to initiate a policy of license revocation where necessary; to take no further action, meanwhile on license, renewal and permitting bids; and to furnish TRA attorneys with copies of the contract between Washington Transit Radio Inc. and WWDC-AM (Capital Broadcasting Co.).

WICH Norwich, Conn., honored by American Legion, Robert O. Peters Post, No. 4, at public testimonial dinner, for its cooperation in recent pelline drive.

ANNUAL Radio Writers Guild cocktail party will be held at Astor Roof, New York, Feb. 24, beginning at 4:30 p.m.

McCullough, Eitel Cited

McCullough, Eitel Cited

JACK McCULLOUGH and Bill Eitel, manufacturers of transmitting type vacuum tubes and capacitors, have received the Navy's highest civilian honor, the Distinctive Service Award, for contributions to the Navy research and development program. The award was presented February 3, by Capt. F. R. Furth, director of the Naval Research Laboratory, Washington.

The ceremony was held at Eitel-McCullough Inc., San Bruno, Calif.

KZL Denver cited by Colorado Assn. of Soil Conservation Districts for "valuable contribution and unfailing interest in the promotion of the soil conservation program."

WICH Norwich, Conn., honored by American Legion, Robert O. Peters Post, No. 4, at public testimonial dinner, for its cooperation in recent polle drive.

Question Under Study

At week's end FCC had issued no formal comment, but the Commission had to have been studying the question for several months [CLOSED CIRCUIT, Jan. 23] basis of the study is whether transit radio constitutes "broadcasting" in the strict sense.
WMOR CHANGE
To Elect New Board Chairman

WMOR (FM) Chicago will elect a new board chairman within two weeks to replace Dario L. Toffenetti Sr., Chicago and New York restaurant owner, who resigned a fortnight ago. He left the job, which he held since October, after a board meeting at which directors voted away his powers of authority by a 7 to 2 margin. They charged Mr. Toffenetti with “interference and censorship” in programming and station policy.

Although he has withdrawn from active support of the station, Mr. Toffenetti retains 27% stock in Metropolitan Radio Corp. of Chicago Inc., in which he is the largest single stockholder. No person or group has controlling interest.

About 25% of the station’s revenue has been withdrawn by Mr. Toffenetti, according to President Bernard I. Miller, acting board chairman. The time includes a daily strip, Breakfast at Toffenetti’s, and a heavy spot schedule. More than 10 local accounts, however, have been added since Jan. 1, Mr. Miller said. Rudolph Cole and David McAle were added to the sales staff last week to promote additional accounts.

WMOR broadcasts from 8:15 to midnight six days weekly and 1 a.m. to midnight on Sundays. The station services Jewel Food Stores in the area with in-store broadcast.

Union Oil Spots

UNION OIL CO. Los Angeles, through Foote, Cone & Belding, Hollywood, will expend approximately $200,000 for a 62-week spot radio campaign that started Feb. 5 on 45 stations in 26 Pacific coast and Intermountain Network locations. Approximately eight to ten chainbreaks weekly will be used in each market during that period.

Pabst Blue Ribbon
(Continued from page 22)

Extract Co., Chicago, was purchased in 1930.
In November 1932, Premier Malt Products Co., Peoria, Ill., voted to merge with the Pabst Corp. The name was changed to Premier-Pabst, and HarrisPerlstein, head of Premier, became president, the position he holds today.

Five years after repeal, the name of Premier-Pabst was changed back to Pabst Brewing Co., and Fred Pabst became chairman of the board. According to the book, The Pabst Brewing Company, recently published as the first volume in its Business History Series by New York U., "the joining of the chief malt products firm (Premier) with the greatest beer producer (Pabst), in order to provide additional resources for expansion, may seem so obvious a business arrangement as to require little ex-

Baseball Budgets Up

(Continued from page 19)

in the New York negotiation, it was understood that upstate New York stations would air Yankee games when their own local clubs are playing road contests. Arrangements are in progress with P. Ballantine & Sons and Atlantic Refining Co. to co-sponsor the broadcasts, BROADCASTING learned.

In the Quaker City a dispute as to how many night games should be broadcast or telecast reportedly has stymied progress on the city's baseball coverage. It is expected that home and away games will be aired with two stations alternating on coverage of both the A's and the Phillies. Probable stations, it was reported, are WIBG and WJJD, both independents. Provisions covering TV have not been settled.

Sponsor Speculation

Current speculation on Philadelphia sponsors centers about three advertisers—Atlantic Refining Co., which last year backed one-fourth of radio-TV game coverage; Ballantine's, which in 1949 sponsored one-half; and Seafleet Inc., a newcomer in Philadelphia baseball. Last year, Camel cigarettes was the third sponsor.

Seafleet again foots the bill for broadcast coverage of the Pittsburgh Pirates after last year's first baseball sponsorship for the dairies company in the Steel City. Also reported in contract stage at Pittsburgh is an arrangement whereby Pirates games will be carried to some 30 western Pennsylvania stations. Key station is WWSW-AM-FM Pittsburgh, now boasting 5 kw on 970 kc. WWSW will broadcast the full 154 home and away schedule. Rosey Rowsell and Bob Prince are expected to handle play-by-play. Although not yet official, it is doubtful whether TV will be considered.

In Boston, the lineup for the coming season will approximate that of last year, WHDH, 50 kw independent, again has exclusive AM rights for both the Red Sox and the Braves schedules. All home and away games and possibly other big league games on off days will be carried. Sponsorship is dual—the Atlantic Refining Co. and Narragansett Brewing Co. of Cranston, R. I., share the bill.

Jim Britt, Tom Husey and Leo Egan have been on the tracks, the first two also doubling on telecasts which will be handled by WNAC-TV and WBZ-TV on an alternating and even split of both clubs' home games as they did last year. Television sponsorship is shared by Chevrolet Dealers and Narragansett TV cameras will be using Zoomar lens for the first time. Bump Hadley will assist Messrs. Britt and Husey on TV.

Under negotiation in New England is the possibility of feeding AM-FM broadcasts of all Boston baseball contests to 30 stations. As last year, the sponsors also will pay the check for a series of 20 pre-season games of both the Red Sox and the Braves. The warm-up games, originating from the Florida circuit, will be handled by Messrs. Britt and Husey. First game is scheduled for March 11.

In Chicago, the White Sox full schedule will be carried exclusively on AM by WJJD, the Marshall Field station. Bob Elson will handle all home and a number of road tilts live, with the remainder of away games by wire. WJJD, a day-time outlet, has purchased time on WIND for airing out-of-town night games of the American Leaguers. Foxx de Luxe Beer and Montz TV will share the bill. Rights are reported to have been bought by WJJD for $70,000.

Ask $100,000 for TV

White Sox Manager Frank Lane and Charles Comiskey, vice president, reportedly are asking $100,000 for TV rights, which WGN-TV Chicago had exclusively last year. With negotiations still in progress, final decision and sale are not expected before mid-March.

When WIND will carry all Cubs games, home and away, including wire recreations, daytime home games will be fed to the Midwest Baseball Network with some 35 stations expected to sign. The latter will carry local sponsor tie-ins. Liggett & Myers, which will sponsor WIND's coverage, also will get spots and mentions on the network. Stations are in Illinois, Iowa, Indiana, Michigan, Minnesota, Kentucky and Wisconsin. Lineup thus far is:

THE CBS family receives a new mem-

ber into its fold. Edward Shurick (l), new market research counsel for the network, is welcomed by John J. Karol, CBS sales manager. Mr. Shurick's appointment is effective March 1 [BROADCASTING, Feb. 6].

$225,000 in Cleveland

The Cleveland Indians' schedule will be broadcast on WERE-Cleveland. AM rights were purchased at a reported $225,000 per year for three years by Standard Brewing Co. of that city for Erin Brew. Agency is Geret, Boylan & Walsh, Cleveland. In the past two years, WIVES (TV) Cleveland had the rights. TV outlet for this season has not yet been named. All Cleveland Indian and Dayton Indian games will be carried on WONE-WTWO (FM) Dayton. Skyland Broadcasting Corp., operator of the station, has entered into a three-year agreement for exclusive rights to carry the games in Dayton. Approximately 300 games will be broadcast this season. Cleveland games will be announced by Jack Graney and Jimmy Dud-

THE CBS family receives a new mem-

ber into its fold. Edward Shurick (l), new market research counsel for the network, is welcomed by John J. Karol, CBS sales manager. Mr. Shurick's appointment is effective March 1 [BROADCASTING, Feb. 6].

ley, with Jack Gibbons and Ray Rayner handling the Dayton games.

In addition to the individual city packages, MBS and the American League already have signed an agreement whereby Mutual will have broadcast privileges for the "game of the day" covering baseball activities in eight American League cities.

The series, set to get underway April 18, will be aired live over some 350 Mutual stations in 31 states from coast to coast, Monday through Saturday each week, MBS President Frank White and American League President Will Harridge, jointly announced last week. Although to broadcast an exclusive game will be carried on a sustaining basis, Mutual hopes to attract a sponsor before the season officially opens.

Plan 10 Broadcasts

A minimum of 10 broadcasts are planned for origination from each of the American League cities. A similar agreement covering one or more National League clubs reportedly is in the prospective stage. Although National League President Ford Frick has frozen on the three series, so far three clubs owners reportedly are willing to go along. A quorum of owners favoring the idea conceivably could lead to a reversal of Mr. Frick's position.

A sidelight in the MBS series plans hinges on Baseball Commissioner A. B. (Happy) Chandler's ruling governing broadcast rights owned by the local major league club. For example the New York Mutual outlet desiring coverage of a home Yankee game locally, first would have to seek permission from the club. Subsequently, any local MBS outlet could be restrained from airing the broadcast of any of the "game of the day" because of the home club's checkmating power. Mutual, however, said that the event of such postponement of a scheduled game, a contest from another area will be presented on a "recreation" basis. Names of MBS announcers to play-by-play-for Mutual has not been revealed yet.
ARKANSAS MEET

SAM W. ANDERSON, manager of KFFA Helena, Ark., was elected president of the Arkansas Broadcasters Assn. at the annual winter meeting held in Little Rock on Feb. 10. He succeeds G. E. Zimmerman, manager of KARK Little Rock.

Fred Stevenson, manager of KGRH Fayetteville, was elected vice president, and Ted Rand, manager of KDDB Paragould, was named secretary-treasurer. Elected to the board of directors were Mr. Zimmerman; Harold Sudbury, KLCN Blytheville; Leon Sipes, KELD El Dorado; Sheldon Vinsonhaler, KGHI Little Rock; Jack Woliker, KTHS Hot Springs; and John England, KFPW Fort Smith.

Resolutions

The 32 broadcasters representing 25 stations passed a resolution commending the state's ham operators "for their willingness to perform public services and for encouraging interest among the youth of the state in radio broadcasting." The group also passed a resolution in which the ABA goes on record as opposing payment of music fees on commercial transmissions in excess of two cents per tune per station.

It was also voted to continue promoting Arkansas as the "Land of Opportunity"; to investigate through a committee of station operators the public service merits of programs now being submitted to the broadcasters for sustaining presentation, and to continue a study of provisions under which the Arkansas Athletic Assn. permits broadcasting of high school championship playoffs.

Registration

Those attending the meeting included:

John Moore, Bill Humbert, KVMA Magnolia; Emil Pouzar, KXLS North Little Rock; Frank Brown, KWFC Hot Springs; Ted Rand, Ray Dexter, KDDB Paragould; Bill Hume, Doc Bryan, KKKR Russellville; Harold Sudbury, KLCN Blytheville; Charles Craft, KMBV Newport; Sam W. Anderson, Bill Bigeye, KFFA Helena; Fred Stevenson, Sheldon Vinsonhaler, KGHI Little Rock; Jack Woliker, KTHS Hot Springs; together with Mr. Zimmerman and Messrs. Sudbury, Sipes, and England.

E. D. WALEN (seated), executive v. p., Pacific Mills, contracts for his firm's sponsorship for third year of This is greater Lawrence, civic show on WLAW Lawrence, Mass. With him are Frederick P. Laflay (1), program's producer, and David M. Ki-meil, WLAW sales mgr.

On the dotted line . . .

A 52-week contract with WGR Buffalo to present the MGM Theatre of the Air every Sunday is set by Charles H. Diefendorf (seated), pres., Marine Trust Co., Buffalo. Standing (1 to r) are Ted Higginbotham, BBDO; Nat L. Cohen, WGR sales mgr.; George Ensor, asst. v. p., Marine Trust.

Sponsorship of all week-day home games of Roanoke Red Sox on WROV-AM-FM Roanoke, Va., for a second consecutive year, is set by Hugh Gish (seated), president of the Blue Ridge Beverages Co. Looking on are Frank E. Kochler (1), general manager, Roanoke-WROV, and Coleman Austin, announcer.

WOC-L AM-FM Columbus, Ohio, receives a two-year contract for exclusive rights to broadcast games of the Columbus Red Bird Baseball Club. Setting the agreement are L. A. Pixley (1), president of The Pixley's Inc., operator of WCOL, and A. L. Banister, Columbus Red Bird president.

WKRMR FIRE

MBS Outlet Is Destroyed

WKRMR Columbia, Tenn., 250 w Mutual affiliate, was completely destroyed by fire early last Tuesday morning (Feb. 14). R. M. McKay Jr., president and co-owner, estimated damage at between $50,000 and $75,000 and said the loss was partially covered by insurance.

The fire, of undetermined origin, started about 4 a.m. in the eight-room frame building which housed the transmitter equipment, studios and offices. The blaze was first noticed by the engineer of a passing train who sounded the train whistle repeatedly to awaken people in the vicinity. By the time fire fighting equipment arrived at the scene, the blaze was beyond control.

Immediate plans were made by WKRMR officials to procure new equipment and to resume broadcasting operations from temporary headquarters within a few days. A corner stone was laid for a temporary building on the same site of the fire.

WKRMR went on the air in 1946. It is owned and operated by the Middle Tennessee Broadcasting Co., of which R. M. McKay Sr. is co-owner and secretary-treasurer.

EMERSON Radio & Phonograph Corp. purchased Continental Can Blag, Jersey City, N. J., to be converted to manufacturing plant of about 45,000 sq. ft.
views on dues

(continued from page 19)

tions, then maybe the NAB has gotten too large for us small boys.

Isn't it rather unusual for outgoing directors to make such sweep-
ing changes? Maybe my thinking is all wet because I am just a small guy owning a small station in a small market. The recent BAB addition is a big help, but methinks that you are rocking a boat that is already leaking.

From where I stand you can let me know when the increase is to take place and I'll prepare my resignation for that date.

If you can convince me that I am wrong then I'll be willing to go to bat and try to pacify other small stations in North Carolina that I know will be squawking with great anguish. Fair enough?

Mr. Younts is secretary-treasurer of the North Carolina Assn. of Broadcasters. He took part in an NAB membership drive prior to the District 4 meeting in Pinehurst, N. C., last October.

Arney Replies

Replying to Mr. Younts, C. E. Arney, Jr. NAB secretary-treas-
er, said the action was taken "only after most deliberate and careful consideration by the mem-
ers of the board. The viewpoint of the smaller stations was ade-
quately presented to the board by several of its members who are themselves operators of small sta-
tions."

Mr. Arney explained that only eight of the 27 board members will retire automatically in April and the dues structure has been dis-

cussed for many months. He added, "I hope we can convince you that you are wrong in politicizing this increase and I further express the hope that you will become a crus-

dader among the other small sta-
tions in your area in helping us to justify it. I feel certain that the increased results that will come from it will fully justify the in-
crease in dues."

Prior to the April convention NAB plans to issue statements to the membership placing the dues picture in the proper perspective.

These will cover such topics as the budget background for changes in the four lower classes and the expanding services rendered by the association.

Fastest growing service at NAB is Broadcast Advertising Bureau, which will receive 25.06% of the $978,322 appropriated for the new fiscal year starting April 1—about $100,000 above the current NAB budget.

About three-fourths of the $100,-

000 will go toward BAB, which gets a total of $200,000. At present BAB is operating at a rate of roughly $128,000 annually, though budget computations are difficult to describe because NAB is in the process of switching from a calendar to fiscal year.

In 1948, when NAB had a $796,-

000 budget, the Broadcast Adver-
sisting Dept. (predecessor to BAB) received $65,490 for the year. The new appropriation represents a three-fold increase—from 7.97% to 25.06% of NAB's budget—for sales and advertising activities in the two-year period.

Reduced to terms of dues, nearly $4 of every $15 in monthly dues paid to NAB by Class A stations will go to sales and advertising under the new budget. This com-

pares to 60 cents out of each $7.50 in monthly dues paid in 1948.

In addition to its $200,000, BAB is expected to receive perhaps $50,-

000 a year from sale of special services. At NAB headquarters it is stated that BAB's activities pro-

vide a type of service smaller sta-
tions are unable to perform for themselves in addition to more general operations boosting the radio medium as a whole.

The new dues in four low-income classes affect the amount 780 stations will pay to NAB after April 1. Among AM stations, 302 are in Class A, 151 in Class B ($25,501 to $50,000), 172 in Class C ($50,000 to $75,000) and 114 in Class D ($75,000 to $100,000). Among FM stations, 59 are in Class A and 2 in Class B.

Expense to Service

These 780 stations, which NAB says are more revenue-generating than larger stations, have been paying 20.32% of the total income, or $11,712 a month. Using the Jan.

1 membership base, these stations will pay 26.15% of the total, or $16,465 a month under new dues.

NAB's membership as of Feb. 1 included 1,154 AM, 518 FM and 36 TV stations, plus some 70 associate members.

This AM segment comprises 55% of all AM stations in the industry. NAB is anxious to raise the 55% figure, recognizing that it can either decrease dues or expand services, or both, if a larger seg-

ment of the industry pays dues to maintain its trade association.

Addition of a field director, as authorized by the board, will pro-

vide a fulltime official who can tour the country as a membership missionary. This practice is com-

mon among business associations. The field director may not be named until the board has ratified the name of the man Judge Miller ap-

points to fill the new general man-

ager's post. It is assumed the field
director will be an assistant to the
general manager.

Judge Miller returned to his Washington office last Thursday morning but as far as could be learned he has taken no action or naming of a committee to consider the new field director's appointment.

Some misunderstanding was noted at NAB headquarters over a board action calling for an independent audit of the association's books. The books have been audited ever since 1930 by an independent accounting firm, and such an audit was just getting under way when the board acted. This audit was halted pending clarification of the board's action.

It was felt the board was inter-

gested in getting special breakdowns on association finances rather than another independent audit. This might include the allocation of BAB's receipts in the association's weekly financial statement, for ex-

ample, or perhaps another special set of figures.

A board action that will receive careful attention centers around a complaint by associate members that non-member companies have equal recognition at annual con-

ventions and district meetings. A

special ad hoc and a membership committee reported on this com-

plaint. It was recommended that NAB headquarters notify associate members well in advance of ar-

rangements for scheduled meet-

ings.

The NAB secretary-treasurer's of-

cice is expected to announce re-

sults of the balloting for board membership a week from today (Feb. 27). Ballots must be at headquarters by midnight, Feb. 25.

Technically, NAB is operating under the 1949 structural setup until the new fiscal year starts April 1. The Radio Division will be dropped at that time, and the Television Division will become the Television Dept., it is understood.

WWON is Sold

SALE of WWON Woonsocket, R. I., for $70,000 to the Woons-

ocket Call was announced last week by the station. Deal is sub-

ject to FCC approval. WWON is assigned 250 w on 1240 kc fulltime.

The transfer application is to be filed in the name of Woonsocket Broadcasting Co., a new firm owned by the Woonsocket Call, which in turn is published by Buell W. Hud-

son with Andrew P. Palmer as general manager. WWON sellers are Gare Ray, consulting engineer; Aram Tellisian Jr. and James Tidicke. Transaction was handled by Blackburn-Hamilton Co.

KFRM REQUEST
Seeks Fulltime on 540 kc

BID FOR 540 kc operation under
special service authorization was
filed with FCC last week by KFRM
Concordia, Kan., sister outlet of
KMBC Kansas City. Purpose is to
provide first night primary service to
the vast rural area.

Now operating on 550 kc with
5 w daytime, directional, and pro-
gramed from KMBC, KFRM
seeks a 5 kc fulltime operation on
540 kc directional. KFRM is 160
miles northwest of Kansas City and
has been on the air since December
1947. Midland Broadcasting Co.,
licensee of both stations, said there
is no overlap of the nighttime
primary service area of KMBC and
that proposed by KFRM. KMBC is
on 980 kc with 5 kc, directional
night.

Midland asked FCC to allow the
540 kc operation for the regular
KFRM license period which ends
May 1, 1952. By that time, it said,
its permanent assignment on
540 kc in the U. S. can be made.
Midland noted that the Atlantic
City convention provides that 540
kc be added to the standard broad-
cast band.

No Interference Seen

Although no interference is antici-
pated to government installa-
tions, automatic ship alarms and
other services, Midland told FCC
that the 540 kc operation would allow
actual observation of broadcast
conditions. KFRM would protect
Canada's CBW Truck, Sask.,
now on 540 kc with 50 kc, and
now cause only slight interference to
Mexico's XEWA San Luis Potosi,
on 540 kc with 180 kc, directional
night, Midland said.

Midland Broadcasting stated
that "substantial losses have re-
sulted from the first two years of
operation on 550 kc, daytime only" and
"current operating license is approxi-
ately $3,000 monthly, not
including administrative salaries
which are wholly absorbed
by KMBC, and not including expense
connected with six years' effort
of applicant to get a regular berth
on the 540 kc frequency."

DOUBLE CRASH
KENI Newsmen Is Rescued

ASSIGNED to cover search operations in the crash of a C-54, an Alaskan newsmen found himself a victim when the search plane in which he was riding crashed on the slopes of 6,100 ft. Mt. Lorne in Canada's Yukon Territory.

Jack Borges, news editor of KENI Anchorage who flew to Whitehorse in the Yukon for NBC and the Midnight Sun Broadcasting Co., was one of the entire complement of six men injured in the crash. He and four others were rescued by ski troops of the 14th Mountain Infantry after the injured pilot, Lt. Charles Harden of Graham, N. C., made an heroic eight-hour trek through a waist-deep snow to summon help.

Said to be one of the fastest rescue operations in the Far North, it was less than 24 hours from the time of the crash until the survivors reached Whitehorse. Mr. Borges suffered a broken wrist, lacerations, and torn ligaments. He completed his mission by broadcasting from a bed in the U. S. Army's 4th Field Hospital.

CBS Stock
J. A. V. IGLEHART, member of the board of CBS, has bought 500 shares of Class A common stock of the company, bringing his total holdings to 3,400 shares, according to information filed with the Securities and Exchange Commission.

GDYNIA CASE
O'Conor to Support Charge

U. S. SENATOR Herbert R. O'Conor (D-Mo.) indicated last week that he will supply additional information to the FCC pointing up the broadcast of alleged Communist propaganda by the Gdynia America Shipping Lines on U. S. station facilities.

Sen. O'Conor, chairman of a Senate Judiciary Immigration subcommittee that is pressing an investigation into Gdynia radio activities [Broadcasting, Dec. 26, 1949], promised the additional data following receipt of a letter from FCC Chairman Wayne Coy. Comr. Coy said the FCC had "no information" of Polish of "Communist propagandists" over the stations by Gdynia and asked that if the committee has "any facts" which it believed "would be of interest to the Commission," to make that information available.

WEDC Drops

At the same time, the subcommittee disclosed that a second station had decided not to renew its broadcasts of Gdynia scripts. NBC Chicago, the Congressional group said, had informed the senators it had dropped the Gdynia prepared broadcasts as of Feb. 5. WHBI Newark, N. J., which had aired the broadcasts as well as WEDC, canceled its Polish weekly series on Dec. 26.

A subcommittee spokesman said the "supporting" information which would be supplied by Sen. O'Conor probably would point out that in the registration of prepared and edited scripts for Polish programs under the Foreign Agents Registration Act, Gdynia reportedly filed a statement for a six-month period in 1948 showing that the "Polish Embassy had paid part of the total cost amounting to $4,800." The spokesman said that in a six-month period ending in March 1949 the Embassy's share purportedly was $7,800.

Would Spur FCC

It is understood that Sen. O'Conor will place the data before the FCC as a means of spurring the Commission to give more notice to such scripts in order that propaganda be avoided in the future. The Senator has demanded that the Commission take some "appropriate steps" to assure the country that Communist propaganda would not be permitted for broadcast. However, the FCC letter, in effect, showed little alarm.

The Justice Dept. also had played lightly with Sen. O'Conor's demand that it investigate Gdynia activities [Broadcasting, Jan. 9].

Comr. Coy's letter follows in part:

"We have no information concerning the broadcast of Communist propaganda on the facilities of broadcasting stations in the United States by the Gdynia America Line. If you have any information or if your committee has any facts which you believe would be of interest to the Commission, I would appreciate your efforts in making that information available to the Commission."

LAMB VISITS HT
President Pledges Support

EDWARD LAMB, Toledo attorney, publisher and owner of WTOP Toledo, WTVN (TV) Columbus and WICU (TV) Erie, Pa., visited the White House Wednesday and received a pledge of support for Pennsylvania and Ohio Democratic Congressional nominees. Mr. Lamb reported President Truman said he would campaign for a Democratic Congress as strongly as he did for his own election in 1948. The President said he will make personal tours of Ohio and Pennsylvania this spring and fall for that purpose, according to Mr. Lamb.

Mr. Lamb was accompanied on his White House visit by David S. Lawrence, mayor of Pittsburgh. Earlier in the day they had met with Sen. Francis Myers (D-Pa.) and William Boyle, Democratic National Chairman.

In a news statement, Mr. Lamb said he would not enter the Democratic race for the U. S. Senate in Ohio, but that he would support the Democratic nominee against Sen. Robert Taft (R-Ohio).

Sisters Expected To Join Legal Fray

MRS. CHRISTINE BOYD LEE WITHERSPOON was expected to join her sister, Mrs. Elizabeth Boyd Lee Fry, in legal fight for $91/2 million estate of the late Thomas S. Lee, owner of Don Lee Network and other properties [BROADCASTING, Feb. 13].

Adopted daughters of the late Don Lee have both legal status as sisters of Thomas Lee, and therefore are his closest heirs-at-law, attorneys point out. Previously it has been believed that Mrs. Ann S. Pate of San Marino, Calif., his maternal aunt, was Thomas Lee's closest living relative. Mrs. Fry already has retained Jerry Giesler and Harry Mabry, attorneys in the case.

Public administrator Ben H. Brown, appointed special administrator of the estate Feb. 10, is expected to be made general administrator when petition is acted upon next Thursday in Los Angeles Superior Court.

In a will made in 1934, Thomas Lee left his entire estate to an uncle by marriage, R. Dwight Merritt, Seattle lumberman, "to be divided amongst his nieces.

Don Lee, father of Thomas Lee, adopted Christine and Elizabeth in 1920 after his marriage to their aunt, Mrs. Annabelle Torbett Lee, his second wife. He divorced her in 1926. When Don Lee died in 1934 he left $1 each to the sisters. Remainder of the estate went to his son, Thomas.
FM LISTENING RISING

STEADY increase in FM set ownership and listening in the New York metropolitan area is shown in a series of three surveys conducted by The Pulse Inc. and analyzed by the NAB FM Dept.

In homes that have both AM and FM, 37% of the total listening time was devoted to FM, NAB's analysis shows. The analysis was conducted by Edward L. Sellers, director of the FM Dept. Broken down into hours, it was found that the daily FM average was 1.0 hours compared to 2.66 AM, a total of 4.26 hours.

Three Months Covered

The figures apply to the months of July and October, 1949, and January, 1950. The data show FM listeners are loyal listeners. NAB suggests this indicates FM is of "real value" to the AM operator of an FM affiliate and becomes more valuable as AM sets become obsolete and are replaced.

Distribution of FM homes in the 10-county New York area is about equally divided between the low and high income groups, it was found, with FM serving all elevations of the socio-economic strata and being strong in the low-income groups.

Good Increase

In the July-January period it was found that the number of New York homes equipped with FM diols increased to nearly 573,000. FM's potential audience in the area as of January 1950 was estimated at 2,005,000, based on receiver distribution.

Numerous reasons were cited for purchase of FM receivers, with 10.5% saying they bought for lack of static, better reception or desired FM, all exclusive FM trademarks; 11.0% bought FM for better music, more musical music; better musical programming; 27.0% chose TV sets with the FM band; 21.4% chose a new radio with the FM band.

RACE RESULTS

Bill Would Ban Use of Radio

A PROPOSAL for legislation to outlaw interstate dissemination of race results by radio or other means for illegal use was advanced last week at the Attorney General's Conference on Law Enforcement Problems, held Wednesday in Washington.

The proposal was referred to the legislative committee for study and report by April 15.

A major problem to be solved in any such legislation, authorities pointed out, is the distinction to be drawn between broadcasts of racing information for legal purposes and those for illegal purposes. The resolution, which had the endorsement of the American Municipal Assn., would not be designed to prohibit dissemination of legitimate sports information.

Benedict F. Cottone, FCC general counsel, discussed FCC regulatory aspects, particularly with reference to uses of telephone and telegraph. He also cited the so-called WWDC Washington case of January 1948, in which FCC held with respect to broadcasts of horse race information that "the intent or design to assist the carrying on of illegal activities must be reasonably evident."

Attorney General J. Howard McGrath, who called the meeting of federal, state and local officials to map a campaign against organized crime, urged the active support of radio and press.

NEW feature publication, On Air, released by the RCA Engineering Products Dept. to supplement its bi-monthly Broadcast News, gives latest RCA information on new equipment and developments in radio and TV field.

Milestones

- Reported the oldest continuous commercial program in the Southwest, Mrs. Tucker's Smile Program, marked 17 years on the air Feb. 15, with its 2,100th program on KWWA-Dallas. Since 1933 the musical show has helped build the sales of Mrs. Tucker's Foods Inc., Sherman, Tex., maker of Mrs. Tucker's Shortening and Maid-Rite Margarine. It has made extensive use of the Texas Quality Network.
- Employees were feted at a party given by KSD-TV St. Louis in celebration of its third anniversary. Station claims to be the first post-war video outlet in the country.
- WATO Oak Ridge, Tenn., Feb. 1 celebrated its second birthday.

CELEBRATING his 11th consecutive year on the air under the sponsorship of the Continental Oil Co. is Stu Mann (center), heard nightly over WLOL Minneapolis, the Twin Cities' MBS outlet. Originator of the In the Bleachers show, Mr. Mann is presented another year's renewal of his contract by Ozzie Haggeland (l), Twin City manager for Conoco, and C. D. Carlson, Chicago divisional manager for Conoco.

NEW to-page publication, On Air, released by the RCA Engineering Products Dept. to supplement its bi-monthly Broadcast News, which gives latest RCA information on new equipment and developments in radio and TV field.
EVEN hour on the half-hour, CHUM Toronto airs its Teletexh News. In this show, listeners who have witnessed news events, such as accidents or robberies, call station and report. Items are checked with police and fire departments, hospitals, etc., before being used. Listeners are paid up to $5 for each item used by station.

**Musical Talent Hunt**

MUSIC instructors in Washington high schools act as talent scouts in a contest currently being conducted over WMAL Washington. Most talented children in local high schools are entered in contest to determine two winners of $500 scholarship prizes. Different high school auditorium is scene of weekly broadcast with students in that school presenting their accomplishments. Show is sponsored by Hamilton National Bank, Washington, and aired Sunday at 5 p.m. Trophies are awarded best group performances.

"Court" Praised

**tribute** to DuMont TV Network's "Court of Current Issues" and its originator, irvin Paul Sulid, was voiced by Rep. Frederic H. Coeort Jr. (R-N.Y.) in Congressional Record Feb. 9 issue. Rep. Coeort cited program, telescast Tuesday, 8-9 p.m., as example of visual location, praised Mr. Sulid for bringing it "virtually thousands of homes," and noted latter had received nomination from WPFW in recognition of program's second anniversary. Rep. Coeort expressed hope Court of Current Issues would continue its "splendid work" and felt that if similar programs are developed and presented through television, "we can look forward to a period in our immediate future when we will have the best informed public of any nation in the world.

**Charity Children Star**

CHILDREN who are wards of Catholic charities Institutions in New York are stars of new variety revue on WUFV FM Fordham U., New York. Series will last for 13 weeks and highlight different orphanage each week. Various celebrities, such as Eddie Dowling, actor and director; Connee Boswell, singer; Etbel Waters, singer and actress, act as guest m.c.'s. Production is handled by members of radio classes at Fordham.

**TV Covers Flood**

MOBIL unit of WCPO-TV Cincinnati covered high waters from bank of Ohio river for reportedly first major news event displayed over TV in that area. Site for telescast was under suspension bridge over river in Covington, Ky. Flooded downtown river front of Cincinnati was shown in two 15-minute periods. Jack Fogarty, WCPO newscaster, was narrator.

**Congressional Issues**

SERIES of weekly programs, Meet Your Congress, aired from Washington, are currently being presented over WHAT Philadelphia, Monday, 8:30-9 p.m. Most important issue under discussion in Congress is chosen by Blair Moody, who emcees show, and Congressmen who will be most influential in deciding its outcome discuss it with Mr. Moody.

**Trying To Top**

SHUFFLE bowling is added to sports attractions offered over WFIL-TV Philadelphia in new weekly series, Try the Champ, aired Monday, 9-9:30 p.m. Shuffle Bowling League has been holding elimination tournaments in area of nation for choosing players who will appear on show. Contestants who have won out as local champions will compete with one another. Show is sponsored by Shuffle Bowling League of America which hopes to place many of its "Shuffle-Alley" machines in local recreation centers.

**Network Honors City**

IN HONOR of 100th anniversary celebration of San Luis Obispo, Calif., two Don Lee network shows originated from that city. Shows were Frank Hemingway newscasts and Breakfast Gang. Don Lee executives, including Pat Campbell, vice president in charge of station relations, and Tony LaFaro, director of network operations, attended.

**States Spotlighted**

NEW half-hour weekly television show starting Feb. 22 on KNBH (TV) Hollywood spotlights different home state each week, with participating audience made up by former residents of the state. Also featured are guest stars from particular state. Bill Welsh is m.c.

**Panel of Sports**

**WEEKLY** half-hour evening sports program with leading Canadian sports columnists is aired by CFRB Toronto. Program features review and commentary on week's sports and has panel of five Toronto sports writers and guests with m.c. The Sports Writers Show is sponsored by a Toronto automobile agency.

**Bridge and Sports Added**

WEEKLY schedule of WORC (TV) Washington has added The Art of Sports and Ladies' New Bridge. First show, aired Thursday, 7:15-7:30 p.m., features Jim Simpson, sports director. Outstanding professional and semi-professional athletes exhibit their techniques before cameras. Second show is conducted by William Lyons, contract bridge expert, who uses point-count table and charts in demonstrating art of bridge. Show is heard in same time slot on Friday.

**WAZL SURVEY**

**School Listening Rated**

A COMPOSITION writing assignment for elementary school students gave WAZL Hazelton, Pa., an opportunity to determine pupils' listening preferences in that city. Some 180 pupils of the A.D. Thomas Memorial School's fourth, fifth and sixth grades were assigned by their language teacher, Miss Grace Kleckner, to write a composition on the subject, "I Received a Radio for Christmas." As part of the composition, the students were asked to name their favorite radio programs, rating them as "best," "good," and "bad." Hearing of this, WAZL asked Miss Kleckner for the papers and compiled the results. NBC's Baby Snooks program received the most votes for first choice by all three classes followed by MBS's Straight Arrow and Roy Rogers. As separate preferences, the fourth graders selected Baby Snooks, the fifth grade pupils Straight Arrows, and the sixth graders' votes were split for Baby Snooks, and NBC's Life of Riley. WAZL, which is affiliated with both NBC and Mutual, compiled results into a booklet for distribution.

**AFA CAMPAIGN**

**Tops Previous Drives**

THE THIRD Advertising Federation of America campaign to promote public understanding of advertising has topped all previous drives, according to Ralph Smith, executive vice president of Duane Jones Co., chairman of the committee in charge.

A new record also was set when radio stations took advantage of the transcription offer to order 715 platters. The campaign, opened Oct. 20, cooperated with other media to show how advertising reduces the cost of most consumer items.
New North Carolina fulltime 250 watt small market station seeking experienced fulltime sales. Salesman must be interested in station if proven satisfactory. Box 106E, BROADCASTING.

SLASH

FILM PRODUCTION COSTS

with the Fairchild PIC-SYNC* Tape Recorder

*Pic-Sync means "in sync" with picture camera regardless of tape stretch.

Each time you retake a sound track, film production costs go up. The waste of film stock and the time delay for processing increase operating costs immeasurably. You eliminate these extra costs with the Fairchild PIC-SYNC Tape Recorder. Play back the sound at once ... check it ... erase the track ... retake the sound before the talent, the set and crew are disbandied.

Now Use 1/4" Tape For All Original Sound Tracks

Fairchild's development of the PIC-SYNC feature makes possible the use of 1/4" tape. Sprocket driven magnetic tape is costly.

- 1/4" tape costs 80% less than 16 mm magnetic tape.
- 1/4" tape requires 50% less storage space.
- 1/4" tape is easier to handle.
- 1/4" tape assures more intimate contact with the heads.
- 1/4" tape has more uniform coating—less amplitude flutter.
- 1/4" tape eliminates roughness of tone caused by sprocket drive.

Bulletin fully describes the new PIC-SYNC Tape Recorder. Send for your copy today.

TELEVISION
SAFETY SOUND TRACK RECORDING

CBS-TV saves $24.00 per hour by making safety sound tracks of television recordings with the Fairchild PIC-SYNC Tape Recorder.

Southwest Independent

$40,000.00

This 250 watt fulltime independent was established in 1948, equipped with Western Electric, new at the time of installation, sound-proof studios, two miles from heart of city, antenna on grounds making possible combination men and low operating cost. Only station in city where newspapers estimate population in excess 20,000.

Present owner involved in several other businesses and cannot devote much time to operation of station. Experienced owner with the knowledge should net $20,000.00 a year. Terms can be arranged.

by the SECRETARY

WASHINGTON, D.C., March 31 — The Federal Communications Commission announced today that it has granted a new license to KWW, a new local television station, Channel 32, at Kansas City, Mo. The station, which is scheduled to begin operations in April, will carry the programs of the Kansas City Star. The station is owned by the Star, which also operates two radio stations in the area.
HIGH-POWER TRANSMITTING TUBES FOR AM

Big stations serving big areas know G-E triodes will keep them on the air effectively... dependably!

YOU have plenty at stake in the performance of your power tubes. On them, your station owners, advertisers, and listening public all rely in terms of signal volume and continuity. Play safe by choosing General Electric! Install superior tubes... as built by a foremost manufacturer, and backed by a responsibility that is alert to your needs and to the importance of your tube investment.

All commonly used types, such as those illustrated, are in the G-E line—many of them water-cooled or forced-air-cooled according to your requirements. Also, there are G-E modulator and driving-stage tubes; receiving types; rectifier tubes of all capacities for a-c to d-c conversion.

You can get all General Electric tubes for broadcasting from one source—your G-E tube distributor. He's near you, so in a position to give fast delivery. Moreover, his extensive and varied stock enables you to economize in respect to your own inventory of "spares."

Phone your distributor today! Learn how he can help you keep tube performance up, costs down. Also—ask him for your copy of the new booklet on increased tube life prepared by G-E engineers as an aid to radio-station operators. It's free! Electronics Department, General Electric Company, Schenectady 5, New York.

GENERAL ELECTRIC

GL-891-R and GL-892-R
10 kw power output typical operation, Class C Telegrap-phy. (The two tubes are similar except for the amplification factor, which is 8.5 for the GL-891-R, 50 for the GL-892-R.)

GL-9C22
65 kw power output typical operation, Class C Telegrap-phy.

GL-895-R
84 kw power output typical operation, Class C Telegrap-phy.
DeKalb.

From where I sit
by Joe Marsh

"Left-Handed Compliment"

See where a bank in Denver is putting in left-handed checkbooks. They figure their southpaw depositors deserve just as much consideration as the right-handers.

Time was when left-handed people had no right to exist at all. If a youngster even showed signs of using his left hand, his parents were supposed to break him of the habit—to force him to use his right!

But today most doctors will tell you that changing a child's natural left-handed tendency usually causes more harm than good. Stammering and other nervous disorders often get their start that way with children.

From where I sit, if a man wants to use his left hand—that's his business. It's not a good idea to make anyone do things our way, because we think it's right. Personally, I think a mellow glass of beer is the finest beverage on earth. If you happen to prefer a Coke—why, go to it! Only leave me the same freedom of choice, won't you?

Joe Marsh

FCC HITS NBC SAT. PLAN
Says Network Rules Violate

FEBRUARY 20, 1950

Page 2 • TELECASTING

FCC HELD last week that NBC's arrangements for its forthcoming 21/2-hour Saturday night television series violate the Commission's Network Rules, and started handing out temporary licenses to affiliates which had agreed to take all or part of the show.

The Commission called upon NBC and 18 TV affiliates for sworn statements on the subject by next Friday, day before the series is slated to start. Meanwhile FCC set aside the license renewals granted to WPTZ Philadelphia and WMJ-TV Milwaukee last month and put them on temporary licenses instead. Spokesmen said the other affiliates involved do not yet have regular licenses or are not currently up for renewal.

Whether FCC will call hearings upon the license renewal applications of the network's owned stations and affiliates which had agreed to take the Saturday night show will be decided after their comments have been received and studied.

NBC Statement

NBC meanwhile released a statement saying it "has kept the Commission informed of its plan for Saturday night television and its efforts to take care of the viewing requirements of the smaller advertisers. We will proceed with our Saturday night program under whatever arrangements the Commission may deem appropriate."

It was learned on good authority that the network is prepared to revise its Saturday night arrangements—particularly the station arrangements—if necessary to stay within FCC regulations. Network attorneys were known to be studying the situation with a view to making modifications.

The network is determined, however, to present the variety type program, featuring Sid Caesar in New York and Jack Carter in Chicago, beginning Feb. 25 as scheduled.

FCC's action was disclosed Thursday in letters sent to NBC and the affiliates concerned.

It related to the second of two offers NBC had made to affiliates for 2 1/2 hours of time on Saturday (8-10:30 NYT) for a 13-week series [TELECASTING, Jan. 9, 30, Feb. 6]. The first offer was withdrawn after DuMont Network protested and asked FCC to investigate. Neither the first nor the second offer named the advertisers who would buy the time.

In its letter, FCC held:

- Since NBC did not cancel its first offer to affiliates until it made the second, stations which had accepted the initial offer had in effect given NBC an option and were not free to reject the period to accept any other program.

- Similarly, the second offer also secured an option for NBC, because stations which accepted it were bound while NBC was not until a "sufficient number of affiliates" had accepted.

- Since the series was to start Feb. 25, the "option"—or offer—"is in violation of Sec. 3,654 of the Commission's Rules and Regulations in that by its very term it can be exercised on less than 56 days' notice and is exclusive as against other networks."

The Commission found the arrangements "objectionable" for other reasons. Purchase of time for resale to unidentified advertisers, FCC said, "raises serious problems in light of the Commission's consistent policy against time brokerage arrangements which impair the maintenance of licensee responsibility."

FCC letter continued:

... In the second place, the order was for a segment of time to be used for programs which appear to have no inherent unity necessitating such a large block of time and which were to be sold to sponsors who apparently were not to know how long until after the stations solicited had committed the time to NBC for such sale.

The NBC requested a firm commitment but did not, as to itself, offer a firm commitment, inasmuch as the order was "subject to confirmation of acceptance by a sufficient number of affiliates to justify our proceeding," and compensation to the stations was to be computed as if each half hour were being sold at the station's half-hour rate.

When viewed together, these elements indicate that what is in fact created is an exclusive affiliation with NBC and an exclusive option for two and one-half hours of time (or such shorter period as the station may have accepted) to be resold by NBC to unidentified advertisers. This would have the effect, particularly in one-station cities, of removing competition for advertisers and stations insofar as such stations have accepted your offer.

The time is thus set aside for the exclusive use of the NBC, to be claimed by it at its discretion on less than 56 days' notice, and is effectively removed from the competitive field, since any potential advertisers who may desire to purchase for network or other programs, at the time of the stations which have been so committed (i.e., assigned to NBC, have no alternative but to deal with NBC only for such time.

It is apparent that, on these stations which have accepted the NBC offer, no other network would be able to compete with NBC to obtain suitable potential advertisers to sponsor programs of that other network on its particular time committed to NBC.

FCC acknowledged that NBC second offer "appears to have less restrictive competitive effect than the first because TV stations in one or two-station community areas are permitted, under the second offer, to accept it in whole or in part. Even so, FCC held, acceptance of the offer "creates an option in favor of the NBC as to the time of acceptance by such stations."

Television stations to which are addressed letters calling for sworn comments by Friday, described as having agreed to take all or part of the program:

WMCT Memphis, WISY-TV Syracuse, WPTZ Philadelphia, WTMJ Milwaukee, WBAL Baltimore, WOR New York, WGR Buffalo, WGR Sew York, WGR Richmond; WCV-UTica, WLWT Cincinnati, WLWT Dayton; WULSD Denver; WULW Columbus; WNCW-TV New Haven, WDEA Baltimore, WELTV Detroit; WBRZ-TV Boston; WSPD-TV Youngstown, WOAC-TV Providence, WLA TV Grand Rapids.

NBC owns and operates WNB New York, NBWB Washington, WNBK Cleveland, WNBQ Chicago.

Forecast: Continued 32°

NO END of the TV freeze is seen by FCC Chairman Wayne Coy before late summer, and he thinks it may be much, much longer—perhaps eternity, judging by his observations during House appropriations hearings (see story page 26). He was asked pointblank when the freeze would be lifted. After an off-the-record discussion he gave this reply: "We begin the hearings again on the 20th of February. I have no clear idea how long that is going to take. I do not see how we can possibly get out of the freeze before the latter part of the summer. I cannot say we will get out of it."

MONOPOLY IN TV?

Johnson Threatens Prob

THE THREAT of a Congressional investigation of alleged monopoly in television was held out by Sen. Ed C. Johnson (D-Col) last Thursday in a Senate speech hitting out at "the propaganda drive" to lift the TV freeze.

The radio-minded chairman of the Senate Interstate and Foreign Commerce Committee noted that there has been talk of a Congressional investigation of television generally and the freeze in particular. He said:

... If there is to be an investigation of television by Congress, let's have one which goes into monopoly controls and patent holding devices and restrictions. Nearly a year ago technical data came into our committee's hands which would provide an excellent basis for investigating television patent monopoly problems. Our committee may decide that the time has come to thoroughly explore what is going on, but when it does so, it will be an investigation to determine who is calling the shots, and why.

Sen. Johnson said the "campaign to lift the freeze is an artificial fog, spread by expert, high-powered propaganda artists aided and (Continued on Telecasting 13)

RMA MULLS TV ISSUES

MINEENCE of color television, ways to promote fast lifting of the FCC freeze and arguments against the proposed 10% excise tax on TV receivers, were 2 problems discussed by the board and National Committee members of the Radio Manufacturers Assn. at its quarterly meeting last week in Chicago.

Best turnout for any of the 10 meetings planned for the year, was recorded at the Thursday afternoon TV session, when Chairman Max F. Balcom of Sylvania Electrical Products Inc., reiterated the FCC freeze and pressed for a vote. RMA leaders presented a formal presentation against the proposed excise tax, which Treasury Secretary John W. Snyder hopes to levy for additional revenue, tomorrow (Tuesday) with the radio and TV and Means Committee. RMA will be represented by Washington Attorney Joseph Hayes, former congressman from Massachusetts, along with executives from a few TV-manufacturing firms.

The presentation is designed to show how such a tax would hurt a new industry and to protect it in the early stages. RMA will attempt to show that the tax will hit mainly low-income groups.

Drafting of a code of ethics for TV receiver advertising was reported on by Walter L. Stickell, sales manager, DuMont Receiver Div., as a head of a special committee, he is organizing recommendations on advertising standards after buyers' complaints regarding exaggerated claims and counter claims. Working for the industry to police itself, the committee is cooperating with Better Business Bureaus. When drawn, the code will be submitted to sales managers of set manufacturing firms next month in New York or Chicago.

A preliminary report on claims by some athletic groups that TV lowers gate receipts was presented by an investigating committee. It is collecting information to counteract these claims and will probably present its findings to the National Collegiate Athletic Assn., among others, at its next meeting in June.

Poll Results

An informal poll at the Thursday luncheon, asking for manufacturers' estimates on TV set production for 1950, exceeded any previous guess. Manufacturers predicted that 4 1/2 million sets would be made this year.

RMA President Raymond C. Cosgrove will appear before the FCC Feb. 27 as the second witness in hearings concerning lifting of the freeze. RMA is expected to take a strong stand in requesting the thaw, on the ground that technical problems now are solved in the main. RMA's stand on color TV is that it should be held back until it is proved compatible and of comparable quality with black and white.

Forty-two board members and eight other men on executive committees, representing almost as many production firms, took part in individual committee meetings Wednesday and Thursday. Among these committees, with their chairmen were: Sets, H. C. Bonfig, Zenith; parts, A. D. Pimondon Jr., Indiana Steel Products; Amplifier and sound equipment, A. G. Schirano, Stromberg-Carlson; finance, Leslie F. Muter, Muter Co. The concluding day, Friday, was to feature a board meeting from 10 a.m. until 3 p.m.

New appointees to the National TV Systems Committee, industry-wide group of technical experts preparing color standards and gathering technical data on the freeze were named by the chairman, Dr. W. G. Baker of General Electric. Their duties compare with those in 1941 of persons on a similar committee which was organized at the request of FCC to

AT&T WU RATES

BOTH American Telephone and Telegraph Co. and Western Union Telegraph Co. have filed revisions of radio relay facilities. FCC reported that it was requested to further amend its schedule by the Commission last December.

FCC directed AT&T to revise its proposal so as to provide network service where an outlet picks up programs off the air and feeds them to the AT&T relay. The revised tariff, to become effective March 1 as ordered by the Commission, presently does not allow such a situation. The telephone company will permit its intercity channels to be used as part of a TV network where some of the stations on that network re-broadcast programs which

service black and white TV in the same way.

To the National TV Systems Committee were:

E. E. Passow, producer, TV department, WMWR-TV, Baltimore; the National Broadcasting Co.; W.B. Smith, vice president, Philo Corp.; C. E. Elmer, executive, president, RCA; Raymond F. Guy, Television Broadcasters Assn.; Ralph Harmon, Westinghouse Electric Corp.; J. E. Brown; Zenith Radio Corp.; A. G. Jenkins, vice chairman, Bell Telephone; Dr. E. Dickson is chairman, assisted by Mrs. Fink, vice chairman; Mr. Smith, vice chairman, and Mrs. Martha Kinzie of General Electric as secretary.

File TV Tariff Revision

Question in Hearing

The question of whether or not to allow physical interconnection of AT&T and WU channels is now in hearing, begun last month and to be resumed March 6 [Broadcasting, Jan. 30]. AT&T opposes such interconnection. WU would allow it, according to its pending tariff proposal. Also pending is FCC's overall hearing on reasonableness of charges of the Bell System and WU for TV transmission facilities. No date has been set for the resumption of this proceeding.

The Commission indicated it expected AT&T to file the new revision promptly. FCC in addition asked AT&T to file and advise the Commission concerning further revision of the tariff schedule to provide for interconnection with broadcasters' intercity TV radio relay channels at appropriate points other than at studios on TV broadcasting transmitters.

EMPIRE TOWER

WPIX(TV) Contracts for Use

AGREEMENT enabling WPIX (TV) New York, Daily News outlet, to transmit its signals from the world's tallest structure, the Empire State Bldg., was reached in a contract signed last Thursday by F. M. Flynn, president of WPIX, and Gen. Hugh A. Drum, president of Empire State Insurance Co.

The independent TV station became the third video outlet to arrange for transmission from the multiple-use TV tower, scheduled to be installed atop the building this month. NBC's WNBC-TV and ABC's WJZ-TV already have signed similar contracts (Telecasting, Jan. 30).

WABD (TV), DuMont outlet, also is expected to follow suit. Until the 199-foot tower is completed, WPIX will continue to transmit at full power from its antenna atop the Daily News Bldg. at 220 E. 42nd St.

Arrangements also were made to house the WPIX transmitter and additional high power amplifiers, and to provide space for WPIX facilities to color television when approved by FCC. WPIX will install all new equipment in the Empire State Bldg.

WPIX was represented in the negotiations by the law firm of Townley, Updike & Carter; Empire State Inc. by Cadwalader, Wickersham & Taft.

These officials of the Belmont Radio Co. and the Crosley Broadcasting Corp.'s video stations meet to discuss the wrestling matches which originate in the WLWD (TV) Dayton studios. L to r, James Leonard, WLWC (TV) Columbus; Pete Lasker, WLWD; Robert Brown, Belmont Radio Co.; John Murphy, WLWT (TV) Cincinnati; Alfred Henry, Belmont Radio Co., and William Guenther, Reiser-Guenther Advertising Agency. Sponsered by Graybar Electric Co., distributor, in cooperation with the Belmont Radio Co., the wrestling matches are a regular feature of the three stations' Saturday schedule.

February 20, 1950
A Non-Network Station in Los Angeles Passes
The Competitive Test With Flying Colors

An independent TV station is not news, but an independent TV station which ranks so high in a seven station market is decisively newsworthy. The station: KTLA (TV) Hollywood, owned and operated by Paramount Television Productions Inc.

KTLA became the first Los Angeles commercial television station, Jan. 22, 1947, with the fanfare which befits an enterprise of Tumey Motors (Ford dealer).

While the Hopes, Colonnas and other "names" dominated the opening night's proceedings, they have not been used since to spark the station to its enviable audience acceptance. In fact, the "why" of KTLA's success has been a matter of considerable trade conjecture.

The question naturally arises: How does KTLA hold its position in the face of the strong competition? Opinions vary. The most obvious factor is the station's operation every day and the fact that it has been doing so for some time, thereby becoming a habit.

But that is not a completely satisfactory answer, say some observers. The station is most active in "remotes." This is believed to add some strength to its programming schedule. Other observers do not attempt to define it too finely but attribute considerable of the success to the driving force of Klaus Landsberg, West Coast director of Paramount Television Productions and general manager of KTLA.

Still others feel that one reason for the station's widespread acceptance springs from the fact that it gets on the air usually before its competition and usually remains on longer than most of its rivals.

Additionally, it is felt that once a viewer knows that he can find a station telecasting most any time he turns his set on, he soon builds the habit.

While all manner of diagnosis might be undertaken, it is difficult to attribute the phenomenon to any one factor. The likelihood is strong that those covered, plus still others all combine to produce the result.

Since there is little doubt that Mr. Landsberg has contributed much to the success of the operation, it is well to examine his background for further clues. But there is one thing that his background won't explain and that's an average work-day of 14 hours with a short average Sunday of "only six hours." He is unable to explain the source of his energy except that his father "worked harder." Even in the face of this draining schedule, Mr. Landsberg reports "no ulcers or other disorders."

Active in radio since 1926, he has been in television since 1935, having started in Europe. While there, he also was active in several theatrical groups; scholastically he holds several degrees from European universities. In this country he has been associated with Farnsworth television in Philadelphia; NBC's television division in New York and DuMont, also in the latter city.

Since 1941, he has served as managing director of Paramount's television on the West Coast, first putting the station on in September 1942, known as WEZY. And his efforts have not gone unrewarded. In 1944, the Television Broadcasters Assn. award went to him for adaptation of motion picture technique to television. In 1945 he won the American Television Society award for continued excellence in television production.

TBA again cited him in 1946 with the gold medal award for public service. In 1948, his station received the outstanding achievement award from the Academy of Television Arts & Sciences, and on Jan. 27, 1950, the academy selected KTLA as "the outstanding television station in Los Angeles in 1949." In the same group of awards, the station received an EMMY for its Time for Beany, cited as the "most outstanding children's program of 1949." Honorable mention was received in the public service and sports coverage categories.

Aside from the obvious duties which absorb the time of a management executive, one is liable to find Mr. Landsberg at the site of almost any remote. Psychologists might be inclined to relate this to the impulse of following the fire engines, but to Mr. Landsberg it's fun.

And once on the scene, he is very likely producing the remote. When there are remotes on two successive nights, he usually has the second one handled by either Charles Theodore, operations supervisor, or John Silva, remote operations supervisor.

Through Mr. Landsberg's influence...
Proud of his over-all program operation, he prefers to point to the success of some of the locally built programs which have attained widespread popularity. Among them are:

Time For Beany—The five weekly, 15-minute puppet show has attained a local acceptance which keeps it in a nips-and-tucks rating race with Kukla, Fran & Ollie. Strip is sponsored by Tea Time Candies. This show also is available to other stations via Paramount Video Transmission and is seen in New York, San Francisco, San Antonio, San Diego, Chicago, Cleveland, Dallas and other cities.

Meet Me In Hollywood—This once weekly, hour-long man-on-the-street format is done from the corner of Hollywood Blvd. and Vine St. Two interviewers are used to interview people and "names" are occasionally injected.

Boxing—Weekly bouts are telecast from an arena which features amateur boxers exclusively. More than a year ago when KTLA was then telecasting professionals from another arena the station found that boxing managers feared a threat to the gate. Since shifting to the amateur arena, station is well-liked by the promoter with increasing his attendance 300%. Sponsorship is shared by Emerson Radio Corp. and McMahan Furniture Stores.

Hollywood Opportunity—Programming is essentially a talent contest type of show. However it is differentiated from the strictly amateur category by the fact that most of the entertainers have earned money, but are little known. The program is sponsored by Olimpic Television and Park Camera.

Handy Hints—This is a five weekly, participation featuring a man and woman team in sell and demonstration format for a variety of products. This started originally as a once-weekly program and commercial business has aided its growth to its present across-the-board status.

Hopalong Cassidy—While this is now a popular feature in many markets, it is significant to note that the series has been running on KTLA for more than 18 months. It is currently sponsored by Barbara Ann Bread.

Spade Cooley's Western Varieties—Weekly hour format featuring the well-known western performer from a Los Angeles area ballet attended by devotees of western music and acts. Program is sponsored by Central Chevrolet, Los Angeles dealer.

These are typical of the station's programming which has been averaging approximately 42 hours weekly on the basis of five hours per day Monday through Saturday and 12 hours on Sunday. Starting Dec. 4, 1949, the station extended its Sunday operation back into the daytime, adding Jalopy Derby and Bandstand Revue. Both are remote.

The former are auto races between jalopies rather than middlets or conventional racing cars. The show is backed by several local Chevrolet dealers. This program had been on the station earlier and placed in the top 10 highest rated programs for Los Angeles. The mail volume which followed its being dropped was higher than while the program had been on, according to Mr. Landsberg. It was on this program that the station introduced Los Angeles television to the Video Reflectar, the lensless lens for long distance work developed by Dr. Frank Back, creator of the Zoomar lens.

Bandstand Revue is an hour remote from the Aragon Ballroom in Santa Monica, featuring "name" bands and four acts in an over-all variety format. This program is sponsored by Central Chevrolet.

Just as natural as program excellence is commercial success. Starting in January 1947, the station had a total of five advertisers. One year later the station had managed to boost its total for the same month to 24 advertisers. By January 1949 the station's sponsors had grown to 46 and there are now about 85 advertisers using KTLA's facilities. An index to the ratio of sponsored time may be seen in the week of Nov. 14 when 25 of the 26 hours telecast were sponsored. In the last week of January KTLA signed six major shows for sponsorship.

Heading up the station's sales operation is Harry Maynard, formerly assistant office manager of BBDO, Hollywood. Earlier in his career he had been a motion picture actor, assistant director of films, publicity and public relations practitioner. All this in addition to serving in both World War I and II.

Among the success stories of selling via television and KTLA are:

As part of a special one hour telecast from the Broadway Department Store in Hollywood, there was the rough equivalent of a participation, demonstrating an item known as Toast-Tite. Not advertised elsewhere, this led to a sale of 600 items within four days and better than 1,000 sales of the item within a week.

Two announcements, inviting Hopalong Cassidy viewers to join the Troopers and get their copies of the Trooper News, produced 10,000 replies in the first three days and more than 30,000 within two weeks.

An auctioneer named Lewis S. Hart decided to try television to stimulate traffic for his sales. Thus he purchased several remote telecasts from his auction store. According to Mr. Hart, one man dropped in following one of these telecasts, which are not done on a regular basis, and bought more than $2,000 worth of merchandise. He advised the proprietor that he learned of the establishment via KTLA. All told, Mr. Hart reports that his television expenditures have cost him nothing, merely on the basis

(Continued on Telecasting 9)
THE LONE RANGER is wearing a new mask—a polaroid one which filters out excessive light and exercises youngsters' eyes as they are entertained. This novel eye treatment was developed by a Chicago optometrist, Dr. Carl Shepard, after he complained that his children were squinting and developing eye tics while watching television.

"TV is not injurious to anybody," claims Dr. Shepard, who appeared on a special telecast and discussed video at the 42nd annual convention of the Illinois Optometric Society in Chicago last week. Principal reason why people have discomfort in viewing is that it is a new skill to which they must adjust. "Watching TV is as much of a seeing skill as reading, and, in all things new, it is necessary to relax."

Dr. Shepard pointed out that squinting comes from the tension which children watch their favorites. Eyes must be properly adjusted and focused without tension, he said.

The distance at which persons view a set is normally the distance at which they look ahead while walking. The difference, however, is that eyes are fixed while viewing TV and in constant motion while walking. The camera brings the action to the viewer, and this means that even more new viewing skills must be acquired, the optometrist said.

**Training Medium**

In a closed circuit telecast after a special demonstration on WGN-TV, Chicago, Dr. Shepard pointed out the use of video as a visual training medium. He showed how polaroid filters of different composition can be placed in spectators on the viewer for corrective treatment, and correlated with the polaroid filter over the TV screen. Any part of the picture can thus be blocked out for either eye, and a formula can be devised so that both eyes must be in continual use for the picture to be seen. This corrects a child using only or mainly one eye.

Children frequently sit too near the screen, "because the figures are small and doll-like and they want to hold them," the speaker said. Also, youngsters start squinting because of their great desire to see what is happening and their concentration on the screen.

Dr. Shepard, technical editor of *Optometric Weekly* for which he made and published an extensive study of vision in television, and consultant on TV problems to the American Optometric Society, conducted a TV demonstration during the live telecast. Using 4, 6, and 8- and 9-year-old children, a pair of twins, two adult women and an 81-year-old man, he demonstrated the differences in viewing for age groups. Children invariably hug the television set, a nearsighted youngster lets his attention wander and isn't bothered that he can't see, but an adult nearsighted woman immediately reaches for eyeglasses. The 81-year-old man found he benefited by standing well back from the screen, and the doctor recommended for him a slight lens correction.

"Television is a guest in the house, and, like any other guest, should be placed comfortably and strategically in a well-lighted corner, the doctor concluded."

---

**Advertor Offers New Services**

**EXPANDING its field of activity Advertorex Research, New Bruns-
wick, N. J., now is offering studies on product usage in television homes and the amount of effectiveness of television programs’ advertising.**

The reports are available on a subscription basis to advertisers, agencies and stations and the plan is based on two test studies conducted by the firm last year. In formation is gathered from television homes in New York, New Jersey or Philadelphia video areas. The service also is available for Baltimore, Boston and Washington at slight additional cost, according to Richard Bruskin, television director of Advertorex.

TELEVISION AFFILIATE OF THE COLUMBIA BROADCASTING SYSTEM
BASKETBALL ON TV

Lifting of U. of Washington Ban Is Seen

TELECASTING of U. of Washington basketball games by KING-TV Seattle, originally cancelled by the school, seemed a virtual certainty last week if the Feb. 17-18 games were a sellout. University officials had banned telecasting of the games, blaming TV for poor attendance [TELECASTING, Jan. 9].

Cancellation of the telecasts had stirred a storm of complaints and comments in the Northwest. The head of the state's basketball team, which was scheduled to be played by the University of Washington president, Stuart Carter, general manager of Harper-Meghee, Seattle RCA distributor, told a Washington State Press Club luncheon that more significant factors than TV were to blame for the decline in attendance.

The Seattle Post-Intelligencer, meanwhile, conducted a survey among 2,000 fans. Results of the poll showed that 98.9% favor telecasting the games, 96.7% said they would attend more games if telecast and 54.3% said they would be willing to pay part of the telecasting costs.

Contributing Factors

In his luncheon address, Mr. Carter said that factors to blame for the drop in attendance included a ticket price increase, description of the team as green, as well as unusually snowy weather for the season. He asserted that TV build interest, therefore helping to in crease, rather than diminish, attendance.

Commenting on the university's position, President Allen said that impact of television on the attendance at athletic events presents a difficult problem to all universities. He pointed out that basketball is the only two sports in the school's whole athletic program that carry their own weight financially.

GEIGER SUES

Claims Script Used by P&G

CLAIMING that one of his radio stories had been used under another name on the Procter & Gamble Fireside Theatre on NBC television last year, Milton Geiger, radio writer, last Tuesday filed suit for $100,000 damages for copyright infringement in U. S. District Court, Los Angeles. He seeks damages from NBC, Procter & Gamble, General Television Enterprises, Ace Pictures, Compton Adv. (agency for P & G) and Oliver Crawford, writer of the disputed television show.

Mr. Geiger through his attorneys, Harold A. Fendler, Robert W. Lerner, and Aubrey I. Finn, claims that the TV show "Another Road," produced by General Television Enterprises, was taken from his radio script "In the Fog," which has been broadcast several times in the past ten years.

Also being sought in the suit is an additional $10,000 for attorney's fees; an injunction against further use of the TV film, and destruction of all positive and negative prints of the film.

'Beany' Success

SUCCESS OF TIME for Beany children's television show on KTLA (TV) Hollywood was revealed recently when the sponsor, Budget Pack, offered a silver plastic train for 50c plus a Budget Pack wrapper to its juvenile listeners. Over $42,000 was received from 84,000 children in the 10 weeks of the promotion, starting reports. Ted H. Factor, Los Angeles, handles the account.

NABCASTING • Page 74
Telefile

(Continued from Telecasting 5)

of business he can directly attribute to the medium.

During telecasts from a home show, two spots of three and five minutes, respectively, sold $16,825 worth of waterproof coating. No other ad-
worn has been used. Any purchase attributed to TV could not be discredited in any way.

As a result of several spots, the Group Engineering Co. sold $56,000 worth of electric motors costing $10 each.

Another short spot seeking to sell a toy car priced at $6.55 produced slightly more than 900 sales. Some items were bought to help a mobile to disclose his identity, has averaged 10 new and used car sales per week for five weeks, directly attributable to TV.

Another automotive venture, involving several dealers who sponsor a program jointly, has produced 15-20 new cars per week among them.

The KTLA rate card applicable to the growing Los Angeles set circulation of 251,042 (as of Dec. 1, 1949, when rate card No. 3 was issued) covers Class A (7-11 p.m., Mon. through Sat. and Sun., noon to 11 p.m.), Class B (5-7 p.m., Mon. through Sat.), Class C (all other times, day and night, except periods reserved for coverage of outstanding special events).

Basic rates, not including live studio or film, are as follows: Class A—one hour, $300; 45 minutes, $240; 30 minutes, $180; 15 minutes, $120; 10 minutes, $105; five minutes, $75; one minute, $60. Class B—one hour, $165; 45 minutes, $120; 30 minutes, $95; 15 minutes, $65; 10 minutes, $60; five

WSYR-TV PLANS

Formal Dedication March 5

WSYR-TV Syracuse will be formally dedicated on Sunday, March 5, according to Harry C. Wilder, president. Operating on Channel 5 (76-82 mc) with test patterns since Feb. 10, the new station announced it has received reports of excel-

Radio Cincinnati, Inc.—Affiliated with The Cincinnati Times-Star

The Katz Agency — WKRC (om and tv)
Transit Radio Inc. — WCTS-fm.

WKRC WKRC-TV WCTS-FM

Page 75 • Broadcasting February 20, 1950

The station has two studios—measuring 35 by 50 feet and another 25 by 35 feet. It also has two complete remote units and Multiscopes. Additionally, the station has kinescope equipment which is used to record programs for other stations in the country which have contracted with Paramount for the service. All told, according to Mr. Landsberg, KTLA has more Hollywood ori-
ginated programs being seen else-
where in the country than is pro-
vided by any of the networks from Hollywood.

Heading up program activities for KTLA is J. Gordon Wright, production coordinator, who has been with the station since the fall of 1944 when it was known as W6XYZ. Earlier he had been with WNBT (TV) New York in addi-
tion to a background as industrial film writer, reporter, publicist and market researcher. Gordon Minter is program director.
The Color Problem

By ERNEST B. LOVEMAN
Vice President and General Manager
Philo Television Broadcasting Corp.
(WPTZ) (TV) Philadelphia

SEVERAL of us here at WPTZ believe that the predicament of a television broadcaster, if faced with the problem of adding color television on a non-compatible basis, has not yet been clearly explained either to the broadcasters themselves or to the FCC.

Let us examine, for instance, the problem of a typical television station, supposing that non-compatible standards for color television were to be adopted. If the broadcaster chooses to start telecasting color using his present channel allocation, then he must broadcast the color programs at a time that does not conflict with his present black-and-white schedule. Otherwise he will reduce his black-and-white service. Obviously, this is because the broadcaster starts color telecasting with an audience of practically zero—no receivers that can pick up the new color telecasts in either color or black-and-white.

Then the next step is, according to suggestions in testimony at the color hearing, to pick up the new color telecasts on a sustaining basis unless some rather improbable “angels” were found. Money spent for these sustaining color programs must come from the telecaster’s operating budget, normally. If he is operating at a loss on a small margin of profit, he cannot afford the further expense of sustaining color without cutting down on his budget for his present black-and-white programs. This would essentially prevent color telecasts which practically no one can watch, at the same time reducing his present service, which is his only source of revenue and is of value to the public.

In brief, the first objection from the standpoint of the broadcaster is reduction of present black-and-white program service, if the station should add non-compatible color.

Non-Compatible Problem

A second major difficulty is that with dual standards, or non-compatible color, the total audience for color would increase much more slowly than with a compatible system. Continuing our example of the typical broadcaster who has added non-compatible color, he can only afford to present a few sustaining programs in color at off hours. These are evidently the times when the potential audience is small, or they would now be used commercially. Hence with only these few off-hour programs available, there would be little incentive for the average person to make the costly investment in a new color television receiver.

Like the majority of both technical and lay individuals who are interested in color television, I firmly believe that very few people would buy a color converter for home use. Technical, esthetic and historical evidence on this point is overwhelming. People don’t buy converters. Hence when color comes, the public will buy it if they can afford it. The broadcasters among the public pay a premium price for those first color receivers of the future, although color are eventually there will undoubtedly seem to be many millions of customers.

However, looking at the suggestions about non-compatible color, the audience for color television would grow much more slowly than with non-compatible color for another reason. A broadcaster operating on compatible standards automatically retains his entire present audience. Thus he can put his color service on a commercial basis immediately. A good case in point is the NBC telecast of Kokla, Fran & Ollie on Monday, Oct. 10, at 7 p.m. from Washington, D. C., wherein thousands of network viewers did not realize that the program was telecast in color.

The third basic objection to non-compatible color from the television broadcast viewpoint develops logically from the first two points above. This third difficulty is that, with non-compatible color, the total television audience would increase at a much slower rate than any present estimates, based on present growth trends, indicate.

Effects Set Buying

At present, the controversy over color has had little effect on the sale of black-and-white receivers. However, we do know that some people are even now using color as an excuse for not buying a set now. If non-compatible standards for color were established, there would be a great many more people who would immediately defer the purchase of a receiver. Many thousands of present set owners, when they realized what non-compatibility means to them, would add fuel to this fire because of their disillusionment.

It would appear that the television industry had broken faith with them. Most set owners would blame the industry rather than the government, since the industry sold them their receivers.

Since television broadcasters base their hopes for eventual profitable operation on the steady growth of their audience, the adoption of non-compatible color would be a barrier across the path which telecasters have been climbing so painfully. It is quite possible that some television broadcasters, who have already suffered severe financial losses and who have not have much additional capital upon which to draw, might get disgusted with the entire outlook and throw in the sponge.

Basically, these arguments apply to a great extent even with a program of dual-channel operation such as was proposed by Philco as an “out” if non-compatible color must be adopted. If a station is offered a second channel in the upper UHF band for non-compatible color, presumably it will be used, when possible equipment is developed, to duplicate its programs in color or black-and-white. However, this could only be done at approximately twice the cost in station investment and operation without increasing the size of the audience.

This dual-channel operation might seem to be a great advantage, but would still be very expensive until the audience for color reaches sizable proportions. And this large expense for duplicating color equipment, operation and maintenance must be met, it would appear, only by reducing black-and-white programming and thus depriving the public of service it now gets.

Thus, from the TV broadcaster’s point of view as well as that of all leading manufacturers, distributors, and dealers, it would seem that a compatible system of color television would seem to be the only logical kind to adopt.

TV Organization

L. A. Outlets Form Group

REPORTEDLY dissatisfied with the operation of the Academy of Television Arts and Sciences, the seven Los Angeles TV stations have formed an organization this signed as “a collective effort for the benefit and advance of Hollywood television.”

Meeting a fortnight ago, management representatives also agreed that there should be an overall organization limited in its membership only to those actively engaged in the television broadcasting industry. At a subsequent meeting last Thursday, membership standards were formulated.

Visual Sales Pitch

WCPO-TV’s Lewis Clicks With Pen and Ink

AN ARTIST and performer at WCPO-TV Cincinnati has added a dash of salesmanship to make sales history for the station and for his sponsor, the Hay Construction Co.

WCPO-TV credits Al Lewis, accordionist, m.c. and artist, with developing a new visual technique and tailoring it for the video screen. The staffer’s brainchild is showing drawings he has sketched of various home styles available from the Hay Co. of Fort Thomas, Ky.

The station reports that in two days following the first telecast on Feb. 3, the firm sold five of its $10,000 new homes.

Series of commercials which are interspersed throughout the variety show aired Friday from 11:30 p.m. to midnight, display the floor plan, the exterior and then the finished and furnished interior of each home. Photo slides are used to show the home’s exterior and also shots are viewed of the furnished interior.

Primer of the technique is the camera closeup of each drawing as Mr. Lewis makes his sales pitch. Momentum is given by the selection from Mr. Lewis’ accordion and the vocal selections of a girl singer and a quartette.

A Broadcaster’s View
COLOR TELEVISION Inc., San Francisco, will demonstrate its one-tube all-electronic color TV system this morning (Monday) for the FCC. Demonstration will be held at 10 a.m. in the Congressional Room of the Hotel Statler, Washington.

CTI's laboratory was dismantled and hauled across the country to the Statler where it was being re-assembled last week in preparation for the demonstration. A half-dozen Statler rooms have been converted into a laboratory, with microwave relay mounted atop the hotel to beam signals to the WMAL-TV Washington transmitter.

The first eastern exhibition of CTI's system will include a half-dozen RCA projection sets, adapted to receive the company's images. Arthur S. Matthews, CTI president, and George E. Sleeper Jr., inventor and vice president, are directing the demonstration. They claim the system is entirely compatible and declare a direct-view tube is "foreseeable in the future."

Use Conventional Camera

CTI uses a conventional image orthicon camera, adapted to insert a dichroic lens assembly between the camera lens and the kinescope. The camera tube shows three images, side by side, each one in black-and-white after having passed through the three-element dichroic lens. These images are about two inches in size.

The three-image frame is transmitted normally via a black-and-white transmitter, using a special studio switching assembly.

The projection receiving set is modified to use a seven-inch picture tube which has separate red, green and blue phosphor sections. This tube replaces the normal picture tube in the projection sets. The regular projection system is removed and in its place CTI uses three small projection lenses, each mounted above one of the three two-inch images that appear simultaneously on the face of the tube.

These adjustable lenses throw three pictures that converge on the 11 x 14 screen, with the colors supplied by the three different phosphor sections on the receiving tube face. Registration is simple, CTI officials claim, and color smear or carryover is described as "impossible."

Comparative demonstrations of CTI, RCA and CBS color systems are scheduled Thursday at the FCC's Laurel, Md., laboratory, some 38 miles northeast of Washington.

WNAB (TV) Washington, NBC's station, will transmit RCA's pictures and WOIC (TV) Washington will transmit the CBS programs.

The Thursday demonstrations will climax some six months of color excitement in Washington. Since October the FCC has been probing the whole color problem in connection with its overall television allocation review.

HEART of Color Television Inc. system to be shown to FCC today is this three-phosphor receiver tube, mounted on laboratory lathe. Working on tube is George E. Sleeper Jr., San Francisco inventor of system.

DuMONT TOUR

Teletcruiser in Southeast

TO GIVE THE public a better insight into the way television operates, Allen B. DuMont labs has sent its teletcruiser, mobile TV studio, on a 22-city tour of the Southeast, which started Feb. 16 in Baltimore.

Containing more than $100,000 worth of equipment, including a triple image orthicon camera, the teletcruiser in essence duplicates actual studio operating conditions.

Plan of the tour calls for the teletcruiser to park in central locations where onlookers will be telecast over a closed circuit system. The camera pickups also will be reproduced on two DuMont receivers placed near the truck.

The teletcruiser's itinerary is:

February 16-20, Baltimore; 21-25, Washington; 27, Richmond; 28, Norfolk; March 1, Norfolk; 2, Portsmouth; 3, Raleigh; 4, Greensboro; 6, Winston-Salem; 7-8, Charlotte; 9-13, Atlanta; 14, Birmingham; 15, Montgomery; 16, Mobile; 17-20, New Orleans; 21, Baton Rouge; 22, Jackson, Miss.; 23, Memphis; 24, Nashville; 27, Huntington. W.Va.; 28, Charleston, W. Va.; 29, Youngstown; 30, Pittsburgh.

NBC APPOINTS

4 Named in TV Ad Unit

FOUR appointments in NBC's television network advertising and promotion unit were announced last week by James Nelson, director.

Ray O'Connell has been named manager of audience promotion, Fred Veit, art director, and Frank McDonald, copy writer. All were formerly in the radio advertising department. John Fuller, former advertising manager of Little Brown & Co. and Hle-Damroth Inc., has joined the television promotion unit to write package program promotion.

WAVE-TV Louisville starts programming seven nights weekly.

Page 77 • BROADCASTING
TALENT RACKETS

COMPLAINTS against some 50 to 75 Hollywood "talent racketeers" posing as legitimate television or film producers were being issued, according to an announcement last week by Los Angeles Assistant City Attorney, Don Redwine. Action, following a resolution, taken at a meeting held last week by the Motion Picture Industry Council, seeks to obtain convictions against such violators under present laws, and to attempt to get further legislation if existing laws are not strong enough to eliminate the racketeering.

Attending the meeting, which was called to organize a campaign against such "phoney" firms which have been extracting almost $20,000 weekly from victims, were television and radio executives, city and state officials, representatives of business organizations and Screen Actors Guild.

Further investigation of the racket has been requested of Ernest Tolin, Acting U. S. Attorney in Los Angeles by California Senator Downey.

So-called "talent agencies" have been collecting from $50 to $200 per victim, holding out the lure of the possible acting careers in television or movies by pretending to make legitimate television or film productions, it is reported.

SMALL-BUDGET TV

D. C. Adwomen Hear Sargent

METHODS of staging a small-budget television campaign in a group of cities were described by Clement D. Sargent, vice president of Phillip, Brander, Sargent, New York, speaking at the Wednesday luncheon of the Women's Advertising Club of Washington. FCC Comm. Frieda B. Henry was guest of honor.

Using a hypothetical Cake-Make campaign, Mr. Sargent outlined step-by-step a one-minute film series placed on 12 stations, including a test market. He described time availability as one of the most serious problems.

Many TV failures, Mr. Sargent said, are due to a lack of understanding of the medium itself. He pointed to the need for coordination of all steps in the hypothetical campaign, which had a $50,000 budget, and cautioned that TV should not be treated as an advertising steeplechase.

Reel Takes

LARS CALONIUS

LARS CALONIUS formed Archer Productions Inc., New York, about one year ago but in that short time the firm of which he is president has produced over 40 television film commercials.

It is a record more imposing than the arithmetic of the effort would indicate. Many of the commercials have contained some of the trickiest animation to be seen in video—Chevrolet, Blatz Beer and Pepsi-Cola commercial sequences.

In fact, after viewing them, it is little surprise to learn that Mr. Calonius was one of Walt Disney's chief animators on such hits as "Pinnochio," "Bambi," and "Ichabod and Mr. Toad." All his staff animators also are former Disney people.

Mr. Calonius himself could make his wants known in English via a drawing board long before he could read, write or speak a word of the language. Born in Helsingfors, Finland, in 1916 of Swedish and Norwegian parents, he came to this country in 1934. He has since added flawless English to all the Scandinavian tongues he speaks.

While attending art school in Stockholm, he also he met Anna Smith, then chief cartoonist for the Hearst papers. Mr. Smith thought the tall, slender, blue-eyed, blond boy had considerable talent and arranged for him to go to the Disney Studios in Hollywood. In no time at all, Lars Calonius found himself hired by Disney—becoming at 19 the youngest artist in that studio. Only three years later he was named a chief animator.

Idea Formulated

He developed an enormous respect for the Disney operation and resolved to start a similar operation some day for television, specializing, however, in commercials. Archer Productions Inc., as he called the firm he "pulled out of a hat," was created for that purpose. The firm makes such animations but it also produces "live" film commercials and slide films.

Archer Productions was not created overnight, however. Mr. Calonius got the idea for the company back in 1940, but the war intervened. He left the Disney studios, where he was working on "Ichabod and Mr. Toad," to join the Army.

As a Tech Sergeant, he was chief draftsman of animation for the Army Signal Corps in New York, helping to make films under Frank Capra and Anatole Litvak. When he got out of the Army he went back to work at Disney (1946), to his surprise, on the same "Ichabod" picture he had been working on five years before.

Early in 1948, he finally made the break from the Disney Studios and started Archer Productions.

He decided New York was the best spot to engage in commercial film making, because of the presence there of so many client and agency home offices. So, he moved his wife, Jean, and son, Erik, 2, to Queens, then set up shop in modern offices at 35 W. 53rd St. in Manhattan. Immediately he got one of the biggest accounts in television—production of Chevrolet commercials. Others followed.

He has found that the cost spread for producing animations is great, depending upon the elaborateness of the script. He puts average cost at about $45 to $52 per foot, which means that a 90-foot commercial runs about $4,000. He has, however, produced good animations for as low as $1,500. "Live" films run from $1,400 to $3,000, according to his estimate.

Although his firm is specializing in television advertising, it also makes documentaries, training films and other types of industrial motion pictures.

INS-TV Additions

INS-TV Network, Inc., have announced the addition of five station clients for its INS-Telenews TV newswires, two of them representing new markets. KSL-TV Salt Lake City and WNBC-TV New Haven became the first stations in their respective markets to buy the daily newsreel. Other additions are WSyr-TV Syracuse, N. Y., KTS
tv Los Angeles and WEWS (TV) Cleveland. Advertisers already have signed to sponsor the service in New Haven, Syracuse and Cleveland.

WJBK ELECTIONS

NLRB Includes Projectionists

FULLTIME and part-time projectionists would be included along with engineers and technicians in a collective bargaining unit set up by NLRB, which ordered an election at WJBK-AM-FM-TV, Detroit. Fort Industry Co.'s Detroit outlet. The ruling, issued down Feb. 11, involved the stations, WJBK, Local 1218 (AFL) and NABET, as well as IATSE (International Alliance of Theatrical Stage Employees), representing the projectionists.

Fort Industry contends that despite adopted policy of its A rant, NLRB member, argues against inclusion of the projectionists in the same units with engineers and technicians on ground they constitute a "distinct craft" group. WPIX (TV) New York, WKBD-TV St. Louis and other stations where projectionists are "uniformly excluded" from the unit and the major leagues do not reflect industry-wide practice.

In addition to WJBK-AM-FM TV, Fort Industry also operates WWVA-AN FM-Wheeling, WJZ-TV Baltimore, WLOK-AM-FM Lima, Ohio WGBS-AM-FM Miami, WSPR-AM-TV Toledo and WAGM-AM-FM Atlanta.

WJZ-TV ANTENNA

Begins Use from Empire Stat

WJZ-TV New York, key station of ABC-TV network, started broadcasting off its regular program schedule from its new antenna atop the Empire State Bldg. Feb. 9.

The move from the Hotel Pierre which has housed the antenna's 1500-watt transmitter since August 1938, was accomplished with no interruption of the station's regular transmissions. WJZ-TV will continue to operate on Channel 7. The added height gained by the move to the Empire State Bldg. will give new clarity to the station's picture, a corollary to WJZ-TV.

Color Set for Johnson

TELEVISION set modified to receive CBS color was installed last week by the network in its private office of Sen. Edwin C. Johnson (Col.), chairman of the Senate A,s Committee, in the U. S. Capitol. Color transmissions were shown twice daily Monday through Thursday and the Senate committee and any other interested parties in the Senate, a corollary to Sen. Johnson's office.

BROADCASTING  •  Page 12 • TELECASTING  February 20, 1950
Monopoly In TV?
(Continued From Telecasting 2)
betted by a public relations
gency. But he was confident
"CC" will proceed with their hear-
ging without becoming ruffled or
ramrodded by high-pressure tac-
ics.
The Colobadan claimed that "certain
elements in the television indus-
try are getting ants in their ants" and crying for a lifting of
the ice cube to serve their own
interests.
"If the siren voices who rant
and rave today about lifting the
freeze have their way," he said,
"thousands of communities will
never have television or, at worst,
will be the bigger out with little
private stations operating as satel-
tures of some big monopoly con-
nined station in a far-distant
metropolis.

The threat of a monopoly probe
as seen as a counter-move against
proposals that the House radio
committee add television to its
witnessing schedule, which al-
ready include three bills and are
expected to consume up to six
hours.

The possibility of the House
ruling against television had been
suggested after Dr. Allen B. Du-
ont, president of DuMont Labs
and TV network, met with mem-
bers of the New Jersey delega-
tion urging Congress to urge a lifting of
the freeze [TELECASTING, Feb. 13].

DuMont, Smith Rapped

Sen. Johnson said Dr. DuMont is
one of the most reputable" radio
and TV authorities but that "un-
readably and very properly"
"is anxious to expand his tele-
vision network." He said Dr. Du-
ont "hurls machine-gun-like in-
pendence and distortions," and that
avid Smith of Phlipo "blows the
me kind of bubbles."

Sen. Johnson denied there is un-
employment in television and as-
rated that Dr. DuMont's claims to
be at effect "are mischievous rant-
ts and not based on facts."

The commerce committee chair-
man contended that "short-sighted
opposition" figure they can
"are all the profitable lines" with perhaps a half-dozen
additional channels, preferably lo-
ed adjacent to the present TV
band. He pointed out that other
services including FM now operate
that area, and added:
... these manufacturers believe
at a drive can be put on to shove
one services out of their present
position and assign the additional
channels to television and everything
will be fine—for them. I differ with
them in that I want a permanent
policy for the long pull based on a
sound engineering decision, and I
eat it all now.

He said "an eminent radio con-
structing engineer" had written him:
Mr. "Mr. President. Mr. Max-
com charging that "RMA has
absolutely nothing except
compatible [in color TV] and
doesn't the freeze in order to
protect the sale of current black-and
white sets on a nation-wide basis."

Sen. Johnson claimed that Jack
Gould, radio editor of the New
York Times, "conveniently omitted
certain pertinent language" in Sen.
Johnson's reply to an earlier
stage supporting a lifting of the
freeze [TELECASTING, Feb. 13].

He said Mr. Gould presumably
"does not like anyone to infer that
his column is being prostituted by
private interests." At another
point he referred to "Mr. Gould
and his fidelity in serving a pres-
sade group which is determined to
dominate the FCC."

The Senator reiterated his con-
tention that FCC's earlier TV allo-
cations in the VHF band were
"ludicrously incorrect." But, he
said, "having made a mistake,
there is no reason for the Commis-
sion to compound the error now by
again listening to the same siren
voices who were so wrong before
and who led them astray."

He said he had "never hesitated" to
prime FCC if he thought the Commis-
ion was in error, but that

"I am not going to remain silent
and let them become the butt of
unwarranted and unprovoked as-
saults by people who are trying to
grind their own ax and without
regard to the public interest and
the general welfare."

Renewal Denied

RENEWAL of experimental tele-
vision license for KE2XDO Ja-
quina, N. Y., was denied by FCC
last week to Jamaica Radio Tele-
vision Co. for experimental opera-
ion on Channel 13 (210-216 mc). The
Commission indicated that one of
KE2XDO's principal activities has
been to render program service in-
dependent of any technical
research. FCC said research pro-
posed was on simplification of TV
receivers and antennas for which
experimental telecasting was not
necessary. Station was first li-
censed in 1945.

WNBF... sectionalized tower
transmits FM, AM and TV

Another Complete Engineer Tower
by IDECO

WNBF pierces the sky with a 384-foot ganged triangular tower... completely engineered from the solid base to the tip of the 4 bay FM, and 6 bay telescopic antennas, Clark Associates, Inc., selected IDECO for this job for two very important reasons:

Triangular-Section Safety — IDECO triangular design provides extra rigidity and freedom from distortion... the WNBF tower is gaged to withstand a 30-pound wind load. It is sectionalized at 265 feet with the lower section insulated to permit AM broadcasting.

Complete Engineering — IDECO towers are built of prefabricated sections which go together easily and quickly... no field cutting or welding necessary. IDECO engineering covers everything on the job... transmission lines, service ladders, platforms and any special accessories required.

IDECO radio towers have an outstanding safety record. Before you build or buy a tower — for AM, FM, TV or all three — investigate how IDECO can relieve you of all responsibilities. Write today for bulletin RT-46 and SSDT-1.

INTERNATIONAL DERRICK & EQUIPMENT COMPANY
Columbus, Ohio • Torrance, California

February 20, 1950
CASTON PRODUCTIONS, Los Angeles, producing series of four one-minute television commercials for Buzza-Cardoza (greeting cards), Los Angeles. Placed direct . . . KFMI (TV) San Antonio and WBFM-TV Indianapolis have purchased Telemount Pictures Inc., Los Angeles, Magic Lady and BokO TV film series for 13 weeks . . . Eddie Stanley, host of his own show on KTTV (TV) Los Angeles, joins Telemount Pictures Inc., that city, as head of production firm. Mr. Stanley will write and produce TV packages for national distribution.

Filtmonte Inc., Los Angeles, has leased Darmour Studios at Santa Monica Blvd. and Van Ness Ave. Isidore Lindenbaum, president of company, says expansion necessary because of "expected increase in filming of television shows" . . . Three DuMont Network kinescoped shows are being offered for local participating sponsorship by KTSL (TV) Hollywood. Included are Famous Jury Trials, The Plain-clothed Man and Front Row Center.

TVEEVEE Film Co., Beverly Hills, Calif., has announced availability of six TV shows on syndicate-regional or national sponsorship basis. Included are: Vernon; Erskine Johnson's Family; children's show Gioti and Jack, See It and Believe It, Short Shorts (series of 300 five-minute films based on short stories by famous authors), and Leo Guild's Wizard of Odds, half-hour show based on newspaper feature.

United Productions of America Inc., Burbank, Calif., reveals gross income of $2,500,000 for a six-month period which was made by firm for 1949. Company has started production of new series of 10 one-minute combination animated and live action films for Ford Motor Co. Agency: J. Walter Thompson Co.

Film can create a better television network than coaxial cable and cheaper. Melvin L. Gold, president of the National Television Film Council and advertising director of National Screen Service Corp., told the Washington Ad Club at a Tuesday luncheon session that "techniques will permit short advertising films, Mr. Gold pointed out that film has the advantage of perpetuating a show, giving opportunity to edit and use talent when and where it is available. He said it is cheaper and just as acceptable as live shows. Telepix Corp., Hollywood, has completed series of one-minute commercials for four Los Angeles De Soto-Plymouth dealers. Agency Liddiard & Co., Los Angeles . . . WOR-TV New York has purchased American Releasing Corp., Hollywood, TV show time for Bean . . . Holcombe Parkes, former vice president in charge of public relations of National Assn. of Manufac-tures, has joined staff of Apr Film Corp., Los Angeles.
RETAILER Television Film service has produced business for some stations in some communities, and the effort is still paying off for the particular station that put up the good effort. Mr. Cuff, RTFS representative, pointed out that the enthusiasm that a station's sales staff puts behind a product can earn a lot of business. Mr. Cuff, who has been with RTFS for several months, said that the enthusiasm is needed because the salesmen can make the sale and get the order. Even though the salesmen are not always enthusiastic, they will try to make the sale because they know that the station is willing to pay for it.

Second and equally interesting, Mr. Cuff continued, is that a substantial number of stations which were unable to sell the films for a Christmas promotion already have commitments for their use by local retailers during the coming year. The commercials are built around the idea that 'You can always add a line accessory' and that such accessories make fine birthday presents. A substantial number of dealers felt that they would get better results by stressing this angle instead of using the film just before Christmas.

Lack of Enthusiasm

"When we tried to determine the causes of the lack of enthusiasm for the films on the part of certain stations, only two of the facts that the films were kinescope recordings was at least partly responsible. This objection was largely psychological on the stations' part, as actual tests show that in home reception the picture resulting from a kinescope is more desirable than the picture originating on a straight film."

"Realizing, however, that this psychological barrier is an important factor to contend with, RTFS has, after several months of price testing, found an effort and a way to produce straight film commercials at a cost which is only slightly higher than that of the kinescopes."

When a station is approached by RTFS and asked to present the station in its market—that is, to keep the films on hand for audition either on request or at its own initiative, the typical reaction is definitely negative, Mr. Cuff said. Citing an actual case history he said that despite the negative attitude, films were sent to the station with the suggestion that they be looked at and auditioned.

"With the returned film we received a letter indicating very slight interest," Mr. Cuff related. "A little while later an unsolicited letter arrived asking that audition prints be sent them for showing to a prospect. Then came a request that the station be allowed to keep the film.

"Next came a letter stating that this station was very anxious to become a key station. Finally, the station wrote: 'This service should solve one of our very tough local problems of getting good commercials for local accounts.'"

Incident at One Station

"In other stations a substantial amount of enthusiasm has apparently failed to produce any business. One such station in a very important southern market worked for four months without getting a single account. Quite suddenly the market broke and now practically everywhere large department store and important retailer in the community is using television. Cuff said that the station is calling for more films than they have on hand.

"In scouting around for more films which can be made available for local use," Mr. Cuff continued, "RTFS has discovered that many manufacturers have good films which can be inexpensively adapted for this purpose. We are urging these manufacturers to have their films re-edited and placed with TV stations through the RTFS library."

Name brand, nationally advertised merchandise of the type promoted by the RTFS films is the easiest merchandise for a retailer to sell and the most profitable for him to advertise. Mr. Cuff pointed out, adding that this is not always appreciated by station salesmen. Even though the merchant may have a higher mark-up on non-brand goods, equal promotion of both types usually shows a far greater volume of business and a larger net profit for the store—resulting from the promotion of name brands, he stated.
ARL G. JANSKY
Bell Labs Engineer Dies

UNER SERVICES were held Thursday for Karl Guths, 48, world renowned radio engineer and transmission expert. Telephonic Labs, who died Tuesday in Riverview Hospital at N. J. He had been working at the Bell Labs' experimental station at Holmdel, N. J. Visits were held at Red Bank.

Mr. Jansky, who joined Bell Labs in 1923, was credited with a number of discoveries resulting from studies of electronic amplifiers and receivers and design of hundreds of band amplifiers, which numbered much of his attention. In particular he was considered an expert on radio transmission and on atmospheric and other kinds of interference. An author of many technical papers, he was a Fellow of the Institute of Radio Engineers.

Surviving are his wife, Mrs. E. K. Jansky, his mother and her, a son and a daughter, two sisters, and three brothers, including Cyril M. Jansky, senior partner the Washington consulting radio engineering firm of Jansky & Ley.

Tuesday, he was a Fellow of the Institute of Radio Engineers. Surviving are his wife, Mrs. E. K. Jansky, his mother and her, a son and a daughter, two sisters, and three brothers, including Cyril M. Jansky, senior partner the Washington consulting radio engineering firm of Jansky & Ley.

BMI CLINIC
L. A. Sessions Held

ABILITY to sell is first requisite of a good disc jockey, Paul Master son, KNX Hollywood, record m.c. said during the first Pacific Coast BMI Program Directors' and Lib rarians' Clinics held at KHJ, that city, last Wednesday.

Al Poake, KPI and Bob McLaughlin, KLAC record m.c.'s, backing up this contention, declared there must be a definite balance between music, chatter and commercials.

"See the product and get better acquainted with your sponsor and his merchandising and selling problems, and thus become a better salesman," Mr. Masterson advised. "More often we only see the commercial copy that is placed before us, but never the product advertised."

Although they agreed that a record m.c. must know and love an appreciation of good music, he can ruin a program with too much chatter and nonsense. Ingenuity is that which pays off.

Maury Webster, KNX assistant program manager, advised that station build special and specific shows around their recorded music, and thus build greater audience.

At the record setting at lunch

Today was Robert J. Burton, BMI vice-president in charge of publishers relations who told of many ramifications involving copyright of stations.

Afternoon session was given over to inspection of a BMI model library via "slides" and discussion of systems set up by station librarians to service program directors and record m.c.'s.

CANDIAN BINGO

Dominion withholds decision

NO DECISION was reached by board of governors of Canadian Broadcasting Corp. on playing of radio bingo on Canadian stations, following a hearing on a proposed ban on radio bingo at Toronto, Feb. 10. Moving picture theatre opera tors and members of the Protestant churches opposed the playing of bingo on Canadian stations at this hearing, while service clubs and various institutions and certain church organizations upheld the playing of the games, proceeds of which go to charity. Service clubs operating the games over small town Canadian stations, showed that up to 75% of bingo takes go to charity, the remaining being for legitimate expenses. Radio stations charge only $25 for half-hour service, it was shown.

ARKANSAS CASE

Detailed Issues Reported

REVISION of issues to specify hill of particular was made by FCC last week in its ownership investigation of KXLR North Little Rock, KWM West Memphis, KHOZ Harrison and KWAR Stoughton, all Ark. [Broadcasting, Sept. 5, 1949]. Specific issues have been requested by the stations.

FCC also denied petitions of KHOZ, KXLR and KWAR for separate hearings in the case, indicating the issues were interrelated. The Commission stated it wished to determine who are the present owners of the stations and when from whom transfership was acquired. FCC also indicated it wished to determine whether stock holdings had been transferred without approval and if all facts had been correctly represented to the Commission.

The revised issues specified a list of several alleged stock transfers and other details about which FCC wished to inquire. Transfers of holdings by Belo Taylor in KXWM and KHOZ to Phillip G. Back and John F. Wells are the first mentioned by FCC.

WIRA Hits Free Time Request

50 cents per station. All of these stations were described by H. K. Simon Advertising, 59 Park Ave., New York, as handling per inquiry business.

The firm said in a mimeographed letter that about one station in six will use PI. Its list was described as including 440 stations. With the list, the firm says it will provide an explanation of PI procedures and tell how to conduct campaigns.

Compilation of the list took months, it is stated, and the offer is described as helping the firm amortize its investment. A checklist is offered to determine if products qualify for PI. Some of the qualifications follow:

- It should not have national distribution in stores. The more unusual it is—the better.
- Retail price should be between $1 and $5.
- It should have wide appeal to the mass media.
- It should be readily mailable and you must prepare to get facilities for mailing by the thousands. Product should not depend on eye appeal. . . Must lend itself to exciting description.
- "Do we have just 'flaible' stations?" Mr. Simon asks. "No sir! Some are great 50,000-watters! Any big cities? Many of the biggest! Any other questions? Don't hesitate to ask!"

Mr. Simon describes it as the "safer, no-risk" system of advertising and selling we've ever seen." PI includes a list of typical mail order campaigns. Special prices are quoted for sections of the list. The entire list is $250 for a minimum test list of 50 stations.

In his protest about use of paid advertising in other media with radio getting free-time material Mr. Silver told Southern Bell Telephone Co. it "is apparently following a discriminatory policy against the radio business."

Mr. Silver wrote:

During the last several weeks your company, in an effort to influence the public's opinion in favor of the phone company's labor relations policies, has issued statements including much background material relating to the labor problems now facing Southern Bell. This was good public relations, particularly when you, as manager, obviously went to some time and trouble to see that the local newspaper and this radio station received this material on a fair, simultaneous release basis.

So far, so good. Then the policy began to waver. The statements issued as news material and treated as such by both press and radio were backed up by a number of paid display advertisements in the local newspaper with no schedule of paid advertising for the local radio station.

It seems to me this places Southern Bell in an equivocal position. I cannot escape the conclusion that this places your company in the position of favoring newspapers as advertising media as against radio stations—or at least this one. It places your company in the position of feeling that radio's help in influencing public thought is a good thing, provided that this help can be obtained on a gratis basis—but that radio's power in molding public opinion is not really worth paying for in the form of advertising. . .
COMMUNICATIONS BOARD NAMED BY PRESIDENT

TEMPORARY five-man Communications Policy Board, to be headed by former FCC Commissioner Irvin L. Stewart, president, U. of West Virginia, named Friday by President Truman to study use of radio and wire communications by government and through FCC by private agencies. [BROADCASTING, Nov. 28, 1949]. He had denied only last week that he intended to appoint such a board.

Board will make recommendations to President on policies to govern "most effective use" of radio frequencies on both levels and in international channels, to improve communications, and evaluate relationship of government communications to those allocated through FCC. Group would dissolve Feb. 17, 1951.

Additionally, board is authorized to "hear and consult" with representatives of industry and federal government on subjects under study by board. Mr. Truman asked executive departments and agencies to cooperate with board and furnish any information they may need. Board asked to submit report by Oct. 31, 1950.

Also named to board were: Dr. Lee A. DuBridge, president, California Institute of Technology; Dr. David H. O'Brien, Hackettstown, N. J.; Prof. William J. Everett, chief, Dept. of Electrical Engineering, U. of Illinois, Urbana, Ill.; Dr. James R. Killian Jr., president, Massachusetts Institute of Technology, Cambridge, Mass.

RADIO SET PRODUCTION MAINTAINS HIGH LEVEL

RADIO set production in January maintained high rate of late 1949, according to summary of output of Radio Mfrs. Assn. member companies. TV output also at high level.

January radio set output (AM-only) totaled 600,195 units compared to 620,382 in December, running counter to traditional post-holiday pattern.

FM-AM and FM-only production totaled 89,136 sets in January compared to 86,559 in December. Another 34,087 FM tuners were included in January TV production.

Out of TV sets in January, reached 325-558, with weekly delivery 15-15% lower in December and 8% above rate of record-breaking last quarter of 1949. All-time peak in TV output for one week reached last week in January when 97,986 sets were produced. Total radio and TV output in January, a four-week work month, was 995,783 sets, according to RMA.

NARBA To Hear Report

FCC's AM engineering division. Other members: T. A. M. Graven, Washington consulting engineer; G. P. Smith, Clear Channel Broadcasting Service; Raymond F. Guy, NBC; James D. Parker, CBS; Underwood Graham, FCC; Leo Antionio Martini, Cuban inspector general of radio; and Antonio Motes, Communication, Inc. and W. S. Karmen.

U. S. delegation has prepared its own allocations proposal for solution of impasse which developed when U. S. rejected Cuban channel demands at NARBA sessions last December. U. S. list had approval of both government and industry representatives at conference. Cuban delegations understood to have given it critical reception but left U. S. observers hopeful that bilateral agreement can be reached.

BRIEFS OPPOSE FCC PLAN ON TRAFFIC IN FREQUENCIES

FCC PROPOSAL to curb "trafficcising in frequencies"—by automatically forfeiting permits of stations sold before they commence program tests—opposed in briefs filed Friday by NAB, Federal Communications Bar Assn., and Pierson & Ball, Washington law firm on behalf of 13 stations. Comments attacked proposed rules issued by FCC in mid-January. [BROADCASTING, Jan. 13].

NAB held Congress intended CPs to be forfeited only if construction not completed on time, according to provisions of Communications Act, which also calls for case-by-case consideration of merits of each transfer to determine if in public interest.

FCBA also charged proposed rules "inconsistent" with Act and would require FCC to "abandon its obligation to determine each application upon the individual merits thereof." Pierson & Ball held "jumping of the gun to with the guilty" for administrative convenience could not justify non-compliance with law or "the substitution of flat for adjudication.

GROUP NAMED TO ADVISE ON NAB GENERAL MANAGER

MEMBERSHIP of special NAB advisory board to assist President Justin Miller in selection of general manager, under terms of Arizona board mandate [BROADCASTING, Feb. 13], announced Friday. Committee headed by Chair R. McColough, Steinman Stations (Chicago, Del.), who received Fordham poll of board.

Other members in order of votes received follow: Harold E. Fellows, WEEI Boston; Howard Lane, WJJD Chicago; Robert D. Swezey, WDSL-TV New Orleans; Calvin J. Smith, KFAC Los Angeles. They represent, in order, small, network, large, television and independent stations.

RAYTHEON DENIED REHEARING PETITION

PETITION of Raytheon Mfg. Co. for rehearing of FCC's refusal to extend completion deadline to WJEE-TV New Orleans, denied by Commission Friday. Final ruling reported to deny as in default new station bid of Stanley S. and Tilden M. Adcock for 1 kw daytime on 570 kc at Goldsboro, N. C. [BROADCASTING, Jan. 23].

FCC also declined to vacate initial decision and rehear Huntington, N. Y., 740 kc case.

In WRTB case, FCC said alleged new Raytheon evidence wouldn't change ruling that firm hadn't been diligent in proceeding with construction of station granted in 1946. Commission held facts which Raytheon claimed were erroneous are supported by现有 records. [DEC, DEC. 28, 1949]. In Huntington action, FCC denied petition of The Connecticut Electronics Corporation, to modify order granting 740 kc to Huntington-Montauk Broadcasting Co. [BROADCASTING, July 25, 1949]. Order vacating FCC's action on Connecticut corporation, Bridgeport, Conn.; Westco Broadcasting Corp., Vineland, N. J., and proposed denial.

RACING CASE ARGUED

ORAL ARGUMENT on WTUX Wilmington, Del., horse racing case, held before FCC Friday. Commission counsel opposed initial ruling, to grant WTUX license renewal, which found programs questioned were not intended to aid local gaming. Attorney General Voted to that order [BROADCASTING, Dec. 20, 1949, Jan. 2].

WTUX attorney argued that station owners, new to radio and without counsel until hearing, modified race results programming promptly to cooperate with local police requests upon learning of situation at investigation.
Figures don't fib! Add this up. There are eight TV stations located in WLW-Television Land. Yet three microwave-linked stations—WLW-T, Cincinnati; WLW-D, Dayton; and WLW-C, Columbus—receive 50% of all viewing between 11 AM and 11 PM, seven days a week.*

Tack on these figures, too—they’re important. In Dayton, 10.4% of the total viewing was to stations outside the city. Of this viewing, approximately three-fourths is to WLW-T.*

What about cost on WLW-Television? It's the 3RD LOWEST IN THE MIDWEST—as low as 25c per thousand-set owners. And look at the market! The WLW-Television area embraces over 3 million people . . . nearly 900,000 families . . . with set owners numbering 132,000 as of January 1, 1950.

It is the 4TH LARGEST TV MARKET IN THE MIDWEST . . . THE 8TH LARGEST IN THE NATION.

If ever there was a "time to get into television" . . . it's now . . . and through WLW-Television. Set ownership is increasing in breath-taking leaps . . . and by selecting WLW-Television today, you soon will have the lowest cost television, per potential viewer, in the Midwest . . . with rate protection for six months.

Any one of the sales offices in New York, Chicago, Hollywood, Cincinnati, Dayton or Columbus will be glad to give you further information about WLW-Television . . . where 462,700 people spend 5,091,000 hours weekly.**

* Videodex, January, 1950
** Based on January 1, 1950, Set Owner Estimates and Videodex, January, 1950
Problem: shrink the television tube, but keep the picture big!

Some rooms accommodate grand pianos, the smaller spinet is right for others. Until recently, much the same rule held true for television receivers, and your choice was governed by room space.

Now the space problem has been whipped by RCA scientists, who have shortened the length of 16-inch television "picture tubes" more than 20%! All the complex inner works—such as the sensitive electron gun that "paints" pictures on the screen—have been redesigned to operate at shorter focus, wider angle. Even a new type of faceplate glass, Filterglass, has been developed for RCA's 16-inch picture tubes—on principles first investigated for television by RCA.

Filterglass, incorporating a light-absorbing material, improves picture quality by cutting down reflected room light . . . and by reducing reflections inside the glass faceplate of the kinescope. Result: richer, deeper black areas and greater contrast in the television picture!

See the newest advances in radio, television, and electronics at RCA Exhibition Hall, 36 West 49th Street, New York. Admission is free. Radio Corporation of America, Radio City, N. Y.

New and shorter big screen 16-inch kinescope developed by RCA scientist

New RCA Victor home television receiver, with big 16-inch screen—now more than 20% shorter in depth.

RADIO CORPORATION of AMERICA
World Leader in Radio—First in Television
again BMB has shown that WOR—
and only WOR—
has the largest single daytime and nighttime audience in America!

little wonder that WOR sells more, more often, for more people, to more people than any other station in the United States!

Ask us for more facts. Our address is WOR—
that power-full station at 1440 Broadway, in New York
Only actual service rendered brings

letters like these to WLS

You Saved us Money—
“Larry McDonald broadcast a tip that saved me $4.00
Milton Perry, Route 1, Maple Park, Illino

Best Entertainment—
“Thank you for providing the very best entertainment
this hospital has ever had for its 60 clinic children.”
Mrs. Celia Payton, Women and Children Hospital, Chicago.

A Dog for a Boy—
“We wish to thank you for finding a dog for our little boy.”
Mr. and Mrs. Carl Willoughby, Paris, Illinois.

Really Care—
“You really make farmers feel you care about them.”
Mr. and Mrs. Allen Martin, Earlville, Illinois.

Family Programs—
“We do thank you so much for the WLS family programs.”
Mrs. Horace Hadley, Plainfield, Indiana.

555 letters greet a new program its first day on the air—97% of responding live stock producers mention WLS as a station they depend on—5,000 boy and girl “School Time” listeners submit essays to WLS on “What Citizenship Means to Me”—

Only actual service rendered brings response like this—a response WLS advertisers translate into their most effective sales tool in the Chicago Midwest. Write or wire today to put this selling force to work for you.

Number 2 in a series showing the quantity and quality of response to WLS service and programming.

Some of U. S. delegates at U. S.-Cuba NARBA conferences in Havana expect to be home this week, mission accomplished. Others taking dimmer view, pointing out that early last week there were U. S.-Cuban differences on 38 frequencies. Since then U. S. delegation has revised its allocations proposal. Sessions slated to start last Saturday may tell story.

Borden Co., through its agency Young & Rubicam, New York, planning extensive radio campaign in 80 markets. Agency has set wires to stations in those markets for available quarter-hour programs. Disc shows, participating will probably be included in schedule. Starting date sometime in April when company’s network show “Country Fair” on CBS goes off air. Later show serviced by Kenyon & Eckhardt, New York.

Lever Bros. expected to drop sponsorship of Bob Hope on NBC after present season. Renewal comes up in mid-April. Company understood to have notified its various agencies that comedian will be available next season should any of their other clients be interested. Lever negotiating for sponsorship of NBC’s “Sevens Guild Theatre” which will be dropped by Camel cigarettes at season’s end.

Young & Rubicam, New York, for Life magazine looking into availabilities and costs, of 5, 10 and 15-minute news shows on Friday and Saturday for possible spring campaign.

Future National Radio-TV Weeks likely to be built around Voice of Democracy contest, with retail aspects discarded. Belief growing at Radio Mfrs. Assn. that school competition has become one of nation’s best weapons for preservation of freedom, reflecting credit on broadcasters and set makers.

M&M Ltd., Newark (candy), and International Shoe Co., St. Louis, to share sponsorship alternate weeks of second half of ABC-TV Super Circus, Sun., 5-6 p.m., starting April 1. M&M agency is Lynn Baker, New York. Henri, Hurst & McDonald, Chicago, is shoe sponsor’s agency. Canada Dry Ginger Ale, New York, sponsors first half-hour and plans to extend coverage to four West Coast TV outlets, through J. M. Mathes Inc., New York.

That new Sheppard Bill (HR 7310) to require that networks be licensed [Broadcasting, Feb. 20] may not be as friendless in Congress as some observers believe. Several congressmen say they’ve had complaints from constituent stations saying networks brush off their affiliation offers, therefore privately express belief bill “might be a good thing.”

Theodore (Ted) C. Fisher, media director and vice president of Pedlar & Ryan, New York, expected to be named agency’s account executive on Procter & Gamble (Carnac soup) (Continued on page 78)

Upcoming

Feb. 27: Color Television Hearing Resumes, Dept. of Commerce Auditorium, Washington.
Feb. 27-28: CBS Advertisers Advisory Board 9th District, Beverly Hills Hotel, Beverly Hills, Calif.
March 6-8: Second National Conference, Chicago Television Council, Palmer House, Chicago.
March 6-9: Institute of Radio Engineers national convention, Hotel Commodore, New York.
(Other Upcoming on page 77)

Bulletins

CLARK BROS. CHEWING GUM Co., Pittsburgh, planning radio campaign for Teaberry and Tendermint chewing gums. McCann-Erickson, New York and Cleveland, named to handle account.

NBC Chicago cutting down its power consumption 25% starting today (Monday) because of coal strike. WMAQ-FM, which broadcasts 5:30 a.m. until 1 a.m. daily goes on a 3 to 9 p.m. schedule and no TV test pattern will be transmitted by WNBP (TV) until 1:30 p.m. Station has been transmitting signal from 9 a.m. Studio electricity usage also will be cut 25%.

SEVEN Seattle Stations cancel Hooper participation effective April 3 due to 30% rate increase. KNX has not yet acted. Dr. Sidney Roslow, head of Pulse Inc., New York, is to meet station executives today. McLeod & Assoc. and Joseph B. Ward have made survey presentations to Seattle outlets.

American Tobacco Co., through BDBD, New York, renews sponsorship of Jack Benny on CBS, Sunday, 7-7:30 p.m. through June 1952.

NEW GARDNER DIRECTORS

Three new directors appointed last week by Gardner Advertising, New York, two in St. Louis office and one in New York. They are: Joseph V. Kirchoff, secretary, and Charles E. Chaggett, vice president and account executive, who will headquarter in St. Louis and Roland Martini, vice president in charge of radio and television who is with New York office.

AVCO NET DOWN

Net income of Avco Mfrg. Corp., parent company of Crosley Broadcasting Corp., for year ended Nov. 30, 1949, was $4,150,466, compared to $7,913,736 in 1948. Financial report did not reflect earnings of Avco units. Decrease caused by slump in television set and appliance sales in summer, according to Victor Emanuel, Avco president. Other factors influencing earnings in 1949 included expanded advertising and sales promotion and expenses in development of new and expanded product lines.

Business Briefly

Richfield Buys • Richfield Oil Co. New York, will sponsor “Escape” on 33 station of CBS eastern network, Friday 10-10:30 p.m. effective April 21. Agency, Morey, Humm, Johnstone, New York.

Agency Appointment • A. S. Bonsall & Co., New York, names John Schrager Inc. New York, to handle radio and TV promotion of its current books. Spot and participative programs to start in early March.

Pacific Regional Project

Pacific Regional Network, with headquarters in Hollywood, being formed with 11 California AM stations already signed, according to Cliff Gill, KFMY (FM) Hollywood, who heads group. Network will be fed by FM stations instead of telephone lines, he said, with goal of 30 California stations planned before expansion to Washington and Oregon.

Joins Calkins & Holden

Patricia Sennell, timebuyer of Dance Fitzgerald-Sample, joining Calkins & Holden New York, as timebuyer.

Gen. Marshall’s Views on Free Speech

Free speech provides first line of defense against war, according to Gen. George Marshall, president of American Red Cross. Gen. Marshall will express his views in CBS broadcast at 5 p.m. today (Monday) from House of Representatives at Colonial Williamsburg in connection with Voice of Democracy activities (story page 21). His statement on subject:

The free expression of opinion today perhaps comes even a stronger implement for forging war peace and understanding than in the days of Pericles. Five-hundred years before the birth of Christ Pericles was heard within the range of his own voice; nor did there exist methods of curtailing his written words very widely.

Today the words we speak, as on this occasion today, are heard by millions not only in our own country but throughout the world. The great line of communications offering them (the avenue for spreading the understanding of the represented ideas the first line of defense against another world conflict. It is imperative that the implications of this are understood thoroughly by all peoples in all nations. It is through communications that the distribute the information upon which the peace is based that this is true for the democratic nations as in a free democracy. The only difference between the two lies in the kind of integration that is made available to the people.
Here's response for you! In answer to Carl deSuze's requests for neckties for distribution overseas, WBZ listeners sent more than 500 pounds of colorful cravats directly to the station!

Another example of Mr. deSuze's persuasive power: two airplane-loads of Christmas toys for children overseas, in response to announcements for International Friendship League.

Yes, WBZ's "Carl deSuze Show" (7:05 AM, six days weekly) really gets action in New England homes, from the mountains of Maine to the beaches of Connecticut. Participation costs? Very reasonable! Check WBZ or Free & Peters.
Mister Plus goes to Washington...

A hearty welcome to WEAM, the new Mutual station for the nation’s capital, effective February 20, 1950. And we do mean effective: 5kw, day & night.

Mutual Broadcasting System
Radio's bright comic, Robert Q. Lewis, made a brilliant move by assembling a rich parade of promising talent: clowns and torch singers, rhythm groups and acrobats, future Hamlets and Pagliaccis.

As they go through their acts for a solid hour every Friday night before the microphone,* they are watched closely by the nation's famous talent buyers looking for just the right people for the right spot in their shows. And they find them!

The next move is up to you. With The Show Goes On you can profitably "mate" one of radio's "most buzzed-about" comedians with a big and loyal audience.

A CBS PACKAGE PROGRAM

*The Show Goes On is also broadcast every Thursday night on CBS Television.

THE EVENING STAR STATIONS
WASHINGTON, D.C.
PHILLIPS PETROLEUM Co., Bartlesville, Okla. (petroleum products), March 17 starts for 52 weeks, Rex Allen Show on regional network of 64 CBS stations, Friday, 10-10:30 p.m. (EST). Agency: Lambert & Feasley Inc., New York.

AMERICAN SAFETY RAZOR Corp., New York, appoints McCann-Erickson, New York, to handle advertising campaign of its new camera and accessories line. Currently its development will be on test basis in few markets.

MONARCH WINE Co. (producer and distributor of Manischewitz Wines), spot radio user, appoints Donahue & Cee, New York, as its advertising counsel, effective March 1.

NEHI BEVERAGE Co., Los Angeles (Royal Crown Cola and Par-T-Pak Beverages), sponsors Movietown RSVP, half-hour quiz show on KTLA (TV) Los Angeles, through BBDO. Show is viewed Sunday, 9:15 p.m.

HI-V Corp., New York (citrus fruit concentrates), appoints Franklin Bruck Corp., same city, to handle its advertising. Television will be used.

COLOR TELEVISION Inc., San Francisco, appoints Di Marco-von Loewenfeldt Assoc., same city.

**Network Accounts**

OMNIBOOK Inc. will sponsor special commentary by Robert St. John on 63 ABC stations, March 5, 3-3:15 p.m. EST. Agency is Huber Howe & Sons, New York, which has been handling 6,000-spot schedule for book company. One-time broadcast, which will deal with books, reportedly is being aired as test for Omnibook Inc., similar to those aired by other book publishers handled by the agency.

MINUTE MAID Corp., New York (frozen orange juice), sponsor of This Is Bing Crosby, five-a-week daytime radio show, now heard in major cities, extends show on March 6 to eight additional CBS stations in California. Spot radio also is being considered for additional markets. Company sponsors daily television show, Handy Hints (6:45-7 p.m.) over KTLA (TV) Los Angeles. Agency: Doherty, Clifford & Shenfield Inc., New York.

PACKARD MOTOR Co. sponsors Holiday House, starring Edward Everett Horton, over ABC-TV, 9-9:30 p.m. (PST), Thursday. Contract, beginning April 6, is for 13 weeks. Agency: Young & Rubicam, New York.

GOOD & PLENTY CANDY Co., Philadelphia, will begin sponsorship of Wednesday telecasts of Lucky Pep, CBS-TV, Mon., Fri., 6:30-7:45 p.m., on March 9. Agency for candy manufacturer is Adrian Bauer, Philadelphia.

**Adpeople**

ROBERT M. GANGER, former partner of Geyer, Newell & Ganger, New York, named executive vice president of P. Lorillard Co. (Old Gold Cigarettes) and elected to board of directors and executive committee.

ROBERT D. FIRESTONE, former senior sales promotion staffman in charge of mechanical goods advertising and sales promotion for Goodyear Tire & Rubber Co., Akron, Ohio, placed in charge of media in advertising department, replacing M. C. TAYLOR, resigned.

Mr. & Mrs. C. W. Hines

In April, 1947, after working fifteen years for a large chain Auto Supply, Mr. and Mrs. C. W. Hines founded HINES HOME AND AUTO SUPPLY. Mr. and Mrs. Hines wanted to tell their story to more people and tell it quickly, so they chose KNUZ as their advertising medium. The results were amazing—in the words of Mr. Hines: "KNUZ and our half-hour, 7:00 to 7:30 Saturday night segment of 'Houston Hoedown' with Biff Collie, are directly responsible for telling our story, just the way we wanted it told, to Mr. and Mrs. Houston. The results are best measured by the fact that today HINES HOME AND AUTO SUPPLY, North Houston's largest and most complete home and auto store, employs ten salespeople. Without KNUZ and our Hoedown program with Biff Collie, our company could never stand in the limelight, as it does today."

(Cooperative story of Mr. and Mrs. Hines on request or contact Mr. Hines, 9008 Humble Road, Houston, Telephone MU Berry 5583.)

*Sales Management's 1949 Copyrighted Survey

---

'Here's What You Should Know About KOH... and RENO'
The first station in Nevada. Reno's favorite for 22 years. 1000 watts, 630 kc, NBC. Blankets 18 counties surrounding Reno — whose wholesale grocery trading area ranks 2nd in entire country in per capita retail food sales, with a quality index 53% above U.S. average.
BOBO, I LOVE YOU!

So says the cute Siamese kitten in adoration of the bespangled French poodle.

There's something time buyers love in Baltimore radio, too. It's the way W·I·T·H produces low-cost results.

You see, W·I·T·H delivers more home listeners-per-dollar than any other station in town. And in addition, a survey made under the supervision of the Johns Hopkins University showed that of all radios playing in drug stores, 34.6% were tuned to W·I·T·H.

That means that you get big results from small appropriations on W·I·T·H. Call in your Headley-Reed man and get the whole W·I·T·H story today!
NETWORK BUSINESS UP

By ED JAMES

USINESS volume of the four major radio networks is con-

nuing the upward trend that began last fall after the severe

ump of summer, an analysis by Broadcasting showed last

week.

The analysis was based on figures for the entire year of 1949 released

at week by Publishers Information Bureau, as well as on addi-

tional information from the networks themselves.

A quarterly summary of 1949, based on PIB figures, plainly shows

a progressive decline in gross billings from the high levels of the

last quarter of the year to the do-

lums of the third quarter and the

llily in the closing quar-

ter of the year.

Calculations are that although
total gross billings of the four

networks in January 1950, did not

ach the record figures for the cor-

responding month of 1949, they
did post total billings for the im-

mediately preceding month of Decem-

ber. Reasonably optimistic fore-

casts for the early part of 1950

are based on this cheering fact.

Gross by Quarters

The four networks closed the

air of 1949 with total gross bill-

ings of $175,500,329, according to

PIB figures, the gross bil-

lings for the four networks were:

First Quarter: $51,522,682

Second Quarter: $49,262,623

Third Quarter: $53,327,593

Fourth Quarter: $62,557,631

In January 1949 the four net-

works’ gross billings were $17,704,-

3, the biggest month of the year.

In December 1949 the billings

were $16,408,854.

Although precise figures for Jan-

uary 1950 were not yet available

t week, a reliable estimate indi-

cated that the month would show

billings below January 1949 but

above December 1949. The figure

for January 1950 will approximate

$15,000,000, it was estimated.

By networks, the total gross

billings for 1949 were divided as

follows: ABC, $42,342,854; CBS,

$40,583; MBS, $18,040,599; NBC,

$56,013,596.

In January 1949 billings by net-

works were: ABC, $4,067,921; S,

$5,853,825; MBS, $1,876,124; NBC,

$5,876,213.

In December 1949 billings by

networks were: ABC, $7,656,192; S,

$7,774,039; MBS, $1,345,810; NBC,

$5,631,643.

Among the networks only CBS

reported an increase in billings in

January 1950 as compared with

January 1949. That network’s gross

last month was 3.5% higher than in

January of last year.

Mutual’s January 1950 billings

were reported a fraction of 1% below those of January 1949.

For the month of January 1950 billings were off 11% from the same

month in 1949.

ABC refused to disclose how it

stood in January billings, but it

was authoritative, although unof-

ficially, learned that ABC’s figures

would be off as much as Mutual’s, compared with January 1949.

Mutual’s January 1950 gross

billings were, however, nearly 25%

higher than its gross in the preced-

ing month of December, the net-

work pointed out.

ABC’s January 1950 figures were

believed to approximate its Decem-

ber 1949 level.

Trend Begun Last Fall Continues

Controlled Optimism

Although the impropriety of at-

 tempting a long-range forecast on

the basis of January 1950 records

alone was obvious, network officials

were generally of the opinion that

the upward movement from Decem-

ber 1949 was an optimistic indica-

tion that the first quarter of 1950

probably would be better than the

last quarter of 1949.

Month by month gross billings

of the networks in 1949 followed:

(Continued on page 24)

BASEBALL COVERAGE

Regionalos Map Plans

By JOHN OSBON

EXTENSIVE regional coverage of

major league baseball games for

1950 was strongly indicated last

week following announcement of

plans by both the Liberty Broad-

casting System and the New York

Yankees’ newly-created “Home of

the Champions” network.

Gordon McLeod, president of the

Liberty network, confirmed re-

ports that he had signed contracts

with American League President

Will Harridge for non-exclusive

rights to certain league games and

with the eight individual owners

of the National League, through

President Ford Frick, for exclusive

rights to certain NL games and

for non-exclusive rights to others.

MBS also holds rights to American

League contests.

Last Year’s Coverage

Mr. McLeod quoted no figures, but

he noted that Liberty would spend

“50 times as much” as the outlay

for such coverage last year.

Liberty, which has pioneered major

league broadcast on a regional

basis last year beamed baseball to

its affiliate stations in nine states,

plus stations in five other states.

From 250 to 300 stations in cities

from New Mexico to Virginia and

embracing the whole Southeast, are

expected to carry the broadcasts.

Most of the stations subscribe to

the network on a regular or per-

manent basis, Mr. McLeod said.

They also will bring a minimum

of three hours other programming

from Liberty in addition to the

baseball broadcasts.

Agreements call for a minimum

of 210 National and American

League games—an average of eight per week—with double head-

ers on Sundays.

Recreation Planned

Under the contract with the

American League, a number of

games will be re-created from

Western Union facilities and fed

out of Dallas. National League

contests will be divided between

“re-created contests” and those

picked up “live” by Liberty’s own

staff. Mr. McLeod declined to

elaborate on details involving di-

rect coverage from NL parks.

A feature of the agreement is a

provision which calls on Liberty

Broadcasting System to air a mini-

mum of 34 NL exhibition games

beginning March 11, Mr. McLeod

said.

He said that the network has had

“numerous offers” from national

advertisers for sponsorship of the

games, but that Liberty would offer

them to stations for local coopera-
tive sponsorship.

Seventy percent of those stations

signed by Liberty up to the present

are independents, but the network

hopes to sign affiliates of the four

major networks in cities where

independent outlets are not available.

The “Home of the Champions”

network coverage will be sponsored

by P. Ballantine & Sons and At-

lantic Refining Co. under contracts

signed last week in New York

with the Yankees through J. Wal-

ter Thompson Co. and N. W. Ayer

& Son.

The “Home of the Champions”

12-station network [Broadcasting,

Feb. 21] will make available to

stations in upper New York state,

Pennsylvania, Connecticut and

Massachusetts 111 of 154 scheduled

New York Yankee games; remain-

ing 43 are arc-light contests.

Of the available total, actually

only a minimum of 100 games prob-

ably will be carried by individual

stations, it was explained. In the

case of stations in territories of

minor league clubs within the 50-

mile radius, the maximum may be

as low as 15 games, it was pointed

out.

Stations will exercise the right of

refusal of certain games, espe-

(Continued on page 16)

February 27, 1950 • Page 15
**LBS EXPANDS**

150 Affiliates Under Contract

PLANS for expansion of the Liberty Broadcasting System, and for scheduled opening of offices in New York by April 1, were revealed last week by Gordon McLendon, president of the company.

The network intends to enlarge its present baseball coverage to a number of additional major cities (see story page 15) and to increase its programming schedule appreciably in the coming year, Mr. McLendon told Broadcasting.

By April 18, Liberty hopes to have from 250 to 300 stations — most of them independents — in the fold, with a goal of 18 programming hours daily in all 48 states by 1951. About 150 stations already are signed or being signed, he indicated. Identity of stations will be disclosed later, he added.

Site Undetermined

No location has been selected for the New York office, Mr. McLendon said, but he thought a site would be chosen shortly following current negotiations in New York City. The network operates regional offices in Charlotte, Atlanta, Denver, Los Angeles, Little Rock, Ark., and in other cities.

The present 150 stations under contract, according to Mr. McLendon, will extend to major cities in 33 states. Last year 71 stations in nine states carried Liberty programs.

Mr. McLendon said full details on the network's expansion, along with appointment of a New York sales manager, will be revealed in the next fortnight pending conclusion of negotiations in New York. Liberty Broadcasting System, under Mr. McLendon and James Foster, general manager, headquarters in Dallas, Texas.

**Programming Plans**

Mr. McLendon said LBS would move into other selected markets throughout the country — that is, major cities — and sign other key stations when expansion is deemed advisable. He emphasized the importance of a strong penetration of the New England or other major eastern territories this year.

Programming, much of it to be aired immediately following baseball broadcasts, will likewise be expanded when stations have not been fully developed but already include a projected 1½-hour daily giveaway program with some $2,000 worth of prizes.

**PHILLIES' GAMES**

WPEN Will Air Full Schedule

FULL baseball schedule of the Philadelphia Phillies including home, away and exhibition games will be broadcast this season by WPEN Philadelphia, the station announced last week. Atlantic Refining Co., Suppler-Sealtest and Ballantine Ale & Beer will alternate sponsorship of the broadcasts.

Play-by-play description will be handled by Gene Kelly. WPEN also will carry a daily quarter-hour show, Here Come the Fightin' Phil- lies, which will include interviews with players and fans, and stories of the Phillips and other National League clubs.

**ZAHRT TO BAB**

Succeeds Lee Hart

MEG ZAHRT, former radio and public relations director of Polsky's, Akron, Ohio, department store, has been appointed to the staff of Broadcast Advertising Bureau, effective March 15, it was announced last week by BAB Director Maurice B. Mitchell (from Omaha, Neb., Feb. 13). Miss Zahrt will replace Lee Hart, now on extended leave of absence, as retail specialist.

Miss Zahrt in her post at Polsky's, won many national awards for radio advertising promotion. She is the creator of Lynn Laser-ence, shopping program sponsored by the department store, which has won recognition for three consecutive years in the annual awards given by the NRDA. She introduced one of the first local women's programs in the retail advertising field.

Prior to joining Polsky's, Miss Zahrt broadcast as “Jane Adams” for Yeager's Dept. Store, also Akron, while occupying the position of advertising and sales promotion manager of the store. Miss Zahrt is also chairman of the Broadcast Advertising Committee of the Assn. of Women Broadcasters.

**GENE KELLY (r) gets a few pointers on the national pastime from Benny Bengough, Phillies' coach, as the two meet at Phila- delphia's Poor Richard Club.**
Board May Affect Pending Legislation

NEARLY 40% of the Army-Air Force recruiting program's advertising budget for next year is earmarked for radio and television, according to testimony before a House Appropriations subcommittee just realed.

Figures revealed that out of a total outset of $1,591,600 for the fiscal year beginning July 1, the Army-Air Force campaign calls for a national expenditure of $636,400 for radio-TV. The budget estimates were given the Congressional group by Col. N. F. McCurdey, deputy chief of Military Personnel.

Other media budget slices are $437,606, $358,740 and $159,100 for magazines, newspapers and car cards, posters, sales aids, etc., respectively.

It was further revealed last week that the Army is readying a $100,000 spot campaign in 52 key cities to advertise its Reserve Program.

These revelations followed nationwide protests by stations against donations of free time to organizations conducting paid advertising campaigns in other media. Widespread action by stations on the abuse of radio's traditional offer to donate its time to public service causes has been indicated.

This subject was crystalized when the NAB Unaffiliated Stations Committee early this month [Broadcasting, Feb. 6] adopted a resolution calling upon the NAB board to review the entire problem of free time.

Stations Informed

Broadcast Advertising Bureau and national station representatives who had been keeping stations informed on the relations of the Army campaigns. The BAB has scheduled talks with the Army.

The figures presented to the House subcommittee include anticipated outlay for radio of production and for time placement in the joint recruiting drives.

While the breakdown on estimated expenditures did not specify the division, figures of the past four years' spending for radio shows an average split of about 14% for time buying and a little more than 17% for production costs [Broadcasting, Feb. 13].

It was understood that next year's budget would permit only network time purchase because of money limitations. Local and spot purchases usually are left to individual Army commands throughout the country. They have individual advertising budgets.

Col. McCurdey told the Congressional group that the recruiting program of the Army and the Air Force plans to meet the demands of recruiting 255,800 voluntary enlistments. Of the entire program, he said, an approximate 27% chunk of the allocations would be used "at the grass-roots level by allocation to Army areas for direct advertising" in local media.

Agency handling the Army-Air Force account is Grant Advertising of Chicago. It received an 18-month contract last January. It's predecessor was Gardner Advertising. Will C. Grant, owner of the Grant agency, has recommended the use of radio by the Armies and has indicated that his agency has set up a package of radio ideas to be presented to Army commanders.

February 27, 1950 • Page 17
IT'S NO COINCIDENCE

that the sales volume of Allis-Chalmers Mfg. Co.'s Tractor Division, Milwaukee, zoomed fivefold in 10 years between 1939 and 1949.

Although the increase in business during the mid-40s was attributable to a pent-up demand and limited production during the war, radio stepped in to hold the line—and even further increased sales. It was just five years ago that W. A. Roberts, executive vice president of A-C and head of the Tractor Division, decided to sponsor NBC's National Farm and Home Hour.

The reasons were manifold—to perform a service to agriculture, to back up efforts of national salesmen, to establish a brand name in minds of potential customers, to keep that name ahead of competition and to establish prestige. Then and now, Mr. Roberts knows that "prestige can't be bought. You have to earn it."

The Tractor Division, a recent outgrowth of the General Machinery Division which dates back to 1847, retained a subordinate role nationally in farm machinery production until about 10 years ago. At that time it was eighth in sales among farm equipment manufacturers. Today it is third.

The Tractor Division, which sponsors the oldest agricultural show on the air, pays about $500,000 yearly to gain Mr. Roberts' objectives. The company declined to release any official figures, however.

National Farm and Home Hour, aired Saturday, 1:15 p.m. (EST), adds up to an expensive package (on paper) for a half-hour weekly show because of heavy remote costs and time charges on the full NBC network. In addition, a live repeat broadcast is aired for 32 stations in Mountain and Pacific time zones. Show talent includes an m.c., 31-piece orchestra and conductor and a male quartet—maintained even when remotes are broadcast. Because the client wants complete coverage, any station joining the network will be bought.

The program's concept pre-dates sponsorship by Allis-Chalmers. In 1923, when the National Farm and Home Hour was originated at KDKA Pittsburgh by Frank Mul- lon, NBC conceived it as a service to agriculture and farmers. It became a daily, noontime feature in October 1928 on the full network when it moved to Chicago. Throughout the years, the show has been produced by the network in cooperation with the U.S. Dept. of Agriculture.

It's a beautiful day in Chicago, National Farm and Home Hour M.C. Everett Mitchell (s) says, as agree Producer Herb Lateau (l) and Ken- neth C. Gopen, chief of the radio and television section and assistant director of the information service, U. S. Dept. of Agriculture. Mr. Gopenbulletins USDA Headlines on each Allis-Chalmers show.

George Hufstedlar, of Allis-Chalmers tractor sales department, demonstrates the firm's Model G tractor during the International Lives- stock Exposition in Chicago.

... for Allis-Chalmers With It 'National Farm and Home Hour'

strip was cut to twice and then once weekly, and finally dropped because ABC lacked enough rural power stations for comprehensive coverage.

Returning to NBC, the program was sold to Allis-Chalmers Sept. 15, 1945. Although the network's policy had been to keep the Farm and Home Hour sustaining, most available network time had been sold during the war, and commercial shows took precedence in scheduling. To keep it on the air, network executives recommended a one rural broadcaster, commenting on the program's uniqueness, terms it "the only radio show with a marriage between agriculture, network and government agency." It is also the only known sponsored program which has the full cooperation of a government agency—the U.S. Dept. of Agriculture. Each opening and closing is by it as a service to Allis-Chalmers, in cooperation with the USDA.

Flexibility Keynote

Throughout 27 years, the show has been geared to flexibility so that farm events of national interest can be covered news-wise on a moment's notice. Since Allis-Chalmers assumed sponsorship, the show's purposes are twofold—to serve agriculture (and serve it well) and to build good will for the Tractor Division. Holding the reins on the object is George N. Seaman, radio executive at Bert S. Gittins Agency, Milwaukee, who spends 90% of his time on the account, and Paul Vissers, of NBC Chicago's agricultural staff, who succeeded Bill Drips.

Mr. Gittins and Mr. Seaman back up the theories of Tractor Chief Roberts. Mr. Roberts is convinced that if the show is a good service to farm people and the farm industry, farmers will be honest enough to realize it and to realize who is doing it. Purchase of equipment, he believes, leans on the local salesman, bolstered by help from "someone else." In this case, some-
FINITE place for TV in the transmitting of farm news and information.

A-C's direct and simple purposes are reflected in the Farm and Home Hour format. "The U. S. Field Artillery March," a rousing anthem which paces the show, leads to familiar tunes played by Whitey Berquist and his 31-piece orchestra. The Homesteaders, All-American favorites—Stephen Foster and A. C. and the Ramother—stand standard, in an occasional pop tune which is broadcast to the public. The Farm and Home Hour quartet includes Tenors Wayne Van Dyne and Richard Paget, Baritone Edward Stack, and Basso John McDonald.

Veteran Staff

Producer Herb Lateau, a 25-year radio veteran, organizes the music with Whitey Berquist. Mr. Lateau majored in music at Oklahoma City and acted as Walter Hampson and Katherine Cornell composer. He joined the NBC Chicago production staff in 1943. Bert Carmine of NBC's continuity staff is scriptwriter. Show's individual trademark—"a beautiful day in Chicago!"—sang out to listeners for the first time on a Sunday during the reunion. It's a daily greeting of Everett Mitchell, who took over the Farm and Home Hour job 1930, four years after originating his first farm program, Farmer's Exchange, for the network. Mr. Mitchell narrates Town and Country on WMAQ (NBC) Chicago each morning. He was fea- vered commentator on Firestone's Champion Farmer series, and first id for Allis-Chalmers on the American Party in 1938. He has anorary doctor of letters degree from Carthage College (Ill.) for his work in developing understanding between rural and urban sections through farm radio.

Ken Gopen, chief of the radio and television service and assistant director of information for the USDA, gives timely tips in USDA Headlines each week. Mr. Mitchell announces the weekly market roundup prepared by the USDA.

Although the show's permanent origin point is Chicago, about 40 of 52 programs yearly contain major remote segments. No hour ever originates entirely in Chicago, as Mr. Gopen explained in his usual Washington, D. C. Subjects of typical remotes: Methods of an Oklahoma conservationist who developed a system of soil judging; significance of an American Thanksgiving to a displaced Latvian family on a Michigan farm after years in a European DP camp; Texan pioneers in production of grain sorghum; feeding livestock for top quality meat; stubble mulch farming as an aid in reducing wind and water erosion.

Special Events

Special events have been carried as a secret of success from the sustaining to the commercial show, for they give the farmer a front seat to everything important in his business. Remotes are basic to the concept of bringing farm news, history and events from the spot where they happen by the people who make them happen. Personalities interviewed are non-professionals, except for radio farm directors from NBC stations and agriculture college representatives.

Remote costs pyramid the budget, and can be justified as an extra expenditure only if the news is good and has a lot of human interest. Mr. Roberts, however, set a rule a long time ago that cost

should never be the deciding factor. For example, last Christmas Mr. Mitchell went to Boys Town, Neb., where the Boys Town Choir was featured. Total charges added up to about $1,000. "If it's worth doing an editorial feature, and worth reporting, then do it," says Mr. Roberts. Two foreign remotes were shortwave from the World Poultry Congress in Copenhagen two years ago and from London last year, when a group of 4-H exchange students visited there.

Repeat broadcasts, live from Chicago, began Jan. 7 for 32 stations in Mountain and Pacific time zones. Allis-Chalmers wants the show heard locally there between 12 and 12:30. When only one live show and a few local repeats were used, some West Coast dealers complained that their customers were getting the show at 11 and 11 a.m. Perhaps the most unique feature of this commercial show is the lack of hard-selling commercial messages, "Without any doubt, the Farm and Home Hour uses some of the best institutional commercials in radio," according to Paul Visser. Only two brief mentions of the firm are made, at show's open and close.

Standing orders have been issued for commercial copy to be cut whenever more time is needed for editorial matter. Any public service message requiring another minute or two for elaboration frequently gets extra time from commercials.

No spots are used on the Christ- (Continued on page 50)

FROM a pig show ring in Austin, Texas, a remote broadcast is handled by Paul Visser (front), superintendent of the show, who interviews Carroll Plager (s), superintendent of the show. About 40 of 32 shows per year are complete remotes from various parts of the country.

BERT S. GITTINS (ll), head of the Milwaukee agency of the same name, confers with Gerald L. Seaman, radio executive, on Mr. Seaman's upcoming itinerary for the Farm and Home Hour. Mr. Seaman writes all commercials, many of the scripts and visits each area in which a remote show is broadcast. Mr. Gittins' first account was Allis-Chalmers, which he got in 1935 on a 90-day trial and has had ever since.
THE YEAR 1949 was outstanding in RCA and NBC progress, marking a period of achievement for the parent corporation and its subsidiaries, according to the 30th annual report of Brig. Gen. David Sarnoff, RCA board chairman.

Net earnings of Radio Corp. of America in 1949 amounted to $255,144,279, equivalent to $1.58 per share of common stock, Gen. Sarnoff informed the board. This compares with $242,024,474 in 1948, when earnings after payment of preferred dividends were equivalent to $1.50 per share.

Net profit, after all deductions, was 6.3% of gross 1949 income compared to 6.7% in 1948. Total gross income from all sources amounted to $9,629,020, representing an increase of $39,641,789, compared to $9,357,231 in 1948. RCA’s dividend payments for 1949 amounted to $31,824,800 on preferred and $9,928,604 on common, a total of $10,861,404. Dividends paid during the last 10 years total $90,164,112.

NBC Covered

In discussing operations of its subsidiary, NBC, the report refers to 1949 as “a year of achievement in service to the public and a period of organization and expansion in television to meet the necessities of the new art and to maintain radio broadcasting at the highest possible levels.” NBC’s network lineup now totals 172 stations, with six owned and operated by the company, it was stated.

NBC’s television network more than doubled in 1949, increasing from 28 to 56 TV stations of which five are NBC owned and operated. Coaxial cable or radio relays connect 26 stations and 30 non-inter-connected outlets receive NBC network programs by kinescope-recorded film.

RCA made valuable contributions to the technical advance of TV, in addition to engineering improvements, according to the report, which adds: “A new experimental television station operating in the ultra-high-frequency band was erected at Bridgeport, Conn., and was placed in operation at the beginning of 1950. This station will operate experimentally as a satellite to NBC’s television station in New York City, receiving and retransmitting the latter’s signals. This experiment is expected to make important contributions to the solution of technical problems in ultra-high-frequency telecasting.”

In a joint statement for the RCA board, Chairman Sarnoff and President Frank M. Folsom declared:

“RCA observed its 30th anniversary in 1949. It was an outstanding year for its decision last week to accept the RCA products and services offered by the highest peak in the history of the corporation. Television’s spectacular rise as a new service of mass communication, in which RCA has played a leading role, is without precedent in the industrial development of the United States.

Video’s Rapid Growth

“Television achieved the going rate of a billion-dollar-a-year industry, to become the first American industrial enterprise to move ahead so rapidly in so short a time.”

At no time in the history of the radio-electronic arts have conditions been more favorable for continued growth and expansion to public benefit. To the fulfillment of this promising outlook, RCA wholeheartedly dedicates its facilities and services in scientific research, manufacturing, broadcasting and communications.

RCA have crossed the threshold of 1950 determined to progress service to the nation and to peep everywhere. RCA since its form in 1919, has cooperated with the United States Government in matters of national security through research, engineering communications and broadcasting.

“Continuing these activities, the nation’s interest, RCA in 1949 cooperated with the Dept. of Defense in industrial mobilization planning.”

Sarnoff and Mr. Folsom, their report to RCA’s 1950 stockholders list these achievements:

Expansion of television as a service to the public.

Development of the RCA all-electronic, high-definition, complete companion television system, now being field tested.

Introduction of the RCA 45-reel system of recorded music feature the simplest and fastest photofilm record changer ever devised and providing the best quality of reproduction; also a new and improved 33 rpm long-play record.

Advanced development of radar and its increased application to nation security and safety at sea and in air.

RCA reported it produced a millionth TV receiver in February of this year. Sales of radio sets and phonographs dropped in 1950, following the industry trend by picking up in the last quarter. This business continues to exceed capacity expectations, it was stated, despite plant expansion.

Development of the new RC color system (see TV comparison chart, page 22) was described as an outstanding scientific achievement.

PLANS for a lavish presentation of “Lightning That Talks” at New York’s Waldorf-Astoria Hotel before a thousand advertising executives were abandoned last week.

The New York subcommittee of the All-Radio Presentation Committee at a meeting last Tuesday voted instead to show the film at a luncheon meeting of the New York Radio Executives Club.

Last week’s decision put an end to plans to spend $30,000 for a spectacular New York showing of the promotion film. Until a fortnight ago, the event had been scheduled for March 4, with such luminaries as Gen. Dwight D. Eisenhower in attendance.

The film was to have been shown after a dinner at the Waldorf. Additional entertainment was to have been provided by big-name talent. The first alteration of that plan came after the NAB board expressed disappointment in the film at its Phoenix meeting [Broadcast, Feb. 13]. It was decided to postpone the New York premiere until late March or early April, but until the meeting last Tuesday the committee was still intending to stage a glittering show despite the change in date.

No Official Explanation

Although the subcommittee did not officially explain the reasons for the decision last week to switch from the full-dress presentation to the much more modest showing before the Radio Executives Club, it was learned that the choice was motivated by several factors.

Not the least of them was the question, raised first by the NAB board and later by others, as to whether the film would be worth $90,000 presentation, it was suggested.

This doubt was combined with other difficulties such as choosing an appropriate date.

The March 29 or 30 date that had been considered was rejected when it was recalled that both the AIA of National Advertisers and American Ass’n of Advertising Agencies would be holding conventions at Hoag Springs, Va., and at White Sulphur Springs, Va., at the time.

Members of the subcommittee were doubtful that a later show (Continued on page 77)

**DEFENSE**

Radio Seen Ready In National Emergency

Radio and its electronic companions in communications will not be caught napping should a national emergency arise. That is the assurance of top civil defense planners in Washington.

As speculation on such matters as government dispersal and an "alternate" capital city reached a new pitch last week, there was widespread evidence that radio's role—and communications as a whole—in time of emergency, faces a review in high government quarters.

Officials indicated that the FCC would be included in any top priority list of executive agencies that could be retained in Washington under any proposed plan of departmental decentralization.

Key to drawing board plans for radio is the wartime AM-FM-TV emergency network [Broadcasting, Nov. 21, 1949] officials progress is being maintained, officials said. However, the present feeling among planners is that radio could be converted into an emergency run "overnight" should an attack on the U. S. by a foreign power develop.

Talk on overall civil defense was renewed during the week with the making of a statement by Dr. Paul Larsen, who becomes chief of the Office of Civilian Defense on March 1, and by the introduction of a resolution (H. J. Res. 419) by Rep. John H. Holifield, (D-Calif.) a member of the Joint Congressional Atomic Energy Commission, to set up a seven-man commission to study the possibility of an alternate seat of government. Dr. Larsen is head of the AEC's Sandia Labs (Albuquerque, N. M.).

Dispersal of Agencies

Dr. Larsen suggested that federal facilities be dispersed and underground shelters for them be constructed as measures of protection for the national capital. He noted "at random" those agencies which could be moved to another site because of their non-essential nature in an emergency: The Post Office Dept., the Dept. of Agriculture, the Veterans Administration and the Treasury Dept.

Defense spokesmen, while pointing out that Dr. Larsen's statements were his own and not the administration's, told Broadcasting that because of the essential nature of the FCC as the communications regulatory body, the agency would not be included in any "list" of government facilities to be dispersed.

The commission proposed by Rep. Holifield would be headed by the Defense Secretary and would be made up of defense officials, and representatives of the Senate, House, judiciary and the Atomic Energy Commission. It would report to the President and Congress by Jan. 31, 1951. Study would include possible sites for a "substitute" government city and the administrative procedures to be followed.

Subsequent national defense peering into communications is probable by the temporary five-man Communications Policy Board named by President Truman [Broadcasting, Feb. 20; also see page 17]. A defense official said the board most likely would concern itself with an investigation of the utilization of communications at time of a national emergency.

Other Hearing Possible

A similar study may be forthcoming when hearings are held by the House Judiciary Committee on the Holifield resolution. Rep. Holifield said his proposed commission "would investigate the measures which can be taken to ensure the continuous operation of the government of the United States in the event of attack by a foreign power."

Meanwhile, progress was indicated on certain electronic phases of civil defense with the revelation that a tentative schedule, subject to periodic change, has been set by the Munitions Board which lists equipment requirements in the communications field. The schedule will alter, officials said, with subsequent development of technical processes.

The whole operation of a communications set-up as a measure of national defense, as seen in the light of the trend toward dispersal and decentralization of the physical and administrative functions of government, follows the original theme as detailed in the book, Star Spangled Radio. Authors are Edward M. Kirby, former NAB public relations chief, and Jack W. Harris, general manager, KPRC Houston [Broadcasting, Nov. 21, 1949]. Both served as executive officers in the War Dept., during World War II, formulating procedures and policies for vast radio networks here and abroad.

Still in the study stage is the possibility of making use of transit radio facilities in event of disaster. While applicable to situations created by flood or fire, radio-equipped buses also could be employed in a war emergency, defense officials believe.

Ben Strouse, general manager, WWDC-AM-FM Washington, capital franchise-holder of Transit Radio operations, said he had submitted a list of cities currently operating radio-equipped vehicles to Col. R. S. Stanford, civil defense communications officer. Mr. Strouse has reported both Col. Stanford and Lt. Col. Barnet W. Beers, assistant for civil defense liaison, as enthusiastic for wartime application of radio-installed vehicles. TR's role would be conversion of such vehicles to two-way radio.

Civil defense planners emphasize that their present problem in master-plan defense does not so much concern the central organizational group, but lies in "getting the story across to the state and local levels."

**VOICE OF DEMOCRACY**

PARTICIPATION of official Washington in radio's annual high school competition, the Voice of Democracy, contains ceremonies honoring four young people who won national awards. Final events take place today (Monday) at Colonial Williamsburg, Va.

The winning students, selected from a million entries, were honored in a round of events that included the annual Voice of Democracy luncheon and greeting by President Harry S. Truman at the White House Executive Offices.

On today's schedule are a noon luncheon at Williamsburg at which Gen. George C. Marshall, president of the American Red Cross, and the four students will be guests of John D. Rockefeller 3d. This afternoon the four will repeat their winning scripts in the historic House of Burgesses before Williamsburg high school seniors.

Broadcast Set

Final event will be a broadcast to the youth of the world by the four winners along with Gen. Marshall and Mr. Rockefeller, CBS and Voice of America will carry the program.

Presentation of $500 scholarships and certificates to the four winners took place Wednesday at a Washington luncheon, held at the Hotel Statler. Dr. Earl J. McGrath, U. S. Commissioner of Education, presided. He introduced Edward W. Barrett, Assistant Secretary of State for Public Affairs, who made the presentations. Ceremonies were carried on MBS.

Mr. Barrett recalled that the scripts demonstrated the unity of America and its strength as a fortress for free men. As Assistant Secretary of State he directs operation of the Voice of America, which recorded the ceremonies for later transmission to English-speaking nations.

Gloria Chomiak, of Wilmington (Del.) High School, one of the winners, also delivered her script in the Ukrainian language, similar to the Russian tongue, for the Voice of America. She said she spoke Ukrainian and was able to read in four other languages. Her parents migrated to Alberta from Ukraine. She has had only four years of formal education.

Dr. McGrath said the Office of Education had endorsed the contest since its inception because it believes that youth represents the true strength of the nation and that "an affection for our way of life, and a true understanding of it" is sacred to youth's inheritance.

Clifford D. Cooper, of Alhambra, Calif., president of the U. S. Junior Chamber of Commerce, was a luncheon guest along with Justin Miller, NAB president, and Raymond C. Cosgrove, president of Radio Mfrs. Assn. The three associations sponsor the contest with

(Continued on page 77)

SAFFORD NAMED
Heads III. Broadcasters

MEMBERS of the Illinois Broadcasters Assn. unanimously elected Harold Safford, program director of WLS Chicago, president for the next year at the annual meeting in Springfield Thursday.

Leslie C. Johnson, general manager, WHBF Rock Island, vice president, and J. Ray Livesay, president and general manager of WLFB Mattoon, is secretary-treasurer. Charles Caley, executive vice president of WMDD Peoria, was elected to the board of directors.

Others are Charles Cook, general and commercial manager of WJFF Herrin; Arthur Harre, president of WNL Decorah, and Merrill Lindsay, retiring president, and manager of WSOY Decatur.

FM broadcasters among the group attended an FM session Thursday morning, when Mr. Lindsay reported that he had been able to increase his rates 8½% because of augmented coverage through FM in surrounding farm areas.

Richard P. Doherty, head of NAB's employer-employee relations, was a surprise speaker at the afternoon meeting, which followed a luncheon for 40 New York and tapers. He answered questions on labor relations from the floor. Mr. Doherty was introduced by Mr. Johnson, who said all Illinois stations should be members of NAB "for no other reason than to take advantage of the employer-employee relations department."

FCC Actions

GRANT made by FCC in 1947 to WHOL Allentown, Pa., set aside technically by Commission last week and comparative proceeding des-ignated for further hearing.

Four stations granted owner-ship transfers. One AM and one FM authorization de-leter. Details may be found in Actions of the FCC, page 40 and FCC Roundup, page 76.

REPEAT FEES

AFRA Complaint Hearing Set

HEARING of AFRA's complaint against McCann-Erickson Inc. for repeat actors' fees on CBS. "Straight Arrow" is scheduled with the American Arbitration Assn. at Los Angeles, March 7. Judges will be Frank Muris and David Smith for the accusers, and Jerome Rosenthal for the union.

AFRA charges that the agency has not been paying $18.25 due each actor on the program for repeat broadcast, over the original payment, a rule followed by all other agencies and stations. The MBS program is aired live from Hollywood and tapers for broadcast later in the West.

The agency has defended its stant on grounds that the Taft-Hartley Act clause on payment of fees for services prohibit makes such payment illegal. The union seeks $12,000 in back salaries for actors since February.

RRN MEET

Affiliates Map Future Plans, Hear Progress Report

PRESENT expansion moves, program scheduling and future plans of the Rural Radio (FM) Network were discussed at a meeting held a fortnight ago in Ithaca, N. Y. The RRN is made up of 11 Upstate New York FM stations covering primarily county, upstate area with a seven million population. Program changes in new affiliates' schedules to six hours to 13 hours daily since their affiliation also were stressed. It also was agreed to push the proposal of obtaining top-flight programs from member stations for network broadcast.

The network's sales staff forecast an increased use of time by producers of farm goods and services. At the same time members expressed interest in the future of FM. All stations reported increased distribution of FM receivers in their coverage areas with one member offering survey figures showing a 40% FM set-own- ership for his community. Louis Saiff, manager of WIFRAM station, WWSY-FM, did not get to the meeting because of weather conditions barring his travel. Basic owned-and-operated RRN stations are: WNFR (FM) Wefstersburg, WCTV (FM) Bristol Center, WCSS (FM) DeRuyter, WVCT (FM) Cherry Valley and key station, WHCU-FM.

FCCEND MADE BY FCC IN 1947 TO WHOL ALLENTOWN, PA., SET ASIDE TECHNICALLY BY COMMISSION LAST WEEK AND COMPARATIVE PROCEEDING DESIGNATED FOR FURTHER HEARING.

FOUR STATIONS GRANTED OWNERSHIP TRANSFERS. ONE AM AND ONE FM AUTHORIZATION DELETED. DETAILS MAY BE FOUND IN ACTIONS OF THE FCC, PAGE 40 AND FCC ROUNDUP, PAGE 76.

REPEAT FEES

AFRA COMPLAINT HEARING SET

HEARING OF AFRA'S COMPLAINT AGAINST MCCANN-ERICKSON INC. FOR REPEAT ACTORS' FEES ON CBS. "STRAIGHT ARROW" IS SCHEDULED WITH THE AMERICAN ARBITRATION ASSN. AT LOS ANGELES, MARCH 7. JUDGES WILL BE FRANK MURIS AND DAVID SMITH FOR THE ACCUSERS, AND JEROME ROSENTHAL FOR THE UNION.

AFRA CHARGES THAT THE AGENCY HAS NOT BEEN PAYING $18.25 DUE EACH ACTOR ON THE PROGRAM FOR REPEAT BROADCAST, OVER THE ORIGINAL PAYMENT, A RULE FOLLOWED BY ALL OTHER AGENCIES AND STATIONS. THE MBS PROGRAM IS AIRED LIVE FROM HOLLYWOOD AND TAPERS FOR BROADCAST LATER IN THE WEST.

THE AGENCY HAS DEFENDED ITS STANCE ON GROUNDS THAT THE TAFT-HARTLEY ACT CLAUSE ON PAYMENT OF FEES FOR SERVICES PROHIBITS MAKING SUCH PAYMENT ILLEGAL. THE UNION SEEKS $12,000 IN BACK SALARIES FOR ACTORS SINCE FEBRUARY.

RRN MEET

AFFILIATES MAP FUTURE PLANS, HEAR PROGRESS REPORT

PRESENT EXPANSION MOVES, PROGRAM SCHEDULING AND FUTURE PLANS OF THE RURAL RADIO (FM) NETWORK WERE DISCUSSED AT A MEETING HELD A FORTNIGHT AGO IN ITHACA, N. Y. THE RRN IS MADE UP OF 11 UPTOWN NEW YORK FM STATIONS COVERING PRIMARILY COUNTRY, UPTOWN AREA WITH A SEVEN MILLION POPULATION.

PROGRAM CHANGES IN NEW AFFILIATES' SCHEDULES TO SIX HOURS TO 13 HOURS DAILY SINCE THEIR AFFILIATION ALSO WERE STRESSED. IT ALSO WAS AGREED TO PUSH THE PROPOSAL OF OBTAINING TOP-FLIGHT PROGRAMS FROM MEMBER STATIONS FOR NETWORK BROADCAST.

THE NETWORK'S SALES STAFF FORECAST AN INCREASED USE OF TIME BY PRODUCERS OF FARM GOODS AND SERVICES. AT THE SAME TIME MEMBERS EXPRESSED INTEREST IN THE FUTURE OF FM. ALL STATIONS REPORTED INCREASED DISTRIBUTION OF FM RECEIVERS IN THEIR COVERAGE AREAS WITH ONE MEMBER OFFERING SURVEY FIGURES SHOWING A 40% FM SET-OWNERSHIP FOR HIS COMMUNITY. LOUIS SAIFF, MANAGER OF WIFR-AM STATION, WWSY-FM, DID NOT GET TO THE MEETING BECAUSE OF WEATHER CONDITIONS BARRING HIS TRAVEL. BASIC OWNED-AND-OPERATED RRN STATIONS ARE: WNFR (FM) WEFSTERSBURG, WCTV (FM) BRISTOL CENTER, WCSS (FM) DERUYTHER, WVCT (FM) CHERRY VALLEY AND KEY STATION, WHCU-FM.
FACTS
About the Coal Crisis

For more than eight months, coal operators have been trying to make a contract with the mine workers' union. Before any new contract could be made, two union demands had to be eliminated:

1. Complete domination of coal production by the union, through its insistence on the "able and willing" and "memorial" clauses;

2. Insistence by the union on the power to exact enormous sums of money from employers to be spent as the union dictates on "welfare" for union members.

Federal Judge Richmond B. Keech upheld the view of the operators that these demands were not bargainable—were, indeed, illegal.

On "able and willing," Judge Keech said:

"Good faith does not permit such extraneous and unlawful provisions to be insisted upon by an employee group as a condition of wage agreement. To include such provisions would be tantamount to nullifying any agreement reached at its birth . . .

"The court concludes that insistence upon inclusion of the so-called 'able and willing' and 'memorial period' clauses in the negotiation of an agreement is a refusal to confer in good faith, and therefore a practice condemned by (the law)."

On union dictation and control of "welfare," Judge Keech declared:

"It is the opinion of the court that insistence that the welfare and retirement fund be administered so as to limit the benefits thereunder to union members and their dependents without compliance with the statutory requirements of a closed shop agreement, is in conflict with (the law)."

There can be no appeasement—no compromise—on these two fundamental issues.

AS TO THE SO-CALLED "MONEY ISSUES":

The ruthless power of the labor dictator is being used to "Kill the goose that lays the golden eggs."

Under the expired contract, wages, which the coal operators have offered to continue, are higher than those paid in any other major industry. The average hourly wage is $1.95 per hour, compared to $1.67 per hour in all manufacturing. This rate is also paid for lunch periods and "travel time;" making the average underground earnings $2.40 per productive hour. In addition, vacation pay ($100.00 a year), social security, welfare and other payments increase labor costs to about $2.74 per productive hour.

Although the basic wage rate is $14.05 per day, on the basis of 6½ hours of actual work in underground mines, many rates are higher, so that the average daily pay amounts to $15.60.

If the additional labor costs are included, the figure is $17.81 per day.

Again and again, union monopoly in the coal industry has brought the country to the point of crisis to enforce its demands.

Since more than 60 per cent of the cost of mining coal is paid for labor, the price of coal to consumers has risen again and again.

Obviously, if this industry is to survive, there must be a stopping point.

Markets for coal are shrinking. It does not make sense to raise costs when markets are shrinking. That is the way to price the industry—operators—miners—railroads—retailers—out of the coal business.

The net effect is that union dictatorship is killing off the industry, is killing off jobs for miners. In the process, it is bringing suffering and hardship to all.

There can be no true security for the American worker, no steady progress for American industry, as long as UNION MONOPOLY can dictate when a man shall work and when industry shall produce. There can be no sure protection for the American public as long as UNION MONOPOLY is free to shake its fist in the face of all!

**RETAIL RADIO-TV**

"HOW TO MAKE advertising more effective" was the theme of the sixth annual advertising conference of Ohio State U. and a highlight of a Retail Dry Goods Assoc. meeting was a radio-TV seminar in which a retail leader predicted increased use of radio and TV by retailers the nation over.

Howard Abrahams, manager of the sales promotion division of the National Retail Dry Goods Assoc., predicted that while the amount spent for newspaper advertising and retail store display will decrease slightly this year, the amounts spent on radio and TV will continue to increase as they have for two decades.

Mr. Abrahams said that while in 1939 3.1% of sales were spent for advertising, the percentage decreased through 1948 when it was 4.2%. The indications for 1949 and 1950, he said, are that the percentage will rise to 4.6% when 1949 statistics are gathered and 1950 should be higher. He believes this increasing higher percentage of sales spent on advertising is essential for stores to maintain high volume and for our standard of living to surpass its present high level.

Check on Media

Since alert retailers check the results of all advertising ventures, and have a right to check the effectiveness of all media, Mr. Abrahams believes radio and TV have a greater chance to earn more of the retail advertising budget as time passes. He said retailers are using radio more because of the personal appeal that radio can make. This helps the large stores overcome the "stigma" associated with advertising, and combined with the wide circulation radio can gain, it is the medium for mass-personalized selling that stores must have. Also, the unique program technique in radio makes advertising economical when a store is promoting a single line or department, he explained.

Mr. Abrahams added that in recent years retailers are realizing radio can do a fine merchandising and promotional job for them and are utilizing it for those purposes rather than using radio for strictly institutional purposes. The flexibility of radio and the fact it can create quick acceptance are valuable to the retailers, he pointed out. Along with these advantages is the important fact that radio creates store traffic and word of mouth publicity cheaply, which is an effective booster.

Mr. Abrahams added that many years ago the medium was not being used by TV because of the error of using it only for institutional purposes, as they had with radio, when actually TV has proved itself to be an excellent merchandising medium. He stated experience to date indicates retailers using TV are setting up additional budgets for it rather than cutting down on other media.

Kendall Foster, television director of William Esty Co., in a discussion of "Effective Television Advertising" emphasized that while the actual dollar expenditure for television advertising is extremely high, the cost per thousand impressions is remarkably low, and is becoming lower every month.

In tests of his client's television programs, Mr. Foster reported that a boxing show in New York had a cost of $1,15 per 1,000 impressions per minute of commercial, while a Los Angeles program had a cost of 90 cents per 1,000 impressions per minute of commercial. However, the actual dollar outlay for TV advertising may appeal certain advertisers when an economical weekly program on a network of 25 stations cost $75,000 a year, or three spot announcements per week cost $1,000 per year.

To illustrate the decreasing cost per 1,000 impressions of TV, Mr. Foster related how a program in a poor adjacent city, $60 per 1,000 in 1948, but in 1949 the same program had dropped to $6 per 1,000. Mr. Foster emphasized that the effectiveness of television advertising does not depend on the time or station, but on the program and the ingenuity put into it by the advertiser.

Co-Sponsor Benefits

He warned all concerned with television that to maintain the effectiveness of the medium and the double, triple and quadruple placement competitive position, it must be eliminated. He said experience has shown that the sponsorship of sporting events, for example, where one company takes the first half, results in high sponsor identification and an economy for many limited budget advertisers.

Dr. Kenneth Baker, of BMI, reminded the advertising men not to lose sight of the great record of radio advertising, the fact that there are more sets, more listeners and more stations than ever before. This, combined with the fact that money is spent locally for radio advertising than nationally, indicates the wide fields open to the medium and the untapped business resources that are not yet radio users.

The director of research for the Biow Co., L. E. Deckinger, told the conference television viewing and the much publicized visiting of TV owners' homes by TV enthusiasts will settle down to normal activities as TV ownership becomes more widespread.

An survey conducted by his company and various universities, Mr. Deckinger found that TV owners of several years standing have virtually the same viewing habits as those who have had sets but a few months. This, he said, rules out the novelty aspect of TV and places it definitely into the scheme of American home life for years to come.

The surveys indicated that virtually no TV viewers have complaints on the commercials, while 66% feel TV programs are good 33% feel they are fair and only 1% believe TV shows are poor. On the question of whether TV programs are improving 90% answered yes, only 1% said no. Mr. Deckinger believes this indicates an excellent acceptance of the medium and an indication of future satisfaction with it.

Most surveys show that among TV-owning families, 23% less time is spent reading magazines, 29% less time reading books and 72% less time attending movies. Newspaper reading time was down 5% in these homes. The upsurge of interest in drama is indicated that 17% of those questioned viewed drama programs again 11% in 1948.

The keynote speaker of the conference, Donald Hobart, director of research for Curtis Publication told the advertisers that constant research is necessary in our fluctuating, competitive economy in order to make our advertising and sales efforts more effective. Many advertisers must keep an ever constant watch on product use, advertising appeals, on who buy, where they buy, and how much the can buy.

While selling and advertising the key to our high standard of living and dynamic economy. Mr. Hobart emphasized that sales problems deal more with outlets and distributions, while advertising problems concern selling in the home—where people live.

Mr. Hobart believes advertisers should be the enthusiastic for the manufacturer for his product or service can be carried to salesmen, retailers, clerks and consumers.

HAYES FILE SUIT
Seek $25,000 From Crash
TOTAL of $25,000 damages is demanded by Sam Hayes, NBC Hollywood newscaster, and his wife, Sally, in suits filed in Los Angeles Superior Court as an aftermath of a plane crash last Oct. 1 in which they were injured and Buddy Clark, network singer, was killed [BROADCASTING, Oct. 10, 1949].
Mr. Hayes asked $10,000 and his wife $15,000. Defendants are James L. Hayter, plane owner, and D. W. Maree, pilot. Seriously injured also were Frank (Bud) Berend, NBC Western Division sales manager, and Jennings Pierce, NBC Western Division manager of public affairs, station and guest relations. The party was returning from the Stanford-Michigan football game at Palo Alto, Calif., when the plane crashed in a Los Angeles residential district.

WJR, WWJ
LICENSE RENEWAL hearings for both WJR and WWJ Detroit were requested last week by Emil Mazey, international secretary-treasurer of UAW-CIO, in a formal complaint filed with FCC. He charged the stations with refusing to sell or otherwise make available time for discussion of the issues in the strike at Chrysler Corp.
Harry Bannister, general manager of WWJ, denied the complaint and recited his earlier statement that in all disputes involving the public interest free time would be given provided both parties to the dispute mutually participated. He had outlined this policy earlier in the month in a letter to Luckoff, Wayburn & Frankel, advertising agency for UAW-CIO which sought commercial time [BROADCASTING, Feb. 6].
Similarly, WJR termed the complaint “groundless” and said it first heard of the request for time when newsmen called to get WJR’s reaction to the union’s complaint to FCC.
Mr. Mazey, addressing his petition to FCC Chairman Wayne Coy, requested renewal hearings immediately so that “this matter can be gone into in detail.” He said the actions of WJR and WWJ “in preventing the residents of Detroit from becoming informed on the issues in the Chrysler strike are in direct violation of the Commission’s decision” revising its policy on broadcast editorializing, issued last summer [BROADCASTING, June 6, 1949].
Mr. Mazey related the union, through its agency, on Jan. 31 asked to purchase a daily 15-minute period on WJR but was advised only a single half-hour weekly was available. He said WWJ was queried the same day with 6:15-6:30 p.m. Tuesdays and Thursdays and 7:45-8 p.m. Mondays, Wednesdays and Fridays being offered. But before arrangements could be completed the time was refused since Chrysler would not participate, the union spokesman said.
He observed that WWJ refused time only because Chrysler declined and termed this a violation of FCC policy because “the Commission has never allowed one party to a controversy to veto public discussion of that controversy.” Mr. Mazey said “fairness ... might require no more than that the licensees make a reasonable effort to secure responsible representation of the particular position” and if it fails, to continue to make its facilities available for reply if so requested after the original broadcasts.
WJR explained that upon learning of the complaint it checked its sales traffic department “and found that a routine request by telephone had been made by the union’s advertising agency.” WJR said the specific time sought was not available and alternate times were turned down. The station said it “did not receive any other correspondence from the agency or the union requesting time or pressing the issue further.”
WJR said its policy on controversial issues is clearly defined. “It provides equal opportunity for opposing sides to present their views ... whether the time is on a commercial or sustaining public service basis,” the station explained.
Mr. Bannister, in his earlier policy statement to the agency, guaranteed a minimum of one hour of Class A time weekly without charge for “joint-use of both parties in the controversy.” He said additional use of WWJ’s facilities would not be available to either party during the duration of the strike.

UAW Files Complaint With FCC

"It's this sort of thing that makes it hard to do a Man-on-the-Street broadcast."

RTDG PACT
ABC, NBC, CBS, WOR To Sign
AGREEMENT on a new contract covering members of the Radio and Television Directors Guild (AFL-CIO) employed by ABC, NBC, CBS and WOR-AM-TV New York was reached in New York last week following a meeting of network officials and union representatives with the New York State Mediation Board.
According to terms of the new contract, to be signed sometime this week, radio and television directors will receive a top weekly minimum of $145 [BROADCASTING, Feb. 6] and associate directors a $100 top minimum. The contract, retroactive to Jan. 1, 1950, expires June 30, 1951. About 380 directors are involved.
Directors working on commercial shows will receive 80% of the prevailing free lance rate schedule governing AM network productions. No schedule of commercial fees was set up for TV directors, sum to remain subject to individual negotiation.
It was learned, however, that the contract contains a clause which provides for reopening of negotiations for assistant TV directors Nov. 30, 1951, six months before expiration of the new contract.

Fees Point of Dispute
According to a guild spokesman, the question of commercial fees involving agencies and advertisers directly, had been a primary point of dispute.
The agreement followed a number of negotiation sessions during which it had appeared that the directors’ guild would strike the networks before the latter submitted counter-proposals finally agreed upon.
The strike tentatively had been set for midnight Jan. 31, a month after expiration of the old contract (which was extended), but was forestalled at the request of the State Mediation Board.
The guild originally demanded a $70 increase from $130 per week to $200 for radio directors and a $170 boost from $130 to $300 for television directors.

Hearing Designated
APPLICATION of A. D. Ring & Co., Washington consulting engineering firm, for radio facilities to aid in the adjustment of directional antennas for standard stations, was designated for hearing by FCC last week to determine whether such authorization falls within the eligibility requirements of the Commission’s special industrial radio service. FCC indicated it wished to determine if such use could be considered regarding production and construction of directional arrays.

The

PAUL H. RAYMER COMPANY

proudly announces

the appointment of

REYNOLD R. KRAFT

as Vice President and Manager of Television

For over 18 years Ren Kraft has been a leader in the sales and advertising field—13 of these years being spent as a specialist in Radio and Television.

During the past 5 years—as Sales Manager of NBC's network and local television sales—Mr. Kraft played a pioneering role in the development of the basic sales policies, rate structures, program approaches and other problems during Television's tender, formative years.

Today the Paul H. Raymer Company is proud to make his services...and his outstanding experience freely available to television stations...advertising agencies...and television advertisers.

We are happy to welcome Mr. Kraft to our organization. And we pledge that our Television Department will give to Television the same practical, efficient service that, for the past 17 years, has made the Paul H. Raymer Company a leader in radio station representation.
Price incentives have been arranged for quantity purchases of the book by libraries, educational institutions, etc. The revised edition is being prepared editorially by E. P. J. Shurick, formerly promotion director of KMBC, who prepared the original edition. Since leaving KMBC, Mr. Shurick has been promotion and research director of Free & Peters Inc. He joins CBS on March 1 as market research counsel.

Mr. Church has invited broadcasters to submit new material for publication consideration by addressing it in care of KMBC. “It is our earnest desire,” he explained, “that this book come as close as possible to recording the true and complete story of broadcasting development to now.”

The book was first introduced to the industry before the 1946 NAB convention in Chicago and presented in recognition of National Radio Week to President Truman at the White House. In compiling the first edition, Mr. Church pointed out, the entire broadcasting industry participated, milestone events were classified in chronological order and “firsts” established through challenge sheets issued to all American broadcasters.

AFRS Chief Engineer
JOHN E. DUNN, of the engineering staff of WJNR Newark, N. J., resigned last week to accept a post as chief engineer of the Armed Forces Radio Service in Germany, France and England. Mr. Dunn departs for Europe today (Feb. 27).

ATTENDING the finals in the third series of Phillips 66 Talent Parade, which were broadcast over WCCO Minneapolis are (1 to r) Carl Bur-land, general sales manager, Radio Sales, New York; Floyd Nordstrom, Phillips division sales manager, and Gene Wilkey, general manager WCCO. Mr. Nordstrom presented the winner of the series a $1,000 scholarship award during the show.

WFMJ CHANGES
Ups Power to 5 kw on 1390 kc
WFMJ Youngstown, Ohio, on Sunday, Feb. 19, began operating on a new frequency with increased power. Formerly on 1450 kc with 250 w, WFMJ now is assigned 1390 kc with power of 5 kw. The change took place two days after approval was received from FCC.

The move received heavy publicity in the Youngstown Vindi- cator and in papers in towns throughout the WFMJ coverage area, according to Leonard E. Nas- man, sales manager.

Studies and offices will remain downtown in the three-story WFMJ Bldg. at 101 W. Boardman St. Mr. Nasman stated. By arrangement with WHHH War- ren, Ohio, formerly operating with 250 w, both stations will be enabled to broadcast with increased power. WHHH having given up its present frequency—1400 kc—to permit WFMJ to go to 1390 kc. Simultaneously, WFMJ, by giving up its 1450 kc frequency, enables WHHH to go to 1440 kc with 5 kw power.

Mr. Nasman said WFMJ had been trying to get 5 kw since 1941. WFMJ and its FM affiliate are owned and operated by The WFMJ Broadcasting Co.

ASSOCIATED SIGNS 18
SIGNALING of 18 new radio and television station clients for its transcribed library and program service has been announced by Associated Program Service, New York. Additional stations are:

64 $500,000 SALES...in ONE WEEK!

and

204 MORE LIVE PROSPECTS!

An Amazing Vote of Confidence in WOW!

Here's The Story...

WOW'S "Third Annual Farm Study Trip" was announced on January 11 on the "Farm Service Reporter" Program, (6:30 to 7 a.m. weekdays).*

Farm Director Mal Hansen simply said that the tour would be to the "New South"; would last 15 days, and would cost about $500.00 per person.

On that information ALONE, within one week 64 farmers responded—WITH CASH! 204 others in the same period wrote for information and application blanks.

So large and instant a response PROVES that the great WOW-LAND farm market is solidly behind WOW—and WOW's farm listeners are today the WORLD'S FINEST CUSTOMERS for any goods or services.

For availabilities call the nearest John Blair Office or telephone Johnny Gillin at Webster 3400, Omaha.

John Blair & Company, Representatives
THE PERSISTENCE of a telegraph operator at the Alaska Railroad depot and the coverage of KFAR Fairbanks, were important factors in saving the life of an Alaskan trapper who had severed an artery in his leg. A phone call notified the telegraph operator of the trapper's plight, and the help of a bush-pilot was enlisted in bringing the wounded man to medical aid. The pilot was unable to land in darkness, so KFAR aired messages to citizens to place lanterns on a smooth place and mark out a landing strip. Enough lanterns were set out to enable the pilot to reach the patient and bring him to safety.

Shirley Krieger Day

THROUGH an announcement by Wynn Hubler Speece on her Neighbor Lady show over WNAX Yankton, S. D., an 11-year-old victim of tubercular meningitis has a radio-phonograph, records and a bank account. After the announcement was read by Mrs. Speece, 703 letters were received, plus $207.75 in cash. All local programs on WNAX, a few days after the initial announcement, were dedicated to the little girl, and the day was designated "Shirley Mae Krieger Day."

** * 

Forum For Living

AN OPPORTUNITY for all high school seniors to win valuable scholarships to schools of their choice is given by a state-wide public service campaign entitled "Forum for Living." Forum is aimed at safety in the home, on the highway and at work. Students enter essays on safety topics in the contest and compete in a series of 14 weekly radio quiz shows concerning safety. Shows are being aired over WE2I Boston, WSAR Fall River, WLLH Lawrence, WOCB West Yarmouth, WMAS Springfield, WHAI Greenfield, WTAG Worcester and WBBK Pittsfield, all Massachusetts. Final winners will receive scholarships varying from $500 to $2,000.

** * 

Radio Rescues Mink

WHEN a forgetful motorist in Edinburgh, Tex., placed a $2,000 mink coat on the top of his car and took off for San Antonio, he discovered his loss a mile later and called KURV Edinburg. The station aired an announcement asking the finder of the coat to return it. A taxi driver had seen it along the highway and picked it up. After hearing the announcement, he returned it to the motorist and received a reward.

News From Children

KSYC Yreka, Calif., was able to bring comfort to listeners who suffered from the effects of a snowstorm which isolated communities, school busses and tied up transportation on highways in the area. Children who had been stranded in buses were sent to nearby farm houses, and KSYC relayed information of their whereabouts to worried parents. In one case, the special events crew of the station broadcast an interview with a group of stranded students.

Record Reported

WCCO Minneapolis claims a record during a recent blizzard in that area. Between 5:30 and 8:30 a.m. one morning, the station aired 180 announcements from different schools which would not be open. The station's news department maintains contact with more than 250 school officials in the Northwest each winter for this and similar purposes.

Juice Coming Up!

WATERMELOON juice is considered out of season at this time of year in Philadelphia, but WIP in that city aired with success a request for the liquid to aid a 17-year-old boy who was suffering from a kidney ailment. John Facenda broadcast the appeal upon request from the hospital. Within six minutes, a listener in Salem, N. J., called the station and offered two quarts of the juice which he had bottled and frozen the preceding summer. Next morning three more watermelon juice fan-ciers called WIP.

** * 

Radio Aids Scientists

VITAL experiments and other work in laboratories of Massachusetts Institute of Technology, Cambridge, Mass., were in grave peril when a power failure occurred there early this month. It was imperative that researchers get to their projects before damage was done by lack of light, heat and timing devices. Officials immediately called upon Boston stations to air appeals to workers at the institute to return there. Within half an hour, 150 researchers had responded. Most of the damage done can be remedied due to the prompt action.

Philco Dividend

PHILCO Corp. board of directors has announced a regular quarterly dividend of 50¢ per share on the firm's common stock, payable March 11 to holders of record Feb. 27. Board also declared a quarterly dividend of 50¢ per share on preferred. 2 3%FIRST A payable April 1 to holders of record March 15.
When a city has 300 sawmills harvesting in an adjacent timber supply of 2 1/2 million acres (larger than the State of Delaware) then it can call itself the World's Lumber Capital ... as Eugene does. And in a capital there's a market ... in this case a rich expanding market YOU can tap through KGW's COMPREHENSIVE COVERAGE.

Lumber isn't the only prop to Eugene's economy. Agriculture alone yields 16 million dollars annually. Eugene's population has increased 35 per cent since 1940, helping Oregon during his period attain the greatest population growth in the nation. THROUGH COMPREHENSIVE COVERAGE, KGW DELIVERS EUGENE ... as it delivers the rest of the fastest-growing market in the nation.

FIFTY THOUSAND WATTS OF SELLING POWER
Editorial

NAB's Future

WHAT SHOULD a broadcaster expect of his trade association?

There is no pat answer. It depends upon the class of broadcaster. Or maybe he is a telesetter or a FM as distinguished from AM. He may be network-affiliated or independent. He may be clear, or regional or local. His desires will vary with his walk in radio life.

There are fundamentals, however, on which there can be little disagreement. A trade association there must be, to serve as the advocate of Radio by the American Plan. To be effective, it must represent a majority of those in radio. It should embody every segment of radio and TV.

The NAB is and has been that trade association since 1923. Periodically, there have been ramp movements to set up. The NAB, although several times reorganized in tempo with the prevailing times, has survived.

There's controversy about the efficacy of the present NAB. As always, it depends upon whose ox is gored. Those who feel their dues should not be spent for services to newcomers or to stations which might become competitors. Those who feel the NAB should be devoted not in its appeal that it is one of the principal subjects of conversation in the United States. Everyone listens. And that very popularity makes the media a constant subject for debate.

There are a lot of intramural NAB talk. There must be fire behind that talk. In recent years, however, not a single piece of legislation adverse to radio has passed Congress. Radio really hasn't been hurt to any greater extent than any other art most prominent media. The extreme New Deal and now Fair Deal economy. Whether the NAB is responsible for this isn't necessarily the point. The NAB works to prevent firing.

The NAB board has found it expedient to order significant changes and to raise membership dues. This has been done to meet criticisms and the budgetary requirements demanded by the membership as reflected by their elected board members. To drop out of the NAB now or to remain out of it could seriously threaten its survival. There is no substitute for a successor organization even in the talking stage.

An NAB convention is coming up next April. There will be an opportunity then to debate and appraise. If the NAB order should be changed, the membership can so decree.

Broadcasters are articulate. They can and should speak their minds. While radio operates in a gold-fish bowl to a greater degree than most lines of endeavor, there nevertheless are important and delicate aspects of trade activity that cannot be covered by press release.

Before passing judgment, it behooves those who criticize NAB's action in America's political life to consider all yardsticks the most effective and successful extant— to listen to the evidence at the NAB convention in Chicago next April.

Democracy's Spokesmen

FOUR young Americans with very definite views on the operation of radio in a democracy are winding up a week's visit in Washington and Colonial Williamsburg as guests of broadcasters, set makers and the U.S. Junior Chamber of Commerce. They go back to their homes with a new knowledge of government and of broadcasting.

In the third annual Voice of Democracy contest these four young people competed with a million other high school students in the industry's annual radio script contest. They won the four national awards by clear thinking and clear speaking on a subject close to the commission's heart. Throughout the nation, young folk studied the basic elements of freedom and stated the facts in 28,000 high schools as they competed for the contest scholarships.

High praise goes to all who have taken part in this important force for freedom. To the million alert students who competed. To the associations that worked together in a cause close to their very existence. To the U. S. applicant and deny his competitors had been reversed in court last May. Last week, over Comr. Jones' dissent, four of his colleagues voted to reopen the case, which is already some four years old.

Comr. Jones protested that the court's decision "did not even suggest that more evidence be taken," much less require such procedure. The majority's decision, he continued, "may indicate a lack of facts to support a grant of the facilities to the earlier successful applicant, but that is not a sufficient ground for a de novo proceeding in this case."

So now, three years and nine months after the hearing, the applicants find themselves back where they started—facing a hearing. Their task is not a time consuming. The unpredictability of the Commission's action is the more difficult to justify because it came a full nine months after the court's decision in the case.

Comr. Jones' dissent suggests the delay may be attributed at least partially to the law bureau. He speaks of the "grave responsibility" of "the Commission or its general counsel" in such matters. We quite agree.

This journal has long opposed the power which the law bureau seems to exert over the Commission and the dispatch of its business. Whether it is exerted consciously or unconsciously does not affect the fact that such power exists. And so long as it does exist, it will be impossible to say whether the Commission speaks with its own voice or that of vetricinhoquists in its law bureau.

Our Respects To—

ELIAS ISIDOR GODOFSKY

THE VOICE OF LONG ISLAND is not only WHLI Hempstead, N. Y., it is the voice of Elias Isidor Godofsky. Mr. Godofsky at 38 is president, general manager and major stockholder of his second radio station, WHLI and its companion FM outlet.

He was formerly president and general manager of WLDB New York.

When Elias Godofsky threw the switch that put WHLI on the air less than three years ago, veteran radio men were convinced that he was faced with almost insurmountable barriers. Only 20 miles from New York, Hempstead was well covered by the big city's major networks and independent outlets. A local station could never hope to compete against such odds, and would never secure more than a nominal audience and very few commercial accounts, they thought. The past few years have proved them wrong.

In his early radio years at WLDB, Mr. Godofsky developed a theory that an independent station competing in a great metropolitan market can only be successful if it gives its listeners something they want and are unable to get from the networks. Adhering to this theory, WHLI concentrates on the "local angle," not only in news broadcasts, but in all of its program format.

Mr. Godofsky's policies have paid off. WHLI has attained an enviable position in the strongly competitive Long Island market. It provides stirring documentaries with editorial point of view, but never deals with political matters on any level except in straight newscasts, or when political parties on their own allocated fund campaign issues. Ever attuned to the undercurrent of public opinion, Mr. Godofsky insists that his newsmen devote 60% of all news broadcasts to Long Island stories.

Elias Godofsky is no stranger to what the public wants. He had his first taste in New York's "Newspaper Row." Between the years of 1930 and 1933 he worked as a reporter for the New York Evening Graphic, the New York Journal and the Standard News. He worked up from a reporter's beat to owner of several weekly newspapers in Brooklyn.

It was the spoken word rather than the printed that eventually captured the imagination of Mr. Godofsky. In 1939 he sold the Brooklyn newspapers and began his radio career.

In association with Arthur Faske, a pioneer in commercial broadcasting, Mr. Godofsky devoted fulltime to WCNW (now WLDB). Until 1944 he acted as president and general manager of the station, at which time he and his (Continued on page 42)

Who Said That?

IT IS HARD to beat the FCC, even when you win.

Thinking back, we can recall no occasion when, in a competitive proceeding, an applicant appealed to the courts and won, and still got a grant when the case was remanded to the Commission. Applicants who are able to have an FCC decision set aside in court just haven't seemed to pull as well qualified as their rivals, in FCC's eyes.

Comr. Jones must have had something of this sort in mind in writing his dissent in the current Easton-Allentown case (story page 49), FCC's decision to grant an Allentown applicant and deny his competitors had been reversed in court last May. Last week, over Comr. Jones' dissent, four of his colleagues voted to reopen the case, which is already some four years old.

Comr. Jones protested that the court's decision "did not even suggest that more evidence be taken," much less require such procedure. The majority's decision, he continued, "may indicate a lack of facts to support a grant of the facilities to the earlier successful applicant, but that is not a sufficient ground for a de novo proceeding in this case."

So now, three years and nine months after the hearing, the applicants find themselves back where they started—facing a hearing. Their task is not a time consuming. The unpredictability of the Commission's action is the more difficult to justify because it came a full nine months after the court's decision in the case.

Comr. Jones' dissent suggests the delay may be attributed at least partially to the law bureau. He speaks of the "grave responsibility" of "the Commission or its general counsel" in such matters. We quite agree.

This journal has long opposed the power which the law bureau seems to exert over the Commission and the dispatch of its business. Whether it is exerted consciously or unconsciously does not affect the fact that such power exists. And so long as it does exist, it will be impossible to say whether the Commission speaks with its own voice or that of vetricinhoquists in its law bureau.
NEW YORK HAS MORE IRISH THAN DUBLIN

and WOV has a brand new radio show for everyone who loves Irish music and folksongs

DISTINGUISHED by its genuine and traditional Irish atmosphere, "A Ramble in Erin" is a brand new WOV program written, produced and broadcast by Pat Stanton, beloved sponsor of Irish activities in America. Born in County Cork, Stanton makes frequent visits to Ireland. He owns one of the finest Irish record libraries in America, personally selected and brought here. These recordings of old world Irish songs, and new tunes equally charming, are the basis of this new Irish program. In addition, Stanton's show will feature celebrated Irish personalities as guest stars. Here is a great new audience available for smart sponsorship. Write, phone or wire for details.

Cites Readership

EDITOR, Broadcasting:
This is a belated note of appreciation for Broadcasting’s flattering article about yours truly which Bill Thompson... wrote for the Jan. 23 issue.

... Much fine reaction to the article emanated from my friends in the various agencies. This reaction immediately followed the issue and... denotes... Broadcasting’s readership list is well represented among high-ranking agency personnel.

George R. Gajan
Western Sales Manager
WGN Chicago

Urges Excise Repeal

EDITOR, Broadcasting:
Regarding... your editorial in the Feb. 13 issue...

... Is it not true that there is at present a 10% excise tax on radio sets and that until now television had been excluded simply because nobody had thought of television when the tax was first inaugurated?

This 10% radio excise tax has been somewhat of a handicap to FM... inasmuch as sets incorporating only television and FM... subject to the 10% tax while television only sets were not.

I think everybody would be much better off if we would all exert a little effort toward eliminating the 10% excise on any radio or television equipment...

Edward A. Wheeler
President
WEAW (FM) Evanston, Ill.

[EDITOR'S NOTE: Broadcasting certainly favors the elimination of excise on all radio or television equipment.]

Teletype ‘Thing’

EDITOR, Broadcasting:
In... Broadcasting... (page 50, Feb. 13) you had a picture of... Bob Daniels (KDAL Duluth, Minn.) and his great invention of a “thing”... to counter teletype... static electricity...

Believe it or not, that little item... saved one of our men's lives and his name is Bill Bohack and we had all been seeing him rather suspiciously ever since he blurted out one day: "Look, the paper is climbing the walls."

Actually it was by the Canadian Broadcasting Corp., the CBC will pay more fees this year—a total of $147,747, which includes fee for sets in Newfoundland, now part of the wall and marched neatly along in the usual bulletin fashion...

... Mr. Bohack's “secret” is nothing more or less than a nice piece of Christmas TINSEL—

CANADA’S ASCAP
Board Sets Copyright Fees

CANADIAN COPYRIGHT fees payable for 1950 by Canadian broadcasters to Composers, Authors and Publishers Association of Canada (CAPAC), Canada’s ASCAP, were set at Ottawa by the Canadian Copyright Appeal Board at $292,618. Instead of paying less a... how are your station coverage figures being filed?

...this way?

...or that?

The way your station coverage information arrives on a time buyer's desk makes a big difference in the way it is used... and if it is used at all. No matter how impressive your story might be, a poor presentation of these important facts can often mean a lost sale.

The correct interpretation and presentation of station coverage figures is just one of the reasons more and more stations of all sizes are turning to O'Brien & Dorrance. With a staff of experienced radio and TV promotion experts, O'Brien & Dorrance, Inc. is equipped to handle all phases of station promotion and advertising... from the design and production of direct mail folders, rate cards and trade magazine ads... to the dramatic, salesmanlike presentation of BMB, half-millivolt or mail-count coverage figures.

When you're ready for searchlight promotion at candlelight costs, think of... write to...

O'BRIEN & DORRANCE, inc.

160 East 56th Street, New York 22, N.Y.,
Plaza 9-5120
ARRIVAL of survivors of crashed B-36 at McChord Field, Seattle, Wash., covered by KOMO that city. Interviews, lasting 30 seconds with each survivor, were tape recorded by station's news editor, Millard Ire-land. Recordings were fed via NBC closed circuit to its World News Round-up next morning.

Spillway Opening
OPENING of Bonnet Carre Spillway, 35 miles from New Orleans, covered by WWL that city. Local celebrities, including Army engineer officers and deLesseps S. Morrison, mayor of New Orleans, were interviewed on remote broadcast by WWL. Spillway was opened to divert excess flood waters of Mississippi. It had been opened only twice before.

Series With Troopers
STATE Police of Maryland send representa-tive trooper every Wednesday to WAAM Sportroom, aired daily over WAAM (TV) Baltimore, 3-5 p.m. Trooper is interviewed concerning accident case histories drawn from police files. Hints concerning traffic safety, theme of the show, are demonstrated by policeman. Station is donating time signal daily to State Police's "Slogan of the Month" campaign. Announcer emphasizes safety theme while screen shows special slide made up by station's art staff.

Trial Coverage
TRIAL of Dr. Herman Sander, mercy-killing physician in Manchester, N. H., given on-the-scene coverage by WBC Boston. Fulltime telephone line between courthouse and WBC provides station with three reports daily from news director Ron Cochran, who is in Manchester for trial. Three shows daily used to air material, with station interrupting any shows for important bulletins.

Canham Speaks
SPEECH titled "The Right of the People to Know," delivered by Erwin D. Canham, editor of Christian Science Monitor, aired by WSSR Cleveland. Speech was given at Cleveland Adver-tising Club luncheon. Among those attend-ing were Nat Howard, editor of Cleveland News; Paul Bellamy, editor of Cleveland Plain Dealer, and Louis Seltzer, editor of the Cleveland Press.

Long-Range Telecast
FIRST six daily races at Hialeah Park, Miami, Fla., including feature event, are telecast nightly by WABD (TV) New York. Films are developed in truck which carries them to Interna-tional Airport, Miami, and flown in four hour non-stop flight to New York where they are mailed and spooled to station's studios. Races are described by Glenn McCarthy, who does the voice live from studio. Features, human interest coverage and interviews with prominent track personalities are provided in films by Bill Corum, sports columnist for Hearst Publications.

TV Tests
AUDIENCE reactions to its current weekly telecasts on CBS-TV, Tuesday, 8 to 9 p.m., solicited by the Dept. of Defense in connection with its eight-week series designed to instruct its Organized Reserve Corps personnel. CBS is donating time for series, launched Feb. 14, which Army is using to test television as training medium for reserve components looking toward its use on regular basis. Series is supervised by Gen. Mark W. Clark, chief, Army Field Forces. Conti-nuants of ORC personnel are estab-lished within 40-mile radius of each city to which programs are beamed and each group is given set of ques-tions relating to value of television as a training vehicle.

Cancer Series
THIRTEEN-week series of programs titled For the Living, made available to stations by American Cancer Society which is using broadcasts as part of its nationwide education program in fight against the disease. Series dramatizes known facts about cancer, its dangers, and methods used to combat it. Shows are 15-minute long and feature Edward G. Robinson as narrator, and other Hollywood radio personalities, all of whom have volunteered their talents.

Looking Back and Ahead
TWO forum type programs, one con-cerning last 50 years, and other speculat-ing on possible developments during next 50, aired by WYBC Yale U., New Haven, Conn. Both forums were on hour long and moderated by Cleve-Brooks, English professor at univer-sity. Panels for forums made up of members of Yale faculty.

Canadian Purchase
ENO's Fruit Salts Co. has pur-chased the half-hour transcribable mystery series, The Sealed Book for a 21 station coast-to-coast schedule across Canada, Charlie Michelson Inc., New York, pro-ducer of the show, announced last week. Agency is Atherton & Currier. Canadian stations are:

WEEKLY schedule of Cisco Kid Frederic W. Ziv package, will be ex- tended to Mon., Tues., Thurs., 8:30 p.m. on WOR New York.

If ole Mac farmed or ranched in Montana, he made money. $256 million to be exact for Jan.-Sept. 1948. Farming is just one of 4 major industries which together tooted retail sale of over $100 million in 1948. A good portion of Montana's rich areas sit in the KGVO-CBS signal. And the best portion of sales in the area are KGVO-made sales, yours?
AM-FM-TELEVISION
BROADCAST EQUIPMENT

1950 Edition!
OVER 400 PAGES
New Broadcast Catalog
Twice as big as 1948-49

The most complete data book in broadcasting

• Over 400 concise pages of up-to-the-minute specifications and application data.
• 1,068 clear illustrations, easy-to-read curves, and valuable diagrams.
• 1,060 different equipment items covering every broadcast service—audio, AM, FM and TV.

Just off the press—the most complete and authoritative equipment reference ever published for station men.

Containing more than 400 large-size pages of descriptive material, application data, and performance specifications in a single volume, the RCA 1950 Broadcast Equipment Catalog covers the entire line of RCA Broadcast Equipment—from Audio, AM, FM and TV equipment to test units.

Each item is described clearly and concisely. Each description includes easy-to-find features, equipment uses, and complete specifications. There are over 40 equipment groupings in all—indexed for quick reference.

If you work with broadcast equipment, here is the book you can put to work the minute you get it.

EQUIPMENT DESCRIBED

Audio Equipment, AM-FM-TV
- Microphones
- Custom-Built Equipment
- Consoles & Switching
- Audio Amplifiers
- Remote Equipment
- Racks & Rack Equipment
- Power Supplies
- Turntables
- Recorders
- Loudspeakers

Video Equipment
- Field Equipment
- Relay Equipment
- Mobile Unit
- Studio Cameras
- Film Equipment
- Studio Control Equipment
- Monoscope
- Sync Generator
- Amplifiers
- Power Supplies
- Studio Lighting
- TV Accessories

Transmitters, AM-FM-TV
- AM Transmitters

Antennas, AM-FM-TV
- FM Antennas
- TV Antennas
- Transmission Line Equipment
- AM Antenna Tuners
- Antenna Towers & Equipment

Test & Measuring Equipment
- Measuring Equipment
- Monitoring Equipment
- Service Test Equipment

Other RCA Products
- Sound Equipment
- 16mm Projectors
- Theatre Equipment
- Mobile Communications Equipment

Management

PAT FLANAGAN, formerly with WJLK (FM) and WCAP Ashbury Park, N. J., WWBZ Vineland, N. J., and WIXX Washington, appointed manager of WOXY Oxford, N. C.

VERL BRATTON, vice president and general manager of WKTY La Crosse, Wis., received into Radio Pioneers organization. He will complete his 24th consecutive year in radio this spring.

KENNETH B. CARNEY, former executive for XB on West Coast, elected vice president of KHON Honolulu.

J. W. KIRKPATRICK appointed general manager of WORD and WDXY (FM) Spartanburg, S. C., effective March 1. He entered radio in late '30s and was manager of WGTC Greenville, N. C., until 1941 when he joined Spartan Adv. Co., which then owned both WSPA and WORD. He was named station manager of WORD in 1947 when it was purchased by Spartan Radiocasting Co., headed by WALTER J. BROWN. Mr. Kirkpatrick resigned as manager of WORD and WDXY a year ago to become manager of WCOV Montgomery, Ala.

JOHN CARRINGTON continues as WORD-WDXY station manager.

RICHARD L. PYLES, formerly manager of WWNI Wabash, Ind., and before that commercial manager of WCMU Ashland, Ky., appointed manager of WCSI (FM) Columbus, Ind., succeeding GRAEME ZIMMER, resigned (Broadcasting, Feb. 13).

AL MAFFIE, program director for WLNH Laconia, N. H., appointed assistant manager of station. He will continue as program manager.

MAURICE E. PURNELL, member of Locke, Locke & Purnell, Dallas law firm, elected a director and general counsel of A. H. Belo Corp., publisher of Dallas Morning News and owner of WFAA Dallas.

FIELD ENTERPRISES Inc., Chicago, moves its general offices to 11400, 211 W. Wacker Dr. Telephone: Randolph 6-5554. C. Howard Lane is director of broadcasting, and Carl J. Weitzel vice president and treasurer.

DAVID ADAMS, manager of KGSA San Bernardino, Calif., is the father of a boy, Richard Vance.

TED MILLS, program manager at XBC-TV Chicago, is the father of a girl, Hillary.

UN Documentary

ONE-HOUR documentary, produced by the United Nations Radio Division after nearly two years of preparation, will pay tributes to the International Refugee Organization in a broadcast to be aired on MBS, Friday, 8 p.m. EST. Titled Eleven Memory Street, the documentary is based on 18 hours of tape-recorded interviews in Europe with 30 people of 17 nationalities. Program will describe functions of the IRC's child-search bureau.

Rep: HOLINGBERRY

Allen C. abundantly, to represent the ABA. Among matters still before
the house of delegates of interest radio will be reports by the ABA section on Taxation and the Committee on Patent, Copyright and trademark. The tax section will consider a revision of Sec. 102 of the Internal Revenue Code which imposes additional taxes upon corporations declared to be unreasonably withholding distribution of earnings for the purpose of evading payment of surtaxes by their stockholders.

Mr. Jameson, member of the Sec. 102 committee, explained that on the December 1949 decision of the U. S. Tax Court in the KOMA Oklahoma City-KTUL Tulsa case, where the stations had withheld distribution of earnings on the grounds that additional funds would be needed for FM and TV expansion, the court upheld the additional assessment levied by the tax commissioner. The latter had ruled that the stations failed to sustain the burden of proof imposed upon them to establish an immediate need for the use of additional funds.

The Sec. 102 committee, Mr. ameson said, is to recommend that he statute be amended so as to lift the burden of proof to the tax commissioner, except in the most flagrant cases, and that additional taxes shall not apply if the corporation can show the funds are needed in connection with long-term planning, as distinguished from immediate needs.

Open Mike

Pres. & Gen. Mgr.

WANN Annapolis, Md.
ARROWHEAD MEET
On Sales, Merchandising

RADIO merchandising headlined the first annual Arrowhead Network Clinic held in Duluth, Minn., with sales and management personnel from all six Arrowhead Network stations taking part. Discussions on sales and merchandising were led by D. A. Baker, regional sales manager, and Jack Cosgrove, WECB Duluth sales manager.

Entertainment was provided on the evening of the first day at the home of Morgan J. Murphy, Arrowhead Network president. At the concluding session, General Manager Walter C. Bridges termed the clinic an "unqualified success" and said it would be carried on as an annual affair. In addition to the personnel present from WECB, Arrowhead's key station, other network stations were represented by Managers Ralph O'Connor, WISC Madison, Wis.; Harry Hyett, WEAU Eau Claire, Wis.; Greg Rousseau, WJMC Rice Lake, Wis.; Oscar Peterson, WMFG Hibbing, Minn., and Art Nelson, WHK Virginia, Minn. Also present were Vivian Bulmer, Ella May Johnson and Norma Bos, who represent Arrowhead regionally. The two day sessions were held in late January.

MORE than 70 broadcasts from England were carried by CBS preceding and during national elections there.

(Continued from page 34)

associates sold their holdings to Mrs. Dorothy Schiff of the New York Post. He continued for awhile as president of the station under the new ownership, but the desire to develop more of his own ideas prompted him to leave in 1945. Shortly thereafter he began the preliminary work leading to the founding of WHLI in 1947.

Ever apparent at WHLI is Mr. Godofsky's early training as a newspaper man—the time honored editor's advice to "Get it first, but first get it right." He followed the letter. WHLI is among the first to air any significant local development—both pro and con. Mr. Godofsky is keenly aware of the workings of public opinion and the public service nature of broadcasting. During the "big snows" of December 1947, the station aired information and warnings to listeners cut off from transportation and communication, while police and municipal and school authorities used the facilities to keep in touch with their communities.

In Commuters' Behalf

After the storm the station aired a pre-program documentary, Operation Snow, which pointed out the weaknesses of the Long Island Railroad which had become completely stalled during the storm, marooning thousands of commuters for as long as 24 hours. Constructive suggestions were made for correcting the situation—ideas later adopted by state, county and railroad officials. Mr. Godofsky took a personal part in the planning of these broadcasts and went on the air himself with the station's recommendations.

A great part of the successful operation of WHLI is family teamwork. Paul Godofsky, brother of Elias, is executive vice president of the station. Together they make top policy decisions. Detailed supervision is administered by Paul Godofsky, who formerly was program manager of WJMA New York and station manager of WLIE.

A native of Brooklyn, Elias Godofsky was born March 1, 1912. The only part of his early life which stands out clearly, Mr. Godofsky says, was his great reliance to practice the piano. Regret my many youthful efforts avoid practicing because now he would really enjoy being able to play his favorite things well, and course can't," he says.

Radio is a few steps removed from his original intent to become a lawyer. He attended New York U. pre-medical school in 1929, but later decided to give up the scales for the gavel, and entered St. John's U. Law School in 193. When his sideline newspaper work began to interfere with his college studies, he quit law school and started on a full-time newspaper career which eventually led him to radio.

Photography Hobby

Elias Godofsky and Miriam H. Newman of Brooklyn were married in 1937. They have two daughters—Laura, 7 and Marylin, 4. Mr. Godofsky's hobbies are photography, with emphasis on motion pictures, and golfing and boating. All three hobbies are beautifully served by working in Long Island.

Looking to the future, when the FCC gives the go-ahead sign, Eli Godofsky plans to boost the power of WHLI from its present 50,000 watts to 1,000 w and expand into television and facsimile broadcasting. These increased operations are part of a plan for a large scale building program that will result in "Radio City" for Long Island.

KWBW Hutchison

Wyse Widow To Operate

MRS. BESS MARSH WYSE, widow of William Wyse, owner and operator of KWBW-AM-FM Hutchinson, Kan., will continue to operate the NBC outlet with R. J. Rives as general manager, it was announced last week.

Mr. Wyse, operator of KWBW for the past 10 years, died last month in Hutchinson. A native of Austin, Tex., Mr. Wyse had been associated with radio and newspapers for many years. He was well known in NAB circles. He leaves, in addition to hiswid two children.

Edgar H. Calder

FUnERAL services were held last Tuesday for Edgar H. Calder, 41, advertising-script writer, who died following a heart attack. Services were held at Dunway Funeral Home in Hawthorne, Calif. Mr. Calder was found dead in a Hawthorne hotel on Feb. 17.

### FCC Orders Rehearing; WHOL Set Aside

**THREE-YEAR-old grant which established WHOL Allentown, Pa. (1230 kc, 250 w), was technically set aside by FCC last week and further hearing was ordered in the lengthy Allentown-Easton case to meet requirements of a ruling by the U.S. Court Appeals for the District of Columbia. **The action drew sharp rebuke from Comr. Robert F. Jones in his dissenting opinion.

Effectiveness of FCC's order was stated to be related to WHOL, however. The Commission indicated the station may continue operation pending the further hearing and release of a final decision. Other stations involved in the proceeding are WEST Easton and Eastern Publishing Co., licensee of WEEX (FM) Easton.

The Court of Appeals remanded the case to the Commission for further consideration upon complaint of Eastern Publishing, losing bidder for a new outlet on 1230 kc at Easton [BROADCASTING, May 9, 1949]. The court stated it could not determine from the record how FCC concluded the needs of Allentown for a fourth outlet (third full-timer) were greater than Easton's for a second station.

The Commission majority, in calling for further hearing, declared the existing record is insufficient to allow the extent of comparison required by the court between the two communities as to relative service needs, existing programs, proposals of the applicants and their ability to carry out the proposals. Major changes in ownership and officers of Eastern Publishing and WHOL also were cited by FCC as requiring further hearing to establish their qualifications.

### Denied Motions

The Commission denied motions of the parties to stipulate to the accuracy of the various changes from the time of the 1947 decision to date and that no changes in original policies and proposals have occurred, or would occur, FCC said the facts were too substantial to allow mere stipulation, even though it recognized the proceeding has been long and it was "desirable to bring it to an end."

FCC allowed 20 days for the applicants to amend their applications to bring them up to date. The Commission indicated it must reconsider the situation as it exists today through further hearing in view of the policy set by the 1940 Pottsville Broadcasting Co. decision.

In its dissent, Comr. Jones charged the Commission is unnecessarily calling for a further de novo hearing. He particularly attacked the majority's call for extreme detail of the program proposals of the applicants and the program services now available.

"For the first time in its history," Comr. Jones said, "the Commission, in a 307(b) case, is upon the parties to furnish evidence not only of their own programs (which is in the record) but also evidence of the programs of others. . . ."

The Commission reported that Chester Snyder, formerly president and 46.66% owner of Easton Publishing, is now deceased and that Anna M. Snyder and Daniel W. Snyder, "stangers to this proceeding, in their individual capacities and as trustees under the will of Chester Snyder, now own the stock formerly owned by him."

Concerning ownership of Allentown Broadcasting Corp., WHOL licensee, FCC noted that Lewis and Cora G. Windmuller, who formerly held 74% interest, have transferred part of their shares and other stockholder changes have occurred with the result that 51.21% of the station "is now owned by strangers to this proceeding."

### Dameron Honored

**INSTALLATION of a new chapter of Alpha Delta Sigma, professional advertising fraternity, named for: Dr. Kenneth Dameron of Ohio State U., took place last Wednesday in Columbus. James W. Egan Jr., former vice president and advertising manager of the Toledo Blade, was in charge of the ceremonies. The chapter, with more than 100 charter members, is claimed to be the largest in Alpha Delta Sigma's 37-year history, Dr. Dameron, Ohio State faculty member for 18 years, served as sponsor of Gamma Alpha Chi, which preceded Alpha Delta Sigma at Ohio State.**

**William Burnham** named vice president in charge of sales of Transfilm Inc. He has been with Transfilm since last year, and formerly was with RKO Pathé and Cascade Pictures of California.

**GILFORD-SCHLICHTER PROD. Inc.,** new Hollywood firm, at 7546 Sunset Blvd., re-formed under name of Pegasus Inc. to produce TV programs and motion pictures. CARL SCHLICHTER is president, with LOU HOLZER vice president. MAX GILFORD is secretary and general counsel. Initial production is *Marshal of Gunsight Pass,* sponsored by Kern Foods Products on KECA-TV Los Angeles.

**Harry Bluestone,** production manager of Standard Radio Transcription Services Inc., Hollywood, transfers his headquarters to 665 Fifth Ave., New York. Facilities will also be maintained in Chicago and Hollywood.

**Norman Skier,** for three years assistant sales manager of Pilot Radio Co., named administrative assistant to Ernest A. Marx, general manager of receiver sales, Allen B. DuMont Labs. He will be charged with duties concerning administration of expanding receiver sales division, having extensive background in television sales, merchandising, retailing and business administration.

**Ralph T. Reed,** president of American Express Co., and **William D. Gailard Jr.,** member of Milbank, Tweed, Hope & Hadley law firm, elected to board of directors of Western Union Telegraph Co.

**Feature of the Week**

**Cole To Erwin, Wasey**

APPOINTMENT of M. John Cole as radio director for the Minneapolis office of Erwin, Wasey & Co., was announced last week by Ray C. Jenkins, executive vice president in Minneapolis. Mr. Cole’s duties will include supervision of radio and television planning for clients of that office, Mr. Jenkins said, A native of Connecticut, Mr. Cole was formerly with WBRW Waterbury, Conn., and KWD Des Moines.

**Pointed up by radio and television, Dallas’ first Advertising Week, Feb. 10-17, proved an unqualified success, according to reports from the Texas metropolis.**

**Theme of the campaign was centered on selling the public on the thought: “If it weren’t for advertising, you’d pay more for most things. Advertising creates mass markets.”**

**Keynote for Seattle Radio-TV Meet**

AUTHORITIES in the fields of public service and educational radio will participate in the third annual Western Radio-Television Conference, scheduled for this weekend (March 3-4) in Seattle. Program details were released last week by the 1950 conference chairman, Prof. Edwin H. Adams, director of radio for the U. of Washington [Broadcasting, Feb. 13].

The opening general session Friday morning, to be chaired by James M. Morris, program manager of KOAC Corvallis and executive secretary of the Oregon State Broadcasters Assn., will start with a welcoming address by John C. Crabbe, chairman of the executive committee of the Western Radio-Television Conference.

Morning Session

The morning panel, entitled “Let the Public Know About Your Programs,” will include Robert S. Nichols, head of his own agency in Seattle; Donald K. Anderson, director of public information for the U. of Washington, and Milo Ryan, associate professor of radio journalism at the university.

George Jennings, director of the Chicago Radio Council and president of the Assn. for Education by Radio, will address the afternoon general session. Chairman will be Marjorie J. McGilvrey of Mountain View High School, Mountain View, Calif. Following Mr. Jennings’ address there will be a panel discussion on “Helping Teachers Utilize Radio and Television.” Participants will include Don S. Somerville, school specialist in radio at Oregon State College, and Frances Gilbert, program director of KVM Eugene, Ore.

Group meetings of the Intercollegiate Broadcasting System and AER will follow.

The evening program, to be presided over by William Sener, head of the radio department at the U. of Southern California, will start with a film, “Four Ways to Drama,” with comment by Walter K. Kingsley, head of the radio division at UCLA. This will be followed by a panel on “The Art of Listening,” with the following participants: Patricia L. Green, assistant supervisor of radio for KBPS Portola Ore.; Carroll Foster, public affairs director of KIRO Seattle; Mrs. Kingsley, and Mrs. Raymond J. Allen, radio chairman for Seattle Junior Programs.

**Hanssen Chairman**

On Saturday the program will start with a general session under the chairmanship of Dr. John F. Hanssen, consultant on instructional materials service of the Washington State Dept. of Public Instruction. Panel participants on the subject of “Creating the Successful Public Service Program” will be William H. Ewing of the U. of Oregon; Allen Miller, manager of KWSC Pullman, Wash., and Toi Herbert, public relations manager for the Seattle Chamber of Commerce.

“What Gives a Program Interest” will be the topic of a Saturday afternoon general session, with Archie Morton, manager of KJZ Seattle, serving as chairman. Panel participants will include Lee Schuman, program director of KINC TV Seattle; Gloria Chandler, of Gloria Chandler Productions, New York, and Lake Roberts, director of education for KOIN Portland Ore.

At 4 p.m. Saturday a business meeting is scheduled for the Intercollegiate Broadcasting System.

On All Accounts

WHEN Ruthrauff & Ryan's St. Louis office notices a client acting curious about radio, a few heads' exposure to Mars usually wins him over. Dave, who formerly headed up the promotion departments at both KXOK and KMOX St. Louis, is one of broadcasting's best salesmen in the Missouri metropolis.

The R&R account executive had radio forced on him—but that didn't make him mad. He was promoted manager of the St. Louis Star-Telegram when that newspaper put KXOK on the air. So happy was he that henceforth he would be in charge of promotion for both paper and station. Soon Merle Jones, then general manager of KMOX, hired him to the Columbia station, and for a while Dave was parachuted out into business for himself. The Mars Advertising Agency, which had been headed for seven years, at one time had 38 strong radio accounts in the good, automobile, and industrial field.

A native of Kirkwood, Mo., David Richardson Mars is one of two sons of a local banker. His brother pursued a banking career, but Dave took up commercial art at Washington U. His first contract with advertising people came shortly after he left school to open his own art studio. Within a few months he had landed contracts to handle the advertising campaigns for two chains of ice cream stores (385 shops in all), and he eventually wound up as advertising manager for both concerns.

Equally as good a salesman as he is an advertising man, Dave prospered as sales manager of St. Louis' biggest firm. He now holds the Star-Times. One of his present clients at R&R thinks so much of his sales ability that he often imposes on Dave's good nature by asking him to coach new members of his sales staff.

Dave's accounts include the St. Louis Dodge Dealers Assn. (AM and TV); Sidney Webster Inc. (also Dodge); Krey Packing Co.; Dempsey-Tegler & Co. (investments); Tower Grove Bank & Trust Co.; and American Mothproofing Co. He also keeps a finger on advertising promotion for Will St. Louis and KIMO Hannibal, Mo.

Dave married Eleanor Seifert of Webster Grove, Mo., in 1933. They have two sons—David Jr., 12, who is showing promise as an ice skater, and Jon, 8. The family lives in Richmond Heights, a St. Louis suburb.

A collector and refinisher of old firearms, Dave also likes working as a hobby. He must like it, because several years ago—on a dare—he walked from St. Louis to Los Angeles. (Research discloses, however, that Dave didn't walk all the way. He holds some of a record for hitch-hiking between the two cities, negotiating the distance in five days.)

Dave is a Mason and is active in the Advertising Club of St. Louis.

The Pudding's Proof

COPY WRITERS often take pride in their product, but Nell Masarin, copy chief at KURV Edinburg, Tex., knows hers is good because she has visible proof. One of KURV's advertisers, a taxi cab company, thought so much of Nell's copy that the cab company owner requested a piece of copy for each of his cabs to pin to the dashboard as required reading for each driver. With the copy was this message from the owner to each driver: "Now lookie here, Miss Nell has written all this fine stuff about us and we can't let her down."

INTERNSHIP

CRJ-NAB Continue Program

RADIO internship program sponsored by the Council on Radio Journalism and the NAB will be continued in 1950, according to Arthur C. Stringer, NAB special services director and secretary-treasurer of the council.

The summer's program will be the sixth of the internship series, started by the two organizations in 1945. Under the plan, selected teachers of journalism serve in radio station newsrooms during the summer. Financial aid is provided by participating stations. Taking part in the 1949 internships were KCMO Kansas City; WMZM Macon, Ga.; WJLS Cincinnati; WDUZ Green Bay, Wis., and WJOB Hammond, Ind. NAB has just published a report covering the fifth series.

Chris Lykke

CHRIS LYKKE, 48, San Francisco public relations and advertising man, died of a heart attack Feb. 16. Since 1946 Mr. Lykke had his own agency, Chris Lykke & Assoc. The agency will be continued by his widow, Fawn Lykke, who is a partner in the business.

WEBSTER ELECTRIC Co., Racine, Wis., announces price reduction of $25.50 on its standard Ekotope, model 101-4.

NAB SPOT FORM

Bratton Urges Change

CHANGE in NAB's standard spot contract form to give a better break to long-time radio advertisers is advocated by Verl Bratton, executive vice president and general manager of WKTY La Crosse, Wis.

Mr. Bratton points out that radio's most extended advertisers are those who buy on a "full-year basis" but the standard contract gives them no additional advantage. He suggests that renewal discounts be given to advertisers who buy for 13 weeks and then renew in 13-week cycles should not be retroactive to cycles already concluded.

To bring about the change, he proposes that Paragraph C, under license rates be amended by dropping the phrase "and then such lower license rate shall apply to the whole contract."

"I want advertisers to sign long-term contracts and I think they should be given some rate consideration for so doing," Mr. Bratton said.

WQ special broadcasts were dedicated to National Future Farmers of America Week, Feb. 20-27, by KDKA Pittsburgh.

BRITISH ELECTIONS

IN EXCESS of $50,000 in time, talent and facilities was spent by the major radio and television networks last week in comprehensive reports on the British elections held Thursday.

While the British Conservative, Labor and Liberal parties last week abstained by mutual agreement, from using the airwaves to reach the people, U. S. radio and television went all out to apprise the American people of pertinent issues, airing actual campaign addresses, and informing John Q. Public of the election returns—all as a public service and, for the most part, without direct sponsor-ship.

The $50,000 figure is not all-embracing since the networks actually began their election coverage in some cases, as early as late January. Television’s role necessarily was limited to film and live commentary pending that international dream—the translation possible. Even so, the costs of film editing, commentators, etc., presumably made the venture a relatively expensive one.

Following is a summary of network coverage, before and after the election, but not necessarily in the order of time allotted or expenses sustained:

Churchill Talk

NBC’s coverage, which actually got underway last Jan. 21 with portions of a Winston Churchill speech dealt with by London correspondents, was accorded with a variety of subject. On three successive Saturday, beginning Feb. 4, from 5:30 to 5:45 p.m., the network quoted additional special speech excerpts, reported on British political attitudes and on press reactions. NBC also aired half a dozen interviews with England’s “Man-in-the-Pub.”

In addition, its week’s “Event of Events” included election material. With election fever reaching its peak last Wednesday and Thursday, NBC blanketed its various news shows (Morgan Beatty’s World News of the World, World News Roundup, H. V. Kaltenborn’s program) with reports. On Thursday morning Beatty and Bob Trout gave Washington and New York reactions, respectively, with primary pickups from London, Manchester and Edinburgh. Friday pickups were aired Friday after results became conclusive.

NBC overseas coverage was handled by Merrill Mueller, Ed Hasker and Henry Cassidy. Network radio costs reportedly approximated between $15,000 and $20,000, according to NBC’s Anthony man. Expenses for NBC television activities were between $1,000 and $1,500, covering purchase of extra film, editing, use of shortwave circuits, etc.

NBC-TV Thursday telecast a special program, 10:30-11 p.m., featuring Mr. Cassidy and Mr. Mueller overseas and Ben Grauer and John Cameron Howard from New York. Program comprised live commentaries, films and background charts.

ABC stressed radio coverage almost to the exclusion of television, with costs running between $7,500 and $10,000. Total of 30 air spots (each less than 10 minutes) from England accounted for roughly $4,000 alone, according to Thomas Velotta, ABC vice-president. Event was handled by ABC’s London Chief Frederick Opper, Paris Chief Richard J. Post and commentator Paul Harvey and William Hetherington.

ABC carried election data on its Feb. 19 Foreign Reporter, 11-11:15 a.m., and from News (5:30 p.m.) to World Around the World and Headline Edition. Excerpts from speeches by Clement Attlee and Mr. Churchill were included.

Last Wednesday, Robert Montgomery, ABC commentator, coordinated a special show, 9:30-10 p.m., calling in ABC political experts. On Thursday, the network’s top news analysts—Martin Agronsky, Bakhage, Edwin C. Hill—reviewed the British election on the various news programs. Again, a night Mr. Montgomery touched on the subject. Friday special bulletins were aired.

No CBS Figure

CBS gave no figure for its radio-TV outlay but it was believed to be appreciable—as much as for any of the other networks—in view of its extensive election coverage Feb. 1 with pickups from London. Mr. Murrow spoke directly from London last week. Network also aired two tape shows Feb. 19.

Television-wise, CBS-TV conducted a special show Thursday, 10-10:30 p.m., with the English Speaking Union taking part. Program featured interviews with British-Americans in the U. S., election returns, and utilized visual background.

Highlight of MBS’ radio coverage was Thursday’s two-circuit roundtable program featuring Cedric Foster, William Stringer and David Wills from London; Cecil Brown and John Bosman from New York; and William Hillman, Fulton, C., and Dick Edwards from Bill Henry from Washington. Mr. Bosman was coordinator.

Other coverage was included of the Mutual Newsreel, Mr. Foster’s commentary from London (Mon-day through Friday) and on Mutual’s Wednesday three-hour preview prior to the elections.

MBS declined to give any figures as it is not in a position to cover special events, but the cost figure was said to be “as much as is practicable with such coverage,” according to a network spokesman.

While British politicians took to the air in the week preceding the election in increasing numbers compared to previous campaigns, it was believed that American listeners generally were accorded greater coverage of the political event than Britons themselves.

Absent last week from the British airwaves were any political reports during newscasts—the result of a ban by the BBC. Only 17 broadcasts including statements by any supporters of the political parties were scheduled by BBC.

PORT AUTHORITY

Aids Fisherman With Spots

OPERATING on a limited advertising budget, the tax-supported Port of Seattle is concentrating virtually all its radio efforts on The Old Boat-Puller, a participating sponsor of KOMO Seattle (6:30 a.m. daily).

Instead of airing out-and-out commercials on the show, however, the Port, through the Wallace Mackay Co., Seattle, is using its year-long series of spots to pass on news of importance to fishermen.

During the recent Seattle blizzards, the Port used its air time to warn the fishermen to take certain safety precautions with their boats in winter moorage to prevent damage, sinkings and fire. Reaching the message twice weekly over “Doc” Heil’s early morning program, the Port Commission alerted owners of boats tied up at the publicly-operated Seattle Basin to maintain the emergency conditions.

Insurance Exchange Bldg. Kansas City, Mo.
RICHARDS CASE

OUNSEL for G. A. (Dick) Richards told FCC last week that "law requires it to provide him detailed notice" of the laws or rules he has allegedly violated and to give him an opportunity "to demonstrate and achieve compliance with all lawful requirements." Their petition asked FCC to provide such notice and opportunity as required by the Administrative Procedure Act before proceeding with its investigation of his news policies, which currently are slated or hearing starting March 13 in Los Angeles.

Mr. Richards, accused of instructing KMPC Los Angeles staff members to slant news against members of the late President Roosevelt's family and against certain minority groups, owns KMPC, VJR Detroit and WGAN Cleveland. The scheduled hearing is on the three stations' license renewal applications and on Mr. Richards' proposal to transfer control of the outlets to a voting trust [Broadcasting, Aug. 1, 1949]. FCC Examiner J. Fred Johnson Jr. has been named to preside.

The petition was accompanied by a series of alternative requests which would be withdrawn if the basic petition is granted. These ask FCC to issue a bill of particulars including dates, names, places and other details involved in the charges against Mr. Richards; to specify that the Commission will present its case first at the hearing, and to call a pre-hearing conference to discuss procedures.

One of the subjects suggested for discussion at a pre-hearing conference is "the possibility of stipulating with respect to facts."

The petitions were filed by the Washington law firm of Fulton, Walter & Halley, which has been retained by Mr. Richards in addition to his regular counsel [Closed Circuit, Feb. 20]. Hugh Fulton of that firm is slated to handle the Richards presentation at the hearing. He was chief counsel of the former Senate War Investigating Committee headed by then-Sen. Harry S. Truman. Other counsel include Louis G. Caldwell for WJR and WGAN, Horace L. Lobes for KMPC, and former Sen. Burton K. Wheeler, overall consulting counsel.

Expresses Confidence

Announcing his appointment of Fulton, Walter & Halley as trial counsel, Mr. Richards said:

"I am confident that a review of the facts will demonstrate beyond question that these stations have operated consistently in the public interest in the three cities which they have served for many years. Their record of constructive performance and community service in all broadcasts will speak for itself. I also expect to show that I have zealously advocated the principles of Americanism and of the Constitution, including the basic principle of tolerance."

The petition for an opportunity to show that the stations do or will comply "with all lawful requirements" said that FCC has not provided any statement or details of the charges other than a copy of the accusations filed by the Radio News Club of Hollywood, which launched the inquiry.

Although FCC made an investigation of its own, the petition continued, the stations have not been apprised of the "facts obtained from such examinations and documents upon which the Commission is relying."

"It is clear from Sec. 9(b) of the Administrative Procedure Act, however, that the applicants are entitled to have such facts or conduct called to their attention prior to any hearing," the petition asserted. It continued:

Applicants are aware that the Commission has in the past held Sec. 9(b) of the Administrative Procedure Act to be inapplicable to a proceeding involving renewal of license. Applicants respectfully except to such a ruling and maintain that in this case of this type where the procedure is tantamount to a proceeding for revocation, Sec. 9(b) of the Administrative Procedure Act is clearly applicable.

The licensees also allege that they have at all times complied with all lawful requirements of the Communications Act of 1934, other applicable statutes, and the rules and regulations of the FCC.

"Herald-Tribune" Spots

DONAHUE & COE, New York, is planning a spot campaign on eight or nine New York stations for its client the New York Herald Tribune to introduce the newspaper's "Early Bird Edition." Schedule will start about March 1.

### HEADLEY-REED Staff Additions Set

ADDITIONS to the New York and Chicago sales staffs of HEADLEY-Reed Co., New York, were announced last Tuesday by Sterling Beeson, vice president in charge of AM sales for the radio-television station representative firm.

New appointments to HEADLEY-Reed Co.'s AM staff include William K. Reilly, formerly with Young & Rubicam and Kenyon & Eckhardt, has joined the Headley-Reed television division.

The company also announced the appointment of IRA Morton and Frank Rice, who have a wide background in Chicago spot sales, to work under John Wrath, Chicago office manager.

Headley-Reed Co. now has Eight New York AM salesmen and four in its Chicago office. Frank W. Miller Sr., president of the firm, following formation earlier of H-I-Re Inc., new station representative, comprising Frank M. Headley as president and a dtreasurer and Dwight S. Reed, executive vice president. [Broadcasting, Feb. 20].

### KMED TRANSFER

Alfred Carpenter Buys KMED Medford, Ore., center of one of the most bitterly contested and drawn out transfer cases before FCC under the now defunct Aveco policy, has been sold by Mrs. W. J. Miller to Alfred Carpenter, retired local orchidist, and associates.

The deal was to be consummated over the weekend, subject to Commission approval. KMED, an NBC affiliate, is on the air 5 day 8 k kw, 1 kw night on 1440 kc.

Buyers in addition to Mr. Carpenter are his son, Harlow Carpenter, a Harvard student, and Garland Jones, his son-in-law and local lumberman. It was further announced that Pete Watts, general manager of KYJC Medford, has resigned that post to head KMED in similar capacity.

Mrs. Virginia originally had sold KMED to Luther Gibson, licensee of KHUB Watsonville, Calif., and KSL (FM) Salinas, Calif., for $250,000-plus. Under the Commission's Aveco policy the transfer was thrown open to public bidding and FCC subsequently approved assignment not to Gibson Broadcasting Co. but to Medford Radio Corp., a local firm which had filed a competitive bid [Broadcasting, Nov. 3, 1947]. Mrs. Virginia and Medford Radio were unable to agree on terms and the latter withdrew.

Gibson Broadcasting and Mrs. Virginia then asked FCC to reinstate and grant their original application. FCC reinstated it but ruled it was a new bid and would be subject to Aveco again. KMED was then taken off the "for sale" market [Broadcasting, Jan. 31, 1949].

Grand Rapids, Michigan
KPAB CASE
FCC Court Injunction Denied; Outlet Seeks Stay Order

WHAT is believed to be FCC's first attempt to put a station off the air by court injunction pending completion of revocation proceedings was denied last week. KPAB Laredo, Tex., the station involved, meanwhile has filed an injunction to halt the

revocation hearing itself on grounds it is premature and violates the Administrative Procedure Act.

The last-minute and unannounced move came to light through full-page advertisements run in the Washington (D. C.) News by William Prescott Allen, publisher of the Laredo Times and a defendant in the proceeding, who charged FCC with seeking “to control all radio by destroying anyone who fails to get on their knees and kiss the hand of these FCC bureaucrats.” The ad stated certain Congressmen had been asked “to look into this rotten situation.”

FCC ordered the revocation of KPAB in early January on grounds that Mark Perkins, sole owner of Laredo Broadcasting Co., licensee, “has caused control of KPAB to be transferred to Allen K. Tish, William Prescott Allen, and without Commission approval, and that KPAB is now operated by these persons without a license” [Broadcasting, Jan. 9, 1949].

The Commission's request for interlocutory injunction to suspend KPAB was denied on Monday in the U.S. District Court for the Southern District of Texas, Laredo Division, by Judge James V. Allred, former Governor of Texas. Judge Allred stated that since KPAB alleged that Mr. Perkins had re- sumed operating control of the station the Commission's request was in effect moot. FCC held KPAB had not been operating under the control of theparty authorized in the license.

FCC told the court that Messrs. Allen and Tish, K. H. Smith, James Kazan, J. G. Hornerberger and William Prescott Allen Jr., whom it cited as defendants along with Mr. Perkins and Laredo Broadcasting Co., were “financially interested in or actually engaged in the control and operation of” KPAB “contrary to the provisions of the Communications Act.”

Affidavit Filed

An affidavit dated Jan. 14 was filed with the Commission last month which affirmed that Mr. Perkins has an interest in Laredo Broadcasting Co. and is conducting the station therewith at this time, but that the affairs of such company require reorganization.

KPAB's request for injunction to stay the revocation hearing, designated to commence March 6, in Laredo before Comr. Paul A. Walker, was filed Thursday with the U.S. District Court in Washington and argument is scheduled Tuesday.

KPAB contended that the Administrative Procedure Act as the law of Congress has precedence over FCC's rules and regulations and this act prescribes that the accused be fully apprised of alleged error and given an opportunity to correct the error before such drastic action as revocation be taken.

Publisher Allen's advertisement in the Washington News indicated that complaint about the proceeding had been directed to Sen. Tom Connally (D-Tex.), Rep. Lloyd M. Bentsen Jr. (D-Tex.), Sen. Eugene

Millikin (R-Col.), Sen. Edwin C. Johnson (D-Col.), Rep. Wayne N. Aspinall (D-Col.) and Sen. Robert A. Taft (R-Ohio). spokesman for former groups who received correspondence or telegrams but no action was taken other than routine acknowledgement or securing factual details.

Mr. Allen's advertisement in the News went on:

The Federal Communications Commission is heading towards turning this U.S. into a country ruled by a bureaucracy dictatorship.

This agency seeks to control all radio by destroying anyone who fails to get on their knees and kiss the hand of these FCC bureaucrats.

The only radio station in Laredo, Webb County, Texas, with a population of 75,000 today has seven FCC Washington bureaucracy lawyers asking the Federal courts to close this only station. This case is being heard today in Laredo, Texas.

Early in January 1949, we asked Sen. Tom Connally, Congressman Lloyd Bentson (sion), Sen. Eugene Milli- kin (sion), Sen. Edwin C. Johnson, and Rep. Wayne N. Aspinall (sion) and Sen. Taft to look into this rotten situation for the sake of saving the U.S. from the same fate which was brought about in Argentina by Pernon (sion), in Russia by Stalin, in Germany by Hitler.

We are asking the Congress of these United States to investigate this bureaucracy which threatens the freedom of our U.S.

Yes, if we would bow or get on our knees we could get along with the FCC. But we chose to lose the $50,000 which is invested in this only radio station, and continue to see America live as a free democracy.

Now who makes these charges against the FCC asking you to watch this attempt to destroy the only radio station which serves 75,000 people? One of President Harry S. Truman's electors of 1948.

Wake up America! When Ambassador Patrick Hurley was trying to save China from the Communists, the bureaucrats in Washington were helping Joe Stalin to China and some of the same bureaucrats are yet serving the U.S. in Washington unfaithfully.

It is time to act. We can destroy what was intended to be a free radio, can next destroy the free press.

WILLIAM PRESCOTT ALLEN,
Publisher, Laredo Times,
Laredo, Tex.
mas show, and only about five a year can be classed as actual commercials, in the opinion of Mr. Seaman. Even then, the exceptions, it is not a direct sales pitch, but announcement of new equipment. The Tractor Division has never used a hard sell, and probably never will," Mr. Seaman writes all commercials. Firm also drops one or both mentions during the 4-H Club Congress, an annual feature, or during long pickups.

Copy must be clear and simple. Remotes are lined up from one to four months in advance, depending on dates set for important farm events. Eight to 10 meetings in 1950 had been scheduled as early as last November.

The first commercial often is devoted to public service projects, including campaigns sanctioned by the Advertising Council. The second is frequently localized for the repeats with a western angle.

An example of a first commercial:

For those whose legs are too weak to run—whose arms may be handicapped—we wish to make this March of Dimes plea. Polio still remains one of the nation's most vicious scourges. The need for funds to fight this disease grows as increasing numbers of boys and girls—and as men and women—become victims of this dreaded affliction. By contributing to the March of Dimes Jan. 16 through 31, you are not only aiding those already stricken, but you are also helping the efforts to stamp out future epidemics. The dimes you give today will help build a brighter, safer future for our children. Allis-Chalmers urges you to give generously to help make some little child well and happy and to help find a way to stamp out one of our worst enemies—infantile paralysis.

A sample second, or product, commercial:

Have you visited the service shop of your local Allis-Chalmers dealer? If you have, you probably noticed many specialized tools—valve refacers, rod aligners, compression testers and other hand and power tools for work requiring expertise. You may have been interested in the way the mechanics used compressed air and special fluids to clean intricate machinery. You may have seen the engine block holders and heavy-duty cranes which hoist and place even the heaviest equipment in safe, working positions.

Day after day, mechanics in the shop of your Allis-Chalmers dealer use these tools to check and overhaul tractors, All-Crop harvesters, Roto-Harvester—every conceivable type of farm equipment in the community. The experience of these men, their knowledge of tools, their ability to ferret out trouble you might have with your equipment during the 1950 crop season can be of great value to you. We urge you to take advantage of the specialized service your dealer offers.

Although it is impossible to determine the exact number of listeners because there are no national ratings taken among farm families, it is believed that most farm families with radios (estimated 80% of six million farm homes) listen frequently to the National Farm and Home Hour. In addition, there is a growing city audience.

Varius independent surveys show the program is popular in both urban and rural areas. In an Oklahoma study, farm people almost ranked the show first or second. A survey of programs broadcast by WBAP New York showed the program was favored by half the farm people surveyed.

Audience response is always good on special offers. In June 1946, for example, A-C received 1,300 requests for a bulletin on fence posts; 5,600 for a pamphlet on how to build with logs, and 3,900 for instructions on home freezing of fruits and vegetables, all after only one mention. That farm women are loyal listeners was proved last fall when 8,600 wrote in for a baking bulletin mentioned once.

Client agency and network promotion staffs work closely together. New seminars are weekly farm radio news bulletins to between 150 and 200 stations.

Aids Dealers

Allis-Chalmers dealers show an increasing interest in radio. The Tractor Division pays for the National Farm and Home Hour, and the individual dealers throughout the country are advised to allocate 1½% of their gross to local advertising. In 1949, a radio kit issued by the A-C sales promotion department included 45 commercials. In 1950, the kit contains 105, "suitable for every selling job, all types of equipment.

One-show promotion is devised by Mr. Seaman, who, like Messrs. Roberta, Visser and Gittins, was born and reared on a farm. Mr. Seaman and Mr. Visser handle A-C field promotion dealers and their friends when on the road. This is more than often not.

Hires Seaman

Jerry Seaman was hired especially for the job after working as publicity director in the office of the U.S. Soil Conservation Service in Milwaukee. For seven years he was journalism instructor, publicity director and radio editor at North Dakota Agricultural College in Fargo. A graduate of Iowa State College, with bachelor and master degrees in agricultural journalism, he worked as a newspaperman in New Jersey, Minnesota, Iowa and Illinois.

Mr. Visser is also a graduate of Iowa State, with a degree in animal husbandry. He represented the institutes for Everett Mitchell on occasion, and handles commentary on many pick-ups.

The Tractor Division, with the help of these men and Bert S. Gittins, has prospered since it first appointed the Gittins agency. Speaking of his relationship with Allis-Chalmers, which originated with a 90-day trial period, Mr. Gittins claims "I'm still on trial. Sometimes agencies make a point of how clients have grown during their tenure. Roughly, the Tractor Division has increased its volume some 30 times from its low point, but I am forced to admit the business would have grown even though there were no additional news."

"As in so many things, Allis-Chalmers did most of the pioneering in radio for the farm equipment industry. Through our experience, I feel we have done as much in agricultural radio as anybody in the business. I refer to the solic type of agricultural radio designed to influence people in major deci-
sions representing a substantial investment, such as the purchase of a tractor."

Allis-Chalmers, which manufactured millstones in 1847, now offers a range of different agricul-
tural, industrial and electrical items. For the Tractor Division, the National Farm and Home Hour has been especially important, the efforts of Mr. Roberta. The recognition of the existing need for mechanization on family-operated farms, and those of A-C engineers who originated new designs that placed the tractor within the reach of all farmers.

DON LEE CASE

Firm Won’t File Exceptions

DON LEE Broadcasting System notified FCC last week that it will not file exceptions to the Commission’s proposed decision which, while anticipating renewal of the station’s own licenses, concluded the network had violated FCC’s network rules [BROADCASTING, Jan. 2].

William J. Dempsey of the Washington offices of Dempsey & Kopolovitz, Don Lee counsel, wrote FCC that an “exhaustive investigation into the relevant facts” has shown that a further hearing will be necessary if the decision is to be based on complete evidence on many points.

Cities Delay

“Reopening the record for complete evidence on such points,” the letter noted, “would inevitably in-volve many months of delay. It is clear, moreover, that the evaluation of whether these subordinate findings [that violations had occurred] should be revised in a manner more favorable to Don Lee is essentially tied to these proceedings.”

The letter continued:

For these reasons, and particularly since further determination of the issuance of the license renewals would multiply the hardships already expe-
rienced by Don Lee because of the time involved in these proceedings, it has been concluded that the filing of exceptions and a request for the record in the record are not justi-
fied at the expense of a prolonged de-
lay in the issuance of the license re-
newals. It is, therefore, requested that the Commission forfeiture issue these license renewals.

Don Lee is licensee of KGB San Diego, KDB Santa Barbara, KFRC San Francisco, and KJH-AM-FM Los Angeles.

Whirligig...
a bright new TV program
for the young in spirit!

Originally a feature on WPTZ’s Wednesday Matinee, “The Whirligig Show” now is a bright spot in the Philadelphia television spectrum every afternoon, Monday through Friday at 4:30. George Skinner is still the easy-going emcee; Bob Courtleigh is still vice president in charge of nonsense, and the special effect that translates music into visual patterns still plays the title role.

At first, we thought “Whirligig” was a teen-age show, probably because it featured guest appearances and informal chats with the up-and-coming as well as the great in pop music...a gallery of teen-age cheer leaders...and music with a beat.

Looking over the mail, however, turns up such fans as a Greek Orthodox priest, fireman, housewives by the thousands—and teen-agers! Here in the office, for instance, secretarial work seems to come to a grinding halt every day at 4:30 while the girls find reason to “check up” on the Skinner show.

All in all, we have come to the conclusion that “The Whirligig Show” is strictly for the young in spirit, regardless of age. And, contrary to some opinion, that includes most everybody in the Philadelphia area.

“The Whirligig Show” is now available for sponsorship by days or time segments. For details on the program and how you can use it to reach the second largest television audience in the country, drop us a line or call your nearest NBC Spot Sales Representative.

WPTZ FIRST IN TELEVISION IN PHILADELPHIA
THE COLOR TRIANGLE

By J. FRANK BEATTY

THREE tri-color television systems met in a battle royal Thursday morning, with government and top industry executives serving as judges and observers.

The long-awaited showing of all three color systems in one room was staged at the FCC's laboratory, 823 miles northeast of Washington near Laurel, Md. In the bare confines of a barn-like building RCA, CBS and Color Television Inc. submitted the fruit of their costly experiments to the probing gaze of a hundred critical observers.

And who won?

- RCA emerged smiling, satisfied it had successfully demonstrated a superior all-electronic system having complete color stability, with one-tube system in the offing.

- CBS contended the tests clearly demonstrated superiority of its system and removed any doubts that it is better than the others.

- CTI suffered equipment breakdowns ascribed to line-voltage changes and asked for another demonstration.

The interested viewers who watched this history-making battle included some members of the Con- don Committee, formed under Bureau of Standards auspices to report to Chairman Edwin C. Johnson (D-Col.) of the Senate Interstate & Foreign Commerce Committee, on color's progress.

Sen. Johnson attended, accompanied by Sen. Ernest W. McFarland (D-Arizona) of the committee and Edward Cooper, committee communications adviser, Kurt Borchard, of the House Interstate

& Foreign Commerce Committee staff, represented the group.

Banks of receivers were placed in the laboratory so viewers could observe all three systems in operation simultaneously. The room was crowded, and most viewers who remained seated found it difficult to see three sets at a time because they were too close. Soon they started milling around from one set to another as the tests progressed.

Simultaneous Operation

All receivers were operated simultaneously from antenna systems provided by the three exhibitors. RCA received signals from the NBC Washington TV outlet, WNBW, operating on Channel 4. CBS picked up from its Washington TV affiliate, WOIC, on Channel 9. CTI was fed on Channel 7 by WMAL-TV Washington.

Programs originated in separate studios, with sample materials available for purposes of comparison. Monochrome receivers permitted comparison with the color pictures.

RCA engineers made readings of picture definition. These figures are to be inserted in the television hearing record for this morning.

The demonstration opened with wedge test patterns moving horizontally and vertically, simulating usual camera movements. In comparison with the sample pattern in the room, CBS appeared to show more faithful color reproduction, though a blurish hue was noted in the wedges of some receivers.

On some of the RCA sets a blackish hue was apparent to observers in portions of the green and yellow segments, with the yellow veering toward orange. RCA showed uniformity across the pictures, and colors appeared to remain constant. The lack of uniformity as between receivers, and across individual pictures, that marred RCA's pictures last autumn appeared to have been corrected as a result of recent progress.

CTI Results

Several CTI sets were in operation, with best results apparent on a set in the balcony. The pictures lacked the brightness of CBS and RCA receivers, and were difficult to watch even in the half-darkened surroundings. Registration of the three separate images on the CTI projection screens was lacking much of the time when test patterns were shown.

Technical observers were keenly interested in a moving test pattern with rotating paddles of various colors, operating at varying speeds. As the speed increased there were stroboscopic effects. Some observers declared they saw color breakup in the CBS black-and-white as well as color pictures.

Keyboard color and black-and-white test patterns were shown, followed by a pattern in which fairly fine lines of different hue and uniform thickness were shown. Here many viewers felt CBS was superior with some of the RCA colors appearing to differ from the sample chart.

Both systems were impressive in depicting canned goods, cigarettes, cereal boxes, toweling and other familiar articles of a type that would be used by color TV sponsors.

A quarter-hour of live programming included Jeanne Warner, of WNBW, and Gloria Muddell, of the Fred Warin organization, in simultaneous songs. The color effects were pleasing, but the muffled sounds from adjoining sets were disconcerting. Dancers and models appeared before the cameras in bright costumes.

COLOR HEARINGS

Three-Day Week Set For Resumption

FCC's color television hearings which resume today (Feb. 27) after a recess since Nov. 22, will be held on a three-week-day basis through March, according to a schedule released by the Commission last Thursday.

The schedule:
Feb. 27, 28, March 1; March 15, 16, 17; March 22, 23, 24; March 29, 30, 31.

Sessions scheduled for March 8-10 were canceled in order to avoid conflict with the Institute of Radio Engineers' 1950 convention and radio engineering show in New York March 6-9.

FCC, meanwhile, notified Theodore A. Wetzel of Milwaukee, who had petitioned for consideration of a color system which he said he had developed [TELECASTING, Jan. 9], that he could not be permitted to participate in the hearings on the basis of the information he had submitted.

The Commission said it felt that “a prima facie showing has not been made that your proposed system can be used as a basis for the promulgation of color television standards.” FCC left the way open for Mr. Wetzel to submit additional support of his petition or to offer a demonstration of his system, but held:

- ... it appears from your petition that your proposed system has not progressed beyond the theoretical stage; that the amount of research and development which your system has undergone does not appear to be sufficient to permit you to determine its fundamentals and to explore basic problems; and that no transmitting or receiving apparatus has been constructed by you which would be suitable for either laboratory or field testing.

Mr. Wetzel claimed to have developed a color TV system which is completely compatible with existing black-and-white standards and which would permit conversion of existing receivers and camera equipment “at very low cost.”
Some day when industrial historians sit down to trace the development of television, chances are that they will salute WABD (TV) New York, flagship for the DuMont Television Network, for its earnest endeavor to destroy the shibboleth that "big city television is strictly for the million-dollar advertiser." WABD's goal has not been to produce the most lavish video entertainment but rather to develop the most effective TV advertising at a cost within reach of all as well as high-budget accounts.

"And that," says Commr. Mortimer W. Loewi, its chief and director of the DuMont Television Network, "is just what we intend that WABD shall continue doing.

"Here, during the last year or two, with a small, hardworking, knowledgeable staff, we have pioneered daytime and Saturday night programming as well as low-cost program production and techniques which we believe are, in part, responsible for the encouraging turn that experts are noting in the industry's affairs and prospects.

"WABD's direction is in the hands of the DuMont Television Network executives, but its well-being stems to a large degree from the fact that each and every one is as zealous for the station's welfare as for any responsibility that he carries. Chris J. Witting, our new network general manager, for example, while leading the organization in consolidating and solidifying our position nationally during the year, likewise has so operated WABD that, if it were disassociated from network origination and such service, the station itself would be in the black.

"So, too, James J. Caddigan, network program production director, created several shows for WABD which proved so attractive that, at affiliate request, we moved them on the network. At the same time his production crews achieved such efficiency that from Studio D alone we telecast 16 or 18 programs back-to-back every day. Several station operators have told us that they utilized WABD as an object lesson for their production staffs who are faced with the necessity of doing a good job economically. At the same time the sales staff under Tom Gallery and his assistant, Trevor Adams, in tripling network billing for the year, has placed WABD in the forefront among stations utilized by TV sponsors."
1940, under special authority granted by the FCC, a DuMont crew set up a field TV transmitter at Canton, N. Y., and put a remote camera chain and a group of receivers into the field. This provided the first video coverage of the First Army war games in northern New York, largest peaceducation air show that time.

Another ambitious W2XWV program attempt during its experimental first year was to reconstruct a professional football game between the Chicago Bears and the Washington Redskins. By moving figures on a magnetic board set up in front of a camera, Mr. Baltin and his staff followed the progress of the game from play-by-play reports received by wire from Chicago. A valiant attempt to reproduce 1940 election telegraph bulletins via Trans-Lux projectors fell short of success due to lack of sensitivity of the camera tubes of that era.

Installation of permanent equipment was started early in 1941, and by the fall of that year extensive testing of the transmitter and field strength measurements were underway. By the spring of 1942 the young DuMont organization was deep in plans for instituting a regular series of planned programs. Robert Jamieson, new traffic manager for the network, had joined the station staff as stage manager; Dorothy Wootten as program announcer, and Walter Swenson as chief engineer, with Salvatore Patremo, new network maintenance engineer, as his assistant.

About that time Dr. DuMont decided to launch a full-bodied weekly series of variety programs and shows supporting the war effort. A formal production schedule was inaugurated on Sunday, June 23, 1942. Within six months the station went on a twice-a-week schedule, and early in 1943 added a third day to its operating week.

During this period, Samuel Cuff, WABD’s general manager, introduced top advertising agencies to television, making air time and studio facilities available at no charge to far-sighted and imaginative executives who wanted to experiment with the new medium. Among those early pioneers courageous enough to get their feet in the door were Benton & Bowles, who conceived a series of 10-minute dramatic sketches for Post Tens, a variety of General Foods breakfast cereals packaged in a multiple container, Canada Dry came up with one-minute spot films on behalf of Spur Cola, and Chesterfield sent over Fred Waring with his vocal group (instrumentalists not yet being allowed to play in the new medium).

Durez Plastics regularly and currently placed Jessica Dragonette before the WABD cameras; Press on Mending Tape offered The Hobby Hall of Fame, on which enthusiastic hobbyists arrived at the studio to talk about and demonstrate their hobbies on television. Also among the early uncharged-commercial users were Lever Bros. Co., with a show called Wednesday at Nine is Lever Time for Rinso, and later Spry. The program featured a pre-war vaudeville song and played the piano and was known as Roberta Hollywood, more famous now as Roberta Quinlan.

About that time Commdr. Loewi, who had been keeping his eye on telecasting operations in his capacity as executive vice president of the parent organization, donned a naval uniform and went off to war. Leonard P. Cramer, new vice president of the corporation, moved over from Passaic and started to lay the groundwork for network operations.

Mr. Cramer immediately set about expanding WABD’s facilities, on line in Wanamaker’s New York Department Store what was then the world’s largest and finest television studios. Utilizing more than half a million cubic feet of space, the new facilities included three studios, a balcony which could seat an audience of 500 persons, and many other features. Thither Mr. Cuff moved all of WABD’s production and all of DuMont’s telecasting was done from those studios until daytime programming was launched in the fall of 1948, utilizing Studio D at 515 Madison Ave. for most operations.

With the step-up in national interest in television that marked 1947, Mr. Cramer was called back to Passaic to take executive direction of the entire corporation and Lawrence Phillips joined DuMont to develop the Cramer-initiated network. With Leonard Hole, now with NBC-TV, in charge of operations at WABD, Mr. Phillips served as network director until the spring of 1949 when Commdr. Loewi assumed that position.

Mr. Witting joined DuMont in June 1947 and, working closely with Commdr. Loewi, built up a “team” that has pioneered in the development of low-cost TV programs for low-budget advertisers. The same era also saw the arrival at Du Mont of Mr. Caddigan. Under his direction DuMont can boast more “house” programs, created and produced by its own staff, than any other network. The record shows that the DuMont production staff has come up with better than one new program a month since he has headed the operation. The DuMont programming department operates what amounts to a continuous production research laboratory in devising and seeking new technical advances, cameras and exposition effects, lighting and other improvements in technique.

Sensing a need for a new type of adventure serial for modern-minded youngsters, Mr. Caddigan created Captain Video, which integrates into a live studio program of futuristic and scientific developments film sequences of cowboy adventure, providing a story within a story. This combination has paid off in audience, Captain Video outranking with New York moppets the (Continued on Telecasting 13)

A TOP LEVEL consultation on WABD problems brings together (l to r) Commdr. Loewi, Mr. Caddigan and Mr. Witting.

* * *

WHEN this country went to war all of the DuMont manufacturing facilities were turned over to the production of radar, but in 1945, he obtained a license to form a defense organization for the armed forces. But WABD remained on the air thanks to a rule that DuMont had laid down. Anyone wishing to be associated with telecasting experiments must first work eight hours a day producing war equipment in the Passaic plant. Then, on their own time, those who wished to do so might go over to Manhattan and put the station on the air during the evening—so long as they were back at the factory in time for their next eight-hour shift on the production line. (Frank Bunetta, the director whose work is doing so much to free TV of the inhibitions imposed by movie approaches, was one of those who took advantage of the opportunity to get into TV early.)

WABD in this manner supported the war effort—bond drives, the Red Cross, air raid warden service, and recruiting campaigns. It made time available to all branches of the civilian and military effort.

In 1942, the station was granted a full commercial license, W2XWV, became officially, WABD.

* * *

Almost all of the young engineers who began work with DuMont in 1945, have been able to make a career in television, with a fair number of them remaining with DuMont for years. The company has always been a training ground for the engineering profession.
THE DESIRE of television set owners to see the top comedy stars of radio on TV is revealed in a report released last week by Advertizing Research.

When respondents were asked to name the radio programs they were looking forward to seeing on television, six of the 10 programs named most often were either comedy or situation comedy. Lux Radio Theatre is the only dramatic show which appears on the list. In the field of musical offerings Bing Crosby and The Hit Parade were named most often.

Only one daytime show, Breakfast Club, appears in the top 10. Adventists, who have no soap opera listed, Adventist points out that the total for all the various programs named in this classification was 4.6%, "showing a desire by set owners for this type of daytime entertainment."

The survey covered over 500 television homes in the New York-New Jersey area.

The Advertisers list of the first 10 programs, and the percentage of set owners listing each, follows:

1. Jack Benny 19.9%
2. Jack Benny 17.1%

WGN-TV Chicago Issues Rate Card No. 5

WGN-TV Chicago rates will jump $1 per hour for live and film shows in Class A one time starting March 1. Sales Manager George Harkey announced last week. Station’s basic hourly rate for live shows was $700, $600 for film. This is the fifth rate card WGN-TV has issued since it took the air in April 1948.

Saturday and Sunday time, previous all Class A, has been reclassified. Mornings until 1 p.m., each day is now Class C; Saturday afternoon from 1 to 6 p.m., Class B and Sunday afternoon from 1 to 6 Class A.

American Research February TV Ratings

LATEST American Research Bureau report on television in New York and Philadelphia, released last week, shows Milton Berle’s The Texaco Star Theatre in first place for both cities.

Toast of the Town continued its hold on second place and the Arthur Godfrey Talent Scouts show remained third. In New York The Children’s Hour, an hour-long program telecast at 10:30 a.m. Sunday, barely missed the top 10 with a rating of 35.1, according to ARB. The survey covers the week of Feb. 1-7. Information is secured from “viewer diaries” placed in a cross-section of 500 homes in each city.

American Research Bureau February ratings for New York and Philadelphia, with January ratings shown in parentheses for comparison, are as follows:

NEW YORK

1. Star Theatre 48.9 (48.9)
2. Toast of Town 54.7 (52.6)
3. Talent Scouts 52.3 (53.3)
4. Godfrey & Friends 44.4 (44.9)
5. The Goldenbergs 42.0 (41.7)
6. Philco Phileas 41.7 (36.4)
7. Suspense 37.3 (32.8)
8. Lights Out 33.5 (36.4)
9. Amateur Hour 37.5 (39.6)
10. Studio One 33.5 (35.0)

PHILADELPHIA

1. Star Theatre 73.7 (72.7)
2. Toast of Town 59.2 (65.4)
3. Talent Scouts 50.9 (57.9)
4. TV Teen Club 58.9 (57.9)
5. Cavalcade of Stars 49.6 (49.7)
6. Godfrey & Friends 56.9 (57.9)
7. Toast of Town 49.1 (63.1)
8. Kraft 5 Television 49.8 (51.6)
9. Harlem Globetrotters 41.6 (53.1)
10. Children’s Hour 46.0 (53.3)

Survey Source Changed For S. F. Count

THERE WERE 38,517 television sets in the San Francisco coverage area as of Feb. 1, according to the city’s Television Sets Committee. The increase of approximately 5,000 sets from the figure previously reported in TELECASTING’s Weekly Television Survey is said to reflect ownership in areas not covered before.

The San Francisco TV Stations Committee, comprising general managers of the city’s three stations, surveys not only dealers in the entire video coverage area, but distributors for an estimate for the sets released by them to wholesalers.

U. of Miami Surveys Local TV Preferences

ED SULLIVAN’s weekly variety show, Toast of the Town, is the most popular TV program broadcast in WTVJ’s (TV) Miami, according to a survey conducted last month by the radio and television department of the U. of Miami.

A thousand pairs of postcards were sent to local radio programs, the other toine or motion picture film shows, were included in WTVJ’s weekly program log mailing for the week of Jan. 9. Respondents were asked to rate programs as very good, good, fair or poor or very good, with replies rated according to a scale that assigned the index of 100 to the top, 75 to good, 50 to fair, 25 to poor and 0 to very poor.

Results showed the kinescope of network TV shows and the motion picture films far more popular than the station’s local live programs. Only one local telecast, U. of Miami basketball game, go into the 10 most popular programs only one non-local program, Kabel 2.

WSB-TV is not broadcasting color television

BUT WE CAN!

as a matter of record—we have!

We are interested and concerned with promoting the art of television in all its aspects — both present and eventual.

Within a few short months this station has become known as an accurate testing ground for new ideas, and for a reliable reflection of audience attitudes.

The production and technical personnel of WSB-TV is capable of handling any program idea. These capacities, the television public recognizes — and rewards.

And that is another reason why WSB-TV can and does sell MORE merchandise for sponsors in the great Atlanta market.

Owned and operated by The Atlanta Journal Co.
Represented by Edward Petry & Company, Inc.
Competitors Unite

In A New Form

Of Video Advertising

By FLORENCE SMALL

"WE SIMPLY took a problem and turned it into a profit."

With that deceptive simplicity, Ely Landau, director of television for Moss Assoc., New York, defined what is one of the most interesting and successful local television ventures in the New York area.

The problem was actually duofold. Two separate automobile firms, the Jackson Motor Co., Jackson Heights, L. I., and Nat Paterson Motors Inc., Ozone Park, L. I., both DeSoto-Plymouth dealers, sought individual service from the agency on their respective accounts. Both were considering television.

The medium, however, proved too expensive for each of the firms to tackle at great length individually. Moreover, even if the agency had been able to accede to its clients' desires, it would have placed Moss Assoc. in the untenable position of selling competitive services at the same time in a somewhat similar area.

Mr. Landau answered the first part of the problem by joining the two in a common campaign, splitting the costs between them. But that left yet a greater problem to solve. How could the agency direct sales exclusively to Jackson and Paterson without diffusing the benefits of their advertising among DeSoto-Plymouth dealers who were not participating in the campaign? And what about the business of competitive services?

Moss Assoc. answered both problems in one stroke. The firm struck on the idea of creating a "theme" to be used by both clients, but by them alone. To do this the agency coined and copyrighted a word, "Road-erizing," and built the campaign around that word. Aware that automobile sales grow out of automobile servicing, they defined "Road-erizing" in the commercials as a complete servicing job by highly skilled, factory-trained mechanics, including complete lubrication, check of battery, steering post and lights, etc.; front-end check, adjustment of brakes, setting and adjusting ignition timing and carburetor, tightening of body bolts and a road test on which the car is critically tested for noises, handling ease, smooth riding, performance and response.

Price of the service was set at $7.55.

On the Monday following the first Saturday evening on which the "Road-erizing" commercial broke, one of the dealers got 19 calls for this service. The other received 26 such calls during the week. Inasmuch as "Road-erizing" was not advertised elsewhere, all of these could be attributed directly and solely to the TV advertising.

Growing Response

Since the inception of the theme and TV campaign, both dealers report a steadily mounting number of "Road-erizing" jobs sold and a sharp upturn in their servicing business in relation to the corresponding period of the previous year. The number of cars sold has increased proportionally. The Nat Paterson Co.—as a result of this and a previous brief solo invasion of TV with Moss Assoc.—has risen from one of the smallest DeSoto distributors to the second largest dealer in Long Island, Nassau and Suffolk Counties.

The show which the two firms sponsor—at a joint annual cost of $50,000—is an hour long presentation of the wrestling matches on WABD (TV) New York, 10 p.m., Saturday. The matches originate in Chicago. The program has the second highest rating of any Saturday night TV program in the New York Metropolitan area.

The cost is extremely low in relation to the size of audience reached, Mr. Landau told TELECASTING. He estimates it about 20 cents per 1,000 messages delivered.

The commercials consist of four one-minute silent animated cartoons that cost less than $1,500 and promote both clients. Commercial costs were kept down by using only eight basic pieces of art work with moving panoramic backgrounds for all four commercials, intermixing them and reversing the direction of the action for variety.

The program is introduced by a one-minute jingle with cartoon pieturization utilizing stop motion animation and other visual effects.

A portion of the jingle goes as follows:

When your car is limping badly
When your motor's on the blink
Call on Jackson Motor Company
Or Nat Paterson Motors Inc.

If it's new with fluid drive
Or it's old and has a klaxon, etc.

Call on Jackson Motor Company
Or Nat Paterson Motors Inc.

When your car is limping badly
When your motor's on the blink
Of the Jackson Motor Company And Nat Paterson Motors Inc.

To support the television campaign, Mr. Landau and Mr. Manfred have prepared a coordinated program of direct-mail and point-of-sale material tying in with the "Road-erizing" theme of the TV commercials. Bulletins were issued to employees of both dealers defining "Road-erizing" and explaining its significance as a business builder. Large signs identify both dealers as "Handpickers for Road-erizing." Rubber stamps were made of a specially designed seal bearing the words "Have Your Car Road-erized" and are used to relay the message with all outgoing bills of the two companies.

"No opportunity is overlooked to reinforce the impact of the television program in making the public 'Road-erizing' conscious," Mr. Landau said.

In discussing the agency's approach to automotive advertising generally, Mr. Landau observed, "We here at Mos, as exponents of the theory that low-cost television can and does pay off, feel we can justifiably say that this use of the medium of television by individual automotive dealers has and is proving very conclusively that TV can pay off as handsomely at the local level as it has done for some of the big national advertisers in the automotive field."

WAR against Hollywood "talent sharks" assumed greater proportions last week as Federal authorities joined state, county and city officials in the investigation. The racketeers, posing as legitimate television or movie producers, have been extracting up to $20,000 weekly from ambitious victims by holding out the offer of a television or screen career for them or their children [TELECASTING, Feb. 20].

The Federal Grand Jury opened its investigation yesterday, Tuesday, seeking to indict offenders on charges of mail fraud. Cited in as a witness by Assistant U. S. Attorney Ray Kinnison was James Cagney, actor and former president of the Screen Actors Guild, who told jurors of the workings of legitimate talent agencies as opposed to recently formed "phony" guilds.

Other Witnesses

Other witnesses were Buck Harris, public relations director of SAG, and Ken Thomson, assistant executive secretary of the guild, who turned over hundreds of letters received by SAG from people complaining of unfulfilled promises made by so-called guilds.

Meanwhile, the state was continuing action against the groups on grounds of accused violation of the Corporate Securities Act. To date, seven of the alleged "talent sharks" have been ordered closed and officials of another "school" are scheduled for a March 15 hearing by the State Division of Corporations. The charge is that "schools" promised clients a share of the profits in contracts with them, thus placing the contract under the heading of security, permission for which must be obtained from the state. Such permission had been acquired by the groups.

Ordered to suspend operations

CBS Signs Lahr

CBS last week signed Bert Lahr, comedian, to an exclusive three-year television contract. A half-hour weekly comedy program built around him is planned but starting date has not been selected. Mr. Lahr has appeared frequently as guest on TV programs. His CBS series will be produced by Irving Mansfield, CBS executive producer. Closed circuit tryout is planned within a month.

WJBK-TV Detroit's new quiz, "So You Know Sports," is set by (1 to r): Seated—Louis DeHayes Jr., Sterling Cool; Jack Rose, Louis Rose Co., DeSoto-Plymouth, co-sponsors; standing—Dick Jones, WJBK-TV; Bob Murphy, Detroit Times; Van Patrick, moderator; Edgard Hayes, Detroit Times; Bob Powell, Powell-Grant Inc.

ARRANGING for the Blind Date TV show on ABC, starting March 16, are (1 to r): Slocum Chapin, ABC's eastern TV sales mgr.; Charles L. Rothschild, v. p., Emil Mogul Co., agency; Sam and Albert Abrams, pres. and sec.-treas., respectively, Knomark Mfg. Co., sponsor; Arlene Francis, star of show.

SILENT film star Buster Keaton (l) produces "heavy artillery" to make sure Dana Jones (seated), pres. Dana Jones Co., completes contract that will make Los Angeles Studebaker dealers sponsors of Mr. Keaton's show on KTTV (TV) Los Angeles. Watching transaction is Frank King, KTTV sales mgr.

PLANS for the Flagstaff Foods sponsored John Reed King Show on WCBS-TV New York, which began Feb. 11, are completed by (1 to r): George Dunham, CBS Radio Sales-Television; John Reed King, star of show; Isadore Greenspan, treasurer, Flagstaff Foods, and Max Geller, Weiss & Geller Agency.

'TALENT SHARKS' PROBE

FEDERAL OFFICERS JOIN HOLLYWOOD PROBE

WAR against Hollywood "talent sharks" assumed greater proportions last week as Federal authorities joined state, county and city officials in the investigation. The racketeers, posing as legitimate television or movie producers, have been extracting up to $20,000 weekly from ambitious victims by holding out the offer of a television or screen career for them or their children [TELECASTING, Feb. 20].

*January 1960, 7-City Pulse Ratings:
‘SAT. REVUE’ STARTS

NBC-TV LAST WEEK launched its Saturday Night Revue after altering the program’s original concept to overcome objections of the FCC [TELECASTING, Feb. 20]. The first presentation of the program was scheduled for last Saturday, Feb. 25, and as of the time TELECASTING went to press there seemed little doubt that the schedule would be kept.

Meanwhile, however, the National Assn. of Radio Station Representatives Inc. sent a letter to all television stations not owned by networks, charging that networks were encroaching on spot business and pointedly advising stations that their best revenue could be derived from spots.

The NARS letter was the first direct action taken by the association with regard to the NBC Saturday night plan, but individual members were known to have urged their stations to shun the program since the plan was first announced.

As modified last week, the NBC plan was believed by network executives to be within FCC regulations.

Originally the network placed an order with stations for the two-and-a-half hour time, with the qualifying suggestion that stations could take only parts of it if they chose. The network did not identify advertisers in its order to the stations, for the good reason that at the time the program was planned, no sponsors had been acquired.

Under the original plan, the program would be sold to 15 different products, whose one-minute commercials would be rotated in the 13-week cycle throughout the full two-and-a-half hour show.

In revising its plan last week, NBC withdrew its order for commercial time from stations and announced it would sell the program in a different way. Although 15 different products will be sought, the program will be sold in half-hour segments, in each of which can be put three one-minute commercials. As soon as a half hour (or three commercials) is sold, the network will place a commercial order for that with its stations.

Stations were asked to carry unsponsored portions of the program as sustaining network time.

The first presentation last Saturday was entirely sustaining. Three advertisers were reported to have signed for sponsorship of the show, but it could not be learned when their schedules will begin. The advertisers reportedly were United Fruit Co., which had been announced as a sponsor before the FCC threw a monkey wrench into the original plan, Swift & Co. and RCA.

The premiere telecast of the Saturday Night Revue last Saturday was to feature Jack Carter as star in a Chicago origination 8-9 p.m. and Sid Avery in New York origination 9-10:30 p.m. Appearing also in the Chicago portion of the program were to be George Raft and Cass Daley. And in the New York portion, Burgess Meredith, Imogene Coca and Gertrude Lawrence were to perform.

In an official statement, Joseph H. McConnell, NBC president, said:

While we are making this show available to all television stations on a sustaining basis, it is our plan to make it so good that it will be quickly sold to sponsors. This two-and-one-half-hour show is available for the advertising of 15 different products.

Advertisers will be offered the opportunity to purchase one-minute announcements. A maximum of three announcements will be placed in a half-hour portion of the program. As three announcements are sold, the stations will be informed of the identity of the advertisers and will be offered a half hour of commercial time. The announcements will be rotated within that half-hour period. As additional announcements are sold, offers will be made to the stations for the time required for the additional announcements adjacent to time sold, and all the announcements will then be rotated within the time sold. Thus, when 15 announcements have been sold, the announcements will be rotated throughout the two-and-one-half hour period.

NBC is gratified by the considerable interest which advertisers have already shown in this new approach which makes big-time network television available at a price which can be afforded by a greater number of advertisers.

Flanagan’s Letter

The letter sent to independently owned television stations by T. F. Flanagan, managing director of NARS, read in part:

The DuMont complaint against monopolistic practices by networks in television broadcasting brings to a focus the whole question of national spot advertising in television.

The networks are founded and have remained in business on the basis of their ability to provide programs which would attract audiences and be salable to advertisers.

The FCC has repeatedly stated its determination to see to it that the independently owned station must keep in position to compete with the network for the business of the national advertiser.

It is only in this way in which the independently owned station can compete for national business is through the sale of time on station breaks, or minute announcements, and other short time units, on the sale of time to national advertisers in participation shows, on the sale of local news programs, on the program time and service, and the sale of station produced programs to national advertisers, and the sale or otherwise produced programs to national advertisers in station time.

The above conditions are part of the basic bargain of network broadcasting. We have in television some conditions that are parallel to AM, and some that intensify the need for direct sale of station time.

EXCISE TAX

Industry Delivers Strong Protest

STRONG case for the TV manufacturer, distributor, retailer and the telecaster was presented Tuesday to the House Ways and Means Committee. The Congressional group is considering the administration’s proposed excise tax on television receivers at the manufacturing level [TELECASTING, Feb. 20, 13].

At the hearing’s close, it was indicated that at least a number of the committee members had been made cognizant of the industry’s problems. Some committee members said the protest was effective.

A decision as to whether the committee’s recommendation on the administration’s proposal is not expected until at least, the Congressional group has heard detailed phases on the entire question of tax revision. Hearings may continue into April.

BUFFALO—‘FEDERAL SYSTEMS’?

IT brought back memories for Eugene S. Thomas (r), general manager of WOC (TV) Washington, when he glanced in the window of the Star Radio Co. in downtown Washington and saw on display a 1929 TV set, manufactured by the Jenkins Television Co. Mr. Thomas thought went back to 1926 when, on a similar set, he saw his first TV demonstration at the Jenkins Laboratories in Washington. He points out some of the features of the 21-year-old receiver to Max Montague, owner of Star Radio Co.

BROADCASTING  •  Page 6

[Continued on Telecasting 18]
Telefile
(Continued from Telecasting 5)

Competing Kibla, Fran and Ollie. High ratings for a TV news show have also been achieved by a news-and-talk show, begun by Mr. Caddigan for Headline Chews.

Meanwhile, in the Wanamaker studio, DuMont production crews were developing techniques which permitted the station to telecast from a single studio a complete evening of programs seven nights a week—a technique that was adapted to meet Commr. Lowry's call for a full daytime schedule of 15 programs, telecast back-to-back from Studio D at 515 Madison Ave.

On the air approximately 76 hours a week, of which about 35 are taken with local origination, including 12 hours of test programs, WABD airs 20 hours of women's programs, 8 of children's shows, 8 of sports, 7 of variety, 6 of film, 4 of news, 3% of drama and 6 of discussion in the major programming classifications. Approximately 41 hours per week of the station's air time are given to network transmission and 5 hours to network receiving (from Chicago). Approximately 16 hours a week are commercial and 48 sustaining.

High on the WABD public service program roster is Court of Current Issues, hailed for five awards and the oldest program in the number of consecutive telecasts in television. The station's sports coverage this year will include telecasting all home games of the New York Yankees under the sponsorship of P. Ballantine & Sons (beer and ale). Last fall WABD moved from its coverage of baseball to its gridiron equivalent by covering (via the DuMont TV Network) the major games of Notre Dame, with Chevrolet dealers as sponsors. Mr. Stagg, former head manager of the Yankees, left that organization to join DuMont in January 1949.

Steady development of WABD's facilities has been under the direction of Scott Helt, Rodney D. Chipp and Julian Armstrong. Mr. Helt supervised the expansion from mid-1946 to September 1948, when Mr. Chipp, now director of network engineering, succeeded him as chief engineer at WABD.

Mr. Chipp supervised work involved in the re-activation of Studio D to provide daytime programming, as well as a conversion of the Adelphi Theatre into a television studio to accommodate Cavalcade of Stars, Cavalcade of Bands, The Morey Amsterdam Show and a number of other productions. He also supervised the complete construction of a new ramp and control booth which have made the Adelphi a thoroughly modern theater-type studio. At the same time, Mr. Armstrong, director of planning, has supervised development of headquarters offices, notably the research divisions on the 20th floor of 515 Madison Ave.

Currently the organization that started in March at $50 a month room, with 200 sq. feet of space, occupies 21,000 sq. feet on nine floors. Concurrently, from its original 50 kw experimental days, WABD's equipment has expanded to the three studio locations equipped with 20 DuMont cameras, 14 mounted on pedestal dollies, one on a crane dolly, and five on tripod mountings; 19 microphone channels, 8 turntable channels, 7 microphone booms, 2 Dynabeam spotlights, 5 video circuits, 6 audio circuits, 3 iconoscope film chains, 2 35mm and 1 16mm channels, 2 16mm and 2 16mm film projectors, 3 slide projectors, a Baloptican, a sound truck equipped with dual turntables and 4 microphone channels, a jeep monitor, 2 off-the-air receivers, 2 microwave transmitters and receivers, and one video and one audio channel line out, among its mobile equipment. Of course, facility of the full DuMont manufacturing organization are at WABD's disposal all time, enabling the station to add to its equipment whenever that seems desirable. The station now operates on Channel 5 (76-82 mc) with 9.4 kw aural, 14.5 kw visual.

Details of operations at WABD's three studio locations at 515 Madison Ave, the Adelphi Theatre and the Wanamaker studio are supervised by Roy Passman, New York operations manager.

Base rate of WABD for an hour of Class A time (6:30 p.m. to sign-off, Monday through Friday) is $1,500. For Class B time (2:00-5:30 p.m. Monday through Friday) the base rate is $750 per hour, dropping to $500 per hour for all other time. A one-minute or less announcement is $200 in Class A time, $100 in Class B time, and $75 in Class C time. Frequency discounts run from 25% for 13 times a year to 25% for 25 or more times a year.

Studio facilities for camera rehearsals of live programs are available at $200 per hour. Charges for film studio usage are $25 per hour, with a $75 minimum, and charges for film, when combined with live studio or mobile unit, are $75 per hour or any portion thereof.

CANADIAN TV
CBC Building First Unit

CONSTRUCTION of the first Canadian television studios and transmitter has started at the Canadian Broadcasting Corp.'s national program and commercial center in Toronto, according to Donald Manner, acting general manager of CBC.

It was also announced that S. W. Griffiths, from CBC International service, Montreal, will be program director at Toronto; Reg Horton, technical director, and Charles Harris, assistant supervisor.
'Howdy Doody' Does It

NEARLY a quarter million responses have been received from two premium offers on the Howdy Doody Pack feature on NBC-TV, the network has announced. Youthful viewers were asked in announcements tertanit on Jan. 23 and 30, to send 10c and a wrapper from a bar of Three Musketeers candy to receive a cardboard model of Howdy Doody. As of Feb. 6, Grant Advertising, which has the account of Mars Inc., maker of the candy bar, reported it had received 240,000 requests.

Sat. Revue

(Continued from Telecasting 12) to advertisers through the station representatives.

The first place, no television station can live on the few pennies out of the advertisers' dollar that it nets from a network sale of time. It must have the station time for local advertisers and national spot advertisers. It must have the station break time for its own sales staff, must, to exist, get a considerable revenue after all expenses on local business, and it will depend in great measure upon national spot business with its high net return.

When the networks begin to encroach on spot business through any of the many current devices that they are trying, they are starting a practice which knows no end. It is a short step from sales of national spot advertising, through network origination, with low income to the station, to the time when the networks will begin to solicit and offer all spot advertising. It is a long step from national advertising in network participation shows to network chain breaks instead of the logical and proper station break.

The network can claim a much larger proportion of your broadcasting time for television than it could for AM. Yet it is well recognized by the leading authorities that advertising business that for many reasons national spot advertising is likely to be a much larger proportion of television time sales than it is in AM this is fortunate for the station because the larger its proportion of national spot income, the better its financial health.

NARSt members represent 63 television stations now operating. Our members are organizing their sales and service to develop spot television business in the soundest and largest way. Our members have exacted the same financial problem that you have. Currently they are uniformly losing money on their television, but they are expanding their efforts just as you are, with the confident knowledge that television is going to become a respectable new medium, more serviceable to the advertiser in selling his goods in large volume at low cost.

The danger to what is obviously a healthy future for spot television is in these attempts of the network to encroach upon spot business. The services of a network are understood by all and need no defense. It is this moving in on national spot business to which we object.

We are writing to you on behalf of our members to state these facts in the clearest possible way, and to suggest that the economics of this business call for a clear understanding and definition of what is network and what is national spot.

QUIZ SHOW

ABC-TV Takes 20 Questions

ABC-TV and 12 affiliated stations will carry Twenty Questions, radio quiz, as a feature beginning March 31 as the result of a 26-week contract signed last week by the network and Ronson Art Works Inc., through Grey Advertising Agency Inc., New York.

The program, to be telecast from 8 to 8:30 p.m., EST, on behalf of Ronson lighters, will be carried by four of ABC-TV's owned and operated outlets—WENR-TV Chicago, WXYZ-TV Detroit, KCAG-TV Los Angeles, and KGO-TV San Francisco—and eight affiliated stations.

In New York, Twenty Questions, which features Bill Slater as m.c. and a regular panel, as well as guest stars, will be over WOR-TV, but will move to the Friday evening spot. Show currently is heard and seen as a simulcast on WOR-WOR-TV on Saturday.

Coincident with Ronson's sponsorship on ABC-TV next month, the MBS radio version will be aired from the sound track of the ABC-TV network feed the preceding night, ABC reported.

WOI-TV BEGINS

Is Nation's 100th TV Outlet

THE 100TH television station in the nation, and the first licensed college television station, WOI, of Iowa State College, Ames, took the air Feb. 21. Stores in cities of central Iowa held open house last week, with line-ups of television sets demonstrating the station's programs to many persons who had never before witnessed the new medium.

WOI-TV is the outgrowth of a decision by officials at Iowa State to modernize the equipment of WOI and include provision for both FM and TV while doing so. The transmitter building and antenna, completed last spring, are located three and one-half miles southwest of Ames. The building is of brick and constructed in ranch house style, containing a transmitter workshop, power plant, garage and emergency studio.

The FM and TV transmitters are located at the new site, and eventually the AM transmitter also will be moved there.

WOI-TV, on Channel 4, is affiliated with ABC-TV, CBS-TV DuMont and NBC-TV. It has a library of 5,000 films and operates Monday through Friday with effective radiated power of 13,000 w. Transmitter was built by General Electric Co.

ATS Discussions

AMERICAN Television Society will begin a series of luncheon discussion meetings March 5, Robert Montgomery, NBC producer, will be first speaker at the Hotel Roosevelt, New York.

TV RENEWALS

Previous Order Set Aside

WTMJ-TV Milwaukee was given a regular license by FCC last week after Walter Dammm, vice president and general manager, reported the station did not accept NBC's order which FCC found objectionable, for the NBC-TV 6½-hour Saturday night series (See Telecasting 19). WTMJ-TV and WPTZ Philadelphia had their recently issued regular license renewals set aside and had been given temporary licenses instead, as result of FCC's belief that they accepted the time order.

Rescinding this action with respect to WTMJ-TV and issuing a regular renewal for the period extending to next Feb. 1, FCC said it has received from Mr. Dammm an affidavit "which contains a full statement with respect to the order for broadcast time and advises the Commission that the Journal Co., [WTMJ-TV licensees] did not accept the offer made by NBC."

Ernest B. Loveman, vice president and general manager of Philip Co.'s WPTZ, meanwhile, sued a statement saying FCC's action putting WPTZ on temporary license was unrelated to "anything that has happened on WPTZ." His statement:

This change in our license result solely from a program scheduling policy established by the National Broadcasting Co., with which our station is affiliated and which has nothing whatever to do with anything that has happened on WPTZ. Nor do we know it will not change or affect in any way the right of the station to broadcast its schedule as it has been doing since June 28, 1948, when it was one of the first television stations on the air in U. S.

'Shopper' To Move

DAYTIME FEATURE, Your Televi

sion Shopper With Kathi Norton on WABD (TV) New York for more than a year, will move to WNBTV (TV) New York in early May, the latter station announced last week. The program will be telecast on WNBTV Mon.-Fri., an hour a day, as it has been on WABD. It will be offered to sponsors on a participating basis.

YEARBOOK Special

February 27, 1950
McConnell To Keynote Annual Conference

NBC President Joseph H. McConnell and John McLaughlin, advertising manager of Kraft Foods Corp., will deliver keynote addresses at the opening luncheon of the Chicago Television Council's second annual National Television Conference, Monday, March 6.

H. O'Brien, secretary-treasurer of United Paramount Theatres, New York. Future trends of films in video will be described by a representative from Jerry Fairbanks studio.

Comdr. Mortimer Loewi, director of the DuMont TV Network, will be featured speaker at the Wednesday luncheon.

Wednesday afternoon, Arthur Holland, owner of Malcolm-Howard Agency, Chicago, will moderate a panel on "Stations, Agencies and Production Companies Solve Programming Problems."

Among the 19 persons appearing on the panel will be Monte Fassnacht, production supervisor at WENR-TV Chicago; Norman Heyne, Ruthrauff & Ryan; Joseph Betzer, director of film planning, Sarris Inc.; Norman Lindquist, TV director, Atlas Film Corp.; Jerry Campbell, president, Campbell-Cahill Studio; Robert Knapp, Schwimmer & Scott; Don Cook, remote director, WGN-TV, all Chicago, and an executive from Campbell-Kraft Agency, Detroit. Others will be Carl Haverlin of Broadcast Music Inc. and Wesley I. Nunn, advertising manager, Standard Oil of Indiana.

KRAFT NAMED

Heads Raymer Co. TV

REYNOLD R. KRAFT, former sales manager of the NBC-TV network for the past five years and pioneer in formulating NBC-TV engineering production and sales techniques, has been appointed vice president of Paul H. Raymer Co., station representative. He will be in charge of the firm's TV department.

Mr. Kraft, who started with NBC in 1937, is credited with selling the first commercial TV show in 1941 and the first network video program in 1946. Mr. Kraft also has conducted surveys at various television stations for development, modernization and efficiency of operations.
COMMUNICATION MEASUREMENT Lab., New York engineering and development of the FCC's new television transmission system which it proposes for operation in the 560 megacycle frequency band on 8-mc channels.

Although admitting the system has not yet been produced, CML indicated its proposal is technically practical and would:

- Operate on continuous dot sequential basis, incorporating certain features of the existing basic color system, with each portion included with picture portion by use of time division transmission for the sound—eliminating need for separate audio transmitter.
- Provide simultaneous broadcasting with TV program on single channel, and through literally hundreds of auxiliary signals—such as music, X-RAY, facsimile, newpaper, poller, taxi, fire, point-to-point services etc.—because of high sampling rate permitted by CML?
- Provide fully competitive national color TV system in UHF, including inter-city TV facilities and problems.

CML revealed its proposal in a petition for consent to participate in FCC's color TV hearing. Through D. A. Griffin, its president, CML recommended RCA's compatible dot-sequential color system including VHF channels, "in order to provide an interrupted service to the millions of VHF set owners." CML specifically asked FCC to:

1. Select as the only compatible system in VHF channels.
2. Abandon the compatibility requirement for color TV on UHF.
3. Withdraw the proposed FCC allocation plan for July 11.
4. Proceed at once with examination of basic UHF allocation questions to determine maximum channel width that can be used in UHF, and that depends on total width of band and number of channels needed to maintain national television systems.
5. Request all interested parties in hearing to bring equipment for test UHF operation in that maximum bandwidth, so that comparison of performance of various systems practical in the "artificial limits of monochrome standard."

CML told the Commission that about March 1 it would file an abstract of pertinent information on its patent applications together with an authorization to inspect its patent bids on a confidential basis. The firm said the number and volume of these applications it kept from filing the patent applications as soon as possible. The "public disclosure of the several color television systems now being examined by the Commission has provided CML and other persons and organizations with the opportunity to investigate these systems," the firm said, "making it possible to create further developments in these systems and to develop new systems that will correct many of the faults which have been brought to light during the hearing.

"Our proposal," CML said, "envisions a new approach to the problem of compatibility. We believe this approach is in the public interest in that it will require a smaller investment by the public for color or black and white television service. It will provide a nationwide television service with picture, picture quality and greater freedom from interference than it is possible to obtain within the limitations of the present monochrome standards using a hybrid VHF-UHF nationwide allocation plan."

High Quality Necessary

CML emphasized that FCC and industry must insist on a high quality color system that will last for years and pointed out that none of the three principally proposed color systems can now produce a large, direct view picture from a single-gun kinescope by electronic means. CML advised delaying color until such reception can be produced commercially.

Outlining the major defects of the three systems and pointing out RCA's difficulty in obtaining perfect registration in its dot-sequential system, CML told FCC, "wished to announce at this time that we have discovered means whereby the position of the moving dot can be accurately maintained in the millions of discrete positions per second necessary to achieve accurate color registry."

CML further explained this achievement "will lead to greater interconnection in the design of cameras and receivers using dot sequential techniques. Single gun camera tubes and single gun direct view picture tubes in conjunction with strip phosphors in the case of the kinescope become entirely practical with precise registry control."

Overall costs of such a system would be greatly reduced, it was said. The CML brief criticized the RCA system's use of four fields with two of them dot interlaced, a situation forced by the bandwidth limitations of the old monochrome standard. This use of four fields requires reduction of the picture rate to 15 from the present standard of 30 pictures per second and thus causes jerky movement in action scenes, it was explained. This also limits the amount of intelligence that is transmitted within a given time interval which the picture, CML claimed.

"By the simple process of doubling the video bandwidth and sampling rate and transmitting the picture on a continuous dot sequential basis, these faults are eliminated at once," CML asserted. Claiming this to be the basis of its proposed system CML explained the present 525 line, two field line-interlaced standard is retained, producing 30 pictures per second. CML said twice as much intelligence results in this transmission and improves picture reproduction.

CML stressed savings in transmitter and receiver costs that would result with its system and explained that both RCA color (for VHF) and CML color (for UHF) could originate in the same studio camera.

In the CML use of the time multiplex system to transmit the sound portion of the TV program, it was explained that the sound would be transmitted during the "blacker than black intervals between the color elements" of the dot sequential visual transmission. Major advantage of this is the elimination of costly sound transmitter and antenna duplexing unit at the transmitter. In addition, receiver tuning would be made easier and requirement for frequency stability of the high frequency oscillator is greatly relaxed.

"Here at last is the opportunity of providing a single radio frequency receiver that will deliver an enormous program selection via a single radio frequency channel," the brief said. Only additional cost would be that for getting equipment and additional terminal equipment.

Peter Hand Signs

PETER HAND BREWERY Co., Chicago (Meinert Bruar beer), has bought one-third of the Chicago White Sox baseball games on WGN-TV for the 1950 season for $15,820 through BBDO, also Chicago. Package includes preproduction and follow spots to games, so that each of the three sponsors will have some portion of a daily telecast and a full game every third day.

CELEBRATING its second anniversary, WLWT (TV) Cincinnati had as guest stars Puppeteer Burr Tillstrom (wear a cap) and his famed troupe of Kukla, Fran and Ollie, who starred on the station's special hour of the FCC's 50th anniversary show early this month. Greeting them at the train are Robert Dunville (l), president of the Crosley Broadcasting Corp., and John Murphy, Crosley director of TV operations.

Color Triangle

(Continued from Telecasting 3)

CML has its own antennas with live programs. The problems used in the comparative tests, and the programming material, had been selected at meetings of industry and FCC representatives.

Chairman Wayne Coventer and Comrs. Hennoek, Webster, Sterling and Jones took an active part in the tests, along with members of the FCC staff, E. W. Chapin, chief of the FCC Laboratories Division, directed the technical aspects of the tests though he was unable to be present. V. K. Roberts, assistant chief, took charge of the program, aided by F. D. Crane engineer.

Difficulties Cited

Arthur S. Matthews, president of CTI, said his company had no apologies but explained his firm's had assumed line voltages would be constant and did not have voltage regulators. He requested another demonstration and pointed to the difficulty of "working out a suitcase" with basic laboratory equipment in San Francisco.

The Washington showings of CTI color did not compare with the Coast showings, he said. The best CTI set at Laurel blew a transformer and went out of action. "Predictions that we will work and crawl were completely disproved," Mr. Matthews said adding that CTI had no chance to rehearse prior to the demonstration.

Frank Stanton, CBS president, said the tests showed clearly the superiority of the CBS system in color fidelity, definition, as well as in black-and-white." He claimed superiority, also, in resistance to interference effects.

Mr. Stanton agreed CTI should have another chance if it does not unduly delay arrival of color as a public service. "Our system can accommodate and improve it," said he. "It will work better with a single tube than..."
PUBLIC LIKES COLOR

CBS Survey Shows 97% Favor It Over B&W

ALMOST unreserved public preference for color television over black-and-white highlighted findings in CBS' survey of reactions to its Washington Color Demonstration which ended last Tuesday. Public reactions and other information will be submitted to FCC.

According to first overall tabulations released by CBS last Tuesday, 97% of the people who saw CBS color TV thought it "much more enjoyable" and "somewhat better" than black-and-white; described the overall quality of pictures as "excellent," "very good," and "good," and rated clearness of detail in similar terms.

Percentages were based on 9,424 completed questionnaires turned in after the observers had last afternoon caught their first glimpse of color TV during public showings which began in Washington Jan. 1. Demonstrations were part of extensive color television operations which CBS began last Jan. 1. Test telecasts also were aired in New York and Philadelphia.

Breakdown of CBS survey tabulations: 84% thought color "much more enjoyable" and 13% "somewhat more enjoyable" than monochrome pictures. About 1% thought it worked the same. Nobody preferred black-and-white as more enjoyable, CBS said. On quality of picture, 42% thought it "very good," 41% "excellent," and 14% "good."

On clearness of detail, 44% marked "excellent" and 40% "very good," while 2% thought it "only fair." Ninety-four percent found the picture "just right" and a "little too bright"—accounting for 54 and 41% respectively. Only 4% considered the pictures "much too bright."

Additionally, 62% reported no "defects" to mar their enjoyment of the color pictures, while 34% answered "yes." With the latter, the interference was adjudged to be minor.

Tabulations did not go into details on defects, or age, sex or education of viewers as well as other questions. This information is now being processed, and will be included in complete data to be turned over to FCC.

EDUCATIONAL TV

Illinois U. Okays Funds

ACTION by the U. of Illinois' board of trustees has been taken to include television in its future plans. The board has approved the appropriation of funds for a new 400-ft. steel tower to replace one of two towers now used by its AM FACILITY, WILL Urbana-Champaign, Ill. It will have sufficient strength to support a TV antenna, according to the university.

As an arm of the broadcasting field, Prof. Wilbur Schramm, director, Institute for Research, said television will be a leader in extending teaching and demonstration in educational programming. Prof. Schramm added that audio-broadcasting is not to be discounted as "sound transmissions will continue to provide general program service."

Toward that end, the university also authorized funds for a new 10 kw FM transmitter for its WIUC (FM) (now 100,000 w) in view of increasing that service from local rundown to nighttime broadcasting. The university said WIUC will be a key for statewide network of commercial FM stations and also link programs on the campus with Chicago broadcasts.

P&G TV Tests

PROCTER & GAMBLE Productions has retained Television Film Research Institute to run a series of consumer jury tests on films being produced for its Fireside Theatre television series by Bing Crosby Enterprises, Hollywood. Purpose of the research is to study techniques currently being used in producing motion pictures for television. Consumer jury audiences will be selected from various radio shows.

Excise Tax
(Continued from Telecasting 12)
Industry and Television Broadcasters Agree
Mort Farr, of Mort Farr Inc., Phila-
delphia, for the TV dealer; Elmer R. Crane, of Mort Farr Inc., for the TV manufacturer; and David E. Kahn, chairman of the board, Thomastown Furniture Corp., Thomasville, N. C., for the TV equipment distributor. Each of these employers was represented by James B. Carey, secretary treasurer, CIO, CWA, and Lawson Wimbler, assistant to the international presi-
dent, IBEW-AFL.

The NAB was represented by G. Emerson Wilson, Jr., director, RMAs legislative coor-
dinator. RMA's legislative coor-
dinator was Joseph E. Casey, an at-
torney and former Massachusetts
Congressman.

Viewing the proposed tax as an
"added burden on an infant
industry," Mr. Markham pointed to a loss of $14,900,000 in 1948 to televi-
sion broadcasters. He told the Com-
mittee:

"When the first excise tax was levied on radio receivers . . . there were over 700 stations then on the air . . . 17 million sets then in use. Radio now has been in service 55 years after its introduction—a go-
ing business. . . . However much it
may have retarded the speedy de-
velopment of the radio broadcast-
ing art, we feel it was not im-
posed at so crucial a moment in
the development of this older form
of air-borne communication."

As did other witnesses, Mr. Markham emphasized the war and the FCC "freeze," as well as the immense cost of broadcasting equipment to operators and TV re-
cipients. Contributing factors re-
tarding "rapid development of the video
art in this country." He also
noted that advertising revenue for
improvement and expansion of TV
would be forthcoming only in pro-
portion to the size of a potential
audience. Any tax imposed, he
added, would serve to slow up the
sale of receivers and consequently put a crimp on the industry's de-
velopment.

Against Tax
Six major arguments against im-
position of the tax were advanced by Mr. Smith of Philco:
(1) It is inequitable and would
place a regressive burden on the
industry; (2) television, a new indu-
stry, would be jeopardized; (3) it
would retard TV's public service;
(4) it would hurt manufacturers,
the public, the broadcasters, studio work-
ners, suppliers, distributors and deal-
ers, and (6) its application to radio
and TV was unfair.

Including a map with his testi-
mony showing areas which cur-
rently are served by television and
those that will be served by the FCC, Mr. Smith outlined growth of the industry in the post-war period. The industry, he said, despite in-
creasing labor costs, has made great strides. Lower prices on receivers with the result that "today's prices are little less than one-half" what they were in 1947.

Mr. Carey told the committee that the CIO workers employed in
the industry have considerable
"stake" in the situation. The union's position has been general op-
position to all wartime excess taxes and it feels a proposed tax on TV sets "would be objectionable from the point of view of sound economics."

In fact, he said, "the excise tax
should be removed from radio and
not placed on TV."

With the annual production of a 4 million set production mark this year means the employment of many workers
—an excise levy would lift prices and thus slow mass production hopes for the industry. He said he
was surprised the administration could not find a better basis to raise revenues than to impose a tax
on consumers.

Expansion Handicap
The IBEW's Wimbler also point-
outed production hopes of the
industry. He said an excise tax
would handicap such expansion, adding to that already imposed by the "freeze" and by equipment costs. Still lower prices to the consumer were forecast by Mr. Wimbler. He said establishment of sales tax sets can continue and production is planned in mass quantities.

Any tax would fall hardest on the middle and low income groups and contribute to the problem of the consumer, Mr. Durst declared. He said the loss of revenue to the government, "because of reduced personal
and corporate income taxes and reduced payroll taxes," would be greater than the estimate of additional
revenue to be derived from a levy. The small manufacturers' spokes-
man saw higher prices for sets and few
ser revenues should the tax be im-
posed.

Mr. Wailes, speaking for TBA, plen-
ded that "artificial restrictions
placed on the expansion of
the American television audi-
ence" as the very life of television
is dependent upon the number of
receivers in the homes of American
families. He pointed out that "circu-
lation" of television (number of sets in a given coverage area) is not large enough to justify rates at which the station can realize suf-

ficient revenues to defray its costs
of operation. The tax, he said, "as far as the television broadcaster is concerned," means "less 'circula-
tion', fewer advertisers using TV as a sales medium and less turnover of goods and less employment in production."

Mr. Hines added to the telecast-
ers' case by showing the small sta-
tions and old sets and urged the committee not to handi-
cap the infant's growth by wielding the 10% tax on receiver sales. . . . (The tax) would be in the national interest, he added, that would leave this child stunted and perhaps crippled for life," he said.

Another North Carolinian, David E. Kahn, cabinet maker, estimated the proposed tax would curtail the industry's market from 20 to 30% in TV, he said, has meant a stimu-
lant to the carpeting, upholster-
ery and furniture business.

Admiral Corp.'s spokesman M. Graver, said "the nature of the manufacturers' excise tax is such that it is pyramided through the use of TV receivers. The increase in cost to the consumer is much greater than the 10% tax . . . ."

National defense application bid
the TV dealer's point. Rapid
turnover is necessary, he said, to
the dealer to maintain his business and increase its position in the
market. "Any tax," he declared,
"that would slow up mass buying
would slow down my turnover, and
could conceivably make it impos-
sible for the man any where in
the country to stay in the television busi-
ness. . . . Television is not just for
the rich. Today the real volume
TV sales comes from the mass mar-
kets—those earning as little as
$4,000 a year . . . ." He urged his com-
mittee: . . . "Just look over those
toproofs along the railroads or the
street corner."

Before the hearing got under way, widespread publicity to the industry's protest was given by greater Washington TV and distrib-
utors. They purchase-
ads in local papers applauding the "members of Congress and the
public" to give heed to the propose
"extra tax burden" on the industry. They also tried their persuasive power.

"This proposed new excise tax of
the tax might well make
revenue than the government now
is getting from the TV industry."

The committee's reaction before
the House committee was delivered is about an hour and a half with in-
traductions of the witnesses and the
industry's reasons for appearance
an aner. They were answered fully by the Mr. Carey, in clerkish
work precision, witnesses took the
stand and presented their argu-
ments.

Questioning by committee mem-
bers was brief. Reference was
made by one Congressmen to TV's
effect on sports events' gate re-
cepts and upon movie attendance. There were no further full by Chief
Smith who pointed out these ef-
fects were felt "only in certain iso-
lated cases."

Other witnesses showed the amusement excise tax of the proposed tax would be twofold: The movie tax make the "markup" negligible in dollar
and cents as compared to TV re-
ciever prices; the theatre industry
grew up many years ago.

Film Report

DUDLEY PICTURES CORP., Los Angeles, has completed first two of series of 13 quarter-hour Class-
room Quiz television films to be re-
leased by NBC-TV. Carl Dudley, head of firm, will go to Hawaii in April and following that to se-
veral countries around the world to shoo additional footage for The United States Countries scheduled for film shoot-
ing include Greece, Italy, Switzer-
land, Israel, Egypt and Iran.

Film Graphics Inc., New York, has contracted with Ruthrauff & Ryan, Chicago, to produce six one-
minute animated cartoons for Ken-
L-Ration (dog food), division of Quaker Oats Co. Series is being done in color, for use on color TV.

Spots, to be released in about two
months, are being keyed by Sam Cohane, New Yorker cartoonist. . . .

Telofilm Inc., Hollywood, quarter-hour film for Pontiac ad-
vertising Catalina model. Agency: Taggart & Young, Beverly Hills, Calif. . . .

Kling Studios, Chicago, produc-
ing five one-minute TV spots for Reddi-Wip, St. Louis. Live-action series, featuring stirring and jingles, expected to be released to national distributors in March . . .

Theodore Chang, former artist
with Walt Disney Studios, Holly-
wood, has joined animation depart-
ment of Pictosound Productions, St. Louis. . . . Over 20,000 feet of film have been shot during last four months by Erskine Johnson and Cor Watson for their Hollywood Reel on KECA-TV Hollywood.

CBS has purchased TV rights to
IMPRO Inc.'s (Hollywood) "Cases of Eddie Drake," half-hour film series, set for release to 150 nationally paid firm $97,000 to produce series of 13 films, with arrange-
ment to share TV rights with film company. Present package includes new films as firm unable to com-
plete remaining four because of commitments of Pat Morrison, feminine lead, with New York show "Kiss Me Kate." CBS will pay IMPRO $60,000 for all TV
rights with latter retaining original $97,000 outlay and relieved of responsibility of completing last four films. Film firm retains the-
other foreign distribution rights.

Alexander Film Co., Colorado
Springs, has completed series of TV films for Gruen Watch Co., Cin-
ematograph, Chicago. Series consists of 9 films, and will be mailed available to
9,000 dealers throughout country.

Film has just completed year of full scale television film production. The company also has made films for such natio-
ional manufacturers as Frigidaire
Division of General Motors, Hudson
Motor Car Co., Mullins Manu-
facturing Corp., Hotpoint Inc. and
others.

Broadcasting-Telecasting

Page 69 • Broadcasting February 27, 1950
With more and still more telecasters it's Du Mont TV camera equipment because of outstanding DEPENDABILITY

Many TV stations either on the air or under construction, are Du Mont-equipped throughout. That means the Du Mont Type TA-124-B Image Orthicon Chain for studio and remote pickups, alike.

But of even greater significance is the growing use of Du Mont cameras and auxiliary equipment by TV stations originally using other makes of equipment; by store television demonstrations; by wired television installations; by movie producers experimenting with television production possibilities; by TV training schools; by government agencies both here and abroad.

The Du Mont advantages are many: Split-second action through quick set-up; finger-tip controls; superlative image pickup with precise electronic viewfinder checkup; accessibility for time-saving inspection and immediate maintenance; handy matched units, jiffy-connected, for all required power, synchronizing, amplifying and monitoring functions, plus the latest camera effects.

But the outstanding characteristic of this popular Du Mont Type TA-124-B Image Orthicon Chain is DEPENDABILITY. That, in the final analysis, is the all-important consideration. For "The show must go on," regardless.

Consult us on your TV plans and requirements. Literature on request.
Help Wanted

Manager

North Carolina fulltime 250 watt FM station seeks experienced manager. Opportunity to own station when ready. Call 103E, BROADCASTING.

Sales manager-salesman. 25-35 years old with three years experience for 250 watt Michigan network station. Must own car, personal interview at expense, salary good, commission. Write full story first letter. Box 12E, BROADCASTING.

Sales

Wanted for 5 kw Mutual out- in midwest. A real producer can act manly with liberal commission set up. Do not apply unless you can prove you now have heavy weekly billings and that you know how to produce contacts for yourself. Reply. Box 242E, BROADCASTING.

Salesman, high caliber, aggressive young man who knows radio. Eastern network affiliation, nice city standard attractive to family man thinking of future. Preference given to college, college senior. Send info to treatment, salary, State full information, sales experience references. Box 355E, BROADCASTING.

A leading station in one of the larger markets in the country is immediately opening for a top morning news, weather, sports man. Must be experienced, in particular to Box 309E, BROADCASTING.

Announcer

Newspaper—Distinctive voice, plus excellent educational, newspaper, radio experience. Appl. only to: Disc-engineer—newscaster network affiliation experienced. Reply. Box 244E, BROADCASTING.

Experienced radio time salesman, disc jockey, program director. Box 246E, BROADCASTING.

Announcers

Sports announcer—Four years of play-by-play work. Very well-known in her territory. Reply. Box 188E, BROADCASTING.

THEREIN is a lucky number," is heading on second bulletin in series of promotion pieces being sent to trade by WKY Oklahoma City. Letter reproduced in bulletin is from Local Federal Savings and Loan Assn., a WKY advertiser for 18 years. Letter lauds station’s service to sponsor and concludes, “The fact that we have just renewed our contract with you for another year is proof of the confidence we place in WKY and the belief we have in consistent advertising.” Facts concerning station’s news coverage conclude bulletin.

Beauties and Balloons

BATHING beauties stood on downtown street in Washington Feb. 20 holding 100 balloons which they surrendered to the icy blasts. Four balloons contained certificates good for $13.30, representing dial position (1300 kc) of WEAM Arlington, Va. Beauties were part of promotion used by WEAM Arlington, Va., to announce its new MBS affiliate for Washington, D. C. area.

Card Distribution

TO PROMOTE Sports for All which it sponsors on DuMont TV Network for Kentucky Club pipe tobacco, Mail Pouch Tobacco Co. is distributing showcards to all TV-equipped bars in New York metropolitan area. Bartenders, given small tins of product, give cards good display, company reports.

That’s No Lie!

LATEST in promotion series from KYW Philadelphia is bulletin featuring picture of young George Washington, axe in hand, standing beside toppling cherry tree. In branches of tree is written, “I cannot tell a lie...” and station continues, ‘Truthfulness with others is a virtue...” have you faced this fact?” Inclusion of KYW in sales campaigns in Philadelphia area is pointed out to be essential.

Market Picture

ADVERTISERS and agencies are being sent copies of promotional book¬
tled titled “Six Billion Dollar Picture” by WQAR Cleveland. Booklet follows film format and material used in it is taken from color film presentation which WQAR has been showing since November. Information on Cleveland and Northeastern Ohio market, results of numerous studies and surveys, and radio and WQAR’s place in successful sales campaigns are included.

Flying Discs

AS PART of promotion for its move to 1260 kc, WWDC Washington sent airplane over city Monday (Feb. 26) when move became effective. Plane dropped 10,000 discs over capital, any of which were redeemable at station for $12.60. Additional promotions for frequency move were movie trailers prepared for 16 local theaters, car cards, transit radio spots and posters in sponsor establishments and government buildings.

Roundout promotion for its switch to 1260 kc, WWDC Wash¬
ington used “sandwich” girls carrying portable radios. Cards worn by girls read, “I’m listening to WWDC now 1260 on your dial.”

Square Dancing

FACILITIES of ballroom in nearby Clear Lake, Iowa, were made available to KGLO Mason City, Iowa, for its square dance. Dance was invitation affair used to promote KGLO among members of Rural Young People’s clubs in that area. Representatives from 11 counties in Minnesota as well as Iowa attended. Caller for evening was KGLO Farm Director Chet Randol¬ph, and contests to determine best “square” and best couple were conducted.

Dog Tale

WOEBOGONE dog, hanging by elong¬
ted tail is featured on cover of promotion folder sent to trade by WIOU Kokomo, Ind. Written beside dog is, “No dogs in Kokomo—and hereby hangs a tale.” Inside of beige and brown folder explains that “Dogs” are “programs and announce availability that short-

change advertisers who are denied the choice franchise by prior sale.” Data concerning WIOU’s percentage of total listener pull in its area and its cost-per-thousand are illustrated with graphs. Back of folder claims that “IOU’s” distributed to radio industry on occasion of station’s taking the air in 1948 have been redeemed. “IOU’s” were pledges of high stand¬

dards of operation.

Kit Reminds

FULLER BRUSH cosmetic kit sent to press by Bureau of Industrial Serv¬
ice of Young & Rubicam, New York, to remind them that Lucille Ball in My Favorite Husband was moving to new day and new time (Sunday 6 p.m.) on CBS. Promotion ties in with the fact that Miss Ball will star in forth¬
coming Columbia picture The Fuller Brush Girl. Radio program is spon¬
sored by General Foods, New York.

Personnel

DAVE MOORE promoted from assistant to publicity director at WBBM Chicago. He succeeds DON KELLEY.

LEONARD WEINLES, former assistant editor of Sunday Men’s Page on WJZ New York, joins WSTC-AM-FM Stamford, Conn., as press representa¬

tive.

ROBERT BEST joins WASH (FM) Washington, promotion and publicity department.

Mrs. DOROTHY GRACE, with WW1 New Orleans for past several years in various capacities, appointed to promotion and merchandising department of station.

TOM ALVAY, formerly sales promo¬
tion manager of KOMA Oklahoma City, joins Glenn Agency, that city, as sales promotion manager.

CHARLES L. RUMILL & Co., Roch¬

ter, N. Y., appointed to handle adver¬
sition of WHAM-AM-TV that city.

JOHN KEYS, assistant manager of NBC Chicago press division, initiated into Headline Club, Chicago profes¬

sional chapter of Sigma Delta Chi,

Biow Speaks

MILTON H. BIOW, president Biow Co., New York, addressed Advertising Club of Washington last Tuesday in connection with observance of American Broth¬
hood Week. Mr. Biow has been active in promoting the brotherhood movement. Among club gue¬
tes were Maurice J. Tobin, Secretary of Labor, and representatives of religious organizations.

DEFENDS RADIO

Lancaster Hits Rep. Go

REP. ALBERT GORE (D-Tenn.) last week was on the receiving end of some sharp criticism from radio o¬
sicals and legislators who try to regulate radio programming. A minister of the criticism was H. Lancaster, president of WJQ Johnson City, Tenn., who objected to comments by Rep. Gore during House appropriations subcom¬
tee hearings on the FCC’s R budget [Broadcasting, Feb. 20].

“Putrid, awful giveaway show and hired laughing participants on comedy shows were criticized Rep. Gore. Mr. Lancaster told him as follows:

“Perhaps you don’t know it but a few of the people in Tennessee enjoy those shows. Some of them enjoy hillbilly shows and some of them enjoy opera. You as just one list... should not try to program shows without first getting opinion of the people of Tennessee.

“As you know, the BBC is owned by the government and run by government in England and from what I hear their programming from standpoint of education and enj¬
ment is far inferior to ours. Pile up the try and get not in the is shape England is. If you Congr¬
men would pay a little more atten¬
tion to the economy of our country it would help the situation throw out the United States far more. You know, too, you don’t have to listen to any show that is aired by any radio in the United States easily to cut it off.”

EXAMINATIONS

Mr. Pat: First of all, we’re in Charleston, West Virginia, burned over everybody 1 1 2 4 3 5 6 7 8 9 0.

Mr. Pat: That’s your four big boys at WCHS, right? Yes, yes, yes. Yes, they’ve seen it that big boys at WCHS are quite a talent right now. They’re not just walking in an ordinary manner at the station as the big B S cable guys down here, no sir, not just sitting in a West Virginia, cause they think they’re a WCHS when they think they’re radio. Other cities, too. It’s a whole different world out there.

Frank A. Wellman

Frank A. WELLMAN, 51, a pioneer in radio and the originator of the Lucky Dollar Club a number of years ago on WCAM Camp- bell, a former broadcast attack on Feb. 17 in the Bryn Mawr Hospi-
tal, Philadelphia. Mr. Wellman, who maintained an advertising agency in Philadelphia since 1927, is survived by his wife, a son and a daughter.

accomplishments of the potential of governmental and non-governmental agencies to make and present to the president evaluations and recommendations in the national interest concerning policies which would have the effect of prejudicing the outcome of a presidential election.

Mr. Laffont in 1927 to become a member of the original Federal Radio Commission at the time it was formed. In 1934 he joined Arde Bulova, chairman of the board of Bulova Watch Co., in setting up a group of successful stations on the Atlantic Coast.

Recently Messrs. Bulova and Laffont have disposed of all their radio interests, the last sale being that of WNEW New York.

Upcoming

Feb. 27: Mid-year meeting, House of Delegates, American Bar Assn., Chicago.
March 14: Western Radio-Television Conference, Seattle.
March 21: Radio Show and Television Award Dinner, New York.
March 30-11: Alabama Broadcasters Association meeting, Auburn Erskin Hotel, Huntsville, Ala.

Voice of Democracy (Continued from page 21)

endorsement of the Office of Education.

Mr. Cooper said that so long as idealism exists and so long as there are men of light and courage, the voice of democracy, an ancient art of living, will be forever new. He spoke on the eve of his departure on a 24-day world tour in which he will visit 12 nations participating in a number of international conferences.

From 1940 to 1945 Dr. Stewart served as executive secretary of the Naval Defense Radio Conference, and, for the period 1941-45, of Office of Scientific Research and Development and the Commission on Medical Research. He became deputy director of the Office of Scientific Research and Development in 1946, before taking the U. of West Virginia presidency in 1917.

President Truman's letter to Dr. Stewart quoted communications services as representing "a vital resource in our modern society."
At Deadline...

COLOR HEARING TO COVER PATENT APPLICATIONS

FCC SERVED NOTICE Friday that information on pending television patent applications of the 215 companies making application will be used in public session of TV proceeding, under subpoena if necessary (see hearing story page 53).

This was disclosed in FCC order which limited type of TV patent application data required of participants. Several participants had left the Commission's laboratories announced last September [TELECASTING, Sept. 5, 1949].

Before using any TV patent application data already filed, FCC said, Commission will notify participant involved and give him opportunity to withdraw it. If material is withdrawn, FCC will issue subpoena for details on it and make exhibit for hearing record. March 15 set as deadline for filing such information or withdrawing such information already filed.

Earlier proposal called for data on pending applications for patents on "inventions relating to television transmitters or receivers for either monochrome or color transmissions." Revised call is for data on applications covering inventions directly connected to acceptance of Commission standards proposed by the Commission or parties to this proceeding can be based." Change makes order for application data conform more closely with early order for information on patents already issued.

To safeguard information, FCC stipulated that it shall be kept in separate file by acting chief engineer; not examined before March 15; withheld from examination by non-FCC personnel, with access to it to be restricted when TV proceeding is completed. Any copies made for FCC use during hearings will then be destroyed.

MERGER, TWO TRANSFERS RECEIVE FCC APPROVAL

MERGER of WGLN Glens Falls, N. Y., into WWSC, same city, approved by FCC Friday along with applications for WIRI-FM and WKOP Bridgeport, N. J., and WCBS Bristol, Va. Earlier FCC actions are in FCC Roundup on page 75. Details of transfers:

WWSC, Glens Falls, N. Y.—Granted transfer of WGLN from R. A. Fendler to Charles J. Martin, for $50,000. Martin, owner of WWSC, will retain control of the station.

Wisconsin City, Wis.—Granted transfer of control of WASH, Burlington, from Martin Karg, 51% owner, and Alexander P. Robertson, 49% owner, to Glens Falls Post Co. Latter owns WGLN (1250 kc, 100 w) there which will be dropped, Messrs. Karg and Robertson will sell one-half of their holdings to Post Co. for $10,000 which is applied to indebtedness of Great Northern Post Co. also owns Great Northern (340,000, matching total loans to firm by Messrs. Karg and Robertson. Great Northern buys physical plant of WGLN for $20,000. WASH assigned 250 w on 1240 kc and holds permit for 1 kw, 500 kw.

WIRI-AM-FM Bridgeport, N. J.—Granted transfer of control of WIRI-FM from Great Northern Broadcasting Co., Inc., headed by Elmer H. Wenz, sole owner, for $50,000. WIRI-AM is assigned 250 w on 1420 kc.

WCBS Bristol, Va.—Granted involuntary relinquishment of control by James Mahoney, desiring to sell station to Horace H. and Charles M. Gore. Latter acquires Mr. Mahoney's 80% share of controlling interest, retaining 20% control through proxy voting of 20 sh. for Majority X-15 and 1 sh. for Majority X-13. WCBS assigned 10 kw day on 690 kc.

JAMESTOWN SWITCH

INITIAL DECISION reported by FCC Friday to grant WJOC Jamestown, N. Y., switch from 1 kw on 1470 kc to 250 w full time on 1340 kc. Examiner Leo Resnick found WJOC proposal would interfere only slightly with CHOX Woodstock, Canada, but in area where it already suffers interference.

WLAP GETS FINAL GRANT FOR REGIONAL FACILITY

NEW FINAL decision issued by FCC Friday to grant WLAP Lexington, Ky., switch from 20 kw day, 15 kw night on 550 kc to 1 kw, 500 kw on 630 kc directional second and deny competitive bids of Queen City Bestg, Inc. and WCRO, both Cincinnati, for same assignment. Comm, Rachel P. Jones, discounting, favored WLAP on grounds WLAP authorization violates FCC standards.

Commission majority ruled Queen City bid engineeringwise insufficient and favored WLAP over WCPO on Communications Act's Sec. 307 (b) equitable distribution clause despite fact WLAP proposal not fully within standards. FCC further noted WLAP proposal would protect CHMQ Santa Clara, Cuba, Goar Mestre outlet, under domestic 50% exclusion rule while WCPO would not. Commission noted WCPO would not cause interference within CHMQ's 2.5 mv/p protected night contour but "we feel that as a matter of international agreement between the United States and Cuba, and in the interest of this type, to recognize that CHMQ is a special Class II station and to give preference to the applicant providing the highest degree of protection to such a station."

FOUR NEW AM OUTLETS AUTHORIZED BY FCC

FOUR NEW AM stations granted by FCC Friday and improved facilities for seven existing stations approved. New station grants:

Galipolis, Ohio—390 kc, 250 w, daytime, Ohio Valley; 250 w, nighttime. WOGB, owned by Frank Meeker, 51%; John J. Fiala, 49%.

KTBK, Topeka, Kansas—390 kc, 250 w, daytime, Kansas; 250 w, nighttime. KUOM, owned by Kansas University.

KUGN, Kennewick, Wash.—1500 kc, 5 kw, daytime, Washington; 5 kw, nighttime. KUGC, owned by Westinghouse Electric.

KPGN, Pocatello, Idaho—1150 kc, 5 kw, daytime, Idaho; 5 kw, nighttime. Pocahontas Broadcast Co., headed by Howard R. King, chief engineer WBRB Welch.

Improved facilities granted following:

KBRC Mt. Vernon, Wash., change from 500 kw day to 500 kw full time on 1430 kc, directional night. KYOL, Lafayette, La., switch from 250 w on 1500 kc to 1 kw on 1530 kc, directional night. KUCN, Eugene, Oregon—Switch from 2 kw full time on 1590 kc to 5 kw, directional night. WKMI, Dearborn, Mich., change from 250 w, full time on 1590 kc, directional night, 1 kw, directional day, Kai Fox, Inc., to 1 kw, directional night, 5 kw, directional day, with 10 kw, full time on 1430 kc. WAMR, Chicago, Ill., change from 2 kw day, 1 kw night to 5 kw full time on 610 kc directional. WJSL, Atlanta, Ga., switch from 2 kw full time on 1450 kc, directional night, 5 kw, directional day, to 2 kw full time on 1450 kc, directional night, 5 kw, directional day.

FOUR MARCONI AWARDS

VETERAN WIRELESS OPERATORS Assn. Saturday night awarded four Marconi Memorial Awards at Hotel Astor in New York. Recipients were Comdr. E. M. Webster, FCC Commissioner, who received medal of honor; George C. Lohnes, president; R. W. Kemmerer, vice president; and veteran member of association, who was given award of service. Wireless pioneer medals given Hugo Gernsback, editor and publisher of Radio Electronics, and E. N. Pickreller, technical editor, 100 and 50 kn B. C. Communications.

PIB NETWORK BILLINGS

TOTAL GROSS billings of four television networks in 1949 were $12,304,512, Publishers Information Bureau reported Friday. By network and program: WJOC, $13,600; WJSO, $3,446,828; DuMont, $955,526; NBC, $6,500.

Billings for month of December, 1949, were $9,211,166, divided among networks as follows: ABC, $215,357; CBS, $656,713; DuMont, $106,750; NBC, $1,056,566.

NAB BOARD ELECTIONS DRAWING HEAVY VOTE

HEAVY balloting for 14 posts on NAB board indicated Friday as Saturday midnight deadline approached. Membership voting on directors in Districts 2, 4, 8 and 14 and directors-at-large for large, medium, and small, FM and TV stations. Results of balloting to be announced tomorrow (Tuesday).

Automatically elected to board for lack of opposition were Harold Wheelahan, WNTZ, and I. J. Williams, WMT, Cedar Rapids, Ia., District 10; Todd, KAKE Wichita, Kan., District Calvin J. Smith, KFAC Los Angeles, District 12, and a TV directors-at-large will be incumbents, Robert D. Swezy, WDSU-TV Orleans, and Eugene S. Thomas, WOIC (Washington, who are unopposed for two terms.

WMCA—NEW YORK SOLD TO JOSELOFF GROUP

PURCHASE of WMCA-FM New York $7,500 by new corporation named by Joseph Lohnes, president, and Israel S. Lowe, treasurer. They are: Mr. Joseloff, Barbara Joseloff, 25% of Storecast Corp.; Paul F. Harron, Joseph Lohnes, and Israel S. Lowe, each own 14½% of corporation. Headquarters: Ben Gordon, 25% owner of Store Corp. Manager: Howard Goar. Directors: Douglas Lohnes,帐ia; Patrick J. McCann, identified with Store Broadcast Inc. in Philadelphia and National Wireless, will handle the Washington and Philadelphia offices, among other things.

Mr. Lang is first vice president; Mr. H. secretaries-treasurer; John Gordon, Kaufmann, CPA, and a director of Store Broadcast Inc. and George Hennessy, identified with Storecast Corp., are second and third vice presidents respectively.

Mr. Straus at one time planned to close WJOC, New York, but has continued operations pending completion of negotiations. Application for FCC approval being prepared by storecast Corp. of New York, stemming from Dow, Lohnes & Associates.

FREY APPOINTED

WPX POST TO DUNCAN

WALTER DUNCAN, for past two years chief sales of charge of sales at WSNY nctady, N. Y., appointed sales manager WPX (TV) New York. He succeeds Donahue, acting sales manager, who res last week.
Kansas City's rectangular Primary Trade Area, as shown on the maps, has been established by the Chamber of Commerce of Kansas City. The natural flow of trade to and from this area is dependent on Kansas City, the Trade capital. As a result, The KMBC-KFRM team has been custom-built to provide complete, effective and economical radio coverage of the Primary Trade area, without waste circulation! That's why The KMBC-KFRM Team is your best buy in the Heart of America! Contact KMBC-KFRM or any Free & Peters 'Colonel' for full details.

Coming March 20: Television in the WHAS Tradition

REPRESENTED NATIONALLY BY EDWARD PETRY & CO. • PRIMARY AFFILIATE CBS TELEVISION NETWORK
ASSOCIATED WITH THE COURIER-JOURNAL & LOUISVILLE TIMES
Strong regional network coverage is a necessity in order to reach the full sales potential in New England's many good markets.

The Yankee Network is ready made for this purpose. It provides direct access to 27 top markets in six states, the most complete New England radio coverage available.

At the same time Yankee offers you the greatest flexibility in spot coverage. You can tailor your radio advertising to fit present distribution, and open new territory city by city.

Every one of Yankee's home-town stations has the local impact that only a local station can give — complete neighborhood penetration throughout the entire trading zone, with complete dealer and consumer acceptance.

You can command attention for your product everywhere in New England, reaching more people more often, with Yankee's 27 home-town stations.

Acceptance is THE YANKEE NETWORK'S Foundation

THE YANKEE NETWORK, INC.

Member of the Mutual Broadcasting System
WHILE IT'S PREMATURE to speculate on prospective new general manager of NAB, names are being bandied about. Foremost is William B. Ryan, vice president and general manager of KFI Los Angeles, elected only last week to new term on NAB Board (story, page 20). Committee to advise President Miller was to meet last week-end in Chicago at call of Chairman Clair R. McCollough, WGAL Lancaster, Pa.

REPORTS WHISPERED last week that FCC finally had broken 3-3 tie on Drew Pearson-Allen-Bob Allen application for facilities of Hearst-owned WBAL Baltimore [CLOSED CIRCUIT, Jan. 90] were denied by Commissioner reported to have switched vote in favor of Pearson-Allen. Lineup was, Coy, Walker and Webster for Pearson-Allen versus Hyde, Sterling and Hennock for WBAL renewal. Comr. Jones, whose appointment to FCC was unsuccessfully attacked by Mr. Pearson, abstained from voting. Fact that FCC has renewed WBAL-TV license believed to augur in favor of renewal of AM too.

ON RETURN from month's Arizona vacation, expected C. E. Hooper will announce reorganization of his firm with Fred H. Konkel, present executive vice president and treasurer, and W. Ward Dorrell, vice president, participating in ownership.

WTAR-TV, which gets under way April 2 in Norfolk, Va., has primary affiliation with its regular NBC network but last week arranged for secondary affiliation with CBS-TV. Transaction was worked out by Campbell, A. S. North and A. B. Schuett, president and general manager, with William D. Schutt, CBS director of station relations.

ANOTHER BASEBALL network sprouting in Washington, D. C., over weekend with WWDC there feeding its Senators games for Chesterfields to some 12 cities in Maryland, Virginia and West Virginia, according to tentative telephone plans. Final details this week, with possibility of expansion to other southern states. Chesterfields would be partial sponsor in cities outside Capital with remaining time open on co-op basis. Cigarette agency is Cunningham & Walsh, New York.

DISCLOSURE of FCC letter to House Radio Subcommitte Chairman Sadowski (see page 25, editorial page 36) which would torpedo McGarland Bill and allegedly evade administrative Procedure Act, expected to result in resolution to investigate FCC and directed at influence of its lawyers upon FCC actions.

ZENITH'S industrial film on Phonevision, Eugene F. McDonald Jr.'s project for dollar-in (Continued on page 90)
"Results" in Texas is spelled K-R-L-D.

This is why KRLD is your best buy!

More than half of the radio homes in 201 cities and towns in the Great Southwest Market are tuned to KRLD at least once a week or more.

With average population of 8,726.

Exclusive CBS station for Dallas and Fort Worth.

at the top of the top
Radio’s top attraction is news.

Facts show it again and again.

News has led all other kinds of programs in Kansas, for instance, for five years... Columbia and Chicago University analysts report news ahead country-wide... Broadcasting’s yearbook reveals that news out-averaged all sponsored network rivals in 1948 and 1949 tests — even in the peak evening hours.

At the top of this top type of program stands United Press news. More stations take it than any other.

Because U.P. delivers more: complete world and national news... more regional and state and local news... expert sports coverage... sparkling news features... an average in all of 40 regular news and news-feature programs a day... sponsored by more than 200 different businesses.

Your nearest United Press bureau has further information ready for you. Just write, wire or phone.
First Take a GUESS — then Look at the FACTS!

KXEL
HAS CHANGED LISTENING HABITS IN IOWA

- Conlan’s on-the-spot study—NOT A MEMORY TEST—proves the bulk of listeners in 22 Iowa Counties prefer KXEL—prefer its fine programs—its warm personalities—its strong signal that assures easy, relaxed listening. Sales of smart KXEL advertisers show that KXEL-endorsed products out-sell in this rich Iowa market.

No other radio station delivers as many listeners in this great rural area for SO FEW DOLLARS.

The truth that hurts is brought out in Iowa’s largest, most complete, most recent listener study...that without KXEL you pay a high price for “listeners” who aren’t there! Ask your Avery-Knodel man to see the NEW CONLAN.

Radio Time Buyers—aren’t fooled by a SIMPLE SIMON MEMORY TEST! Get the Simon-pure facts on Listening Habits in Iowa and you too will buy KXEL.

*CP
Feature of the Week

Mr. Wihebrink (2nd r) is congratulated on his appointment by (l to r) Polly Pickens, WSAI correspondent for greater Cincinnati grocery trade journals; Robert M. Sampson, WSAI general manager, and Harold Hand, director of merchandising.

* * *

He is Andrew Wihebrink, who has helped swell to capacity classes in the WSAI school which was started a little over a year ago as part of the station's merchandising.

(Continued on page 18)

On All Accounts

ROBERT J. DAVIS Jr. may have cause to doubt his 25-year education in Portuguese when his translation of Brazilian newspaper headlines told him that Harry Truman was ahead in the 1948 United States presidential election, but he has no doubt when it comes to reading contracts as time and space buyer for Davis & Co., Los Angeles.

It was in Recife, Brazil, sailing back from Argentina to the U.S., that Bob had occasion to test his faltering Brazilian. Since then, he has replaced foreign newspaper headline reading for the most part with efforts involving space and time.

The Davis in both Bob's name and that of the agency is of no coincidence. Robert J. Davis Sr., owner and chief account executive of Davis & Co., has been an agency executive for the past 20 years.

As timebuyer, Bob Jr. handles buying for American Fruit Growers, Los Angeles (Blue Goose Products), currently carrying participations on women's service programs on over 20 stations in major markets across the country; Scudder Food Products Inc., Monterey Park, Calif. (Laura Scudder's Potato Chips, Peanut Butter and Mayonnaise), who now has weekly participations on two Los Angeles television stations, KECA-TV and KLAC-TV, and spots on KNX same city, and associated firm Bluebird Potato Chips, Oakland, Calif., currently carrying five-minute weekly spots on 16 Northern California stations; Wilson & Co., Los Angeles (meat packer), who has a weekly participation on KECA-TV and plans further radio campaigns for Ideal Dog Food.

Strictly a West Coast man, Bob was born April 11, 1928, while the family was living in San Francisco. Shortly thereafter they went south to Los Angeles where Bob received his early education. In 1942 he entered the U. of Southern California, taking up advertising and marketing for the next three years. While there he joined the Navy V-12 program. This sheer act of joining the Navy seems to have had its effect on Bob, for not too many months after he took off for foreign shores, albeit by plane. His next year was spent studying advertising and marketing at U. of Chile, Santiago.

Following that, he spent the next 10 months as foreman with a meat packing firm in the province of (Continued on page 20)

These leading national advertisers have found Transit Radio Fast, Efficient, Economical

* A leading food manufacturer, using transit radio exclusively in a test market for an established packaged product, increased his sales by 51% in only seven months (while his leading competitor, using other media, showed a 2% increase).

* A leading drug manufacturer, also testing transit radio for an old established product, increased sales by 75.51% at the end of six weeks, 124.3% at the end of twelve weeks!

* A leading dentifrice, using transit radio exclusively in an isolated test market, increased its share of dentifrice sales by 47% in 10 weeks! (All three leading competitors went down during the period.)

These are documented case histories. Names, dates and full details are available on request.

March 6, 1950 • Page 15
STERLING BREWERS, Evansville, Ind., appoints Smith, Benson & McClure to handle its account effective April 1. George Endinger is a new executive. Spot radio will be used in all principal markets with firm's distribution area—Indiana, Kentucky and southern states east of the Mississippi. TV will continue to be used.

ACOUSTICON Div. of Dictograph Products, New York (Acousticon hearing aids), through Atherton Adv., Los Angeles, planning to supplement its press and radio campaign with television spot campaign on Los Angeles stations in Apr. Firm currently carrying intensive radio spot schedule on approximately 20 stations all over country.

GIPPS BREWING Corp., Peoria, Ill. (Premium extra dry beer), will sponsor station breaks, one-minute spots, newscasts and programs on 15 central Illinois stations starting March 22, to continue through Oct. 31. Agency: Kaufman, Assoc., Chicago. ROBERT E. JACKSON is account executive.

LOCAL LOAN Co., Los Angeles, adds quarter-hour program strips on 30 Pacific Coast stations supplementing current programming on 15 other West Coast stations. Firm Feb. 27 started five weekly recorded Freddie Martin Show - KXXR San Jose, and three-weekly Bud Hokes Show on KCRA Sacramento Feb. 22, five-weekly Bill Leyden Show on KFWB Los Angeles; Feb. 20, five-weekly Elmer Davis on KFLW Klamath Falls, Ore. All contracts for 52 week term.

HELENE CURTIS Industries Inc., Chicago, names Gordon Best Agency, agency, to handle advertising for its Suave hair dressing and other new products. Radio and TV being considered.

GOEBEL BREWING Co., through Russell, Harris & Wood, San Francisco, a REMAR BAKING Co., through Elliott, Goetz & Boone, same city, signs five joint sponsorship of 1500 baseball games of Oakland A's on KGO-TV S Francisco. Goebels also will sponsor the games on KLO Oakland. Sponsorial support opening of campaigns by both agencies for the newly acquired account.

SUPERTEST PETROLEUM Corp. Ltd., Toronto (oil and gasoline), starts five times weekly, five-minute newscast Headliners on CKOY Ottawa, and number of other Canadian stations. Agency: Harry E. Foster Adv., Ltd., Toronto.

TOWN & COUNTRY MARKET, Los Angeles, appoints Irwin Co., Beverly Hills, to handle advertising and publicity. Firm now using KLAC and KPAC in Angeles and plans extensive use of radio and TV in spring. Tom Ross and Dal Williams are account executives.

UNION SUPPLY & ELECTRIC Co., Charlotte, N. C., signs for series of well spots on WBTV (TV) Charlotte.

P. LORILLARD Co. (Old Gold cigarettes) purchases $25,000 in time on WPI Philadelphia, including five-minute news period spots and spots for 46 weeks.

FRUIT INDUSTRIES Ltd., San Francisco (California vintners' cooperative) appoints Merchandising Factors Inc., same city. Radio and television will be used. Joe McNeil is account executive.

PEDRO PINTO GUATEMALAN Coffee Co. appoints Pavia Adv., San Francisco. Radio will be used.

MOHAWK PETROLEUM Corp., San Francisco, appoints Russell, Harris & Wood, same city. Royce Russell is account executive. Radio will be used.

FRANK FEHR BREWING Co., Louisville, names Levally Inc., Chicago, handle its advertising. JAMES G. COMINOS is account executive. Radio and television will continue to be used.

LINTON'S FRIENDLY Restaurants, Philadelphia, appoints W. Wallace & Co., Philadelphia, handle advertising. Radio and TV will be used.

CENTLIVRE BREWING Co., Fort Wayne, Ind. (Old Crown ale), current sponsor, sponsoring transcribed five-weekly, 15-minute Lonesome Gal on WOWO P.

(Continued on page 20)
We've always known that KDKA ranked high with Pittsburgh women... but we didn't realize how high until we were invited to view the results of an independent survey made by Guide-Post Research.

More than 40 percent of the home makers interviewed reported that they would be most likely to hear about new food and drug products on KDKA.

KDKA's score, in fact, exceeded the combined score of the two next best' stations! And this speaks only for Allegheny County; the survey didn't even touch the other counties... more than 100 (BMB) in number... reached regularly by KDKA's 50,000-watt voice.

To keep people thinking of your product in this rich, tri-state market... keep spreading the word on KDKA. For availabilities, check KDKA or Free & Peters.
ADULT EDUCATION BY RADIO
Boston’s Lowell Council Series Now in 4th Year

RESPECT for the adult listener and his intelligence, whether he has finished the first grade or has a Ph.D., is the basis on which Boston’s Lowell Institute Cooperative Broadcasting Council rests its informational and educational programs.

Now in its fourth year of broadcasting, the council, according to Pulse figures, has maintained an average of approximately three hours of broadcasting a week. Audiences for all programs have averaged just over 200,000 a week in the five-county area of metropolitan Boston alone, the council reports. For last November and December, Pulse reported the estimated average aggregate weekly audience was 227,500.

Year-Round Project
Made up of higher institutions of learning in the area, the council claims it is the only such organization of private institutions which conducts a year-round program of adult education by radio and television over commercial broadcasting stations.

The council is comprised of Boston College, Boston U., Harvard, M. I. T., Northeastern, Tufts and the Lowell Institute, the latter a philanthropic institution. The broadcasts have been presented over Boston outlets WCOF WHDH WMEX WBZ WEEI WBMS-FM WNAC WMAC-TV.

Participating Schools
Over the three-year period, faculty and staff members, alumni and students have taken part in the broadcasts for their respective institutions, in numbers of programs and hours of broadcasting, as follows:

Boston College, 204 programs, 564 hours; Boston U., 440 programs, 197 hours; Harvard, 828 programs, 1584 hours; M. I. T., 163 programs, 524 hours; Northeastern, 189 programs, 546 hours; Tufts, 222 programs, 63 hours. In addition, the total was swelled by broadcasts by six non-affiliated educational institutions and 19 community organizations.

Special Awards

When the program’s third anniversary was observed Feb. 3, Boston stations joined in citing Ralph Lowell, institute trustee, for his achievements in furthering adult education by radio. A certificate of appreciation was presented to Mr. Lowell by Fred H. Garrigus, WEEI director of public affairs.

Furthering its TV programming plans, the council on Feb. 23 presented on WBZ-TV Prof. Donald Born of Boston U. in Here’s a Story for You, telling the “Lady or the Tiger?” selected from his general college course in the American short story. Also, educational broadcasters outside New England have given the council recognition in its plan to broadcast recordings of seven We Human Beings programs, originally presented over WCOF, on a National Assn. of Educational Broadcasters circuit. The series began Feb. 26 on WNYC New York. From there the programs will be sent to schools in the south, mid-west and far west.

Nesbitt To Europe
T. H. E. (Buck) NESBITT, assistant chief, telecommunications policy staff, State Dept., left Friday for London where he will spend four days before going to Paris for a day and then to Frankfort, Germany. He will serve in Germany as advisor on broadcasting matters to High Commissioner McCloy during the Copenhagen conference. The conference begins March 15.

The finest instruments give lasting satisfaction
**Daytimers' Plan**

EDITOR, Broadcasting:

For four years I have been trying to get night... on my day-only radio station (WMGY) ... I have done everything legitimate ... to arouse the FCC to some activity. ... They have been holding conferences but... the United States has never done much at conferences. ... If you remember Will Rogers made the statement ... "The United States never won a conference or lost a war." Our representatives from Washington are in Cuba now, probably having a good time. They have been bluffed and rebuffed over four years to my certain knowledge while 1,200 daytime only stations are losing money every month trying to hold on until such time as our representatives in the FCC decide that they will tell Mexico and Cuba where to get off. ...

I have talked to some of these daytime operators and a plan has been suggested that an agreement be reached between all daytime only operators in the United States that if the FCC cannot arrange for them to have nighttime through a different agreement with Mexico in the case of clear channels, and a different agreement with the 50,000 w operators in this country, that all daytime only operators set a specific date and close their stations until such time as the FCC will arrange for them to have nighttime on their daytime stations. They certainly would not lose anything, because I happen to know that they are not making anything. If the daytime stations close, that would automatically throw all the employers of these 1,200 stations back to drawing their unemployment compensation insurance. It will stop the government from collecting all these high taxes and will at least open the eyes of the public, including the Senators and Congressmen in Washington and bring to the lethargy now going on in the FCC.

**'Opry' in Alaska**

ARCTIC clothing and equipment will be issued at Great Falls, Mont., this month to a group of WSM Nashville's Grand Ole Opry entertainers.

That will be the only stop for the Opry cast on their scheduled flight March 19 for Alaska where they will entertain Air Force men at seven bases: Elmendorf, Marks, Ladd, Davis Thombrough, Elison and Fort Richardson.

This is the second trip outside the States for the WSM talent who made a pre-Christmas tour to Europe for the Air Force.

An Army ground force base at Big Delta also will be visited by 14 of Roy Acuff's Smoky Mountain Boys and Hank Williams' entertainers.

---

**Musician's Opinions**

Musicians are notoriously discriminating in their selection of instruments. Their skilled senses detect fine craftsmanship immediately. And, fine craftsmanship means the ultimate in performance.

Similarly, in selecting a recording instrument, the care with which it was planned, the skill with which it is built, the consistent performance it will render, are the important considerations. Every detail of a precision PRESTO recorder is engineered for one purpose... the most perfect reproduction of sound.

From the tinkle of a triangle to the boom of a tuba... PRESTO
Plane Fact:
He Makes Furniture Sales Too

Amateur cabinetmaker, professional commentator, he's as skillful in producing business as he is in working wood. Says Mr. Ralph C. Bromwell of Bromwell Furniture, Summerland, Calif., to Station KDB, Santa Barbara:

"Campaign featuring Mutual's Fulton Lewis, Jr. has been amazingly successful. On his first broadcast I gained $630.00; on the second I again had unusually good results with sale items.

"So many new faces have come into our store, actually mentioning the program, that it has certainly kept us busy. It has proved to us that radio reaches into homes. . ."

The Fulton Lewis, Jr. program, currently sponsored on more than 300 stations, offers local advertisers a ready-made audience at local time cost, with pro-rated talent cost. Since there are more than 500 MBS stations, there may be an opening in your locality. Check your Mutual outlet—or the Co-operative Program Department, Mutual Broadcasting System, 1440 Broadway, NYC 18 (or Tribune Tower, Chicago 11).
Collins has the Right Remote Amplifier for any job

Whatever the type of remote program may be that you are going to pick up, there is a Collins amplifier that will do it just right. Most popular of all is the four-channel type 12Z, famed for its instantaneous changeover to batteries when the a-c power fails; a feature that makes it ideal for pickups where there is no a-c power or it is inconvenient to obtain. Popularity for single mike pickups goes to the 212Y remote amplifier. Its zip-on canvas case permits fast setups. All receptacles and jacks are on the front, right where you can get at them easily. 212Y's can be easily turned into two-mike units (model 212U) by adding the 60H mixer. Both units slip into a metal housing and are easily carried in a zip-on canvas case. You have the advantage of separate gain control for each microphone and a vu meter with this combination.

All models are stocked in 30/50 or 200/250 ohms input impedance and 600 ohms output. A complete catalog is available: or write, wire or phone your order for immediate delivery.

Recently a Richmond meat packer started a schedule on WLEE. In just seven weeks, so many direct results were traced to WLEE that he sharply reduced all other advertising. He increased his budget on WLEE by 72%!

This is the kind of quick, profitable action that Richmond advertisers get all the time from WLEE. More and more national advertisers are following their lead. Get WLEE on your list! Call in your Forjoe man and get the whole WLEE story today!
U.S.-CUBA PACT NEAR

AN AGREEMENT on U. S.-Cuban channel allocations giving Cuba special rights on 10 regional and three 1-A clear channels plus additional privileges reportedly was reached "in principle" in Havana negotiations between the two nations last week.

Authorities said the terms also would provide that Cuba cease operations on channels not allocated or her use under the expired ARBA, and that she abandon ARBA rights to one clear channel which she has not used.

The agreement was expected to end wide repercussions, first of which came with NAB's recall of a representative from the conference.

Though the "agreement" could not be assured until signed and de- clared, the task of working out agreement details was under way the past week looking toward special Cuban use of the following frequencies: 1-A clear channels—440 kc (KFI Los Angeles), 670 kc (WMAQ Chicago), and 830 kc (WCCO Minneapolis).

Regional frequencies—550 kc plus 10 kw; 750 kc with 10 kw; 590 with 25 kw; 630 kc with 25 kw; 760 kc with 10 kw, directionallv, reducing power. Most of these stations would be in Havana.

Authorities pointed out that the number of these regional channels which Cuba would have "highest" rights is the same as provided in the expired ARBA, though there would be three changes in specific frequencies. These involve substitution of 550, 0 and 1150 kc for 600, 960 and 70 kc.

Other Channels Involved

Other channels in which Cuba might get new or changed assignments affecting U. S. stations were to include the following (U. S. stations reportedly affected are shown in parentheses): 1080 kc (KLX Dallas); 1170 kc (WWV Atlanta); 1000 kc (WCPL Chicago); 1190 kc (WOWF Miami); 1090 kc (KTHS Hot Springs). On most of these Cuba would operate 250-kw stations.

She might also be authorized to use a 1-kw station on 1-A 1160 kc with operation limited to KSL Salt Lake City, and a 1-kw outlet on 1340 kc, local channel.

U. S. delegates reportedly indicated they would consider granting "realistic" additional protection to Cuban stations in making future U. S. assignments on 550, 570, 590, 630, 340, 690, 740, 860, 920 and 980 kc. This country also would provide that future U. S. assignments give 5-million volt protection to Cuban 250-watt stations on regional frequencies.

The delegation was said to have rejected Cuban requests for alterations in nighttime directional operations of WDBO Orlando (580 kc), WSUN St. Petersburg (620 kc), WFBF Greenville, S. C. (1330 kc), and KNOE Monroe, La. (1390 kc).

In addition, the U. S. group requested Cuban 1-B protection for 1500 kc (WXQZ New York and KPMC Bakersfield, Calif.), and in return would recognize 1-B status of this channel in Cuba.

Additionally Cuba would relinquish rights granted her under the old ARBA for operation on the 1-A 860 kc channel (WENR-WLS Chicago), which she has never used. Her unauthorized operations on 660 kc (WNBC New York) and 760 kc (WJR Detroit), both 1-A clear channels, would be among those to be given up for noncompliance with the ARBA treaty which expired last March.

She would retain her ARBA rights with respect to local channels and to the use of U. S. 1-B frequencies on a non-interference basis.

To Offer for ARBA

The agreement when reached, would be offered for incorporation in the new ARBA treaty, for which negotiations among all signatory nations are slated to resume between April 1 and Aug. 1.

In event no agreement is reached as to the overall ARBA, observers thought it likely the U. S.-Cuban document would be the subject of a separate agreement between the two nations. On this point, it was felt the views of the Senate Interstate and Foreign Commerce Committee as well as those of the FCC and State Dept. would be canvassed before a final decision is reached.

The exact form in which the U. S.-Cuban agreement would be cast was still undecided late last week. Joseph Kittner, assistant to the FCC general counsel, flew to Havana Thursday night, presumably to help draft the document.

Several industry advisors attending the conference reportedly were pushing for immediate signature by representatives of both countries, while some State Dept. authorities suggested the instrument should take the form of "an intention of agreement" with final approval to come later.

In any event authorities felt repercussions were sure to come from broadcasters affected by the agreement, particularly since details were not divulged in advance.

Recalls Representative

The first formal overall protest came late Thursday when NAB announced the recall of its Engineering Director, Neal McNaughten, from the Havana sessions, denouncing any concessions to Cuba "over and beyond that condition which existed" when NARBA expired last March.

Earlier, Sen. J. Allen Frazier Jr. (D-Del.) was reported to have pro-

(Continued on page 39)

P&G TOPS ON NETWORKS

PROCTOR & GAMBLE Co. remained the undisputed leader in network radio in 1949. The firm had gross time expenditures of $17,155,929 during the year, according to network figures released last week to Publishers Information Bureau. Gross time costs in 1948 were $15,232,121.

P&G was the only firm with network gross expenditures of over $10 million.

These figures are for network time only and do not include money spent by the advertisers for talent and production or any other radio business, such as spot, which may have been placed during the year.

Sterling Drug Inc., which had the second largest gross purchases in 1948, continued its hold on this position for 1949 with $8,107,359. This was a decrease of $5,097 from the $9,204,856 spent in 1948 for time. In 1949 General Foods Corp. had gross network time purchases of $7,456,943, putting it in third place. In 1948 it spent $8,774,803.

Lever Bros. Co., which added time purchases of $1,824,855 to its 1948 budget of $5,837,036, was the fourth largest user of network time, expending $7,141,391. In fifth place was General Mills with gross network time purchases of $6,742,004.

Largest increase in network time purchases was made by Lever Bros. Three other firms also increased their gross expenditures by over a million dollars: American Tobacco Co., $1,718,085; Pillsbury Mills Inc., $1,551,794, and National Biscuit Co., $1,416,818.

Although only P&G spent over $10 million in 1949, there were seven firms in Class II, $5 to $10 million (Table I), one more than in 1948. Class III, $2.5 to $5 million, also gained one for 10 in 1949. In all there were 241 accounts active in network radio during the year.

Agree 'In Principle'

Sterling Next

Radio advertising for Procter & Gamble was handled by five agencies during 1949. Compton Advertising placed time on behalf of Crisco, Drene, Duz, Ivory Soap and P&G. Active for Oxydol, Drift, Drene and Spic & Span was Dancer-Fitzgerald-Sample. Pedlar & Ryan was the P&G agency for Camay. Biow Co. was active in behalf of Lava Soap, Spic & Span and Tide. P&G had Benton & Bowles placing time for Duz, Ivory Snow, Prell Shampoo, Tide, Crisco and Spic & Span.

All network business for Sterling Drug Inc. was placed by Dancer-Fitzgerald-Sample.

General Foods Corp.'s network business was placed through Young & Rubicam and Benton & Bowles. Products handled by Y&R included: Jell-O, Jell-O Puddings, Jell-O Rice Pudding, Swansdown, Minute Rice, Certo, Grape Nuts, Sanka and Instant Sanka. B&B was ac-

JANUARY BUSINESS

GROSS billings of $17,084,200 for the four national radio networks in January 1946 were reported last week by Publishers Information Bureau.

A fortnight before, BROADCASTING estimated that January billings would total $17,100,000 [BROADCASTING, Feb. 27].

The network gross was more than $600,000 below the figure for January, 1949.

Billings by networks were:

Intra-Commission Rift Over Staff's Role Grows

By RUFUS CRATER

A SHARP BREACH among FCC members over the staff's proper role in Commission affairs was revealed last week in a "secret" document sent to the House radio subcommittee as a guide for future legislation [CLOSED CIRCUIT, Feb. 20].

The cleavage was disclosed in extensive comments submitted by the Commission accompanying a model bill which presented FCC's own version of how it should conduct its operations.

The controversy, aimed at multiple Commission offices, one in a sharply worded dispute over the majority's insistence on access to staff expertise in any case at least until the hearing is held.

Chairman Cox and Comrs. Walker, Webster, Sterling and Hennock contended public interest would suffer if Commissioners were not allowed to consult free with staff members about pending cases up to the point of hearings. Comr. Jones retorted that in contested cases such advice should be given on the record, not behind closed doors, by the parties to the cases. Those not to the point of hearings. Comr. Jones retorted that in contested cases such advice should be given on the record, not behind closed doors, by the parties to the cases. Those not to the point of hearings. Comr. Jones retorted that in contested cases such advice should be given on the record, not behind closed doors, by the parties to the cases.

The majority held that "no person engaged directly or indirectly in any prosecutory or investigatory function in any adjudicatory proceeding or subject to the supervision or direction of such a person"

FCC MODEL BILL

By J. FRANK BEATTY

WEEK-LONG NAB convention lineup in which national and world affairs will provide the theme for broadcast management is planned for the April 12-19 series of meetings to be held at the Stevens Hotel, Chicago.

The new look in industry conventions will carry the theme, "The American Broadcaster's Responsibility in the World Today." Well-known speakers are to discuss world affairs, industry, advertising, government, world economy, agriculture and the border's obligations to coming generations.

Definitely billed for the Management Conference April 17-19 are Herman W. Steinakraus, president of the U.S. Chamber of Commerce, and Paul G. Hoffman, administrator, Economic Cooperation Administration. Mr. Steinakraus will speak on industry problems with Adm. Hoffman discussing the nation's defense posture.

Other speakers of equal prominence are being contacted by NAB for the industry's 26th annual convention.

Annual business meeting of the NAB membership will be held Tuesday the 18th, from 10 a.m. to 12 noon. The final management session Wednesday morning will be devoted to television, as was the case last year.

As now programmed, the convention lines up like this:

April 12—Wednesday—Annual Exposition opens; Engineering Conference registration; Engineering Committee meeting; inspection trips; evening reception.

April 13—Morning luncheon and afternoon meetings of Engineering Conference.

April 14—Same as Thursday.

April 15—FCC-Industry Roundtable in morning; meeting of NAB Recording & Reproducing Standards Committee; inspection trips; informal satellite meetings.

April 16—Independents' Day Sunday morning meeting for independent stations; roundtable discussion over breakfast and lunches.

April 17—FCC meetings in morning; foreign language station meeting in morning; Management Conference formally opens at luncheon followed by afternoon meeting.

April 18—Annual membership business meeting in morning; formal luncheon and afternoon meetings for management; annual no-speech banquet in evening, with BMI providing entertainment.

Management Conference sessions will be the high points, allowing plenty of time to visit exhibits and take part in unofficial activities.

Stress on World Affairs

The schedule avoids duplication of shirt-sleeve station operating problems discussed at the autumn NAB district meetings. Programs are designed to provide a broad picture of the world today and an insight into their role in the industrial, agricultural and social life of the nation and world. Understanding of these problems, NAB says, is related to the individual broadcaster's prosperity.

Supervising arrangements is the NAB board's Convention Site & Policy Committee chairman Howard Lane, WWJD Chicago, chairman: Charles C. Carly, WMWD Peoria, Ill.; James D. Shouse, WLW Cincinnati, C. E. Arney, Jr., NAB secretary-represen-
NAB BOARD ELECTION

RUNOFF ballots to determine a tie in the 1950 NAB FM directorate elections were mailed last week to FM station members by C. E. Arney Jr., NAB secretary-treasurer. The tie developed between Ben Strouse, WWDC-FM Washington, and Craig Lawrence, WCOP-FM Boston. Runoff ballots must be returned to NAB Washington headquarters by March 15.

Eight district directors were elected along with nine of the ten directors-at-large, bringing 12 new faces to the board when it is reorganized at the April convention. In the FM category, Frank U. Fletcher, WARL-FM Arlington, Va., led the ticket with 93 votes out of 324 cast. He will serve a two-year term. Winner of the Strouse-Lawrence runoff will serve a one-year term.

District directors now serve two-year terms. Under NAB's election system, even-numbered districts elect directors in even-numbered years, and odd-numbered districts elect in odd-numbered years.

Since this is a transition year in setting up a new election schedule for directors-at-large, those with the most votes will serve two-year terms and runners-up will serve one-year terms.

Large Vote Received

The total vote was "tremendous," according to Mr. Arney. He said all directors elected received over half the votes in each category. In all 2,487 ballots were mailed, with 1,743 returned, a 70% response. This set an all-time record in NAB voting.

Four district directors were nominated in January without opposition but election ballots were sent to the stations in the areas. Those unopposed were Harold Wheelahan, WSMB New Orleans, District 6; William B. Quarton, WMJ Cedar Rapids, Iowa, re-elected, District 10; Jack Todd, KAKE Wichita, District 12; Calvin J. Smith, KFAC Los Angeles, re-elected, District 16.

Re-elected in addition toMessrs. Quarton and Smith were James D. Shouse, WVL Cincinnati, large stations; Mr. Fletcher, for FM; Robert D. Sweezy, WDSU-TV New Orleans and Eugene S. Thomas, WQIC (TV) Washington, for television stations.

New board members, besides Messrs. Wheelahan and Todd, will be William A. Fay, WHAM Rochester, N. Y., District 2; Harold Essex, WJJS Winston-Salem, N. C., District 4; George J. Higgins, WISH Indianapolis, District 8; William C. Grove, KBFC, Cheyenne, Wyo., District 14; William B. Ryan, KFI Los Angeles, large stations; A. D. Willard Jr. WGAC Augusta, Ga., and John Esau, KTUL Tulsa, medium stations; Patt McDonal, WHHM Memphis, and Edgar Kobak, WTWA Thomson, Ga., small stations.

Messrs. Ryan and Kobak have served on the board in the current decade. Mr. Willard sat at board meetings during the 1945-49 period when he was NAB executive vice-president.

Retiring from the board during the NAB convention in April will be Michael R. Hanna, WHCU Ithaca, N. Y., District 2; Campbell Arnoux, WTAR Norfolk, Va., District 4; Henry W. Story, WMC Memphis, District 6; Harry M. Bienes Jr., WBAM Indianapolis, District 8; Robert Enoch, District 12 Hugh B. Terry, KLZ Denver, District 14; Howard Lane, WJJD Chicago, large stations; G. Richard Shawto, WIS Columbia, S. C., and Kenyon Brown, KWFT Wichita Falls, Tex., medium stations; Clair R. McColough, WGL Lancaster Pa., and Merrill Lindsay, WSO Decatur, Ill., small stations; Everett D. Dillard, WASH (FM) Washington, FM stations.

Many of those retiring were no candidates for re-election because they had served two terms, though in several cases one of these terms was only a one-year service. NAB by-laws have been amended to forbid more than two consecutive terms on the board.

The board elections were conducted under Mr. Arney's direction. In recent years the mail ballot has in charge of the accounting firm of Ernst & Ernst but the board decided last year to turn over

(Continued on page 42)

WOIC (TV) Washington, for television stations.

Quick reaction to a memo on NAB’s dues increase, sent stations last week by President Justin Miller, came from WQWW Washington in the form of a critical letter of resignation.

Writing to Judge Miller, Mr. Robert Rogers, WQWW vice president and general manager, charged that the recent increase in dues to be paid, starting April 1, by stations in the less-than-$100,000 classes is a step to aid big broadcasters at the expense of smaller stations.

WQWW is not affected by the new dues schedule, adopted by NAB’s board last month at its Arizona meeting, according to Mr. Rogers. Judge Miller’s memo to member stations explained the board had abandoned the 12 1/2% dues discount and stepped up dues of the four lower classes to raise income from $64,000 to $308,000 for the fiscal year starting April 1 [Broadcasting, Feb. 20]. He said members of the four groups, a large part of the total membership, will pay 20.15% of the cost instead of 20.12% as heretofore.

Mr. Rogers wrote Judge Miller that the station considered its NAB status some months ago when several important independents resigned. The dues action, however, “tips the scales quite the other way as far as we are concerned,” he wrote. “It almost smacks of taxation without representation, a particularly loathsome concept for Americans; and, therefore, we have no choice but to resign our membership.

“This principle of taxing your smaller members for the benefit of your larger ones has already been apparent in other ways, such as the assessment plan for the regrettably unsuccessful All-Radio film presentation. At that time we raised our objections to a sliding tax scale, peculiarly un-American, in that the surtax principle is applied to the poor and the tax reduction features to the rich.”

Mr. Rogers said WQWW was not resigning from NAB “only over a matter of principle.” He listed six NAB operations, asserting a “pretty careful assessment” showed no dollar-and-cents value from program, technical and FM services (Continued on page 42)
NATIONAL HOOPER RATINGS SOLD

Nielsen Buys 3 Services

Mr. Hooper

TO STRESS LOCAL RATINGS

THE local rating field has provided two-thirds of his income, C. E. Hooper, head of C. E. Hooper Inc., told Broadcasting last week in discussing plans to continue his organization after transfer of network and Pacific network audience ratings to A. C. Nielsen Co.

Noting that the number of sponsored network radio programs on the air today has dropped some 40% from its level three years ago, with network radio rating service revenue dropping accordingly, Mr. Hooper said that without competition his organization would have continued the network Hooperatings, "riding the radio curve down and the TV curve up."

Decreased Revenue

But with the decreasing network radio revenue split between his firm and the Nielsen organization, he said his network (TV) rating business did not bring the total network ratings to a profitable operating level, so he sold out. Revenue from the National Hooperatings dropped $40,000 in January 1949 to $25,000 in January 1950, he reported.

From now on he will concentrate on the local rating field, Mr. Hooper said. He averred that television has so changed the radio listening habits in cities with TV service that it is no longer possible to average reports of listening in cities with TV and cities without it into a significant national rating.

Taking New York as an example of the effect of TV on audience behavior, Mr. Hooper reported that the January-February 1949 average evening audience in that city was divided 19.7% for televiewing and 80.3% for radio listening. Eleven months later, the December (Continued on page 41)

Networks' Reaction to Hooper Sale

COMMENTING on the Hooper sale, Richard Puff, MBS director of research, told Broadcasting:

"It is good news, but not unexpected, to know that there is to be only one national measurement for radio program audiences. Being the first network to accept the false theory that two national rating services were better than one, we at Mutual are more pleased.

"It is good news for two reasons—the duplication of cost is eliminated for advertisers and agencies and networks, and programming is more correct with two figures for each program.

"One of the new fields open to more intensive exploration is the small town—a large part of the national picture. Nielsen's 97% sample of the United States obviously points the way toward fuller recognition of these important marketing areas."

Theodore I. Oberfelder, ABC director of advertising promotion and research, had this to say:

"Many years ago, C. E. Hooper took the first forward step in establishing a system of program ratings which became a standard of radio broadcasting. With the advent of the Nielsen Radio Index, there were two completely different systems of program measurement with two standards of rating.

"The move of the Nielsen Co., in purchasing the network Hooperatings now leaves one standard of program rating—which, in my opinion, can only be good for the radio broadcasting industry."

"The monies thus released for purchasing a duplication of service can now be used for other forms of broadcasts."

The American Broadcasting Co. salutes C. E. Hooper and wishes him well in his new venture.

From CBS came this statement (Continued on page 42)

Mr. Nielsen

SEES CLEAR PATH AHEAD

"WE HAVE a clear path ahead," said Arthur C. Nielsen, president of the A. C. Nielsen Co., Thursday in commenting on his company's acquisition of C. E. Hooper's national rating service.

Mr. Nielsen disclosed that Mr. Hooper "initiated the discussions" relative to the recent deal "by a telephone call to me early last November."

Kobak Survey

He recalled that an "elaborate survey" made by Edgar Kobak when he was president of Mutual established that "the majority of leading people in the broadcasting industry thought a better job (of national rating) could be done by a single service."

"This survey further disclosed that the industry was overwhelmingly in favor of our company—almost unanimously," he said.

Mr. Nielsen released a telegram from Frank K. White, present head of Mutual. The message reads in part:

"Being the first network to break away from the false theory that two national rating services were better than one, we at Mutual are more pleased to receive your announcement. We know we can count on you to expand and improve your service during the coming months and for our part you can be sure of continued interest and cooperation which we believe will lead to even greater confidence in the accuracy, reliability and usefulness of the Nielsen services."

Price Not Disclosed

The NRI head would not discuss the price involved in the purchase of the Hooper network services. He denied that published reports of a $800,000 figure were correct.

"We feel, and our attorneys feel, (Continued on page 40)

March 6, 1950 • Page 27
ARMY and Air Force officials assured the radio industry last week that they are not bickering over funds earmarked for radio-TV spending. A meeting, held with Maj. Gen. T. J. Hadley Jr., chief of military personnel, procurement and service division (USA, USAF), reviewed the budget situation (Broadcasting, Feb. 27, 13) in Washington Thursday afternoon.

As a long-range aftermath of the latest conference, it is understood that the military has promised to consider dividing production costs from actual time purchases in its future overall budget estimates. The major part of these production costs are for free-time material.

Both Maj. Gen. Hadley and Will C. Grant, owner of Grant Advertising, Chicago, Army Air Force agency, assured the broadcast community that “radio has been and always will be given a fair share of recruitment advertising.” They said the Army-Air Force has budgeted equal radio time on TV from its advertising program and would give the media equal opportunity with the others.

Representing radio at the conference were Judge Justin Miller, NAB president; Charles A. Batson and Robert M. McGreedy, assistant directors, BAB, and Mr. Grant. Maj. Gen. Hadley, members of his staff, and other defense officers represented the military.

The newest talks, underway for several weeks, were instigated as a result of NAB and BAB action in response to stations’ protests against the use of free time by the services (Broadcasting, Feb. 6). The Army-Air Force operations subcommittee has shown that the Army-Air Force recruiting program for next year calls for a nearly 40% outlay for radio and television. This gives for both free-time material production and time purchases.

Col. N. F. McCurdy, Hadley’s deputy, had told Congressmen that the expenditure by the Army Air Force for fiscal year 1951 would be $636,400 for radio-TV out of a total $1,591,600 outlay. Army officials estimate that the budget would allow stations to buy time on broadcast and reduction costs and actual time purchase. For the time being, no change in this procedure is contemplated, spokesmen said.

The further parley came as a climax to a swelling chorus of stations’ protests against donations of free time to organizations which either are engaged in radio campaigns in other media. Many stations protested to the Grant agency and to their Congressmen. Army officials said they were miffed because “irresponsible statements have been circulated that the services do not plan to buy any time on stations.”

Labeling these assertions untrue, Army-Air Force spokesmen underlined that the “Maj. Gen. Hadley figure for 1951 was ‘tentative’ and that it must wait upon action by the Congress and the President’s signature before becoming a reality.

Col. William G. Downs, one of the Army-Air Force advertising staff, told Broadcasting last week that with a limited budget the stations were obliged to “compromise” in arriving at the best method of advertising which also would give them “the most coverage.”

On this best-for-the-most theory, Col. McCurdy said independent stations have indicated their enthusiasm for the packaged programs and have asked for them. He said, stations, he said, can sell time based on the basis that if the Army-Air Force spokesmen said it would be folly to spread the budget allowance for a given year among the stations that are independent, because not any one of them would get a fair return.

Meanwhile, the high advertising command of the military confirmed a spending of $100,000 out of the

**TAX VICTORY**

Va. Bill Forbids Levy on Radio-TV

LEGISLATION forbidding cities, towns and counties in the state of Virginia from levying license or privilege taxes on broadcast and television stations was passed last week by the Virginia General Assembly, according to Philip P. Allen, of WLVA Lynchingburg, president of the Virginia Assn. of Broadcasters.

The bill passed by overwhelming pluralities and was sent to Gov. John S. Battle.

Broadcasting and television are placed on the same level as newspapers in receiving exemption from municipal and county license and business taxes, under terms of the bill (House Bill 2241), introduced Feb. 1.

The bill was passed by the House with a 90-2 vote. The Senate Finance Committee approved it, as the House committee had done, without hearing. After the Senate committee had reported it favorably by a 10-0 vote, it was resubmitted and a hearing was held Feb. 22.

Mr. Allen appeared at the hearing along with C. T. Lucy, WRVA Richmond, chairman of the VAB Legislative Committee; Frank U. Fletcher, WARL Arlington, and a number of broadcasters. Mr. Fletcher pointed out that about half of broadcast stations have operated at a loss all last television year. He described station services and added that stations might be forced into local politics if they are assessed local taxes.

Last Monday the measure came up in the Senate. Sen. Edward L. Breeden of Norfolk, attacked the concept that radio and TV stations resemble newspapers in their public and educational services and therefore should have the exemption.

“Radio and television newspapers have enjoyed for a half-century.”

Cites TV’s Future

Sen. Breeden contended TV “is on the way to becoming one of the largest businesses in Virginia.” He compared TV to theatres and added, “I can see no reason for the life of me to tax a theatre and not a television station.”

Sen. A. E. B. Stephens, Isle of Wight, argued the bill did not concern itself with whether the radio and TV stations make money. He said they offer the same news and entertainment service as newspapers. The bill, he went on, “safeguards a situation whereby a locality by license fee could tax a radio station so severely as to bring it into politics.”

Sen. Robert O. Norris, of Lively, urged passage of the bill as a “refreshing piece of news” because one industry at least “knows it is not going to be taxed.” Sen. Charles Fenwick, of Arlington, said the bill follows the same principle as the newspaper exemption and prevents punitive action against stations by a locality.

The Senate passed the bill 30-5. Among communities understood to have levied taxes on radio and TV stations are Norfolk, Roanoke, Blacksburg and Alexandria County. In Alexandria WPIK was placed under a business tax of 30¢ per $100 on gross income above $750.

WPIK protested the levy. Arlington County assessed an 11¢ tax on stations but it has been protested.

Move to place these taxes of stations was instigated two years ago by the Municipal League of Virginia.

Several cities in Arkansas have taken steps to tax broadcasting stations following action of the U. S. Supreme Court in refusing to hear an appeal from a state court ruling in which the Little Rock radio tax was upheld after a local court had ruled it invalid.

Passed with the understanding that the law has drafted a tax ordinance since the Supreme Court’s action.

Stations in Aniston, Ala., als have received tax bills from the city as a result of the Supreme Court’s decision. A code approved Dec. 20, 1947, levied 10¢ on each station soliciting advertising. The tax had not previously been enforced.

**MILLER BREWING**

Mullen Heads Adv. Dept. for Miller's Advertisements in the November apostle...
HOUSE HEARINGS DELAYED  No Date Set

Meanwhile Rep. Charles A. Wolvertom (R-NJ), ranking minority member and former chairman of the House committee, told BROADCASTING he has been assured that Dr. Allen B. DuMont, president of Allen B. DuMont Labs., will be given a chance to present his appeal for lifting of the television freeze before the Sadowski group since hearings get underway [TELECASTING, Feb. 13].

The feeling on Capitol Hill was that the new delay by the Sadowski subcommittee would put into effect a slow-down of the radio legislation because of the naming by President Truman of a new Communications Policy Board [BROADCASTING, Feb. 27]. The House group was scheduled to look into the pending Sadowski Bill (HR 6949) which would set up an overall frequency allocations board on a permanent basis with functions similar to that of Mr. Truman's temporary board.

Also on the Congressional group's schedule was consideration of the Senate-passed McFarland Bill (see story, page 25) to reorganize FCC procedures ($5,795) and probably the new Sheppard Bill (HR 7310) to require licensing of networks.

Rep. Sadowski, who is recuperating from a heart attack, returned to Washington early last week from Detroit, where he had been hospitalized. However, his close associates indicated that the Congressman may be unable to resume his full legislative responsibilities.

An alternative to an indefinite delay in hearings, a spokesman said, would be the appointment of a temporary chairman to wield the gavel in place of Rep. Sadowski.

General Foods

GENERAL FOODS, New York, will realign its products, effective Sept. 1, 1950 among its three agencies and will increase its advertising budget, the company announced last Tuesday at a news conference in New York.

General Foods spent $30,000,000 last year in charge of marketing, said, and the company plans to boost that during 1950. Radio and television will be included in the increased budget.

Under the switch in products, Foote, Cone & Belding will double its present GF billing, while the two major GF agencies, Young & Rubicam and Benton & Bowles, will gain in billings through new products. The four new products which Foote, Cone & Belding will get are: Calumet Baking Powder, La France and Satina (all formerly serviced by Young & Rubicam) and Post Toasties (previously with Benton & Bowles).

Young & Rubicam, which last year celebrated its 25th anniversary working with GF (its oldest and largest client), will increase its GF billing in 1950 through new additions to the Jell-O line of package desserts. Other additions will come from Birds Eye and Birds Eye frozen orange concentrate, from the General Foods Corporation's new Swans Down mixes and Minute rice, another new product.

Young & Rubicam will have the following new products: G. F. Consumer Service, Minute Gelatin; G. F. Sales Division (trade) Minute tapioca; G. F. Corporate, Grape-Nuts; Sanka; Ice-Molded Frozen Fruit; Jell-O puddings; Jell-O tapioca puddings, Jell-O rice puddings, Jell-O pie fillings, Jell-O Rope Products, Minute rice, Birds Eye frozen concentrated orange juice, Bireley's bottled beverages, Grape Nuts flakes, Post's wheat meal, Swans Down cake flour, Swans Down self rising cake flour, Swans Down mixes, Swans Downfamily Store Brands and Crisp, Coconut, Baker's Southern Style coconut, Baker's bulk coconut products, Birds Eye frozen foods, Bakers' Ruby King, Porterhouse Brand cod and seafoods, Jack and Jill cat food.

Benton & Bowles, GF agency since 1929, will have higher billings in 1950 through established brands and, also through two new products, Post's Sugar Crisp and Walter Baker's 4 In 1 cocoa mix.

General Foods is also Benton & Bowles' oldest and largest client.

Benton & Bowles will service the following products:

Maxwell House Coffee; Certo, Sugar, ribbons and canned foods; Post's 40 per cent bran flakes, Post-Tens, Post's Puffed Products, Walter Baker chocolate, Walter Baker 4 In 1 sweet cocoa mix, Walter Baker's cocoa-chocolate chips, Dot and Herman's Diamond Crystal salt products, Yankee coffee and tea, Galaxia dog foods, Instant Maxwell House coffee, Sure-Jell, Post's raisin bran, Post's 40 per cent bran, Seafood, Colonial Salt Products, Bliss coffee, Maxwell House tea.

Foote, Cone & Belding Inc., newest GF agency, appointed in 1946, will handle Post's, Post Tчатeling, Rice Krinkles from Chicago, and Calumet baking powder, La France and Satina from New York.

URGES TAX REPEAL
C of C Hits Wartime Levies

REPEAL of all wartime excise taxes was urged last week by the U. S. Chamber of Commerce because "business again is faced with a buyers market." The plea was placed before the House Ways and Means Committee.

A Chamber spokesman cited a Commerce Dept. survey which lists 17 items as "highly sensitive to demand factors" and subject to federal excise taxes. Among the items are radios, phonographs and records. The survey indicated that lowered excises on these articles would mean an increase in sales volume of from one to three times the amount of tax reduction. The Chamber asked for tax elimination on long distance telephone and telegraph (and wire service) and the 15% levy on local telephones.

SENATE HEARINGS
FCC 1950 Funds on Agenda

A SENATE Appropriations subcommittee is expected to begin hearings today (Monday) on fiscal 1951 funds for FCC and other independent offices, with testimony from the Commission slated to be taken this week or next. All hearings are due to be completed by March 16.

A House Appropriations subcommittee already has concluded similar sessions on 1950-51 funds. FCC Chairman Wayne Coy, other Commissioners and FCC staff members were heard on President Truman's budget request for roughly a 2 1/2% increase in FCC appropriations [Broadcasting, Feb. 6].

WIBC Indianapolis has become Indiana's first all-night station. Station runs around the clock five days a week Monday through Friday.
16 to 1

WG Y

is the BIG audience coverage station of the Great Northeast in YOUR favor, for with WGY an advertiser can actually cover sixteen metropolitan markets with ONE station!

and only WGY can deliver audiences to so many individual markets!

WHERE? ...

IN NEW YORK

Albany Hudson Rome
Amsterdam Johnstown Saratoga Springs
Glens Falls Norwich Schenectady
Gloversville Olean Troy

IN MASSACHUSETTS

North Adams Pittsfield

IN VERMONT

 Rutland

... And all the territory in between

HOW? ...

COVERAGE - 50,000 power full watts serving 16 cities with a metropolitan population of 1 million, 247 thousand. This 16 city area alone can claim retail sales of 1 billion, 162 million, 225 thousand dollars. A Hooper Survey just completed proves that WGY reaches 55% more evening listeners in the 16 markets than the next best station.

WHY? ...

WGY is the only clear channel station serving the area...50,000 watts power on a low frequency!

WGY has been a listening habit since 1922!

WGY is the only NFC station in the area. Other network audiences are divided among: 3 stations for CBS, 5 stations for ABC, 6 stations for MBS.

WGY is owned and operated by the General Electric Company, thus assuring finest station operation in the area.

WHEN? ...

RIGHT NOW if your product is distributed in upstate New York and Western New York. Your message on WGY will assure you of domination of the listening audience in the area, because WGY provides:

More Markets than any other upstate New York station.

Larger Audiences than any other station in the area.

Wider Coverage than any other station in the area.

Lower Cost than any combination of stations in the area to reach the 16 markets.

UN NETWORK PROGRAMS

1950 Schedule Includes 6 Documentaries On MBS

UNITED NATIONS network program schedule for the remainder of 1950, including a series of six one-hour documentaries to begin over the coast-to-coast MBS March 26, was announced by UN information officials in New York last Wednesday.

The Mutual series, The Pursuit of Peace, will be under the supervision of Norman Corwin, UN's special projects radio director, and will emanate from New York, Hollywood, Canada and India. A one-time program, Eleven Memory Street, was aired this past Friday. The six-week stint will comprise such topics as UNESCO, human rights and the technical assistance program.

A similar schedule of documentaries currently is being broadcast once a month over NBC, in addition to the CBS-TV Ford Motor Co. daily UN sessions feature, CBS Memo From Lake Success, and the weekly UN Story, heard over 400 stations coast-to-coast. First two programs also are heard over Canada's dominion network.

Another Series Planned

Simultaneously, it was revealed that another series, to be aired by ABC, is in stage of preparation for use sometime next spring. Additionally, discussion is underway with major television networks for program to start this fall.

The MBS package, which also was announced by William H. Fine, shirbner Jr., Mutual vice president in charge of programs, will call on an all-star Hollywood cast for the opening program. Noted writers will contribute their services throughout the series.

UN does not plan to set up its own TV station in the future, according to UN information officials, though it could well do so within the framework of charter provisions of the International Telecommunications Union, Geneva, of which UN is a member and probably with little more than nodding acquiescence to a requested channel by FCO.

During the Wednesday luncheon session, held at the Waldorf Astoria Hotel for UN and radio press representatives, UN was criticized for lack of liaison with press channels and failure to acquaint editors with UN objectives. Benjamin Cohen, assistant secretary-general UN Dept. of Information, readily conceded the present relationship was inadequate but said that UN radio operation had been "experimental" until this year.

SOUTHERN BELL

Ga. Group Urges Radio Use

SOUTHERN Bell Telephone Co has been urged to use radio advertising as well as newspapers, by Ed Mullinax, WLGT LaGrange, making the contention on behalf of the Georgia Assn. of Broadcasters. Mr. Mullinax, president of the Georgia association, met with Lane Hubbard, general manager of Southern Bell Telephone Co.

Complaint has been made by southeastern broadcasters that Southern Bell has been buying newspaper space but submitting free material to stations [BROADCASTING, Feb. 20].

Mr. Hubbard told Mr. Mullinax Southern Bell recently started buying time when emergencies develop. He added that "Southern Bell feels that newspapers can do a better job on the type of advertising we do." Mr. Mullinax contends Georgia stations can do as effective a job in emergencies as emergency job for Southern Bell.

If the company started radio it would have requests for schedule from stations in all its states, Mr. Hubbard said. Mr. Mullinax replied that this, too, is proper since radio "does a good job everywhere.

Mr. Hubbard wrote Mr. Mullinax after the interview that the company would consider use of radio.

The Georgia association is exploring ways of selling radio utilities and manufacturers in the area.

HIGHLIGHTS of weekly Washington Touchdown Club meeting aired 26th day, 6 p.m., by WWDC Washington.
LACK of experienced sales management, "wise in the ways of advertising," may well be the softest spot in America's economy, Fairfax M. Cone, board chairman of Foote, Cone & Belding, asserted Tuesday at a luncheon meeting of the Chicago Junior Assn. of Commerce and Industry.

Answering his own question—"Is advertising keeping pace?"—Mr. Cone concluded that "either advertising has been tried and found wanting or it isn't being properly and sufficiently used. I think the latter is the case."

Stressing that the miracle of America is one of mass distribution and not of mass production—and that advertising is the backbone and strength of distribution—Mr. Cone explained why it is important to know if advertising is keeping pace.

Competitive Factors

He traced the history of the past eight years, "a unique period when experience died and many came of age without being told the competitive facts of life. We are just beginning to learn that you can't sell a $2.50 white shirt for $5.50 in 1949 and for $4.50 in 1950, because someone will always come along to make a better shirt and sell it for $2.95. This is the history of success, and history will repeat itself. Although advertising was a luxury for eight years, circumstances are different now, he asserted.

SESAC EXPANDS

NAB Meet To See Unveiling

STAGE will be set at NAB's Chicago convention next month for the first industry unveiling of SESAC Inc.'s expanded transcription library service for 1950, the New York firm disclosed last week.

Announcement at the convention will herald the firm's doubling of transcriptions available to stations, SESAC said. A number of features have been added, K. A. Jadasooh, general manager, pointed out. SESAC now will offer as many as 3,500 recorded musical numbers in comparison to 1,500 offered last year.

In addition, the service will make available a "script service" of salable programs. These will feature folk music, military band music and concert series. This package will be made up of three blocks of 13 shows for a total of 39 programs. Stations can sell these programs in 19 segments and can make use of program notes provided. Another innovation is a catalog of bridges, moods and themes to meet particular demands of TV stations and also applicable to AM-FM stations. These can be used as background music for dramatic and film shows. SESAC's basic rate will remain unchanged. Mr. Jadasooh said.
the difference is MUTUAL!
Radio's versatile voice, on any network, is bravo'd from family circle to parterre box (and office box) as man's best means of reaching folks and selling goods. And Mutual is the network which raises this voice in more markets than any other.

Like the others, we sing it out fortissimo in all the larger centers, wherever the score calls for lung-top volume. But sellouts at the Met are not enough: how do you do on the road?

Your sales overtures today can succeed or fail on performance in the rest of the nation. And here a significant Mutual "difference" can mean a vital plus for you in your present sales arrangements.

Mutual offers a selection of over 300 markets, coast to coast, where no other network has a station; 300 extraordinarily response-able markets (56% above the U.S. average in sales per capita) where your voice dominates and audience ratings soar 2 to 6 times above their big-city levels.

In these markets Mutual literally steals the scene for you, enabling you to win customers and dealerships where other networks are remote.

Finally, to the steady obbligato of the greatest homes-per-dollar values in network radio, you can sing it solo in more markets on Mutual than on all other networks combined. The stage is yours.

The Difference is MUTUAL!

REMEMBER THESE OTHER MUTUAL PLUS-DIFFERENCES:

Lowest Costs, Hookup by Hookup, of All Networks.
Largest Audiences per Dollar in All Network Radio.
Maximum Flexibility for Custom-Tailored Hookups.
'Where-to-Buy-It' Cut-Ins Available at No Extra Cost.

the mutual broadcasting system
Editorial

Rating Armistice

The NATIONAL Hooper rating, after a 15-year reign, goes by the boards. Henceforth it will be the Nielsen—exclusive in the national AM and TV network fields and in Pacific Coast network radio.

The sale of these Hooper units—at a reported figure of under half-million—to Nielsen should help clear up what had been an increasingly confused rating situation. Whether it is the millennium, of course, is not now predictable but it should have a salutary effect.

Nielsen has an enviable reputation in the marketing research field. The networks are subscribers. Its audimeter method of reporting has had its detractors, but there have been constant improvements. A more accurate reporting system now has been devised with higher speed units, and ratings should be available on a two-week basis within a few weeks.

The fusion is logical. Neither service could make money. And Hooper had gone into new fields. Hooper, which has had its bumps lately, now concentrates on city ratings for AM and TV as well as areas.

There always has been a latent demand in radio (and it is likely in TV too) for what would amount to a radio-controlled rating service, a counterpart of Broadcast Music Inc. Hooper, until it hit the formidable Nielsen competition, wielded more influence on the economics of radio than any other entity.

Whether the move to set up an audience rating service which would be cooperatively owned gains impetus will depend upon the manner in which Nielsen handles its new and highly sensitive responsibilities, as well as the equity and impartiality of the new localized Hooper network.

So far, from where we sit, the new order looks wholesome and healthy.

All A-Board

MOST hopeful sign on the NAB horizon comes with results of the election of directors.

Last month, on the present board met, there were dire forebodings because at least nine and perhaps a dozen of the 27-man board were slated to leave, either because of disqualification under the revised by-laws limiting continuous service, or of refusal to run again. Among these men were some of radio’s youthful “elder statesmen.” There was fear that their replacements would have tough going in this critical period in NAB affairs.

The results are refreshing and encouraging. The dozen newcomers are formidable broad-casters—several of them in station ownership. NAB members, despite the dark clouds, have taken this election seriously. They have voted their convictions.

We are constrained to single out two new directors for special—and honorable—mention. A. D. (Jess) Willard, for nearly five years second-in-command at NAB, returns to the councils but in this new capacity as regional station representative from WGAC Augusta, Ga., and Edgar Kobak, former Mutual president, snaps back on the NAB board as co-owner of the booming little WTWA Thomson, Ga. This is not to minimize the importance of those elected or reelected.

It must be the pixey in us.

FCC’s Own Ripper Bill

WONDERS NEVER cease at the FCC. A majority, speaking as nearly always through its omnipotent Law Bureau, now essays to write the very legislation to govern its affairs.

You have one guess where the applicant or licensee would stand.

Despite usual secrecy shrouds, we report in this issue the substance of a letter sent by the FCC to Chairman Sadow of the House Radio subcommittee. It is an astounding document, and as its purpose demolition of the McFarland Bill (S-1973) passed by the Senate last session to invoke desperately needed reforms in FCC processes. It would make a mockery of the Administrative Procedure Act, intended to give litigants a fair break.

Indeed, there are passages which the Senate, having unanimously approved the McFarland Bill, could regard as impudent and arrogant. It is a mental assault, designed to retain for the FCC’s lawyers the power to influence Commission policies.

There was a lone dissent. Comr. Robert F. Jones, who for a decade served in Congress, laments the purposes of the ambitious FCC legal missions. He wants Commissioners to act like judges in quasi-judicial proceedings—a prime purpose of the McFarland Bill. He wants no ex parte proceedings wherein the law is made and the law is unjustly applied. He wants the FCC staffers to plead their cases in “open court” rather than in star chamber.

The FCC, of course, will trot out that business of being duty-bound to give Chairman Sanford “due process of law.” The information be sought, so the request had been made in writing. That is only part of the story—and an entirely different story than was told the Senate on the identical legislation. FCC members previously had assured the Senate committee they favored McFarland’s Bill in most particulars.

How the FCC majority will justify its about-face will be a neat trick. What has transpired since to induce the majority to renounce its previous position? Our guess is that the Cottones and the Plotkins and the Solomons can chalk up another “mission accomplished.”

For example, the majority insists it must have staff advice at almost all times (which the McFarland Bill limited). If that is so, then the FCC’s decisions are not the decisions of seven men but of 10 or 12 or 20. We string along with Comr. Jones’ view that if that is the case, then the Senate’s “is not confirming enough emblems of the Commission.”

The FCC would delete the McFarland Bill provision which says that when a court hands down a decision reversing the Commission then it shall be the duty of the Commission to follow the court’s mandate and, unless otherwise ordered, to do so upon the basis of the original record. That’s about as opaque as a freshly polished wind-shield.

The lawyers do not want disturbed the unbroken record of court decisions wherein, by reopening hearings, they have trumped up enough evidence to justify the original action. But they have to reckon with Congress and with Sens. McFarland and (D-Ariz.). There are those in Congress who will see in the measure, which we will call the “Plotkin Bill” for short, an effort not only to justify past FCC actions but to lay the ground-work for actions they have not to take through a Charlie McCarthy FCC.

Frame of the Administrative Procedure Act won’t stand by idly as the FCC lawyers seek to flaunt that hard-won statute. Nor will Sen. McFarland take it lying down. He has the confidence and respect of Congress and the White House.

This time the FCC lawyers may have overreached. They may have played footsy-footsy with the wrong side.

Our Respects To

Norman Boggs

IT IS a matter of record that WMCA New York, a 5 kw independent, has in the past 12 months gone from “red” to “black,” and that the station currently is realizing a 40 to 50% increase in quarterly gross billing over comparable periods preceding February 1949.

It is more than coincidence that this enviable record has been achieved during the comparatively brief tenure of Norman Boggs as general manager of the station.

To Mr. Boggs, who once toured the Orient as a piano-player in a hastily organized college dance band, the results must seem “sweet music” indeed. In fact, WMCA’s sales’ till began jingling just 60 days after Mr. Boggs assumed the managerial helm; furthermore, the station’s revenue has continued to lea and bound.

Norman Boggs had been schooled in sale success, having freshly arrived in February 1949 from WLOL Minneapolis-St. Paul, a 5 kw outlet owned primarily by Ralph Atlas, general manager of WIND Chicago, who served as consultant to WMCA. WLOL also pro- pered under Mr. Boggs’ leadership.

The WMCA resurgence under “Red” Boggs is neither coincidental nor a lucky-inspiring—view of the credo which motivates this stative-native Hoosier.

In a word it is basically, strict adherence to a “realistic rate structure”; a re-stress on personnel duties, particularly with respect to sales; and the belief that radio should never be “sold short.”

A staunch contention of Mr. Boggs is that radio need never slash rates indiscriminately nor offer free time as a come-on to prospect-local advertisers. Rather hesitantly, he points out that, in his opinion, local business New York is “far under” what it should be for a market of its size, and that Chicago stations gross more revenue on that level.

“We are convinced that the lack of a realistic rate structure, as far as the market and competitive situation are concerned, is one reason for that comparison of figures between Chicago and New York,” Mr. Boggs says, “it must restore the confidence of the local advertiser in radio; he has been weaned for years on black-and-white and he still is not sold radio. But the situation is improving.”

He cited the case of a 27-year-old advi- sory who has stuck pretty steadily with WMCA but who thought radio should carry contracts (terminations by the station or short-term contracts) not usually demanded of printed media. The advertiser still is

Broadcasting • Telecast
This is the story of SPRY, and how it was sold by the copyrighted WSAI "Shelf Level" SELLING plan. (59 other products have been sold the same way!) "Shelf Level" means exactly what it says... Radio advertising backed by merchandising... right down to the shelf... yes, right down to the customer in the store and supermarket.

We know it works... and so do our satisfied sponsors. (And evidently others do, too, 'cause we just capped the Billboard Merchandising Award on a national level!)
KPHO STAFF
8 Resignations Announced

RESIGNATIONS effective Feb. 22 of Commercial Manager J. R. (Dick) Heath and the entire sales staff of KPHO Phoenix, including Frank Orth, Charles Stauffer, J. E. Heath Jr. and John Nelson, have been announced by the station.

Gil Lee, formerly with KOOL Phoenix and more recently with Montano-Alsua Agency of Phoenix, has been appointed commercial manager. Agnes McGilvara, formerly owner of KWRZ Flagstaff, Ariz., joins KPHO as saleswoman. Names of other salesmen have not been announced.

Three other resignations also were announced. Leonard Burkland, announcer, resigned Feb. 15 to join KYUM Yuma, Ariz., as announcer. He is succeeded by John Harrington, formerly with KSJP St. Paul-Minneapolis and KYCA Prescott, Ariz. Robert Vache, production director-announcer, left March 1 to become program director-assistant manager at KCLF Clifton, Ariz. Ann Licklider, secretary to Rex Schep, KPHO president, resigned Feb. 15. Her future plans have not been announced.

ENSIGN FRANK J. ROEHRENBECK Jr., son of general manager of WMGM New York, last week won his wings as a Naval flyer.

NEIL HESTER, former front page editor of Raleigh (N. C.) News & Observer, appointed manager of WNAO Raleigh, News & Observer station. He has been with News & Observer for 30 years. He succeeds DUDLEY TICHERNO, now commercial manager at WKBW Buffalo, N. Y. GEORGE T. CASE, WNAO program director, has been acting manager since Mr. Tichener's resignation.

ROLAND LOOPER, commercial manager of WLBH Mattoon, Ill., since September 1946, resigns to become general manager of WHOW Clinton, Ill. He assumed his new duties March 1.

WALTER E. BENoit, vice president, Westinghouse Radio Stations Inc., and Mrs. Benoist are in Havana where Mr. Benoit is conferring with U. S. and Cuba NRBA representatives.

HUGH B. TERRY, KLZ Denver vice president and general manager, named one of four Denver business leaders to head committee to explore possibilities of Denver Safety Council.

JAMES V. MELICK, for past two years executive assistant to J. Kelly Smith, CBS vice president in charge of station administration, named executive assistant to management for CBS Hollywood. He will work directly with CBS West Coast administration set up headed by Howard Meighan. CBS vice president and chief executive officer on West Coast.

In addition he will be in charge of fiscal affairs in Hollywood. He has been with CBS for past 10 years.

JAMES M. LEGATE, general manager of WIOD Miami, recipient of distinguished service citation from National Conference of Christians and Jews. He was cited for his "steady support of community activities that benefit all groups, for his vigorous efforts toward international understanding and for long and loyal cooperation with the Miami Round Table of the Air."

DONALD W. THORNBURGH, president of WCAU Inc., Philadelphia, named chairman of public relations committee of 1950 Cancer Crusade, to be conducted in April by Philadelphia Division of the American Cancer Society.

WILLIAM R. TEDRICK, general manager of KNEM Nevada, Mo., announces opening of station's new studios and offices in Fort Scott, Kan. ROBERT MOREY, KNEM sportscaster will be in charge of Fort Scott operations.

WALTER HAASE, station manager of WDBC Hartford, is author of article, "Talking on Tape," in magazine section of Hartford Courant, Feb. 26.

WALTER M. WINDSOR, general manager of WBAM-AM-FM Columbus, Ga., is the father of a boy, Anthony Beck.

F. W. Geisler
F. W. GEISLER, 65, account executive at Ruthrauff & Ryan, Chicago for 15 years until his retirement three years ago, cancer victim, died Feb. 23, in Chicago. Funeral was conducted Feb. 24. He entered advertising in 1911 and worked for N. W. Ayer & Son, Charles H. Fuller Co.; Thomas F. Logan and Lord & Thomas.

REPRESENTED NATIONALLY BY THE JOHN E. PEARSON CO.
N.Y. BASEBALL

Plans were being blueprinted on further expand regional radio coverage of New York area's three major league baseball teams to a host of stations in various parts of the country, as the fancy-of sports fans began to turn lighty to thoughts of baseball.

It was learned that negotiations are nearly set for a proposed New York Giants baseball network to include stations in New York, Pennsylvania, and through New England, and which would serve to augment the 35-station midwest baseball network.

Arrangements covering identity and number of stations comprising the hookup had not been completed, but it was revealed that the Giants and midwest network would have a maximum of from 50 to 60 outlets, to be linked for broadcasts of Giants or Chicago Cubs contests.

Liggett & Myers Tobacoo Co. (Chesterfield cigarettes) reportedly is set to add the Giants network to its schedule of major league broadcasts. Cunningham & Walsh is the agency.

The new Giants network, while sponsored by Chesterfield, would, however, provide for local participating parts on stations throughout the network structure on a kind of co-op basis. As key to the network WMCA would feed a full schedule of all daytime games, including Sundays, to stations in the eastern zones, and additionally those on the midwest network.

Reports of similar plans on other fronts peak up this activity. The Dodgers last week were reported to be interested in baseball

U. S.-Cuba Pact

(Continued from page 23)

Tested to the State Dept. against the proposal to grant Cuba rights on 1100 kc. He contended the service of WDEL Wilmington on that frequency would be seriously curtailed by the proposed operation.

On the recall of the NAB representative from Havana, NAB President Justin Miller issued a statement protesting the failure to give advance notice to all U.S. stations which would be affected by the proposed agreement.

He pointed out that stations involved in the proposals considered at Montreal last fall were advised of the arrangements being contemplated, and added:

"In the present instances, there is equal reason for notifying affected stations before negotiations have ripened into agreement. Accordingly NAB is, today, notifying all member stations whose frequencies are involved."

FCC Comr. Rosel H. Hyde, chairman of the U.S. NARBA delegation, was advised of Judge Miller's recall of Mr. McNauchten in a letter transmitted by the engineering director before he left Havana.

The terms tentatively agreed upon were submitted by the U.S. delegation as the maximum this country could sanction, and were given initial approval by a 5-2 vote of the Cuban industry advisory delegation, authorities reported. Subsequently, Cuban communications officials were reported to have signed "agreement in principle."

The Cubans, however, were understood to have reserved the right to make further demands if the full NARBA conference results in additional assignments to other signatory nations via any breakdown of U.S. clear channels or realignment of regional facilities.

Whether this might mean renegotiation of the U.S.-Cuban settlement is in event of a pre-NARBA decision in the clear-channel case was not known. The Commission has indicated, however, that it is deliberately delaying its clear-channel decision until NARBA is an accomplished fact.

Increases in the limitations on at least seven other U.S. regions were said to be under discussion, but it was pointed out none of these increases would amount to more than about 0.6 millivolts as compared to the last NARBA agreement. These seven reportedly were:

WDBO Orlando (580 kc); WSVN St. Petersburg (620 kc); WJAX Jacksonville (930 kc); WDSU New Orleans (1280 kc); WCSC Charleston, S.C. (1580 kc); WALA Mobile (1410 kc); and WCOA Pensacola (1370 kc).

...and getting better all the time

Latest Hooper reports show KLZ Audience increases in every time bracket—the only Denver station to do so.

ABC PROGRAMS

Two Below Cost Shows Offered

American Broadcasting Co. is offering two network programs below production costs to advertising agencies in an attempt to build network time billings. Broadcasting learned last week.

The two programs, "Blondie" and "Date With Judy," were offered for $2,000 production price each, for the first 13 weeks, $2,500 for the next 13 and $4,500 for the third 13-week cycle.

Both programs have been on ABC since Oct. 30, 1949, but before that they were CBS shows.

Network salesmen were understood to be explaining the unusually low production price on both programs to agency executives by saying "we're losing money on the show, but the sale of time would allow us to break even."
National Hoopers Sold

(Continued from page 27)

possibly as early as September. Meanwhile, the telephone-based TV reports will be prepared by the Hooper organization under an operating contract with the Nielsen company, which now owns and will henceforth sell and service these ratings.

Smooth Transition

"Arrangements have been made with utmost care . . . to insure for all Hooper network customers a smooth and satisfactory transition to Nielsen network services," a joint release stated. Amplifying this statement on his Wednesday news conference, Mr. Hooper explained that in connection with the preparation of the City Hooper ratings reports for more than 100 cities, Hooper interviewers will continue to collect the information on which the 36-city national network programs reports were based. During the first half of March these data will be compiled as usual, he said, so that any advertisers or agency subscriber to the Hooper network program service can get his March report just as if there had been no sale.

After March 15, Hooperatings for his own program and the direct competition will be made available, on order through the Nielsen organization, at "a reasonable charge" which he said would be lower than was formerly charged for the complete pocket piece. This arrangement can be terminated at any time by either Hooper or Nielsen, Mr. Hooper said, adding that it probably will be continued for those clients who want seven-day reporting service until such time as Nielsen introduces a more speedy delivery of the Nielsen pocket pieces, which now are issued six weeks after the measured period. But the overall rating service will henceforth be issued only by Nielsen from its audimeter records, he said.

COWBOYS ALL were these broadcasters who visited Tucson with their spouses following mid-February NAB board meeting at nearby Chandler and were greeted by Tucson Sunshine Climate Club. L to r: James D. House, Avco-Crosley executive, being 10-gallon-hatted by Mrs. House; Clair R. McCollough, Steinman Stations president, getting similar treatment from Mrs. Mc, and Glenn "Sunshine" Snyder, receiving orthodox protection from Old Sol via Mrs. Snyder.

Nielsen

(Continued from page 27)

that this is a private matter," he said.

In Mr. Nielsen's opinion, the "steady cancellations" of Hooper network accounts were due to the "big impetus" of television. Noting that the Hooper network service covered only the larger urban areas with telephone homes, he observed:

"This is only 20% of the country. Television has hit radio in urban telephone homes very hard. Radio is going to pieces in the areas formerly measured by the Hooper network services. But it is not going to pieces in 80% of the nation's homes. It was an utterly unrealistic measurement when the Hooper company a few months ago began ignoring TV homes in its network radio surveys. They have fooled a few people for a few months, but their steady cancellations have caught up with them."

$7 Million Investment

Mr. Nielsen pointed to an investment by his company of $7 million in the creation of NRI, "the largest single investment ever made in the business of audience ratings." This amount included research on not only Audimeters but also on decoders which tabulate Audimeter records onto cards. He traced the history of the Nielsen Co's interest in audience measurement dating from 1936.

At the outset, three years were given over to laboratory work and subsequently four years in a pilot operation in 200 homes. During the war, "we took it on the chin" because of the shortage of researchers, but after V-J Day the company recruited a large research staff of electronic experts to develop the Audimeter of today.

The first actual installations of this exclusive Nielsen device were in 1942 in 800 homes in the eastern and central states covering an area comprising 25% of the country. In 1947 the service was expanded coast to coast with 1,100 homes spotted over 63% of the nation.

By 1948 1,500 homes had blanketed 97%, or all but the mountain states.

Mr. Nielsen calls his service "not merely a rating facility but a completer of analytical and diagnostic data as well." He says it measures turn-up and audience and minute-by-minute audience curves. His company's inventory of "goods on the shelf" in Audimeter homes is a service augmenting the audience research far beyond.

Mr. Nielsen received a flood of wires Wednesday and Thursday from not only all branches of the broadcasting industry but from advertisers and agencies as well. Message from Samuel C. Gale, vice president in charge of advertising of General Mills, said:

Hope this will represent major forward step in evaluation of radio and television. The consolidation should minimize costly duplication and confusion and provide greater efficiency in development of improved audience measurements of network radio and network television. We are confident that Nielsen's service will be capably staffed and well qualified to meet the challenge of this expanded responsibility.

Stanton Comments

From Frank Stanton, president of CBS, came the "certainty of this step will be welcomed by advertisers, advertising agencies and the broadcasting industry because it will eliminate duplication and confusion and should result in a reduction in cost to all concerned." Mr. Stanton continued:

I am sure you know how solidly the entire Columbia organization has supported and advocated the use of the Nielsen Radio Index over a period of years. This was based upon independent analysis of the validity of your technique. I have also watched and followed your development with special personal interest because I feel the automatic recording device 15 years ago . . . Advertisers, agencies and the industry need badly the best possible measurement service at the lowest possible price because it is imperative that unit costs of advertising and distribution be reduced. I am glad to give you my vote of confidence and support.

Leonard T. Bush, vice president and secretary of Compton Advertising Inc., said:

We believe that the Audimeter method of measurement, when properly done, gives a truer picture of the actual facts than any other method yet devised, and that this material so gathered represents more useful tool to all segments of the industry than was possible through previous measuring service. We hope that the industry will recognize this as a great step forward through the elimination of the confusion resulting from two different yardsticks, and we further hope a belief in the Nielsen organization with the support of the industry will enable us to provide even better yardsticks at a lower cost to its subscribers.

Hooper

(Continued from page 27)

1950-January 1950 average showed TV's share of the New York evening audience had grown to 44.7% with radio's share down to 55.3%. In the same time the weekday afternoon use of TV in New York grew from 86.6% of all broadcast reception to 22.5%—higher than TV share of the evening audience a year before.

In Los Angeles, which he described as running about five months behind New York in TV reception, Mr. Hooper reported the average evening TV audience was accounting for 36.4% of all sets in-use from 10.5% 11 months earlier. The Los Angeles weekday afternoon TV audience has meanwhile grown from 28.8% to 14.5% of the city's total broadcast audience, he said.

"No good statistician would attempt to average New York and Los Angeles radio and TV audiences with those of Portland or Denver, where there is no TV and radio listening gets 100% of the broadcast audience," he said. The fundamental assumption of the "national" network Hooperatings has been, he said, that the conditions under which the measurement is taken remain relatively constant and that the change in size of the index or rank order of the 'rating' is, therefore, a valid indication of change of popularity. That assumption is no longer valid.

Local Emphasis

With the single national index now "comparatively meaningless," the important thing for the national advertiser and his agency to watch is the analysis of individual tastes and the variation between them, Mr. Hooper said. "Our new plan calls for interviewing in all cities in continuous uninterrupted," he explained in a letter to all subscribers to his program Hooperatings.

"The real change is in packaging the information to shift the accent away from emphasis on information in one average index toward analytical reporting of differences between markets," he said.

Details of the new national "packaging" process have not been announced, but they may be expected to follow to some extent the plan proposed to subscribers to Pacific Hooperatings. This plan calls for local audience ratings on TV and radio reported 12 times a year (each report based on a two-month moving average) on Los Angeles, San Francisco-Oakland and the Northwest (Portland-Seattle-Spokane).

The combined reporting of the three Northwest cities is valid currently because Portland and Spokane are without TV and in Seattle TV's audience is fractional," Mr. Hooper's letter explained.

The three reports will be issued in pocket piece form, with radio and TV audiences reported on three different bases: Random homes to furnish directly comparable ratings between radio and TV, "radio only" homes to compare radio with radio; TV homes to compare TV with TV. Chartbooks of radio-TV comparisons will be issued monthly for Los Angeles, San Francisco-Oakland and San Diego.

The new West Coast service will start with a February-March report, to be published April 20. It is being offered to Pacific Coast advertisers agencies and networks at the same price as the former Pacific Hooperatings.

**CBS SESSION**

Coast Group Sees Good Business Year

BUSINESS optimism keyed the CBS 9th District affiliates meeting held Feb. 27 at the Beverly Hills Hotel, Beverly Hills, Calif. Some 35 station owners and managers attended.

In sales, programming and promotion, 1950 will be a "high year" for West Coast radio, they agreed. Attitude of those present was decidedly aggressive and hopeful, said Clyde Coombs, general manager of KROY Sacramento and director of CBS 9th District Affiliates Advisory Board.

Frank Stanton, CBS president and key guest speaker, at the open session told attending affiliate broadcasters of "things to come" during 1950.

Attending the meeting were:

higher than the $62,355,105 gross CBS time sales for 1948, making CBS the only network whose 1949 time sales exceeded those of the year before.

ABC ranked third in 1949 with gross time sales of $42,342,854, a drop of 4.4% from the ABC gross of $44,304,245 during 1948. MBS had gross time sales of $18,040,596 in 1949, down 20.6% from its time sale gross of $22,728,802 in 1948.

For the month of December, the combined network gross time sales totaled $16,408,884, a decrease of 8.6% from the December 1948 gross of $17,050,032.

The December billings for the month, topping second-place NBC by $143,296, with ABC third and MBS fourth. December billings for all networks were lower than those of December 1948. (See Table I for gross billings of all networks for December and the full year of 1949 compared with the same month and full year of 1948.

Combined network total of $187,809,329 was 5.6% below the 1948 network gross time sales of $196,957,424.

**Networks’ Reactions**

(Continued from page 27)

by Oscar R. Katz, director of research:

The absorption by Nielsen of Hooper’s national AM and TV services will do more than eliminate costly, duplicate cation. Such a step, by reducing the confusion stemming from quarrals on points of methodology, should result in increased industry acceptance of rating research.

As Nielsen’s first network subscriber, CBS has had many years of close contact with the Nielsen company. We are confident that the Nielsen organization will continue to improve its service, so that the industry might have the benefit of the best possible rating service at the lowest possible cost.

Niles Trammell, NBC board chairman, wrote to Mr. Nielsen:

Congratulations on your purchase of the Hooper national services. I am confident that the Nielsen company will give you to the broadcasting industry and to the advertisers the radio measurement service that will be beneficial to all concerned. Now that you have a clear field I am confident that the broadcasting industry will benefit from the elimination of wasteful duplication and be the recipient of the many improvements in NRI which have been discussed from time to time. Best wishes.

**RICHARDS HEARING**

**FCC Refuses Preimbursement**

AN FCC hearing examiner refused last week to grant a motion for a six-week postponement of the hearing scheduled to start in Los Angeles next Monday (March 13) on the nation’s largest advertiser. Mr. R. E. Richards, owner of KMPM Los Angeles, WJR Detroit, and WGAR Cleveland.

In his ruling, however, Examiner J. Fred Johnson Jr., who is slated to preside, left the way open for a recess of the proceeding after the Commission has completed presentation of its case in the KMPM hearing.

The ruling came in a pre-hearing conference of FCC counsel and attorneys for Mr. Richards last Wednesday, after the Commission denied a Richards bid for a bill of particulars spelling out the charges against him [Broadcasting, Feb. 22].

Hugh Fulton, of New York and Washington, Mr. Richards’ newly appointed trial counsel, protested FCC’s refusal to divulge the documents it intends to rely upon, and claimed he needed at least six weeks to prepare for the hearing.

FIPST celebrity to salute WEAM Arlington, Va., as new MBS affiliate, was Kate Smith, who is a native of Arlington.

**WQQW**

(Continued from page 26)

and “less than 0” benefits from sales activities.

Labor relations benefits, he said were “excellent” and legal benefit “miscellaneous,” but added that these services could be obtained for WQQW’s own counsel.

As to Broadcasting Advertising Bureau, he said, “Your sales organization, BAN, sends us a lot of material promoting BAN, but the on specific time when we asked to help with a problem our query was brushed off by a functionary.”

Mr. Rogers concluded, “We regret to observe NAB rapidly moving toward becoming the NABB—The National Assn. of Big Broadcasters. Certainly there is room and a need in the United States for a trade organization in the broadcasting industry that treaties all its members on a democratic basis. "If NAB revises its thinking along these lines, WQQW would be the first station to reapply for membership. Otherwise, we can only hope that some other group will be formed.”

**Murine on Don Lee**

MURINE Co. Inc., Chicago (67 location), March 7 starts five-week sponsorship of Breakfast Gang on full Don Lee network (45 stations) Tuesdays through Saturdays (7:15-7:30 a.m. PST) for 13 weeks. Agency is BBDO, Chicago.
NAB Election
(Continued from page 26)

the job to the secretary-treasurer as an economy device.

New directors will assume their duties at a special meeting to be held during the convention. Main announced purpose of this meeting is to ratify the selection of an NAB general manager to serve under President Justin Miller, relieving him of administrative duties. A special board committee is to study candidates for the general manager’s post.

Running against Mr. Fay in District 2 was Gunnar Wig, WHEC Rochester. In District 4 Mr. Esser won over E. J. Gluck, WSOV Charlotte, N. C., and Ray P. Jordan, WDBJ Roanoke, Va. Mr. Bitter was the only candidate running against Mr. Higgins in District 8. J. P. Wilkins, KFBB Great Falls, Mont., ran against Mr. Grove in District 14.

In the large station category, Messrs. Shouse and Eymon won over Paul W. Morency, WTIC Hartford; John F. Patt, WGAR Cleveland; Victor A. Sholis, WHAS Louisville, and Lloyd E. Yoder, KOA Denver.

Medium Group Nominees

Nominees in the medium station group running against Messrs. Willard and Eysau were Mr. Brown; H. Quainton Cox, KGW Portland, Ore.; Rex Howell, KFJX Grand Junction, Colo.; Leonard Kapner, WCAE Pittsburgh; James H. Moore, WSLS Roanoke, Va.; J. W. Rich Morton, KEX Seattle; Robert Tincher, WNAX Yankton, S. D.; O. F. Uridge, WQAM Miami; F. Van Ronynenburg, WTCN Minneapolis.

In the small station group candidates who ran against Messers. McDonald and Kobak were Burton Bishop, KTEM Temple, Tex.; Edward Breen, KFVD Fort Dodge, Iowa; Simon Goldman, WJTN Jamestown, N. Y.; M. L. Greenbaum, WSAM Saginaw, Mich.; Hugh M. P. Higgins, WMOA Maritetta, Ohio; Harry McTigue, WINN Louisville; Marshall Pengra, WATO Oakland, Calif.; Merrill Lindsay, WSOY Decatur, Ill.; Frank Logan, KBNB Bend, Ore.; R. T. Mason, WMRN Marion, Ohio.

Messrs. Sweeney and Thomas were opposed for the two TV directorates, with Mr. Sweeney elected to two-year term and Mr. Thomas to a one-year term.

Votes received by winning candidates for directorships, with percentage of members voting in each group and number of ballots returned, follow:

District 2—William A. Fay, WHAM Rochester, received 81 votes of 85 cast and 113 ballots mailed; 75.2% of members voted.

District 4—Harold Essen, WSJS Winston-Salem, N. C., received 89 votes of 166 cast and 206 ballots mailed; 53.8% of members voted.

District 6—Harold Wheelahan, WSM New Orleans, unopposed, received 75 votes of 130 ballot mailed; 58.1% of members voted.

District 8—George J. Higgins, WISH Indianapolis, received 27 votes of 48 cast and 74 ballots mailed; 64.8% of members voted.

District 10—William B. Quarton, WMT Cedar Rapids, Iowa, unopposed and re-elected, received 20 votes of 104 ballots mailed; 65.4% of members voted.

District 12—Jack Todd, KAKE Wichita, Kan., unopposed, received 40 votes of 57 cast and 70 ballots mailed; 72% of members voted.

District 14—William C. Grove, KFBC Cheyenne, Wyo., received 33 votes of 57 cast and 70 ballots mailed; 58.4% of members voted.

District 15—William C. Grove, KFBC Cheyenne, Wyo., received 33 votes of 57 cast and 70 ballots mailed; 58.4% of members voted.

District 16—Calvin J. Smith, KFAC Los Angeles, unopposed and re-elected, received 89 votes of 55 ballots mailed; 75.9% of members voted.

Large Stations—James D. Shouse, WLW Cincinnati, re-elected, received 36 votes, two-year term; William B. Ryan, KIP Los Angeles, received 129 votes, one-year term; 78 ballots mailed, 60 returned, 77% of members voted.

Medium Stations—A. D. Willard Jr., WGAC Augusta, Ga., received 129 votes, two-year term; John Ensor, KTUL Tulsa, Okla., received 88 votes, one-year term; 550 ballots mailed, 373 returned, 68% of members voted.

Small Stations—Patt McDonald, WHN Memphis, received 10 votes, two-year term; Edgar Kobak, WTWA Thomson, Ga., received 85 votes, one-year term; 504 ballots mailed, 572 returned, 73.6% of members voted.

FM Stations—Frank U. Fletcher, WABL-FM Arlington, Va., re-elected, received 83 votes, two-year term; tied for one-year term with 59 votes each, Craig Lawrence, WCPF-FM Boston, and Ed Strouse, WWTI-FM Washington, 502 ballots mailed, 324 returned, 65.4% of members voted.

TV Stations—Robert D. Sweazy, WINSU-TV New Orleans, re-elected, received 32 votes, two-year term; Eugene R. Thomas, WOIC (TV) Washington, re-elected, received 26 votes, one-year term; 38 ballots mailed, 32 returned, 84.2% of members voted.

TED MacMURRAY
Is Pacific’s Sales Head

TED MacMURRAY, formerly manager of Radio Features Inc., has been named sales manager for the newly-organized Pacific Regional Network by Cliff Gill, general manager, KPMV (FM) Hollywood and head of the new network [Broadcasting, Feb. 27]. Coincident with the appointment, Mr. Gill announced that five additional stations had requested affiliation with the network, bringing the total to 16.

No date is yet available as to when the network will start operations. The chain will be fed by KPMV, 88 kw FM station.

"Peaches," said the Musical Clock...

In 1948 three carloads of Colorado peaches consigned to ME TOO Supermarkets were delayed en route to Cedar Rapids; the fruit arrived ripe. It had to be sold in one day.

It was — by noon.

Announcements on a single WMT program — the Morning Musical Clock — did it.

The story of ME TOO, a regular WMT advertiser since the first show opened in 1937, is told in Lightning That Talks, the All-Radio documentary film which depicts radio’s impact on the U.S.A. The peach sale is no fluke; ME TOO’s daily radio specials sell from 1,000 to 5,000 units. Last May 8,400 sales resulted from a three-for-a-dime soap offer; last November Jello-O at 5c brought 7,000 sales. No attempt is ever made to trade on the established worth of ME TOO specials by trying to slip over a mediocre buy. Each special is an outstanding value.

The ME TOO marketing philosophy is simple: buying and selling food at the right prices—plus smart radio.

In Eastern Iowa smart radio means WMT. Ask the Katz man for full details.

shall advise or consult with the Commission with respect to decisions by the staff, or by any adjudication within the meaning of the Administrative Procedure Act.

They felt the Commission should be permitted to consult such staff members on questions relating to "whether applications, complaints, petitions or other matters should be designated for hearing, the issues to be considered, the form of a hearing, requests for changes in hearing issues, petitions for reconsideration and grant without hearing, and similar matters not involving any determination of the merits of the hearing record."

The majority contended that the position taken by Comr. Jones advocates a ban on "behind-the-door staff assistance" is tantamount to a charge that Commissioners are "incapable of carrying out their oaths of office and of fairly administering the duties assigned to them." Such a charge, they said, "is a canard upon both the members of the Commission and its staff which has no basis in fact."

Staff Advice Public

To this Jones replied that in contested cases he wanted the Commissioners to "act like judges," and that under his proposal the Commission could get all the staff advice it wants so long as it gets all the advice on the record, where it can be subject to cross-examination or challenge by the applicants involved.

At present, the Commission operates in open session, that is, by what some term "completed staff action," and "there is a tendency to delegate more and more of the Commission's discretionary work to the staff so that the discretion exercised by the Commission is more of form than of substance."

There was no claim by the majority that the proposed system would deprive the Commission of any necessary knowledge, but merely that the principle of non-consultation should apply in rule-making or quasi-legislative proceedings.

But under the procedures advocated by Comr. Jones and provided in the McFarland Bill for adjudicating cases, the majority held, the Commissioners would be "cut off from any substantial assistance by members of their staff, even where such staff members might have no functions whatever of a pro- duc tory or investigative nature in respect to such proceedings."

Chairman Coy's letter said:

The majority of the Commission holds that the principle that is embodied in the McFarland Bill and in Commissioner Jones' separate views is fraught with inherent defects, and is at variance with the basic purpose underlying the establishment of administrative agencies. The function of the functions, powers, duties and responsibilities of an administrative agency are such that it is completely unrealistic to suppose that the Commissioner, in the exercise of the discretion of that of a judge. Indeed, the courts themselves have consistently recognized the fundamental differences.

It is obvious, moreover, that the fields of radio and wire regulations committed to the care of the FCC are highly technical in nature, involving substantial technical, legal and engineering problems, and to write a law establishing an administrative agency dealing with these problems as they can be attempted be disposed of only by bringing to bear the expert knowledge of a large number of persons experienced in the various fields related to the Commission's legislation and skilled in the handling of the problems coming to the Commission's attention.

No one or seven Commissioners, with or without the advice of a professional assistant, can hope to achieve such a result as to skill in all the aspects of radio and wire regulations subject to the Commission's jurisdiction. The Commissioners, off from all of its expert staff by denying the Commission the right to consult with its staff could not solve what skill may be an essential function based on insufficient knowledge of the complex factors which should determine any of the decisions in this field.

No Reason Cited

The majority's "principal objection to complete isolation of the Commission from its staff," in the McFarland Bill, Chairman Coy's letter said, "derives from the complete lack of any demonstrated necessity for any such separation."

"Both in its rules and regulations and in the proposal submitted herewith," the letter said, "the Commission has gone beyond the terms of the Administrative Procedure Act to extend to initial licensing or other cases the separation of the Commission's quasi-judicial activities from its prosecutory and investigatory activities."

"But when the separation of functions is achieved there would appear to be no reason whatsoever for taking further steps to cut off the Commission from the members of its staff who are not engaged in prosecutory or investigatory activities."

The letter continued:

"It cannot be seriously contended that members of the staff having no functions whatever of a procedural nature in such proceedings would be inclined to color their recommendations or advice or that they would necessarily be predisposed to an unobjective approach to the problems of public interest which concern the Commission. It must be assumed that the evil which it is believed might ensue is that the Commissioners cannot be trusted to make their own independent judgments on matters concerning which they would receive advice and assistance . . .

In protesting against a proposal in which such an assertion is implicit we are refusing to proceed on the assumption that judgments would be any less the product of our own thinking and conscience, merely because we would receive the expert advice and assistance of individuals employed by us.

In the light of the position taken by Comr. Jones and the McCracken supplemental statement of his views, we believe this point needs more emphasis. To the contrary, his views suggest that staff members who have had no connection with the investigatory or prosecutory aspects of adjudication and who are able to influence the Commission by means of colored or biased views, we believe that they do not present a fair picture of the manner in which the Commission exercises its function of making decisions.

Special Staff Operating

On the McFarland Bill's proposal to create a special staff to aid in consideration of intermediate reports and preparation of final decisions, the majority contended that the Commission has set up a similar staff and that originally the Commission had approved the McFarland plan. Withdrawing this approval, the majority said:

"Experience with the Commission's present review section . . . convinces us that any such narrow limitations on functions of such a staff with which the Commission might consult would be unfortunate."

It would seem particularly unfortunate if the Commission, by reason of the opportunity to consult with the general counsel, the chief engineer or the chief accountant or by reason of the staff who, under the plan contemplated by both the McFarland Bill and the Commission's draft, as well as by plans of staff reorganization now being developed in the Commission, would be given over to the prosecutory and investigatory activities of the functional bureaus.

The fact that these members of the staff might have other duties such as the participation in rule-making, international conferences and litigation, or the making of recommendations to the Commission's jurisdiction and legislation, would appear to be additional reasons why they should not be prevented from helping the individual assistants who, under the plan contemplated by both Bills, participate in the many bureaus of the Commission.

For it is the sum total of their knowledge, experience and expertise in exercising these functions which will render them most useful to the Commission in the making of decisions in contested cases.

Opposing the majority's stand, Comr. Jones asserted that the "basic change made by the McFarland Bill would be to require the Commissioners to act like judges."

He added: "No one doubts that (the assistance of the staff but does require them to exercise their quasi-judicial functions personally."

He contended the selection of li- censees is a function that deserves "more judicial treatment than even civil cases that are tried before judges."

The majority held that administrative tribunals when they are sitting in quasi-judicial proceedings cannot act with the same dignity and make up their own minds in the same way as judges in their courts of law."

Courts Decide Problems

The Circuit Courts of Appeal at the Supreme Court, he pointed out, "frequently decide complicated and technical questions involving all the administrative agencies without the aid of ex parte advice from the experts. The theory that is followed is that the litigants will be more likely to receive the information as their own."

"No reason why courts or administrative tribunals when they are sitting in quasi-judicial proceedings cannot act with the same dignity and make up their own minds in the same way as judges in their courts of law."

Mr. Mooney (right) interview Maj. Wright (center) and Lt. Royal "Doh" Knoy, flight instructor.

LEOPARD HUNT

KTOK Records Air Chase

OKLAHOMA CITY's wild chase for the leopard who escaped his cage last week found local station on the job telling the dramatic story to listeners. As a few seconds of its animal-hunt coverage, KTOK wire recorded the chase from a Air Force helicopter.

The Air Force would not permit a civilian to ride in a service plane with the aid of Maj. David Wright, public relations officer a Tinker Air Force Base, was obtained. The major sat in the plane with the wire recorder on his lap because of space limitations."

Dow Mooney, of KTOK's new staff, took notes from Maj Wright upon the plane's landing to fill out the station's report leopard-hunt "scoop" via birdseye coverage. The leopard was returned to its cage Wednesday morning after devouring an 8 lb. piece of beef dosed heavily with dope.
solving answer another adjudicatory field March 1950 limited MESACYCL.es at a firm staff

opportunity of sion door rather the Commissioners that viewed discretion. McFarland bill's requirement that transfer applications be approved if the transferee meets the minimum requirements of an applicant.

NCF also would decide a McFarland bill provision requiring FCC, before setting an application down for hearing, to notify the applicant and give him a pre-hearing opportunity to answer whatever objections the Commission might have raised.

I was FCC satisfied with the McFarland Bill's requirement that transfer applications be approved if the transferee meets the minimum requirements of an applicant.

Majority, which opposed this provision from the outset, claimed it "would cast grave doubts upon the right of the Commission to prevent tracking common carrier licenses" or other violations.

The FCC bill also would leave intact the present law's provision, deleted by the McFarland Bill, permitting FCC to revoke licenses of persons found guilty of violating anti-trust laws in the radio field. FCC's opposition to removal of this section of the existing law figured in the heated debate in Senate hearings on the McFarland Bill.

The question of providing additional administrative sanctions to the Commission—the power to suspend licenses, issue cease-and-desist orders, etc.—was not touched in the Commission's comments. The majority felt the subject was treated "in a more comprehensive manner" in the pending Sadowski Bill, upon which the Commission had previously offered its views.

The majority said that "with certain exceptions" its bill's provisions with respect to appeals are identical with those in the McFarland measure. One exception is deletion of the McFarland Bill's requirement that, when the courts have set aside an FCC decision, FCC shall give effect to the court ruling without further hearings unless otherwise ordered by the court.

WHY TAKE SECONDARY COVERAGE of Virginia's FIRST Market?

Ralph W. Hardy, director of the recently eradicated Radio Division of NAB, has been named director of the Division of Government Relations, NAB President Justin M. Miller announced Thursday.

The action is the first staff change since the NAB board meeting last month in Arizona, revamped its 1949 structural setup. Radio and TV divisions were created last summer by the board with Mr. Hardy heading the former and G. Emerson Markham, formerly of WGY Schenectady, heading the TV unit. The divisions were inserted in the structure between the departments and the president.

As reorganized, the TV Division is on the same level as the departmenst's Directors were hired at $17,500 a year. NAB is engaged in drawing up details of a new $786,000 budget.

A number of changes are pending in the NAB board room operation. A special board committee is considering candidates for the new post of general manager, who will handle administrative work and report to President Miller. The general manager will be ratified by the board, an action slated during the Chicago convention in mid-April.

Donald S. Farver, NAB auditor for several years, has accepted a position as business manager of the American Forestry Assn. and has submitted his resignation.

Appointed to fill Farver's field director in the office of general manager was directed by the board last month. He will concentrate on new memberships.

Mr. Hardy, who came to NAB last September from KSL Salt Lake City, succeeds Forney A. Rankin as government relations director. Mr. Rankin resigned in February to return to the State Dept.
NAB Meet Agenda

(continued from page 25)

er, is handling detailed arrangements with the Stevens Hotel.

The hotel, with 2,675-room capacity, has reserved 1,400 sleeping rooms, 60 suites and 100 display rooms as well as the basement of Exposition Hall for NAB’s use. Reservation forms have been mailed to mem-

ber stations and associates, with the hotel holding its block of rooms until April 1. Mr. Arney has asked members desiring space at the Stevens to make early reservations.

Broadcast Music Inc., headed by President Carl Haverlin, is making plans for a 10th anniversary celebra-

tion, BMI will use increased space in Exposition Hall and plans a special entertainment program at the annual banquet.

Registration for the Management Conference will be $30. Engineering Conference fee is $17.50, with a $5 fee for the Sunday Independent’s Day meeting. No fees will be charged for the FM and foreign language sessions the morning of April 17.

Under present plans, Management Conference meetings will be held in the Eighth St. Theatre, con-

ference-to-conference sessions on the third floor.

Basic theme of the Monday management meetings will be the responsibility of broadcasters in world affairs, industry and adver-

tising. After the business session Tuesday morning, the topics will be responsibility in government, world radio and television, and duty to coming generations.

A new feature this year, author-

ized by the board at its February meeting, will be the appearance of some of the Voice of Democracy contest winners during the three years the contest has been in opera-

tion.

The Wednesday morning tele-

vision program is being arranged by G. Emerson Markham, director of the NAB TV Division, working with Robert S. D. Stone, Special New Orleans and Eugene S. Thomas, WOIC (TV) Washing-

ton, the two board members for television.

This program, it is understood, will interest both TV and non-TV station operators. Industry leaders will take part and down-to-earth discussions are planned. TV receiving and transmitting equipment will be demonstrated.

The annual exhibit will occupy over 25,000 feet in the Stevens Exposition Hall, under the boards, with a special entrance along the service building wall so exhibitors can back up 34-foot trailers into the basement, using vertical unload-

ing and reloading in Chicago. This entrance being provided at NAB’s request.

Exhibits Open April 12

In charge of exhibit arrange-

ments, as in past years, is Arthur C. Stringer, NAB director of special services. Exhibit opening arrangements are to open April 12. Conven-

tion registration takes place in the basement.

Light equipment and all other transcription and program services will be displayed on the fifth floor, which is called the “Magic Fifth Floor.” Station managers are being urged by NAB to bring program directors and sales managers.

Exhibits will run for seven days—Wednesday April 12 through Tuesday, April 18—and exhibit rooms will be open Wednesday. Exhibitors will be billed for nine days.

Exhibitors in the Exposition Hall will be:

Andrew Corp., Broadcast Adver-

tising Bureau, Broadcast Music Inc., Collins Radio Co., Daven Co., Allen B. DuMONT Labs., Federal Telecom-

munication Co., General Electric Co., General Precision Lab., and RCA.

Light equipment and other ex-

hibitors on the fifth floor will be:

Altec Lansing Corp., Amerex Elec-

tronic Corp., Ampex Electric Corp., Capital Records Broadcasting Sys-

dem, Columbia Transcriptions, Bruce Eells & Assoc., Federal Telephone & Radio Corp., Harry S. Goodman Radio Tele-

phone Productions, Gray Re-

search & Development Co., Graybar Electric Co., International News Service, Keystone Broadcasting Sys-

dem, Lang-Worth Feature Programs, London Library Service, C. F. Mac-

Grew Company, Magnaprobe, Mac/Chlett Labs., Magneco Inc., Mc-

tiosh Engineering Labs., Charles Michelson Inc., Presto Recording Corp., RCA, RCA Recorded Program Services, Raytheon Mfg. Co., SESAC, Standard Radio Transcription Serv-

Programming of the Engineer-

ing Conference will be 60% tele-

vision. This formula is based on a survey conducted among stations by Neal McNaughten, director of the NAB Engineering Dept. Mr. McNaughten will preside over conference sessions along with mem-

bers of the NAB Engineering Committee headed by A. James Ebel, WMBD, Peoria, Ill., committee chairman.

Among papers already on the agenda is one covering an engineering history of the broadcast-

ing industry. It will be read by Raymond F. Curley, NBC man-

ager of radio and allocation engi-

neering.

RCA and NBC engineers will discuss in detail their UHF television experimental station at Bridgeport, Conn. NBC will go into objectives of the tests, with RCA engineers handling antenna and transmitter.

Six FCC and six industry represen-

tatives will meet in the annual FCC-Industry Roundtable to be held Saturday morning as the final session of the Conference. Prior to the formal Thursday opening, a Wednesday evening reception will be held.

The NAB Recording & Repro-

ducing Standards Committee, meet-

ing Saturday afternoon, will dis-

cuss new standards covering fac-

tor (reproducing), turntable and tone arm, electrical and sonic spe-
cifics of center hole, all in connec-
tion with mechanical recording; magnetic tape reel and primary standard range, accommodating 30 minutes of tape.

The second annual Independent’s Day is being programmed by Lee W. Jacobs, KBKR Baker, Ore., pro-

gram chairman, and Mrs. Erma New York, who recently retired as chairman of the NAB Unaffiliated Stations Committee. Mr. Cott has agreed to serve as program consultant on the Sunday all-day meeting, which he directed last year. Two recently elected

THE FOUR TELEVISION networks' gross time sales for the year 1949 totaled $12,294,513, according to data compiled by Publishers Information Bureau and released to Broadcasting last week.

Analysis of the billings by networks shows NBC first in TV network time sales by a wide margin, with slightly more than half of the combined total accounted for in the NBC gross of $6,500,104. CBS ranked second with gross time sales of $3,146,893 for the year, followed by ABC with a gross of $1,391,591 and DuMont with $985,556.

Month-by-month data show TV network business following the normal network curve, rising to a peak in the spring, falling off to a midsummer low point, which was still well above the starting level, and climbing again at a higher level in the fall and winter.

**Combined Gross Up**

Combined network TV gross time sales rose from $423,285 in January to $897,221 in May, dropped to $828,684 in July (between the February and March levels) and hit a new high each month from September on, winding up the year with December time sales of $1,921,166.

RCA was the leading user of video network time during the year, purchasing $900,405 worth to advertise its radios, TV sets and 45 rpm records and turntables. RCA also led the field in December, when its gross purchases of TV network time amounted to $113,430.

RCA's advertising agency, J. Walter Thompson Co., was leading agency in video network time purchases during the year, spending $1,542,513 for this company and other clients. The other TV network advertisers under the JWT aegis in 1949 were Ballantine & Sons, Ford Motor Co., Lever Bros. Co., Libby, McNeill & Libby, National Dairy Products Co., Scott Paper Co., Textron and Wire Advisory Board.

**COLOR HEARING RESUMES**

By LARRY CHRISTOPHER

FCC’s CONTROVERSIAL color television hearing, recessed since last Nov. 22, resumed last week for a three-day session to collect further direct testimony on progress since that time. This included:

- Announcement by RCA that its direct-view tri-color tube developments would be ready for demonstration this month and would lead to a comparatively inexpensive color receiver.
- Statement by both RCA and CTL that their systems were at stage now where they felt ready to sit down with FCC and draw up color standards.
- New demands by CBS for prompt adoption of color, based on six weekends’ intensive testing as requested by FCC and which it was claimed failed to reveal a single deficiency fundamental to the CBS system.
- Indication by Color Television Inc. that in a couple of days it would have ironed out technical kinks which plagued earlier showing of its system to FCC and would be ready to redemonstrate, if FCC wished.

Last week’s sessions were held Monday, Tuesday and Wednesday and took a substantial bite out of the direct presentation still to be heard. The hearing was recessed again until March 15 following the Institute of Radio Engineers’ 1950 convention in New York. It will be heard in three-day segments until conclusion [TELECASTING, Feb. 27].

End of Testimony

The average guess last week indicated the direct testimony may be completed within another three or four days. Then cross-examination would begin. FCC reported applications pending for cross-examination call for the return of practically every witness who has given direct evidence so far. Time estimates for the cross-examination total in excess of 50 hours, but it was explained this figure can range widely either way. With this intensive cross examining, it was believed an underdetermined number of additional days might be taken up in rebuttal testimony.

When such rebuttal might be concluded and the way cleared for FCC to call for resumption of its general TV reallocation proceeding is still open to speculation in all quarters [TELECASTING, Feb. 6].

Dr. Elmer W. Engstrom, vice president in charge of research for RCA Labs, Division, on Monday detailed technical developments in RCA’s “compatible, all-electronic” color TV system since last November and reviewed results of test projects requested by the Commission. Of new achievements he particularly cited automatic sampling synchronization and early phasing to stop color and registration “wandering” [TELECASTING, Jan. 23, Feb. 13]; high level receiver sampling, which cuts video amplifier channels from three to four (Continued on Telecasting 18).
MORE THAN 10 years of planning preceded the inaugural of KSD-TV, St. Louis, Mo., on Feb. 8, 1947, as the first completely postwar-equipped television station in the United States.

The idea of a sister station for KSD, 5 kw AM outlet operated by the St. Louis Post-Dispatch, was conceived by George M. Burbach, KSD's general manager. On November 4, 1939, Mr. Burbach wrote a letter to the Radio Corp. of America expressing the station's interest in television and its desire to be the first in St. Louis with a TV outlet.

Three years old last month, KSD-TV still is the only television station in America's ninth largest market.

Even during the early war years, discussions and correspondence between Mr. Burbach and RCA officials continued, and by November 1945, KSD boldly requested RCA to assign precedence ratings for TV equipment to be ordered by the station. Six months later the Pulitzer Publishing Co. board of directors approved KSD’s television plans and within two weeks an application for a TV construction permit was filed with the FCC.

KSD-TV had to wait two years to order its equipment, but, once it was ready, lost no time in getting delivery. Part of the equipment was flown to St. Louis by the Post-Dispatch-KSD plane in time to telecast the city's famous Veiled Prophet Parade and Ball, Oct. 8 and 9, 1946. These events, carried over a closed circuit, were viewed by 100 special guests of the station in a viewing room set up in the newspaper building. By Feb. 3, 1947, KSD-TV was ready with its first test program, using temporary studios and a portable transmitter located in the old KSD plant on the roof of the Post-Dispatch Building. A group of RCA dealers watched the program at Hotel Statler, six blocks away. It included a man-on-the-street program, a sportscast, interviews with RCA executives, and films.

Five days later station was on the air with News and Views.

INAUGURATION of NBC Midwest Television Network in St. Louis' Kiel Auditorium Sept. 20, 1948 was featured by an entire program originated through the facilities of KSD-TV.

Ball Room Dancing, and man-on-the-street and sportscast shows similar to those telecast on the test program. Within two days KSD-TV had signed 13 sponsors: Union Electric, Trimfoot Shoes, American Packing, Elgin Watch, Monsanto Chemical, Bulova Watch, Duroy Manufacturing, Botany Inc., Hyde Park Brewery, Johnson Shoe, Shell Oil, Remis Bag, the Missouri, Kansas, and Texas Railroad.

By July 1947 a new transmitter and tower were placed in service and in September 1948 KSD-TV had an opportunity to demonstrate the excellence of its facilities by originating, in conjunction with NBC, a pre-Midwestern Television Network show from the city's big Kiel Auditorium. And if this were not enough to convince St. Louisans that television was there to stay, KSD-TV carried the Cleveland end of the 1948 World Series games via Midwestern Network.

SINCE the linking of the eastern and midwestern TV networks in January 1949 the station not only has picked up such headline events as the inauguration of President Truman but has originated nationally important programs of its own. Last November, KSD-TV covered both the wedding and subsequent reception of Vice President Alben W. Barkley and the former Mrs. Hadley. It was the first time the station had handled two events remotely.

KSD-TV fed the Barkley-Hadley events to the NBC television network, with which it is affiliated. However, the station has agreements with CBS, ABC, and the DuMont TV networks as well.

The station's investment in equipment is approximately $800,000. Its main studio, in the Post-Dispatch Building, is 20 x 24 feet, with a 22-foot ceiling. The wall and ceiling treatment is of rock wool blanket and perforated tiles, and the floor is isolated from the rest of the structure to eliminate unwanted sounds. A lighting grid is suspended two feet below the ceiling to facilitate the mounting of lights, microphones, props, etc. One of the permanent sets in the studio is a complete kitchen. A second smaller studio also is available.

The control room is elevated slightly above the studio floor giving the director a commanding view of the studio and the various monitors. The projection screening and film storage facilities are located on a mezzanine floor convenient to the television studio and general offices.

Two image orthicon cameras are normal, and remote cameras can be transferred there easily when needed. Audio facilities consist of a six-channel consolette with the necessary auxiliary amplifiers for feeding outgoing lines. Facilities of the KSD master control room are available when required.

KSD-TV's projection room is equipped with an iconoscope film camera, a 10mm projector, two automatic slide projectors and a custom-built balistocrat. The layout of equipment lends itself to smooth transition when the picture is changed from one device to the other.

The station's 5 kw transmitter and tower are located on the Post-Dispatch Annex Building, adjacent to the studios. Antenna is an RCA Supertelevision and is 544 feet above street level. KSD-TV operates with 16 kw ERP. Mobile unit, also RCA, is equipped with two image orthicon camera chains. A voltage regulator and the usual remote audio and lighting equipment also are included. The studio master switcher is a custom-built job.

Directly above KSD-TV's control room, a clients' observation room has seats for 20 persons who may watch a program on the screen of a TV set or look down into the studio through a glass panel. Another observation room extends 40 feet across an entire side of the main studio, with seats for an audience of 40. Window areas of this room are unglazed so that laughter and applause can be picked up by microphones on the stage below.

The visitor to this balcony notes that the station's studio facilities, and the flexibility of portable equipment make it possible to have as many as four stage settings in use at the same time, with each set properly lighted and "dressed" for its part in a video show. There are complete facilities for producing virtually every type of studio telecast, from an informal interview between two persons over a tea table to elaborate musical and dramatic productions requiring large casts and many changes of scene.

THE entire St. Louis metropolitan area of 1,500,000 is blanket by KSD-TV's transmission. Although the theoretical range of reception is about 50 miles, regular program service reaches out 65 to 90 miles, and good reception has been reported from places many miles farther away.

Six months after the station took the air, there were less than 2,000 TV sets in the area. Today there are approximately 90,000, and research analysts report a number of times greater. Manufacturers and dealers of set (Continued on Telecasting)

KITCHEN set north and of KSD-TV's main studio, shows clients' observation room above control room and audience observation balcony at upper left.
This brand can pull audience for your brand in Washington, D. C. Just a few short weeks ago, (five, to be exact) WNBW began the "Circle Four Roundup," providing an organized vehicle for Western movies at four o'clock each afternoon, Monday through Friday. To prove audience and measure reaction, WNBW offered the "Circle Four Roundup Rangers" membership card to youthful viewers.

The results have been literally overwhelming. Over 20,000 members have written in to date. The one-hour-and-fifteen-minute period holds a 24 rating, ten times the highest rated competition on three other stations at the time.* These loyal WNBW fans are waiting for your message. Participation in regular meetings of the "Circle Four Rangers" is available. Call WNBW salesmen, or NBC Spot Sales.

Reasons for the sensational audience acceptance of "Circle Four" promotion and programming hint of other choice locations. A hard-hitting threesome is yours on WNBW . . . . habit viewing, strong promotion and choice programming. In a recently concluded survey,* it was not by chance that WNBW, with at least two other stations on the air, held 76% of the 1949 quarter-hour periods rated as either first or second in popularity.

*American Research Bureau

NBC TELEVISION IN WASHINGTON
Estimates 1950 Set Production at 51-3 Million

(Report 101)

**NEW HIGH estimate for 1950 TV set production—51.3 million—was made last week by Television Shares Management Corp., Chicago TV investment firm, after extensive research with manufacturers of receivers and components. This figure is three-quarters of a million more than the previous top estimate, made informally by board members of the Radio Mfrs. Assn. at their quarterly meeting in Chicago three weeks ago.

New statistics were gathered by Edgar N. Greenbaum Jr., of TV Shares, who interviewed executives of the top 20 manufacturing firms, checking their projected figures with that of component suppliers.

Possible factors which could reduce demand and production drastically, however, according to Mr. Greenbaum, are (1) impairment of the general economic health, (2) critical shortages of component parts, such as cabinets, condensers, receiving tubes and resistors, (3) imposition of the proposed excise tax, and (4) prolongation of the freeze.

**Expected set production for the top 20 manufacturers follows:**

The next 12 manufacturers in order of expected production are Bendix, Fada, Hofman, Muntz, Noblitt-Sparks (Arvin), Sentinel, Sparks-Withington (Sparton), Stewart-Warner, Stromberg-Carlson, Tele King, Trav-Ler, Wells-Gardner.

**New Across-the-Board Rate for WPTZ (TV)**

NEW rate policy for across-the-board advertisers on WPTZ (TV) and three other stations was announced by Alexander W. Dannenbaum, the station's commercial manager. Mr. Dannenbaum disclosed that all local programs of five minutes or more in length which are televised on five consecutive days per week will be available at the new rate of four-fifths of the regular cardinal rate for the five programs per week. Under the new structure, he explained using a Monday through Friday program now receives across-the-board coverage for the former Monday through Thursday coverage in specific market areas.

Frequency discounts on WPTZ are accrued at the rate of $50 for 26 consecutive weeks and 10% for 52 consecutive weeks of telecasting.

**Woodbury College Starts TV Survey**

WOODBURY COLLEGE, Los Angeles, March 1, started two-week survey in Los Angeles area on television audience habits. Among information being sought is program choice; sports attendance, reading and viewing habits; television's impact on viewers' home life; social and economic influences of television. In addition to Los Angeles study, the college will conduct special "fringe area" study in counties of San Diego, Riverside and Santa Barbara.

Professor Hal Evry is conducting the survey, the college's third. Students are assisting in the door-to-door operation.

**WMCT Promotion Increases Set Sales**

HEAVY promotion by WMCT (TV) Memphis of interconnection to coaxial cable (see TELECASTING 15) has resulted in a large increase in television set sales in station's coverage area. During February 4,675 sets were sold, the station reports, with many dealers reporting large back orders on hand.

Station also has completed a survey of set sales by factories direct to dealers. WMCT previously had reported only sets which passed through the hands of distributors.

**AM-TV RATING**

Texaco TV Show Tops in N. Y.

A TELEVISION show, Texaco Star Theatre, had the largest New York audience of any program, either radio or TV, broadcast in that city in the first week in December, C. E. Cooper Inc. reported Wednesday. Coincidental telephone interviews with New York families showed six TV programs among the December first 15, which were:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

If the combined TV and radio audience for Godfrey's Talent Scouts, a simulcast, are taken as a single audience, that program was rated No. 1 with a total rating of 27.7.

**Booklet for Doctors**

BOOKLET titled "Color Television at Medical Conventions" has been mailed to more than 125,000 physicians throughout the country by French Labs, manufacturer of pharmaceuticals, announced last week. Purpose of the booklet, the firm says, is to give schedule of the lab's color television demonstrations at medical conventions.
Yes, if it’s sales success you want—it’s WGN-TV in Chicago.

This testimonial to WGN-TV’s effectiveness came from a Chicago automobile dealer. The amazing record of 15 cars sold, plus the one hundred prospective buyers, resulted from the firm’s first program on WGN-TV.

Add this to WGN-TV’s growing list of result stories, and you’ll see why more and more advertisers recognize WGN-TV as the top television station in Chicago.

In Chicago... Channel 9 is more than a number... it's a habit.

in WBAL-TV education. Dunham, education, WFMY-TV. North. tor, Education. L. LOS Dunn, Scheduled plant throughout for public education. Dunham, a... Angeles.

WASHINGTON, Washington, has been with the organization 12 years, starting as an announcer. Guy Yeldell, a 25-year man, has been sales manager four years. Edward Hamlin is commercial manager. Ed Risk is chief engineer and Dave Pasternak, promotion manager. KSD-TV's roster of 37 employees includes 20 on the technical staff and 17 in administrative and production work.

A definite vote of confidence in KSD-TV's future is voiced by Mr. Burbach who declares: "KSD-TV is operated in the red for two and one-half years, however operating profit is now increasing each week. In two or three years profit will be coming from the network, and we will have the best radio year. Profits from audio should gradually increase the low earning level of 1949. The combined earnings from radio and television should far exceed any former record profit of audio only.

KSD-TV's appeal to advertisers and effectiveness of the television medium in St. Louis are revealed by the following letter, which was a recent press bulletin, issued to all sponsors, five days a week: In 1948, 57 sponsors, five days a week; in 1949 75 sponsors, five days a week, but a total of 125 sponsors at various periods in the year.

Numerous examples could be cited from the files of KSD-TV's 125 advertisers to show the effectiveness of the medium, ranging from local to national and in increase in dealerships. However, these few reports show the trend:

Bryan David Entertainers, sponsored by RCA. Distributed to two one night weekly, started more than two years ago and is still very popular. It features a pianist playing request tunes, and a vocal soloist. During the show four phone calls are made to the TV audience for answers to a musical quiz. Mail has been coming in good. For a test, a small mechanical pencil was offered to anyone requesting a new one to play on. A total of 1,280 were awarded in one week.

Fur-Favorite Cakes. One announcement on a local show of records and chatter (4 to 4:15 p.m.) brought more than 500 requests for cards entitling viewer to a free cake.

PDo Company. Nine one-minute announcements at 5 p.m. each week, 1,900 requests for free samples of company's products, PDo, BiaDo, and a plastic apron. No box tops or evidence of purchase was needed only a postcard with viewer's name and address.

Garland's. In a series of programs during which furs were modeled, three sales of mink coats, each costing $3,000 resulted from the one program devoted to mink coats.

Parity Bakers. Sponsorship of Cardinals baseball games during a three-month period stimulated sales, and campaign considered highly successful.

Breweries have sponsored various sporting events on KSD-TV with outstanding success. Griesedieck, Falstaff, and Stag are continuing sponsorships of baseball, hockey, wrestling, bowling, Golden Gloves fights, harness racing, and mid-day radio programs.

The station's local rates are $350 an hour for "A" time and $210 for "B" time. Network "A" time is $425 an hour.

KSD-TV is promoting itself outside the columns of the Post-Dispatch. Last fall a large display ad in the Advertising Club of St. Louis Weekly pointed to the large number of "readily-recognized brands being advertised to the station's audience. The advertisement stated:

"For the advertiser who is still uncertain whether television should be given any consideration when preparing his next promotion budget, KSD-TV submits a list of some of the recognized brand names of products which are being advertised to the purchasing-sponsored KSD-TV audience."

L. Academy Day

LOS ANGELES Advertising Club will hold "Academy Day" at its regular meeting March 28 in honor of the Academy of Television Arts and Sciences, Los Angeles. Lloyd Dunn, vice president of Abbott-Kimbals Co. of California, will be chairman of the day.

The combined earnings from radio and television should far exceed any former record profit of audio only.

AD COUNCIL ISSUE

Plans Bi-Monthly TV Bulletin

THE ADVERTISING COUNCIL has begun to issue a bi-monthly television bulletin to keep the industry posted on major public service campaigns. The bulletin will provide advertisers, agencies, networks, stations and program producers with information on material available from the Council for use in campaigns.

Stuart Peabody, assistant vice president of the Borden Co. and chairman of the radio and television committee of the Council, said that the bulletins are to be issued because the Council had received numerous inquiries regarding availability of television material.

WGN-TV Drops Sox
WGN-TV Chicago last week dropped its option on exclusive televising rights to Chicago White Sox baseball games because the "ask- ing price was too high" and the station did not sell the entire series. Although Peter and Bakery Corp. to Chicago, for Meister Brau Beer had signed for a third of the games including some pre and post pro- grams, income would not have been enough to justify the expense, station officials said. Charles Comiskey, Sox vice president, is reported to have asked $125,000 for TV rights alone.

**THE PULSE of ST. LOUIS**

Available March 7, 1950, the first Pulse report for the St. Louis metropolitan area will cover radio listening for January-February.

The Pulse of St. Louis will be issued bi-monthly, and will utilize the same interviewing technique employed in other Pulse radio reports.

Other Pulse Radio Cities are:

- NEW YORK
- PHILADELPHIA
- LOS ANGELES
- CHICAGO
- CINCINNATI
- WASHINGTON, D.C.
- BOSTON
- SAN FRANCISCO
- NORTHERN NEW JERSEY

Monthly Telepulse Reports are issued in:

- NEW YORK
- BOSTON
- CINCINNATI
- PHILADELPHIA
- CLEVELAND
- CHICAGO
- LOS ANGELES
- WASHINGTON, D.C.

is a warm-hearted, audience-holding CBS Package Program custom-tailored to the needs of an alert advertiser.

Louise Allbritton and Scott McKay co-starred in a vivid and suspenseful saga of the ups and downs of American show business.
WITH heavy emphasis on the fashion theme but also pointed up with features aimed at the family audience, Wolff & Marx Co., San Antonio department store, has launched what is claimed to be the first complete, live teletcast devoted to style advertising in the Southwest.

Titled Fashions In Your Living Room, the program is scheduled Monday nights on WOAI-TV San Antonio. According to Norman C. Netter, Wolff & Marx president, the series is designed to take advantage of the intimacy, informality and timeliness offered by the TV medium adapted to the particular requirements of fashion presentation. Local interest features are introduced to appeal to the family audience.

Invitations to view the premiere presentation in the television homes of San Antonio and vicinity were mailed to the thousands of Wolff & Marx charge account customers in the area. Newspapers also figured in the heavy promotion. Produced and placed by Bernard M. Brooks Advertising, San Antonio, the teletcasts are supervised by Carl Proll, Wolff & Marx publicity director. Leon Bender, the store’s fashion coordinator and stylist, handles commentaries and presentation of merchandise and models. Also instrumental in arranging the series were Fred Vance of WOAI-TV and Paul Forchheimer of the Brooks agency.

WBAP-TV Ft. Worth, Tex., has reduced its use of film by one-half in past year, station reports.

MEMPHIS TV

AT&T Announces Network Interconnection

AT&T last week announced extension of Bell System’s network television facilities to Memphis, Tenn.—the first addition in 1950—with completion of coaxial cable by Southern Bell and AT & T’s Long Lines Dept.

Memphis became the 26th city capable of receiving direct network teletcasts through Bell facilities, which now extend about 9,000 channel miles. Additionally, Memphis now is the southernmost point served by network television. The new link was made possible by adding special equipment to an existing section of cable running south of St. Louis, according to AT & T’s Long Lines Dept.

Network service should be available by the end of this year to more than 40 cities, stretching north to Minneapolis, south to Jacksonville, Fla., and west to Omaha, the Long Lines Dept. said. Network will cover roughly some 15,000 channel miles.

Other plans

Other cities slated to be hooked up in 1950 include Norfolk, Va., by April and Greensboro and Charlotte, N. C., Atlanta, Birmingham and Jacksonville by September. They will receive video network programs by cable running south from New York via Philadelphia, Washington and Richmond.

Programs from New York reach St. Louis via Chicago. Enroute to Memphis the cable crosses the Mississippi from east to west at St. Louis and again, from west to east, at the Tennessee metropolis.

Network television service also is being provided in some areas of the nation by radio relay. Construction is underway between New York and Chicago, Chicago and

‘CENSOR’ CHARGE

GETSCHAL Accuses Paramount

BUDD GETSCHAL, head of Getchal & Richard, New York advertising agency, has sent a letter to Barney Balaban, president of Paramount Pictures, accusing Paramount of “bullying and intimidation.” He charges the firm with seeking to “censor” a series of radio commercials and newspaper advertisements placed in behalf of Frost Television stores which have been broadcast over New York radio and television stations and published in newspapers recently.

The advertising executive said the Frost stores had been employing a sales message which included the fact that it was possible to buy a television set on a credit plan at the rate of “less than the cost of two movie tickets per week” and get “much more entertainment.”

Mr. Getschal said that a Paramount official wrote to radio stations threatening that the company would stop all motion picture advertising on the air unless the copy were altered to exclude the phrase.

FILM fills an important place in television station operation. On stations not interconnected by coaxial cable or microwave relay this place is often vital. Because of that importance TELECASTING presents this up-to-date list of film buyers and, where available, the number of hours of film used by each station. Although conditions vary widely from station to station, an average of 10.28 hours of film a week was used by those outlets where figures are available. The average for noninterconnected stations is slightly above the average for all stations—12.46 hours per week—while interconnected stations showed an increase of 8.58 hours per week devoted to film programming.

**The only Michigan TV Station outside Detroit**
Color Hearing Resumes (Continued from Telecasting 3) one, and portable field pick-up equipment, as well as the tri-color tube work.

Dr. Engstrom, stating the direct-view tri-color tube work was “on schedule” as promised last fall, testified that several types of tubes are in varying stages of progress.

“Two of these types are undergoing tests in research model receivers and both show an attractive picture with good resolution and good color,” he said. “The other types... show considerable promise, although they are not as far advanced in development as the two types which we shall demonstrate. Within the next few weeks we expect to make this demonstration.” This meant during March, he said.

The RCA witness explained that this single tri-color picture tube development would mean RCA could produce “in the not too distant future a fully-electronic color television receiver with but 10 to 15 tubes more than for a comparable black-and-white receiver.” The RCA 16-inch monochrome tube model set now has 27 tubes, he said, and the simplified three-tube color set now at the labs has 64 tubes.

Upon questioning, Dr. Engstrom estimated this meant that a direct view color set will cost only 1½ times a comparable black-and-white set, not counting the tri-color tube itself which no production cost estimates are available at this early period. He explained that increasing the size of the tri-color tube made its production problem simpler.

He also said the tri-color tube could be used in the CTI and CBS systems and would eliminate the mechanical features of the latter. Here Comr. Frieda B. Hennock asked what objections of his concern then remain to the CBS system and he replied CBS lack of compatibility and performance. He said RCA’s system still has better resolution, flicker-freedom, brightness and clarity.

Chairman Wayne Coy pointed out that the Chapin-Roberts automatic adapter, which allows monochrome sets to reproduce both the CBS and RCA color signals in black-and-white, solves the compatibility problem. He indicated that with 4,000,000 sets now on the market and annual production running at the same figure, two-thirds compatibility would be achieved in only two years.

Standards Issue

Regarding standards for color TV, Dr. Engstrom reminded the Commission he had testified last September that within six months RCA could “talk standards” and that it was now ready to do so in view of the great progress realized since that time. He conceded in some respects not all necessary information was available yet, but that these few details would not require further delay.

In receiving considerable detail of RCA field tests and system developments, Dr. Engstrom also informed FCC that “we shall probably have a group of receivers available for use by persons other than members of the RCA technical staff” which would permit public participation in testing of color equipment.

Adrian Murphy, CBS general executive vice president, on Monday afternoon outlined extensive equipment and public reaction tests which CBS has conducted in the field since last November. Of these tests were carried out substantially as planned,” he said, “without the assistance of any major equipment manufacturer, and without even the offer of such assistance.”

Stressing that CBS has made every effort to supply facts called for by FCC last November upon receiving the hearing, Mr. Murphy reviewed the objectives of the CBS efforts with those of RCA and Radio Mfrs. Assn. “in providing concrete information to assist the Commission in reaching a constructive decision.

He charged that the “delinquency of RCA and CBS in providing their respective shares of the data concerning the CBS efforts not be permitted to frustrate the public interest in the prompt adoption of color.”

This charge drew immediate request from Comr. Hennock for specific details. Mr. Murphy said RCA has installed no sets in homes, has given no public showings and not supplied needed cost estimates.

Mr. Murphy outlined the public tests made at the Walker Bldg., in Washington, where 18,000 people saw 60 shows during Jan. 12, Feb. 1 and Feb. 13-21. These were related to Philadelphia and New York where additional public showing was possible. He also reviewed color TV medical demonstrations held in Washington, Chicago and Atlanta in conjunction with Smith, Kline & French Labs., technical tests made by others and equipment refinements. In summary he said: “CBS color television tests we conducted here revealed no specific problems or difficulties as to transmission system, color apparatus, color station operation, or color network operation. Such problems as we did encounter were identical with those met by RCA in their black-and-white television operations.”

Back on the stand Tuesday morning, Mr. Murphy was questioned closely by Edward K. Wheeler, RCA counsel, on CBS refusal thus far to be represented on RCA’s new National Television System Committee, which will work on color standards.

Mr. Murphy said CBS could not join until the network was advised of the FCC objectives, but would participate if assured the committee would consider “compatible” as well as compatible color systems and would not be used a delay color.

In response to Comr. Hennock, Mr. Murphy said he felt FCC could adopt either rigid one-system standards for color, or broad standards which would permit the use of more than one system.

He said he would prefer the RCA color system if it were proved to be no more expensive than, and at the same time it would out-perform the CBS system.

Murphy's Stand

Mr. Murphy contended, however, that the RCA system, although “compatible” with present black-and-white standards, could not provide color TV on a network basis at the present time since existing coaxial cables turn RCA color into monochrome. He was reminded that a radio relay now being completed between New York and Chicago will permit transmission of RCA color in color.

Jay W. Wright, CBS chief radio engineer, presented data on color TV interference tests he which he said showed that the differences between interferences of the color, CBS 405-line black-and-white, and standard 525-line black-and-white systems to both color and monochrome “are so small that they should permit adoption of the same general allocation standards and the same assignment of channels, regards of which type of transmission is employed.”

In answer to FCC questioning, Mr. Wright said he felt FCC proposed to separate co-channel stations by about 220 miles should be “modified downward.”

Dr. Jack W. Dunlap of Dunlap & Assoc., New York, reported on a survey of doctors' reaction to CBS color TV at the American Medical Assn. meeting in Washington last September.

He said 74% of those interviewed considered overall quality of the color pictures to be very
DuMONT’S COLOR SYSTEM
To Introduce Unit for Closed-Circuit Use

ALLEN B. DU MONT Labs Inc. today announced a new color television system, designed for closed-circuit broadcasting and of use in medical, industrial and merchandising fields.

The system was to be introduced at the annual convention of the Institute of Radio Engineers in New York (see story page 28).

The DuMont system consists of a camera head including the DuMont electric viewerfinder; a revolving lens turret with position for four lenses and focusing control in the camera panhandle; camera control equipment, including facilities for monitoring in operation of the camera up to 1,000 feet from the monitoring equipment; color mixing equipment providing facilities for individual adjustment of each of the system’s three basic colors; power supplies in an individual high intensity 13-inch cathode tube color receiver monitor. The monitors may be installed in quantity.

The system is described by Dr. Peter C. Goldmark, inventor of the CBS system, as “the most serious threat to color TV systems could be similarly kinescoped.”

Dr. Peter C. Goldmark, inventor of the CBS system, said the Navy achievement meant film networking of color TV has become practicable.

Because of repeated concern during the hearing over the CBS system’s use of a mechanical color wheel, Dr. Goldmark highlighted the history of color development for non-broadcast applications. It is called model TA-164-A Industrial Color Television System, operates on a broadcast bandwidth of 6 mc, and includes a video modulator.

The new system is available commercially, and Dr. Allen B. DuMont, president, DuMont Labs, said its uses would be numerous. “Wherever immediate and accurate sight is necessary for control,” he said, “television can help cut time, cut costs and improve efficiency. . . . This system has been designed specifically for the best possible pictorial service and operating efficiency.”

Asked why his survey did not include a question on whether the public would pay for a set requiring a color wheel, he said he had not been asked by CBS to study this phase. He also said CBS drafted the questions which his firm checked and modified where necessary.

Col. Donald K. Lippencott, San Francisco attorney and engineer, testified at length on CTI technical improvements and equipment, indicating that the experimental test setup showing was superior to the Washington showing which suffered technical kinks. “Given another year,” he said, “we could astonish everyone.” CTI’s system will not be ready for commercialization until that time, he indicated.

Ready for Standards Talks

Col. Lippencott said CTI was ready for standards talks now, but personally he preferred to wait another year. He contended the CTI system essentially is the simplest, most compact system and has the most possibility of improvement. The witness believed none of the three systems have shown all they can do, but considered CBS’ method as complete as it ever will be and hence ready for standards now. He specifically disliked CBS’ lower resolution potential.

The CTI witness commended DuMont’s color tubes for the CTI system and cited the extensive cooperation of RCA in supplying equipment and scarce materials. He said Philco supplied two engineers for a month to help develop a color correction control and other components. In all other contacts both in Washington and San Francisco, CTI received willing aid, Col. Lippencott repeated.

Commdr. Walter Frazer of the Navy’s Washington Photographic Center, Research and Development Dept., appeared to relate successes in filming the CBS colorcasts in standard 16 mm-color. He felt all color TV systems could be similarly kinescoped.

THE SECOND EDITION of NBC-TV’s Saturday Night Revue, two-and-a-half hour variety show, was to be telecast Saturday March 4, with one of its five half-hour periods sold.

The first three sponsors were RCA, United Fruit Co. and Swift & Co. Each bought a single one-minute spot in the 9:30-10 p.m. segment. At week’s end NBC-TV believed other sales were near.

NBC-TV salesmen were reinforced on their rounds last week by a healthy Hoopster scored by the program on its first presentation Feb. 25. The average rating of the show in a special Hoopster survey in Washington, New York, Chicago and Cleveland was 58.4 for the entire 8-10:30 p.m. spread. By half hours, beginning at 8 p.m., the ratings were 35.5, 37, 39.6, 40.2, and 39.8.

The program stars Jack Carter in the first hour, originating in Chicago, and Burgess Meredith, Sid Caesar and Imogene Coca in the second hour and a half from New York. Guest stars scheduled for last Saturday were Don Ameche and Gertrude Nielsen in the Chicago portion and Mischa Elman from New York.

fast-growing market!

The San Antonio TV market (less than three months old) already has over 10,269 sets and is growing by leaps and bounds. WOAI-TV presents country music and locally produced programs which are combined with top shows from three great TV networks, NBC, CBS, ABC. We’re building and holding an enthusiastic audience. To entertain and sell South Texas there’s no substitute for San Antonio’s FIRST television outlet, WOAI-TV.

## WMAR-TV

**Baltimore Station's Evening Hooper Outstrips Radio**

WMAR-TV Baltimore, CBS affiliate owned and operated by the Sunpapers, reported last week that it is the first television station in a major American market to outstrip standard radio and emerge with the greatest evening audience in its market.

The Baltimore outlet's claim is based on the TV Station Audience Index published by C. E. Hooper Inc. for the two-month period of December 1949, and January 1950. WMAR-TV reported that its Sunday-through-Saturday average for the 6-10:30 p.m. period was 20.2% of the broadcast—radio and television—audience, and 43.7% of the television audience.

In addition, WMAR-TV said Baltimore, ranked as the greatest city in population, also increased its lead as the country's number one television city. Video viewers in Baltimore for the same two-month period—during the 6-10 p.m. Sunday-through-Saturday averages—amounted to 46.1% of the evening broadcast audience, the station claimed. WMAR-TV also pointed out that this Hooper report is the fifth consecutive one which has put Baltimore at the top of the TV list.

### TV'S CHALLENGE

Grabhorn Predicts Trends

RADIO's approach to television is one of "cautious reserve" because TV is AM broadcasting's major challenge, in the opinion of Murray Grabhorn, ABC's vice president in charge of O & O stations. He addressed the Chicago Radio Management Club Wednesday, Radio, however, is "facing TV without fear; it has its thoughts on the future and isn't looking back. It will have vast new opportunities ahead," he said.

Mr. Grabhorn thinks television will bring about trends including:

1. New concepts of show frequency because of high expense, for example, of a 15-minute strip, with advertisers taking a more realistic view of cost in relation to impact, (2) purchase of a dozen or so TV shows per year, similar to ordering magazine color pages; (3) emergence of new advertisers who will provide a large percentage of television's revenue; (4) revision of advertising budgets, with a smoother path for video to walk down, and (5) inclusion of television as both a sales and an advertising budget item, with a resultant release of additional appropriations. Durable goods would come under jurisdiction of the advertising department, with consumer goods relegated to sales, Mr. Grabhorn believes.
MADEMOISELLE magazine to launch series of one-minute television films based on fashions from each issue, according to Betsy Talbot Blackwell, editor-in-chief. Program involves unusual four-way production and distribution tie-up which includes magazine, fashion manufacturers, department stores and Vista Productions, New York, which will produce films. Manufacturers whose merchandise is featured will pay production cost. First series of three will be based on bridal fashions from April issue. Edward P. Rothenbaum of Vista Productions will supervise film production and distribution.

PHONEVISION FILM

McDonal Hits RKO Refusal

COMMNDR. E. F. McDONALD Jr., president of Zenith Radio Corp., Feb. 27 chided RKO Radio Pictures for being the first to refuse to rent film to Zenith for use on its 90-day commercial test of Phonevision.

In a letter to Gordon E. Youngman of the film concern, Commdr. McDonald noted that "television is hammering on the doors of the movie, radio, theatrical and a number of other allied industries. ... It's a shame that some of the executives in these industries don't seem to be home."

The Zenith president said it was his opinion that both his company and the film company should "do everything we can to welcome the advent of television and cooperate mutually to make the most and the wisest use of its promise. If we don't there are plenty of other people standing in line who will," he stated.

Observing that the movie industry's distribution system "has been traveling in the same old sailing ship for more than 40 years," he said the structure was "never completely sound." He continued:

"The sails (exhibitors) have always been too heavy for the hull, but the ship did all right because your industry has, for the most part, enjoyed smooth sailing in the trade winds. Now television has come along and begun shaking the sails full of holes. Moreover the old hull is beginning to show some leaks, and the sails are too far gone for repair. Your industry had better try out the new lifeboat, Phonovision, before your ship sinks any further and leaves you floating.

Commdr. McDonald said the fundamental question about Phonovision is "how much movie entertainment will people pay for in their homes?"

"If that answer to that question is worth a half million dollars to me," he continued, "it's certainly worth a half billion to you. But this test is on me."

TV FILM ISSUE

THE TELEVISION AUTHORITY, an amalgam of talent unions, last week charged the Screen Actors Guild with impeding peaceful settlement of the jurisdictional dispute over television film.

George Heller, national executive secretary of TVA, in a letter to the SAFG board of directors, accused the guild of taking "a backward step on the road to peace."

A month ago SAFG advised TVA that "further exploration of partnership would appear to be a waste of time" if the guild was not granted the right to decide rates and conditions for film television and for the re-use of film on TV stations.

In his letter, Mr. Heller wrote:

"TVA is convinced that the principle of re-use of film or kinescope is one of the most important objectives to be obtained in any collective bargaining agreement to be negotiated on behalf of television performers. SAFG's proposal would mean that many thousands of performers who are not members of the Screen Actors Guild must submit to a decision in this vital matter without having their own wishes recognized and without permitting those members a part in determination of this most important single objective desired by television performers (namely, the reuse of film principle). TVA in good conscience cannot accept such a proposal."

Separate Meetings Proposed

The SAFG also had proposed that separate membership meetings of TVA and SAFG be held, in contradiction to the TVA stand for joint membership meetings.

Mr. Heller objected to this rejection of the proposal for joint membership meetings. Separate meetings he said, "would continue a deadlock and thus not afford the performers working in television their democratic rights of self-expression and determination."

Mr. Heller told the SAFG board that TVA regretfully concludes that the latest Screen Actors Guild proposals make extremely difficult the resolution of our present differences, and we most earnestly urge that the circumstances warrant that the Screen Actors Guild reconsider its position so that together we can go forward in the interests of our joint membership."

CBS FILM PLANS

Will Explore, Says Stanton

ALTHOUGH CBS does not intend to branch out into motion picture production, it will explore the fullest potentials of filming programs for TV in Hollywood.

So declared Frank Stanton, CBS president at a Hollywood news conference last Tuesday. Such assignments, under CBS supervision, would be farmed out to motion picture units set up for that purpose, he advised. Considerable experimenting will be done on 35mm.

Films are better quality than kinescope, he conceded, but the cost factor makes them prohibitive at present because the medium's circulation is relatively small for high priced shows. Music also is a deterring factor in films for TV at this time, he reminded.

Dr. Stanton stated that a better job can be done by live telecasting, but filming of shows will open up the vast reservoir of talent available in Hollywood.

Spiking contrary reports, Dr. Stanton declared that there are no negotiations under way at this time for the network to acquire its own Hollywood television station.

"We are happy with our present Los Angeles Times partnership," he said, adding, "however, we might find it advantageous to own our own station due to importance of this originating point."

He was in Hollywood to participate in a CBS affiliates meeting last Monday (see story, page 41).

purchases of $600,120 for Liggett & Myers Tobacco Co. and National Biscuit Co.

Smoking materials—cigarettes, tobacco, lighters—were the leading class of goods advertised on network TV during the year, with automotive advertising second and food advertising third. Advertising of radios and TV sets ranked fourth, with toilet goods advertising fifth. For the month of December the same five product groups led in amount of time used on the TV networks, but their order was different than for the full year: Automotive advertising was first, smoking materials second, radios and TV sets third, foods fourth and toiletries fifth. (See Table IV for product group breakdowns for December and the year.)

Table V lists the leading TV network advertisers in each product group. A full list of TV network users during 1949, with the amount spent by each, follows:

When is a dot not a dot?

Look carefully at the pictures on this page, to see how television creates an image.

No. 2 in a series outlining high points in television history

Photos from the historical collection of RCA

As parlor magicians say: “The hand is quicker than the eye!” But modernize the statement so that it becomes: Television magic is quicker than the eye—and that’s why you see a photographic image in motion... where actually there is only a series of moving dots!

To explain this to laymen, ask them to examine a newspaper picture through a magnifying glass.

Surprisingly, few people know that newspaper pictures are masses of tiny dots “mixed” by the eye to make an image. Even fewer know that the same principle creates a television picture... and, when picture after picture comes in rapid succession—30 a minute—the eye sees motion.

Devising a successful way to “scan” an image—to break it into dots which could be transmitted as electrical impulses—was one of television’s first basic problems. Most of the methods dreamed up were mechanical, since electronics was then a baby science. You may remember some of the crude results transmitted mechanically over experimental television stations.

Television as we now know it, brilliant images on home receivers, begins with the invention of the iconoscope tube by Dr. V. K. Zworykin of RCA Laboratories. First all-electronic “eye” of the television camera, this amazing tube scans an image—“sees” it in very dim light—translates it into thousands of electrical impulses which are telecast, received, and re-created as sharp, clear pictures in black-and-white—on the phosphorescent screens of today’s home television receivers.

And, just as the first flickering “30-line” pictures produced mechanically—eventually became our present sharp 525-line images, so the iconoscope itself was improved until it became today’s supersensitive RCA image orthicon television camera. All-electronic, the image orthicon peers deep into shadows, needs only the light of a candle to see and transmit dramatic action.

But every single television development made by scientists at RCA Laboratories depends, in the end, on a basic physiological fact: When the human eye sees a series of swift-moving dots racing in sequence across a television screen, it automatically “mixes” them into a moving photographic image!

Radio Corporation of America
WORLD LEADER IN RADIO—FIRST IN TELEVISION

Felix the Cat was the “stand-in” when this 60-line image was made mechanically in tests at NBC's first experimental television station.

By increasing the number of scanning lines to 441 lines in each picture frame, RCA scientists gave us a sharper, clearer television image.

Improved definition is obvious to anyone in this all-electronic 120-line image of Felix—transmitted in the early days of NBC television.

And here you see the deep blacks, clear whites, and subtle half-tones as transmitted by NBC with our present 525-line scanning system.

FIRST... ...with a SLIM TRIM DYNAMIC for TV

- New "655" Microphone Provides Ultra-Wide Range, High Fidelity Response - More Rugged, More Versatile - Individually Laboratory Calibrated

Here, for the first time, you have a slim, trim microphone with all the advantages of dynamic performance and utility! Only because of the ingenious Acoustalloy diaphragm and other E-V developments has it become a reality! Meets the highest standards of TV, FM and AM.

You can use the TV 655 on a stand, in the hand, or on a boom...or you can easily conceal it in studio props. No additional closely-associated auxiliary equipment is required! Provides effective individual or group pick-up. Reproduces voice and music with remarkable accuracy.

Fully field tested and proved...the TV 655 gives you custom-built quality, plus complete, rugged versatility. It’s your answer to complex microphone problems in studio and remote telecasting and broadcasting, indoors and outdoors. Ideal, too, for special events announcing, sportscasting, audience participation, street interviews, recording and high quality sound amplification.

See for yourself! Write today for Bulletin No. 156 and full information on how you can try this amazing new microphone. Choice of durable, gleaming Alumilite or brown baked enamel finish. Model 655. List Price.............................. $200

Model 655A. Similar, but with acoustically-treated, pop-proof strong wire-mesh grille head. Stops wind and breath blasts. Eliminates wind rumble in outdoor pickup. List Price ................. $200

Model 655 with the TV 655. Note how swivel permits aiming at sound source without hiding face.

Shows TV 655 in hand with swivel removed. Note how convenient it is to handle for announcing or interviewing.

Shows TV 655 suspended on a boom. Omnidirectional polar pattern and firm swivel permits easy, diverse use.

SPORTS RIGHTS
Court Dismisses WMAN Suit
WMAN Mansfield, Ohio's writ of mandamus and an injunction sought against the Mansfield Board of Education, so that the station might broadcast local high school basketball games live [BROADCASTING, Feb. 13], has been dismissed by Richland County Common Pleas Judge G. E. Kalbfleisch.

In handing down his opinion, Judge Kalbfleisch stated that the record evidence in the case did not disclose that the board of education controls, promotes or supervises the events set forth in the WMAN action. "The law in Ohio does not authorize the board of education to promote, finance, conduct, control or supervise said events," the judge said.

After the court ruling Feb. 17, J. Martin O'Hara, WMAN president and general manager, said the question will be taken before the Mansfield High School athletic board.

Prior to the court hearing, the school board expressed willingness to permit WMAN to broadcast the games live on a four year contract. Station hereafter has had to tape record games for broadcast later. However, the two stipulations—to which WMAN would not comply—were that the game broadcasts be unsponsored and that WMAN would have to carry every game for the four-year period, barring mechanical failure, or the contract would be null and void. Seeking to enlist public support, WMAN reported receiving over 6,000 letters supporting its stand.

Will Examine CBC
PARLIAMENT is to appoint a radio committee soon, it was announced at Ottawa last week. The committee will examine operations of the Canadian Broadcasting Corp.

From where I sit by Joe Marsh

How to Get That Homework Done

Miss Gilbert, our grammar school principal, spoke the other night at the regular Parent-Teachers' meeting, on getting children to do their homework when they want to sit and listen to the radio.

"We mustn't give them a flat 'no'," Miss Gilbert said. "If we adults really believe in tolerance and moderation, we should instill these qualities in our children. Listening to the radio is fine—in moderation—as long as homework gets done, too."

From where I sit, the lady was dead-right. This radio vs. homework problem is a wonderful way to see to it that our youngsters acquire the good, sensible moderate habits they'll need later on in life.

I've never believed in hard and fast rules—except where absolutely necessary. Let the other fellow do as he likes, as long as he's temperate and tolerant. Guess that's why I've never felt we should quarrel with the fellow who is partial to a glass of beer—the "Beverage of Moderation."

Joe Marsh

Mr. Brice

DOUGLAS ARNOLD, announcer, signs from WPTA, Paterson, N. J., to do freelance and promotion work.

OBERT SUTTON, of WCCO Minneapolis production staff, appointed program director succeeding LEE BLAND, who will join radio department of Leo Burnett Co., Chicago. Mr. Sutton lived WCCO in 1939 as staff writer.

ORGE A. CRUMP JUNGS WASHINGTON, Va., as announcer. He was formerly with WCRO in St. Paula.

DE SPINA joins announcing staff at CPO-AM-FM Cincinnati.

ACK RAYEL, formerly with DuMont Division Network as daytime program manager and assistant network program director, joins NBC-TV as supervisor of program procurement, a post he originally worked for NBC guest lectures in 1939, and later in NBC's central and information departments as a senior staff announcer.

ROY KOPP, KCBS San Francisco off-air announcer, is father of a girl, Cynthia Jane.

DIE DIMOND and TOM LAUER have been added to TV program staff at NBC Chicago. Mr. Dimond named age manager for the Jack Carter network of Saturday night shows, which has had more than 20 years of theatrical and stage work. Mr. Laufer, assistant producer on the Carter show, former stage manager of Inside 24 on video.

ARVIN MILLER takes over lead in RCA-TV Hollywood half-hour weekly series of Chinatown. Other recent changes in program-include naming of K. VOLLERT as producer-writer; D. B. FINKEL as director, and DICK TOWN, assistant director.

BRY LESTER named m.c. of Don television series Carnivale of Stag-ative March 27. He replaces CKIE CARTER.

CTOR FERGIE, music director at KWW New Westminster, B. C., won "Best Actor Award" at British Columbia Drama Festival. He won it on his performance in production of "Papa Is All."

ED STUDEY formerly with WOL Washington; SHERMAN BUTLER, formerly with "FAM" FM Washington, and WILLIAM H. MILLER, formerly with WMAL Washington, join announcing staff at WDDC Washington.

LESLESPURGEON, formerly continuity writer on Queen for a Day, joins KRON-TV San Francisco program department.

FRANK HENNESSY, formerly with WJSY Syracuse, and FRED JESKE, previously with WAGN Syracuse, join announcing staff of WNDR Syracuse.

JAMES J. FERGUSON appointed program director at KRTV-Augusta, W. Va. He formerly was with WZFP Covington, Ky., and recently with WLT-TV (TV) Cincinnati. He has been with WSAZ-TV as producer for past three months.

WD SCHAUGENCY, m.c., at KDKA Pittsburgh, received Certificate of Merit from Disabled American Veterans for his work helping disabled veterans.

JACK CLEVERLY, WKY Oklahoma City announcer, is father of a boy, Phillip Thomas.

TED BOOTH joins announcing staff at WAXJ Jacksonville, Fla. He formerly was with WGGG Brunswick, Ga.

BOB HAWK, radio quiz m.c., and Mary Rechner will be married April 11.

L. W. O’CONNELL, TV production lighting supervisor, and DARRELL E. ROSS, stage supervisor, join KECA-TV Hollywood.

SALTY MALLANTS, fishing and outdoor commentator on WIOD Miami, received 1950 citation from Sportman’s Research Institute, Encino, Calif., Award is for writing and editing outstanding outdoor column.

JERRY FLYNN, formerly of WBTA Batavia, N. Y., starts new program at WRNY-AM-FM Rochester, N. Y. He recently left Naval Academy where he was Athletic publicity director.

TEXAS JIM ROBERTSON, western movie star and RCA recording artist, signs to do program over WATV Newark, N. J.

FLETCHER MARKE, Hollywood radio producer-director, signed to MGM term producer-contract.

LEE WILDER, girl record m.c., starts thrice-weekly midnight show, Lee Wilder Presents the Jazz Tempo, on KFWB Hollywood.

PAT BREENE, feminine disc jockey at KTUL Tulsa, has written her first song, "Shattered Dreams," which has been recorded by Bullet Recording Co.

DON PHILLIPS, announcer at KKKO St. Louis, awarded "Best in Speech" citation by Morre School of Expression. He previously was with Office of War Information and NBC.

TED TOLL, ABC Hollywood producer, is father of a girl, Elizabeth Patton.

AL JARVIS, disc m.c., named "Mr. Los Angeles" by Los Angeles County Supervisor Raymond V. Darby in recognition of "many services on behalf of community welfare."

WILLARD WATERMAN of CBS Leave It To Joan, starts role in forthcoming Universal-International film "Louisia."

WALTER PHILLIPS takes over morning disc jockey show at WCGO Cincinnati. He succeeds MALCOLM RICHARD, resigned. Mr. Phillips also has another show at night.

GORDON ATKINSON leaves CFRB Toronto to become staff librarian at CHUM Toronto. CRUD COOK, former disc jockey at WEIR Buffalo, joins CHUM in same capacity.

MARGARET KERRY, co-m.c. (with Al Burton) on Teen-Teen Reporter on KECA-TV Los Angeles, is assistant choreographer on the new Dan Dailey picture "I'll Get By," being produced by 20th Century-Fox.

W. VA. GROUP MEET

Annual Election Is March 18

ANNUAL election of the West Virginia Broadcasters Assn. will be held at the Chancellor Hotel in Parkersburg on Saturday, March 18, according to John S. Phillips, co-manager of WCAW Charleston and association president.

Other business will include a discussion of the realignment of West Virginia with a different NAB district. A new president will be named to succeed Mr. Phillips who, under the constitution, cannot succeed himself.
P R I N C I P L E of “audience” flow has undergone drastic yet highly successful metamorphoses at WBCO Waterbury, Conn., station reports. Called “audience jump,” departure calls for identity of mystery tune played on morning Twelve-16 Club, to be revealed on afternoon Melody Mat- tinee by Bob Crager, m.c. of latter. Not until word of apparent double-cross by his fellow announcer, Jim Logan, m.c. of morning show, urges his listeners to tune in p.m., show to taper off, winners answer. Jackpot increases $1 each day until mystery tune is cor- rectly identified.

Book Promotion

PROMOTION of Fulton Oursler’s “The Greatest Story Ever Told” by The Charlotte News is getting assistance from Grady Cole of WBT Charlotte on his morning programs. Listeners are awarded $25 Savings Bond and 10 copies of book, autographed by Mr. Oursler, for best letters telling what has impressed them most about series as read daily in The Charlotte News. Members of Charlotte Ministerial Assoc. serve as judges. Prizes are given at end of each 10 installments of story, which will run through Easter Sunday.

Seafood Gift

BELIEF in publicizing West Coast product led CKNW New Westminster, B.C., this year to send sponsors cases of select seafoods. Last year, CKNW sent to clients copper repousse’s framed in Princess Victoria. Copper was from interior of British Columbia.

WCAE Dial Cards

RADIO dial cards for distribution to over 2,000 rooms in three of city’s top hotels is latest promotion work by WCAE Pittsburgh. Cards contain information on outstanding WCAE programming and complete listings of news broadcast times. Cards have been distributed to William Penn, Pittsburgher and Webster Hall hotels. WCAE keeps cards current by supplying hotels with new printings periodically.

Headley-Reed News

NEWS LETTER and brochures de- signed to keep timebuyers informed on stations represented by Headley- Reed Co. Inc. have been distributed by station representative firm. First brochure, one of four dealing with programming, gives listings and pro- gram profiles for women’s shows, and other releases will follow on dale jockeys, farm programs, and sports and news broadcasts. Emphasis is placed on program information, cover- age, cost and rating comparisons, merchandising and promotion aids.

WOR’s ‘First’

WITH teaser line, “It’s the first,” on cover, four-page folder in pink is being offered to trade by WOR New York. Over teaser is drawing of stork carry- ing baby. Center fold, emphasizing pink and white color scheme, tells of overall WOR standing and, as reason, states: “WOR sells more more often for more people to more people ... than any other station in the United States!”

Headless Wrestler

MORE than 21,671 entries have been counted so far as result of unique television contest called “Put-A-Headless Wrestler On-It” on WRGB (TV) Schenectady, N.Y. Contest is being promoted as a part of two-hour television show sponsored by Beverwyck Breweries. Show, originating in Chicago, features big-time wrestling. Contest entrants are required to bring in headless wrestler depicted on entry blanks obtained from taverns, grocery stores, restaurants, etc., in areas covered by station.

Selling That Shines

FOLDER, appropriately decorated with Kansas sunflowers and accompanied by tool for window cleaning, is latest promotion directed at prospective sponsors by WIBW Topeka, Kan. Titled “Make Your Kansas Sales Shine,” brochure says: “It’s quicker and easier to make windows or windshield shine, with the help of this brand new window cleaner. Used with the help of WIBW, it’s quicker and easier to make your Kansas selling record the best it ever was, too.”

Christmas in February

CHRISTMAS card, sent to trade last week by WOV New York with notation that card was “mailed late on purpose to provide a complete sales listing of 10 Christmas cards for 25¢ and Torino Brand label, which resulted in complete exhaustion within 16 days of 3,000 packages. Directed at local-plan listeners, promotion also was shared by WHOM New York, WHOD Pitts- burgh and WHAT Philadelphia. Vini Advertising Agency, in behalf of client, J. Ossola & Co., manufacturer of Torino, printed, distributed at WOV amount to 2,121, not counting 867 letters that arrived after listeners were asked not to send in any more requests.

WBBC Birthday

CELEBRATING its third anniversary last week, WBBC Bethesda, Md., and advertisers gave away, on hour and every hour, a radio, and on Saturday, a television set. Merchandise value totaled nearly $1,600. Each sponsor of WBBC third anniversary gave radio away at own place of business. TV set was gift of all to lucky ticket holder. Promotion of event highlighted by bright red fluorescent posters proclaiming WBBC’s third year, as well as wedding cards and store displays.

Spot Results

AS result of three-one-minute spots on show presented by WDNY, Pitts- burgh, station reports over 1,500 poten- tial customers were garnered for local sponsors in eight-day period. Commercials appeared on Home Is Happiness program and were used to demonstrate “Sea Breeze,” antidepressive skin aid. After each announcement, free sample offer of product was made. Requests are still coming, station reports.

Battle’s Pajamas

DESCRIBING it as one good way to get to seat of government, Governor John S. Battle of Virginia presented seat of his pajamas, in special cere- mony, to Don Haynes, “The Man in the Sealed Car.” Ceremony was arranged by WMGB Richmond. Haynes has been seated in his car for 12 months and is accepting challenges. Art Linkletter of NBC’s People Are Funny to stay for 14 months or collect pajama seats from all 48 go- vernors.

Persons

FREDERICK N. LOVE, appointed manager for WTAR-FM - TV Nor- th Carolina, has been named promotion mana- ger of Norfolk Ne- papers Inc., president of Inter-Industry High- way Safety Committee and National Auto mobile Dealers Assn. Maxwell How- Coffee sponsors Father.

RARRY S. SEELEN, appointed manager of Laurence C. Poston, RCA Tube Dept. He succeeds DR. DUTTON ULREY, retired, and now consultant to company.

WTNB CASE

Johnston Appeals Again

NEW COMPLAINT against FCC has been filed with the U. S. Court of Appeals for the District of Columbia by Johnston Broadcasting Co., charging that the Commission's latest action in the WTNB Birmingham, Ala., case is illegal [Broadcasting, Jan. 30].

Johnston has given four-weeks notice of WJLD Bessemer, Ala., and losing applicant for limited station at Birmingham on 850 kc, told the court that FCC had erred as a matter of law in allowing a station at Gulfport, Miss. and N. Beach, original licensee of WTNB, to correct by amendment the defective verification of his application to switch WTNB from 220 w on 1450 kc to 1 kw, 5 kw day on 850 kc.

It was this grant of the switch to WTNB which Johnston Broad-casting appealed last year and which the court reversed and remanded to FCC for further consideration on grounds FCC had acted on an unverified application [Broadcasting, May 9, 1949].

Attacks Acceptance

Johnston also attacked as illegal FCC's acceptance of the Beach amendment when he is no longer a party to the proceedings. Further criticism was made of FCC's conclusion that Pilot Broad-casting's application to WTNB, may file a substitute amendment to show it as applic-ant for the change in dispute. Pilot Broadcasting is owned 61% by Mr. and Mrs. Frank Tate, of WOSU Colon-dale, widow of Frank Tate, of WOSU Columbus, and Gene Bag wclt Newark program director.

The OARNE directors, at a recent meeting, voted to set the annual dues at $2.50 instead of $5, and also voted a dormenon and support of the sec ond annual Radio News Edic Conference on June 17 at Ko State U.

AS PART of training of students at Ottawa High School of Commerce, students from that institution have been studying operation of CN Ottawa, The are writing essays and business correspondence of student, which are checked for accuracy by sta officials.

WHBC ANNIVERSARY

25th Birthday This Week

ALL-INDUSTRY film "Lightning That Talks" will be shown at luncheon meeting in the Onset Hotel on Thursday, March 9 in commemoration of the 25th anniversary observance of WHBC Canton. One hundred and twenty advertisers, retailers, wholesale and agency men have been invited to the event.

In observance of WHBC's anniversary a variety of activities have been planned. Also on Thursday, a one-hour dedicatory program will highlight the development of WHBC during 25 years. Featured will be congratulatory messages from local citizens and organizations, ABC officials and other personalities.

This week WHBC is presenting a series of special broadcasts dedicated to Canton and surrounding cities. Mayors of the cities will voice salutes to the station. In addition, the Lawrence Weik Memorial ABC feature will originate from Canton Wednesday. On Thursday, WHBC will be saluted by Don McNeil on his Breakfast Club.

A number of antiquated radio sets, obtained by WHBC from RC, Camden, N. J., are being display in store windows in the downtown area and special window card calling attention to the anniversary have been placed throughout area.

OHIO NEWSMEN OARNE Meet Set for May

ANNUAL meeting of the O. Asn. of Radio News Editors will be held in Columbus on May 7, according to Charles Day, OARNE president and news director, WGBI Cleveland.

Meeting plans include a luncheon featuring a name speaker, electi of new officers and discussion critical problems facing radio news men, including an Ohio plege to protect the sources news reporters. Head ing committee in charge of the meet is Frank Tate, of WOSU Col- dale, aided by Paul Wagner, former OARNE president, and Gene Bag WCLT Newark program director.

The OARNE directors, at a recent meeting, voted to set the annual dues at $2.50 instead of $5, and also voted a endorsement and support of the sec ond annual Radio News Edic Conference on June 17 at Ko State U.
Respects

(Continued from page 36)

sold" on radio, Mr. Boggs remarks.

Mr. Boggs should know whereof he speaks, with respect to inter-
media competition, because he was
grounded early in magazine line-
age, having sold black-and-white
in 1925.

He began his radio career in
January 1932 when he joined
WAAF Chicago. He later became
commercial manager and remained
there until 1937 when he was lured
to WGN Chicago, as sales

man.

In 1940 Mr. Boggs was appointed
manager of WGN Chicago's New
York office, remaining for five
years before returning to the com-

clear channel outlet as sales

manager. He moved to WLOL as
president and general manager in
January 1946 and handled national
accounts for the Twin Cities out-

His reign there was a successful
one—with emphasis on sports and

shows. Within two years the
station showed a 25% boost in

billings.

Moves to WMCA

In March 1949 Mr. Atlas, as
WMCA consultant, called on Mr.

Boggs to take over a shaky WMCA
operation that reportedly was los-
ing in excess of $30,000 annually.

The Twin Cities market, with its
divided loyalty, and friendly

competitive spirit, gave "Red"

Boggs an insight that was to prove
valuable in his present New York

situation.

Under Mr. Boggs' guidance, and
in alert sales staff, WMCA has

erived a host of commercial bill-
ings from such accounts as Colgate-

Palatine—Peet (which alone ac-

counted for a $100,000 profit), Sea-

son Bros., Purity Bakers, and

others.

Currently in negotiation is a deal

whereby WMCA will feed New

York Giants' baseball games to a

regional network similar to the
Midwest Baseball Network under
the aegis of WIND Chicago. Ac-

tual effect will be on local station

sponsors—a sure-fire formula for

successful independent operation.

Norman Boggs was born in

Connersville, Ind., on Sept. 21,
1903. Nothing "eventful" happened
in his early years, he reports,
except that he met a girl on a
blind date—the former Miss Claire

Henderson—whom he married in
October 1928.

Before that, however, Mr. Boggs
cut short his college career at the
U. of Illinois, one year before gradu-
ation, to embark with a dance
band that played engagements in

such far-away places as Manila,
Shanghai, and Hong Kong. Mr.

Boggs qualifies as an acceptable
pianist in his own right.

Today Mr. and Mrs. Boggs live on
New York's Sutton Place. Mr.

Boggs spends spare time reading,
watching television, and contempl-
ating the turn of events that will
lead him into the select 20-year
radio circle come January 1952.

He holds membership in the Radio
Executives Club of New York.

IRE Honor Award

Stanford U. Dean Is Cited

FREDERICK E. TERM AN, dean of
Stanford U. School of Engineer-
ing, has been awarded the 1950
honor medal of the Institute of
Radio Engineers, for distinguished
service in the field of radio
engineering. Award will be presented
March 1 during IRE annual con-
vention in New York.

Dean Term an, one of the fore-
mest figures in radio research and
engineering, during World War II
worked on methods for counteract-
ing enemy radar and in recogni-
tion received high honors.

Robert M. Dooley
Dooley Appointed To National Sales
For WOW, WOW-TV
And KODY.

John J. Gillin, Jr., recently

NEED for more money or curtailment of its services, is emphasized in the 1948-49 annual report released by the Canadian Broadcasting Corp. last week in the House of Commons at Ottawa. During the fiscal year ending March 31, 1949, CBC had an operating deficit of approximately $44,000.

The report, almost a year late in being issued, is a 64-page book, replete with photos illustrating CBC operations, and is the most voluminous yet issued by the CBC since it began operations in 1936. In the foreword, CBC Chairman David Dunton tells Parliament that "unless its revenue basis is changed, the CBC will be unable to carry out extension of service recommended by the Parliamentary Committee, to fill gaps in network coverage in outlying areas now getting service, or to make badly needed improvements to programs and in the use of Canadian talent." "Because of higher cost levels, the CBC will be faced with considerably increased expenditures just to maintain existing and committed services and present standards of broadcasting. Corresponding increases in revenue are not in sight on the present basis. The CBC has to maintain the national system on the basis of its regular income and there is no provision for meeting any deficits except out of its own reserves. Commercial revenues which are about 30% of the total cannot be increased appreciably because of the present heavy loading of commercial programs on the networks. The main revenue of the CBC is from license fees, the rate of which has been unchanged since 1938."

Financial statement shows license fees (listener licenses at $2.50 per radio home per year plus privately-owned station license fees) for the year at $5,136,704. Commercial revenue for the year was $2,217,130. Miscellaneous revenue amounted to $200,809, for a total of $7,553,215. Expenditure was a total of $7,399,820, of which programs amounted to $3,817,995, engineering $1,682,339, wire line $1,050,840, administration $368,699, publicity $245,353, commercial department $195,804, and miscellaneous expenses, Depreciation amounted to $196,843.

Staff Increase
The staff for the year totalled 1,238, which was an increase of 163, and the report includes data on pension plan and group life insurance plans in operation by the CBC. Addition to the staff was in part due to absorption of the CK Winnipeg, now CBW, staff.

Regarding commercial program, the report shows an increase in commercial shows on the Dominion and French networks. About 19% of combined time of Trans-Canadian Dominion and French networks was used by commercial programs with 60% of these originating in Canada, and the remainder being piped in from the United States. Major portion of the report is detailed analysis and recording programs carried and the development of Canadian talent on OB programs.

REYNOLDS NAMED
Heads FSR Radio, TV, Films

APPOINTMENT of Richard F. Reynolds as director of films, radio and television at Fuller & Smith & Ross Inc., Cleveland, national advertising agency, has been announced by William A. Wright, vice president and general manager of the Cleveland office. John James, formerly of the radio division, was named associate director of radio in the new organizational setup.

Mr. Reynolds, with the agency for 13 years, has been a member of the film department since his return from the Navy in 1946, and its director since 1948. "The establishment of a central department to represent these three media indicates their increased importance and use in the advertising and sales promotion programs of our clients," Mr. Wright said.

KVAK Now KARE
CALL letters of KVAK Atchison, Kan., have been changed to KARE, effective last Wednesday, March 1. Authorized by the FCC, the change is in line with new ownership of Paul H. Buennings and James M. Griffith, who purchased the station from S. H. Patterson. KARE is licensed for 1 kw fulltime on 1470 kc and maintains studios in Atchison and St. Joseph, Mo.
PROBLEMS for the homemaker, such as what to do after spilling catsup on one’s rug, are solved by Ernie Kovacs on WTMJ, and in bulletins from the Michigan State University Extension Service. Kovacs’ bulletins are broadcast by WTMJ and other stations throughout the state.

**Sewing Schools**

Several sewing schools are being held by the Detroit chapter of the American Sewing Guild. Classes are being conducted in sewing, dressmaking and household sewing. The schools are held at the Michigan State University Extension Service building in Detroit.

**Basketball Coverage**

The Detroit Free Press is covering the Big Ten basketball tournament in Chicago. The tournament is being held at the Chicago Auditorium. The Detroit Free Press is a member of the Associated Press basketball network.

**Sports Jackpot**

Jackpot of nearly $2,000 in prizes is offered by the Detroit Free Press in a contest. The contest is open to all readers of the newspaper. The prizes include a trip to New York City, a $500 spending money, and a $250 gift card.

**WLS Change**

WLS, the afternoon commercial radio station in Chicago, has announced a change in its format. The station will now be known as the “WLS Network.” The change is effective immediately.

**Programs**

Heart Fund Telecast

HEART fund’s pulse was raised to a successful beat during association’s annual drive in Baltimore recently by special WAMC-TV Telecast. Station reports Earl Wrightson, Baltimore-born baritone, and WAMC’s own news and music talent, and talents to WAAJ’s All-Star show. Mr. Wrightson acted as M.C. for wealth of local talent while Mr. White, his son Josh Jr., and daughter, Beverly, gave special showing professional polish. The Whites, WAAJ says, rushed to studios between local theatre appearances. Mr. Wrightson made special trip from New York for program. Amateurs were recruited from Baltimore’s International Center, Peabody Institute and other local organizations.

**STUDENT Forum Technique**

The Forum Technique involves the students in the preparation of the program. Students are responsible for the selection of the topic, the formulation of the questions, and the preparation of the materials. The program is a forum for discussion on the topic of the day. Students are encouraged to present their own ideas and to challenge the ideas of others.

**Sports Jackpot**

Jackpot of nearly $2,000 in prizes is offered by the Detroit Free Press in a contest. The contest is open to all readers of the newspaper. The prizes include a trip to New York City, a $500 spending money, and a $250 gift card.

COMMUNISTS
Radio Activity Charged

CHARGES that the Communist party organized radio programs on behalf of the American Slava Congress and obtained time on WLOA Braod, Illinois, after being turned down by KQV Pittsburgh, were leveled before a House Un-American Activities subcommittee within the past fortnight.

Matthew Cvetic, former FBI undercover agent who held membership in the party, told the subcommittee, headed by Rep. Morgan R. Moiler (D-Mo.), that when he was a member of the congress' executive committee he met with district CP organizers to initiate the series of programs.

The program, Keep America Free, went off the air over six months ago after having been carried for a year and a half, and other foreign language programs, following the CP line also have been discontinued by WLOA, Mr. Cvetic said. He cited Croatian, Ukrainian, Polish and Slovak language shows.

Mr. Cvetic said he and two other CP card-holders, originally approached KQV to take the series but that when the station refused the programs, one of his partners suggested WLOA "because he said he had some contacts there." Requiring a question, he said that, to the best of his knowledge, neither William G. Matta, president and general manager of WLOA, nor George Matta, chief financial manager, was a Communist.

Case Suggestion

Rep. Francis Case (R-S.D.) suggested that a transcript of Mr. Cvetic's testimony, with respect to the alleged Communist broadcasts, be sent along to FCC.

The Commission also has before it a demand by Sen. Herbert O'Conor (D-Md.), chairman of a Senate Judiciary Immigration subcommittee, that FCC "take appropriate steps" to indicate that Communist propaganda is not aired on American stations. His group has been studying Polish program activities of the Polish-owned, Communist-tainted Gdynia—America Steamship Lines (broadcasting February 20).

FCC has denied knowledge of the programs and has asked Sen. O'Conor for "any facts which you believe would be of interest to the Commission."

Earlier testimony had indicated concern among Polish diplomatic officials, prior to launching the series, that such broadcasts would have to be cleared with FCC. Two stations carrying the programs have discontinued them.

LOBBY REPORT
$8 Million Spent in 1949

AN UNOFFICIAL lobby report shows a total spending in 1949 of registered lobbyists of nearly $8 million, it was revealed last week. Of this amount, the all-inclusive field of power and communication showed an expenditure of $555,400.

Included in this category were publications, electric companies, an electric co-ops, and International Telephone & Telegraph Co., American Cable & Radio Corp., an IT&T subsidiary (owner of Commercial Cable Co., All America Cables, and other communications). Rights would first have to be filed with the Telegraph Co., and Clear Channel Broadcasting Service (CCBS).

Harold Hough, WBAP Fo Worth, listed as CCBS treasurer reported that CCBS received $56,149 is allocable to lobby the report said. American Cab, which seeks legislation permitting merger of its firms and the cable of Western Union Telegraph Co., reported James A. Kennedy, vice president, as having received salary of $22,500 "no part of which is allocable." IT&T showed a rentals but listed Kenneth L. Stockton, president of America Cable, plus having received salary of $45,000.

The lobby report, as prepared by the staff of the Congressional Quarterly News Features, Washington, was entered in the Congressional Record Monday by Rep. Frank Buchanan (D-Pa.).

THREE RIO GRANDE OUTLETS ARE REPORTED SOLD

NEGOTIATIONS for acquisition of control of three Rio Grande Broadcasting Co. stations—KOAT Albuquerque, KTRC Santa Fe, KRSN Los Alamos—by Herbert Wimberly, H. W. Bumpas, and Albert Cadwell reported Friday to have been completed. Sales price understood to be about $140,000.

Mr. Bumpas, manager of WIBR Baton Rouge, reportedly slated to manage three stations under new ownership. Mr. Tucker is currently manager of Rio Grande, including KGAK. Sale is subject to customary FCC approval. Buyers represented by P. W. Seward, Washington, D.C.; sellers by Washington firm of Dow, Lohnes & Albertson.

KOAT, KTRC, and KRSN are affiliated with ABC and Zia networks. All are 250 kw outlets, KOAT on 1440 kc, KTRC on 1400 kc, and KRSN on 1290 kc. Gallup station is on 1230 kc with 250 w.

BETTER BUSINESS BUREAU ATTACKS FOR CAMPAIGN

NEW YORK Better Business Bureau condemned radio advertising campaign conducted by Ben Tucker’s Hudson Bay Fur Co., heavy radio user, as “misleading and exaggerated.” Campaign featured “ contests,” involving award of $25 gift certificate to each of first 25 listeners who submitted correct titles to song being played.

Bureau representatives sent more than 25 entries and received more than 25 gift certificates, bureau charged. Some of entries deliberately contained wrong answers. Bureau alleged company had advertised on air 50% price reduction on $15 furs but by letters found that furs were actually being offered at reductions of less than half-price, bureau asserted.

STEWART BOARD TO MEET

PRESIDENT TRUMAN’S Communications Policy Board called to first session March 10 in Washington: new FCC Commr. Irvin L. Stewart, president of U. of West Virginia and chairman of new five-man group [Broadcasting, Feb. 27]. First order of business to concern objectives, staff and procedures. Meeting coincides with eastern trip of Dr. Lee A. DuBridge, president of California Institute of Technology and board member.

CENSUS HEAD CONFIRMED

ROY VICTOR PEEL, director of Institute of Politics at Indiana U., was confirmed by the Senate Thursday as Director of the Census. He succeeds Philip M. Hauser, acting director, who returns to the U. of Chicago.

ED NORTON RECUPERATING

ED NORTON, chairman of the board of the WAPI stations in Birmingham and the WMBR stations in Jacksonville, Fla., is recuperating from an operation performed Thursday at South Highlands Infirmary, Birmingham. His condition was described as good.

HOMER MCKEE

FUNERAL services for Homer McKee, 69, vice president at Roche, Williams & Cleary, Chicago, conducted Friday afternoon in Evanston, Ill.

NEW RATING SERVICES PLANNED BY HOOPER

TO SATISFY demand for substitute for 36-city ratings, C. E. Hooper on Saturday wrote subscribers to his national network program Hooperatings reports, sold last week to A. C. Nielsen Co. (early story, page 27), he will publish monthly Hooperatings pocketpieces for Network (beginning March 15), Chicago (May 15), Los Angeles and Northwest (beginning April 15), plus summary pocketpiece containing rank order of all network programs for all four reports showing radio vs. TV, radio vs. radio, TV vs TV, and graphic radio-TV comparisons for all reported TV cities.

Radio network programs will be reported on two bases: Random homes and radio-only homes. TV network programs will be reported on random homes and TV homes.

In addition, Hooper will also publish city Hooperatings on up to 100 cities, typically three times a year; network program analysis of city-by-city ratings for 100 cities, October 1949-February 1950. Hooperatings chart of network TV comparisons starting in March with New York, Chicago, Los Angeles, San Francisco, San Diego; adding Philadelphia, Baltimore, Washington, Boston, Detroit in April, five more cities in May; May in June, with a 35-city total promised by October.

RADIO, TV SALES UP

RADIO receiving tube sales up in January same month in 1948, totaling 22,772,242 compared to 15,508,906 year ago, according to Radio Mfrs. Assn. January figure slightly below 23,807,281 units in December. TV picture tube sales continued at high level in January and showed further trend toward larger screens. Total of 455,279 receiver type cathode ray tubes shipped in January, with value of $11,454,186, compared to 418,491 tubes valued at $13,083,962 in December. TV tubes 12 inches or larger constituted 90% of January shipments.

BENNY HAS TOP RATING

JACK BENNY led first 15 program Hooperratings in Feb. 28 report, with 25.9 rating. Radio Theatre second with 24.5, and Arthur Godfrey’s Talent Scouts third with 21.6. In order, others in first 15 were: My Friend Irma, 21; Groucho Marx Show, 19.9; Fibber McGee & Molly, 19.8; Walter Winchell, 19.6; Charlie McCarthy, 17.4; Bing Crosby, 17.3; Bob Hope, 17; Mr. Chameleon, 16.5; Fat Man, 16.4; Mystery Theatre, 16 (in both December); Bob Hope, 16; and Mr. Keen, 16. Of first 15, nine were CBS shows, three were NBC and two ABC.

WEBER TRANSFERRED

FRED A. WEBER transfers from Branham Co., Chicago station representative, to Detroit office to supervise all radio-TV activity. With firm 2½ years, he was salesman for WGNB and Burn-Smith, both Chicago. He will handle Pittsburgh, Cincinnati and Cleveland.

CHICAGO COUNCIL PLAN

RESOLUTION to permit Chicago radio and TV newsmen to record and photograph City Council proceedings in hands of Rules Committee after introduction by Ald. Nicholas Bohling. Move for special consideration and immediate vote turned down.

the-slot TV, cost cool $33,000 to produce. Co. deMille, who may possibly tie-up with Zenith on film production for Phonervision, reportedly commented that Mr. McDonald’s film was best commercial reel he ever saw. Among others who have seen it are Chairman Cox and Commr. Sterling of FCC, Dr. Lee E. Forest, radio inventor who has always opposed commercial radio, Gen. Sarrold of RCA & William S. Paley of CBS.

NEXT sponsor for NBC’s Richard Diamo Private Detectives, dropped by Helbrots Wall expected to be Rexall, ready to sign on week basis. Helbrots planned spring-fall 12 week sponsorship but walked out when NI sold summer hiatus period to Rexall. D. S. fuse detective show signed for 13 weeks Rexall, which drops Phil Harris-Alice Faye this spring. BDD0 is Rexall agent.

LATEST CLIENTS of Functional Music in Chicago, Marshall Field, Field Enterprise service are WPEN-FM Philadelphia and WACE of Chipee-Holyoke Mass., with initial orders 50 installations each. Corporation already serves Chicago where it is headquartered.

N. W. AYER & SON, New York, looking TV spot announcement availability in Philadelphia and Chicago for its client, Uni Airlines.

WHEN FCC last week asked WLIB N. York, headed by M. L. Novik, to explain “editorializing” in program, PEPC, it readily answered. Mr. Novik, one of leading proponents of editorializing before his acquisition of WLIB several months ago, said he believed in “fairness” precept of FCC, but no one had asked for time in which to announce. If they had asked they would be received it, he avers.

GENERAL MILLS ‘GLOVES’

GENERAL MILLS, through Knox agency, will sponsor finals of Chicago Gold Gloves amateur boxing on ABC-TV network out of 25 interconnected stations, March 29, 9 p.m. to conclusion and on network of six major cities stations April 1, 9:30 p.m. to conclusion.

TV CODE DISCUSSION

MEETING of all sales managers of TV manufacturers called March 23 at Drake Hotel, Chicago, by W. L. Stickel, Allen B. Duly Labs., chairman of Sales Managers Committee of Radio Mfrs. Assn. Proposed standard code of advertising for TV sets to be considered.

Subject was discussed at RMA’s recent Chicago meeting.

WDAF-TV JOINS ABC

WDAF-TV Kansas City, owned by Kan City Star, Friday joined ABC-TV network. Station also affiliated with CBS-TV NBC-TV.

O’BRIEN AWARDED DAMAGE

DAMAGES of $7,500 awarded to Lt. Frank O’Brien in libel suit against CBS Walter Thompson Co. and William Wringley Co. (early story page 79).

LEWIS JOINS AGENCY

STEPHEN P. LEWIS, formerly with Deo & Sheo, New York, has joined Moore & Hyatt New York, as account executive.

BROADCASTING • Telecast
No city can experience a fifty percent population increase in the short span of seven years without bursting at the seams with wants. Corvallis is such a city. What's more, it's still growing . . . and its wants provide a rich, expanding market for YOU to tap through KGW'S COMPREHENSIVE COVERAGE.

A farm center in the middle of the United States' most productive agricultural area, Corvallis is also a college town. Through research resulting in new techniques, Oregon State College gives incentive to new industry . . . provides new profits for agricultural, lumbering, and wood products operations already firmly established. KGW DELIVERS CORVALLIS . . . as through COMPREHENSIVE COVERAGE it delivers the rest of the fastest-growing market in the nation.
Pick of the field!

Pick a Radio Sales TV Account Executive to show you how to go places in television, and you’ll get the pick of the field. For he can brief you on picking up healthy profits in six of your fastest-growing TV markets. That's because each Radio Sales TV Account Executive is firmly grounded in television. He knows (from first-hand experience and down-to-earth research) all there is to know about the six TV stations Radio Sales represents—the cream of the crop in New York (WCBS-TV), Philadelphia (WCAU-TV), Los Angeles (KTTV), Charlotte (WBTV), Salt Lake City (KSL-TV), Birmingham (WAFM-TV). Together serving 1,744,000 homes... 43.8% of the nation's TV total. If you're getting ready to take-off in television, or even if you've already logged a lot of TV air-hours, use Radio Sales and you'll go far. At jet-propelled speed!

Down here in Baltimore, we teach 'em pretty young about the BIG audience W-I-T-H supplies its advertisers. Of course, we have to let them grow up before we give them the whole story.

But sooner or later they all learn that W-I-T-H regularly delivers more home listeners-per-dollar than any other station in town.

A survey made under the supervision of the Johns Hopkins University showed that of all radios playing in drug stores, 34.6% were tuned to W-I-T-H. That's a big plus!

That means that a little money does big things on W-I-T-H. Call in your Headley-Reed man today and get the whole W-I-T-H story.

"O-O-oh! What a station!"
Alice had a wonderful time.
But think how many more wonderful things could have happened to her in the age of radio and television.
In WMBG-WTVR-WCOD land new adventures happen daily.
And these First Stations of Virginia make them happen.
For instance, WMBG was the first station of Virginia to broadcast during the daylight hours.
First to own recording equipment.
WTVR (now entering its 23rd month of operation) was the South's first television station.
First in the country to sign for an NBC-TV hookup.
Yes, Alice had fun.
But she should have lived in WMBG-WTVR-WCOD land.
FOR SALE:
SPOTS IN ST. LOUIS
CARDINAL BASEBALL
BROADCASTS

For ten years we have handled the broadcast of the St. Louis Cardinal baseball games. These have been broadcast over a large network of mid-west radio stations which last year numbered 69 and will be greater during the 1950 season.

Heretofore our client, Griesedieck Bros. Brewery Company of St. Louis, who hold a three-year exclusive contract for these broadcasts, have shared commercial spots in a limited way. For 1950 a unique new plan in handling the advertising spots on these games has been adopted and five spots of 40 seconds each are being made available to advertisers who see the attractive buy this offers.

With Harry Caray and "Gabby" Street as the announcers, surveys have shown unbelievable high ratings with from 60% to 95% of audience. Figures are available for those interested.

Under this new arrangement you may buy one or more spots on one or all of the following stations at attractive rates for an outstanding live program. For rates, listening figures or further details, call or write the radio stations listed below, or their representatives. Other stations are being added before the season starts and interested advertisers and agencies will be kept advised of these additions.

RUTHRAUFF & RYAN, Inc., Advertising
812 OLIVE ST., ST. LOUIS, MO.
THAT NEW "Sadowski Bill" salivating FCC procedure is reported ready in draft form but is being kept under lock pending review by Rep. Sadowski (D-Mich.), currently ill. It's supposed to be by mid-month when FCC submits as answer to pending McFarland Bill (S-1973). Disclosure of FCC proposal [BROADCASTING, March 6] led security-conscious Sadowski staff members to express promise of probe by FCC to determine source of leak.

FAST TALK about color TV problem being settled any day now, with wide open standards, can be regarded as over-zealous. While FCC thinking is crystallizing, it's obvious to close observers that considerable paper work will be involved even after FCC counts noses. Multiplicity of questions which must be answered before standards are evolved probably will be recounted by FCC Chairman Wayne Coy in scheduled March 14 speech before Oklahoma Radio Conference in Norman. Related issue of thawing VHF freeze also should come in for COY treatment.

GEYER, NEWELL & GANGER, New York, preparing radio and television spot announcement campaign for Nash Motors, Detroit, to start April 13 in more than 150 markets. Contract under stood to be for four weeks.

FCC STAFF's independent study of transit radio and its status as "broadcasting" service is still perking. Staff has now sent letters to some 45 FM stations asking for copies of their contracts for transdicting, storecasting, facoterycasting.

EDWARD B. MURROW, Mary Margaret McBride and George Denny Jr. reported in running for One World Radio Award. Final selection will be made at a membership meeting in the near future.

WNBT (TV) NEW YORK understood preparing one-hour morning show featuring Ed Herlihy, 10-11 a.m. five times weekly in Tom Brenman type format, as part of its daytime programming starting in May. Hour long program is Martin Stone production package.

NEWEST NAB convention idea still in discussion stage, is speechless lunches at Management Conference. Delegates would eat in Stevens auditorium, then move through ramp into adjoining theater to hear two scheduled mid-day speakers—FCC Chairman Wayne Coy and Carlos Romulo, UN General Assembly president.

NEGOTIATIONS to open up Dominion Network in afternoons now nearing completion. Several advertisers interested, General Foods planning two quarter-hour periods on 29 Dominion stations, would pipe in NBC shows When a Girl Marries and Portia Faces Life to Canadian network.

FURTHER CONSIDERATION of appointment of NAB general manager expected at

Upcoming

March 29-April 1: ANA Convention, Homestead, Hot Springs, Va.

Bulleted

STERLING DRUG Inc., through Dance-Fitzgerald-Sample, New York, begins sponsorship of Monday, Wednesday, Friday broadcast of My True Story ABC, Monday-Friday, 10-10:25 a.m., effective May 1. Libby, McNeill & Libby, through J. Walter Thompson, dropping these periods April 7. Sterling now sponsors Tuesday and Thursday broadcasts.

SID SILVERMAN

SID SILVERMAN, 51, publisher of Variety and Daily Variety, died early Friday morning after long illness at his home in Harrison. Surviving are his son Sid Silverman, 18, and his mother, Mrs. Sime (Hatty) Silverman, widow of founder of Variety. Mr. Silverman was one of the youngest theatrical critics when as a child of 7, he wrote reviews under pen name of Skige. He had been publisher of paper since death of his father in 1935.

Plummer Is FCC Chief Engineer

CURTIS B. PLUMMER, 37, chief of FCC Engineering Bureau's Television Division, was named FCC Chief Engineer Friday succeeding John A. Willoughby, who has held position on "acting" basis since January 1948. Mr. Willoughby was named assistant chief engineer, J. Fred Johnson Jr. of FCC hearing division was appointed Chief Hearing Examiner.

Appointments were among seven announced Friday in followup to staff-wide reorganization commenced by Commission proceeding day (story, page 25). Other appointees:

Chief Accountant William J. Norfleet will head new Office of Chief Accountant established in initial reorganization move.

General Counsel Benedict P. Cottone will head new Office of General Counsel.

Harold J. Cohen, assistant general counsel in charge of common carrier division, will head newly created Common Carrier Bureau.

William K. Holl, FCC's acting executive officer, was appointed on permanent basis.

Designation of new Chief Engineer came suddenly, though there has been frequent speculation Mr. Willoughby might be replaced.

Business Briefly

Wise Extends • William H. Wise Co., New York (publishers), extends two G More Out Of Life programs on CBS, adding 1 weeks for Sat. 2:30-3 p.m. series and four weeks for Sun 2:30-3 p.m. series, both effective March 26. Agney, Huber Hog & Son, N. TONI COMMENTARY • To sponsor Carol Douglas, and Bill Cullen in beauty-fashion commentary on ABC starting March 20, Mon. Fri., 11:22 11:30 a.m. (CST), originating in New York (see page 16). Agency, Foote, Cone & Belding Chicago.

WERE APPOINTS • WERE Cleaveland names William G. Rambeau Co. as national representative.

GEN. ROMULO TO ADDRESS NAB CHICAGO MEETING

Gen. Romulo, famed as orator, statesman soldier and Pulitzer Prize winning editor, considered one of world's most eloquent speakers. During World War II he served as Ge MacArthur's aide on Batson and Corregidor and in Australia. He went with Gen. MacArthur to Philippines for assault landing Leyte and took part in recapture of Manila.

This belief grew with his continued retention on "acting" basis.

Mr. Plummer, with FCC since 1940, will head new Office of Chief Engineer. He is native, 1935 graduate of U. of Maine with B. in electrical engineering, worked with WHE and WGAN Portland and Radio Receptor Co., New York, before joining FCC's Boston office. He was transferred to Washington headquarters in 1941, working in AM Division unit its creation in 1945. He attended 1947 Atlantic City 1948 Geneva, and 1949 Mexico City high frequency conferences.

Mr. Johnson, slated to preside in G. Richards stations hearings opening in L. Angeles today (Monday), joined FCC in 1925 has extensive experience in both broadcast and common carrier affairs. He is former first assistant to Attorney General of Alabama at one-time presiding circuit court judge in Alabama. He was named examiner in June when hearing division was created, is first chief.

• Time and again sales-conscious advertisers who move their goods and sell services in Flint's prosperous trading zone constantly use popular station WFDF to reach its dollar-loaded audience. They know WFDF's listeners prefer it morning, noon and night.

Proof is as near as Hooper's December, 1949-January, 1950 Station audience index which shows WFDF delivers an average of more than two and one-half times the audience, in total rated time periods, as the nearest runner-up station.

There are plenty of blue chips in the prosperous Flint market for the alert advertiser. Get your share with WFDF.

Agencies

ROGER L. WENSLEY, president of C. M. Basford Co., New York, since 1925, elected chairman of the board. Succeeding him as president is HENRY SILDDORFF, formerly vice president and director. E. SCOTT PATTON, vice president and director, named executive president; DONALD MURPHY, account manager, elected a vice president.

STROHMEIER Assoc. and DAVIS-PARSONS Inc., New York, merge into firm under latter name. WILLIAM D. STROHMEIER, head of former agency of that name, named a vice president of Davis-Persons Inc.

Mr. Silldorff

RALPH E. HESS, formerly account executive and public relations director of Joseph Adv., Cincinnati, joins Al Paul Lefton Co., Philadelphia, as account executive and technical counselor.

DONALD J. POWERS, previously manager in charge of Chicago office of Caples Co., appointed vice president in charge of that office.

JAMES A. AULL, formerly copy chief of Geare-Marston Inc., Philadelphia and before that public relations director of KYW that city, joins Martin Agency, Philadelphia.

JIM WELLS, formerly general manager of Buffalo Bills football team and previous to that sports director of Wiben Buffalo, N. Y., joins H. J. Weil Inc., that city, as vice president.

DOUGLAS H. MORRIS, formerly with Pedlar & Ryan, Campbell Soup Co. as Lever Brothers, joins Ted Bates & Co., New York, as account executive effective March 15.

CHARLES J. O’MALLEY, former sales manager of Paul F. Behr Co., Bloomington, III. (Walz and Pecan Pete candy bars), joins Ollan Adv., Chicago, vice president. He is in charge of packaged goods selling mainly through food, drug and tobacco outlets.

HUGO SCHEIBNER, operator of his own Los Angeles agency for past seven years, joins Robert F. Dennis Inc. as vice president. He will handle full apparel advertising. SID KAHN, formerly associated with Scheibner agency, production manager, also joins Dennis in same capacity. Another addition to staff is ALBERTA KALINA, TED BAILLIE resigns as secretary of agency to join C. B. Juneau Inc., Los Angeles.

ERNEST BAKER Jr. appointed to staff of Denman & Betteridge Inc., Detroit. He formerly was with Morris Tandy Co. as account executive.

JOHN SCHUMAN, with Peck Adv., New York, for 15 years, named vice president in charge of copy and service for agency.

SAWDON ADV. CO., New York, incorporates and changes name to FRANK SAWDON INC. Officers of new firm are FRANK B. SAWDON, president; JERRY BENN, vice president in charge of radio, and VIC TAYLOR, secretary. Agency services Robert Hall Clothes account, one country’s largest users of radio in the retail field. Other radio accounts include Abel’s Inc., New Jersey, jeweler; Bond Television and Oklahoma Oil Products Co., both in Chicago.

MARGERY JONES, formerly with copy staff of Hale Bros., San Francisco department stores, joins Avery & Bruggiere Adv., same city.

HERBERT GRUBER, former timebuyer with Biow Co., New York, joins manager of Cecil & Presbrey, New York, in similar capacity.

WALTER H. HAULICH, for past 12 years business manager of Ice Poll, joins Walker McCrory Inc., Beverly Hills, Calif., to handle promotion.

RICHARD G. MONTGOMERY & Assoc., formerly W. S. Kirkpatrick Adv. of ice, Portland, Ore., moves to 1126 S. 13th Ave. Phone remains BEacon 3-8550.

GLENALL TAYLOR, radio director of Hollywood office of N. W. Ayer & Inc., is the father of a girl, Adriane Elizabeth, born March 5.
WFBR daily newspaper advertising—placed on radio log pages exclusively—runs in 1 morning, 2 evening and 2 Sunday Baltimore papers! This hard-hitting promotion of your shows—and by the same token, your spots—is backed up by space in 6 weekly papers in Baltimore and surrounding counties to reach additional audience in WFBR territory, for an average of 1021 insertions a year!

To the best of our knowledge—no other Baltimore radio station can match this intensive promotion effort. It's another reason why, in Baltimore, you get the most for your money on . . .
WHEN fire swept Spokane's Ridpath Hotel late last month causing an estimated loss of over $1 million, CBS outlet KXLY played a leading role—one that evoked many words of praise and commendation. From the time the flames were discovered until it became necessary to vacate the studios because of danger of the wall between the two buildings falling, George McGowan, KXLY program director, gave a flame-by-flame story of the next-door fire. CBS programs were cancelled. Mr. McGowan, from a vantage point in the Symons Bldg., cooperated with the Spokane fire department by telling people to stay home and not come down town and get in the way.

After the fire chief closed the studios and control rooms because of collapse danger, KXLY tied into CBS lines at the transmitter for the rest of the night.

Another contribution by KXLY was use of its "fire door" which had been installed from its main studio into the Ridpath Hotel for the purpose of giving an escape to studio guests in case of fire in its Golden Concert Studio. Fire officials credited the door for saving many lives of Ridpath Hotel patrons as it gave them the opportunity to get out of the hotel after elevator servi-

**PAUL WILLIAM COPELAND**

is his full name, but he prefers just plain Bill. Born in Columbus, Ohio, Aug. 12, 1917, Bill has by a circuitous route found his way back to Columbus and to Byer & Bowman, advertising agency, where he is presently radio-TV di-rector. This is Bill's fourth hitch at Byer & Bowman. His first was in 1936 when he came to B&B from The Duplex Printing Co., same city. Prior to that, in 1934, he graduated from East High School, Columbus. During his high school years Bill owned, edited and distributed house-to-house a Kluge-printed shopping news titled Oak Street Buyers' News.

He took a short fling at Ohio State U. right after he graduated from high school but discarded it in 1936 for a copy job at B&B. He returned to O. S. U. in '37, '38 and '40 for night school, mixing it with some classes at Frank-lin U. during the same period. He left B&B for a short time to become editor of The Military Review, a Fifth Corps area sheet which promptly folded, and so he returned to the B&B fold.

In 1942 young Copeland left the firm again, this time to beat the pavement for the Columbus Star—a tabloid weekly. Three months later he was drafted and spent nearly four years in the service. Two of the four years were spent at Lae, New Guinea, as radio operator and m. c. at the Red Cross Hut. While overseas, Bill wrote a column for the Columbus Dispatch, called "Hello Back There." In addition he wrote a weekly short story for The Columbus Star—this for three years without missing a week.

Discharged Jan. 13, 1946, Bill was back at B&B on Jan. 17 same year, with his present title. Among his accounts are The Franklin Brewing Co., with nightly sportscast on WCOL, weekly mystery half-hour on WBNV, film spots on WBNV-TV, and The Ohio Fuel Gas Co. which sponsors nightly news cast on WBNV-AM. Others include Buckeye Foods (Buckeye Potato Chips), film spots on WBNV-TV and WLAC (TV) Columbus; Central Bldg. Loan & Savings Co., spots on WCOL; Ashland Oil & Refining Co., basketball & football on a special network.

Bill got his TV experience by doing his own kid show as "Stony Craig," but bowed out to Howdy (Continued on page 18)
3,004 CLASS "A" QUARTER HOURS FOR CHAMPLIN

On July 15, 1940, the Champlin Refining Co. of Enid, Oklahoma, through the Ford Advertising Agency, contracted with WNAX for 312 Class "A" quarter-hours of news. Ten years later, March 1, 1950, marked the 3,004th consecutive Champlin-sponsored newscast on WNAX.

Champlin's is just one of the stories in WNAX's bulging file of advertisers who use WNAX year after year. More than 25 per cent of the national selective accounts now on WNAX were WNAX advertisers in 1940! These advertisers renew again and again because they get a consistent return on every advertising dollar invested with Big Aggie.

Big Aggie Land, a Major Market, served only by WNAX, embraces more than a million radio families in 308 BMB counties of Minnesota, the Dakotas, Nebraska and Iowa.

In 1948, folks in Big Aggie Land with a buying income of nearly $5-billion—greater than Los Angeles, Washington, D.C., or St. Louis... accounted for $4-billion in retail sales—greater than San Francisco, Philadelphia or Detroit.*

Ask your Katz man to show you how WNAX can produce good will, increase sales of your product or service.

*Compiled from 1948 Sales Management Survey of Buying Power.
Mutual delivers “the game of the day”
By unprecedented arrangement with major league baseball, the Mutual Broadcasting System will bring "The Game of the Day" throughout the 1950 season, in live action, direct from the top ball parks to a coast-to-coast audience never before within play-by-play earshot of the nation's favorite sport.

Starting April 18 and continuing throughout the full season, Mutual will deliver "The Game of the Day," Monday through Saturday, in complete, play-by-play detail. A special network of 350 Mutual stations has been set up to carry these broadcasts to some 75,000,000 people in 31 states.

Al Heifer, Mutual sports ace, will call the action of each day's game, with between-inning color by Art Gleeson, outstanding West Coast sportscaster.

This "Game of the Day" coup widens still further the Mutual margin as Number One Network for sports—a title earned by its consistent, year-round schedule of championship sports coverage. And, following the regular 1950 baseball season, Mutual will again carry—exclusively for the 12th consecutive year—the World Series, play-by-play, as well as the mid-season All-Star Game.

Advertising opportunities in "The Game of the Day" are as broad in scope as the marketing areas it will reach: the 24-week series is available for cooperative sponsorship. For details, call or write the Cooperative Program Department, MBS, 1440 Broadway, New York 18, N. Y., or Tribune Tower, Chicago 11, Ill.
SHOP BY MAIL, New York, appropriates $200,000 for television and radio promotion throughout the country. Agency is Scheck Advertising, New
ark. Firm chiefly interested in women's participation shows.

PURITY BAKERIES, Chicago, for Taystee bread, to sponsor TV show, Hope long Cassidy, in several major markets. TV spots used now. Agency: Toyn & Rubican, Chicago.

PARK & TILFORD (All-fabric Tintex tints and dyes), through its agent, Storm & Klein, New York, started its annual spot announcement campaign March 6. Contracts are for 10 weeks.

REDDI-WIP Inc., Los Angeles, through William Kester & Co., same city, enters radio for first time with 30 weekly spot test campaign on KFWB Los Angeles through March. If successful, test will be followed in June with 13 week spot campaign on several Los Angeles stations. Firm currently running two TV spots weekly on KECA-TV Los Angeles, and KFMB-TV San Diego.

BESTE'S PROVISION Co., Wilmington, Del. (bacon, hams, etc.), appoints Kate-Haas Adv., same city, to prepare extensive state-wide campaign starting April 1. Radio will be used.

AXEL BROS., New York (Columbia Diamond Rings Div.), appoints Baya Adv. Service, New York, to handle its advertising campaign. Firm is considering both radio and television. Definite plans are expected to be announced within a month.

Network Accounts • • •

LIBBY, McNEILL & LIBBY, Chicago (food products), renews sponsorship for an additional 15-week period, of Auction-Aire ABC-TV, Fri., 9 p.m. Negotiations also underway to clear time on additional ABC stations. J. W. Thompson, New York, is agency.

TONI Co., Chicago, will sponsor half-hour video show on CBS and five-minute AM strip on ABC for its home permanent wave during peak seasons, spring and summer. Starting dates are April 5 and March 20. CBS slot is for alternate Wednesdays from 8 to 8:30 p.m. CST with ABC daytime from 12:15 to 12:30 p.m. CST. Neither format has been set. Agency: Foote, Cone & Belding, Chicago.

GENERAL MILLS, Minneapolis (Wheaties), will sponsor special, one-tie broadcast, Welcome Back Baseball, MBS, Sunday April 16, 7:30-8 p.m. ET and 8:30-9 p.m. PST. Bob Hope, Bing Crosby and prominent baseball personages will participate. Knox-Reeves Adv. Inc., Minneapolis, is agency for Wheaties.

CANADA DRY GINGER ALE Inc., Chicago, sponsor of 5-5:30 p.m. portion Super Circus, ABC-TV, Sun., 3 to 6 p.m., adds five stations to line-up in carrying show. Agency: J. M. Mathes Inc., New York.

EQUITABLE LIFE ASSURANCE SOCIETY, New York, renews sponsorship effective March 31, of This Is Your FBI, ABC, Fri. 8:30-9 p.m., for an additional 22-week period. Company has sponsored show since April 1945. Warwick Leger, New York, is agency for firm.

KAR SEAL Corp., Los Angeles (wax auto polish) April 1 starts weekly sponsorship of Newspaper of the Air on 12 Don Lee stations Saturday, 10-10 a.m. PST. Contract is for 26 weeks. Agency is Mogge-Privett Inc., Los Angeles.

FLORIDA GREYHOUND LINES, Jacksonville, Fla., renews for 13 weeks, cooperative sponsorship of ABC's quarter-hour news commentary featuring Zil-Davis, three times weekly over four Florida stations: WFTQ Jacksonville, WSUN St. Petersburg, WWHO Orlando and WMFY Daytona Beach. Agency: Beaumont & Hohman, Atlanta, Ga.

WESTINGHOUSE ELECTRIC Corp., Pittsburgh, which has sponsored 7 Malone Show for past five years, will cancel five time weekly, five-minute show on ABC, effective mid-March.

Praises Editorial

EDITOR, BROADCASTING:
My thanks and my compliments go to you on account of the editorial in Monday’s (Feb. 27) BROADCASTING. It is something of a task to keep so many members of a large family reconciled to a uniform program where so many conflicting interests are involved. A little “assist” like this once in a while is really a big help.

Justin Miller
President
Nat. Assn. of Broadcasters
Washington

All-Sweet’s Plan

EDITOR, BROADCASTING:
I read with interest your article and editorial in BROADCASTING, Feb. 13, regarding free time. Here is a new twist on an old idea, to get free radio time. Our local hospital called this morning and wanted us to give a lot of free publicity to them, telling this story.

“For each empty carton of All-Sweet margarine that is turned in, the hospital will receive five cents.”

All-Sweet’s advertising executives must have stayed up all night working this out, saying to themselves: “How can local radio refuse? It is all for charity.” This is all very nice, and I know that five cents per package is a big budget for advertising, but where would the poor radio station (who gives and gives and gives) be if each company worked out a plan like this?

I assume there are many radio stations who will go along with this. WSKI did not! I think that radio’s record is very good, and all of us give free time to worthy causes, but think of the thousands and thousands spent each day to work out something that radio stations will take free. Everyone gets paid except radio!

Paul H. Martin
General Manager
WSKI Montpelier-Barre, Vt.

FM Needs Selling

EDITOR, BROADCASTING:
Our broadcasting industry makes great claims as to its terrific selling power. Some of us would have the advertising world believe that we could sell hot air heaters to the Zulus at high noon. Maybe we could if we’d try! But the shame of it all is that we can’t even sell a product in which our own industry has invested millions.

That product is FM and the reason we can’t sell it is because amateur ideas we once had concerning it, we have packed away like mothballs. A product must be advertised in order to be sold. WKNR has AM outlets that mean at least we claim we have.

Just turn to almost any page in BROADCASTING and glance at the large type. Let’s prove ourselves we have a market surrounding.

On All Accounts

(Continued from page 12)

Doody on a competing station. Actual experience he claims gave him more studio know-how than a dozen books.

In 1948 Bill Copeland and Annita Auteri were married. They now have one son, Bobby, eight months old.

Versatile Bill can literally and figuratively “change his tune.” He has a fledgling music publishing firm called “My- Bob Music,” named after the aforementioned son. With a BMI license the firm’s white-hot hopes are in four Copeland tunes, one of which is “If Summer Is Good To Me,” a BMI published tune recorded on an old label by the Bus Brown Combo, and backed up by another, “You Gotta Get Up Mighty Early To Be The Early Bird.”

Besides working for success in his job at Byer & Bowman, Bill Copeland hopes to build a weekly TV show that packs a wallop, with himself as m. c., “just to keep his hand in.”

Feature

(Continued from page 12)

ice stopped and stairways became blocked with flame and smoke floor in the KXLY studio was damaged.

Typical of the comments KXLY’s coverage of the fire letter received by E. B. Crane, president of Symond BROADCASTING Co., owner of KXLY, from R. V. Jones, vice president of The O National Bank.

If returning home, said Mr. Jones, “we listened to KXL until the announcer was obliged to evacuate his quarters. The description of events was given in a most interesting manner and under the circumstances in which the announcer was broadcasting he held the audience not nearly as excited as probably we would expect him to be. You are to be highly commended for giving the public this type of service.”

Play 45 RPM's on 70-series Turntables—
with RCA Kit MI-11883

NOW you can handle 45's, 78's or 33-1/3's—fine-groove or standard—with this kit, and a second tone arm (available extra).

Easy to install
You install the single-unit, ball-type speed reducer between the two flexible couplings in the main drive shaft of your turntable. You transfer the motor switch leads to the micro-switch—included with the kit. That's all there is.

Easy to operate
A motor-control knob on the deck of the turntable controls the speed. Position No. 1 stops the motor. No. 2 shifts the speed control to the 78-33 1/3 rpm speed-change lever (on turntable deck). No. 3 shifts to "45 rpm" position (speed lever set at 78 rpm). You can shift speeds instantly in either direction while turntable is running.

Same RCA broadcast dependability
Sturdy construction and accurate mechanical alignment assures you the same quiet, trouble-free service for which more than five thousand RCA turntables are famous.

Order your kit (s) today

Let's not kid ourselves. No advertiser, no account executive, no agency timebuyer has either the hours or the physical stamina to read all the trade publications that stream across his desk.

If you're still flirting with the notion that you need several magazines to surround the men who control the choicest advertising budgets...well, you're just peddling uphill needlessly.

It doesn't take five...three...even two publications to woo the attention (and recognition) of the people who really count. You can commune with them through a single medium—through the well-thumbed, well-noted pages of BROADCASTING.

For almost 20 years now, BROADCASTING has been the solid, authoritative reporter of everything significant about its namesake industry. So much so that today virtually anybody who has anything worthwhile to do with radio and TV timebuying decisions is a close reader of BROADCASTING. The moral is obvious. While these often-unattainable people are studying the pages of BROADCASTING, you have a chance to speak up (through those same pages) about yourself.

You have a chance to speak up before a bigger, more important assemblage of bigger, more important people than any other radio or TV publication can gather together for you. They may not read the others. They always read BROADCASTING.

these facts on your adding machine:
- The largest and oldest publication in its field, with 3,300 weekly paid circulation.
- More paid circulation among radio advertisers and agencies than any competing publication.
- The highest survey-proven readership of all radio journals.
- Some subscriptions (in addition to office copies)
- Key advertiser and agency personnel controlling more than 85% of all national radio expenditures.
- More advertising lineage annually than all other radio journals combined.
- An advertising cost—to reach these decision-making advertiser and agency readers—of less than one cent per impression!

LICENSE FEES

A TWIN MOVEMENT was in progress on Capitol Hill last week which, if successful, would assess license fees on all commercial stations. Although not yet jelied, proposals have been forwarded along two separate paths:

- The Democratic leadership in the House has decided to sound out Treasury Dept. officials on the practicability of assessing license fees on stations and on civil airlines.
- A Senate committee staff is investigating services performed for radio and communications by the FCC with a view toward possibly assessing fees for licensing and other services rendered.

A meeting last Thursday of Administration leaders including Senate Leader Robert L. Doughton (D-N.C.), chairman of the House Ways and Means Committee; Jere Cooper, (D-Tenn), Walter A. Lynch, (D-N. Y.), all members of the Doughton committee; House Speaker Sam Rayburn (D-Tex.), and John W. McCormack (D-Mass), House Majority Leader, reviewed the revenue problems.

It was reported that the session resulted in the naming of Colin F. Stam, chief of staff of the Joint Committee on Internal Revenue, Taxation, to explore with Treasury officials the feasibility of levying fees on stations and also on civil aeronautics services.

Sen. Walter F. George (D-Ga.) is chairman of the joint group, Rep. Doughton is vice chairman.

Stems From White House

Unusual significance attaches to the House move, since it indirectly stems from the White House, President Truman's opposition to cancellation of the so-called luxury excise taxes, and the concerted Congressional drive to eliminate or reduce most of the war-time import duties, which resulted in efforts to develop new sources of revenue.

The high-level conferences of the House leadership followed a session with President Truman during which it is understood he emphasized the need of maintaining most of the excise taxes. He did not suggest the radio and aviation license fee or the balance tax approach, it was learned.

The tax suggestion came from Rep. Cecil R. King (D-Calif.), a Ways and Means Committee member, during the closed door discussions on Wednesday, and the study was authorized the following day. He pointed out that in California the state levies a flat fee for oil-drilling permits which must be paid even if the hole eventually proves dry. It is understood he talked about big profits made in radio and the high cost of administration. He also objected to the air lines aspects, with discussion centering around the "franchises" which was given by the government in both instances.

Whether this topic was broached to the President following the House leadership discussion was not ascertained. It is known, however, that FCC Chairman Wayne Coy conferred with the President last Wednesday, although he had no listed appointment. Later the same day, CBS President Frank Stanton and House Interstate Commerce Committee Chairman Robert C. Crosser (D-Ohio) made scheduled calls on the Chief Executive.

For more than a dozen years proposals intermittently have been made for franchise taxes or license fees for radio. These have ranged from "$1 per watt" proposals to charges for filing of papers with the Commission to defray its administrative expenses, much in the manner in which the courts charge filing fees. All died aborning, however, because of the obviously discriminatory aspects, and in recognition of the fact that farmers do not defray the cost of the Agricultural Department, nor industry the costs of the Department of Commerce or of other Government agencies which render them service.

Senate Group Probe

Meanwhile, a more long-range investigation, but with the same end in mind, is underway in the Senate by staff members of the Senate Committee on Expenditures in the Executive Departments. The probe, led by Chairman John L. McClellan (D-Ark.), already has resulted in a request that the FCC provide detailed material.

According to a committee spokesman, FCC has been asked to show what services it renders the radio and television industry. The committee seeks to sift out those services which go beyond public benefit. Although the probe has been progressing for some weeks, disclosure came early last week by Sen. McClellan, who stated:

"The FCC carries on extensive licensing and inspecting service without which wireless communications in the United States would be a bedlam of confusion. Further, through its inspection service the safety of shipping interests is safeguarded through issuance of adequate wireless transmitting and receiving equipment.

"The FCC now has outstanding over 90,000 authorizations for transmitters of all kinds and licenses for more than 600,000 radio operators of all classes. There is essentially no charge whatsoever for these invaluable services from which tremendous benefits accrue to the recipients thereof, and the Committee expects (Continued on page 76)

'LIGHTNING' IMPACT

INDUSTRY film, "Lightning That Talks," opened last week in Manhattan and in several other cities with mixed success. On the basis of a painstaking survey by Broadcasting, it is plain that the film failed to attain a sweeping endorsement among its audiences.

Among 300 representatives of agencies, advertisers, stations, networks and other elements of the industry who gave Broadcasting their reactions to the film after attending its showing on Thursday, more thought it was fair than thought it good, and more thought it poor than excellent. The great majority thought it neither good or fair.

Reports from other cities where the picture was displayed last week ranged from enthusiastic to cool.

At Canton, Ohio, the picture was reported to have made a "striking impression" on an audience of 63 industrialists, retailers, wholesalers and distributors Thursday.

At Oceola, Ark., 75 business leaders gave it a cool reception. At Lexington, Ky., 240 retailers and other business people viewed it with widely disparate opinions. Equally varied reactions were reported in Minneapolis and St. Paul. A private screening by WOV New York for a group of clients in the Italian foods field resulted in a "tremendously favorable" response.

At the biggest showing last week, before an audience of 500 at a luncheon meeting of the New York Radio Executives Club at New York's Roosevelt Hotel, Broadcasting distributed questionnairenaires to get reactions. A total of 309 was returned. Of the total, 78 were from persons associated with advertising agencies, 101 from station and network people, 85 from station representatives firms, 15 from advertisers and 30 from other categories. (Complete tabulation of survey on page 40.)

Majority Liked

Among all respondents, 71.5% thought the film was either good or fair; 11.5% thought it excellent, and 16.7% thought it poor—the least favorable choice given on the questionnaire.

Slightly more than half thought it made a good sales talk for radio. Slightly less than half thought it did not.

As to how "Lightning That Talks" compared with promotion films for other media, the audience had seen, 8.1% thought it was tops, 41.4% thought it was better than average, 40.5% thought it run-of-the-mill, and 10.5% thought it below average.

Among the New York Radio Executives Club audience, the film appeared to be the most critical of the picture were those from advertising agencies and advertisers.

Only 10.5% of the agency respondents thought the film excellent, while 25% of them thought it poor, and 94.2% of them regarded it as fair while 30.3% thought it good.

More than half (51.5%) of the agency respondents thought it did not make a good sales pitch for broadcasting.

Among advertisers who answered the questionnaire, 20% thought (Continued on page 40)

duPont Honors Include TV Awards to WPIX and ABC

Mr. Beatty, Mr. Howard, Mr. Clarke, Mr. Kintner, Mr. Scripps

**duPont AWARDS**

Beatty, WNOX, WWJ Cited

NBC COMMENTATOR Morgan Beatty, WNOX Knoxville and WWJ Detroit received the 1949 Alfred I. duPont memorial awards at a dinner in New York last Saturday (March 11).

In addition to the three awards, made annually since 1942, two special citations were issued to ABC-TV and to WPIX (TV) New York, the first recognition of television by the duPont committee.

Each of the three principal awards includes a cash prize of $1,000.

The awards and citations were presented at a dinner held at New York's St. Regis Hotel, with ceremonies broadcast by ABC.

The commendations attached to each of the three main awards were like those which have been given since the founding of the prizes, a memorial to the late financier.

Mr. Beatty's commendation was "in recognition of distinguished and meritorious performance of public service by aggressive, consistently excellent and accurate gathering and reporting of news by radio and the presentation of expert, informed and reliable interpretation of news and opinion for the purpose of encouraging initiative, integrity, independence and public service through the medium of radio."

**Station Citations**

The commendations for both WNOX and WWJ were "for outstanding and meritorious service in encouraging, fostering, promoting and developing American ideals of freedom and for loyal and devoted service to the nation and to the communities served by these stations, respectively."

The special citation to ABC-TV was for its telecasts of the film *Crusade in Europe*, based on Gen. Dwight D. Eisenhower's book. The citation was "in recognition and appreciation of outstanding public service in encouraging, promoting and developing American ideals of freedom and for loyal, devoted service to the nation and to the communities served through the television presentation of the historical documentation, *Crusade in Europe*."

The citation to WPIX (TV) read similarly except that it was for the station's presentation of "current news and events."

The awards and citations were received by Mr. Beatty; Jack R. Howard, president of Scripps-Howard Radio Inc., owner of WNOX; W. E. Scripps, a director of the Evening News Assn., owner of WWJ; Robert E. Kintner, president of ABC, and Richard Clark, executive editor of the New York Daily News, owner of WPIX.

**Annual Awards**

The duPont awards to stations are made annually to one station of more than 5 kw and to another of 5 kw or less. WNOX is a 10 kw outlet. WWJ is 5 kw.

Mr. Beatty is featured Monday through Friday, 7:15-7:30 p.m., on NBC's News of the World, sponsored by Miles Labs.

Members of the awards committee are Mrs. Alfred I. duPont, widow of the financier; Dr. Francis P. Gaines, president of Washington and Lee U.; M. H. Aylesworth, radio consultant and first president of NBC; Mrs. J. L. Blair Buck, president, General Federation of Women's Clubs, and Mark Ethridge, publisher of the Louisville Courier-Journal and Louisville Times (WHAS). All committee members attended the dinner.

Others in attendance included Mark Woods, ABC vice chairman; Joseph H. McConnell, NBC president; Niles Trammell, NBC chairman of the board; William C. Gitterer, CBS vice president and assistant to the president; Frank White, MBS president; William H. Goodman, secretary of the Alfred I. duPont foundation, and Sol Taishoff, editor and publisher of Broadcasting-Telecasting.

Milton Cross announced the program, and music was provided by Paul Lavalle's orchestra.

Rheinstrom to JWT

CHARLES A. RHEINSTROM, former vice president of Erwin, Wasey & Co., New York, has joined J. Walter Thompson, New York, in an executive capacity.

**'GAME OF DAY'**

MBS Offers to Local Accounts

MBS' BASEBALL "Game of the Day" will be offered to local and regional advertisers over 350 network stations, with decision by the broadcasts available exclusively for local sponsors resulted following an "overwhelming" response by MBS.

Two types of cooperative sponsorships can be arranged—a complete game by one advertiser, or purchase by various advertisers of 30-second announcements after every half inning, and one 60-second spot at the end of the game, according to Mr. White.

The daily broadcasts, which will commence with the opening of the Major League baseball season April 18, will be aired in 31 states from Florida to Oregon, Monday through Saturday, with Al Helfer handling play-by-play.

**HENRY C. KLEIN**

BBDO Vice President Dies

FUNERAL services for Henry Clay Klein, 50, vice president of BBDO, New York, were held last Friday in New York. Mr. Klein died suddenly, March 7, enroute to Philadelphia.

Born in Muncie, Ind., Nov. 9, 1899, Mr. Klein joined the Chicago office of BBDO in 1931 as radio director, and in 1940 came to the New York office, where he assisted Arthur Pryor Jr., in the development of new program ideas and talent. He was made a vice president on Feb. 21, 1948 and for the past few years served as acccount head for the Curtis Publishing Co. account.

Mr. Klein is survived by his wife, Jean Sprinkel Klein, and a son, Henry C. Jr.

**Capitol Names Murray**

S. W. MURRAY, formerly vice president of RCA, in charge of RCA Victor record division, has been elected vice president of Capitol Records Inc. He will serve in an executive capacity in a new post to be created for him. In the record business since 1928, Mr. Murray has been associated with Oki Phonograph Co. Inc.; Nipponophone Co. Ltd., Japan; Victor Co. Of Japan Ltd., and Columbia Record Co., in addition to RCA.

**BAB Retail Folders**

BAB LAST WEEK issued two more retail information folders, a automotive industry folder for radio stations, and a TV folder banking. Each contains a comprehensive review of the industry and its advertising practices, particularly its use of radio and TV. Each folder also includes pertinent information reprinted from banking (or automotive) trade papers.

Page 24 • March 13, 1950
**FCC REORGANIZATION**

FCC's Awaited Staff-wide Reorganization [Closed Circuit, Dec. 12, 1949; Broadcasting, Feb. 20] was initiated last week in a re-arrangement of the Commission's common carrier operations which set the pattern for wholesale changes to come in broadcasting and other FCC departments.

As the first step toward complete establishment of its staff on a functional basis, FCC Thursday:

- Created a Common Carrier Bureau which will handle accounting, engineering, and personnel;
- Abolished the existing Bureau of Law, Accounting and Engineering, which heretofore have comprised the major staff divisions; and
- Created separate offices of General Counsel, Chief Engineer, and Chief Accountant; new bureaus will serve as major staff units with broad authority and also, pending complete reorganization, assume the jurisdiction of the old, accounting and engineering bureaus with respect to broadcasting, safety and special services, and field engineering and monitoring.

The changes become effective April 3 and will be followed by the creation of three additional bureaus—Broadcast, Safety and Special Services, and Field Engineering and Monitoring—on a par with the new Common Carrier Bureau. The reorganization, bureau-by-bureau, may take several months.

No Appointments Made

The Commission's announcement and orders gave no hint of likely appointments as heads of the Common Carrier and subsequently established bureaus, except to say all positions “will be filled from within the present staff of the Commission.”

It was expected that the new offices of General Counsel, Chief Accountant, and possibly Chief Engineer would be headed by the men in those positions in the present organization—Benjamin P. Cottone, William J. Norfleet, and John A. Willoughby, respectively.

There has been recurrent speculation that a new chief engineer may be appointed, to succeed Mr. Willoughby, who has occupied the engineering post on an “acting” basis since George E. Sterling was advanced to Commissioner on Jan. 2, 1937;

Harold J. Cohen, assistant general counsel in charge of the Common Carrier Division of the present Law Bureau, was regarded as FCC's probable choice for chief of the new Common Carrier Bureau.

Plotkin Broadcast Chief?

Harry M. Plotkin, assistant general counsel in charge of broadcasting, was considered among the principal candidates for the same position in the forthcoming Broadcast Bureau.

George S. Turner, assistant chief engineer, was seen as one of the leading candidates for chief of the Field Engineering and Managing Bureau, while initial speculation on the ultimate Safety and Special Services post covered several prospects.

Each of the new bureaus will be “responsible to and subject only to the Commissioners themselves,” FCC's announcement said. Thus each bureau chief will have to answer only to the Commission for his conduct of the regulatory affairs in his particular field.

Under the realignment, the General Counsel, Chief Engineer, and Chief Accountant are slated to serve as the Commission's top-level technical advisors and representatives. For each the Commission has asked the Civil Service Commission for a $12,200 to $13,000 pay rating, as compared with the approximately $10,000 they now receive.

These three and their “principal assistants” will be disassociated from the usual prosecuting and investigatory activities of the functional bureaus. Their duties, FCC has indicated, will include a Field Coordination Unit and an Administrative Unit.

In abolishing the Bureau of Law and creating the Office of the General Counsel, FCC transferred to the latter the “positions and personnel in the immediate office of the general counsel and the positions and personnel in the Litigation and Administration Division of the Bureau of Law.”

The Litigation and Administration Division is headed by Assistant General Counsel Max Gold- man, with Richard A. Solomon as chief of the Litigation Branch and A. Harry Becker chief of the Administrative Branch. The “immediate office” of the general counsel includes Joseph M. Kittner, assistant to the general counsel.

The “positions and personnel” of the Law Bureau's Broadcast Division and Safety and Special Services Division were transferred to the Office of the General Counsel “until further order of the Commission.” They are slated for eventual inclusion in the new Common Carrier Bureau and Safety and Special Services Bureau. As units of (Continued on page 77)

**NUMBER SHOW**

**Giveaway Stirs Wide Reaction**

By J. Frank Beatty

ANOTHER program idea with a giveaway gimmick ($100) has thrown 15 markets into varying stages of excitement and starting to assume national aspects. It’s a $100 number-reading program that is giving the humble social security card a significance never conceived by its government creators. Within the last fortnight the idea has started to accelerate.

- The Social Security Administration, not very happy about it, is investigating.
- FCC has heard, and is conducting a “routine inquiry.”
- Fifteen areas are going through hourly crises as listeners check up on the latest number.
- Stations in 35 other markets are clamoring for exclusive rights.
- Participating sponsors are delighted, stations report.
- Some stations not in on the plan are said to be having fits about its audience impact.

This attention-getting device, described by one broadcaster as the “biggest thing since the Man From Mars incident,” is the creation of H. E. Hudnins, copy chief of Azrael Adv. Agency, Baltimore. The plan was worked out by Mr. Hudnins and Maurice Azrael, head of the agency.

Since the first of the year, the Azrael agency has been working seriously on its brain-child and has taken out copyright protection. One of the first to try the idea was WBMD, Baltimore, daytime independent [Broadcasting, Feb. 6].

The basic format is simple. The Azrael agency solicits potential social security numbers for each station, guided by the area formula governing first digits on Social Security Administration cards. Every hour the station reads a number. If a listener has the number on his card, he can call at the station and pick up $100.

How about potential lottery aspects of the scheme? The Azrael agency says it has been advised the plan is legal. Moreover, one participating station has made a separate check and is convinced it’s legal.

While chance of winning might appear remote, winners are appearing at stations about once a week. Without winners the plan might fold quickly so the number of required digits can be cut from SSA's maximum of nine to five or six, for example, increasing the chance of finding a winner.

WBMD Baltimore had five winners in six weeks and WLEE Richmond, Va., had four winners in eight days, according to Herbert E. Harris, Azrael account executive who finds himself suddenly enmeshed in a full-rime—even overtime—assignment.

The Azrael agency bases its fee on population of the market and the number of programs sold by the station. Since the station pays only on sponsored programs, the plan can be introduced in a market at nominal cost.

And what happens when social (Continued on page 76)
PERPETUAL BANKS ON RADIO
Builds Goodwill With WRC

By DAVE BERLYN

FEW OTHER radio advertisers can meet the claim of Perpetual Building Assn., Washington, in placing its competitors on their collective backs with altruistic audacity twice a morning three times a week.

This is precisely what Perpetual, bearing a banner of "the nation's largest saving and loan institution," has dared to do on WRC's network newscast, "World News Roundup," which it sponsors Tuesday, Thursday and Saturday over WRC Washington.

Banking its ideas on a sound program, Perpetual is making its innovation pay off in goodwill dividends. Always traditional and filled with pride of its stability and promise of security to home owners, Perpetual believes in conveying through this spirit to radio listeners.

The sound was planted for the program's different-type commercial—commending the history and accomplishments of a competing bank or loan institution in the capital city area—a relatively short time ago.

Started in 1949

Perpetual first took to the morning show the beginning of 1949 when its president, Edward C. Balz, decided the type of institutional-avored advertising his firm favored should be extended from the printed page to depositors' radio sets. The news program was chosen, it was explained, because it was traditional morning radio fare for a wide audience in a long established time spot and because it was produced with network care.

In addition to being proud of its own record, Perpetual believes the entire field of savings, loans and such types of banking has a story to tell. Braving the stigma of spending dollars to advertise the names of competing institutions, the company proceeded to tell the

ELECTION OF Elected

THIRTEEN New AM stations approved by the FCC last week included two new outlets for Hawaii, one of which went to Royal V. Howard at Honolulu and the other at Honolulu. Seven existing AM stations won improved facilities. Four new Class B FM outlets approved for New York metropolitan area, three of which went to existing AM operators. KBTV (TV) Dallas granted transfer for $375,000 to WFAA-AM-FM Dallas.

Mr. Mortimer Jr. of General Foods Corp., was announced by the council last Thursday following the annual board of directors meeting.

Mr. Mortimer, vice president in charge of marketing for General Foods and council president for the past three years, was named to head the policy planning committee of the council board. Theodore S. Reppolte, council president since 1946, was re-elected.

Mr. Gales, vice president in charge of advertising, home service and public services for General Mills, was named a director in the council for two years. Last year he was chairman of the advertising subcommittee for the Citizens United Nations Committees. He is the first midwest executive to head the council.

Lee H. Bristol, president of Bristol-Myers, was re-elected vice
chairman. Louis N. Brockway, executive vice president of Young & Rubicam Inc., and Philip L. Graham, president of the Washington Post and WTO Inc., were elected new vice chairmen.

GALE Elected

To Be Ad Council Chairman

Other elections included Frederic R. Gamble, AAA president, and Paul B. West, ANA president, as secretary and treasurer, respectively. Allan M. Wilson and George P. Ludlam were re-elected vice presidents.

Annual Time Contribution

About a $100 million worth of advertising is devoted annually by radio and television stations, newspapers, magazines and outdoor billboards. Because time and space are frequently donated by various organizations it is necessary for the board to get the "fuller" cooperation, Mr. Gale said. He added that the council's progress to date has been "significant" in the east, but that he feels the same would be laid on western territories.

Any campaigns adopted by the council must have the approval of three-fourths of the policy planning committee. The newest campaign—the decennial census—opens this month on radio, television, and in other media.

1949, has been a simple but meticulous process. A competing institution is chosen, research rounded into shape by Mr. Hotze, copy turned out by Mrs. Dillon and the script checked by Mr. Panitz. After the careful selection of material and its assembly, the finished product is tailored to fit a smooth, deliberate delivery which preserves the tonal quality of Perpetual's prestige.

Listeners to the news round up on that summer's day wondered if their ears played them tricks. An announcement in a quiet, sincere voice described the history of a banking firm other than Perpetual, mentioning resources or assets and praising founders or present officers. No mention was made of Perpetual until the close of the announcement, e.g.: "Perpetual...is proud to be a neighbor of the...Bide Assn., and salute its officers, directors and employees for their faithful assistance in making Washington a city of homes. This message is sponsored by Perpetual, a Pebble association—11th and E Sts. N.W."

Emphasizes Name

As one of the officials concerned with the program puts it, Perpetual thinks of the program as public relations because "it does not sell anything, never asks people to deposit money, but emphasizes the name of Perpetual, influence.

The 60 seconds allotted to the announcement may be pared at times on the theory the listener is tuning to the program to get the news quickly. The opening and closing seldom vary in content and are altered only to fit continuity. Perpetual not only is making an
imprint on Washington radio but also is carrying its message to outlying areas where spot, twice daily, Mon.-Fri., is placed on the Brook Johns Show on WBCC Bethesda-Cherry Chase, Md. (Washington suburb). These announcements are the same as those on WRC.

Stacks of mail which fill the Perpetual letter box quite often ask "How am I doing?" To these questions are daily answered by Mr. Balz with an explanation of the program's intent. Letters from depositors have expressed warm thanks, warmly appreciative, are signed by officials of competing firms. One depositor said the program expounds the saying "a chain is no stronger than its weakest link" and that he was sure Perpetual was "doing much to sell the industry as a whole to radio listeners." He said: "I have been a depositor in Perpetual for the last 15 years and feel that my money could not be in a more desirable depository."

W. S. Pratt Jr., president of Equitable Building Assn., Washington, he said was "particularly impressed with the unselfishness of your thought and the fairness of its presentation. To me at the Equitable it represents the fine goodwill among our group, each striving to serve the community."

At least for 1950, as in 1949, it can be said Perpetual is allotting 20-25% for radio in a flexible advertising budget. Kal, Ehrlich & Merrick also vouches for this faith in radio—and TV seems to be in the not too distant future for Perpetual—"the nation's largest."
NARBA TURMOIL LESSENS
Cuba Pact Subject to Senate

WORK on the new U. S.-Cuban NARBA treaty [Broadcasting, March 6] reportedly was near completion in Havana late last week. Industry officials who attended the sessions said that the treaty is contained in seven regional agreements. Each of the regions—Madrid, London, Mexico City, Chicago, Los Angeles, and Havana—has its own agreement. The treaty will contain additional provisions to settle disputes that have arisen under NARBA.

Chairman Ed. C. Johnson of the Senate Interstate and Foreign Commerce Committee, spurred by protests from broadcasters and Senate colleagues alike, was scheduled to hold a full Senate hearing on NARBA this week.

When that time comes, Sen. Johnson continued, "we can judge the merits of the agreement on its merits.

Tentative terms reported unoffi- cially from Havana indicated Cuba was ready to meet the U. S. where it was on the 1946 conference. However, Sen. Johnson added, "I can say that I am satisfied with the U. S. and the NARBA delegation to protect the U. S. interests in the Western Hemisphere."

The meeting was held in New York last week.

The treaty will provide for a new channel-by-channel analysis of the agreements and will be subject to Senate scrutiny.

IRE CONVENTION

Over 150 Technical Papers Read

OVER 16,000 visiting engineers from 23 states, Canada and England gathered in New York last week to hear technical papers and inspect over $7 million worth of equipment on exhibit for the 39th annual convention of the Institute of Radio Engineers.

Session's were held at the Hotel Commodore and Grand Central Palace Monday through Thursday, with 150-technical papers read during some 30 sessions. In addition, a total of 280 exhibits were on display. Seven symposiums, including one television, commanded the attention of IRE members and other visitors.

IRE 1950 Medal of Honor was awarded to Professor Frederick E. Terman, dean of the School of Engineering, Stanford U. Otto H. Schade, research engineer, RCA Victor Div., received the Morris Liebmann Memorial Prize.

Fellowship recipients included A. V. Bedford, research engineer, RCA Labs., and Jack R. Poppele, MBS-WOR New York.

Guy Honored
Raymond F. Guy, NBC engineer and new IRE president, was honored at a luncheon Tuesday. Speakers included Maj. Gen. F. L. Ankenbrandt, communications director, Air Force Dept., and Sir Robert Watson-Watt of England, new IRE vice president. Stuart L. Bailey, outgoing IRE president, was toastmaster.

The institute's annual awards for merit in radio-electronics and 30 fellowship awards were given at the annual banquet Wednesday evening. Speaker was Harold B. Richmond, chairman of the board, General Radio Co. Toastmaster was Donald G. Fink, editor of Electronics magazine.

---

NEW developments revealed at the exhibit were:

A new circuit design which makes possible a new simplified three-tube receiver giving five-tube performance, and a radio set selling for as little as $5—by W. K. Volker's, consulting engineer.

An expanding tube which may improve TV reception, especially on the fringe of a TV station's area, and enable better receivers with fewer tubes—RCA Labs.

RCA high-vacuum tube (Type 5851) capable of a thousand of continuous output, with power four times that of any previous RCA tube.

Improved radio circuit techniques applicable to standard broadcast receivers, television and other radio receiving systems—Sylvania Electric Products Inc.

Test Equipment—oscillators, frequency meters, and noise generators—for the UHF television band—Polytechnic Research & Development Co.

A flying spot scanner picture generator, for television studio operations, which can carry the program load at certain critical periods, thus freeing an iconoscopic chain for previewing film or for rehearsals. Unit also can be used as a basic picture generator for color TV experiments, and as a compact television camera for industrial television—by Philco Corp.

New transmitting equipment designed for use in UHF channels proposed for use in commercial telecasting was described last Wednesday by two RCA engineers. They read papers on the RCA Type TTU-1, a UHF transmitter, and RCA Type TQ-90, a high-gain slot-type antenna and radiating system for TV transmission.

This equipment is being operated by NBC under an experimental authorization in the UHF installation at Bridgeport, Conn., in the 529 mc—535 mc band. The transmitter and antenna were described as helpful in the utilization of UHF frequencies for TV, thus relieving the limited channel situation in the present VHF band.

At a Monday session Ralph Bown, Bell Telephone Labs, urged radio and communications engineers to "lead the way" in finding out what the future holds for television.

He expressed hope that engineers would be impressed with the thought that television has a "wider destiny and a deeper obligation than merely to serve as mass amusement." He characterized video as a "servant" to each individual.

IRE session breaks finds Ray Quinn (r), of Fairchild Recording Co., explaining operation of a thermo-stylus recording kit to Frank H. McIntosh (center), of Frank H. McIntosh Co., and Blair Foulds, General Precision Corp.

---

DuMont Color System

DuMont Labs last Monday unveiled its new color television system for industrial use (TELECASTING, March 6). System may be installed in medical schools, clinics or hospitals, and now is available commercially. It is designed for 18 mc, 525 lines at 180 fields per second, and is described as affording picture resolution better than that obtained with black-and-white equipment with full color added.

TV broadcasting's problem of narrow bandwidth and compatibility which has restricted picture resolution and color fidelity in other color systems was ignored in the design of the closed circuit system, Dr. Allen B. DuMont, president of DuMont Labs, noted.

---

DuMont's industrial color television system gets attention from this group at IRE meet (1 to r): Seated, R. E. Kessler and Harry R. Smith; standing, Herbert E. Taylor, T. T. Goldsmith and G. R. Tingley, all of DuMont.

Cost of the color system for one camera chain from pickup tube to monitoring scope was set at $520—$950. The system was described as "wired" video rather than "air" television by DuMont engineers.

Among the exhibits at the convention were a 16 mm Telecasting projector, a large screen projector (36 inches by 27 inches), film processor and experimental TV camera chain developed in the laboratories of General Precision Equipment Corp., and manufactured by its member companies.

GPE has been eyeing the growing interest in theatre television as well as projection TV for restaurants, bars, and hotels, for which it is prepared to furnish projection equipment. GPE comprises 12 companies, among them the Theatre Equipment Contracts Corp., which handles installation contracts.

Additionally, GPE has a working agreement with Fye Ltd., the British TV firm, for pushing the latter's complete portable TV camera and experimental camera chain.

Also shown was the new tvlon TV antenna mast made by Wind Turbine Co. and designed for outdoor television support especially in fringe or non-urban areas. The 40-foot antenna mast also is adaptable to other communications uses.

A new type of transmission line, called the "G-String" and having commercial and military applications, also was described during the convention. The line may serve as (Continued on page 30)
National Safety Council
Honors WHO for Fourth Consecutive Year!

WHO's selection for the National Safety Council's Public Interest Award marks the fourth consecutive year in which this 50,000 watt Clear Channel Station has been cited "for distinguished service"... "for exceptional service" to safety on the farm.

Proud as we are of this Award, we are more proud of the people on our staff who helped us win it—the script writers, music arrangers and producers—the announcers, the guest speakers, the civic organizations who cooperated to make broadcasting realities from farm-safety ideas.

The Award is further proof of WHO's public-spirited programming, its awareness of community responsibility, its desire to furnish "Iowa Plus" listeners with the finest radio service in America. For advertisers there's an added significance—WHO's consistent leadership means greater advertising values for any product, in any season, at any time of the day or night.

WHO + for Iowa PLUS +
Des Moines ... 50,000 Watts

IRE Convention
(Continued from page 28)

a means for distributing TV programs on a wired basis, according to Dr. G. Goubua, Signal Corps Engineering Labs.

Principle involves an ordinary wire conductor with a specially treated surface. Where a single unit of the coaxial cable can carry only one TV program at a time, the "G-String" would enable transmission of a number of services, including television with facilities criss-crossing the country.

Additionally, the new transmission system could lead the way to a system of television distribution to homes with telephones enabling callers to see as well as hear themselves.

Standby station generating equipment provided power for hundreds of pieces of technical apparatus during the exhibit, because of the electric power shortage.

RIVERS GRANT
Savannah Outlets Oppose

In what is believed to be the first such action of its type, the existing stations of Savannah, Ga., last Wednesday filed a formal complaint with FCC against a new station-grantee there, E. D. Rivers Jr., FCC on Monday granted Mr. Rivers 1 kw daytime on 900 kc in Savannah.

The charge, filed by the Savannah Radio Council, is that Mr. Rivers has not operated WEAAS Decatur, Ga., in the way he told FCC he would, which raises "serious question as to Mr. Rivers' qualifications to conduct and operate the proposed station at Savannah."

The council asks that the non-hearing grant be set aside and the application cancelled for hearing.

The Savannah Radio Council is composed of WCCP WDAR-AM-FM WFEP WSAV-AM-FM and WTC-AM-FM, all Savannah.

FTC VACANCY
Truman Names Hutchinson

MARTIN A. HUTCHINSON, 57-year-old Richmond attorney, was named last week by President Truman to succeed the late Edwid L. Davis on the Federal Trade Commission. Mr. Hutchinson would fill out a term that expires in September 1963. Senate confirmation would make him fifth commissioner and fill out FTC's remaining vacancy.

Mr. Hutchinson's clients in Richmond have included WBMB and WTVR (TV).

Mr. Hutchinson, a Democrat who has described himself as "liberal" and "independent," ran unsuccessfully against Sen. Harry F. Byrd (D-Va.) for the Democratic nomination for the U. S. Senate in 1946. Sen. Byrd has not indicated whether he will take exception to Mr. Hutchinson's nomination. Chairman Edwin C. Johnson (D-Col.), of the Senate Interstate & Foreign Commerce Committee that will consider the nomination, said hearings have not yet been scheduled.

In recent years, Mr. Hutchinson directed political activities in opposition to the Democratic organization headed by Sen. Byrd in Virginia. Posts held in the state by Mr. Hutchinson included secretary to the Democratic Central Committee and secretary of the Commonwealth.

This year Vancouver observes the 125th anniversary of its founding. The first settlement in Washington, the "cradle of Northwest industry", is in 1950 heart of southwestern Washington's industry, agriculture, hydro-electric distribution. Separated from Portland's metropolitan area only by the width of the power-laden Columbia River, Vancouver shares with its sister city a new-found prosperity — through an influx of multi-million dollar industry and a new generation of modern pioneers that has given the KGW coverage area the nation's greatest population increase during the last decade.

Through Comprehensive Coverage KGW DELIVERS VANCOUVER . . . as it delivers the rest of the fastest-growing market in the nation.
These WMMN Announcers Capture the Sales

These Lang-Worth Artists Capture the April 17, 1953 WMMN Production Sheet
Says Allen (Dutch) Haid:

“Sunday afternoon, in many communities, is not too productive of commercial radio time. To combat this situation in Fairmont, West Virginia, WMMN came up with its ‘Sunday Showcase.’

“The enclosed log (Sunday, March 5, 1950) speaks for itself. Note that 17 of the 19 quarter-hour commercials are programmed from the Lang-Worth Library. We are now entering the second 26-week flight of the ‘Showcase’ with every quarter hour re-sold! This proves conclusively that both our idea and your talent are commercially solid.

“We take off our hats to Lang-Worth! The flexibility of the library, together with its personalized openings and closings, makes possible this very satisfying revenue, every Sunday afternoon.

“WMMN, with 5000 watts power, has been doing a big job in North-Central West Virginia for the past 22 years. With CBS, Lang-Worth, and a red hot staff with plenty of ‘savvy,’ WMMN keeps in the number one spot by a large margin.”

Operating VP, WMMN, Fairmont, W. Va.
Editorial

...and There Was Light

A WEEK AGO there were portents of another conflagration in the inter-American ether waves. This time the torch is being carried by both the United States and Cuba for peace, justice and radio tranquility. These nations now have tacitly agreed to allocations which the experts say will result in a minimum up
setting of the waves in both nations. It is the fact that the agreement, in one fashion or another, entails ratification by the Senate and does not become operative until it receives full diplomatic treatment. Thus, it can be used as a model in devising the new NARBA treaty which would embrace Mexico, Canada, and other signatory Latin nations. It will be interpreted in NARBA if an accord is reached. If not, then through a bilateral arrangement, subject to Senate ratification, Cuba and the United States will make its terms effective.

In the interim, steps will be taken to eliminate existing make-shift allocations, outside the original treaty terms, whereby Cuban stations are operating on U. S. assignments without essential protective safeguards. Understandably, the seniors, who have secured the clearing of three and one-half Hawaiian stations, are not likely to modify their positions.

The situation was resolved last week when FCC Com. Rosel H. Hyde, chairman of the U. S. Delegation, returned from Havana for hurried sessions with the State Department, the FCC and Chairman Ed Johnson of the Senate Interstate Commerce Committee. It is an open secret that the Senator was primed to blast with more of his rhetorical T. N. T. because many of his colleagues had complained about the "secret" negotiations which would "sell out" constituent independent stations. When it was ascertained that there would be a full dress treaty and that the allocations would not become operative until Senate ratification, hostilities properly were called off.

Broadcasters who protested had learned of the agreement by radio's vaunted underground. They fought back, particularly against the secrecy element. Once they learned that there would be no agreement until ratified by the Senate, their main objections were withdrawn.

The new Cuban communications ministry is responsible, and generally felt it will live up to its commitments. Provisions for directional arrays would give strongest possible protection, our delegation reports. Because this has not been so in the past, those broadcasters who had not been apprised of the agreement, understandably sought more information. Chairman Johnson's interest, engendered by inquiries from his colleagues, has cleared the atmosphere.

The solution to one of radio's knottiest problems appears to have been achieved despite the momentary confusion which obviously stemmed from lack of information. The U. S. always has championed open covenants openly arrived at. The wisdom of this precept is reflected in this current incident. As soon as there was freedom of access to the information, the fire of unrest and confusion was snuffed out.

Merited Merits

THERE ARE few in radio—or outside of it—who will challenge the wisdom of the duPont Awards for 1949. Morgan Beatty, recipient of the commentator's citation, has long been distinguished in his field. He is more than a commentator; he's a foot-reporter with an insatiable thirst for the news behind the news.

WWJ Detroit and WNOX Knoxville are distinguished stations under distinguished ownership and management. Each has had more than a quarter-century of operation—WWJ since 1920 and WNOX since 1921.

The surprise came in special citations for television, marking duPont's recognition of that kaleidoscopic medium. It was with drum-beating or press-agentry, in the traditional duPont manner. The winners are ABC-TV for its challenging telecasts of Eisenhower's Crusade in Europe, and WPIX (TV) New York for its current news and events.

It is significant that neither of these TV ventures brought monetary profits to their telecasting entrepreneurs. The rewards come in recognition of jobs well done, and of building prestige that pays its dividends in public acceptance and eventual economic return, in the time-tested American way.

Budgeteering

IF APPROPRIATIONS determine the amount of work which will be done, President Truman's FCC budget proposal, now under House Committee scrutiny, leads us to expect a 2.7% increase in current FCC commitments in the coming year.

Although the FCC was bemoaned by some as being too powerful but not powerful enough, it was, nevertheless, given a "get out if you can" order by the Senate.

If appropriations are to be increased, which will be widely read among radio's ratifiers, the FCC is, indeed, an effective agency.

In the coming year, the FCC has made some changes in its procedures; revised its Mayflower Decision (14 months after hearings were completed); repealed the Avco Rule; adopted special rules relating to time-reservation conflicts (there were five proposals); and adopted anti-giveaway rules (now in suspension). To get the fiscal-year total, take the calendar-year list and subtract the giveaway rules.

To be sure, FCC did a lot of other things during the year, including a great deal of work on television. These are the major policy accomplishments. Many other policy questions were left unanswered—for the second year in a row, in the case of the vitally important clear-channel case. There are also the NARS-AM network fight (awaiting decision for a year); proposed new multiple-ownership rules (heard in January 1949); qualifications of anti-trust law violators; minimum hours for FM; and theatre TV. Meanwhile, new controversial "policy" proceedings have been instituted, multiplying the demands on time, talent and atmosphere.

Some of FCC's pending business was FCC-proposed, and some of it has been hanging fire so long that we begin to suspect the Commission regulates not only by the lifted eyebrow, but also by the proposed rule. It would be in the interests of good administration and orderly process, we submit, if the Commission would concentrate on the business already at hand. Thus will the public interest—and the budget dollar—be served most sensibly.

Our Regards To —

JOSPEH ALBERT MCDONALD

I F ABC ever has to call in haste for the services of an office boy, bowling alley pin boy, engine room wiper, coal passer, ship carpenter's helper, deckhand, dishwasher, elevator operator, an axeman or rodman or transitman in a surveying crew, a draftsman, naval architect or salesman of heavy machinery, it has but to summon Joseph Albert Mc

Donald.

Mr. McDonald is now fully occupied as vice president, general attorney and secretary of ABC, but in an emergency he could fall back on the wild assortment of jobs embraced in his diverse experience.

The network would be well advised, however, to refrain from adding duties to those already performed by Mr. McDonald; he has enough on his course.

In addition to coping with the routine intricacies of keeping the network legal—not an easy job with federal regulations as tricky as they are today—and of officering in the company, Mr. McDonald finds time to be an expert in labor relations and copyright law.

At the moment ABC has 48 different labor contracts with 11 different union groups. Mr. McDonald has negotiated all of them. When not embroiled in a labor negotiation, he is apt to be delving into the obscurities of copyright.

The wonder is that Mr. McDonald today is a broadcasting attorney and not a shipbuilder. His early schooling fitted him to be a naval architect. Between then and now he was blown off his course.

Born in New York City June 8, 1903, Mr. McDonald attended grade and high school in the Bronx. He received a scholarship at Webb Institute of Naval Architecture, graduating with honors.

Part of the Webb training obliged students to go to sea during summer vacations from classes. It was during those periods that Mr. McDonald ran through some of the less desirable stations he has held.

In the third summer at Webb, he took a lumber job with a marine insurance firm. In the course of his work he occasionally was assigned to accompany admiralty lawyers on inspections of ships the company insured.

The comparison between the lot of a deckhand, a function to which he had been inden
ured the summer before, and that of a lawyer skilled in admiralty law, roused in Mr. McDon
ald a desire to attend law school. After gradu
ating from Webb in 1924, he decided to enter Forham for legal training.

Mr. McDonald, whose ambition for har...
Business is always better in Washington, D.C.

Washington was the only major market in the U.S. to show an increase in retail sales in 1949.

This rich market established an all-time retail sales high. And WTOP delivers the largest audience in this rich market—36.4% greater than any other station.
Tentative NAB Agenda Set

Wednesday, April 12
9 a.m.-5 p.m., Registration, Exhibition Hall
9 a.m. Exhibits officially open
10 a.m. NAB Engineering Committee
6:30-8:30 p.m. Reception for delegates.

Thursday, April 13
9 a.m. Presiding: Jack E. Poppele, WOR New York, member NAB Engineering Committee
9:45 a.m. “Adjacent and Co-channel Television Interference,” J. W. Boczar, NAB
10:15-10:30 a.m. “Objectives of the NAB Bridgeport Conn. UHF Installation,” Raymond F. Gay, NAB.

DeWitt to Preside

The Friday morning meeting will open with John H. DeWitt, WSM Nashville, and other committee members in the chair. Topies will be synchronizing generators, UHF propagation, selection of site, theatre control, microphone selection, studio facilities, and antennas.

Mr. Ebel will preside at the Friday luncheon. Speaker will be G. Emerson Markham, NAB television director. Presiding Friday afternoon will be K. W. Pyle, KFBI Wichita, Kan., alternate member of the NAB committee. This meeting will cover transit radio, facsimile, 1 kw AM broadcast transmitters, progress in magnetic recording and FCC audio proof of performance tests.

Mr. McNaughten will preside Saturday morning. Prior to the FCC-Industry Roundtable the group will hear papers on a small FM transmitter and engineering employment problems.

The tentative agenda follows:

WEDNESDAY, April 12
9 a.m.-5 p.m. Registration, Exhibition Hall
9 a.m. Exhibits officially open
10 a.m. NAB Engineering Committee
6:30-8:30 p.m. Reception for delegates.

THURSDAY, April 13
9 a.m. Presiding: Jack E. Poppele, WOR New York, member NAB Engineering Committee
9:45 a.m. “Adjacent and Co-channel Television Interference,” J. W. Boczar, NAB
10:15-10:30 a.m. “Objectives of the NAB Bridgeport Conn. UHF Installation,” Raymond F. Gay, NAB.

 Transit radio is your most
ACCURATELY MEASURABLE
advertising medium with GUARANTEED Low Cost!

FOR EXAMPLE, YOU GET

* A counted audience, by half-hour periods. You know exactly how many people your advertising reaches. No "guesstimates," no surveys necessary.
* A selected audience. Breakdowns of men and women riders, inbound and outbound. Audience composition breakdowns, by hours of the day—you can choose exactly the type of audience you want.
* Low cost. With this precise audience information and transit radio's low rates, you can see at a glance your guaranteed cost-per-thousand.

RADIO-TV COUNT

NATIONWIDE count of radio and television sets will get underway April 1 when 140,000 enumerators will begin the biggest statistical job in the world's history — collection of the 1950 decennial census figures.

Individual stations and networks are participating in pre-census activities by carrying program material and announcements dealing with the census and designed to prepare the occupants of the nation's homes for the arrival of the enumerator.

The data collected will provide a complete statistical picture of the nation's people, dwellings and farms. More than 450 field offices of the Census Bureau are completing preparations for the decennial count, according to Frank R. Wilson, information assistant to Roy Victor Peel, new bureau director, who was sworn in Thursday afternoon.

NAB sent a notice to stations Thursday advising them to avoid use of the word "census" in any private audience or set ownership studies. A suggested technique for FM set measurement, based on a formula suggested in 1948 by the FM Executive Committee, has been used in a number of cities. NAB asked stations to check up on any studies they are conducting to make certain there is no possible use of the term "census." This word, it was felt, could cause confusion in the minds of homeowners who naturally associate "census" with the government's decennial count.

Actual taking of the census is to be completed by the end of April. Population data are to be in the hands of the President by early June, and have priority in the long computation process. Radio and television set figures for the nation as a whole may be available before the year's end by the Census Bureau's sample technique but count break-downs may not become available until early next year.

Audience contacts through broadcast and TV stations on behalf of the census already are running far into multi-million figures. Top network programs have been built around the census, references have been placed in scripts of all types and the number of announcements has run into record figures.

Seay Joins Law Firm

TEMPLE W. SEAY has joined the Washington law firm of Dow, Lohnes & Albertson the firm has announced. A former attorney for the U. S. Board of Tax Appeals, now the Tax Court of the United States, Mr. Seay also served as vice chairman of the Processing Board of Review. Meredith M. Daubin will continue his association with the law firm as tax counsel.

WHAT Philadelphia increases power to 250 w on 1340 kc, and up programming to 18 hours daily. WHAT-FM now has continuous operation of 18 1/2 hours per day.

‘Lightning’ Impact
(Continued from page 23)

“Lightning” was excellent, 13.4% said it was good, 33.4% fair, and 33.5% poor.

More than half (57.1%) of the advertisers said they did not think it was a good sales pitch.

Broadcasting’s questionnaire asked respondents to make general remarks about the film. One comment made repeatedly was that the sound and the quality of the film itself were poor. This attitude was confirmed by members of the All-Radio Presentation Committee and the production staff of the film. Whether because of inadequacies in the film projection system, or lack of time or quirks of acoustics in the ballroom of the hotel where it was shown, the “Lightning” presentation in New York was undeniably not up to professional cinema projection.

A similar report of poor sound quality came from Oceola, Ark., where the picture was shown in a local theater.

Other comments ranged widely.

One agency respondent said, “It’s charming.”

An agency said, “Write it off as a bad investment.”

A station representative who thought the film good said: “I believe the film will induce most skeptics to try a test broadcast schedule.”

Another station representative, however, summed up his reaction more succinctly: “Ugh.”

One advertiser said, “Wonderful job.”

An agency respondent said: “To have invited years ago this might have meant something to the prospective advertiser. Today it’s got nothing—says nothing.”

A comment made by respondents in several categories was of the singling out of newspapers for a competitive sales talk. One agency respondent, who was otherwise favorable to the film, said: “This anti-newspaper pitch—bitter. One had apple in a mighty appetizing barrel.”

A station representative, commenting on the question as to whether the film was a useful sales tool, said: “Lacked conviction and sell. The impression it leaves is too little, too late.”

Good to get New York reactions to “Lightning,” Broadcasting queried broadcasters in other cities where the film was shown last week.

Ted Woods, manager of KOSO, Oceola, Ark., said that the picture “received a cool reception in this Arkansas town of 5,000 population Wednesday, March 8.”

“KOSO was host to about 75 businessmen and women at a luncheon preceding the showing in a local theater,” Mr. Woods said. “The sound was not of the best quality, and the story was slow in getting started, dragging in spots. . . Too, many of those attending thought the newspaper angle might have been handled with a little more tact.”

F. E. Lackey, president and general manager of WHOP Hopkinsville, Ky., said that at the local showing, before 240 persons, “comments ran from ‘bad sales pitch’ to non-favorable toward the portion of the picture devoted to a comparison with newspapers.”

“On the whole,” said Mr. Lackey, “I would say the film was well re- ceived. We have secured two un- solicited contracts as a direct result of the showing. Personally I would have preferred omitting the portion portraying newspapers since ours is a small one-newspaper, one- station town. We attend the same clubs and church with the publisher and sell our time on the basis of positive results, not against the paper’s failures.”

‘Nice Party’

Mr. Lackey said he was favorably disposed toward the film “if after a second showing (that) the picture gave us an excuse for a nice party that most everyone enjoyed.”

Tony Moe, sales promotion manager of WOC Minneapolis, said that the film was shown before the St. Paul Advertising Club on Tuesday and before the Minneapolis Advertising Club the next day and that in both cases it attracted “almost the entire club membership.”

“Reactions to the film were mixed,” said Mr. Moore, “and ranged from ‘very good’ and ‘not strong enough’ to the other extreme of ‘unfair to newspapers.”

Julius Glass, promotion manager of WHBC Canton, Ohio, said that 03 industrialists, retailers, wholesale- salers and distributors were shown the film at a luncheon sponsored by the station in the Oneonta Hotel, March 9. “The audience made a striking impression in Canton, he said.

Provokes Thought

“Comments ranging from ‘a thought provoking vehicle’ to ‘a realization of what radio does not only as an advertising medium but what it does for and means to the consumer’ were among the opinions voiced,” Mr. Glass said.

He reported “the general consensus was favorable.”

“But some definite reactions are expected to be formulated when WHBC’s sales staff make personal follow-up calls on those invited,” Mr. Glass said.

Alphonse Well, general manager of WOV New York, said that at a showing of the film before a group of clients and prospects in the Italian food field the picture got a tremendously favorable reception.

“The film is right down our al-

BUYS UNIVERSAL
Hogon Now Sole Owner

ARTHUR B. HOGAN, secretary-treasurer, has become sole owner of Universal Recorder Inc., Hollywood, having purchased 140,000 shares in that company from Wesley I. Dunn, his former partner. Purchase price was not revealed. Negotiations were handled by Blackburn-Hamilton Co., media broker, with the deal closed last Monday (March 6).

Capitalized at $500,000 with $250,000 issued in capital stock, Universal Recorders was established during World War II for Army work. Since that time it has greatly expanded. It is now one of the largest magnetic recording studios in the West.

With full control of the firm, Mr. Hogan plans active expansion into television, engaging in 16 and 35mm film as well as TV sound work, it was said. Mr. Hogan became financially interested in the firm in 1946, shortly after he went to California from Atlanta, Ga. In addition to owning Universal Re-

Mr. Hogan (seated) completes the contract in the Universal Recorders sale with approval of Mr. Dunn.

orders, he is also senior partner in Hogan, Price & Co., Beverly Hills, Calif., investment firm.

Mr. Dunn, pioneer in West Coast radio and television, will devote full time to his four San Francisco stations—KPIX (TV) and shortwave outlets KWID KWIX. He also holds the Muzak wired music franchise in that area. New officers of Universal Recorders will be elected shortly.

RICHARDS CASE
Postponement Again Denied

LAST-MINUTE petition of attorneys representing the G. A. Richards stations for postponement of the FCC hearing scheduled to open in Los Angeles today (Monday) was denied Thursday by FCC Examiner J. Fred Johnson, who will preside at the hearing. The proceedings will review news policies of Mr. Richards’ stations—KMPC Los Angeles, WJR Detroit and WGBV Cleveland.

Examiner Johnson had previously denied an informal request for postponement. [Broadcasting, March 6].

PULSE REPORT
Jack Benny Tops Ratings

JACK BENNY led the list of most popular nighttime programs in the Pulse Inc. radio report for the Jan. 30-Feb. 1 period in eight metropolitan areas released last week.

The report was for New York, Philadelphia, Boston, Chicago, Cincinnati, Washington, Los Angeles and San Francisco.

Ratings were:

Out here in Kansas, herds of dairy and beef cattle mean big profits. The farmers who raise these herds prefer WIBW to any other station.

Dr. F. L. Whan’s statewide interviews analyzing the Kansas Radio Audience for 1949, show WIBW the outstanding favorite in farm homes. WIBW led its nearest competitor by a 3 to 1 margin.

It’s so easy to make your product first choice among these prosperous Kansas families. Just use the station that’s their first choice—WIBW.
Treaty Analyzed
(Continued from page 27)
time at Oriente. Some interference still involved.
1070 kc (KNX Los Angeles)—Not assigned under NARBA. Ha-
vana Agreement would provide for
5 kw directional at Pinar del Rio and
250 kw fulltime at Camaguey.
*1080 kc (KRLD Dallas and
WTIC Hartford)—Not assigned under NARBA. Agreement
would grant 250 w day and
100 w night at Havana, resulting in
slight interference to KRLD.
*1090 kc (WJSJ Spring-
scape and WBAL Baltimore)— Cuba has
had 250 w day at Oriente and 250
w day and 100 w night at Havana.
She would have 250 w fulltime at Oriente and
250 w day and 100 w night at Los Villas, both causing
some interference.
1110 kc (WBT Charlotte and
KFBF Omaha)—Cuba has had 5
kw at Havana (directional at night). This would become 250
daytime.
*1130 kc (KWKH Shreveport
and WWL New Orleans)—Cuba has
had 250 w fulltime at Oriente, causing some interference.
No change in assignment.
1170 kc (KVXO Tulsa and
WALL Wheeling)—Cuba has had
250 w at Pinar del Rio (directional at
night), with no interference in-
dicated. New agreement would
add 1 kw day and 250 w night at Oriente.
Cuban High Power on
Regional Channels
(These are the regional
channels on which Cuba would have
rights to use power in excess of
the normally permitted 5 kw.)
550 kc—Cuba had no high-power
rights under expired NARBA. Ha-
vana Agreement provides for sta-
tion at Havana using 10 kw direc-
tional or 2.5 kw non-directional.
570 kc—NARBA authorized 15
directional, at Las Villas, whereas Cuba reportedly used 10
kw. Havana Agreement would put
limit at 10 kw directional, also at Las Villas.
25 kw directional at Ha-
vana under NARBA. Unchanged
by new agreement.
600 kc—10 kw directional au-
thorized by NARBA, 1 k used.
Under new agreement Cuba would
have 10 kw directional, high-power rights on this
channel.
630 kc—25 kw directional au-
thorized by NARBA, 15 kw used.
New agreement retains 25 kw di-
rectional authorization, station to be
Havana instead of Las Villas.
790 kc—10 kw directional au-
thorized by NARBA, 5 kw used.
New agreement authorizes 10 kw
directional, station to be at Havana.
910 kc—Same as 790 kc above.
920 kc—10 kw directional au-
thorized by NARBA, 5 kw used.
New agreement provides 10 kw di-
rectional or 5 kw non-directional at
Camaguey, and 1 kw at Pinar del Rio.
950 kc—10 kw directional au-
thorized by NARBA, 5 kw used (later
notification indicated use of
5 kw day and 1 kw night). New agreement
provides for 10 kw di-
rectional or 2 kw non-directional, to be at Havana.
990 kc—10 kw directional au-
thorized by NARBA, 1 k used.
High-power rights on this channel
to be relinquished.
600 kc—High-power rights under
NARBA (permitted power of
5 kw was used). New agreement
provides for 10 kw directional at
Havana.
1150 kc—Same as 980 kc above.
1270 kc—10 kw directional au-
thorized by NARBA, but not used.
High-power rights to be rein-
quilished.
TOTALS — 10 channels under
NARBA; 9 used.
(Directional antennas would be
designed to avoid interference to
U. S. stations having priority.)
NEW INTERFERENCE TO
U. S. REGIONALS
(Work reportedly was still in
progress on this phase of negotia-
tions late last week. Information
shown below, therefore, is tentative.)
WIBO Orlando (580 kc)—Pre-
sent RSS 2.37; new limit 2.80; in-
crease 0.43.
WSUN St. Petersburg (620 kc)—
Present 2.13; new 2.70; increase
0.57.
WJAX Jacksonville (920 kc)—
Present 2.61; new 2.86; increase
0.25.
WDSU New Orleans (1280 kc)—
Present 2.54; new 3.10; increase
0.56.
WCOA Pensacola (1370 kc)—
Not definitely ascer-
tained.
WABC Charleston, S. C. (1390
kc)—Present 2.73; new 3.26; in-
crease 0.53.
WALA Mobile (1410 kc)—Pre-
sent 3.04; new 3.22; increase 0.18.

TV'S RISING COSTS

By FLORENCE SMALL

ELEVEN advertising agencies in New York registered television network billings, including time, talent and production costs, of more than $1 million during 1949, with one agency tabulating as high as $8 million and three others exceeding $3 million.

These were the salient facts uncovered in a special survey by TELECASTING last week.

Basing its figures on both production (including talent) and time costs, TELECASTING learned that the lead agency by a wide margin is J. Walter Thompson Co. Its $8 million was followed by S. A. Rice, $6 million; E. McMillin, $5 million; McCann-Erickson, $4 million; Cheil & Bowles, $2 million; Benton & Bowles, $2,100,000; N. W. Ayer, $1,500,000; Campbell-Ewald, $1 million and Kenyon & Eckhart, $1 million.

William Esty ranks third in annual television expenditures with $3 million followed by Cunningham & Walsh (then Newell-Emmett) with $2,500,000 spent in 1949.

The New York agencies which spent more than $1 million but less than $3 million for television billing in 1949 are Lennen & Mitchell, $2 million; McCann-Erickson, $2 million; Benten & Bowles, $1,700,000; N. W. Ayer, $1,500,000; Campbell-Ewald, $1 million and Kenyon & Eckhart, $1 million.

J. Walter Thompson's production costs for 1949 were approximately $5 million for the following shows: Tournament of Champions, International Boxing Club, through the Columbia Broadcasting System, $1 million; Kelly's Coliseum, New York, $1,100,000; the Clock, Avenue-Aire, Kraft Televis-

Muddled at Annual Chicago Council

Maintenance of quality programs is video's first need, in the opinion of three in one, with advertising and sales promotion manager of Kraft Foods Co., Chicago, a keynote speaker at the opening luncheon.

"More important in maintaining the industry," Mr. McLaughlin said, "is whether spot advertisers are to be allowed to coast along in the wake of large commercial sponsors and reap benefits they don't pay for. Often, because of his greatly lowered time cost, the spot buyer can spend more money on dramatic commercials than we can. He really gets a greater impact on
our audiences than we do. At the moment they are spending their money more wisely than we are. This problem is even more serious in TV than it ever was in radio, where it is no longer profitable to carry a one-hour show."

"Tracking Kraft's TV history, Mr. McLaughlin said his firm in 1948 spent $1 for every TV set in the U. S. Early in '49, that went down to 50c, and to 25c late in the year. His 1950 estimate—between 15 and 18c. "That represents real progress," he said.

**Denny for McConnell**

Charles R. Denny Jr., NBC executive vice president, substituted for President Joseph H. McConnell in delivering the second keynote speech. "Outlining TV's dimensions, Mr. Denny said the audience today which sees one dramatic TV performance outnumbered all those who see all of Broadway's. The modern Chicago TV circulation is double that of life magazine, he pointed out.

New concepts of programming, as in the "Chicago approach," were defined by Ted Mills, executive TV producer at NBC Chicago, and Beulah Zachary, producer of NBC's "Kukla, Fran & Ollie." The panel was conducted by Fred Killian, program director, ABC-TV Chicago, who introduced also Fred Bolton, art director, J. Walter Thompson Co., and Steve Katlos, manager of James L. Saphier Talent Agency, both Chicago.

Mr. Mills, producer of "Garroway at Large," said: "Whatever good things are coming out of Chicago are good because we are poor financially. This forces us into production and conception techniques which make our lack of money a blessing, and these things apply to stations anywhere outside New York and Hollywood."

Color came in for a hearing at the Tuesday luncheon, when NBC Chicago Commentator Clifton Utley sparked discussion by Martin Codel, editor of a Washington newsletter, "Television Digest and FM Reports," Richard Graver, vice president, Admiral Corp.; Carl Meyers, chief engineer, WGN-TV Chicago, and J. Hugh E. Davis, executive vice president, Foote, Cone & Belding.

**Color Question**

Mr. Utley read messages to confreres from color experts. President R. C. Cosgrove of the Radio Mfrs. Assn. reaffirmed the group's position that color is not ready. Sen. Edwin C. Johnson decried the "peasimistic approach and reluctance to push forward." Program-wise, color TV won't cost a nickel more, and the impact will be 10 to 1 over black-and-white. Color television is a commercial reality today, he charged.

RCA President Frank Folsom pointed out the "little or no effect" color talk has had on black-and-white set sales. CBS President Frank Stanton said color TV is an "accomplished fact, irrespective of FCC hearings." Dr. Allen B. DuMont of DuMont Labs, said that from the incompatibility of the CBS system, introduction would cause a turmoil. RCA and Color Television Inc., in his opinion, have promise for future developments.

"Color has been delayed because (1) almost no one can afford to broadcast color on a substantial scale, and (2) even if it were perfected and ready, it would come slowly because gadgets would be needed for reception and transmission, according to Mr. Codel. It will be a long time before advertisers think it worth while. Nobody's color is ready or even in early prospect, he said. "To promise color any time soon might stymie progress being made in black-and-white."

"Compatibility is the key, because you can't build a new audience from scratch. Colorcast must be received on the black-and-white sets."

**Admiral Position**

Admiral favors compatibility, Mr. Graver asserted. When asked about possible costs, he said it depends on the additional number of tubes needed, the picture tube and the expensive cabinet. Color sets may cost "several hundred dollars more" than black-and-white. "There is no evidence of color hampering in any way the keen desire for black-and-white sets today. The industry can't and isn't meeting current demand. Customers mention color but are not waiting for it," he said.

Mr. Meyers of WGN-TV charged CBS with making no progress in its color system since 1940, and said RCA and CTI have made great progress since October. He pointed out that there are 170 lines in the CBS picture, 230 CTI, and 250 RCA, with 275 lines now used in black-and-white transmission.

Film must get the quality of live shows, and will be under a stigma until then, George Harvey, president of the Chicago Television Council, said that the Wednesday luncheon when introducing Russ Johnston, vice president of Jerry Fairbanks Films, New York.

**Coverage vs. Costs**

Sooner or later we will have to measure TV as any other medium, Mr. Johnston said, referring to coverage, a sponsor identification and impressions, all of which will be related to cost.

Shows without an element of immediacy can be circulated on film to avoid high cable costs, he said.

He outlined the firm's new Multicam system, with motion pictures being shot by multiple cameras synchronized to a sound track and an optical system which follows the focus. "We have the flexibility of an electronic camera, can take long, medium and close shots at the same time, and can film a half hour show in a half hour."

Gil Berry, western sales manager for DuMont TV Network, read a progress report to CTC's gathering.

Good Local Programming for New York, Plus Service
As the ABC-TV Key, Is the Dual Role of WJZ-TV

IN THE 18 months since New York's Mayor William O'Dwyer welcomed WJZ-TV to the air (for the benefit of TV historians, the date was Aug. 10, 1948), it has served a two-fold function. That of originating a general program service for the nationwide audience of the ABC video network which it serves as key station and of providing good local programming for its own viewers in the New York metropolitan area.

Actually, there has been little conflict between the two sides of this dual service, according to Murray B. Grabhorn, ABC vice president and general manager of WJZ-AM-TV. "If we create a program of network quality—and we have to if we're going to compete successfully for the New York television audience with the six other TV stations on the air here, it would make little sense to put it on the air here in New York but to withhold it from the rest of the network," he said.

WJZ-TV's local operation is completely integrated with that of the ABC-TV network. There is only one employee whose salary is charged exclusively to WJZ-TV, Harold Day, who serves as liaison between the program department and the spot and local salesmen. This sales staff serves not only the five TV stations owned by ABC but its AM stations as well, differing from network sales, where AM and TV are separated and a salesman handles one or the other but not both.

"The reason for different procedures for network sales and spot and local sales, is really very simple," Mr. Grabhorn explained. The network salesman is normally presenting a plan to a client, a particular program which fits into or can be made the basis of a complete advertising campaign for a particular product. That's creative selling, and if the salesman tried to work in two media at once, he'd be selling against himself.

"It's different in the spot and local level; here selling is competitive and creative. When an agency starts to buy spots the nature of the campaign is set; the salesman's job is to deliver information about rates and availabilities and to try to get his stations on the list. Since the same buyer usually buys both radio and TV, our experience has been that having the same salesman for both is more effective than assigning different men to AM and TV. We tried that, but it didn't work."

Although other sales executives may not agree with this theory, it's hard to quarrel with its results. ABC-TV's spot and local sales in the opening months of 1950 are running about three times the volume of the same months of 1949, with a substantial month-to-month increase, Mr. Grabhorn reported.

WJZ-TV's nighttime announcements are completely sold out, even the sign-on and sign-off, he stated. The station's daytime operation, which is entirely local in contrast to the evening hours which are largely devoted to network programming, is "away in the black," he reported, with revenue substantially higher than operating expenses and gaining every month.

The WJZ-TV daytime operation, which was launched last May, is made up of two programs, Market Melodies, a women's participation show, 2-4 p.m., and TV Telephone Game, a video bingo type show, 4-6:30 p.m. Both are telecast Wednesday through Saturday (WJZ-TV is not on the air Monday and Tuesday).

FOUR of the five advertisers who started with Market Melodies are still on its sponsor list, which has now expanded. They are Stahl-Meyer (meats), Hills Brothers (Dormedary Mix), Brooklyn Union Gas Co. (ranges, refrigerators), Snow Corp Marketers (frozen orange juice). The only original sponsor to drop out was Foremost Dairies (ice cream), a hot weather advertiser who contracted for a summer campaign only.

The fact that these accounts continue to sponsor Market Melodies at a cost of roughly $500 a week indicates that the program indicates that the program must be doing a satisfactory sales job. More specifically, WJZ-TV cites such direct sales results as 284 orders from one announcement of a $15 reconditioned vacuum cleaner; over 700 sales of a $2.95 set of Christmas tree ornaments from five announcements; over 300 sales of a $1 set of toy balloons from one announcement; an average of $60 worth of sales apiece from a series of announcements for a $29.5 Jiffy Stitcher.

Outstanding success of the Telephone Game, which averages 1,000 calls a day, is for Swift & Co., one of its four sponsors. Swift gives the program entire credit for opening up the New York market for its peanut butter, reporting that sales have mounted so steadily the company has had to appoint two additional brokers to handle the new retail accounts.

Last fall WJZ-TV experimented with a pre-Christmas Holiday Hints series, Friday evening half-hour telecast demonstrations of holiday gift or service ideas, presented by Anne Russell and Walter Heilbury, co-conductors of Market Melodies. This series of straight commercial demonstrations and sales talks, without any entertainment in the usual sense, was so successful that the station is planning to repeat it this year, possibly for other holidays as well as Christmas.

The Fitzgeralds, veteran radio husband-and-wife "breakfast table" team, do two half-hour shows a week on WJZ-TV in the early evening hours and are numbered among the station's "sold out" local programs. A similar happy fate is anticipated for the Bay Heathers Show, a sidewalk superintendent program filmed at various spots around New York, which recently has been added to the WJZ-TV early evening schedule.

These programs, plus most of the station's network originations--are telecast from the ABC Television Center, three connecting buildings on West 66th St., just...
FLORIDA FIRM
Pelican Productions Formed

ORGANIZATION of Pelican Productions, firm specializing in filmic sporting events in Florida for television use, has been announced. The firm's address is P. O. Box 839, St. Petersburg, Fla.

Officers are Phillip Dana Boone, president; Lyman E. Rogers, vice president; Raymond L. Whitely, secretary and treasurer. Mr. Boone has been in television and radio in Philadelphia and the New Jersey area. Prior to that, he was a sportscaster for WTSP St. Petersburg.

Tavern TV Ban

BAN on the use of television in city taverns and off-sale liquor establishments was voted by a split ballot of three to two by the Duluth City Council last Monday (March 6).

March 13, 1950
It's 'Super-Circus' For Canada Dry

By JANE PINKERTON

APPLY NAMED is Super Circus, for it begins with super audiences and ends with super sales. Such is the conviction of ABC television, the Canada Dry Ginger Ale Co., New York, and J. M. Mathes Agency, New York.

Sponsored by Canada Dry on the network from Chicago each Sunday since last April, Super Circus occupies a five-ring stage in the minds of network, agency and client personnel. The format lends itself to successful merchandising tie-ins with retailers, gives distributors a conversational subject with a universal, family appeal, and proves that video cameras are adept enough to catch the multifarious maneuvers of 40 dogs and three trained seals at one time.

The hour-long (4 to 5 p.m. CST) show, presenting only circus performers conditioned to big-top operations, is a blend of skillful direction, a sawdust and tent atmosphere, unpredictable animals, blatant band music and a beautiful girl. All these add up to entertainment popularity and more and more Canada Dry sales. Bubbling is the byword.

Although Super Circus originated at WENR-TV Chicago for the network Sept. 17, 1948, it remained unsponsored until April of last year, when the beverage firm decided to try a medium new to the soft drink industry. ABC signed Canada Dry for the first half hour and conducted in March what is believed to be the industry's first closed circuit TV meeting.

Canada Dry President Roy W. Moore; William M. Collings, vice president in charge of company-owned operations; William S. Brown, vice president and advertising manager; and Ralph O. Nims, manager of the sales and merchandising department, spoke directly to regional and district personnel in the eight cities originally comprising the ABC-TV network. Mr. Moore and Charles C. Barry, ABC vice president in charge of TV, outlined the firm's promotion and sales plans for the circus show.

That initial 13-week contract has been renewed three times, and J. M. Mathes officials hope to continue sponsorship indefinitely.

Phil Patton and Greg Garrison, producer and director, have worked together as a team in the circus epic since it went commercial. Mr. Patton began working for ABC Chicago on a freelance basis (he used to do Ladies Be Seated with Tom Moore, telecast as a sustainer on the network for 10 weeks early last year.

They coordinate duties of 34 persons, excluding talent, at ABC's Civic Studio, the former Chicago Civic Theatre, in the Civic Opera Bldg. It is on the western fringe of the loop at the Chicago River. The 34 men and women assigned include—on stage and in the control room—eight stage hands, two floor managers (Grover Allen and John Fitzpatrick), Assistant Director Dick Ortner, three cameramen, a dolly pusher, two microphone boom operators, an audio engineer, Technical Director Frank Koerner, two video control operators and a switcher.

Working in the Penthouse Studio atop the building are a man for slides, a girl giving slide cues, a technical director, switcher and video control operator. These are in addition to two girls for inside and outside props, a girl who selects children for special stunts, Scene Designer John Boyt, Artist Robert Moak, Makeup Artist Carol Castle and Dan Schiffman, author of children's stunts.

Mr. Patton supervises overall production and auditions most of the acts. Mr. Garrison takes over in the control room and handles rehearsals. Originator and owner of the package Stand by for Crime, formerly telecast via ABC, he was a motion picture producer and writer and studio production director at WFLD-TV Philadelphia. In 1947, Greg Garrison, then scarcely 24 years old, directed the ABC portion of both national political conventions for the Republicans and Democrats.

TELEVISION has proved such a happy medium for Canada Dry that the firm plans soon to expand its present 16-station network to include St. Louis and Milwaukee. Canada Dry's first year has been "a very exciting one, and a profitable one from the standpoint of experience and actual leadership. We are the only beverage sponsoring a network program, and we consider that important," said Read H. Wight, radio and television director for Mathes agency.

Canada Dry has used radio every year of the 16 it has been in business, buying shows such as Jack...
Syracuse horn tight-three property the me-bottle and Broadcasting fashion reported stuffed animals as merchandise the company.

Super Circus time charges are paid for by the parent company in company-owned distribution areas. In other non-company plant markets, the local bottler ships in on time costs. Talent and production fees are absorbed by the national company. Its weekly share of costs adds up to less than $5,000, including time charges.

The company is thus spending about $250,000 of a reported $3 million advertising budget on its network television show. Most of the media allocations go to local rather than national advertising, however, because of the need to merchandise locally to build mass market sales with direct deliveries. This is why stress is placed on the local franchise-holder, the distributor and the salesman. "Because Canada Dry salesmen go into retail outlets more than most other salesmen, we have a fine talking point with Super Circus," Mr. Wright explained.

Super Circus is bolstering the sponsor's three-way objectives to create and develop mass markets for ginger ale, sparkling water and its other products, Spur Cola and Hires. It reportedly now holds about 20% of the ginger ale business in the country. Working on a 50-50 arrangement with bottlers, Canada Dry gives them promotion packets at cost, including transcribed radio commercials. TV spots are aired occasionally, but usually only in areas out of Super Circus range.

---

A CRASH of Clifty the Clown through a paper hoop announces the opening of Super Circus, as the 12-piece band bawls and Ringmaster Claude Kirchner steps to the center of the stage. From there, for an hour, he introduces the acts, smooths over gaps when donkeys balk at the camera, or shows the audience what he can do without free bottles of ginger ale. Up on stage, he delivers a casual but solid-cellar commercial.

To get a tighter and better camera closeup on the commercial, which is always live, Canada Dry redesigned a bottle label for video use only, removing small and extraneous printed matter to avoid fuzziness.

Acts are booked two or three weeks in advance, usually through two Chicago agents. Price ranges up to $500, which was paid for Tom Pack and his herd of four baby elephants. Most performers (there have been as many as 15 persons in one act) have never played night club dates, and all have been circus headliners. Many work the show between circuses and winter dates.

Along with magicians, trampolines artists, sword swallowers and tumblers have been a me-nagerie of animals—universally popular. At least one animal act is booked for each show. Animals, because of their inability to take coaching, often provide comic relief to an already funny show. Animal stories in Super Circus' private collection include gags about the chimpanzee that threw a bicycle at the bandleader, a four-minute hole filled with music because a jackass refused to come on stage, the seal that played "How Dry I Am" (not at the sponsor's request) on a horn combination, and the dog (in a troupe of 40 frantic bounds) who scattered up to a prop fire plug and was ready to sanction same when the screen blacked out and cameras switched.

Thousands of irate viewers wrote in after seeing Umbangi, the Hollywood "gorilla," race across stage, clamber up the back of a dolly pusher into the lens of the camera and tear off through the audience. In the excitement, they hadn't heard Umbangi identified as the best gorilla impersonator in Hollywood.

As a joke on a band man, Director Garrison rented a truck for $7.50, thinking this was a new low in expenses. In two days of rehearsal, the skunk (deodorized) bit Star Mary Hartline, a property girl and the assistant director. Doctor bills cost $25, and a stuffed skunk was finally used. Total cost — $32.50.

Three cameras are spotted in the studio, one on stage right, one in front of center stage on a platform extension into the audience (permitting dollying in and out), and a third at the back of the 860-seat house. For trapeze acts performing as high as 60 feet, the rear cameraman sits on the floor and shoots almost straight up with a wide angle lens. A Zoomar for extreme closeups was used for the first time in January and is used consistently now.

Elephants and camels are the largest in the circus ark to crowd through the stage doors. The camel was brought in for a quick walk-around when appearing in the Fashion Play at the Opera House. Elephants, which always get raves from fans, have stumped across the reinforced floors on several occasions.

Because of the scattered camera angles, the men have orders to stay low whatever is happening, even if it is not scheduled. As a result, all mikes are covered to blend with the backdrop, and flown by pin knives galore, winning such titles as Sweetest Television Star of the Year (1949), Chicago's Number 1 Career Girl (1948) and Miss Television of 1948 (from ardent Phi Delta Gama Deltas at the U. of Michigan."

Sharing the bandstand with Bruce Chase, Miss Hartline plays occasional trumpet solos and takes part in the children's portions. Working with her are Clifty the

(SCAMPY THE CLOWN, in non-Super Circus life 11-year-old Phillip Bardwell Patton, ogles a bottle of Canada Dry enthusiastically with TV Announcer Charlie Flynn, who hawked the soft drink since the show started. With them are William S. Brown (I), Canada Dry vice president and advertising manager, and Carl G. Suber, J. M. Mathes, account executive on company-owned plant and national advertising.)
It's Super Circus
(Continued from Telecasting 7)
Clown, veteran radio actor Cliff Soubier, and 11-year-old Scampy, Phillip Bardwell Patton, son of the producer. Scampy was called in at the last minute one day when a midget performer failed to appear.

Although all elements in the show are scheduled two or three weeks in advance, reheasal takes place on Saturday before and Sunday of the show. On Saturdays, kid stunts, clown gimmicks and commercials are given a thorough going-over. Opens and introductions are set, and one of two hours on the commercial is on camera. Musicians rehearse alone Sunday morning, when music is set with placement and setting of the acts. Dress rehearsal and a complete dry run take place until 3:30, half an hour before the show.

Then the 860-seat house is opened, timings are checked, additions and deletions made, the stage is closed and closed levels determined. Eight usheras line-up ticket-holders in front of the studio where, on balminy days, hawkers cover over from East Madison St. to sell balloons and popcorn. Children are admitted before adults, and long ago ABC set a precedent by insisting that all adults be accompanied by youngsters.

M & M Ltd., Newark, for its candy, and International Shoe Co.,

for MOBILE TV UNITS

ELECTRIC POWER

with ONAN ELECTRIC PLANTS

Quiet-running, vibration-free Onan Electric Plants are compact, lightweight, easy to install in TV, FM, and AM mobile units, supply power for recording, lights and audio equipment. Made for Electric, push-button or manual starting. Fully shielded to eliminate radio interference. Air-cooled A.C. models range from 400 to 3,000 watts. Water-cooled electric plants up to 75,000 watts.

ONAN STANDBY ELECTRIC PLANTS

Designated for industrial and education units, for use in events, emergencies or as a power supply for mobile TV units. Designed and engineered to provide 30% standby power. A.C. or D.C. Isolated or connected to the mains. The Standy 20 unit is rated for 20,000 watts. All models are listed by Underwriters Laboratories, Inc. (UL).

INDUSTRIAL TV

RCA System Shown
At IRE Meet

A COMPACT TV system designed for industrial and educational use and specifically for the broadcast of television, was unveiled by RCA convention in Nashville (see page 28).

The new RCA system comprises two units—a TV camera similar in size to a 16mm movie camera and a suitcase-sized master control monitor. The RCA's Vidicon tube, which is described as less than one-tenth the size of the image orthicon, and simpler in application.

The system produces black-and-white images at normal light levels and can be adapted to produce pictures in natural colors, according to Dr. V. K. Zwyorkin, vice president and technical consultant of RCA Labs, who directed development of the system.

It also was revealed that RCA engineers are conducting research in development of tubes like the Vidicon for use in RCA's color, high-definition color TV system. Additionally, the Vidicon will be developed further to make it a valuable device in commercial monochrome transmitting, and in the future engineers will be able to serve to replace present studio equipment, it was explained.

Details of the industrial system were revealed in technical papers presented at the Dr. Paul K. Weimer, RCA research scientist, who helped demonstrate the system, and Richard C. Webb, of Southern California, as well as for the other than existing ones, it was said.

The entire system operates at 110-v, 60-cycle alternating current and consumes only 350 w, according to Mr. Webb. He said it is capable of transmitting a signal 500 feet over a coaxial cable circuit with "enormous flexibility" for a wide range of industrial, scientific and other applications.

The Vidicon measures one inch in diameter and is six inches long. The master control unit is 24 inches long, 15 inches high and 1/4 inches deep. Its weight is pounds. It contains its own seven-inch monitoring scope and 44 tubes—about 50% more than the average home TV receiver. Camera is 10 inches long, 3/4 inches wide and five inches high.

The RCA system was described as indicating "great promise" for closed circuit television, which Dr. Webb described as being "a powerful instrument of education."

WSYR-TV Dedicated

WSYR-TV Syracuse, N.Y., operating on Channel 5 (762-82 mc), was dedicated formally March 5 by Harry C. Wilder, president of WSYR-AM-FM-TV, Dedicated ceremonies, which followed a limited schedule operation for 17 days, included a film record of the station's construction and pictures of WSYR-TV's six television cameras. WSYR-TV reports its antenna is 1,666 feet above mean sea level.

WXEL Excels in TV Service to the populous Western Reserve area

The northeast Ohio area established as the Western Reserve in 1785, is today a nation’s center of industrial, agricultural and intellectual advancement. The 17-county area now included in the original government grant has been served on Channel 9 since December 17, 1949, with a widely diversified program for all types of audiences.

For its visual power of 21 KW, and oral power of 13.5 KW, station WXEL uses a self-supporting Truscon Steel Radio Tower with an overall height of 437 feet to the top of a General Electric 6-bay television antenna. This is another example of the specialized services of Truscon engineers, long skilled in designing radio towers to meet specific conditions all over America.

Truscon offers a world-wide background of experience to call upon in fitting Radio Towers to specific needs. Whether your own plans call for new or enlarged AM, FM or TV transmission, Truscon will assume all responsibility for tower design and erection . . . tall or small . . . guyed or self-supporting . . . tapered or uniform in cross-section. Your phone call or letter to our home office in Youngstown, Ohio—or to any convenient Truscon District Service Office—will rate immediate, interested attention.

TRUSCON STEEL COMPANY
YOUNGSTOWN 1, OHIO
Subsidiary of Republic Steel Corporation
CELOMAT UNIT To Participate in Color Hearing

CELOMAT Corp., New York plastics fabricator, has been given permission by FCC to participate in the color television proceeding, which resumes Wednesday, to tell about its $9.95 color converter for sets adapted to the CBS system. FCC denied participation to Wells-Gardner & Co., Chicago, and Communications Measurements Lab., New York.

The Commission's proceeding is expected to continue with further direct testimony by CBS. This week's session will run Wednesday through Friday, receiving results of field tests and other developments since the color hearing was recessed last Nov. 22.

The hearing resumed Feb. 27 for a three-day session with no meeting scheduled last week because of the 1956 convention and radio engineering show of the Institute of Radio Engineers in New York [TELECASTING, March 6]. The hearing is set also for March 22-24 and 26-27.

New bid to testify was filed last week by Packard-Bell Co., Los Angeles set manufacturer, which expressed concern over the potential "monopoly" situation in the color manufacturing field.

Celomat Corp. informed the Commission that it was ready to manufacture a color converter for use with TV sets adapted to receive the CBS color system and that the retail cost for the converter would be "about $9.95." The firm said the unit could be distributed nationally through the same channels which now handle Celomat's TV set magnifier. FCC said it granted the Celomat request to testify since the cost of making color converters was raised during the hearing before it recessed last November.

Wells-Gardner Request

Wells-Gardner requested permission to testify about its test with regard to the demand by the "public for large size pictures in home television receivers" with "probable public reaction to certain features of the three color television systems" and with "the effect of continuation of the VHF freeze and failure to proceed with the VHF-UHF allocation plan upon such small business enterprises as Wells-Gardner." However, the Commission considered this request as not within the scope of its request for field testing and data on new developments and hence denied it.

FCC rejected the CML request on the ground it proposes a color system not within the scope of the Commission's original issues in the proceeding. CML claims it has an 8-mc dot-sequential color system which will operate in the UHF band permitting simultaneous transmission and reception of multiple other broadcast and non-broadcast services on the same signal [TELECASTING, Feb. 27]. FCC specified 6-mc band for color, the same as monochrome.

The Commission also noted that the CML system admittedly still was a theoretical system and "has not undergone a program of research and development in the laboratory to demonstrate feasibility and to explore basic problems."

Packard-Bell Position

Packard-Bell indicated FCC in the public interest should hear the "views of a small, non-diversified manufacturer of television receivers from the West who is concerned about the concentration of monopoly power in the hands of a few manufacturers, who wishes to present facts concerning the television situation in the West, and who is particularly concerned that in the transition from black-and-white to a color system that has not been adequately field tested for commercial development there is a strong likelihood that companies like it might be forced out of business."

The firm indicated its vice president, Robert S. Bell, would be available for testimony. Packard-Bell had gross sales of about $5,500,000 in 1949, 80% of which was in TV sets, the firm said. Present sales are running at a $12,000,000 annual rate.

Meanwhile, two distinct viewpoints were evident last week among color hearing observers. One view—that FCC was considering allowing the double standard, both CBS and "compatible" RCA, at least in the VHF—was stimulated by comments of Comms. Wayne Coy and Frieda E. Hennock during examination of RCA and other witnesses a few days ago [TELECASTING, March 6].

Other View

The other view—that FCC, at least in majorly, will hold to its call for a color system "compatible" with monochrome—was claimed to be strengthened during the same session by the concern of Comr. George E. Sterling over any system which requires that the present such mechanical parts as a motor-driven color wheel.

CBS witnesses had emphasized that its system and all of the principal color methods fundamentally are all-electronic and that the CBS color wheel was only a device to make color TV practical and inexpensive now.

Conners. Robert F. Jones at one point had observed that all of the systems are "mechanical" in their basic electronic characteristics, at present utilize some form of "mechanical" operation to produce the color. He noted the CBS color wheel and its conversion system was not involved in the RCA and Color Television Inc. systems.

Hampton W. Howard, former president of Special Purpose Films, appointed sales manager for Archer Productions, New York industrial film firm.

Television Screen Productions, New York, producing five-minute animated cartoon TV advertising series for children. Title "Jim and Judy in Teleland" series can continue indefinitely, according to Charles J. Basch, president of company. TSP, Hollywood, producing one-minute animated television commercial for Nesbitt's Orange Drink through Arnold Marquis Productions, that city. Spot for local release.

Russell Day heads new television commercial department set up by Telemount Productions, Los Angeles, at its studios at 5255 Clinton St. Mr. Day was formerly independent TV film producer. Firm also has announced 13-week renewal of its Magic Lady and Boko series on KFIC (TV) in San Francisco, effective March 4. . . . Series of seven one-minute live action TV spots have been completed for General Controls Corp. by Caston Productions, Los Angeles. Agency: Hixson & Jorgensen Inc.

**Why FIlM EQUITIES**

Is the No. 1 Distributor of TV Film in the U. S. Today

- Film Equities acceptance and reputation is built on its superior service.
- When stations want film—and when they want it in a hurry—they know that they can pick up the telephone and that Film Equities will be able to deliver what they want when they want it.
- This service, built up over several years, is the fundamental reason for more Film Equities film being used in TV than by any other distributor.
- Television stations the nation over know that when they call on Film Equities, Film Equities delivers the film.

Let us show you what we mean.

Further Hearings Are Held

FURTHER hearing was held before FCC Examiner J. Fred Johnson Jr., last week to decide whether or not the Commission should require interconnection of the inter-city television relay facilities of American Telephone and Telegraph Co. and those of Western Union Telegraph Co.

AT&T has issued a loud "no" to WU's equally vigorous "yes" on the interconnection issue. The Bell System contends Western Union can't compete with it unless WU furnishes customers with Bell facilities to piece out its own channels, which amounts to a private subsidy by one competitor to another. Western Union stated television is growing rapidly and will need both AT&T and WU facilities, indicating WU can compete with the Bell System.

Held Monday through Wednesday, the FCC hearing last week was recessed until April 10 when it's expected another week will be required to close the case. FCC last December had ordered the common carriers to interconnect their facilities with those of private broadcasters for the present because the common carrier channels are inadequate.

In mid-February FCC requested AT&T to further amend its tariffs to allow broadcasters to feed programs picked up over the air into the Bell System network for further relaying [TELECASTING, Feb. 20]. AT&T last week, however, in a petition opposing this request, charged that the issues and evidence in the earlier interconnection hearing did not support FCC's conclusion to order AT&T to accept inbound traffic of this nature. The telephone company further contended that such "patchwork" networking would be technically and operatively inefficient and uneconomical in the long run.

A preliminary dispute at last week's proceeding was whether the case involved the question of general interconnection or interconnection only in a specific instance such as the WU-Philadelphia link, presently its only existing TV relay facility.

KTTV (TV) MOVES

Sets Nassour Studios For Film Making

UNDER a long term lease, with option to buy, KTTV (TV) Los Angeles within next 60 days will move from present quarters at Nassour Studios, 5746 Sunset Blvd., Hollywood.

Deal was worked out by Norman Lischer and president of KTTV Inc., with Edward and William Nassour, owners of Nassour Studios. Under the arrangement, KTTV will go into production of low budget television films, with national distribution to be handled by Television Sales, a subsidiary recently set up for syndicated programs.

Agreement in no way interferes with independent film production of Nassour Bros., it was said.

Under the 10-year lease with options, signed last Tuesday, KTTV will eventually take over the entire film lot consisting of executive offices, four soundstages, and workshops. Station will discontinue use of three sites from which it currently operates.

Station expects to start filming six to eight half-hour programs weekly with move to the new quarters, according to Harrison Dunnham, KTTV general manager. First will be the "Buster Keaton Show" and the "Stokey-Ebert Enterprises' Pantomime Quiz." KTTV also plans to bring in freelance producers, directors and talent to film its own packages.

Stockholders Approve

With CBS a 49% owner of KTTV, Frank Stanton, network president, participated in the stockholders' recent Los Angeles meeting that approved the deal with Nassour Bros.

CBS also will acquire a Hollywood film studio or its equivalent for its rapidly expanding television operations in that city. Several sites have been investigated, but as far as can be learned, no deal has been made.

Looking to the future, ample space, comparable to that occupied by the ABC Television Center in Los Angeles, will be necessary to accommodate the several live and filmed shows that CBS will originate from Hollywood. Adequate quarters acquired now will eliminate future farming out of shows to rental studios as was done in radio, it was pointed out.

Now! - the greatest First of all for Memphis and the Mid-South's First television station WMCT joins the Cable!

- the FIRST Television station in the South to bring television's greatest shows direct from New York!

*South of St. Louis and Richmond, from the Atlantic to the Pacific.

On March 1st, WMCT joins the Cable! This is big television news in the Memphis market area, and even greater significance to advertisers throughout the Nation.

Already television set sales in Memphis and the Mid-South have reached 20,000, according to information received from distributors.

With the coming of the Cable, there will come also, a tremendous new interest and a new and greater audience than ever before.

For program and spot availabilities, we suggest you contact your nearest Branham office, now.

**TV's Rising Cost**

(Continued from Telecasting 3)

DuMont has pioneered in low-cost production, opened new time periods and developed profitable shows for low-cost advertisers. Speaking of costs, he charged that prices must be about the same cost per thousand as in other media.

Because there are not enough hours to put TV on a sound and profit producing basis even if all hours are sold, DuMont has gone extensively into daytime programming.

TV in movie theatres was discussed by Robert H. O'Brien, secretary-treasurer of United Paramount Theaters, New York. It will not alter but replace theatregoing, because people will always want to leave their homes for entertainment, Mr. O'Brien said.

An opposing view, asserting that TV is moving the theatre into the home, was expressed by H. C. Bonfig, advertising manager of Zenith Radio Corp., who talked about film production. "Only with skill will broadcaster and talent make a living out of TV," he claimed.

Ralph Liddle of Commonwealth Edison, Chicago, was moderator of the theatre TV discussion.

**Research Important**

Research will play an important role in Chicago. Last week, Mr. Meville Jr., NBC's director of plans and research. Five leading fields in which research can help TV, he said, are improved set figures by making better use of studio, more ratings, better measurement of TV audience size among non-set owners, and, in general, how to build more effective commercials and documentation of TV's sales effectiveness.

He proposed that ratings be made every third rather than every four months because of shows aired bi-weekly. Reporting a large bonus for sponsors because of high non-owner viewing, he said a recent NBC New York survey showed the network has a total weekly audience of 20 million viewers five years old and over, 49% of which are outside TV homes.

Appearing with him were Dr. Charles F. Allen, director of research, Northwestern U.; A. C. Nielsen, president of the Chicago market research firm bearing his name; Lawrence Roslov, general manager, The Pulse Inc.; James Sepler, president, American Research Bureau; Charles Callard, vice president of Jay & Graham Organization; ( Videodrome) Mr. W., president, and vice president, C. E. Hooper Inc., Robert Salt of the Katz Agency, Chicago, was moderator.

Speakers on the opening panel were Robert Swezy, general manager, WDSU-TV New Orleans; Harry Bannister, general manager, WJ-J -TV Detroit; Alexander Schmidt, program operations, ABC New York; Seymour Mintz, advertising manager, Admiral Corp., Chicago, and Jeff Wade, vice president in charge of radio and television, Adwere, Inc., Chicago. James Stirling, general manager of ABC's Central Division, moderated.

"Video will support itself in any market because the impact is there," Mr. Swezy said. He had a transom business already, and have reached the point where some of our new advertisers are going into TV. We will have a budget radio before long," Youth and imagination are prime requisites, he said.

Mr. Bannister, terming TV a constant news story because it has captured the public imagination, said video gives priceless publicity to advertisers. Discussing the 58 TV stations in Chicago, he said TV will increase much in the next three years because of the "freeze" and time needed for allocation hearings, he anticipates between 14 and 15 million sets the first year will still be confined to 58 markets.

Mr. Stronach of ABC said "a tremendous educational job needs to be done before TV is economical. TV will never be cheap, but it will have to be cheaper if we are going to get the average budget client, the backbone of magazine and radio advertising."

Mr. Wade, whose major AM-TV account is Miles Labs, (Alka Seltzer, One-A-Day Vitamins, said TV is almost a last resort for radio advertiser. Advertisers, however, are looking for economy in programming and sales effectiveness "like they've never looked before," he stated.

Admiral Advertising Manager Mintz pointed out need for more accurate estimates in program costs. "We spent four times the original estimate on First Place, now we go back for good money, for example," he said.

An answer he recommended for profit both ways—inexpensive day time shows.

Problems of stations in various markets were outlined Tuesday morning by John Mitchell, manager, WBKB, (TV) Chicago, and his panel: manager, WTVT (TV) Bloomington, Ind.; E. Y. Flanagan, general manager, WSPD-TV Toledo; Roy McGaughan, manager, WENR-TV Chicago; Robert Beckerman, vice president, the president, WKY-TV Oklahoma City, and F. Van Konynenberg, general manager, WTCN-TV Minneapolis.

"TV pays off—or does it?" was answered by A. L. Johnson, advertising manager, International Shoe Co., St. Louis; Bud Gore, advertising manager, Marshall Field & Company, Chicago; Freeman, advertising manager, Edward Hines Lumber Co., Chicago; L. E. Waddington, radio director, Miles Labs, Elkhart, Ind.; Hal Rorke, radio director, J. Walter Thompson Co., Chicago, William Fisher, TV production director Young & Rubicam, Chicago, and Harry Goodman, president, Harry Goodman Productions, New York.

Holman Faust, account executive at Schwimmer & Scott, moderated.

Ten panelists appearing at the closing session were introduced by Arthur Holland, owner, Malcolm H. Holland Inc., New York. Among these were Monte Fassnacht, WENR-TV; Norman Heyne, Rubrauff & Ryan; Dick Liesenfeld, WGN-TV; Jo Better, Sarra Inc.; Jerry Campbell-Cahill, McCann-Erickson; George Bert Knapp, Schwimmer & Scott; Norman Lindquist, Atlas Film Corp., all Chicago; and Arthur Fielden, Campbell-Ewald, Detroit; Harry Hayden, Hayden & Robinson Inc., New York, and Gordon Kinney, Advertising Council, New York.
PREVIEWING WNQ-BNC (TV) Chicago show, "Grand Marquee" feature series, is the program's sponsor, Paul E. Hauser (r), president, Hauser Nash Sales, Chicago. With him at the station's studio are (l to r): Charles J. Zeller, radio-television director, Guenther-Bradford Agency; George Morris, WNQ account executive, and John McConnell, station manager. Show is telecast Saturday at 9:30 p.m. (CST).

Mr. Connolly joined CBS as a member of the sales promotion department in 1939 after long service in department store sales and advertising. In 1940 he became director of program promotion of the network. In February 1948, he became assistant manager of program sales and was elevated to the management the next July. He is a graduate of Harvard U.

CONOLLY NAMED
Heads CBS-TV Program Sales

Owned by WJMJ Inc., the new outlet operates on Channel 6 (82-86 me) with power of 2.5 kw aural, 6 kw visual.

WHAS-TV Joins CBS-TV

WHAS-TV Louisville, Ky., affiliates with CBS-TV network as a full primary affiliate effective March 20. This brings to 57 the number of CBS-TV affiliates. The station replaces WAVES-TV Louisville, a secondary affiliate.

WHAS-TV Louisville, Ky., is the first primary CBS affiliate in the Commonwealth. The station was affiliated with WAVES-TV for the last half of 1955 but was dropped after the top of the afternoon newscast on March 20, 1956.

The station is the first primary affiliate in the Commonwealth.

Results Show Viewing Habits—BY MARY WOOD—

Mary Wood's Cincinnati Post Survey confirms and confirms PULSE HOPPER—VIDEODEX that WCPOTV is Cincinnati's No. 1 TV Station.

We quote from Mary Wood's column of February 24th:

Best Shows on WCPOTV—

"two of top 3 shows are on WCPOTV!"

Most Popular Station!

"WCPOTV 1st — WLW 2nd — WKRC 3rd!"

Enthusiastic TV City!

"Viewers look 2 hours in afternoon and 4 hours 20 minutes at night in Cincinnati"
TELEVISION advertising in January dropped to 2,133 accounts from the 2,300 recorded in December 1949. The loss of advertisers was reflected in all three classifications: Network, spot, and local.

This is the first drop in total advertisers since the mid-summer slump of June-July.

Network advertisers dropped from 75 in December to 73 in January although the number of sponsored programs increased from 89 to 93. Spot accounts went from 427 to 393 and local business dropped from 1,800 to 1,687.

The information is based on the "Rorabach Report on Television Advertising" published by the N. C. Rorabach Co. December figures are from 89 reporting stations in 59 markets. January information is based on reports from 91 stations in 55 markets.

Network figures are obtained from the newscasts in New York and include all stations which were operating during the month. Spot and local figures are supplied by the stations. There were seven stations which did not report for the January 1-7 sample week. A like number were omitted from the December report.

ABC-TV lost two and gained two accounts between the months to retain its total of 15. Two accounts were added by CBS-TV to bring the January total to 35. DuMont, which had eight accounts in December, added one for a total of nine in January. One account also was added by NBC-TV for a January total of 36.

In point of stations used and time purchased, Goodyear Tire and Rubber Co. was the biggest ABC-TV advertiser. The firm placed its Paul Whiteman Goodyear Review on 40 stations from 17 to 51 hour Sunday night. Young & Rubicam is the agency. On CBS-TV, Crosby Div. of Aveo Mfg. Co. backed This Is Show Business on 53 outlets. The half-hour, weekly show was placed through Benton & Bowles. In amount of time purchased, Westinghouse Electric Corp. was the largest CBS-TV advertiser. Through McCann-Erickson, the firm placed Studio One on 41 stations for an hour Monday nights.

Allen B. DuMont Labs sponsored the Morey Amsterdam Show on 51 DuMont stations for a half-hour on Thursday night through Campbell-Ewald. In point of time purchased, Drug Store TV Productions backed Cavalcade of Stars for an hour Saturday night on 19 DuMont stations. S. B. Fisher is the agency. Sponsoring the largest number of NBC-TV stations was RCA Victor. The firm placed Kubel's Fr. Olle on 56 stations for a half-hour on Monday and Friday nights through J. Walter Thompson. The edge in time purchased went to another advertiser of radio and TV sets, Philco Corp. This sponsor backed Philco TV Playhouse for an hour on Sunday night on 54 NBC-TV stations, according to Rorabach. Hutchins placed the business.

49 Agencies Buy

There were 49 agencies that bought network television time in January.

The largest spot account to be added in January, in point of stations used, was the Buick Motor Div. of General Motors Corp. The motor company placed business on 54 stations through Kudner Agency, New York. A special 10 day schedule for Lincoln Motors was placed by Curtis Publishing Co. on 37 stations through BBD, New York.

Dodge Division of Chrysler Corp., which had placed business on NBC stations in December, promoted its new cars heavily in January by increasing the schedule to 52 stations, according to Rorabach. Ruthrauff & Ryan handled the account. Another automobile advertiser, Chevrolet Division of General Motors, upped its spot schedule from one station in December to 26 stations January through Campbell-Ewald, Detroit.

There were 283 agency offices which placed television spot accounts during January.

In the local field Los Angeles led all other cities with 17.3 different advertisers on its seven stations.

In a poor second, Rorabach reports 75 advertisers on the Philadelphia stations and 66 in Columbus. One Columbus station did not report local business.

Of the stations reported by Rorabach for January, KFI-TV Los Angeles led in the local field with 74 advertisers. WTJZ-TV Milwaukee had 52, Westinghouse and WSPD-TV Toledo showed 58.

In terms of total number of accounts WTMJ-TV led the January report with 137. WBEN-TV Buffalo was second with 129.

There were more advertisers of food and food products using television during January than any other product classification. A total of 567 different firms used the medium on the network, spot and local level (see table).

Total Markets on Air 59 Stations on Air 101

Sets in Use 4,505,619

January advertisers are listed according to this format: City, Outlets On Air, Network Source of Sets Estimate. The Editor's Note: Sources of set estimates are listed for each city as available and since most are compiled monthly some may remain unchanged in successive summaries. Total sets in all cities surveyed is necessarily approximate since two areas may overlap. To affect this there are many scattered sets in areas not included in the survey.

Time of hearing shall be 9-27-50.

WAKA Mobile, Ala.—Designated for hearing, application for change of call letters from W225AM to W214AM, Mobile, Ala., for the purpose of changing from Category II to Category III.

Time of hearing shall be 9-27-50.
ALAN FREED, former WAKR Akron, Ohio, disc jockey, has been ordered by Summit County Common Pleas Court not to broadcast in the Akron area.

Judge B. J. Roetzel, handing down a decision in favor of WAKR Akron, said Freed’s broadcast over or through any other radio station in Akron or within a radius of 75 miles of Akron, for a period of one year following his release, would violate the termination of his said employment, whether said employment terminates or is cancelled pursuant to the terms of this contract during or at the end of the first, or during or at the end of the second year covered by this contract.

It is the intention of the parties hereto that since the employer has expended large sums of money in training, directing, and publicizing the employee in order to increase his popularity among the listening audience, that the parties hereby agree that the employee is entitled to protection following and subsequent to the period of employment of the employee by this employer, and that the employer agrees to the restrictions provided for in this paragraph. The restriction referred to herein is to the extent that no other radio stations in Akron or within a radius of 75 miles of Akron shall have the right nor be entitled to capitalize upon any popularity or following acquired by the employee while in the employment of the employer.

Whether your installation requires a single tower or a nine-tower directional array it will pay you, too, to specify ANDREW Equipment.
BUYING POWER

Each "listener that U. S. advertising reaches in 1950 will have on the average 39% more purchasing power than in the 'good' pre-war year 1945."

That was the statement made by Arno H. Johnson, vice president and director of media and research, J. Walter Thompson Co., as he summed up facts on the existing economy for the Advertising Club of Washington at a luncheon last Tuesday.

Pointing out that this means "real" purchasing power, after full correction for both higher taxes and higher prices, the agency executive cited as one important factor the impending maturity of U. S. Savings Bonds—bond maturity begins this year at the rate of $1 billion and increases steadily for three years to a peak of over $8 billion, then levels off to an average yearly redemption of over $5 billion.

Saying that many business men underestimated buying power during 1949, he cited as an example cut-backs on television set production by manufacturers and on their inventories by retailers. Before the end of 1949 television sets were in such great demand that one major New York retailer suspended advertising because he didn’t like to encourage buying when sets couldn’t be delivered, Mr. Johnson said.

Giving a quick run-down of the facts, Mr. Johnson said:

- Total real consumer purchasing power can be 6% above 1949 (which would be 60% over 1940).
- In 1950 real purchasing power per capita can be 3¾% above 1949 (which would be 39% increase over 1940).
- In 1950 surplus income over basic living standards can be 6% over the 1940 (or four times as large as 1940).
- In 1950 markets for "goods and services" can be $10 billion greater than 1949.
- Consumer debt is unusually low in relation to disposable income or individual savings.
- Consumer holdings of liquid assets are 3¾ times 1940, with double the purchasing power.

Mr. Johnson pointed out that "we need a recognition of the opportunity that exists for increasing markets." The delicate balance between recession and prosperity can be kept safely on the side of prosperity in 1950, he said.

OKLAHOMA MEET
Coy Scheduled To Speak
FCC CHAIRMAN WAYNE COY is scheduled to give the principal address at tomorrow night’s (March 14) closing session of the Fifth Annual U. of Oklahoma radio conference which opened Sunday. Dr. Norman, Richard P. Doherty, director of NAB’s Employee-Empl oyee Relations Dept., is set to address tonight’s meeting. His subject will be “Economic Trends and the Broadcasting Business.”

Theme of the Oklahoma meet is “Great Expectations,” according to Dr. Sherman P. Lawton, conference chairman and coordinator of radio instruction at Oklahoma.

Attendance is station managers and personnel, advertising agents and radio students from the south west.

Sessions are scheduled on salt and market problems, news tele vision, FM and problems of getting started in the industry. Open day of the conference was largely devoted to demonstration broadcasts by students from south west colleges and universities. Meetings are being held at nearby hotels and in the radio instruction labor atories on the main campus.

FIFTH Annual National Gag Write Convention will be held in New York March 31. The National Gag Write Foundation will present its seven “Comic World Awards” during convention.

McANDREW NAMED

Heads Radio Correspondents

WILLIAM R. McANDREW, general manager of NBC's WRC and WNBW (TV) Washington, was elected president of the Radio Correspondents' Assn. at a meeting in Washington last Tuesday. Mr. McAndrew succeeds Elmer Davis of ABC who becomes executive member of the board.

Others named were: Vice president, Francis W. Tully Jr., Washington Reporters Inc.; secretary, Bill Shadel, CBS; treasurer, Hollis Seavey, MBS; members at large, George Marder of United Press Radio, George Reedy of Arrowhead Network, and Rex Gond of Transradio Press.

Mr. McAndrew is one of the 32 charter members of the Radio Correspondents' Assn. and is one of four members of the original executive board which activated the Senate Radio Gallery in 1940. He formerly served as Washington director of news and special events for the NBC network. Mr. McAndrew joined NBC in 1938 and was executive news editor of broadcasting from 1940 to 1942. He returned to NBC in 1944.

GUILD CITES TWO STATIONS

CITATIONS for outstanding achievement in radio were voted this evening by New York Newspaper Guild to two New York stations, WMGM for Books on Trial, and WQXR for outstanding music programs.

March 13, 1950 • Page 63
WILLIAM D. SHAW, former assistant sales manager for CBS Pacific Network, and KNX Los Angeles, Columbia-owned station, will join CBS Radio Sales New York, effective April 1. He replaces MILTON F. ALLISON, now assistant sales manager of WBBM (Broadcasting, Feb. 20).

ARNOLD JACK GREGORY, formerly salesman with KOOL Phoenix, Ariz., appointed head of national sales for station. Before joining KOOL he was with KOF and KPHO that city.

WOV New York appoints John E. Pearson Co. as national representative.

JOHN P. ROHRS, Pearson Co. employed in Chicago, will concentrate exclusively on selling WOV business in the midwest. Appointment was effective March 4.

JOHN SCHMULBACH, formerly with sales staff of WABY Albany, N. Y., joins sales staff of WGY Schenectady as account executive.

CECIL RICHARDS appointed senior sales representative of WQW-AM-FM Washington. He formerly was commercial manager of WCBC Bethesda, Md.

TOM FRANDSEN, formerly account executive at KMPC Hollywood, named sales manager.

BERT LIBIN, formerly with WOL Washington and before that radio and TV director of Bert Sarazen Adv., New York, joins commercial staff of WWDG Washington, as account executive.

WBBM Chicago issues rate card 223, which was effective March 1.

JACQUELINE M. DODGE, formerly with NBC, ABC and Booth, Victory & Jackson, now joins media planning for WCar City, Pittsburgh, as account executive.

WALLACE BRAINTZ, formerly with KXL Radio Features Ltd., Toronto, appointed commercial manager of CKY Ottawa.

ROGER S. UNDERHILL, formerly general manager and sales manager of WICU (TV) Erie, Pa., appointed director of sales for WJIM-AM-TV Lansing, Mich.

DICK PARKER, former account executive and disc jockey with WBBM Miami Beach, Fla., appointed commercial manager of station.

DANIEL F. GREENHOUSE, formerly California factory representative for nationally advertised products, named director of Television Sales, subsidiary of KTTV (TV) Inc., Hollywood. He will direct TV program production and distribution nationally for firm. Subsidiary was formerly titled Television Recordings Ltd.

JOHN H. SLATTON joins staff of KXOK-FM, St. Louis Transit Radio station.

GUSTAVE NATHAN, former salesman at WWCS Waterbury, Conn., appointed commercial manager, succeeding PERRY BILLINGS, resigned.

SCOTT DONAHUE, acting sales manager of WPIX (TV) New York since last October, joins New York television sales staff of The Katz Agency Inc., station representatives.

THE KATZ AGENCY, national advertising representative, moves its San Francisco office from Monarch Bldg. to new quarters in Russ Bldg.

HENDERSON MOVES

WFBC Airs Dedication Show

LOCAL state and national dignitaries were heard in a broadcast originating from WFBC Greenville, S. C., when new quarters of the Henderson Advertising Agency in Greenville were dedicated.

The agency, established some three years ago by Jim Henderson, was congratulated by Gov. J. Strom Thurmond, Senators Burnet Maybank (D-S. C.), and Olin D. Johnston (D-S. C.), Rep. Joseph R. Bryan (D-S. C.) and Mayor J. Kenneth Cass of Greenville. The Feb. 26 broadcast was transcribed for delayed broadcast by WKIK Columbia, S. C.; WAYS Charlotte, N. C., and WCGO Greensboro, N. C.

LOCKE RETIRES

RAYMOND P. LOCKE, president of Tracy-Locke Co., Inc., Dallas advertising agency, last week announced his retirement from the firm which he founded in 1913. His stock interests in the company have been purchased by his Tracy-Locke associates, Mr. Locke said.

Morris L. Hite, executive vice president who has been with the company since 1937, succeeds Mr. Locke as president. Clay W. Stephenson, with the firm since 1948, has been elected to the board of directors and will serve as executive vice president. In another organizational change, John H. Wellenkamp, in addition to his duties as vice president and treasurer, becomes general manager of service operations, a newly created post.

Two additions to the staff also have been announced. Philip McCue, formerly with CBS in New York and Brown Radio Productions Inc., Nashville, was appointed head of the radio and television department. Herbert Lehman, formerly with the Bruce B. Brewer Advertising Agency's Minneapolis office, will serve as account executive.

In announcing his retirement Mr. Locke also stated: "My retirement is according to long-range plan, as projected in 1913 when I first entered the advertising agency business on my own. I have worked hard and conscientiously; always our clients have been first. For all these 37 years, we have subscribed to the philosophy that 'advertising must pay its way and pay a profit.'"

**News**

**FCC BAR ASSN.**

**By-Passes Applicant Policy**

EXECUTIVE committee of the Federal Communications Bar Assn. has decided not to participate or file any comments in the FCC proceedings relating to a uniform policy for applicants who have violated U. S. laws other than the Communications Act [BROADCASTING, Jan. 30, Feb. 6, 20]. FCBA President Neville Miller last week said this action was because the case relates to substantive questions of law rather than procedural ones.

Percy H. Russell Jr., chairman of the FCBA’s committee on practices and procedure, which recommended the bar group not take part, observed that the Commission has not instituted a rule-making proceeding but proposes in lieu thereof to enunciate a policy statement which cannot have the same effect and force as a rule. FCC has postponed its hearing in the case until April 24, with comments accepted by April 10.

**WVSH Dedicated**

DEDICATION of WVSH Huntington, Ind., 10 w educational FM station, has been announced by the Huntington school system. Operating on 88.1 mc, WVSH now has a regular broadcast schedule of one hour each school day. Programs include participation by pupils from both grade schools and high school, transcribed shows containing material for classroom use, and broadcast of a sectional basketball tournament. M. McCabe Day is director of WVSH.
COMMUNITY COVERAGE

WTAG Wins Praise From Its City Government

WTAG-AM-FM Worcester, Mass., has been cited officially for its efforts to tell the public about the city’s new council-manager form of government. In passing a unanimous vote of thanks, the Worcester city council specifically cited the current Your City Government show, a weekly presentation Sunday at 12:30 p.m.

Giving city officials a chance to inform the public on what is going on at City Hall, the program each week features two councilmen who discuss problems being tackled under the recently established “Plan E” form of government. The last program each month is taken over by the city manager who reports on progress for that month.

WTAG-AM-FM has been providing this type of coverage since last fall when the city started to vote under a new form of city government. Instead of the old mayor-council system, the voters now faced rule under proportional representation, a system with which they were unfamiliar.

Hess Series

Realizing the necessity for public education, WTAG introduced a weekly series done by Clyde Hess, the station’s news analyst. Figuring that the best way to get information on the new government was to ask the cities that already had it, Mr. Hess questioned authorities in five cities already operating under council-manager government. General theme of his questions was, “How is this council-manager form of government working for you folks? Do you like it? Is it practical?”

The answers were recorded by respondents and air mailed back to WTAG. Then Mr. Hess took the disc, wove them into “interviews” which were filled out with his own comments and interpretations of the answers in terms of Worcester’s problems. This series ran for the five Sundays preceding the elections.

The show, A Plan of Two Cities, so impressed the Massachusetts Committee for the George Foster Peabody Radio Awards that it was given first award for public service in the Bay State.

Several other programs of this type were used, including the question-and-answer series, The ABC’s of Plan E, done by Newsman Dick Jacobs and also running up to election time.

The Your City Government Show, planned for a limited run, proved so popular that the program is now a permanent part of the WTAG-AM-FM schedule.

DECCA RECORDS Inc., New York, declared quarterly dividend of 12% cents per share on capital stock, payable March 28 to stockholders of record at close of business March 14.

TAB SESSION

All Officers Are re-elected

OFFICERS and directors of Tennessee Assn. of Broadcasters were re-elected Feb. 24 at the annual TAB meeting held in Nashville with 125 delegates attending an all-day session.

President F. C. Sowell, WLAC Nashville, said TAB now has 40 station members. He reported the “Let’s Sell Optimism” promotion campaign had proved successful, with stations in a dozen states now conducting drives based on the TAB format.

An agency panel stressed importance of setting rate and coverage policies and sticking to them.

Taking part were Hugh Murphy, Lake-Spiro-Shurman, Memphis; Albert Noble, Noble-Dury & Assoc., Nashville; John Fontaine, Nelson, Hess Co., Chattanooga.

Maurice B. Mitchell, director of Broadcast Advertising Bureau, took over the afternoon. Henry W. Slavick, WMCT (TV) Memphis and a retiring TAB director, reviewed the growth of TV in Memphis and said it has not reduced the volume of AM advertising.

Harry Stone, WSM Nashville, described his recent trip to Germany with a Grand Ole Opry troupe.

Officers of TAB are Mr. Sowell, president; Earl W. Winger, WODD-Chester, vice president; Jack M. Draughon, WSIX, Nashville, secretary-treasurer. Board members are T. B. Baker, WKDA Nashville; John P. Hart, WBT, Knoxville; Marshall H. Pengra, WATO Oak Ridge.

KOCS Shuffle

CARLTON R. APPELBRY, manager of Ontario (Calif.) Daily Reporter, in a reorganization has in addition assumed supervising management of the newspaper-owned KOCS. He takes over duties from Stanley Davies, assistant manager, who resigned. Active department heads are Floyd Hall, business manager and chief engineer; George Crofford, program director; and James Rennie, commercial manager.

BROKEN DOWN MERRY-GO-ROUND

On Records: Margaret Whiting, Jimmy Wakely—Cap. 800; Rex Allen—Patti Page—Mer. 6231; Eileen Wilson—Dick Thomas—Dec. 24880; Jon and Sandra Steele—Coral 60162; Bobby Lee Four Star® *soon to be released.
SMOOTHLY running activities between station executives and school officials resulted in “High School Day” on KVOR Colorado Springs, Colo., between 6 a.m. and 11 p.m. Feb. 28, virtually every job on staff was taken over by 60 high school students, chosen from 100 who applied. Students had been practicing during previous week and were able to handle news writing and announcing chores with comparative ease. Staff members supervised all activities, but none of their work appeared on the air. Even selling activities were handled by students. Unprecedented number of calls were received commenting on day, station reports.

Pictured Promotion
SINGLE-page bulletin, with pictures if live studio shows featured on WAM (TV) Baltimore, illustrating station’s program line-up, sent to trade by WAM. In centerfold page, surrounded by pictures which bear short headlines describing show’s format, is statement concerning number of hours of live and network shows. Bottom of page carries caption noting station’s ABC-TV and DuMont affiliation.

‘Cool, Clear Water’
LAN originated on Great Gildersleeve show on NBC, calls for sending of water canteen to 16 different cities, where ounce of water is added by each local water commissioner. Canteen is sent to NBC affiliates in cities from Los Angeles to Washington, and bears large tag remarking that it will eventually be sent to water commissioner in New York City. Mr. Gildersleeve, show, is water commissioner of fictional town.

Descriptive Booklet
ROCHURE, which includes pertinent data concerning WDTV (TV) Pittsburgh’s growth in that area, sent to aide by station. Rate card, coverage map, line-ups of station equipment and other statistics are given on mimeographed sheets which have been added to folder. Excerpts from letters, in original handwriting also are given.

Bulletin Announces
LARGE white bulletin from WFMJ Youngstown, Ohio, sent to trade bearing announcement of station’s new facilities. WFMJ now broadcasts on 1390 ke with 5 kw. Brief text remarks that city is nation’s “fourth largest steel center and Ohio’s third market.” Fact sheets, information and other data conclude bulletin.

Shamrock Green
SHAMROCK GREEN ink on white paper make up latest promotion from WVV New York. Head reads, “The Irish Will Love It and So Will Everyone Else.” Announcement of show, A Ramble in Erin, hour of Irish music, folk songs and guest stars is made. Show is aired Mon.-Fri., 11 p.m.

Religious Spots
TAPPING a usually unsuspected classification of business, KSOM San Mateo, Calif., is making religious broadcasts pay off by selling spot announcements before and after its Sunday Catholic sermon, to church goods stores in two neighboring communities.

KRAM’s Neighbors
UNSUSPECTED revenue source in retailers of communities scattered 10 to 30 miles away uncovered by KRAM Las Vegas, Nev. Utilizing half-hour programming and commentary slanted to specific community, under title Know Your Neighbor, broadcast is sold in quarter hour segments to merchants in drug, general merchandise, grocery and gasoline categories.

Free Blotters
BLOTTERS sent to Canadian advertisers and agencies by CKAC Montreal bear message “The good things in life are free-enterprise.” Promotion bears call letters of CKAC, signing itself “a free enterprise station since 1922.”

Maps Mailed
AMONG first stations to put its new EBM study map into mail is KDAL Duluth, Minn. Maps were sent with additional data showing station’s increases to complete agency and client lists in station’s files.

Personnel
RAY C. HUFFER, formerly on public affairs staff of WFAA Dallas, appointed sales promotion manager for station. HARRY L. KOENIGSBERG, formerly with station’s continuity department, named publicity director.

RONNIE MANDERS, formerly publicity manager for Standard Radio Transcriptions and West Coast representative for Music Business magazine, joins KFI-AM-TV Los Angeles as assistant to promotion and publicity director.

SAM PARNAS, formerly news writer with WWRL Woodside, N. Y., for past three years, appointed to newly created post of sales promotion manager.

SELVIN DONNESON, with sales staff of WWRL Woodside, N. Y., for past three years, appointed to newly created post of sales promotion manager.

NEED MORE COVERAGE?
For a nice piece of business, aim at North Dakota’s multi-million dollar market, where cash and bond holdings of a billion dollars have consumers ready and willing to buy. To top this market, you’ll need KFyr’s coverage, based on 25 years of listener loyalty. Ask any John Blair man for the facts.
PRIZE of $1,000 scholarship awarded to Glen Holt, high school senior from Smithfield, N. C., as winner of statewide Student Forum for Safety quiz series. American Mutual Liability Insurance Co. of Boston sponsored contest on WBIG Greensboro, WPTF Raleigh and WBT Charlotte, latter as key station. Sixty students were chosen from area of each station to participate in series of 10 shows, in which they were quizzed, six each week, on safety problems. Eleventh show pitted winners of previous contests against one another to determine six finalists who were quizzed in final show on WBT, which was fed to state-wide network.

Weather Facts

TWO shows on KOF Phoenix, Ariz., utilize weather reports in different circumstances. At 6 a.m. daily, News Editor Paul Gribben airs his phone calls from police, sheriff and state patrol headquarters. Highway and road conditions, as well as weather reports are given in calls. Daily comparison of temperatures between Phoenix and Eastern U. S. areas is given by George Graham on his Record Matters show. Purpose of this feature is to heighten the enjoyment of eastern vacationers in Arizona.

'Alcoholism in Washington'

SERIES of eight broadcasts, Alcohol in Washington, aired over WMAL Washington will discuss new Washington Alcoholic Clinic, work of Alcoholics Anonymous, alcohol as problem to courts and penal institutions and one program devoted to advice to family of alcoholic. During another broadcast, new drug, Antabuse, will be commented upon. Alcohols of all kinds and circumstances will appear on shows via tape-recordings. Series was written, narrated and taped-recorded by Gunnar Back, and is sponsored by D. C. Health Dept., Alcoholic Clinic, Washington Committee for Education on Alcoholism, Washington Evening Star and its WMAL.

Fire Covered

NEAR million dollar fire which razed Halftown Military Academy, Chatham, Va., was covered by WVDA Danville, Va., via battery operated Mini-tape recorder. Announcer Dick Campbell described inferno and one incident, in which Mr. Campbell stood on steps of building while explosion occurred inside, necessitating a quick trip to safety, was forwarded to Mutual Newswearl and used as feature Feb. 22. Recordings of fire were aired on WVDA at 11 p.m. of day on which it took place.

Comedy Series

DOMESTIC comedy series, titled That Young Couple, reportedly first full-length dramatic series to be broadcast by New York video, debuts March 19 on WBZ-TV Boston. Show is live, half-hour production aired at 9:30 p.m. from station's studios and featuring members of Brattle Theatre Co. Program is sponsored by Boston Gas Co. Written by Rupert Payne and produced is handled by Al Hartigan of WBZ-TV and Albert Marre of Brattle.

Blowing Its Stack

SEVEN THOUSAND ton smaller stack in Denver, Col., was blown up because it constituted a hazard. Four spectacular dynamite blasts which reduced it to rubble were described to listeners by KOA Denver, Feb. 23. Three special broadcasts were required by Starr Yealdell, announcer, Special Events Director Bill Day and Al McClelland, engineer.

Production Event

WHEN first production model of XH-41, the biggest, moved down production line at Boeing Wichita plant, KANS Wichita was there to witness and relate spectacle to spectators. Special interview with J. Earl Schaffer, vice president and general manager of plant, was conducted by George Gow, news chief of KANS and Ted Heithecker, promotion manager. Interview, together with short story of event was also nation-wide on NBC's News of the World that evening.

Disc Panel

PANEL of three well-known personalities in music world comment on new releases and overall sales trends. On KHON-TV San Francisco. Experts vary from show to show and confer with Disc Jockey Arch Leboux about record's quality and chances of success before it is played. Program has participating sponsors.

Program Highlights

ONE-TIME show on WKTY-LaCrosse, Wis., featured George Grimes, U. of Wisconsin agronomist and weed control specialist, in interview concerning all phases of weed control. Also guest in show was Tom Burgers, LaCrosse Tribune farm editor. New series on WKTY is 13 school music broadcasts with bands, orchestras and glee clubs of 27 local, high junior high and grade schools featured. Weekly programs are sponsored by Consolidated Dairies of LaCrosse.

Drawing Fun

NEW addition to line-up of programs on WBAL-TV Baltimore is Fun With Freedy, audience participation feature. Show is conducted by Edward Freedman, artist, advertising executive and author. Mr. Freedman tells well-known story while viewers, drawn to his antics with him pictures illustrating narration. Prizes are given for best drawing in studio audience. Show is aired Saturday, 5:30-6 p.m.

Memorial Program

SPECIAL show was aired Feb. 27 at 9 p.m. on WCOP Boston commemorating the death of Harry Lauder, entertainer. Called Harry Lauder Memorial Show, program was made up of Lauder recordings from personal collection of Program Manager Gene King and script written by Ed Sullivan, continuity director. Another one-time show on WCOP, Junior Press Conference, in which four high school students quizzed their governor on matters of local and state government, proved so popular with audience and local civic and educational organizations, that it will become regular program feature of WCOP.

Polo Telecasts

WHAT is believed to be first telecasting of polo match was started recently with telecasting of first of series of 12 matches from Beverly Hills Polo Club on KXHH (TV) Hollywood. Competing in series from week to week will be top polo teams from U. S. and Mexico. Frank Roche, polo writer and authority, is announcing games; Frank Barton does color. Packard-Bell Co., Los Angeles is sponsoring series through Elwood J. Robinson, Adv., same city.

Spot Reports Aired

EXCLUSIVE news reports from cities all over world will be aired on WFIL Philadelphia in next few weeks. Reports are by Abraham B. Adam, president of Philadelphia Junior Chamber of Commerce, who has gone to the Philippines as delegate at annual J. C. C. of C. convention. From there he will visit cities in Asia and Europe where he will make tape and wire recordings of news developments of international interest and interview prominent persons. Shows will be presented on WFIL or programs of segments of regularly-scheduled newscasts, according to their length and significance.

Geared for Women

INTERVIEWS with industrial executives who are introducing products of special interest to women are feature of What's in Industry show on KFJ-TV Los Angeles. Demonstration of new products are made during hour-long teletcasts with Ted Meyers handling interviews and Paul Knight as producer.

ANTI-GAMBLING

Sen. Wiley Lauds ABC Show

A B C COMMENTATOR Robert Montgomery's radio campaign spotlighting Frank Costello's activities as top gambling underworld figure from Los Angeles has aired over many ABC daytime programs, in connection with a Capitol Hill movement to probe interstate crime and gambling activities. Sen. Wiley congratulated M. Montgomery, who also is an NBC TV producer, for bringing to listeners the whole question of Mr. Costello's citizenship rights, view of repeated denunciation of his alleged racketeering.

Mr. Montgomery for the past three months has devoted most of his radio broadcasts (ABC, Thurs., 8:45-9 p.m. EST) to phases of M. Costello's career, and urged investigation of interstate gambling. The congressional resolution was proposed by the Senate Judiciary Committee. Sen. Wiley's comments, urging Justice Dept. action were inserted in the Congression Record March 2 issue.
AFA CONVENTION
Cone To Address 1950 Meet

FAIRFAX M. CONE, chairman of Foote, Cone & Belding, will be one of several prominent advertising and industry figures who will address the 46th annual convention of Advertising Federation of America, to be held at the Statler Hotel in Detroit May 31-June 2.

Built around the general theme, "Advertising’s Responsibilities in a Dynamic Market," the three-day program will cover the field from the standpoint of advertisers, media, agencies and creators. Featured speaker at an opening general luncheon session May 31 will be Earl Johnston, president of the Motion Picture Assn. of America. He will discuss "Challenges in a World of Propaganda."

The program, being prepared by Detroit host clubs headed by Charles B. Lord, retail advertising manager of the Detroit Times, and Edythe Fern Melrose, radio personality and member of the Women’s Advertising Club of Detroit. Ted Little, vice president and general manager, Campbell-Ewald Co., is chairman of the convention’s steering committee.

Initial list of speakers was announced jointly by Elliott Shumaker, Detroit general chairman for the convention and advertising manager, Detroit Red Wings, and Elton G. Borton, president and general manager of the federation.

James A. Nassau

JAMES A. NASSAU, 51, radio pioneer, died Feb. 23 in the home of his daughter, Cone and Belding, in Glenside, Pa., owned by the company’s Glenside, Pa. station in the city. He entered radio in 1918 as a staff member of 3XJ, first licensed experimental station in the country, at Glenside. In 1923 he joined the former WLT Philaldephia, as an announcer, remaining there until going to WFL Philaldephia in 1935. He at one time owned WIBG Philadelphia and served as its program director until 1935. In 1949 he joined WAEB Allentown as program director, holding that position until his death. He is survived by a brother, Joseph M. Nassau, and an aunt, Sister S. Maurice, S.T.D., of Philadelphia.

Carrier Current

JOINT government-industry committee named by FCC last summer to obtain field intensity measurements of line radiating devices and systems is to meet June 6 at FCC’s Washington headquarters, the Commission announced last week. Meeting date earlier had been set for March 21. Six working groups are now obtaining field data, FCC said, and are expected to complete their reports by June 6. FCC has invited all interested persons to attend the meeting. Among the groups affected in the proceedings are college “wired-wireless” stations.

Technical

JACK MILLER, formerly with WMIB Miami Beach, Fla., rejoins station as chief engineer.

HARVEY FRITCH, formerly KAGH Pasadena, Calif., engineer, joins KALI same city, as chief engineer.

WILLIAM de DUFOUR, named chief engineer of WFUV (FM), New York, Fordham U.’s station. Recent graduate of the university, Mr. de Dufoir worked on WFLU staff while a student.

RCA VICTOR, Camden, N. J., announces Carfone station unit “15,” new portable transmitter-receiver, smaller than overhead case, for use as headquarters station equipment in mobile communications systems operating in 157-174 m.c. range.

BOB FISHER, formerly of KNOB Long Beach, Calif., and DONALD WILSON join KWWK Pasadena, Calif., as engineers.

HENRY NIELAND, formerly student at Television Workshop, New York, joins camera crew of WMM (TV) Baltimore.

HAROLD E. BEDDINGFIELD, JAMES W. EDWARDS, BYRON L. FRIEND and CHARLES M. RINING join engineering operations staff at WNBQ (TV) Chicago, under supervision of Howard Luttgens, chief engineer. Mr. Rining was transferred from KOA Denver.

ELECTRO-VOICE, Buchanan, Mich., announces new E-V Model 335 Blast Filter, designed for use with company’s Models 630, 635 and 660 moving-coil dynamic microphones. Filter effectively stops breath blasts, company reports.

ANDREW Corp., Chicago, announces production of ¾ inch rigid transmission line (Type 450) for AM and FM systems.

MARVIN DOERING, transmitter engineer at KWW St. Louis is the father of a boy, Dennis.

BOB STONE, KTSL (TV) Los Angeles cameraman, is the father of a girl, Shirla.

HUCK OSTLER, of WLS Chicago engineering staff, is the father of a girl, Colleen.

MAURICE J. WYNNE, engineer with WWL New Orleans, is the father of a girl.

CHARLES RILEY, NBC Chicago maintenance engineer, is the father of a girl.

AUDIENCE REPORTS

BMB Mails Sets to Stations

BMB LAST WEEK mailed complete sets of Station Audience Reports—130 individual reports, a bundle of some 50 pounds—to members of the American Assn. of Advertising Agencies and Assn. of Advertisers, requesting them, Dr. Kenneth H. Baker, BMB acting president, reported.

He noted that in addition to these reports on BMB subscribing advertisers, and others, may get reports on non-subscribers by requesting them through subscribers serving the same areas, provided that the subscribing stations are willing to pay the cost of tabulating these data. Dr. Baker added that BMB's millions of punch cards are available through Statistical Tabulating Co., which handles the study for any special tabulations which stations, advertisers and agencies want to order.

WHHH BARRIED

Broadcast of Hearing Denied

WHHH Warren, Ohio, Tribune station, was barred by the Civil Service Commission March 1 from recording Police Chief William Johnson's suspension hearing.

Transcribing equipment being installed in the court room was ordered removed by commission members after they had rejected WHHH's request to record the session.

Although no official vote was taken among the three commission members on the subject, all three objected to the broadcast, WHHH reported. H. R. Farrall, WHHH manager, was told by Commissioner Mark Williams that broadcasting the hearing would prevent a fair trial. Mr. Williams gave no specific reason as to how a fair trial would be prevented, Mr. Farrall said.

Robert Meermans, WHHH attorney, argued that there was precedent for recorded broadcasts from this type of session. "Congressional committee hearings customarily permit wire tape recordings and newsreel photographing during their sessions," he declared. "In the area, it is customary. Tape recordings are made of Youngstown City Council sessions and the same has been done in the past here at Warren City Council meetings."

Mr. Meermans told commission members that he contacted Chief Johnson's defense attorney and the Warren safety-service director before the hearing and that neither lodged any objections.

Allen Buckley, formerly KFI-TV Los Angeles producer, joins The Bogert's (merchandising and advertising consultant), as director of television department.

S. W. Caldwell Ltd., Toronto, distributor of U.S. transcribed programs, buys Guild Radio Features Ltd., Toronto, and plans expansion of its operations. C. W. Caldwell, now also a recognized radio advertising agency and program agent for 12 Canadian live radio programs.

Ruthrauff & Ryan signs two-year agreement for A. C. Nielsen's National Radio Index, Class A service, including non-network feature.

Maybelle Callaway, songstress for WMC Memphis, transcribes series of 13 weekly shows through Frederick W. Ziv, Co. for Hamilton Watch Co.

Edd Routt, formerly with KLIF Dallas, Tex., sets up publicity and public relations firm, Edd Routt Co., 6354 West Ave., Dallas. Phone: Victor 4-2225.

Morgan Rechner Inc., New York, merchandising and advertising consultant, moves its office to 366 Fifth Ave., New York. Phone number remains the same.

Marjorie B. Tahaney, with RCA-Victor record operation for past seven years, appointed sales representative for firm's Custom Record Sales Div.

Joseph P. Higgins, with Columbia Records Inc., New York, for over 10 years, appointed associate director of Popular Records Div. Concurrently, Percy Faith, orchestra conductor and composer, named musical director of division.

Equipment

Arthur Chapman, former junior engineer, became general manager of Colonial Radio & Television Div. of Sylvania Electric. Mr. Chapman has been with Sylvania since 1933 in various capacities.

John F. Herbst, former buyer and manager of radio, television and appliance division of W.

and J. Shanes Stores, West Coast branch, appointed western regional manager of receiver sales division of Allen B. DuMont Labs.

Polarad Electronics Corp. moves to new and larger quarters at 100 Metropolitan Ave., Brooklyn 11, New York.

Joshua Sieger elected vice president in charge of engineering by Freed Radio Corp., New York.

Yes, sir! we've got BINDERs

... and at reduced prices, too

MEXICO STATIONS

Two Outlets Change Location

MEXICO has announced change in location of two Class I-B stations, FCC reported upon notification, according to provisions of the North American Regional Broadcasting Agreement now being re-negotiated [Broadcasting, March 6]. XENT Nuevo Laredo, 50 kw on 1140 ke was reported moved to Veracruz and XEML Mexico City, 20 kw on 1550 kc, was reported switched to Nuevo Laredo.

Also announced were two new local 250-w outlets, one on 1450 kc at Ojinaga, Chihuahua, to commence operation about July 2, and one on 1470 kc at Los Mochis, Sinaloa, to begin about Aug. 1. Call of XEWB has been assigned new 100 w station on 1400 kc at Cuautla, Morelos.

VFW Honors WRCO

CITATION for the donation of its time and facilities in the interest of war veterans, community and national affairs was presented Feb. 20 to WRCO Richland Center, Wis., by the Richland Center VFW Post 2257 at a VFW fathers and sons banquet. Signed by Clyde A. Lewis, national commander of the VFW, the citation was accepted in behalf of the station by Robert Bodden, program director. Presentation was made by Bertell McDonald, junior vice state commander.

RWG CONTRACT

Set With CBS Hollywood

NEW contract between Radio Writers Guild and CBS Hollywood for staff continuity writers was "satisfactorily concluded" March 1, according to joint statement by the union and network.

Terms agreed upon provide for a 12½% increase for all staff writers and establishment of a new rate for newly-hired writers and those assigned to transcontinental sustaining programs. Changes were also made in clauses of previous contract pertaining to duties of staff writers, hours and grievances.

Increases are retroactive to date of expiration of old contract, May 1, 1949. New contract is for 2½ years from that date.

Negotiations between RWG and CBS started last April. During January Federal Mediation and Conciliation Service were called upon to break a deadlock which developed in late 1948.

C.kld Thetford Mines, Que., has begun operations with 320 w on 1300 kc, according to radio branch Dept. of Transport, Ottawa.

RACE RESULTS
Restrictive Bill Underway

A bill designed to ban the dissemination of results for legal purposes is being drafted by the FCC in cooperation with the Justice Dept.

Authorities said it has not been decided whether the recommended legislation would affect broadcast operations directly or only through restrictions which might be imposed upon wire services. In any event, it was felt the wire services would be more directly concerned.

Benedict P. Cottone, FCC general counsel, said one of the speakers at the Attorney General’s Conference, has been named to the Conference Legislative Committee. The legislation currently being drafted is expected to be considered when the committee meets in Washington March 16-17.

In one of the most recent official rulings by the Commission itself on the operation of horse-race information via broadcast stations, FCC held that “the intent or design to assist the carrying on of illegal activities” would be tantamount to “aid and abet-ment.” That was the so-called “WWDC Washington decision” of January 1948.

The issuance of broadcast of race results was considered in pending cases, including one involving WTUX Wilmington, Del. [Broadcasting, Dec. 26, 1949.]

Page 76 * March 13, 1950

FCC Roundup (Continued from page 75)

License Fees (Continued from page 23)

to develop fully the facts in relation to the cost of these services and as to procedures that should be charged therefor.

Sen. McCellan emphasized, however, that it is not the intention of the committee to assess “any charge for ordinary or normal governmental services.” On the other hand, he said, costs “over and above services for which the government is essentially responsible (would be) charged to the recipients and beneficiaries thereof.”

A good many governmental departments will come under the committee’s search. Included are the National Bureau of Standards and the bureau of the Census. The latter’s activities which perform services for any “special interest” would come under Sen. McCollan’s category of services. The Bureau begins a nationwide count of radio and television sets on April 1 for the 1950 decennial census (see story page 38).

FCC Asked For Data

The FCC has been asked by the committee to provide data on service costs, present charges for any services rendered, the amount of services, how many stations would be affected should fees be recommended, and how large a fee would be applicable, the committee man said. Of particular importance to the committee are FCC inspection services dealing with transmitter devices and devices and receiving equipment.

The committee, at this point, the spokesman added, believes religious and educational-owned stations would be exempt from any such proposed fee.

Staff investigators have no time limit to their probing. However, it was indicated that complete information may be obtained from departments polled in about “several weeks.” It also was pointed out that an attempt to impose license fees on stations was made in 1932 when the House of Representatives introduced a bill embodying such proposals, subsequently killed in the Senate.

The committee said that when hearings are called “industry spokesmen” would be offered an opportunity to testify.

CKTB St. Catharines now operating with 1 kW directional antenna on 620 kW, having moved from 1550 kW.

FCC Grants

Coast Regions Set Aside

REGIONAL grants on 970 kc, recommended for Bakersfield and Modesto, Calif., last summer, were set aside by FCC last week upon grounds that new evidence shows they may interfere with one another [Broadcasting, Aug. 29, 1949]. Further hearing was ordered.

Marmat Radio Co., operator of KMAI (FM) Bakersfield, and Stanislaus “Troy” Broadcast Co., Modesto, are the applicants involved. In the initial decision of Hearing Examiner Leo Reinsick, Marmat received proposed grant for 1 kw night, 5 kw day, directional day and night on 970 kc, while Stanislaus received proposed grant on that channel with 1 kw fulltime, directional day and night. FCC had denied KMAI application.

Central Valley Broadcasters for 1 kw daytime on 980 kc at Merced, Calif.

The initial grants were set aside upon petition by FCC’s general counsel, who contended that new soil conductivity measurements in that area show “severe co-channel daytime interference would exist” if both stations were finally granted.

Number Show

(Continued from page 25)

security numbers enter broadcast programming? “Take Birmingham, for example,” Mr. Harris said.

“Glen V. Tingley, president of WKAQ, phoned the other day. He had 3,000 phone calls the first day. He phoned Jennings and the station couldn’t do business.”

“Then Mr. Tingley had an idea. The station went on the air with a request that listeners call their independent neighborhood chimney sweep if they wanted to check up on numbers that had been read on the air.”

Mr. Tingley told Broadcasting at the weekend that station salesmen had been unable to contact 100 stores that wanted in on the program, but never seen business roll in like this,” he added.

“We have signed 93 new accounts, approved and placed them on the books in the last two weeks. They are given brief, institutional copy, one sponsor before and one after each program.”

Three operators are assigned to telephone queries. They promise inquirers a list of “approved stores” and suggest the store owners be urged to contact the station, awarding the sponsor. Numbers are released in sets as after they are read on the air.” WKAQ’s charges $5 to $10 a spot, depending on size of sponsor’s store, Mr. Tingley.

Mr. Harris said that in Tulsa, employees of many firms insist the company auditors check the numbers off the air hourly and watch for violations. If a number-number is violated, one has started a number-listening service, charging $1 (see illustration page 25).

“The impact in one city is so terrific that a competing station manager has approached us to see if he could buy up the contract, Mr. Harris said. Officials of Social Security Administration in Washington said they had studied a similar idea once before at the request of large advertisers. They indicate they rather would not have such use made of account numbers since they try to impress holders on the need of keeping cards in safe place and don’t like the idea of people using cards around because of radio programs.

Chances Explained

It was explained that since cards are based on a nine-digit formula (999,999,999 possible numbers) an only 500,000 are out, the chance of someone representing another card is one in 11 if the full number is read. Then there is the danger of people getting several cards through s e p e c t i v e practice. Though SSA has a master index, check, deception is possible and phony names are used. The index has over a million Smiths, for example.

In Baltimore the Better Business Bureau looked into the plan after a Kentucky city had made an inquiry. The bureau indicated it was not interested since it could find no more cards around because of radio programs.

Stations listed by the AAZRA agency as present users of the plan are:

WIKY Evansville, Ind.; WBBM MCMG Chicago; WABC New York; KHRL, KCBX, WBKB KSHJ, KSFN, WORB Allentown, Pa.; WBSD Baltimore; WSNX Norfolk, Va.; WSHS Cleveland; WITI Milwaukee; WRRG Columbus, Ohio; WTKX Richmond, Va.; WSRX Bakersfield, Calif.; WCOS Jacksonville, Fla.; WFWB Providence, R. I.; WWDC Washington (modified version).

Leger Cities CJR

WJR Detroit was presented a distinguished service citation by Detroiter Frederick M. Alker Post 86, American Legion, last Wednesday at its monthly general meeting. The presentation was in recognition of Alker’s “outstanding support of patriots projects and Americanism programs.” The citation was accepted by William S. Kohn, WRJ’s director and secretaries. Alker also announced that he had passed a resolution recommending the station for national Legion award.

FCC Asked For Data

The FCC has been asked by the committee to provide data on service costs, present charges for any services rendered, the amount of services, how many stations would be affected should fees be recommended, and how large a fee would be applicable, the committee man said. Of particular importance to the committee are FCC inspection services dealing with transmitter devices and devices and receiving equipment.

The committee, at this point, the spokesman added, believes religious and educational-owned stations would be exempt from any such proposed fee.

Staff investigators have no time limit to their probing. However, it was indicated that complete information may be obtained from departments polled in about “several weeks.” It also was pointed out that an attempt to impose license fees on stations was made in 1932 when the House of Representatives introduced a bill embodying such proposals, subsequently killed in the Senate.

The committee said that when hearings are called “industry spokesmen” would be offered an opportunity to testify.

CKTB St. Catharines now operating with 1 kW directional antenna on 620 kW, having moved from 1550 kW.
Similarly, apparently Indiana, vision "^_^r" Chief; division lhere hd 11 'radio jons capability "trrier "Observers'spective ans broad cast anons personnel of the present counting Bureau's Broadcast Diision (headed by LeRoy Schaaf) of Economics and Statistics (headed by H. H. Goldin) were transferred "until further or- der" to the Office of the Chief Accountant.

Similarly, the new Office of Chief Accountant will take over non-common carrier functions and personnel of the present Engineering Bureau. These are positions and personnel of the old Office of the chief engineer and those of the Laboratory Division (headed by W. Chapin), Technical Research division (headed by Edward M. Novak), and Frequency Allocation and Treaty Division (headed by L. McIntosh).

Chief Engineer's Office

The present office of the chief engineer includes, in addition to acting Chief Willoughby, Virgil Simpson as assistant to the chief, Ralph J. Rolnick, member of the North American Regional Broadcasting Committee, at Braxton L. Peele, chief of the technical and drafting unit, and George K. Krebs, chief engineer and traffic chief.

Chief Engineer, Glen C. Krebs, will be charged with the charge of the common carrier division and slated for a key post in the new Common Carrier Bureau.

"Until further order" the posi-
tions and personnel of the following were transferred from the En-
engineering Bureau to the Office of Chief Engineer: Standard Broadcast-
Division (headed by James E. Err); Television Broadcast Di-
vision (Curtiss B. Plummer); FM Broadcast Division (Cyril M. Sum); Aviation Division (headed Edward L. White); Radio Op-
tator and Amateur Division (headed by George K. Rolnick); Radio and Safety Division (headed Mr. Krebs); Public Safety and Social Services Division (headed Glen E. Nielsen); and Field Operations and Training Division (headed by Mr. Turner).

Observers felt the functions and ties assigned to the Common Carrier Bureau may be taken to create the broad type of respon-
sibility and authority which will be anted the other bureaus in their respective fields when the reorganiza-
tion is completed.

The Common Carrier Bureau's functions will consist of "carrying out the common carrier regulatory program of the Commission under applicable statutes, international agreements, and rules and regulations, including the regulation of common carrier rates, services, and accounting, and the licensing of common carrier wire and radio services."

Its duties include "initiation of rules and regulations, except as otherwise specifically provided in the functions of the Offices of the Chief Accountant, Chief Engineer, General Counsel, and the Special Legal and Technical Group." The latter is a review unit composed of a half-dozen ex-members who serve as special assistants to the Commissioners, aside from each Commissioner's individual legal assistant.

Other Duties

Other duties of the bureau include participation on behalf of the Commission in international conferences; provision of assistance and recommendations to the Commission, and cooperation with representatives of state regulatory commissions and with the National Asn. of Railroad Utilities Commissioners in making cooperative studies of common carrier matters.

The bureau chief's functions will include, aside from administration of bureau affairs, the initiation of policy recommendations to the Commission, in their preparation and analysis of program and policy problems; coordination of bureau activities with those of the other bureaus; maintenance of liaison with state and local agencies on common carrier matters; representation of the Commission on Commission-wide and inter-departmental committees, dealing with members of the public and of the industries concerned.

Field offices of the Common Carrier Bureau will be located at New York City, Atlanta, St. Louis, San Francisco. A chief will be named for each.

The broad overall functions of the General Counsel, Chief Engineer, and Chief Accountant under the new organization will be delineated as the realignment progresses. With respect to common carrier matters their duties are similar in their respective fields. For the General Counsel, these

FRANK MCKINNEY

Mentioned as Army Secretary

ANOTHER broadcaster may become Secretary of the Army, it was reported last week, with mention of Frank E. McKinney, principal stockholder of WISH Indianapolis, as a prime contender for a place on the President's "little cabinet."

It named to the Army post, Mr. McKinney would succeed Gordon Gray, president and owner of WJSN Winston-Salem and WMIT (FM) Charlotte, N.C., who has resigned to accept the presidency of the University of Indiana (BROADCAST, Feb. 12). Secretary Gray plans to leave Washington in August or September.

Mr. McKinney's radio holding is one of many interests which inclu-
ded part ownership of the Pitts-
burgh Pirates baseball club (other owners are Bing Crosby and John Gilbreth of Columbus, Ohio), of which he is president, and also a presidency of an Indianapolis bank. A treasurer of the Democratic Party's organization in Indiana, Mr. McKinney had been beckoned to Washington previously to serve as treasurer of the Democratic National Committee, but he declined. He has served on a commission to study housing shortages at defense establishments, traveling to Alaska and reporting directly to Defense Secretary Louis Johnson.

According to news reports, Mr. McKinney conferred with Washing-
ton officials earlier this month, at which time the Army secretaryship offer reportedly was made.

WILLIAM ST. VENIR

Named KSTL President

WILLIAM E. WARE, former president of the now-defunct FM Association of KSTL St. Louis, it was reported last week. He succeeds Frank E. Pellegrin, who becomes vice presi-
dent. KSTL is assigned 1 kw daytime on 590 kc.

Mr. Ware formerly was general manager, vice president and part owner of KSWI and affiliated KFMX (FM) Council Bluffs, Iowa. It was reported he received option to purchase part interest in KSTL. Mr. Pellegrin, former director of broadcast advertising at NAB, is vice president in charge of sales for Transit Radio Inc., to which he de-
votes considerable time.

KOH Increases Power

KOH Reno, Nev., outlet of the Mc-
Clatchy Broadcasting Co., has

increase in daytime power from 1 kw to 5 kw tomorrow (March 14). Nighttime power of 1 kw will remain unchanged, the station reported in time to clear the mid-winter cold air in 1928 with 100 kw. Power was increased to 500 kw when it became a McClatchy station in 1931, and to 1 kw in 1946. KOH frequency is 650 kc.

At Deadline...

MEXICO CITY SESSION ON NARBA PROPOSED

CONFERENCE in Mexico City between U. S. and Mexico to work out bi-lateral pact comparable to U. S. - Cuban treaty, in final stages at Havana last week (story page 27), under consideration at weekend.

Both Cuban and Mexican pacts would be intended for inclusion in new overall NARBA. Suggestions made that all NARBA nations be invited to Mexico City instead of U. S., as originally planned, in effort to draw up over-all treaty. It's speculative whether special delegation to Mexico City would be same as Havana delegation, headed by FCC Commissioner Edward Hyde, or some new group not identified with Havana sessions.

POLICY BOARD STUDIES FREQUENCY PROBLEMS

INITIAL PROBLEMS of organization canvassed Friday by President Truman's Commission on Radio, Inc.'s color TV system was reported Friday following private showing for FCC members and staff executives. Viewers said quality of pictures—particularly color reproduction—was much better than in two earlier demonstrations, for others. Whole frequency situation and board objectives were reviewed with emphasis on international communication problems.

IMPROVEMENT CLAIMED IN CTI COLOR SYSTEM

SUBSTANTIAL improvement in operations of Color Television, Inc.'s color TV system was reported Friday following private showing for FCC members and staff executives. Viewers said quality of pictures—particularly color reproduction—was much better than in two earlier demonstrations, for others. Whole frequency situation and board objectives were reviewed with emphasis on international communication problems.

WHOL REORGANIZATION OPPOSED BY EASTON

NEW REORGANIZATION proposed by WHOL Allentown, Pa., was opposed Friday by Easton Pub. Co., operator WEEX (FM) Easton, as being contrary to FCC's rules and unfair in further comparative hearing ordered by Commission on original 1947 grant to WHOL [BROADCASTING, Feb. 27]. Easton Pub. Co., loser in competition for 250 w assignment on 1230 ke, petitioned FCC to dismiss WHOL's transfer bid, filed in early Feb.,

FURTHER hearing was ordered by FCC upon request of both applicants in view of ownership changes for all seven licenses. In petition explaining WHOL ownership change to improve financial condition was approved by FCC while appeal was pending. New transfer of WHOL to group headed by Victor C. Diehm, it was said, also failed and to group's first hearing will be to unconditionally allow substitution of new applicant and improve competitive position of WHOL.

CHICAGO URGES UNFREEZING OF TV GRANTS TO CITY

ILLINOIS delegation in Congress and FCC notified by Chicago city officials that City Council has called for granting of full seven-station TV quota to which it is entitled under FCC's 1950 Action based on resolution first introduced by Alderman Pacini in January [CLOSED CIRCUIT, Jan. 23].

Council complained that city only has been granted four licenses though it has applications for all seven licenses permitted. FCC freeze would grievously injure Chicago industries and residents and impair city's ability to compete against New York and Los Angeles as TV center, resolution states.

INDUSTRY TV GROUP TO MEET WITH ASCAP

NEGOTIATIONS for per program licenses covering use of ASCAP music on television to be resumed March 15 when committee of TV broadcasters will meet with ASCAP group. This will be first meeting since Christmas as ASCAP officials have been fully occupied with working out details of consent decree to provide clearance at source on motion picture music, with license fees paid by picture producers rather than theatres.

Decree, expected to be filed in New York Federal Circuit this week, will modify previous consent decree which followed radio's revolt against ASCAP's demands and resulted in reorganization of society.

NAMED ERWIN WASEY V-P

THOMAS ERWIN named vice president and planning board director of Erwin, Wasey & Co.'s Chicago office.

DIAZ PROMOTED

RAY DIAZ, former traffic manager for ABC, promoted to Stations Dept. Friday, and Reginald Wilcock, former supervisor of New York transmissions, elected to Mr. Diaz's former job. Mr. Diaz will be in charge of New York, New England and Ohio territories.

session in New York this week of President Miller's advisory committee (Clair McCollough, WQAL Lancaster, chairman; Howard Langer, New York; Harold F. Perry, WRGB Albany; Robert D. Sweezy, WDSU-TV New Orleans; Cal Smith, KFAC Los Angeles). William B. Ryan, KFI Los Angeles, who is seen as foremost prospect, will be in New York for hearing of NAB's new advisory committee, and presumably will be interviewed as to availability.

WHILE NO ANNOUNCEMENT was forth coming from Chicago meeting of committee on March 4-5, it's understood there was substantial support for Mr. Ryan—if he's available. It wasn't unanimous, however, with indications of 4-1 split. President Miller understood to regard Mr. Ryan as acceptable as his second in command for $25,000 post.

ACTION OF FCC in WBAL Baltimore renewal case wherein Pearson-Allen seek to write 50,000-w facilities from Hearst-owned outlet may take unusual Commission turn, split 3-2 (Coombs, McFarland and Wilson for Pearson-Allen; McFarland and Hyde for WBAL renewal). Two separate opinions—one written after to if grant WBAL renewal, and other to grant Pearson-Allen—are being prepared. Decision, possibly, will await consent decree which will follow prior to "final" decision. Com'r Compton didn't participate because of Pearson vendetta against his confirmation two years ago, in which Mr. Pearson did ignominious prat-fall when Senate unanimously confirmed nomination.

O. L. Ted Barker of Taylor Co. has resigned effective April 1 as executive manager of KGN, Amarillo and KPYO Lubbock, Tex., but Taylor Co. will continue to represent stations in national spot. He will devote energies to Taylor company operations and to his owned-station KWTO (Katy, Tex.).

KTIV (TV) Dallas, acquired by Dallas News from Potter Television Co. for $575,000, approved last week by FCC, will become WFAA TV about May 1. Plan is to operate station with present call for 60 days, during which two organizations will be integrated and TV programming revamped, and then switch to new call. Overall operations under supervision of Martin B. Campbell, WFPA general manager.

NEW APPROACH indicated in renewal of license proceedings involving G. A. Richard stations (WJR Detroit, WGR Cleveland and KMPC Los Angeles) scheduled to begin today in Los Angeles. American Jewish Congress an other agencies which figured in pre-hearing interchange have elected to sit on sideline as observers, rather than file appearances, if proceedings warrant. It's assumed that hearings will be brief and no course considered.

ANOTHER "radio day" at White House in Wednesday session, President Truman had interviews with FCC Chairman Wayne Coy, CBS President Frank Stanton and House Interstate Commerce Committee Chairman Robert Crosser. Following court approval, when was not quoted, but was logically surmised that overall radio-TV pictures will be discussed, since Chief Executive has evidence in subjects of late.

CBS POST TO OMMERLE

HARRY G. OMMERLE, former package producer, appointed manager of program sales for CBS, effective March 20.
THANKS... TO The Billboard... and its distinguished panel of judges for the 12th Annual Radio and Television Promotion Competition.

50,000-Watt non-network stations

Crosley Broadcasting Corporation
You can't catch a mermaid with grubworms. And you can't land your full share of pretty profits in the booming Central South market unless WSM carries your advertising.

With radio stations everywhere WSM remains unique in its ability to reach—to sell an area. To do this the station operates on a 50,000 watt 1-A Clear Channel. But just as important as the interference free signal is the fact that for 24 years WSM has programmed to please an audience of highly specialized radio tastes. This takes smart local production with a staff of 200 entertainers that include some of America's biggest name stars.

Successful advertisers know—you land the Central South's most desirable sales-fish by using WSM.
Twelve-year-old Judith Anne Prelipp, of Seymour, Wisconsin, won a radio for herself, another for her classroom, and a trip to Chicago to be guest of honor on the WLS National Barn Dance.

49 other boys and girls, from big Chicago to the smallest rural community, from public, parochial and private schools in the Midwest, won radio sets for themselves and companion sets for their classrooms.

But much more important . . . 5,271 boys and girls who submitted essays to the WLS "School Time" contest, gave extra thought to what it means to be an American citizen . . . to our American way of life.

WLS "School Time," only daily classroom series broadcast by a commercial station in the Midwest, takes pride in this vigorous response to its continuing efforts to help build better citizens—true Americans—for tomorrow.

Plus 25% Discount...

If all or part of either the "Box 13" or "Damon Runyon Theatre" series has been used in your market, you will receive a big 25% discount on these programs used.

Network Calibre Programming to Fit Local Sponsors' Pocketbooks

Box 13—Successfully used on some 400 U.S. and Canadian stations, with ratings high as 19.2. Being rerun in some 20 markets including New York, Los Angeles, San Francisco, Denver, etc.

Damon Runyon—Features John Brown ("Digger O'Dell") of "Life of Riley" and "Al" of "My Friend Irma"). Already being used in some 100 markets in a year after its release. After only the 8th program and with no promotion, received a 12.1 rating in Los Angeles (44.2% of the audience).

The Unexpected—Each program a complete episode. Features such stars as Marsha Hunt, Lyle Talbot, Jack Holt, Jackie Cooper, Binnie Barnes, Barry Sullivan, etc.

Behind the Scenes—Featuring the voice of Knox Manning, one of radio's greatest personalities. Manning narrated the best documentary film made in 1945. It won an Oscar. It was his voice you heard in the Academy Award Winner, "A Boy and His Dog," and "Facing Your Danger." Aside from such outstanding radio series as "Sherlock Holmes," and "Hollywood Preview," Knox Manning has had more than 500 movie credits.

IS BOB HOPE going CBS? Transaction, similar to his pal Bing Crosby’s deal, on capital gains basis, has been offered by CBS. Conversations followed word of plan of Lever Bros. to cancel out Hope on his NBC show. Hitch might be TV rights, since there’s question whether Hope contract with Paramount permits kinescoping. Crosby has full TV rights.

WHETHER MUTUAL will tie-up with M-G-M may be settled within few weeks. After months of conversation, it’s now reliably reported that mid-April deadline has been set on acceptance of proposition to M-G-M board which entails Mutual shareholders receiving about $1,600,000, and with commitment that M-G-M will operate network for minimum of five years.

THERE WILL be no final determination of new general manager of NAB until full board of directors gets together in pre-convention huddle in Chicago about April 16. Board advisory committee met in New York last week and decided to explore matter further. Five-man committee conferred with William B. Ryan, general manager of KFI Los Angeles, regarded as formidable prospect for $25,000 post, but its function is simply recommendatory to President Miller and full board. Committee hopes to bring in unanimous choice.

IN LAST-DITCH effort to quell Cuban radio uprising against tentatively approved U. S.-Cuban NARBA treaty (story page 25), U. S. Ambassador Robert Butler may confer with Cuban President in Tokyo this week to urge agreement. Same high-level approach was made in attempt to unseat U. S.-Cuban differences at earlier Montreal sessions.

FRED ALLEN reportedly considering launching television show on NBC-TV from Chicago, probably next fall if plan materializes. Comedian understood to believe Chicago is more sympathetic to artistic enterprises than commercial hotbed of New York.

ALL-RADIO PRESENTATION COMMITTEE, at meeting this week, will consider offer of Schwerin Research Corp. to conduct audience reaction tests on “Lightning That Talks” preliminary to preparation of 20-minute version of promotion film for showing to general public.

WHO WILL HEAD FCC’s new Broadcast Bureau—key spot in regulation of radio and TV under realignment plan? Harry Plichtin, senior Assistant General Counsel, is avowed candidate and believed to have support of Chairman Wayne Coy. But another name mentioned is John A. Willoughby, who relinquishes acting chief engineer’s post effective April 3 when Curtis Plummer, present assistant chief in charge of TV, assumes newly created chief (Continued on page 90)

Upcoming

March 27-30: Canadian Assn. of Broadcasters annual meeting, Brock Hotel, Niagara Falls, Ont.
March 29-April 1: ANA Convention, Homestead, Hot Springs, Va.
April 12-19: NAB Convention Week, Stevens Hotel, Chicago.
(Other Upcomings on page 89)

Bulletins

GENERAL FOODS lining up spot series to start April 1 in 20 markets for Baker’s 4-in-1 cocoa and East and West Coast spots for Yuban coffee to start April 3. Agency is Benton & Bowles, New York.

RADIO SET PRODUCTION MAINTAINS FAST PACE

OUTPUT of radio receivers in February (AM, FM, FM and auto sets) totaled 750,393 units, maintaining unexpectedly high level of last quarter of 1949, according to Radio Mfrs. Assn., representing about 85% of industry total. Total output of all types of receivers was 1,117,485 units.

TV production totaled 367,065 sets compared to 335,588 in January, up 9%. Weekly average output was 91,766 TV receivers. Of month’s TV sets, 42,940 were equipped to tune FM band. Production of FM and FM-AM sets totaled 66,455, bringing total number of February sets with FM tuners to 129,395.

RMA reported that 3,029,000 TV sets were produced by the entire industry in 1949 along with 7,550,000 home-type radios other than those in TV sets, and 3,964,000 auto radios.

SPEED RICHARDS HEARINGS

WEKEND and night sessions slated in FCC’s Los Angeles hearing on news-slanting charges against G. A. (Dick) Richards, to permit Examiner J. Fred Johnson Jr. to return to Washington by April 3, when he assumes duties as Chief Hearing Examiner and undertakes new hearing assignment. Meanwhile, in Friday’s session Clete Roberts, former public affairs director of Mr. Richards’ KMPC Los Angeles, complied with subpoena requiring him to produce papers which Richards’ counsel claimed were being withheld. Originally he had been expected to produce these at today’s (Monday) session (see early story page 28).

Business Briefly

P & G ACTIVITY • Procter & Gamble Co., Cincinnati (Dreft), planning early morning tests aimed at farm audiences in Des Moines and other mid-western markets. Company (for Oxydol) also mailing TV version of “Beaulah” radio series this fall on ABC. Agency, Dancer-Fitzgerald-Sample, New York.

JOE DiMAGGIO TO NBC • Joe DiMaggio Show moves April 15 from Sat., 11:30-12 noon on CBS to Sat., 7:30-8 p.m. on NBC. M&M Ltd., Newark (candy), is current sponsor but change in sponsors expected with move to NBC.

HEIDT TV SHOW • General Motors (Buick Div.) through Kuder Agency, and Phillip Morris (cigarettes) through Biow Co., New York, considering TV version of Horace Heidt show. Philip Morris sponsors radio series or CBS, Sunday, 9:30-10 p.m.

BERLE TAKES TOP RANK IN NEW YORK HOOPERATINGS

TOP THREE programs in New York Hooper ratings, based on all homes, for February were television. Highest ranking radio show was fourth in list of 15. Nine TV show and six radio shows composed first 15.

Leaders were Milton Berle (TV) 25.5, Arthur Godfrey’s Talent Scouts (TV) 17.6, Toast of the Town (TV) 16.2, Arthur Godfrey’s Talent Scouts (radio) 14.5. Among “radio only” homes leading programs were Arthur Godfrey Talent Scouts 21.3, Kate Smith 21.2, Bing Crosby 19.3. Among TV homes, leading put programs were Milton Berle 68.3, Arthur Godfrey’s Talent Scouts 45.3, Toast of the Town 42.4.

ELLIS A. GIMBEL

ELLIS A. GIMBEL, 84, chairman of the board Pennsylvania Broadcasting Co. (licensee of WIP Philadelphia), died late Thursday in Philadelphia following four-day illness. M. Gimbel, uncle of Benedict Gimbel Jr., W. president and general manager, also was chairman of board of Gimbel Bros., department store chain founded by his father, as well a philanthropist. Among survivors present his death were Ellis A. Gimbel Jr., son; Mrs. Frida Gimbel, daughter, and Mrs. Richard Gimbel, daughter-in-law.

JOIN COMPTON AGENCY

DONALD S. FROST, formerly with Bristol Myers Co. and Robert L. Nourse Jr., former with W. Earl Bothwell Inc., have joined Compton Adv. Mr. Frost will headquarter in New York office of agency as account executive; t. Dreene shampoo and Mr. Nourse will be based at Hollywood office as account executive.

LANTZ TO BRISTOL-MYERS

WALTER P. LANTZ, formerly with Lambe Pharmacal Co., New York, has joined Bristol Myers Co. as advertising manager.
WDEL-TV advertisers are certain of three important things. First, they are assured the clearest picture for their products. Second, they reach the entire Wilmington, Delaware market—the chemical capital of the world. Third, their advertising is seen and heard by an established, enthusiastic audience showing a consistent and phenomenal growth. NBC network shows and versatile local programming make WDEL-TV a necessity in this market. Write.

WDEL-TV is an advertising must in the large, prosperous Lancaster, Pennsylvania market. It is the first and only television station in the area, no other TV station reaches this important section. The number of its viewers is showing an amazing growth. Audience loyalty and appreciation are assured through skillful local programming and the top shows of all four television networks—NBC, CBS, ABC and DuMont.

No matter what your product—if you want to sell this extensive Pennsylvania area you need WGAL-TV. Write.

THE YANKEE NETWORK
TEXAS QUALITY NETWORK
WILLIAM KOSTKA, formerly with United States Brewers Foundation, New York and NBC, assumes management of W. W. MacGruder Inc., Denver agency, as executive vice president and general manager. Firm name changed to MacGruder, Bakewell & Kostka Inc. ROBERT D. MACGRUDER is president of new firm and GEORGE BAKEWELL Jr. is secretary-treasurer. Mr. Kostka will continue his public relations firm, William Kostka & Assoc.

HERBERT L. STEINER, who joined Ben Sackheim Inc., New York, on Jan. 1, elected a vice president and director of company.

JOHN WILSON, formerly copy supervisor with Kenyon & Eckhardt, New York, joins Dancer-Fitzgerald-Sample Inc., New York, in its copy department.

FARQUHAR & Bair Adv. formed by JOHN T. FARQUHAR and EDWARD J. BAIR Jr. Offices in First National Bank Bldg., Utica, N. Y. Mr. Farquhar has been associated with agencies for past 12 years as radio and television director. Mr. Bair was art director at Devereux & Co., Utica. TED R. DARVOE joins firm as account executive and merchandising director. Mrs. VIRGINIA BAIR is space buyer and production manager.

JACK PETTERSON, formerly radio producer at CBS Chicago and more recently with Herbert H. Horn Inc., Los Angeles, joins Barns Chase Co., San Diego, as radio-television director.

E. JOHNNY GRAFF, program director of WBKB (TV) Chicago, named vice president in charge of radio and television for Kaufman & Assoc., Chicago agency.

FRANK BRUGUIERE, formerly with Avery & Bruguiere Adv., San Francisco, joins Blow Co., same city.

GILBERT McCLELLAND, former director of MBS Midwest operations, joins radio department of Leo Burnett Agency, Chicago.

RUTH JAROS CERRONE, formerly with Pedlar & Ryan, New York, joins creative staff of Sullivan, Stauffer, Colwell & Bayles, New York.

STUART B. SMITH, formerly manager of Canadian Adv. Agency Ltd., Toronto, joins James Lovick & Co., Toronto, as director and manager of Toronto office. He formerly was with Young & Rubicam, Toronto.

BUD HOLTZMAN joins Gnome Adv. Inc., St. Louis, as head of television department. He formerly wrote radio scripts for WENR, WGN and WCFL in Chicago, KMOX St. Louis and Playmakers Production Co.

W. H. LONG Co., York, Pa., advertising agency, elected to National Advertisin Agency Network.

YOUNG & RUBICAM, New York, commended by Greater New York Chapter of the Red Cross for "outstanding cooperation" for donations to volunteer blood program.

BILL JONG, formerly of Art Center, Los Angeles, joins Hal Stebbins Inc. in that city, as production manager.

MARION E. WELBORN, for past two years partner in Associated Adv., in Angeles, joins Walter McCready Inc., as business manager for three agency.

This summer be sure your sales grow

Last Summer, sixty national spot and local advertisers (25% more than the year before) used WCCO all Summer long. Just as they did all year round. Many for the tenth straight year.

They have found that Summer campaigns on WCCO make their sales grow. Because during June, July and August their customers in WCCO territory spend more than $686,000,000 on all kinds of retail products.

Better still, WCCO produces big Summer profits at a low Summer cost-per-thousand. In fact, since 1946, WCCO’s average daytime Summer Hooper has jumped up 38.3%. And the cost-per-thousand has dropped 29.8%!

To be sure your sales grow all year round, join WCCO’s sixty year-round sponsors. Just ask us or Radio Sales about a hot sales-personality (like Bob DeHaven, for one). You’ll find WCCO sends sales UP with the temperature!

Offers Radio File

EDITOR, BROADCASTING:

In the “early days” of broadcasting, I started out to maintain a comprehensive file on all matters pertaining to the development of commercial radio, from specimen rate cards to promotion pieces of all kinds, including booklets, surveys, etc., dating back to 1926.

Someplace around 1940, I decided I would never complete my “lifework” and discontinued collecting samples.

For some earnest bibliographer, collector, or some school which would like to delve into early radio workings, this collection is available at no charge. I have the material stored at my home, and will be glad to hear from anyone interested in acquiring it.

Alex Sherwood
Standard Radio Transcription Services Inc.

Why No A&P Time?

EDITOR, BROADCASTING:

... Several of the radio boys in this area were talking last week about the “A & P Case,” so highly publicized and advertised in the newspapers. ... I haven’t heard any radio time paid for by A&P nor have I had the slightest feeling for such advertising on this station. ... Our circulation is about seven times greater than that of our next competitor (a five a week paper) ... I am just wondering, Why? ... William Shepherd
Prom.-Com. Mgr.
WWGA Tifton, Ga.

* * *

‘Hear,’ Not ‘Read’

EDITOR, BROADCASTING:

... I heard a radio announcer on an early morning program say:

“Did you READ about the Leopard in Oklahoma City?” ... That after radio broke the story on all newscasts came limping in with headlines the next morning —after dailies carried front-page stories about the continuing hunt Tuesday morning, while radio listeners that same morning were hearing newscasters tell of the successful drugging and recapture of the leopard. ...

... This radio announcer should be sent by the program director to head of the class and forced to write “READ” on the blackboard 100 times, draw 100 lines through those same unspeakable words, and then write “HEAR ON THE NEWS” 100 times. It would do him good and it would do radio good.

Norman Lasseter
Program Director
WFGN Gaffney, S. C.

O’Butcher of KIST

SURE and the “wearing of the green” was worn all over America on St. Patrick’s Day—but nowhere more authentically than at KIST Santa Barbara, Calif. No one to let an observance down—on Christmas Day mistletoe was distributed so that everyone could be KIST—Harry C. Butcher, president of KIST, decided to do right by the March 17th observance. Through the Horace Lohnes law firm in Washington, Mr. Butcher got in touch with the Irish embassy and asked them for the loan of a flag of the Irish Free State. On St. Patrick’s Day the mast at KIST displayed an American flag, California flag, and the Irish banner.
a truly portable Field-Intensity Meter

- Weighing only 12½ pounds—including batteries, here's a small, compact field-intensity meter of high accuracy that carries around like a portable radio . . . and operates almost as simply. You tune in a signal, adjust a built-in calibrating oscillator and receiver gain . . . and read signal intensity directly in microvolts-per-meter. No charts, curves, or correction factors to worry about. No computations to make.

   Designed with a wide sensitivity range of 10 microvolts/meter to 10 volts/meter, Type WX-2C enables you to make field-strength readings anywhere—from the very shadow of your transmitter, to the toughest location "down-in-the noise." Plenty of front-end selectivity, too. Loop antenna Q is approximately 100 at one megacycle; An r-f amplifier stage provides a very high order of image rejection.

   Power supply; Ordinary flashlight dry cells for the quick-heating tube filaments—and a 67-volt battery of the size used in camera-type radios for the B supply.

   A lot easier now to get the facts on your coverage, service area, and antenna efficiency . . . with RCA's new portable WX-2C. Ask your RCA Broadcast Sales Engineer for the facts. Or write Department 19-CC, RCA Engineering Products, Camden, New Jersey.
**Feature of the Week**

PROMOTIONAL play by KLER Rochester, Minn., on the hidden coin trick brought thousands of coin seekers milling about downtown streets in search for one of the payoff digits, according to General Manager Walt Bruzek.

The coin promotion, part of the “Golden Opportunity” campaign by KLER, utilized 16 teams of “coin droppers” who distributed 368 pieces between 7 and 8 p.m. on Feb. 29. Eighteen Rochester merchants cooperated in the drive which emphasized opportunities in America and acquainted people with call letters, frequency and program offerings of the station.

At deadline for the return of coins, 362 coins had been turned in, KLER, an ABC outlet, reports. Grand prize, consisting of a two-week vacation in Hawaii, was awarded to Mrs. W. C. Robinson, Rochester housewife, who brought in the first large coin. Other prizes ranged in value from electric blankets and toasters down to Zippo lighters. Contest was preceded by newspaper ads, station spots and merchant participation.

**On All Accounts**

WHEN he was in elementary school, Milton Joseph Stephan's favorite subject was composition. This subject was to lead him into radio and television and eventually to his present position as director of radio and television for Allen & Reynolds Advertising Agency in Omaha.

Today, the radio and television department of Allen & Reynolds, under Milt's direction, is producing, writing and creating shows and announcements for over 50 clients.

Milt was born in Omaha on Aug. 11, 1924. After discovering his bent for composition in his early school years, he augmented this by packing in more than the required amount of subjects for a college preparatory course, with journalism, advertising or law in mind.

When he left high school, however, Milt decided upon practical experience over attending a university. While vacationing in California, he decided to seek employment there. For better than a year, he was associated with a patent medicine firm and watched closely the methods used in its marketing and advertising.

His entry into the advertising world was interrupted by the war. Milt had three years' service in the Navy, two of which were continuous overseas duty.

Still planning to make radio advertising his career, the ex-sailor made his official entry into radio via an Omaha station and soon he came director of continuity and commercial production at Omaha's Mutual outlet, KBON. Although television had not yet reached Omaha, Milt put in every available moment preparing for the advent of the medium.

He joined A & R July 12, 1948. Milt considers every campaign his favorite one — while he's working on it. Looking back on several campaigns, however, he especially likes to recall the Peter Pa Bread “Strength and Energy” series or the transcribed spot with Jim Ameche as a narrator.

Lately he has written and produced transcribed spots designed to increase the sales of TV sets in Omaha. This series of spots is the backbone of an industry-wide campaign sponsored by the Nebraska-Iowa Electric Council, and designed to introduce television sets into 8,000 more homes within a 30-day period.

From the family standpoint, Milt has purchased a new home and is engaged to be married in May. He is a Master Mason, Nebraska BPOE Lodge #1, A.F. & A.M. He likes to hunt and fish and, in addition, hopes some day soon to start building and collecting scale model replicas of automobiles.
Daytime listeners prefer WGAR. Hooperatings (Dec. '49-Jan. '50) show that from 8 A.M. to 7 P.M. weekdays, WGAR has the first five top rated shows... and 12 of the top 15! WGAR programs are first in 28 out of the 44 quarter-hour periods!

Popularity goes hand in hand with promotion. WGAR paid for linage on station and program promotion appears regularly throughout the year in 15 leading northern Ohio newspapers. One copy of each of these newspapers with a WGAR ad, stacked together, would tower 18 feet! WGAR believes in advertising!

in Northern Ohio... WGAR the SPOT for SPOT RADIO

Don Hyde with "This Is Cleveland" is one example of a WGAR program available for sponsorship. "This Is Cleveland" features Clevelanders in the news and life in the city from an unusual angle. It includes such on-the-spot tape-recorded events as a jury-fix and the confessions of a dope addict.

Right: Mr. William E. Hunger, President and Treasurer of the Union Oil Company of Ohio, member of Cleveland Petroleum Club, Ohio Petroleum Marketers Association, Cleveland Rotary Club and Cleveland Chamber of Commerce. Left: Mr. L. L. Altman, Vice President and Secretary of the Union Oil Company, member of Cleveland Petroleum Club, Ohio Petroleum Marketers Association and National Paint, Lacquer and Varnish Association. Union Oil is a WGAR advertiser.

RADIO...America's Greatest Advertising Medium...WGAR...CBS...50,000 watts...Represented Nationally by Edward Petry & Company
Well, not intentionally. But Broadcasting-Telecasting will tell anyone who wants to know exactly how hundreds of national spot and network advertisers used radio and television in 1949. You'll find it all in the APRIL 17th ISSUE . . . which incidentally is the same issue covering the NAB convention.

from A to Z

Here you'll find the stuff that planning board sessions and leading time buyers consult all through the year . . . Broadcasting's copyrighted product analysis of 29 basic groups, from automotive to cigarettes to toiletries. On April 17th we'll tell . . .

* national spot expenditures in 1949 by 29 product groups
* network gross expenditures in 1949 by product groups
* who spent the most advertising dollars and where in 1949
* how competing products split their advertising budgets between radio and television
* active spot accounts in 1949
* individual product analysis showing leading network and spot advertisers

plus - - - advertisers analysis, the forecast by key people of business prospects for broadcast advertising during 1950.

Yes, sir, right here between the covers of Broadcasting you'll find this wealth of information. It's a really complete analysis of network and spot advertising by every major classification of industry, company and product divided according to radio and television.
WHAT EVERY TIME BUYER, EVERY RADIO DIRECTOR WILL WANT
... this treasure house of data with year 'round worth ... an exclusive source for fundamental facts on broadcast advertising.

WHAT EVERY STATION SHOULD DO (now)
In a word, advertise.
And we mean in the April 17th NAB Convention issue of BROADCASTING. Think what extra attention such an information-packed issue will command ... what extra circulation you'll get. Over 17,500 total circulation.
This is no one-shot venture, but something invaluable—where the very people (advertisers and their agencies) you want to reach can see your station's story for the rest of 1950.

WILL THEY SEE YOU REPRESENTED THERE?

DEADLINE IS APRIL 7th.
... so don't be an April 18th mourner who wishes he'd done what you can still do. Get in BROADCASTING's April 17th NAB issue for sure, right now. Regular rates prevail. On a one-time basis that's - - -

KCOM Storm Service

REGULAR commercial schedule was dropped by KCOM Sioux City, Iowa, from 2:30 p.m. to midnight when the March 7 blizzard swirled through the Midwest. During that time period, the station accepted 1,500 telephone calls from people stranded on farms and in cities within a 60 mile radius of Sioux City. Requests included aid for a youngster sick with polio, information for a separated family, night quarters for two homeless horses and messages of whereabouts for scores of isolated family members.

Clearing Service

WHEN an ice storm recently hit Michigan, Indiana, and Ohio and left rural communities without communication or electric power for periods up to 36 hours, WTVB Coldwater, Mich. served as a clearing house for messages and special announcements. Though crippled itself by repeated power failures, WTVB remained on the air until normal communication was re-established. WELL-AM-FM Battle Creek serviced WTVB with AP reports, placing copy on Coldwater-bound buses until service was restored. AP's Detroit bureau also helped, anticipating WTVB's news needs.

WNAX Feeds News

SOUTH DAKOTA stations and newspapers, isolated by a severe spring blizzard that tore down service wires, drew valuable news assistance fortuitously from WNAX Yankton-Sioux City. Reports were fed on regular WNAX newscasts at the request of Harl Anderson, chief of AP's state bureau in Sioux Falls. Station newsmen cued their broadcasts with these remarks: "Attention, American News, Aberdeen: Daily Planes!..." Huron, and all newspapers and radio stations cut off from news sources by the storm emergency. WNAX grants permission to copy or record this material for news purposes. WNAX is happy to cooperate with other agencies in the dissemination of the news. Please copy."

WNJMC Aids Indians

UNUSUALLY heavy snows in Northern Wisconsin laid the groundwork last month for some spirited action by WJMC Rice Lake, Wis. When word reached the station that some snow-bound Chippewa Indians were sick and starving, Manager Greg Rouleau and Harry Wills, WJMC program director, took a tape recorder to the reservation and interviewed Father Paulinus, a Franciscan friar stationed there. On their return they set up food depots and aired the Paulinus interview, adding their own plea for aid. Within four days, during which WJMC broadcast an "honor roll" of donors, the supplies were on their way to the post.

Kent Trains Moving

IN NORTH Dakota, where a similar spring blizzard played havoc with all communications—telephone service, telegraph, etc.—KFYR Bismarck used its auxiliary power system for two days while other stations remained off the air for lack of power. For second time in 20 years, station reports, KFYR furnished its facilities to the Northern Pacific Railway (for dispatching). Both KFYR and KSJB Jamestown, with dispatchers in their studios, monitored each other's signals and had passenger and freight trains moving on schedule—after notifying FCC of the emergency.

Air's Distress Messages

KVOX Moorhead, Minn., reports played a leading public service role March 7 and 8 when a sudden winter blizzard struck the Moorhead and Fargo, N. D., area. KVOX reports that two stations in Fargo were silenced when power lines were toppled by strong winds, with many persons marooned in Fargo and Moorhead because of the storm. KVOX broadcast hundreds of distress messages informing listeners that their relatives and friends were safe. KVOX's news and special events staff also worked overtime gathering news of the storm's progress when the station was deprived of teletype news service.

Get all the facts about this remarkable station, today! Write to us or ask Free & Peters!
IT'S EASY, IF YOU KNOW HOW!

YOU don't have to jump to any hazardous conclusions to determine what station is really outstanding in the Shreveport area. KWKH's superior experience and programming Know-How produce statistical proof of leadership!

KWKH's Clear-Channel, CBS signal comes in strong and clear in hundreds of booming Mid-South counties. . . . New BMB and mail-pull figures prove that KWKH is an outstanding favorite throughout these rural areas!

Shreveport Hooperatings (Dec. '49-Jan. '50) tell the same story of KWKH's urban superiority:

KWKH got a 70.9% greater Share of Audience than Second Ranking Station, for Total Rated Periods!

KWKH was first, weekday mornings, by an overwhelming 118.9%!

Let us send you all the facts—today!

50,000 Watts • CBS •

The Branham Company Representatives
Henry Clay, General Manager
**FORMATION of Broadcast Audience Measurement Inc., an industry-wide successor to the soon-to-be-dissolved Broadcast Measurement Bureau, was begun in New York last week.**

The new corporation, first proposed at the NAB board meeting a month ago in Arizona [Broadcasting, Feb. 13], would acquire the assets and liabilities of BMB and perhaps eventually set in motion and conduct further audience measurement.

The decision to attempt the organization of the new corporation was made at a meeting of committees from NAB, the American Assn. of Advertising Agencies and the Assn. of National Advertisers. A statement released after the meeting said incorporators of the new research organization would be chosen “from among those agencies, advertisers and broadcasters who have expressed their desire to be associated with the inauguration of the new corporation.”

It was learned that Don Petty, NAB general counsel, was preparing incorporation papers and hoped to acquire the signatures of 15 incorporators.

**Present Proposal**

At this stage of the plan, it is proposed that nine broadcasters and six agency and advertisers’ representatives become incorporators. The numerical representation on the board of directors of BAM would be also distributed in the same ratio.

The identities of those proposed as incorporators were not known.

Earlier it had been reported that among broadcasters who had volunteered to act in that capacity were J. Harold Ryan, Fort Industry Co., BMB chairman and former NAB president; Roger Clipp, WPIL, Philadelphia; Robert T. Mason, WMRN, Marion, Ohio; Frank King, WMJR, Jacksonville, Fla., and Clair McCollough, Steinman stations.

The AAAA will not participate officially in the incorporation of BAM, it was learned. Agency representatives who sign as incorporators will do so independently of the association. A similar position will be taken by the ANA, it was believed.

The action of the three committees last week was described as preliminary. The intention was to start the formation of the new corporation, leaving details of its structure and functions for later discussion.

According to the present plans, Broadcast Audience Measurement Inc. would be financed by stock issues. Broadcasters would pay the bill, with agencies and advertisers refraining from financial participation.

It was reported that the committees hoped that Mr. Petty would complete the job of incorporation within the next 2 weeks—in advance of the NAB convention where the proposal would certainly be a subject of discussion.

NAB board approval of the launching of a successor organization to BMB, which will expire June 30, the end of its fiscal year, unless its life is unexpectedly prolonged by the NAB board, was given at the Chandler, Ariz., meeting a month ago.

The plan approved by the NAB board envisioned a research corporation of $1 million authorized capital, financed by an issue of $10 per common stock.

As outlined by the decision of the NAB, ANA and AAAA committees last week, the organization would seek the approval of the BMB board of directors to take over assets of BMB upon the latter’s dissolution. These assets would consist principally of BMB Study No. 2 reports on stations.

**Station Reports Released**

The station reports have already been released to the more than 600 BMB subscribers, and complete sets of reports have gone to about 250 agencies and advertiser members of the ANA radio and television group.

BMB is now busy servicing requests for additional information, and this service job would be another BMB function inherited by the proposed BAM.

It was emphasized that BAM, if organized to succeed BMB, would take over not only the assets but also whatever liabilities existed. Outstanding among the latter is $75,000 owed to NAB which advanced that sum to assist the production of THE WHIG.

It is regarded as probable that the debt can be repaid to NAB, assuming station subscribers pay outstanding obligations by the end of June.

The nature of future research projects to be undertaken by the newly proposed corporation was, of course, undecided. Agency and advertiser representatives attending last week’s meeting were understood to have vigorously urged the continuation of industry-wide research, but the kind of measurement

(Continued on page 80)

**ATLANTA’S TWO newspapers—the Journal (WSB-AM-FM-TV) and the Constitution (WCON-AM-FM and TV under construction)—have merged, it was learned authoritatively by BROADCASTING last Friday.**

The consolidation is destined to Atlanta radio-TV situation, since under the Federal duopoly regulations, the radio properties cannot be owned or operated jointly.

While no formal announcement was forthcoming, BROADCASTING learned the Journal Co., headed by former Gov. James M. Cox, acquires control of the combined operations, with Maj. Clark Howell, publisher of the Constitution, as the substantial minority stockholder. A new name may be formed, which becomes the licensee of the Journal radio properties.

Thus WCON, ABC outlet on 550 kc. with 5,000 w., would be sold to a third party or discontinued. The Constitution also has under construction WCON-TV, assigned to Channel 2. A problem would be involved in any effort to transfer or sell this construction permit, since the FCC regards construction permit transfers in the video field as constituting “trafficking.”

Because of the unique aspects, however, it was thought likely the FCC would be asked for time in which to permit the Constitution to present the radio-TV properties on the ground that the newspaper has diligently pursued construction of the TV station, slated to begin operation this summer.

The WCON radio properties are believed to entail an investment of close to $1,000,000.

While details were lacking, it is understood that no financial consideration is involved in the fusion of the newspapers. The merger presumably was effected through the exchange of stock, with Gov. Cox’ organization acquiring control of the Journal Co. owns the 50,000-w clear channel WSB, which is NBC-affiliated, and WSB-TV, which began operation last year, as well as the Class B FM outlet. Only other TV station in Atlanta is Fort Industry Co.’s WAGA-TV, on Channel 5.

Maj. Howell last Thursday notified Mark Woods, vice chairman of ABC, that the newspaper merger had been agreed upon. It was presumed that ABC would continue with WCON if the properties are sold to acceptable operators.

If WCON is discontinued, it is presumed ABC would move either to WGST, operating on 920 kc. with 5,000 w. day and 1,000 w. night, or to WOTU, using 5,000 w. on 1300 kc. WGST is now the Mutual affiliate.

WCON began in 1947, and is managed by David Carpenter.

The station is now on program tests, and under an FCC hearing order issued last week because of an application to modify its antenna array from six to four towers. It is understood the radio properties barely broke even in 1949.

WSB, one of the nation’s pioneer stations, began operation in 1922. The property was acquired by Gov. Cox and his son, James Jr., ten years ago in a transaction that included the Journal Co. and WAGA, which was subsequently sold to Fort Industry Co. J. Leonard Reinsch is managing director of the Cox stations (WSB, WIOD Miami and WHIO Dayton). WSB and its associated stations are managed by John W. Outler Jr.
RADIO'S NEEDS

Outlined By McLaughlin

RADIO NEEDS new, fresh programming, a cost structure in balance with that of television in major markets and creative personnel with "the kind of thinking that brought radio to its peak between 1930 and 1940."

Advertising and Sales Promotion Manager John B. McLaughlin of Kraft Foods, Chicago, asserted Wednesday. He spoke to members of the Chicago Radio Management Club.

Speaking from the advertiser's viewpoint, Mr. McLaughlin rapped time charges in metropolitan areas.

"Radio can no longer offer the same potential audience in major markets that it McLaughlin could a few years back, so it seems that your product (radio) can no longer demand and get a premium price. When are you going to recognize the situation and make cost adjustments? Unless something is done quickly, advertisers like Kraft who are in both radio and TV are going to be fewer and farther between.

"Our problem is to cover our markets properly. We must have AM and TV. Perhaps this will mean increased buying of regional sections of networks, or a combined TV-AM network package, or a simple rate adjustment to compensate for radio losses in TV markets."

For 25 years radio did an effective talking-of-ideas job for advertisers at the lowest cost, McLaughlin said. TV, however, has chopped out large segments of AM audiences. There is a place for both media and always will be, he said, but there must be "a realignment of thinking, some changes in concept and a determination of just where each will fit into an advertiser's picture and help him solve his marketing problem."

"Must Sell Use"

"Today the art of advertising, more than ever before, is that of fitting ourselves into people's lives on their terms and in their interests. We must sell more than just the product, we must sell uses of that product. Advertisers must study the vehicles we employ to carry our sales messages and also to try and improve the selling effectiveness of those messages."

Rafael to RFE

WILLIAM RAFAEL, with the script and production department of ABC, resigned last week to become program manager of Radio Free Europe, the voice of the National Committee for Free Europe which will soon begin channeling recorded shows to Europe in six languages.

Ben Strouse

BROADCASTING • March 20, 1950

Ben Strouse, WWDG-AM-FM Washington, was elected to the NAB board as a FM director-at-large last week in a run-off election following a tie with Craig Lawrence, WCOP-AM-FM Boston. The two were deadlocked last month in the mail balloting for 17 board posts [BROADCASTING, March 6].

The return on this initial ballot had brought 12 new faces to the reorganized board, leaving only the FM post undecided.

Strouse's Plurality

With over 70% of FM station-casting ballots in the run-off voting, Mr. Strouse is understood to have had a plurality of about 30 votes. Run-off ballots had been mailed to FM members March 3. Mr. Strouse has been active in NAB committee affairs and was director of FM Assn. before its merger with NAB. He will serve a one-year term. Frank U. Fletcher WARI-AM-FM Arlington, Va., was re-elected to the board as an FM director-at-large for a two year term, having the most votes in the February balloting.

NAB Secretary-Treasurer C. E. Arney Jr. last week mailed a ballot to members covering a proposed by-laws amendment which would allow contracts with star personnel for more than a year. The amendment would give President Justin Miller power, with board approval, to enter into employment contracts for periods in excess of a year.

March 31 Deadline

The amendment is designed to stabilize the NAB structure, Mr. Arney explained. Ballots must be returned by March 31.

At its February meeting in Arizona, the board approved the proposal to take a referendum on the matter. The board tabled it until June meeting a proposal to set up a retirement plan for NAB employees.
HOPES for a U. S.-Cuban NARBA treaty, which had been accepted as an accomplished fact a few days earlier, was virtually doomed last week by a last-minute Cuban revolt.

Instead of the agreement they had anticipated—and which they had reached "in principle" [BROADCASTING, March 6, 13]—two observers for the two countries seemed more likely to terminate discussions with an agreement to disagree now and for fruitful negotiations later. For the "radical" element of the Cuban broadcasting industry was blamed by U. S. observers for the reversal of the past few weeks’ trend toward an amicable settlement of U. S.-Cuban allocations differences.

The minority in the 5-2 Cuban industry vote for tentative acceptance of the U. S. allocations proposal was reported to have swung from U. S. radio officials who insisted upon much more far-reaching channel rights.

Either War Seen

Thus the chances of a U. S.-Cuban either war, which seemingly had been aborted, loomed again even though it was accepted that U. S. delegation to Havana and at least some of the Cuban representatives would come back with demands for rights exceeding those they advanced earlier in the Havana sessions or those made at the Montreal meetings.

These demands, which the U. S. refused to accept, led to the current recess of the overall conference so that efforts could be made to compromise the bilateral differences. [BROADCASTING, Dec. 5, 1949].

Cuba’s reversal of its attitude toward the "agreement" apparently began to develop while FCC Comm.Rosel H. Hyde, chairman of the U. S. delegation, was in Washington last week for hurried conference with FCC, State Dept., and Capitol Hill authorities.

He had been summoned home for discussion of details of the tentative agreement. The first indication of the FCC’s reaction came after his return to Havana.

Advisors Return

Reports that the situation had suddenly worsened sent several U. S. industry advisors hurrying back to Havana last week. These included Raymond Guy of NBC, Edmund A. Chester of CBS, and Louis G. Caldwell of the Clear Channel Broadcasting Service.

No further attempt at renegotiation now was expected in event the Cubans make far-reaching new demands. Comm. Hyde was expected to return to Washington this week regardless of the outcome.

Earlier, reports of an imminent agreement had aroused U. S. interest in anticipation of notifying the stations which would be affected by the proposed terms. NAB had recalled its representative, Engineering Director Neal McNaughten. The alarm seemingly subsided, however, with Comm. Hyde’s assurances that any agreement would be subject to Senate ratification and therefore open to public scrutiny before becoming effective.

In the meantime, supplementing its detailed analysis of Havana progress [BROADCASTING, March 13], NAB last week issued the text of the U. S.-Cuban agreement which had been proposed, along with references to the proposed terms respecting protection to and from U. S. stations.

The agreement text as reported by NAB traced the history of NARBA, which expired last March 29, and of the current negotiations. It specifically provided that nothing in this agreement shall be construed as an attempt by either Cuba or the U. S. to foreclose or prejudice any negotiations that may be necessary between Cuba or the U. S. and any other country as the result of any objection such other country may have to such provision.

The terms which had been tentatively agreed upon included provision for special Cuban use of three 20-kw bands and relinquishment of six 1-kw channels rights which it formerly held on a fourth; rights for Cuban use of more than 5 kw.

(Continued on page 87)

LICENSE FEE BILL

Would Set Treasury Study

FURTHER stimulus to legislators’ efforts to assess license fees on commercial stations [BROADCASTING, March 13] was added last week by developments which included:

① Rep. Cecil R. King (D-Calif.), member of the House Ways and Means Committee, introduced a bill (HR 7711) which would direct the Treasury Secretary to study ways of collecting fees and charges by government agencies as a revenue-raising measure.

② Sen. John L. McClellan (D-Ark.) indicated the FCC would be receptive to levying certain fees for certain of its special services which at the present time are “a burden of the taxpayers at large.”

③ Colin F. Stam, chief of staff of the Joint Committee on Internal Revenue, Taxation, was expected to launch into the license fee controversy of the House Democratic leadership when the present tax revision problem is cleared.

The King measure would call for a report by the Treasury to Congress on ways and means of placing fees and charges on services which are rendered by agencies of the government. Agencies of the government, the bill points out, mean “executive departments, commissions, boards, Government corporations, and other establishments in the executive branch of the Government.”

Details on how the licensing matters in Congress were to be closed to BROADCASTING in the meantime. A close associate of Rep. King said a California newspaper publisher had approached the Congressman with the suggestion that the House Ways and Means Committee look into the matter of charging fees for agencies’ services which fall outside the scope of public benefit. The idea then was transmitted to members of the House committee. Sen. McClellan, it was said, also had been informed of the proposal and he proceeded with his committee investigation.

FCC Activity

Sen. McClellan last Wednesday said the FCC was taking “a very active and seriously interested part in the discussion of the matter” in Congress. It was reported that the FCC was “searching for a solution of the problem.”

Sen. McClellan’s statement would appear to indicate that the FCC is attempting to formulate a policy that would be consistent with the conference procedure in the Senate Committee on Commerce.

On March 29, the committee approved the bill, as amended, after a hearing on the subject of the FCC’s policy regarding the use of radio frequencies and the extent of its obligations under the Communications Act to protect the public interest.

In a letter to the FCC, the committee said it was impossible to determine whether or not the FCC was acting in violation of the Communications Act.

The bill to be considered by the House committee, which would set up a licensing system, would provide for the payment of fees by licensees and the reimbursement of expenses incurred by the FCC in the administration of the act.

The FCC emphasized that the processing of applications for new licenses would be accelerated, and that the number of applications would be increased.

NAB CONVENTION

PROGRAM plans for the NAB convention week event to be held April 12-19 at the Stevens Hotel, Chicago, began to assume formal form last week. Two basic events for the second annual Independent’s Day, conducted for unaffiliated stations, were scheduled by Ted Cot, WNEW New York, who is serving as program consultant at the request of the NAB Unaffiliated Stations Committee, and Lee W. Jacobs, KBKR Baker, Ore., committee chairman.

Unlike the Management Conference opening at noon April 17, Independent’s Day will be conducted at the workshop level and stress basic sales and business problems. Theme of the management sessions is “The American Broadcaster’s Responsibility in the World Today.”

The Monday morning FM agenda is making progress. Detailed plans for this 2½-hour session, immediately preceding the formal management opening, were discussed last week by the FM Committee at a meeting in Washington (see FM story page 30).

Babcock to Speak
It was learned last week that Ed. Babcock, a widely known farmer, businessman, educator and author, will address the Management Conference the afternoon of April 18 on “The American Broadcaster’s Responsibility in Agriculture.” Mr. Babcock is a director of Avco Mfg. Corp. and other corporations. He is a former chairman of the Cornell U. board of trustees.

Mr. Babcock pioneered many modern farm techniques on his farm near Ithaca. He has talked and written extensively on his concept of a food and farm program based on a strong animal agriculture, soil building and better diet for the country as a whole. Last December he was awarded the Distinguished Service Award by the American Agricultural Editors Assn.

Other Management Conference speakers include FCC Chairman Wayne Coy; Paul G. Hoffman, ECA administrator; Herman W. Steinkraus, president, U.S. Chamber of Commerce; Carlos Romulo, UN General Assembly president. The complete agenda has not yet been announced.

Industry Panel Planned

Industry panel for the annual FCC-Industry Roundtable to be held April 15 in connection with the NAB Engineering Conference is being announced. Taking part for the industry will be E. K. Jett, vice president Baltimore Sun stations, WMAR-FM and WMAR-TV; Raymond F. Guy, manager of radio and allocations engineering, NBC; Frank Mars, ABC vice president; E. M. Johnson, MBS vice president; William B. Lodge, CBS vice president or J. W. Wright, CBS chief radio engineer. (FCC participants and engineering agenda appeared in the March 13 Broadcasting.)

Sunday Program
The Sunday Independent’s Day program, which will have no set speeches, will be opened by Mr. Baker, whose topic is “It Ain’t July 4 but It’s Independent’s Day.” Dr. Sydney Roslew, president of the Pulsa Inc., will discuss out-of-home listeners, described as radio’s unexplored audience. He will submit a research report on this audience, supplemented by color slides. A panel will follow, with Hugh M. Felds, KING Seattle, and Norman Glenn, Sponsor, among the participants.

Edgar Kobak, business consultant, newly elected NAB board member for small stations and former MBS president, will address the Sunday luncheon. He has been given an assignment “to tell everybody off.”

Unlike ABC’s NAB, the convention was held in New York, consultant conference was held in the Midwest. The Monday morning FM session is expected to attract heavy attendance, since most delegates will have no formal event on the calendar, other than equipment exhibits.

At its Monday meeting the NAF FM Committee recognized that many AM station operators attending the convention needed advice on facts to help them in deciding what to do with their FM service.

For this reason the committee decided to have four key speakers who will discuss four types of special FM service—FM networking, leasing of FM sets to business for music service; transit, airport, and store broadcasting, leasing an FM.
A REORGANIZATION PLAN concentrating FCC's executive and administrative functions in the Commission Chairman was sent to Congress by President Truman last week.

The breadth and seeming exclusivity of the powers which the Chairman would have as contrasted with those of his colleagues aroused concern among observers and seemed to destinie the plan for close scrutiny if not outright opposition on Capitol Hill.

The President's proposal, one of 21 affecting government agencies, came on the heels of Commission initiation of its own wide-scale reorganization of the FCC staff along functional lines [BROADCASTING, March 15].

Within the framework of the general policies, decisions and determinations made by the full Commission, the Chairman under the President's plan would have charge of administrative and executive functions including "(1) the appointment and supervision of personnel employed under the Commission, (2) the distribution of business among such personnel and among administrative units of the Commission, and (3) the use and expenditure of funds."

Control of Chairman

Thus, observers pointed out, the Chairman would have substantial control over the Commission's purse strings, the selection of its personnel, and the assignment of its work.

The fact that the Chairman's actions in these respects would be subject to general policies of the Commission, and that his appointments of heads of "major administrative units" would be subject to full Commission approval, these observers felt, would not materially limit his authority or substantially enhance the controls of his colleagues.

Since the Chairman is always an Administration appointee, it was pointed out, he could generally count upon his colleagues—or at least a majority—to rubber-stamp his proposals.

Congressional authorities for the most part reserved judgment pending further study of the proposal, but indicated they may have serious questions to ask.

Under the Reorganization Act of 1949, the proposals with respect to each agency will be come effective in 60 days unless disapproved by one or both Houses of Congress.

Chairman Ed C. Johnson (D-Ohio) of the Senate Interstate and Foreign Commerce Committee, to which the FCC and four similar agency reorganization plans were referred, said the proposals represent "an extremely important regulatory step," involving "an entire new principle."

He pointed out that the plan would in effect place the Chairman directly under the Executive Branch of Government, whereas he and other Congressional leaders regard such agencies as arms of Congress.

Sen. Johnson did not, however, attempt to pass judgment on the proposal but said that and those affecting other agencies would be considered by his committee in a meeting Wednesday (March 22).

Rep. Robert Green (D-Ohio), chairman of the House Interstate and Foreign Commerce Committee, took the same position, saying he too wanted to study the proposals more fully. He observed that he welcomed efficiency in regulatory bodies so long as the efficiency does not go too far, but speculated on the dangers of giving men "too much power" and making "Frankenstein's" of them.

More critical observers felt the President's proposal could in effect transform the agencies into "one-man commissions," would reduce their standing as "judicial" agencies, and would violate the principle of "independent" regulatory bodies.

In submitting his proposals President Truman said they stemmed from the work of the Hoover Commission on Organization of the Executive Branch and should result in ultimate economies. With respect to the regulatory agencies, he said, the objective is "to establish clear and direct lines of authority and responsibility for the management of the Executive Branch."

The heads of departments and the chairmen of the regulatory bodies will be made clearly responsible for the effectiveness and economy of Governmental administration and will be given corresponding authority, so that the public, the Congress, and the President may hold them accountable for results in terms of both of accomplishments and of cost.

. . . In regard to the regulatory agencies, the plans distinguish between two groups of functions necessary to the conduct of these agencies.

(Continued on page 50)

OTHER top flight FCC appointments included (1 to r) Harold J. Cohen, assistant general counsel in charge of common carrier division, to be head of the new Common Carrier Bureau; John A. Willoughby, acting chief engineer, to be assistant chief engineer; William K. Holl, acting executive officer, to be executive officer in charge of the Office of Administration; Examiner J. Fred Johnson Jr., to be chief hearing examiner in charge of the Hearing Division.

NIELSEN PLANS

'Tooled Up' for Added Service

A. C. NIELSEN Co. is "tooled up" for bigger things than meet the eye following its recent deal with C. E. Hooper Inc. [BROADCASTING, March 6].

Last week President Arthur Nielsen told BROADCASTING that:

1. An "electronic digital computer" is being custom-built so that NRI reports can be produced with "ever increasing speed."

2. A stockpile of Nielsen Audimeters is ready for any emergency, including installations for local audience ratings—both AM and TV.

Apparent well prepared for his acquisition late last month of Hooper's National and Pacific Radio, and National TV Network services, Mr. Nielsen said his company is well-staffed with client service men so that the handling of former Hooper accounts as well as new NRI clients will be "no great burden."

He explained that these positions, equivalent to an account executive in an agency, usually are filled from a reservoir of field men and statisticians, with only a few qualifying direct from agencies and advertisers. Twenty to 30% of the cost of NRI he attributes to client servicing.

Mr. Nielsen disclosed that 200 stations from coast to coast, as well as many advertisers and agencies, soon will receive a pitch that NRI is equipped to be a "better BMB." (The stations selected account for about 67% of the nation's total home-hours of listening.)

NRI could perform most of the functions of BMB and do a "far more accurate and comprehensive job," he insisted.

The new electronic digital computer on order at the Nielsen Co. will perform 20,000 multiplications or divisions per second, accomplishing in a few minutes certain operations that now take days. In addition to speeding the delivery of reports, the new audimeters are able to record on a

BROADCASTING • Telecasting

March 20, 1950 • Page 27
FLATLY accusing FCC's star witness of withholding important papers, counsel for G. A. (Dick) Richards in the FCC hearing on his news policies late last week demanded and received a subpoena to compel delivery of every one of them.

The subpoena was issued near the end of the first week of the hearing on charges that Mr. Richards, principal owner of KMPC, the Los Angeles, WJR and WGAR Cleveland, had ordered KMPC staff members to "slant" news reports. The hearing opened in Los Angeles last Monday.

Clete Roberts, former KMPC director of public affairs, whose cross-examination was started Thursday after three days of testimony for FCC, was expected to produce the demanded papers when he returns to the stand today (Monday).

The papers were described as "letters, memoranda, notes, newscasts, commentaries, books, correspondence, MacArthur biographical folder, and other material."

Under cross-examination Mr. Cole testified that some material removed from KMPC files at the time of his discharge in February 1948 are now "under my daughter's bed." Counsel for Mr. Richards had earlier attempted to show that "we regard the papers as having been stolen from KMPC."

Mr. Roberts conceded claims that he had been "deceitful, disloyal and had used sly tactics behind Richards' back" in his presentation of newscasts.

He said that as long as violations of Mr. Richards' orders were done "with the knowledge of the management," the job was not felt to be "sly or deceitful."

He was frequently admonished by defense counsel against injection of remarks that his defiance of Mr. Richards' orders was known to the station manager.

He said a station owner "has a right to an opinion on the news if he labels it as such," and that he himself has approved personal opinions on his commentaries.

Recording Request Denied

A Richards request that the hearing be tape recorded was denied by Examiner J. Fred Johnson Jr. at the outset of the sessions.

Hugh Fulton, Washington and New York attorney appearing as Mr. Richards' chief trial lawyer, argued the hearing involves free speech and censorship and therefore would be of wide public interest. He said prior to the hearing FCC Chief Counsel Fred Ford's contention that recording should not be permitted.

Meanwhile the Commission late last week acted upon a defense petition, filed Monday, asking for a subpoena requiring FCC authorities to deliver all material the Commission has on the case.

On this Mr. Fulton stated:

"Because we believe that there may have been conferences between members of the Commission or its staff and persons outside the Commission having no official connection with these proceedings, and material relevant to, or material, and because it is probable that one or more of the Commissioners themselves have reviewed material, I include a request and demand that all such material be furnished me in order that I might have an opportunity to cross-examine and, if necessary, to present the true facts."

Any denial of this would necessarily mean that the Commission reserves to itself the right to receive and consider unidentified material from anonymous sources which might be false and inaccurate.

Richards' Counsel Petition

Richards' counsel also petitioned FCC to set aside its order designating an examiner to conduct the hearing. The procedure is an "investigation instituted upon the Commission's own motion" and therefore the hearing should be held before the full Commission.

Opening week's developments indicated the hearing may consume four to six weeks. It involves the renewal applications of Mr. Richards' stations and also his proposal to transfer control to a voting trustee consisting of Dr. John A. Hannah, president of Michigan State College; L. P. Fisher, vice president of Fisher & Co. and a director of General Motors, and Harry J. Klinger, vice president of General Motors and general manager of its Pontiac Division.

Outlining FCC's charges, Mr. Ford said "these proceedings will tend to prove that, beginning about 1940, Mr. Richards gave instructions to his employees regarding the content of news broadcasts and the manner in which they were to be presented."

"Suggested Voice Inflections:

"These instructions increased in detail, particularly at KMPC, to the point where he ordered news distorted to substantiate his personal dislikes and even suggested voice inflections."

Mr. Ford claimed that granting the applications would be against public interest. He charged "the facilities of these powerful stations were used in the interest of Mr. Richards, not in the interest of the public."

Mr. Fulton replied with a 28-page presentation, which he insisted was the first time the defense has had to go on record in the case.

Asserting repeatedly that Mr. Richards did not falsify his stations' news broadcasts or order deceit, Mr. Fulton said the licensee faces revocation because he privately expressed thoughts contrary to the philosophy of the present political administration.

Mr. Fulton charged the current hearing "was asked for by James Roosevelt on stationery of the Democratic party." He said the charges included assertions that Mr. Richards "in recent years was in league with Republicans and opposed to election of Democrats, and was opposed to Communists and proponents of extreme left wing views." He claimed the charges arose from "distrusted former employee of KMPC."

Calling attention to the three stations' public service records, he reminded Examiner Johnson that the FCC during the past 20 years has readily renewed Mr. Richards' licenses and granted him permits for FM operations.

"The Commission is not authorized," he said, "to persecute any person holding divergent views from the Commission, or the political administration appointing the Commission." He noted that Mr. Richards had no trouble with FCC during the first two terms of Franklin D. Roosevelt, during times when he was a supporter of the New Deal.

Portraying Mr. Richards as "Horatio Alger" type who rose from poverty to wealth, Mr. Fulton characterized him as "a rough diamond."

"(Continued on page 88)"

Network Underway; Rate Policy Set

LBS PLANS

WITH negotiations for a New York office nearly completed and April set as a tentative opening date, LBS now is scheduled to begin a daily five-hour program schedule over some 160 affiliated stations.

Site for LBS: New York operation was not disclosed by Gordon McLendon, network president, who said details would be announced shortly, along with a complete list of stations and markets already signed by Liberty.

The network hopes to sign between 250 and 300 stations... most of them independent... by mid-April, and plans to program 18 hours daily in all 48 states by next year [BROADCASTING, Feb. 27]. Queries on affiliation have been coming into Liberty steadily during the past week, Mr. McLendon said.

Programming got underway March 11 with broadcast coverage of exhibition baseball (New York Yankees vs. St. Louis Cards), two programs for veterans, musical scoreboard and musical bingo, and other entertainment.

Current programs, aired six days a week, will be expanded to nine fare, to be fed from other stations affiliated in such cities as Miami, St. Louis and from the West Coast, it was indicated. KLIF Dallas is the key originating outlet for Liberty programs. Mr. McLendon himself, is active in the current broadcasting phase.

Among the 160 stations, some 17 are spread throughout California, 16 over the Western states, 13 in the West Coast. Key markets include Portland, San Francisco, Los Angeles-Pasadena and Seattle. It is expected that independent affiliates in these cities will originate programs once the reciprocal-program operation is initiated.

Invades West Coast

Mr. McLendon acknowledged that Liberty is "attempting to gain a competitive position" on the West Coast, which Don Lee-MBS has heretofore considered its domain. He felt, however, that the competition would have a "salutary" effect on regional network competition.

Noting reports that Don Lee may drastically revise its daytime program to meet the Liberty thrust, Mr. McLendon said even if the former offered lower rates to its stations, particularly on base- balance, LBS will still re-
A WARNING for broadcasters to clean up their programming or risk public demands for "the more drastic measure of governmental action," was sounded by FCC Chairman Wayne Coy last Tuesday in a speech at the U. of Oklahoma's Annual Radio Conference (also see story below and ‘TELECASTING’ p. 14).

"Poor taste," he said, "is not in the public interest."

Citing "poor taste and crime programs on the air," he said the Commission has been getting an increasing amount of mail and an increasing amount of verbal comment, too, on both subjects. In complaints, he said, use words as "degrading antics," "vulgar double entendre," and "downright indecency."

He pointed out that the law forbids "obscene, indecent or profane language" on the air but contains no prohibition against poor taste, apparently on the assumption that "licensees would exercise good judgment concerning good taste."

But, he cautioned: "It seems to me that the question of just how bad poor taste can get before it becomes "downright obscenity" or "indecency" may be settled one of these days if the present drift in that direction is not checked."

Chairman Coy reiterated that he did not think the Commission competent to "determine the kinds of programs that we should see and hear," and that he felt "it would be highly dangerous for seven people to have such authority."

"The real control of American radio is in the hands of the public," he said.

Warning that "clearly there must be a day of reckoning," he said:

The Commission is rightly prohibited from censorship. On the other hand, it is required to see that the stations operate in the public interest. Violating the law regarding obscenity, indecency and profanity is not in the public interest. Poor taste is not in the public interest.

I think it would be better for the radio station licensees and the networks to clean house before public opinion demands the more drastic remedy of governmental action.

It is far better for the 3,000 licensees and the radio networks to do what they know is right for themselves—no proper thing to do than to have such delicate matters as good taste thrust into petition upon a commission of seven members in Washington, D. C.

‘Aware of Situation’

Mr. Coy said he was "fully aware" that any all-around network clean-up campaign would carry networks containing material which they would not allow in a local origination. Because it comes from a network "on an all-take-one basis," he said "they feel helpless and act that way except in a few cases."

When a comedian gets so big that his network can no longer handle him, then we have a case of the tail wagging the dog. The boy who used to stand on a wall is now provided with a television screen. The world has moved from his sacrifice-and-buggy days to the electronic age but this type of comedian is still peddling lively stable humor. The radio and the television company are in the same game without having taken the precaution to see that he is house-broken. Programs should be sacrificed for profits. The result is off-color television—taunted television.

Turning to "crime on the air," Mr. Coy said FCC is the recipient of mail protesting the murder of death and hawker's of horror on radio and television, "that our files of letters protesting crime programs are bulging," and that the "situation is rapidly worsening."

He quoted from a protest received by the Commission—some directly from listeners, others reprinted from newspapers—and from studies and reports on crime programs.

No Day-to-Day Judgment

He pointed out that FCC cannot pass upon a licensee's day-to-day judgment in matters of bad taste or in the handling of crime programs "except in gross instances," and that renewals are based upon considerations of "the overall operation of a station during its entire license period."

"The most effective day-to-day check on a licensee's program," he said, "is an immediate and intelligent reaction from the listening public."

He asked:

Is it possible that broadcasters who make such a fetish of surveys and audience reaction measurements are overlooking the most obvious, and most effective, finding technique of all—that of merely sitting down with representative listeners and discussing matters frankly and fully?

I think that that would be preferable to sitting cloistered in an ivory tower and trying to launch audience reaction from charts and graphs.

He called attention to a survey made by the Southern California Assn. for Better Radio and Television. The survey, he said, found no crime programs on KPI-FM Los Angeles between 6 and 9 p.m. but, on the other Los Angeles TV stations, founded the following during those hours in one week:

91 murders, 7 stage hold-ups, 3 kidnappings, 10 thefts, 4 burglaries, 2 cases of arson, 2 jailbreaks, 1 murder by explosion of 15 to 20 people, 2 suicides, 1 case of blackmail, 51 cases of assault and battery—too numerous to tabulate. Also cases of attempted murder. Much of action takes place in saloons. Brawls too numerous to mention, also drunkenness. Crooked judges, crooked sheriffs, crooked juries.

Coy Notified

Mr. Coy said the association notified him, three months after the survey by the California licensee and from the Los Angeles stations, "that not one of the stations that carried the crime programs had offered to talk over the survey, not one had indicated whether it was the correct situation, although an improvement has been noted in the early evening programs of the NBC station."

"This is certainly not a very encouraging situation," he told the membership of the industry that makes so much of its sensitivity to public opinion," he asserted.

The FCC chief conceded that "on the whole I think we have an excellent broadcast service." He felt there are "signs of deterioration of program service in the aural field due to the competitive impact of television and the larger markets," and "some indications of trend to inferior programming in the field of television because of the expense of programming and because of the desire of . . . operators to reduce their losses or to get larger profits."

Following the conference’s "Great Expectations" theme, Mr. Coy said "the broadcasters and the public have every right to expectations of a high order for the future of broadcasting." But he cautioned that "these expectations will not be realized unless we all work together to keep broadcasting's sights high, to avoid the shoddy and to keep improving the product."

American Radio’s Role

He continued:

American radio generally offers such a wealth of wholesome entertainment and cultural programs that it cannot afford to do itself a disservice by allowing a few thoughtless offenders to tarnish radio’s good name.

Radio’s general reputation as one of the most important forces in our society, a key leader in community betterment and as a preeminent factor in American homelife has been built up through the years by the dint of hard work, imagination, vision and public spirit on the part of thousands of people in the broadcasting industry. The constructive job of all of us is to protect the gains already made and to strive for an even greater future.

Mr. COY

9th Radio Conference Held

OKLAHOMA CITY

9th Radio Conference Held

The part played by the Voice of America in the battle for peace over the international airways is far from being a success story and it hardly can be claimed that the U. S. is winning the battle for the world's people. That is the opinion of Erich Noth, editor of Books Abroad and formerly with the Voice.

Addressing the ninth annual radio conference of the U. of Oklah-oma last week, Mr. Noth warned that today our world leadership, and tomorrow perhaps our survival, are at stake.

The three-day conference, attended by some 250 registrants, also was highlighted with addresses by FCC Chairman Wayne Coy (see story above), and a score of other figures prominent in television and radio broadcast-ing, including Roy Bacus, commercial manager of WBAP-FM-FM- TV Fort Worth; R. B. McAlister, general manager of KICA Clevis, N. M.; Jack Drake, news director of KSOW Lawton, Okla.; Dr. Forest H. McPeek, director of the University of Southern California, and Charles Tower, assistant director of NAB's Employee-Employer Relations Dept.

Tower on Economics

Mr. Tower, who discussed the economic characteristics of broadcast- ing, replaced Richard P. Do- ber, WABF-Director of employment employer relations, who, due to illness, was unable to attend.

Theme of the conference, which opened on Sunday with demonstr-a-tion of school broadcasting by eight colleges and universities, was "Great Expectations." Chairman of the sessions was Dr. Sherman P. Lavon, co-ordinator of radio at the U. of Oklahoma.

In his address Monday, Mr. Noth also pointed to the inadequacy of the Voice of America. He stated that to his knowledge no other government agency has had so much trouble in obtaining the most ele-mental funds for what he termed its "shoestring budget" if compared to other expenditures for the enforcement of our national policy and security.

Urging creativity, or perfection, of a bigger and better international broadcasting tool, Mr. Noth said: "We must in all instances convey that spirit of fearless freedom and fearless striving for peace which (Continued on page 54)"

March 20, 1950 • Page 29
FM COVERAGE

By J. FRANK BEATTY

REPORTS showing the FM circulation of AM stations subscribing to the National Broadcasting Measurement Bureau are being compiled by BMB and will be published in the near future, according to Dr. Kenneth H. Baker, acting president.

Failure of the original station reports released early this year to show FM circulation caused a stir at the Monday meeting of NAB's FM Executive Committee, held in Washington. The committee adopted a resolution voicing its feelings on the subject.

The resolution called on NAB to tell FM that the committee feels AM ratings should show the audience of FM duplicating stations. It expressed the committee's belief that the FM information obtained through March 1949 by BMB on its audience cards should be made available to subscribers.

AMA Data First

Dr. Baker told BROADCASTING that AM data had been made available first because of a change of policy. He reminded that the reports of individual AM stations carry an asterisk indicating they have FM affiliates; a suggestion originally made by the FM Committee.

He said the FM figures will be "roughly comparable" to AM reports but will be issued in memo form to the stations involved (AM subscribers also with FM outlets). While AM data do not reflect coverage where less than 10% of the audience is reached, Dr. Baker said the FM data may include FM coverage as low as 5%.

He added that BMB does not claim figures below 5% are accurate.

Raymond L. Fisher, WJMJ (FM) Evanston, Ill., and WOZK AM-FM Alton, Ill., said: "It is difficult to understand how BMB could 'unintentionally' be responsible for penalizing AM stations because of duplication on FM. Most of the audience of a duplicating FM station obviously was taken from the AM station and not the FM. Better use must be made of audience. BMB must publish its supplementary FM data immediately."

Would Change Rules

The FM Committee voted to ask NAB's Legal Dept. to file a petition with the FCC asking for an amendment to Section 316 of the Act to establish protection to the 50 uv/m contour for FM stations in Area 2 (entire nation but the Northeast). Present protection is granted only to the 1000 uv/m contour.

Approach of serious interference to FM outlets is foreseen if FCC doesn't grant this protection, according to Mr. Fisher. At its meeting, the NAB board voted last summer to ask FCC to grant this protection but no formal action was taken until last month. At that time a letter was sent to FCC Chairman Wayne Coy and the other Commissioners calling attention to the board's July resolution.

Chairman Coy said an action of the sort should be initiated outside the FCC and invited NAB to file a petition to amend the rules.

At its Monday meeting the FM Committee drew up an outline of the program for the special April session to be held Monday, March 26, beginning, April 17, prior to the formal opening of the NAB Management Conference at Chicago (see convention story page 26).

Attending the committee meeting were: S. Richard Mathew, Matthew H. Bonebrake, KOCY-FM Oklahoma City; Victor C. Diehm, WAZL-FM Hazleton, Pa.; Edward L. Sellers, director NAB FM Dept.; Ralph W. Hardy, director, NAB Radio Division; C. E. Arney Jr., NAB secretary-treasurer; Messrs. Dillard Fletcher and Wheeler.

WQUA MOLINE SALE

Le Masurier Buys Control

SALE of 85% of stock of Moline Broadcasting Corp., licensee of WQUA Moline Ill., was announced last week subject to FCC approval. Bruff W. Olin Jr., president of Moline Broadcasting, sells his 85% interest to Dalton Le Masurier for approximately $155,000. Mr. Le Masurier is owner of KDAL Duluth, Minn., and minority stockholder of WIRL Peoria, Ill.

Transaction was handled by Blackburn-Hamilton Co. WQUA operates with 250 on 1230 kc. Wrr Flame, manager of WQUA, will retain his 5% interest and his present connection with station as well as other stockholders owning the other 10% of the corporation.

NBCh CHANGES

Shifts in Program, Services Units

ROORGANIZATION and widespread reassigments in NBC's radio program and integrated services departments were announced last week.

In the radio program department, under Thomas C. McCray, director, the following changes were made, effective April 1.

Leslie Harris, assistant national program director, becomes production manager.

James E. Kovach, operations manager of the production division, becomes manager of program operations.

Russell Benson, administrative assistant and coordinator of new package programs, becomes package program and talent contact manager.

Hamlin, manager of literary rights, becomes program supervision supervisor.

Samuel Chotzinoff, general music director, and Sterling Fisher, manager of public affairs and education, continue in their present positions and will serve both in radio and television. Mr. Harris will be in charge of continuity acceptance, which is headed by Stockton Helfrich; script preparation supervisor, Van Woodward; supervisor of directors, Edwin Dunham, and producers Richard P. McDonagh, Wade Arnold, Ken MacGregor and Robert Walker.

Under Mr. Kovach, who has the responsibility for maintenance of the network program schedule, will be grouped the program business office supervised by Grace Sniffin; talent auditions supervised by Leonard Goldstein, and talent casting supervised by Claire Traylor.

Other Assignments

Reporting to Mr. Chotzinoff, general music director, new is Al La Prade, music research supervisor.

Reporting to Mr. Fisher, manager of public affairs and education, will be Margaret Cutlbert, supervisor of public affairs; Doris Corwith, supervisor of religious broadcasts and talks; Jane T. Wagner, supervisor of educational programs and the late Hilda Watson, office manager.

Realignment of program services functions under the integrated services department was announced by William S. Hedges, vice president in charge of integrated services.

William Burke Miller, now night program manager for television, is appointed night executive office for the company, reporting to Arch Robb, manager of television program services department, provided by the staff of associate directors, has been transferred from program to integrated services.

Alin Robinson, former night program manager for the radio network, is appointed supervisor of associate directors, reporting to Arch Robb, manager of television program services department.

Also transferred from the radio network program department and reporting to Mr. Robb will be the night literary rights and script readers with the appointment of T. W. Adams as assistant supervisor. Central bookings, supervised by Mary Cooper, will be handled by Robert Wogan, are also transferred, from network programs to program services, reporting to Mr. Robb, as will program sale under the supervision of Miriam Hoffmeier. Isabel Finnie will be the supervisor of the business office for program services.

SCOTUS HIT

By 'Yale Law Journal'

SUGGESTION that the U. S. Supreme Court outlaw completely the power of state and federal judges to punish broadcast stations and newspapers for reports on pending criminal cases was made last week by the Yale Law Journal.

Discussing the "Baltimore Gag" case, in which a city court had attempted to fine several stations for broadcasting news about an arrested murder suspect, the student editors suggested the Supreme Court's refusal to review a Maryland Court of Appeals decision had left the contempt rule "dangerously vague." The highest court had denied a petition by the state to hear the upholding of the city gag rule [BROADCASTING, Jan. 16].

The journal noted that the refusal to review was made in an "unusual opinion disavowing any implication that it approved the Maryland decision." Effect of this action is to leave courts free to decide how to enforce the law: that is, to decide how to enforce the "clear and present danger" concept rule, it was suggested.
PLUS ONE ELAND

Now that mama eland has a baby, there's plus one eland in the St. Louis Zoo.

There's a radio station in Baltimore with a great big plus for advertisers. It's W-I-T-H, the BIG independent with the BIG audience.

Here's how the PLUS comes in: first, W-I-T-H delivers more home listeners-per-dollar than any other station in town. And, in addition, a survey made under the supervision of the Johns Hopkins University showed that of all radios playing in barber shops, 49.3% were tuned to W-I-T-H.

That means low-cost results. That means that small appropriations accomplish big results on W-I-T-H. Call in your Headley-Reed man and get the full W-I-T-H story today.
By BILL THOMPSON

LAST Aug. 28 about 65,000 devotees of the square dance converged on a large parking lot in the Hampton Village section of St. Louis. They came at the invitation of Grasso Bros. Fuel Co., which had an $8,000 stake in the affair.

Much of this amount was laid out for a 10-piece cowboy band, handsome trophies for the best costumes, and a multitude of other entertainment features. But about 20% of it went for promotion—exclusively via radio.

“I got off light at that,” says Frank Grasso, president of the firm. “Think what it would have cost to corral a mob like that by other advertising methods. Besides, it was worth it to find out just how potent radio can be.”

Early last July Mr. Grasso started dreaming up “the greatest of all outdoor folk dance festivals.” KXLW St. Louis made his dream come true. One of the station’s representatives, F. Lee Price, sold him a half-hour of square dance music six days weekly (7:30 to 8 p.m.), with the sixth session featuring live “callers.” Roy Queen, one of the most popular dispensers of folk music in the St. Louis area, turned the discs. Cost to Grasso Bros. was a little under $200 a week.

**Station-Client Team**

Almost at the outset, the show started promoting the proposed festival, and KXLW officials, notably General Manager S. E. (Art) Sloan, showed the new client what the word “cooperation” means. Mr. Sloan furnished sleek horses for a parade on the night of the fest, and he lined up the 5,000-car parking lot where the event was staged. He also arranged for choice spot adjacencies on KXLW. Toward the end of the promotion these totaled 15 a day.

Working hand in hand with him was Roy A. Shannon, president of the St. Louis advertising agency by that name which handles the Grasso account. Mr. Shannon persuaded the Greater St. Louis Folk & Square Dance Federation to cooperate and to encourage outstanding square dance callers of the area to participate. He also obtained help from the Missouri Folk Dance Supply Co. in nearby Kirkwood, Mo., which provided records and consulted with him on technical aspects of the show.

The results of all these preparations were best described the day after the festival by an official of Grasso Bros. In a letter to an insurance company executive who had inquired as to radio’s effectiveness as an advertising medium, C. F. Price, sales manager, wrote:

“I was amazed with the results of a check we have made as of the above date (Aug. 29) over the corresponding period of last year. This year’s new coal tonnage amounts to five times that of last year. At this writing we have not proven this to be all due to radio, but we are satisfied the greater part of the credit is due to this type of advertising. Last last week the results of our advertising through KXLW amounted to the staggering figure of approximately 65,000 people seeing or hearing the name of our firm in one concentrated area.”

**No Halt for Strike**

The company continued its sponsorship of the Roy Queen show throughout the coal strike last fall. Having wisely stored a superabundance of fuel in anticipation of the walkout, it was able to attract dozens of new customers. By November, with its telephones ringing an average of 40 times an hour, it reported an increase of 30% in the number of patrons. During the month, it sold a total of 150 carloads of coal.

This same month, The Black Diamond, a leading trade journal in the coal industry, paid tribute to Grasso Bros. “outstanding” record:

“How can this be?” it asked. “Retail coal is supposed to be a dying field. Many retail outlets report loss of 30% of their customers. The inroads of oil and gas heat are said to be restricting the coal business insofar as domestic use is concerned."

**10 New Clients Daily**

“The Grasso brothers wouldn’t know from that. They are much too busy finding new coal customers: far too involved in being of maximum service to their present 15,000 customers in the metropolitan St. Louis area to worry about losing business. On the contrary, they have consistently been gaining customers at the rate of 10 a day.”

The Black Diamond noted that “in the field of advertising, the operations of the brothers Grasso leave one a little dizzy and almost out of breath.”

“Librally borrowing techniques long employed in selling soap and cigarettes,” it continued, “they have treated their fuel products just like any other household commodity... and with such results. First of all, they sponsor a highly listenable 30-minute radio program six days a week.”

By Dec. 1, Grasso Bros. had in-

Frank Grasso, company president.
creased its radio budget more than $100 weekly for spot announcements on the "Spider" Burks show, which has one of the highest Negro ratings in the Midwest. The firm aimed a spot a day at upping fuel oil sales among low-budget families. At mid-winter, gallonage had been increased 6,000 a day and the company found it necessary to buy two new 1,500-gallon fuel trucks.

"We got an added bonus from this type of business because the family with a space heater always pays cash," Mr. Grasso observed.

This month (March) Grasso Bros. starts Saturday night sponsorship of an hour-long "barn dance" type of show over WIL, known as St. Louis' leading sports station because it has an exclusive contract for the Cardinals baseball broadcasts. The program will originate at the Ideal Roller Rink, one of the largest and most modern roller skating emporiums in the country. Frank Grasso has $750 earmarked for special talent to be used on the "kickoff."

50% Allotted to Radio

Although 14 years old, the company never used radio until last July. Yet, in 1950, it will spend more than $15,000 in what Mr. Grasso describes as "the most effective medium of all." This is 50% of his advertising budget for the year. The remainder will be divided between neighborhood newspapers and direct-mail advertising. Only 34 years old, Frank Grasso decided in 1936 that his father's truck gardening business was not for him. The only thrill he got out of it was hauling 1,000-bushel loads of tomatoes to Chicago's South Water Street Market. With a few dollars supplied by his father, Tony Grasso Sr., he bought an old truck and with his brothers Joe, 16, and Tony Jr., 12, he began making coal deliveries to neighbors. As business (and his brothers) grew, Frank discarded his notebook-in-the-pocket type of bookkeeping. Young Tony, with the help of an accountant friend, set up a system, and Joe took over dispatching and trucking. This left Frank free for general administration and promotion.

Volume Grows

The accounting is still handled by Tony today, but he has a $5,000 bookkeeping machine and the advice of a firm of legal consultants. Before radio struck "like lightning" last year, three young ladies did the work of the new machine. Now only one of them operates the device, while the other two handle incoming orders for coal and oil.

Brother Joe, who commanded a fleet of seven coal trucks and seven oil tankers before the company entered radio, now has 30 carriers in all. They are brightly painted, and bear the company name in letters a foot high. Lacquered to make the finish shine, they are washed once a day, if necessary, to keep them attractive.

Following the successful square dance festival, Frank Grasso kept the cowboy band on his payroll. He hauls them around to civic functions in a $5,000 special Buick Riviera sedan, done up in purple and yellow with a miniature chrome-plated horse as radiator ornament. An over-sized set of longhorn steer horns is mounted about the windshield, and a plastic neon sign along the top reads: "Grasso Coal and Cowboys." This aggregation raised $3,000

The Day of the Festival ...

TOP—XXLW St. Louis, the station that first put Grasso Bros. Fuel Co. on the air, broadcasts part of the festival program. At lower right, in broad-brimmed hat, is Frank Grasso.

MIDDLE—The parade that preceded the festival also found several local merchants taking advantage of the event to promote their own products.

BOTTOM—This is just one small segment of the crowd of approximately 65,000 that attended the festival.

SALT RIVER SUIT CBS Reply Expected This Week

CBS is expected to file an answer or a motion of dismissal in Chicago's Federal District Court this week on Salt River Valley Broadcasting Co.'s suit for $225,000 damages. The original complaint, brought last November by Salt River Valley, on behalf of KTUC Tucson and KOIL Phoenix, sought specific performance of an affiliation contract between the network and the two stations.

It asked for relief Jan. 1, 1950, when CBS switched affiliation to KOPO Tucson and KOOL Phoenix, in which Gene Autry, CBS performer, has heavy financial interest. Numerous continuances carried the original complaint past the Jan. 1 date.

LOBBY ISSUE

Proposal to Exempt Radio

PROPOSAL that radio be exempted from the Lobby Registration Act will be made when the House Select Committee on Lobbying Activities begins its hearings March 27.

Rep. Frank Buchanan (D-Pa.) chairman of the committee, told BROADCAST he personally will ask the committee to place radio on equal footing with "newspapers and other publications" specifically exempted from the Act. Under section 308 of the Reorganization Act, which is part of the Reorganization Act of 1946, exemption is granted to "newspapers or other regularly published periodicals."

The Congressman also disclosed that he plans to ask Judge Justin Miller, president of NAB, "or some other industry representative," to appear before the committee to show why radio should be given exemption.

His disclosure came on the heels of an announcement March 6 that the committee will begin hearings March 27 "with an academic review of the lobbying problem. Scheduled to follow this review are studies of the role of governmental agencies in influencing legislation and efforts of lobbyists in seeking to influence departmental and agency actions.

Rep. Buchanan, who appeared before the House Administration Committee along with Rep. Charles Falkirk, has urged an additional appropriation of $45,000 for the committee, said he could not determine at this time how far, if at all, the committee would go into communications aspects of the departmental study.

The Buchanan committee is trying to determine whether certain organizations have failed to register as lobbyists and whether certain registrants have oaffiled with the Act [Broadcasting, Jan. 23].

NEWS SALEABILITY

L. A. Panel Airs Problems

MORE interesting news presentation and fewer newscasts were chief suggestions forwarded by a three-man panel representing network radio, local station and advertising agency on "How to Improve the Saleability of Radio News" at the Los Angeles Radio News Club meeting March 10.

Frank (Bud) Berend, NBC Western Division sales manager, spoke for network radio; Clyde Scott, manager of KECA Hollywood, represented local stations, and Thomas C. Dillon, vice president of BBDO, gave the agency slant. All panel members agreed that newscasts for the most part needed livening up and more emphasis on human interest and local angle. They further urged more up-to-the-minute reporting of the news. A discussion followed the talks.

March 20, 1950 • Page 33
GENERAL FOODS 

GENERAL FOODS will use more radio in 1950

The corporation's net sales reached a new high of $474,837,198 during 1949, compares with sales of $453,336,031 during 1948.

It was the 16th consecutive year in which net sales for the company surpassed any previous year. Net dollar earnings were also the best in company history with $27,550,941, equal, after preferred dividends, to $4.77 a common share. In 1948 net earnings were $24,555,752, or $4.25 a common share. There were 5,575,483 shares of common stock outstanding both years.

$13 million in dividends

Out of the $27 million in earnings, $13 million was paid in dividends to holders of common and preferred stock. The remaining $14 million was retained in the business.

"Although television made great strides in its development as an advertising medium in 1949, we continued to spend most of our advertising dollars in magazines, newspapers, and on radio. We invested more money in advertising last year than in 1948. The additional investment was necessary in order to produce higher sales and better earnings," Mr. Francis stated in the report.

As the commercial value of television grew in 1949, General Foods added to its television shows. In March, Sanka coffee began sponsoring The Dressed program telecast Monday, 9:50-10 p.m. EST. Maxwell House coffee

"Best Dressed"

TED CAMPEAU, president of CKLW Windsor-Detroit, was chosen one of the 10 best dressed men in Canada for 1950 at the Canadian Men's Apparel Fair held at Toronto March 9-10. List of 10 best dressed men was headed by Canada's governor-general, Viscount Alexander of Tunis. Ted Campeau was one of four business men in the group, and was chosen as an "immaculate exponent" of good grooming.

McDonald at Boston

JOSEPH A. MCDONALD, ABC vice president and general attorney, spoke on some of the legal aspects of the broadcasting business at the monthly luncheon meeting of the Boston Radio Executives Club March 8. Head table group also included President Craig Lawrence, WOCB Boston general manager, and the five-newly elected directors: Harold E. Fellows, WEEI Boston general manager; Gerald A. Harrison, president of WMSA Springfield and WLLH Lowell; Paul Provandie, Paul Provandie Inc. agency; Stacy Holmes, E. A. Fiene Sons, and Bert Georges of Transact Corp.

KFV's Los Angeles Harlem Matinee has added half-hour daily to its Monday through Saturday hour schedule.

STATION TAX

TAXATION of radio and television stations in Virginia by cities, towns, counties and other local governmental units is forbidden under legislation signed by Gov. John S. Battle. The bill had passed both houses of the overwhelming margins [Broadcasting].

The Virginia action marks the first halting of the trend toward exacting of local taxes from broadcasting and television stations. With the industry serving as the latest victim of tax-hungry cities and counties, the Virginia legislation provides a means by which other states can stop local governments from assessing taxes.

Burden of the fight to obtain passage of the Virginia bill was carried by the Virginia Assn. of Broadcasters, of which Phillip P. Allen, WLVA Lynchburg, is president. Among those active, besides Mr. Allen, were C. T. Lucy, WRVA Richmond, chairman of the VAB Legislative Committee, and Frank U. Fletcher, WARL Arlington, an NAB board member.

The Virginia taxes had been instigated by the Municipal League of Virginia. In Arkansas the idea of municipal taxes was developed at Little Rock. Protest against the tax was made by Little Rock stations whose position was upheld by a lower court. On appeal, the state's highest court reversed the lower tribunal and the U. S. Supreme Court would not hear an appeal on the ground there was no federal question.

Text of Va. Law

Text of the Virginia bill, as passed by the House and Senate: A BILL to amend and reenact §§ 58-266.1, 58-266.2, and 58-266.3 of the Code of 1950, relating to city, town and county license taxes, so as to prohibit cities, towns and county levying such taxes for radio or television broadcasting.

Be it enacted by the General Assembly of Virginia:

That §§ 58-266.1, 58-266.2, and 58-266.3 of the Code of 1950 be amended and reenacted, as follows:

§ 58-266.1. City and town licenses; newspaper exempt. In addition to the State tax on any license, as hereinafter provided for in this chapter, the council of a city or town may, when anything for which a license is so required is to be done within the city or town, impose a tax for the privilege of doing the same and require a license to be obtained therefor; and in any case in which they so do the same, they may require from the person licensed a bond, with sureties in such penalty and with such condition as they may deem proper or make other regulations concerning the same.

No city or town shall impose upon or collect from any person any tax, fine or other penalty for selling farm or domestic products within the limits of any such town or city outside of the regular market houses and sheds of such city or town; provided, such products are grown or produced by such person.

No city or town shall require a license to be obtained for the privilege to print or publishing any newspaper, or for the privilege of right of operating or conducting any radio or television broadcasting station or service, any charter provisions to the contrary notwithstanding.

§ 58-266.2. Licenses in counties with county manager form of government. The governing body of any county which has adopted the county manager form of organization and government provided for by November 20, 1971, is hereby authorized to levy and provide for the assessment and collection of county license taxes upon businesses, trades, professions, occupations and callings and upon the persons, firms and corporations engaged therein within the county, whether any license tax be imposed thereon by the State or not, provided that no county license tax shall be levied in any case in which the levy of a local license tax is prohibited by any general laws of this State, and provided further that no such county shall require a license to be obtained for the privilege or right of operating or conducting any radio or television broadcasting station or service.

§ 58-266.3. Licenses in counties without county manager form of government. The governing body of any county which has not adopted the county manager form of organization and government is hereby authorized to levy and provide for the assessment and collection of county license taxes upon businesses, trades, professions, occupations and callings and upon the persons, firms and corporations engaged therein within the county, whether any license tax be imposed thereon by the State or not, provided that no county license tax shall be levied in any case in which the levy of a local license tax is prohibited by any general laws of this State, and provided further that no such county shall require a license to be obtained for the privilege or right of operating or conducting any radio or television broadcasting station or service.

FEDERAL Trade Commission has entered a complaint against Koke Cos., Inc., St. Louis, alleging the firm's product, Vanish, is not a cure or an effective treatment for dandruff contrary to its representations in radio and periodical advertising. The FTC maintained in its complaint that Vanish "does not have any beneficial therapeutic effect in the prevention, treatment, or cure of unhealthy scalp or hair conditions, and it will not promote the health of the scalp or hair." Firm was given the usual 30 days in which to answer the complaint.

service, any charter provisions to the contrary notwithstanding.

§ 58-266.2. Licenses in counties with county manager form of government. The governing body of any county which has adopted the county manager form of organization and government provided for by November 20, 1971, is hereby authorized to levy and provide for the assessment and collection of county license taxes upon businesses, trades, professions, occupations and callings and upon the persons, firms and corporations engaged therein within the county, whether any license tax be imposed thereon by the State or not, provided that no county license tax shall be levied in any case in which the levy of a local license tax is prohibited by any general laws of this State, and provided further that no such county shall require a license to be obtained for the privilege or right of operating or conducting any radio or television broadcasting station or service.

§ 58-266.3. Licenses in counties without county manager form of government. The governing body of any county which has not adopted the county manager form of organization and government is hereby authorized to levy and provide for the assessment and collection of county license taxes upon businesses, trades, professions, occupations and callings and upon the persons, firms and corporations engaged therein within the county, whether any license tax be imposed thereon by the State or not, provided that no county license tax shall be levied in any case in which the levy of a local license tax is prohibited by any general laws of this State, and provided further that no such county shall require a license to be obtained for the privilege or right of operating or conducting any radio or television broadcasting station or service.

No such county shall require a license to be obtained for printing any newspaper, or for the privilege or right of operating or conducting any radio or television broadcasting station or service.

FEDERAL Trade Commission has entered a complaint against Koke Cos., Inc., St. Louis, alleging the firm's product, Vanish, is not a cure or an effective treatment for dandruff contrary to its representations in radio and periodical advertising. The FTC maintained in its complaint that Vanish "does not have any beneficial therapeutic effect in the prevention, treatment, or cure of unhealthy scalp or hair conditions, and it will not promote the health of the scalp or hair." Firm was given the usual 30 days in which to answer the complaint.

SALES AIN'T POPPING LOUD IN CORK (Ky.!)!

If you think it will do you any good to put the advertising screws on Cork (Ky.), Mister, you're bubbling over with a case of Pollyanna-itis! Cork simply doesn't have the people or the dough to produce a sales-geyser!

But if Cork's crew can't help you, the Louisville Retail Trading Area certainly can! Its 27 Kentucky and Indiana counties are effervescent with high-proof people, business and money—almost as much business and money as in all the rest of the State combined. And WAVE pours out its soul to this one great market exclusively!

Shall we start pouring for you—now?

ARE YOU MAKING YOUR BEST BUY IN CHICAGO?

If you’re on WGN in Chicago, your answer is “yes”. Because advertisers and agencies all over the country recognize WGN as the top power and prestige station in Chicago ... the station that gets results. When they have a choice of local stations, WGN is tops on the list.

Of the four network stations, WGN consistently carries more local business than any other.

This is strong evidence to consider when placing your clients’ advertising. Take your cue from other dollar-wise advertisers. Take advantage of WGN’s responsive listening audience.

Remember, too, for years WGN has reached more people each week than any other Chicago station.*

This is CBS... WHERE 99 MILLION

This is the biggest market place in the world... bigger than any other place where people go to find the things they want to buy.

Where else do so many people get together, week after week—from every part of the country?
Where else can you find 25 million people standing in front of the same counter at the same time focused on the same product? Only in Radio.

In all radio CBS draws the largest crowds—a million and a half more customers than any other network.

And every year these crowds of customers grow bigger.

That's why, when America's leading business men offer for sale the things most people want to buy, they showcase them in the biggest and busiest market place in the world...The Columbia Broadcasting System
Editorial

The Fee-Bite

IN THE QUEST for new money to meet expanding cost of Government, two separate moves are under way in Congress which would assess license fees, franchise taxes or other impositions upon users of Government service. Radio, as always, is singled out as a latent source to be tapped.

How far these projects will go we do not know. Every other attempt in the last dozen years has met with the obvious discrimination against radio. This year, however, the pressure is on — not necessarily against radio, but all new revenue sources.

It is significant that the FCC is the first to pop up with a written report to the Senate suggesting how its licensees can be tapped. The Senate Committee asked for comments on Feb 20 and got its report on March 8. That's about as fast a job as the FCC has ever done, and within the last fortnight, the FCC elapsed time in handling the simplest of applications.

We won't belabor the pros and cons of radio license fees or franchise taxes now since hearings obviously will be held before any definitive action occurs. A bit of simple arithmetic: The FCC uses a budget of about $7,000,000. Let's say that half goes to the mass radio media operations. These media did about $469,000,000 in net sales in 1949. They paid Federal taxes accordingly. They've already paid for their portion of the FCC's administration — and then some — but had no voice in the management of the FCC's affairs.

One more point. The payment of license fees or filling fees would be no hardship for the larger stations or the networks. No matter how slight, they would be burdensome to the smaller operators. Last year, according to the FCC's own statistics, 29% of the licensed stations lost money.

Take a Look, Congress!

WHEN THE Hoover Commission for reorganization of the executive branch of Government was functioning last year, both the official and private word was that it would have little or no effect upon the FCC.

That does not appear to be the case, now that President Truman has submitted his plan to Congress. It would vest in the Chairman of the FCC (and in those of other administrative agencies) almost absolute power with respect to appointment and supervision of personnel, and to the assignment of duties.

When viewed in juxtaposition with the FCC's own functional realignment announced within the last few months, the President's proposal becomes even more sweeping. Indeed, there would appear to be little need for a seven-man commission. The chairman, his new high-level advisory council (general counsel, chief engineer and chief account) and the provision for new major bureau chiefs would seem to preempt practically all the policy and executive functions that could possibly exist.

The complaint has been that the lawyers have run the FCC policy. The McFarland Bill (S-1973) which unanimously passed the Senate, and which now is being fought by the FCC staff tooth and nail in the House, would seek to correct that abuse and place responsibility where it belongs—with the seven-man Commission.

The combination of the FCC's functional realignment and the proposed plan of the President would seem to shovel new power precisely where the Senate unanimously said it should not reside when it passed the McFarland Bill.

FCC chairmen come and go. There have been eight in the 16 years of the FCC's tenure. There have been good and bad chairmen; strong and weak chairmen. Under a good chairman, the President's plan might work well. Under an unscrupulous one, dire things could happen.

The reorganization plan seems to ignore the fact that the FCC is a bi-partisan agency. Not more than four of its members can be of the same political faith. As we read the President's plan, the Chairman would control all personnel and all funds. He could hire and fire virtually as he sees fit. There might as well be a Commission of seven Democrats, or perhaps it would be just as effective to have just one member — an administrator — and thereby save the salaries and staffs of the six other commissioners.

The President's proposal premised upon direct lines of authority for the management of the "executive branch." We have never understood that the FCC is responsible to the Chief Executive alone. Congress has always maintained the institution which delegated its legislative authority because it had neither the time nor the expert knowledge to handle it.

There are aspects that need clarification. We hope Congress takes a good, hard look before permitting the plan to become effective. That happens automatically unless House or Senate or both act within 60 days.

Signs of Our Radio Times

A FEW WEEKS AGO the All-American Conference against Communism was held in New York. The Administration is sponsoring legislation to broaden and make permanent the loyalty program for Federal employees in so-called "sensitive" agencies. Communism has taken over China and its seething millions. The Soviet presses into non-Communist Asia and Europe. The Berlin blockade is on-again-off-again. Soviet delegates keep the UN doors revolving with their walk-out threats and there's the go-ahead on the hydrogen bomb.

All this means more to radio than news of this turbulent day. It is of the very essence of radio.

The All-American Conference at its Jan. 29 meeting expressed this vital point. There was specific mention of the "steady infiltration" of Communism into radio—as well as into the schools, colleges, press and screen.

We have called attention before to the tendency in radio to give short shrift to talk about Communist activity boring-in. Communists and Communist sympathizers have no place on our air or even behind the microphone.

Though most people have forgotten it, we are still in a state of national emergency. Therefore it is the duty of broadcasters to accept this fact that those actions contrary to our form of government be excluded.

The insistence of the labor unions that they will assume the burden is interesting but of little importance. It is not their responsibility. Look at the history of World War II and the Axis Sallys and the Lord Haw-Haws: of armed guards around stations and no admittance signs at studios; and of no audience-participations or man-on-the-streets.

Perhaps a microphone in the hand of an Orson Welles some years ago brought pandemonium when he depicted an illusory invasion from Mars. What might a Communist do with a story on a hydrogen bomb invasion even today?

(Continued on page 42)

Our Respects To —

WALTER CECIL BRIDGES

IN VIGOROUS Great Lakes country, sailing as a way of life calls for the skilled hand of a weathered seaman. A sailing addict, Walter Cecil Bridges, steel-eyed manager of the Arrowhead Network, directs his radio enterprise with a sure and sharp eye. He displays in maneuvering a lake-traveling boat.

That direction—the building of a sound regional group of stations—has never been allowed to swerve from a Bridges-chartered course. And affable but blunt-spoken Mr. Bridges will tell you that his future may someday materialize in the organization of a network double the size of Arrowhead's present six stations.

Mr. Bridges, 35, although a radio pioneer, has the appearance and energy of the seasoned youth who has only started a career of network building.

Walter Cecil Bridges was born Sept. 28, 1896, in Arcola, a typical medium sized southern Illinois town. Here Mr. Bridges spent his boyhood days, completing grammar and high school. His father, Walter Nelson Bridges, was in the poultry business. He now lives in Ohio. The art of broadcasting was then still an image in the minds of practical dreamers, of whom Walter Bridges was one.

A wizard at tracing circuits and putting things together on a workable basis, Mr. Bridges first tested his radio legs as an amateur operator in 1913. The first World War, marking stepped-up sound wave experimentation, found Mr. Bridges in Navy uniform, receiving his first sound instruction. His Navy stint took in the years from 1917 to 1922.

Upon discharge from the Navy, Walter Bridges plunged into the work which was to be his lifetime career. Business experience began in 1922 with the formation of the Superior Radio Co. in which he and a partner manufactured radio sets. While producing receivers, Mr. Bridges decided to have a look-in on the other end with the business—broadcasting.

This desire blossomed into his first enterprise on the air, WFAC with 100 w at the head of the Great Lakes. Later, when the Superior Radio Co. dissolved, Mr. Bridges in 1924 started WEBC Duluth, Minn., now the 5 kw key station known as All-Red and licensed to the Head of the Lakes Broadcasting Co. Mr. Bridges is general manager of the station.

Looking back on his long span of radio experience, Mr. Bridges finds the most satisfaction in the realization of his dream of many years—the creation and maintenance of a suc-

cessful regional network.

He is a believer in sound broadcasting. It is his opinion that AM broadcasting will long outlive those in the business who are gloomily predicting its demise. While an energetic preacher of AM radio, Mr. Bridges also is an unerring booster of FM. He says FM is technically sound and that it is only a matter of time before frequency modulation will be the system preferred for sound broadcasting.

In the same breath, he shuns the prediction of immediate radio-replacement by television. While he doesn't ignore its existence—a high possibility today—the Arrowhead keynoter sees TV as too costly, particularly to the advertiser who pays the bills. It is Mr. Bridges' opinion that the operating cost of video must be reduced and technical refinements advanced.

Having probed his way in broadcasting by acquiring an intimate knowledge of its engineering parts, he is uninhibited when it comes to radio planning and production. Instead of thinking in past radio terms, Walter Bridges sees a new avenue of approach opening up in commercial radio. His approach to radio is based upon the belief that productions must be improved and that the advertiser should get his deserved return on the dollar. Mr. Bridges brushes aside the term “announcers” and refers to the men at the microphone as “air salesmen.”

On this same theory he calls radio salesmen “merchandising salesmen in radio.” The latter, he says, must do something for the advertisers and not be just order takers.

In the Bridges office, the accent is not so much on getting contracts as it is on getting results from contracts and renewals. In this way, the follow-up on sales in the Bridges organization keeps the advertiser first in mind. And it is this philosophy which Mr. Bridges believes will make his network the strongest in regional merchandising and permit expansion.

‘Human Dynamo’

Walter Bridges is a constructive man. Short, weighing about 160 lbs., usually hatless, and bubbling with energy, he resembles in many ways the proverbial human dynamo. It is said about Arrowhead that Mr. Bridges gives drive to any man who works with him.

A devotee of good music such as opera, ballet and symphony Mr. Bridges also can be found listening to a hot jazz number. While he pours through countless volumes of classical literature for intellectual fare, he is equally at home with a detective yarn.

At Superior, Wisc., Mr. Bridges lives a modest life, maintaining a simple home that has housed his family for many years. His wife is the former Ella Gleason. They have one daughter, Mary Gleason Bridges.

He works constantly to improve his company’s station at White Pines Lake in Wisconsin. As an outdoor man, Mr. Bridges spends a good amount of his hobby time cultivating various types of shrubbery and trees. In addition to his forestry abilities, he raises pet animals and then releases them from their wired homes to return to the wilds of the woods surrounding the location.

A hard-working community man, Mr. Bridges is member of the American Legion and Kiwanis Club, among others. And, not content to leave radio “at the office,” he maintains a 1 kw amateur transmitter and radio tower at his summer home. Radio not only is his livelihood and first interest but also his perpetual study.

POLITICAL TIME

Young Answers Taft Charge

SEN. ROBERT TAFT’S charge that the President “commandeers at will” time on all four radio networks has been branded by Stephen M. Young (D-Ohio) as “an irresponsible statement, an insult to the free enterprise broadcasting industry, and an affront to the American people.”

Rep. Young, speaking on behalf of the Democratic Party, offered his rebuttal on Bert Andrews’ weekly ABC broadcast Feb. 26. A week earlier, on a similar broadcast, Sen. Taft (R-Ohio) had accused the party of operating the “biggest” propaganda machine in political history, and charged that President Truman could “commandeer” network time anytime he felt inclined. Sen. Taft referred specifically to the President’s Jefferson-Jackson Day address carried by all networks.

Rep. Young said that each network was notified of the speech and decided independently to carry the broadcast. “Senator Taft probably forgets... that radio is a private enterprise and that each network does its own programming,” he added.

Both Comment, official organ of the Democratic National Committee, in denying the Taft charges noted that “on virtually every occasion in the last three years when Republicans have asked for and received time to answer Presidential speeches, Taft has appeared on the Republican broadcast.”

ACWU PLANS
More Radio-TV Use Seen

WITH at least $14,000 of a new $500,000 advertising budget initially appropriated to radio, Amalgamated Clothing Workers Union (ACWU) is further eyeing radio and television to put across its institutional “buy a union-label suit” message.

ACWU invaded the radio field for the first time March 7 in New York with sponsorship of ABC’s “Town Meeting of the Air” over WJZ New York. The union previously had not used radio. Union and agency officials think it may well double its overall ad allocation (to an even $1 million) at the national conference in Cleveland May 16. Such a resolution now is in the mill.

While radio plans hinge on the outcome of the meeting, radio and television spot campaigns probably will be explored if additional funds are made available, according to George Pampell of Ben Sackheim Inc., New York, which handles the union account. He conceded that use of both media already has been mulled, and added that TV is a “natural” for the label campaign.

Pat Buford

WORD has been received of the death Feb. 12 of Pat Buford, 47, former owner and manager of KRGB Okmulgee, Okla., in a McAllen, Texas, hospital, following a brief illness. Mr. Buford operated KRGB from 1939 to 1949 when the station was sold to the Times Publishing Co. He moved to the Rio Grande Valley last October. He leaves his wife and three sons, all of McAllen.
No question about the really BIG voice in this rich Midwestern market! It's WOWO. In survey after survey, WOWO programs lead in listenership... morning, afternoon, and night.

And remember... when you buy WOWO, you're not buying just the prosperous area within Fort Wayne's city limits. You're buying an urban-and-rural market that covers 49 BMB counties! You're buying a loyal station-audience of nearly 300,000 Radio Families. That's as big as St. Louis! For availabilities, check Paul Mills at WOWO—or Free & Peters.
TRANSFER

FCC Dismisses Application

TRANSFER application of WHOL Allentown, Pa., filed in early Feb-

uary to reflect ownership changes, was dismissed by FCC last week on

the ground that no transfer can take place since the station authorization

technically has been set aside for further comparative hearing

[BROADCASTING, Feb. 27]. WHOL was allowed to continue operations

pending a new decision.

The Commission dismissed the transfer bid without prejudice to the

station's filing an amendment to its original application to bring

it up to date. Deadline for the amendment was extended to April

11. FCC's action in effect renders moot the petition filed by Easton

Pub. Co. March 10 requesting dis-

mission of the transfer on ground it

unjustly favored WHOL's competitive

position in the case since the changes

strengthened WHOL's financial

status, an issue in the proceeding

[BROADCASTING, March 13]. Easton Pub. Co., operator of WEX (FM) Easton, was loser in

original case for 1250 kc assign-

ment.

College Network

CLAIMED by its participants to be the first direct line intercollege

broadcasting network in the coun-

try, the Pioneer Broadcasting Sys-

tem will have its formal opening

and first official broadcast on

Wednesday evening (March 22) at

Smith College. The network is

conceived of student-operated sta-

tions WAMP Amherst College,

WMUA U. of Massachusetts and

WCSR Smith College. Student

heads of the college stations point

out that the joint programming

will enable each station to extend

its time on the air to 69 hours a

week and to reach about 9,000 lis-

teners.

LINEUP of newly elected officers and directors of the

Illinois Broadcasters Assn. [BROADCASTING, Feb. 27] in-

cudes (1 to r): Leslie C. Johnson, WHBF Rock Island,

vice president; J. Roy Livsey, WLBH Mattoon, secretary-

treasurer; Harold Safford, WLS Chicago, president; and

Directors Arthur Horre, WJJD Chicago; Charles Caley,

WMBD Peoria; Merrill Lindsay, WSOY Decatur, and

Charles Cook, WJFF Herrin. Election was held at the association's annual meeting at the Leland Hotel in

Springfield, Ill.

NAB DUES

Goldman, Shaffer Defend Rise

TWO NAB members have come to the association's defense in re-

sponse to criticism of the board's recent increase in dues paid for

the four lower income brackets.

Simson R. Goldón, WJTN Jamestown, N. Y., chairman of

NAB's Radio Committee, suggested M. Robert Rogers, vice president

and general manager of WQQW Washington, who protested the in-

crease [BROADCASTING, March 6], was in effect saying, "Dollar for

dollar, I didn't have a fire, so, therefore, I'll cancel my insur-

ance."

Mr. Goldman said newspapers, lawyers, doctors and other groups

have been allowed to pay for use by small broadcasters on the local level..."

He continued:

Secondly, BAB is selling radio throughout the country, which means

that every broadcaster, big or small, will benefit. The spearhead attack

in response to TV advertising is a good example. Perhaps WQQW will even

get some of that business, due to BAB's leadership. Mr. Rogers admits

that the employee-employer department of NAB has saved him and other broad-

casters thousands of dollars. But he doesn't appreciate the work being done

on the other fronts in behalf of the industry by NAB. Sometimes the

benefits are much bigger and broader, and include not only the individual

but his fellow broadcaster as well.

Shaffer Letter

Sales techniques developed by BAB "helped us at WJER [Dover, Ohio] get off to a flying

start," General Frank E. Shaffer last week wrote Mr. Rogers.

Mr. Shaffer added:

WJER is mighty small compared to WQQW but we have had wonderful cooperation from BAB. On one prob-

lem I picked up the phone and got an immediate answer from Mitch [Maur-

rice B. Mitchell, director]. On many occasions I have had my queries an-

swered by letter more promptly than one might imagine considering their

composition of small staff.

The increase in dues is going to hit us with a new operation (on the air

for 25), but we believe that we will receive many dollars for each one spent,

even though our dues were to go for no other purpose than to keep

BAB alive.

Thwing & Altman

IN AN item appearing in BROAD-

CASTING, March 13, agency for

William H. Wise, sponsor of Get

More Out of Life on CBS, was in-

correctly identified. Agency for the

publisher is Thwing & Altman,

New York.
In Detroit, WWJ is more than a great radio station ... more than a source of entertainment for the nearly one million homes in the Detroit area. WWJ, Detroit’s FIRST station, has consistently been the leader in community service and enterprise.

Its acceptance by advertisers is indicative of the faith Detroit has in its voice. One of America’s leading advertisers has consistently employed WWJ daily with an hour-long program for 16 years.

When you give your product story the benefit of WWJ’s community acceptance, it receives added prestige, more attentive ears, less selling resistance ... resulting in increased sales in a market that did three billion dollars retail business last year!
Mr. and Mrs. faithful New.

1946 each headed SESAC. The flows favorites. "deteriorating" White House news conference, Ray Hanle, of Sunoco’s 3-Star Extra, NBC news feature, told the 20th Century Club at Buffalo, N. Y., on March 2. Mr. Henle suggested newsmen write out subjects for Presidential discussion hours in advance of each news conference, thus permitting the President ample time to look into a given subject.

The radio newsmen warned that the conference may become a thing of the past if exclusive interviews are granted by the President to “trained seals” and “personal favorites.” He said the news conference is the bridge over which flows information between the President and the general public.

If this system were destroyed, he said, the channel not only would be cut off but exclusive interviews could lead eventually to a reporting only of the news favorable to the President.

Deterioration, Mr. Henle said, has set in because of the wide range of questions—a good many of them insignificant—which are fired pell-mell for the President to answer. Current operation of the White House news meeting elicits information from the President in a “disordered, haphazard manner,” he said. The written question, requiring news conference preparation, Mr. Henle concluded, would avoid any trend toward the exclusive interview.

U. OF ARIZONA games in National Invitational basketball tournament at Madison Square Garden aired by KTUC Tucson and Arizona Network, via direct lines from Garden to Tucson.

Canadian Awards

SECOND ANNUAL Canadian Radio Awards under the sponsorship of the Canadian Assn. for Adult Education, Toronto, are to be announced in May. Three times as many entries have been received as last year, a total of 160, including many French-language programs. The largest group of entries are in the “community service” and “social and public issues” categories, with talks, music, drama and children’s programs following. Radio committee is headed by Wil McQuillen, radio director of Cockfield, Brown & Co., Toronto advertising agency, and includes T. J. Allard, Canadian Assn. of Broadcasters, Ottawa; Neil M. Morrison, CBC, Toronto; Frank Peddie; representing radio artists, Toronto; and J. R. Kidd, secretary of the sponsoring body.

CHARLES POWELL joins WCSI (FM) Columbus, Ind., as news editor and special events reporter. He previously was with WAOV Vincennes, Ind.

BOB NEAL, for past four years with WGAR Cleveland, as play-by-play announcer of Cleveland Browns football team and sports director, moves to WERE same city, as sports director.

Before joining WGAR, he was with WISM Lansing, Mich.

MacDONALD HOMES appointed director of farm service of CFRN Edmonton. He joined CFRN in 1946 after five years overseas with Canadian Army, is member of Agricultural Institute of Canada, secretary-treasurer of Edmonton and District Agricultural Society, and before war was advertising agency account executive at Toronto.

MRS. FRANCES JARMAN, women’s news editor of WDNC Durham, N. C., is winner of women’s commentator contest recently conducted by Wendy Warren and the News on CBS to select best local news story submitted by woman radio reporter.

PUBLICITY COPY

Oklahoma U. Publishes Guide

PATTERNS OF PUBLICITY COPY. By Steve Harmon, Oklahoma, U. of Oklahoma Press. 139 pp. $2.75.

TOP-FLIGHT publicists, the stories they prepare for newspaper publication and the devices they use in preparing their stories, are discussed in this volume, as a guide to writers in this field.

Book is aimed at publicists, students and teachers as a manual for the creation of copy—from the idea, through research, editing and the final draft. The book includes comments on publicity copy writing by George Crandall, CBS director of press information; Sidney H. Eiges, vice president in charge of the NBC press department, and Jim O’Bryan, MBS director of press relations.

RRN Baseball Off

PLANS for feeding New York Yankee baseball broadcasts to the 11-station Rural Radio (FM) Network have been abandoned, Michael Hanna, general manager of RRN and WHCU-AM-FM Ithaca, N. Y., said last week. The plan was shelved at the suggestion of the Yankee management, which questioned the last practicability of radio relay feeds by WHCU to other RRN stations. Weather conditions and other factors bearing on reception were involved in the decision, Mr. Hanna said.

LITTLE theatre production of "The Philadelphia Story" in Portsmouth Ohio, featured Bob Whittaker, newsman and announcer, John Michaels, announcer, and Ann Evans, promotion director, of WPAY-AM-FM that city.

agency chairman New sound a story session

AAAA (Continued from page 26)

will be reviewed that morning in a session to be introduced by Fairfax M. Cone, Foote, Cone & Belding, AAAA vice chairman.

A program on the AAAA's agenda are George Reeves, J. Walter Thompson Co., who will view the Wheeler-Lea act governing advertising content, and Julian L. Watkins, H. B. Humphrey Co., agency copy.

Saturday sessions will include a preview of the new $40,000 sound and full-color animated motion picture that will review work of the American free enterprise system. A first draft of the film also will be shown at the ANA meet. Mr. Cone will preside.

Other sessions will cover developments of the advertising research foundation; the new BMB study (No 2) with Albert Dempe- wolff, Celenese Corp., and BMB director as speaker; the 1951 census, discussed by Dr. Verral Reed, J. Walter Thompson Co.; and advertising public relations. Mr. Broekway on the AAAA agenda of the Advertising Council Inc. He is chairman of the council's executive committee. In conclusion Mr. Pea- body will trace the attitude toward advertising as reflected in 1941 and the progress it has achieved.

Thursday Sessions
Closed circuit sessions Thursday will begin with an executive ses- sion and election of officers and di- rectors, and a proposal to incor- porate AAAA as well as an AAAA member group insurance plan. Other discussions will center on agency management problems. Of- ficer and director nominations will be submitted by the AAAA advisory council headed by Thomas D'A. Brophy, Kenyon & Eckhardt, New York.

A board of directors' organiza- tional meeting will be held Thursday at 5 p.m. when the board will elect an operations committee to meet monthly in intervals be- tween board meetings. 1950 associ- ation budget also will be up for approval.

Members of the board of gov- ernors of the six AAAA regional councils and 13 local chapters will meet Wednesday prior to opening of the convention.

A hospitality committee, headed by Mrs. Clarence Gosher, will handle arrangements to entertain the 150 ladies expected to attend. Miss Elaine Carrington, radio script writer, will address a ladies' luncheon affair Friday. A ladies' golf tournament for members and guests, with gross, net and four- some prizes, will be held that after- noon.

Opening session of the ANA Wednesday March 29 will go into the theme "What I Expect From Advertising Today." Participants include James J. Nance, Hotpoint Inc., on the top management view- point; Ben Wells, Seven-Up Co., on the sales viewpoint, and Philip Liebmann, Liebmann Breweries, on the advertising manager's view- point.

A "midget musical" will be en- titled "The ANA Hot Springtime Review," featuring the Satuki Marionsettes and words by Warwick & Legler.

Sandberg Presides

Problems of industrial adver- tisers will be taken up Thursday morning with L. Rohe Walter, Plum Boro Co., as keynoter. Taking part will be F. E. Gregory, A. O. Smith Corp.; M. Russell Kambach, J. M. Sharp, Aluminum Co. of America; Russell Applegate, Gil- bert Co., Detroit.

A. W. Lehman, managing direc- tor of the Advertising Research Foundation, will speak on business paper studies conducted by the foundation. William H. Collins, Dravo Corp., will review results of the TTI survey of industrial ad- vertising.

Thursday afternoon's agenda in- cludes a discussion of ABC by Thomas H. Young, U. S. Rubber Co. Marion Engle, president of McCann-Erickson, will speak on the topic "What Price Television," with a panel discussion following. Radio and Television Panel will be moderated by A. N. Halverst- Procter & Gamble Co. Taking part will be Mr. Harper; Niles Tram- mell, NBC board chairman; Frank Stanton, CBS president; LeRoy Bush, Compton Adv.; A. C. Nielsen, head of A. C. Nielsen Co. Two others will be named later. Panel topics range from TV impact on radio listening to the PCF "freeze" and the prospects for color.

Friday Agenda

Friday morning's program in- cludes a talk, "The Advertising Plan- ning by W. B. Potter, Eastman Kodak Co., AAAA board chairman. Guy Berghoff, Pittsburgh Plate Glass Co., and David Tibbott, New England Mutual Life Insurance Co., will speak on the public relations campaign to promote understanding of industry and advertising. Fred Willkie, Joseph E. Seagram & Sons, will discuss community relations.

A. O. Buckingham, directing an ANA study of advertising budgets, will discuss his findings. Stuart Peabody, Borden Co., will explain work of the Commerce Dept. Ad- vertising Advisory Committee. Cyrus Ching, U. S. Federal Media- tion Director, will review labor.

At the Friday luncheon Philip Graham, publisher of the Wash- ington Post (WTOP), will wind up the three-day meeting with an inter- pretation of national and world events and their impact on business and advertising. The delegates will leave Friday afternoon for the joint session with AAAA.

THAT honorary degree makes Bob Henderson (r), KOIN Portland, Ore., morning man, "doctor of diapers." The "OCC degree" bestowed on Mr. Henderson by John D. Gross, owner of Parkrose Work and Play Pre-School, Portland, in appreciation of the m. c.'s announcements on The KONI Knock which informed snowed-in kiddies as far away as 150 miles that their local schools were to be shut down during a Pacific Northwest blizzard.

NAB Convention

(Continued from page 26)

ton, Ill., is expected to discuss how all four of these services can be maintained profitably.

Matthew H. Bonerbrake, KOY- FM Oklahoma City, chairman of the FM Committee, is scheduled to preside at Chicago. The committee has asked him to discuss FM net- working since KOY-FM feeds a combined AM and FM hookup.

The morning's program is ex- pected to show FM stations how to make money, with supporting case histories to be cited. Speakers will be invited to present both sides of the AM-FM duplication argument. If time permits, a question-answer session will be held.

Among topics to be taken up at the session will be a proposal to hold a National FM Week during the summer. This event would not be directly sponsored by NAB but would be designed to bring togethers all groups and persons interested in development of FM broadcasting for an intensive pro- motional effort.

KCMM Farm Tour

KCMM Kansas City's 25 "touring farmers," now on a farm inspection swing through Europe [BROAD- CASTING, Feb. 6], received official welcome to Paris by Mayor George DeGaule of Paris. Charles DeGaule, station has reported. After the meeting, KCMM said, each member of the party studied first hand French farming and ag- riculture conditions and spent the night at a home of a French farmer. KCMM's Director of Agriculture C. W. Jackson is accom- panying the tour.

Radio's Duty

Catholic Meet Hits Shows

CHARGE that radio and television programs "are failing to meet their responsibility to the family" was voiced Wednesday in Detroit at the 18th annual conven- tion of the National Catholic Con- fere on Family Life. Business and radio television leaders were urged to present more programs with "principles of family life." Noting that the sponsor "has much to say as to what is put on the air," Michael Hobbs, radio chairman of the Detroit Archdio- cesan Council of Catholic Men, told the 500 delegates "radio and tele- vision fill the need for entertainment, recreation and relaxation for the family, but too often they miss the source of the principle of family life. He added that an increase in strict religious programs is not necessarily needed, but rather a much greater integration of re- ligious principles into every pro- gram.

BROADCASTING • Telecasting
TWO OUT OF THREE

The 1949 Alfred I. duPont Radio Awards

ONE—to Morgan Beatty, NBC's ace newsman, heard daily at 7:15 p.m. (EST) on News of the World, sponsored by Miles Laboratories, Inc.
the 1949 Alfred I. duPont Radio Commentator Award for:
Accurate coverage of the day's biggest news stories.
Expert analysis of world and national affairs.
Reliable interpretation of significant events.
Aggressive reporting of the news as it happens.
Consistently excellent gathering and reporting of news by radio.

Just as Morgan Beatty has distinguished himself in 1949... So NBC newsmen and correspondents have always been the recognized leaders in gathering and reporting the news with traditional accuracy and timeliness.

TWO—to our longtime affiliate, WWJ, Detroit, one of the two 1949 Alfred I. duPont Radio Station Awards for:

"Outstanding and meritorious service in encouraging, fostering, promoting and developing American ideas of freedom... Loyal and devoted service to the nation and to the community served."

This honor is particularly timely in 1950 as pioneer station WWJ rounds out a quarter century of operation. From its first broadcast, WWJ has been a notable example of American radio at its best.

NBC... America's No. 1 Network

The National Broadcasting Company
A service of Radio Corporation of America
FCC Reorganization
(Continued from page 27)
ceeding John A. Willoughby, who has been acting chief since January 1948, while the incumbents in the other offices—General Counsel Benedict P. Cottone and Chief Accountant William J. Norfleet were appointed to the same positions in the realigned organization.

At the same time it was announced Mr. Willoughby will be assistant chief engineer; Harold J. Cohen, assistant general counsel in charge of common carrier division, will head the new Common Carrier Bureau; William K. Hall, acting executive officer, will get permanent status in that post, and Examiner J. Fred Johnson Jr. will be the Commission's Chief Hearing Examiner.

Plotkin Likely Candidate
Harry M. Plotkin, assistant general counsel in charge of broadcasting, who has figured in most FCC activity in the broadcast field over the past several years, is regarded as the most likely candidate for the important post of chief of the new Broadcast Bureau.

In the establishment of the Common Carrier Bureau, appointment of an assistant to Mr. Cohen and discussion heads is expected some time this week or early next. The entire bureau is tentatively slated to establish quarters in Temporary Bldg. "T", at 14th St. and Constitution Ave., NW, Washington.

BOND DRIVE
Planning Meeting Slated
THE TREASURY Dept.'s savings bond campaign and plans for its continued expansion are slated for discussion by Treasury officials and leading broadcasters and telecasters in conferences to be held in Washington this week.

Department officials said about 30 sound broadcasters had been asked to attend a meeting on Tuesday and that approximately the same number of telecasters had been invited to a similar meeting on Wednesday. An industry committee may be formed to help develop campaign policies.

EMPLOYE luncheon followed by a show featuring old-time entertainment, was part of the celebration occasioned by WSYR's 25th anniversary, March 2. James D. Shouse (i), board chairman of the Crosley Broadcasting Corp., cuts the cake for Rheiny Gau (center), enter-
tainer who made the first broadcast under the WLW call letters, and Robert Dunville, president of Crosley Broadcasting.

Nielsen
(Continued from page 27)
single film the minute-by-minute listening to four different receivers (either radio or TV or both). No special wiring is required as each receiver uses the electric light lines to transmit its signals to a single master recorder, which may be located in the basement or any other part of the house.

Many of the new mailable Audiometers have already been installed in radio homes throughout the country, and the New York Nielsen TV Index has relied largely on this new type since inauguration of the service in August 1949, thereby cutting report delivery time by 60%.

As his service grows, Mr. Niel-
son hopes to reveal to the industry more clearly the folly of percentage ratings. To comply with established custom, he shows percentages, but also the total number of radio families they represent.

"The only true circulation of a program is the number of families reached," he believes. "Radio is reaching and selling families, not abstract percentages. Unless a per-
centage rating can be projected to a number of families, it is nothing more than an arbitrary index of questionable value."

NRI Figures
He puts forth strong arguments for NRI's day-by-day and week-
by-week coverage, citing the fact that a certain program on WATV (TV) Newark is 57% higher during the second and fourth weeks than during the first and third weeks of each month. And during the latest four weeks Chevrolet Theatre received New York TV Nielsen-ratings which fluctuated in a range of more than 2 to 1, viz: 19%; 57%; 20%; 27%.

Another sponsor recently boasted of a weekly average of 18% of the television audience for his five-day schedule. A minute-by-minute report showed that he had 20% Monday, 33% Tuesday, 15% Wednesday, 4% Thursday and 17% Friday.

The big Tuesday increase was because the program preceded a "hot" show on the same network, and audiences tuned in early. Thurs-

day's low rating was because there was a good show opposite him and another trend was evidence in the closing months of last year, he noted.

A study of national radio-televi-
sion usage trends among all radio homes shows that in January, 24.8 p.m. (New York time), 26.5% of the homes were using radio as compared with 24.3% in December —1.8% were using TV as against 1.9% in December. Likely TV homes totaled 6% in January and 5% in December. From 5 to 6 p.m. radio usage in January was 32.5% vs. 30.2% in December—TV was only 2.3% in January and 3% in December. Total was 13% in January as compared to 12% in December. Radio usage from 8 to 11 p.m. was 56.4 in January, 34.2 in December —6.9% of homes used TV in January vs. 6.1% in December. TV's share of the total time was 16% vs. 15%.

During January, Mr. Nielsen said, combined hours of radio and television usage per total radio home per day totaled 5 hours, 11
minutes as compared with 4 hours, 5 minutes in December. In November, and 4.26 in October. Television, October to January inclusive, took 16, 18, 23 and 27% of the radio coverage ranged from 4 hours, 10 minutes in Octo-
ber to 4.20 in November, 4.31 in December and 4.44 in January.

BMB's Successor
(Continued from page 23)
ments that might be done by BAM were a subject for future discus-
sion.

Present at last Wednesday's meeting at BMB headquarters, New York, were: For NAB: Justin Miller, presi-
dent; Henry P. Johnson, WSGN Bir-
imingham; Charles Caley, WMDB Peoria; G. Richard Shaflto, WIS Co-
bram, S. C.; W. J. Smith, KFAC Los Angeles; Mr. King, Mr. Mason, Mr. Petty and Mr. McCollough.

For ANA: Paul West, president; M. L. McElyea, ANA; Lowry Crites, General Mills Inc., and Henry Schachte, The Borden Co.

GAMES of Birmingham Alabama- Barons baseball club will be aired this season exclusively by WSGN Birmingham, Mon.-Thurs. and Satur-
day. Friday and Sunday games will be broadcast by WAPI Birmingham.
WPIX First Television Station in America to win The du Pont Award

WPIX has received the Alfred I. du Pont Award for “outstanding public service … through the television presentation of current news and events.”

WPIX is pleased with the recognition and proud to serve the public interests of the largest city in the world.

“TelePIX Newsreel” 6:30 P.M. and station closing daily, except Saturdays.

“News on the Hour” 7 P.M. and station closing daily.

THE NEW YORK NEWS TELEVISION STATION
License Fee Bill  

(Continued from page 25)  

stations is the most costly function performed by the Commission.”

Following group of FCC activities were shown by the agency for which charges might be made:

(1) Radio application filings, (2) applications for authorizations under Title II of the Communications Act and Cable Landing License Act, (3) continuing regulatory or “service” activities, (4) inspections, (5) equipment tests and approvals and (6) miscellaneous filings — which would cover such items as petitions, motions, appearance and similar papers filed chiefly in connection with the conduct of hearings.

On radio regulatory functions, the FCC suggested that “charges might be assessed on a yearly basis or might be required in connection with applications for licenses and renewals of licenses.” In regard to equipment tests and approvals, the Senator said the Committee was interested particularly in the “advantage to a manufacturer.”

FCC Plans Survey  

The FCC told the committee that it plans to survey the matter of charging fees “in other instances of issuance of licenses and the rendition of other services” but that the current reorganization of the Commission has held up progress.

In its report to the committee, the FCC said a proposal had been advanced in Congress in 1932 in the form of an amendment of the Radio Act of 1927. That would have set a definite schedule of charges to be made by the then Federal Radio Commission. The bill never cleared the Senate committee which studied it, the FCC said.

Meanwhile, a spokesman for Rep. King emphasized that the congressman’s request studied by the Treasury Dept. would hinge on Congressional approval. Then would come the subsequent reporting of recommendations by the Treasury Secretary, hearings by the committee and a final draft of legislation. At that rate, the spokesman said, concrete proposals “are a long way off.”

Evidence that some radio-informed members of Congress were not over-excited or over-concerned about the license tax proposals was seen last week. Sen. Ed. C. Johnson, chairman of the Senate Interstate and Foreign Commerce Committee, said: “That tax thing has been kicking around a long time.”

While the California newspaper publisher who suggested the license-tax plan was not identified it is known that John A. Kennedy, editor and publisher of the San Diego (Calif.) Journal, had proposed a charge for the issuance of FCC licenses and for other government services [Broadcasting, Jan. 9]. Mr. Kennedy wrote in his newspaper that there was no reason why the FCC could not charge for the license services it renders “to more than 2,000 broadcasters on the air.”

Mr. Kennedy, who is part owner of WSAZ Huntington, W. Va., and former operator of the West Virginia Network, had emphasized that broadcasters are in business “not only as a public service but obviously because radio appeals to them as a pleasant way of earning their bread and butter.” These sentiments have been echoed on Capitol Hill by proponents of station license fees.

WCFM (FM) ELECTS  

D. C. Outlet Lists Officers  

LOUIS H. BEAN, of the office of the Secretary, Dept. of Agriculture; Tilford Dudley, assistant director of the CIO Political Action Committee, and J. C. Turner, vice president of the Central Labor Union, AFL, have been elected to the board of directors of the Cooperative Broadcasting Assn., owner and operator of WCFM (FM), Washington, it was announced last week.

Re-elected to the board were: Wallace J. Campbell, C. Edward Behre, Mrs. Leon Henderson, Simon H. Newman, Paul R. Ashbrook, Leon Berkowitz, Gardner Jackson, Robert Morrow and Robert N. Nathan. New officers of the association elected by the board are Mr. Campbell, president; Mr. Behre, vice president; Mr. Newman, treasurer, and Mr. Dudley, secretary. Cooperatively owned, WCFM is now in its second year on the air.

CANADA RADIO  

New Review Includes CBC  

CANADIAN broadcasting, and especially the Canadian Broadcasting Corp., will be reviewed by the present Canadian Parliament at Ottawa, with announcement that a 25-man radio committee is being established.

Revenue Minister J. J. McCann announced in the House of Commons at Ottawa that the committee will report “observations and opinions” on the annual reports of the CBC, will review aims of CBC, and the import of its regulations, as well as its future developments, revenues and expenditures. Private broadcasting interests, who are governed by CBC regulations, are expected to be heard. The Parliamentary Radio Committee will consist of 17 Liberals, 5 Progressive-Conservatives, 2 CCF (socialists) and 1 Social Credit party member.

HCSE HEARINGS  

May Resume in Mid-April  

There is strong feeling on Capitol Hill that the House Interstate and Foreign Commerce radio subcommittee will come to life about mid-April, it was learned last week.

Rep. Robert Crosier (D-Ohio), the committee chairman, is anxious to see pending communications problems cleared away by the group as soon as possible. The subcommittee has indefinitely tabled hearings on proposed radio legislation [Broadcasting, March 6].

At the same time, it was indicated Rep. A. L. Bulwinke (D-N. C.), ranking Democrat on the House committee next to Rep. Crosier, plans to return to Washington to take an active part in committee proceedings following the Easter recess of the House slated for April 6-18.

Bulwinke originally headed the subcommittee before his illness about a year ago.

Chairman Crosier said that if Rep. George Sadowski (D-Mich.), who has been acting chairman, is unable to continue leadership of the subcommittee following the recess, Rep. Dwight L. Rogers (D-Fla.) in all probability would replace him. However, should Rep. Bulwinke wish to direct the group’s activities, it is presumed that Mr. Rogers would step aside.

Proceedings Delayed  

The delay in committee proceedings, accentuated by Sadowski’s prolonged illness, has put into effect a slow down in radio legislation that was expected to result from President Truman’s appointment of a new Communications Policy Board. The Michigan Congressman now is not expected to take up his office duties for at least another two weeks. Mr. Crosier emphasized that he has not heard from Mr. Sadowski pilot the subcommittee through the remainder of the session, but the latter’s illness has placed a damper on that hope.

The Congressional group’s schedule that lies dormant includes consideration of the pending Sadowski Bill (HR 6949) to set up an overall frequency allocations board; the Senate measure, McFarland Bill (S 717) to reorganize FCC procedures, and the new Sheppard Bill (HR 7310) to require licensing of networks. Also waiting upon Rep. Sadowski is the proposed bill realigning FCC procedure supposedly modeled after FCC’s answer to the pending McFarland Bill [Closed Circuit, March 13; Broadcasting, March 6].

Alfonso Johnson  

Alfonso Johnson, Jr., executive secretary of the Southwestern Assn. of Advertising Agencies and a former president of the Dallas Advertising League, died March 7 following a heart attack.
To the PRESS and RADIO:

Subject: COMPARING PRICES

Railroads get more now for moving freight and passengers than they did before the war, of course, but when compared with prices of other things railroad charges are relatively lower -- not higher. Here's the picture, comparing current prices, rates and revenues with those of 1939:

Railroad rates would have had to be higher today but for the way in which railroads have held down costs through more effective utilization of man-power, materials and machinery in producing transportation.

These gains in efficiency have resulted in cumulative savings running into the billions of dollars, which have been passed on to the public. Such savings are due partly to increases in traffic volume, and partly to improved methods made possible by heavy investment in better railroad plant and equipment. What has been done in those directions points the way -- the only way -- to still better service in the future, produced at the lowest possible cost and sold at the lowest possible rates.

Sincerely yours,

William T. Faricy
LIBEL ISSUE

Philadelphia Court Upholds Port Huron Decision

A RADIO broadcaster is not liable for libel in the broadcast of an uncensored political speech, a Philadelphia federal judge ruled last week. The case involved KYW Philadelphia (Westinghouse Radio Stations Inc.) against a libel suit brought against it and four other stations by Attorney David F. Kellogg of Philadelphia [Broadcasting, Feb. 20, 6].

Judge Kirkpatrick's ruling, dismissing the complaint lodged against KYW, in effect upheld the FCC's famous Port Huron decision which held a station may not censor a political broadcast even if it contains libel.

Mr. Felix had charged in his complaint filed with the Federal District Court in Philadelphia last November that all five stations on Oct. 4, 1940, and/or on Oct. 5, 1940, aired a political speech which allegedly was a "false and malicious publication by broadcast."

The other stations were WCAU, WFIL, WENY and WIRG. Viewpoint Upheld

KYW's counsel contended that there is no liability on the stations involved under Section 315 of the Federal Communications Act of 1934 which prohibits federal censorship of a political speech. The judge upheld this viewpoint. He said:

"If in view of this Section (315), this defendant could not have censored Mr. Meade's speech in any way . . . without violating the law, then it follows that it was without fault in the matter of the broadcast."

In regard to the Port Huron decision, Judge Kirkpatrick said it gives "fair notice that any viola- tion of the Act in the matter of censorship of political addresses means, in all probability, loss of the station's license and the consequent extinguishment of its business."

Therefore, the judge said, the broadcaster could not censor the speeches without violating the law.

He continued:

"The plaintiff contends that the provision of the Act which with- holds the power to censor political addresses applies only to speeches made by the candidates. If this is so then the defendant would have been free . . . to blue-pencil it (the speech) or to refuse it altogether and would have been fairly chargeable with fault had it permitted defamatory matter to go out from its station."

In upholding the meaning of Section 315 of the Communications Act, Judge Kirkpatrick said: "If a candidate for office who authorizes another to make an address in the furtherance of his campaign for office does not thereby 'use' the station within the meaning of the law, the purpose of Section 315 fails. That Section manifestly was enacted in order to safeguard one of the most important features of the democratic process, namely, the opportunity of the people who are going to vote for candidates to hear a full and free discussion of both sides of the issues which affect their choice."

Mr. Felix had asked $50,000 in damages from each of the stations involved.

Okla. U. Meet

(Continued from page 29)

between that and giving hope and comfort to those friends abroad whose strength in opposing tyranny will be equal to our de- termination to uphold liberty, and this spirit which, at the same time, gives warning to the slavers who are eagerly watching for any sign of our lack of vigilance, for any of our false steps."

Opening sessions on Sunday in- cluded, in addition to the school broadcasting demonstration, ad- dresses by Dr. Whan, who discussed "10-Watt FM Transmitters for Schools," and Mr. Mrabey, who spoke on "University Telecasting on Commercial Stations."

Pointing to the important role the university can play in television, Mr. Mrabey expressed the opinion that the university can improve the relations between stations and audiences by having an adviser familiar with the stations' problems. He added that the uni- versity can also set forth to the number of the stations, particularly in regional plans, and help the public get acquainted with some of the possibilities of television work so that they will expect more when the national hookups come through.

Speaking of the threats of FM broadcasting passing out of the picture and of television wiping out AM and FM, Dr. Whan advised his audience of students and vis- itors to "look at the possibilities of the immediate present and what is there." The FCC, he stated, has changed and liberalized the rules and provided for the licensing of educational institutions for 10 w, although the main objection to schools using FM now seems to be that it costs too much. The only thing the FCC wants to know, ac- cording to Dr. Whan, is how much programming the station does, so if they are not using their time, the station can be given to other institution.

Theatres Push TV

Turning to television during the Tuesday afternoon session, Mr. Bacus said that in competing with the movies, video in his area has been pushed from the start by In- terstate Theatres of Texas. In his address on "Television Service and Showmanship," Mr. McAllister noted that "broadcasting is a business; the shining light in radio is business." He went on to say that the one thing that that "tie-up" with radio "is your ability to be human."

At Monday's news clinic, Mr. Drake suggested: "You can bring your listeners the voices of the peo- ple in the news, thank God to tape and wire and beeper. How about a re- corded interview with an eye-wit- ness of some event? How about a tape with the city engineer telling you listeners how soon they will start using that new stretch of paving? We've made a fetish of on-the-spot reporting."

Giving a solution to the economic problem that plagues small station man- agers in the local news business, James L. Todd, new director of KSIS Woodward, Okla., said: "Make every employee you have a news reporter 24 hours a day."

In his address on "What a Station Expects of Prospective Em- ployees," Paul Browner, program director of WYK Oklahoma City, cited health first, for "radio is a de- manding occupation." He placed education next and remarked that education and character go hand- in-hand. He stressed that students should learn all about the English language in order for it to be a good tool and for use in ad lib programs.

Don't Remain Static!

Monty Mann, of Ray K. Glenn and associates, who handles the Ok- lahoman's' advertising accounts, cautioned his listeners: "Don't ever let your mind wander when advertising, but don't overlook the fact that it depends on you."

Other speakers on employment at the Oklahoma Conference included T. M. Raburn, president and general manager, KGYN Guymon, Okla., and Maybelle Conger, Central High School, Oklahoma City.

In addition to Mr. McAllister, speakers talked of marketing prob- lems included: Webster Benham, commercial manager, KOMA Okla- homa City; Pat Murphy, KSMS Seminole, Okla.; James K. Curtis, KFRO Longview, Tex.; Lowe Runkle, Oklahoma City advertising man; Ernest Watson, manager of KBX Muskokge, Okla.; and Gene McAlister, advertising director, Oklahoma Tire & Supply Co., Tulsa.

The television seminar was also addressed, in addition to Mr. Bacus, by Dave Paternak, pro- motion manager of KSD-TV St. Louis, and Don Hobbs, KOIT TV Tulsa; Hoyt Andrews, WKY Oklahoma City.

Tuesday Session

The dinner on Tuesday, bringing the convention to a close, was ad- dressed by Mr. Tower and Norman R. Glenn, editor and president, Sponsor magazine. Conference ses- sions were chaired by William Morgan, owner and general man- ager, KNOR Norman; Mr. Ben- ham; Martin B. Campbell, general manager, WPFAA Dallas, and James H. Soth, dean of the Oklahoma U. graduate school. The news clinic was organized by Will- ard L. Thompson, School of Jour- nalism, Oklahoma U.

KSL-AM-TV Salt Lake City was pre- sented three gold awards and three honorable mentions for outstanding programs at annual 1950 awards banquet of Salt Lake City Advertising Club.
"tell me, Philip:

Anything new on tv, in New York, during 1950?"

"New? Why, old fellow, there's something sensational! Haven't you heard?"

"Why, no—do flutter it out . . ."

"WOR-tv—and only WOR-tv
on channel 9, in New York,
will carry the
BROOKLYN DODGERS' GAMES
IN 1950!"

"Hah—a thing called baseball, no?"

"Baseball? That's an understatement, old man. It's AMERICA! It's one of the greatest things that'll happen in the Spring, except—well, maybe a second choice called love."

"Well, Philip, you can combine, can't you?"

"Certainly can, old boy—both go together—but if I were a sponsor, or his advertising agent, I'd pick some stuff now around the games, or on the station that's carrying one of the biggest things in tv for 1950—the DODGERS' BASEBALL GAMES on

WOR-tv
channel 9, in New York"
ADVERTISERS: Now, you can buy Hollywood-produced, audience-tested, high-Hooperated TV shows on a spot basis at prices you can afford!

"TIME for BEANY"
The West Coast's Top Children's Puppet Show

One of Paramount's TRANSCRIBED SHOWS: 15 minutes, five-times-weekly, open-ended for commercials. Film-recorded as broadcast over KTLA, Los Angeles, since January 1949. Syndicated throughout U.S. . . . with some good markets still open.

FORMAT: The whimsical adventures of a high-spirited youngster called Beany, usually aboard the "Leakin' Lena." The cast (all unusual plastic hand puppets) includes those pictured above: Hopalong Wong, a cheerful Chinese cook; Beany; Uncle-Captain Horatio Huffanpuff; Honey, a friendly bear cub; Cecil, a versatile but frequently seasick sea serpent and Mr. Nobody, a chatterbox invisible to everyone. Also, Dishonest John, sly trouble-maker; Susie, a pigtailed cutie; and Clownie, a circus stray.

RESULTS: Beany's Los Angeles sponsor, Budget Pak, Inc., offered a plastic toy, "Train of Tomorrow," for 50c cash and wrapper from 19c or 29c candy item. This self-liquidating premium, in the 10 weeks from September 12 to December 2, 1949, pulled 84,000 replies—a looker-listener cash outlay of $64,680 of which $42,000 was cash remitted, $20,160 spent for candy, and $2,520, postage.

Paramount transcribed programs are available to advertisers in one or all TV markets on a spot basis. Also available to TV stations with privilege of resale to local advertisers.

A SERVICE OF THE PARAMOUNT TELEVISION NETWORK
ASCAP LICENSING CHANGES

INDUSTRY attorneys last week were pondering the effects of ASCAP-government anti-trust consent agreements which direct changes in ASCAP licensing methods covering television stations, as well as sweep-ing organization reforms within the

Two judgments completed last Wednesday in U. S. District Court of New York and announced by the Justice Dept., would require ASCAP to offer telecasters and motion picture producers, upon request, a single license for all performances of a motion picture or an entire network telecast. Fees would be paid by producers instead of theatres.

While attorneys have not fully analyzed the provisions of the agreements, which in effect serve to abandon the government's anti-trust prosecution, many felt the action would prove beneficial to radio affect them and afford greater freedom of music on films.

In any event, TV stations now may clear "at the source" with ASCAP for use of motion pictures and may offer the films for payment.

Herefore they found it necessary to negotiate with individuals.

Announcement 'Ambiguous'

Some legal experts thought the government announcement "am-biguous in many respects" and that a good deal of objective analysis would be necessary before the effect of the action could be prop-erly evaluated.

The government announcement, by Atty. Gen. J. Howard McGrath, came almost simultaneously with announcement of negotiations between ASCAP and a TV broadcasters committee on the per program li-censes covering use of ASCAP music on television. ASCAP of-ficials had been working out details of the consent decree since last De-cember when the group last met.

Generally, it was felt that the new decree carries forward the spirit of the laws of the 1941 or-der, and takes recognition of the principle that the telecaster shall

not be influenced by ASCAP as to choice between blanket and per pro-gram licenses.

Additionally, attorneys feel the agreement serves to clarify the definition of broadcasting as a separate distinctive art by specifically adding provisions covering TV sta-tions.

Imposes Restraints

The judgments enjoin and re-strain ASCAP from "requiring or influencing" a broadcaster or tele-caster to negotiate for a blanket license before bargaining for a per program license.

Fee issued by ASCAP to an un-licensed telecaster or broadcaster for a per program license should take into consideration the "eco-nomic requirements and situation" of stations which air "relatively greater percentage" of sustaining programs and few commercial an-nouncements.

The objective, the judgment pointed out, should be a "genuine economic choice" by stations be-tween the per program and blanket licenses.

The fee, for both commercial and sustaining programs, at the option of ASCAP, requires pay-ment of a specified amount for each program using ASCAP composition or be based:

1) In the case of commercial pro-grams—upon the payment of a per-cent of the sum paid by the spon-sor of such program for the use of the broadcasting or telecasting facilities of such radio or television broadcaster, or:

2) In the case of sustaining pro-grams—upon the payment of a per-cent of the card rate which would be applicable for the use of its broad-casting facilities in connection with such program if it had been commercial.

The second judgment supersedes the 1941 consent decree which followed radio's revolt against the so-ciety's exorbitant demands and re-sulted in reorganization of the so-ciety. The new action also would revise ASCAP's internal organiza-tion; prescribe how ASCAP will deal with commercial users of its music; require ASCAP to make changes as to eligibility for mem-bership, conduct of its elections and distribution of its revenue; prohibit ASCAP from suing mo-tion picture exhibitors; and cease practices tending to monopolize licensing of foreign music in this country.

The "International Cartel" phase, covered in the first judgment, could conceivably have some long-range effect on broadcasters and telecasters who might contemplate use of British, French and other foreign musical works. ASCAP is ordered to "terminate all arrangements" which have given it exclusive con-trol in the United States.

Herbert Bergson, assistant at-to-ney general, in an accompanying (Continued on Telecasting 11)

COLOR HEARING ENDING

FCC's COLOR TV hearing swung sharply into the home stretch last week as Acting Chairman Paul Walker spurred witnesses and counsel to keep testimony and "clari-fying" examination to the point and color proponents vied to get in "last licks." Developments at the Wednesday-Thursday-Friday ses-sions included:

- Expectation that the direct case may be completed by the end of next week and report that the cross-examination estimate had been pared to about 30 hours.

- Announcement by CBS that it has developed a dot sampling, horizontal interface technique for its system which "doubles" overall resolution and increases horizontal definition to "full 225 lines." It does not solve the compatibility problem. RCA promptly called this an admission of CBS system's "weakness" and evidence of "superiority" of RCA's compatible all-electronic system (See story Telecasting 13).

- Revelation by Philco it has single tri-color tube of its own in the laboratory on which "pictures" have been viewed, although no other.

details were given. The firm claimed its still too early to set color standards and said more de-velopment should be allowed.

- Further Commission ques-tioning of witnesses on the desir-a-bility of establishing multiple color standards covering all major sys-tems brought general opposition to such a plan.

The hearing appeared to be mov-ing into the last lap as only a half-dozen further witnesses still were to appear for direct testimony by last Thursday night. Celomat Corp., New York plastics fabrica-tors, committed to appearing just a fortnight ago [Telecasting, March 13], was expected to testify Friday about the $9.95 color con-verter it has developed for the CBS system.

AT&T To Appear

American Telephone and Tele-graph Co. and Western Union Tel-e. Co. are to appear to pre-sent a summary of existing and forthcoming television relay facili-ties. Dr. G. H. Brown, research engineer of RCA Labs. Div., is to present additional technical data relating to noise levels and other

similar problems while CTI indi-cated it may have brief additional evidence. Both CBS and NBC are scheduled to give details on color programing problems.

The hearing is slated to run this week on Wednesday, Thursday and Friday. It was hoped cross-examination would begin next week.

Meanwhile, the Commission de-nied the petition of Packard-Bell Co. to appear at the hearing and testify on its concern over the poten-tial "monopoly" situation in the color manufacturing field [Tele-casting, March 13]. FCC indi-cated that Packard-Bell, Los An-geles set manufacturer, has no "substantial scientific data" to con-trIBUTE.

CBS led off the hearing last week week with further testimony by Dr. Peter C. Goldmark, its engi-neering and research department director. The inventor of the CBS system stated inclusion of the hori-zontal interface principle in his field sequential system is a refinement which can be added after proper field testing and would not affect standards CBS already has sug-gested.

(Continued on Telecasting 11)
By DAVE GLICKMAN

WITH 15 years of radio and more than 101 straight weeks of television advertising to its credit, Eastern-Columbia, Los Angeles department store, has parlayed its trade name via audio and video into one of the best known in American retailing.

Utilizing a catchy singing commercial,谓语第1个单词 sales copy, plus shrewd time buying and promotion, this 58-year-old firm has built that trademark into one of the nation's outstanding success stories.

Then, in 1938, Edward C. Stodel, head of Stodel Advertising Co., servicing the account, convinced J. M. Sieroty, now president and general manager, and James P. Scyster, advertising director, that radio should be employed as a regular direct selling medium.

That was 15 years ago when the firm utilized a weekly quarter-hour Hollywood news and star interview program on KFI. The original $115 weekly radio appropriation has since grown to more than $1,000 per week.

Stodel's Aims

After joining of the two firms into a full-fledged department store under name of Eastern-Columbia, in early 1939, it became one of Stodel's prime tasks to make radio accomplish three vital assignments: (1) Identify Eastern-Columbia as a complete major department store; (2) make its "off-the-center-of-town" location, corner Broadway at 9th, a byword among shoppers; (3) sell downtown Los Angeles shopping to a highly decentralized community.

Stodel's perfection of the Eastern-Columbia jingle, currently sung by the Sportmen from Jack Benny's CBS show, not only accomplished that mission, but has today made it a nationally known institution, referred to often by advertising men and retailers for its phenomenal success.

But through the years, while the 10-second Eastern-Columbia jingle became the symbol of the perfect radio signature, that firm completed the formula with 10-seconds (approximately 25 words) of hard-selling, live product copy. This compact package is presented on a permanent schedule, at select premium time, on the four major networks Los Angeles stations—KNX KFI KECA KHJ.

Following three years of preliminary study and experimentation, Eastern-Columbia got its first taste of television in February 1948 when Stodel convinced executives of the firm they should utilize facilities of KTLA (TV), then the only Los Angeles TV station operating commercially.

Formula Set Up

Stodel advised Eastern-Columbia to make its initial step into the new medium along the following lines: (1) Adapt to TV as closely as possible its successful radio formula (in other words, create an audio film version of the original tick-tock jingle to precede all commercials); (2) start with one or two choice spots in order to experiment with display methods, production technique and customer reaction.

At first Mr. Sieroty voted to delay the venture on grounds that the calculated scheduling of two per too small in comparison to a major Los Angeles newspaper's 450,000 circulation. However, a few weeks later when a major TV set manufacturer offered Eastern-Columbia the opportunity of co-op sponsorship of two wrestling and boxing telecasts on KTLA, Mr. Sieroty gave approval. Thus started the store's more than 101 weeks of consecutive commercial telecasting.

Jingles on Film

Calling in a well-known maker of motion picture trailers, Stodel created a 10-second version for television of the Eastern-Columbia jingle signature used on radio. With aid of a special Zoomar lens, the big Eastern-Columbia building is panned from the well-known clock tower to street level entrance, in perfect synchronization to the singing jingle. As the last "Eastern-Columbia, Broadway at 9th," is sung, the camera reaches the front doors of the building and then dissolves into the particular store department to be featured, ready for selling.

With the initial telecast, immediate and favorable high unit sales results were achieved. Five television sets were sold.

Pleasingly surprised by the response, Mr. Sieroty and Advertising Director Scyster immediately pushed off the permanent participation announcements weekly in Shopping At Home on KTLA.

Preparations Made

Intense study and preparation were made to determine the best methods of display, proper backgrounds and settings, camera angles and lighting. Significant to the amount of effort expended by the Stodel staff to make these first announcements a commercial success is the fact that three other major department stores using the same program at that time apparently were not encouraged enough to stay on. They discontinued using television advertising for...
nearIy a year, Stodel said.

On the first four participations, Eastern-Columbia, in cooperation with leading appliance manufacturers, demonstrated heavy merchandise. It was also the initial television venture for some of these manufacturers who have since become regular users of the medium.

On theory that TV shoppers could be sold on "sight," Eastern-Columbia also pioneered in establishing the "shop-by-phone" service on its commercials.

On the first telecast, a $99 Thor Gladiron was presented. Two were sold immediately by phone, plus three the following day in the store. Cost to advertise was $50. Volume return, $800. And within the 10% cost which the sponsor requires, Stodel points out. A $329 Leonard refrigerator was featured next, resulting in two immediate phone call orders and one store sale. Volume, $1,000.

After four weeks of similar success, Mr. Sieroty fired a tough test at Stodel. Could TV sell low cost merchandise in volume comparable to newspaper advertising, he asked?

Test Items

Three items were presented for the test. They were a 42-piece set of silverplate for $11.95 in a $3.95 chest, and a $5.95 white goose-down bed pillow. It took less than three minutes to display and present the selling points. Results were eye opening. Some 45 immediate phone orders came in for the silverplate set, with 17 additional orders for chests and 35 for pillows. Total sales were in excess of $1,000. They were all firm orders, a far cry from advertising before the store opened for business the next day. And what's more, Mr. Sieroty will tell you, the store sales turned out to be, as it has been on most items even since, about one to one to phone orders.

The original schedule on KTLA was expanded first to three, then to five weekly participation telecasts during first six months. Time budget was upped from $50 to $900. Reportedly no Stodel's direction, Eastern-Columbia's advertising department, display and art staff and merchandising heads were indoctrinated with the basic requirements of presenting their products successfully over TV. All reportedly responded enthusiastically as word of many exceptional results of the new media spread throughout the store.

Special Phone Service

To handle the orders a special seven-day weekly, 24-hour-a-day telephone service was set up, first with a leased number arrangement. (Later Eastern-Columbia's own phone number was used.) All television phone orders were systematically received by trained operators who classified and routed them through the order department for extra prompt servicing.

Although the "carriage trade," an encouraging factor in those early stages was that the first retail customers responding to television reportedly were better than average credit risks. And many were more nearly pre-sold after seeing the merchandise advertised on TV than from any other media, Mr. Stodel declares.

Store sales personnel were quick to observe the marked reaction of customers to television sales messages, it was found in a check made throughout the organization. Reported one salesman, following a telecast announcement featuring Quaker Lace Table Cloths: "The customer came in and said, 'I want to BUY (not see) the table cloth I saw on television last night.' "

"I suggested that she see it first on a table setting but she replied: 'Not necessary. I saw it on television. I know what it looks like, just wrap it up.'"

Some 43 other customers responded to this TV advertised, standard priced $8.50 article in one day, according to Mr. Sieroty, "and 21 were by telephone."

After one TV spot sold 18 glass top, wrought iron dinette sets, priced at $49.50 each, an Eastern-Columbia salesman declared: "It took me a half hour pointing out features of the dinette set to a drop-in customer before I could complete the sale. Yet they televised the set in a minute and six people immediately phoned in orders; 12 more made purchases the following day."

Conclusion of the sales staff is that television, more than any other media, SOLD rather than merely advertised. An extremely small percentage of return merchandise confirms this point, department heads state.

When KFI-TV started operating in the fall of 1948, Eastern-Columbia more than doubled its television advertising budget to $750, with as many as a dozen telecasts weekly.

Spot Concentration

With development of a highly potent one-minute, live commercial formula, all but two Shopping at Home participations on KTLA were dropped. These three-minute shows had served their purpose in working out methods of display, modeling and direct selling, according to Mr. Stodel. Employing the same policy as is used in radio, Eastern-Columbia started concentrating on fast, hard-hitting spots between high circulation featured shows.

Stodel was one of the first to produce a motion picture type continuity format for live, one-minute commercials, often making possible from 6 to 8 different camera angles or shots in 45 to 50 seconds of visual action, utilizing two cameras. All spots open with the now familiar Eastern-Columbia televised jingle signature, dissolving quickly into an establishing view with a beautiful model demonstrating the merchandise. The model is employed to keep viewer's eye at all times directed at features described by the off-scene announcer, Stodel explained.

Formula calls for shots establishing setting usage and full impression of item. It always calls for at least one intense close-up for emphatic impression of the product on viewer, Mr. Stodel explained. Windup is a dissolve to the phone service slide and then to a slide version of the Eastern-Columbia signature.

Value is Proven

Not every television promotion was a sensation, Mr. Stodel admits. But he believes it proved its value as a potent, direct selling media of major importance to a big retailer.

Experiments also were made, presenting one-minute spot promotions on the same day a newspaper ad on the item was run. To assure maximum interest the ad carried a line, "See it pictured on Television Station KTTV tonight at 8:30." In turn, the television presentation opened with a full shot of the newspaper ad before a dissolve to the actual display.

An $8 Edwin Knowles dinnerware set sold this way and clicked off 100 orders, over half by phone, for an $800-plus volume, said Advertising Director Scyaster.

As 1949 rolled along, one factor became evident to Mr. Scyaster and (Continued on Telecasting 12)
A PROVISION in his movie-licensing bill which could deal a crippling blow to television kinescope recording will be deleted, Sen. Ed C. Johnson (D-Colo.), told TELECASTING last Thursday.

He said all references to television against the motion picture industry, were inadvertent and would be withdrawn.

Simultaneously he wrote FCC Chairman Wayne Coy in protest against reported plans of Ingrid Bergman and Roberto Rossellini, made a motion of his own to prepare a series of half-hour dramatic films for TV release in the U. S. this summer.

"While I hope that neither the Congress nor the FCC will be compelled to fix programming standards for the industry," he wrote, "nevertheless I feel that I should call your attention to the brazen threat which is implied" in these reports.

Sen. Johnson’s letter, commending Conn. Coy’s speech delivered at the U. of Oklahoma (see story, page 29), continued: “It would be most unfortunate if American television licensees were to be wise enough to deal with such immoral characters, since television naturally enters the home physically and entertains the family circle in a most intimate relationship. I am really grateful to television for the relatively splendid job that has been done thus far.”

In Sen. Johnson’s bill (S 3257) introduced in the Senate last Wednesday reference was made to newspaper and magazine articles or by means of, standard television equipment. As originally drawn, the bill would have required distributors of both films for TV and for movie release to pay a fee of $10,000 for Commerce Dept. authorization. The requirement, however, Sen. Johnson said, will only apply to "the showing of motion pictures," he told TELECASTING, "that he had no intention of including television in his license bill because the moral character of television programming comes under FCC’s responsibility in the matter of public interest."

Meanwhile, over in the House, Rep. Homer D. Angell (R-Ky.) echoed the general sentiments of Sen. Johnson and Conn. Coy. He declared that "unnatural interest" and "lastings impressions" were instilled in adolescent minds by the "accumulation of salacious and sexy stories and crime problems" that are "depicted on the screen and over the television circuits — radio, daily newspapers, magazines and comic books."

Reaction to Sen. Johnson’s assault on the film world came swiftly with the Motion Picture Assn. of America finding the measure “a threat to the motion picture business, newspapers, press associations, magazines, books, radios, television and all mediums of expression would be the inevitable next victims.”

AMA to Discuss TV

EFFECT of TV on other media is the topic of a panel discussion to be held March 28 at the radio-TV luncheon meeting of the American Marketing Assn. at the Hotel Shelton, New York. Participants will be announced shortly.

AMERICAN TV

Showings March 27-April 7

TWO-WEEK series of demonstrations of the American television system will be staged March 27-April 7 by Radio Mfrs. Assn. for the benefit of a group of European radio dignitaries invited by the State Dept. to visit the United States.

The European delegations will represent 12 nations belonging to Study Group II of the International Radio Consultative Committee (CCIB), of which the U. S. is a member. Later they will inspect television in France, the Netherlands and Great Britain prior to returning home under an agreement on international TV broadcast standards.

Television Station Representatives
WHEN television enters the home, radio can continue on taking a sus-
tained back seat. Although the avid interest in television may be ex-
pected to wane as the length of set ownership increases, televising
while listening to radio is on the increase in listening during telecasting
hours.

These conclusions may be drawn from the latest Television Audience of
Today report issued by Adver-
test Research New York N.
J. By half hour periods the sur-
vey covers radio listening and tele-
vising in 5,46 television homes in
the New York-New Jersey tele-
vision group, televising starts in
the 11-11:30 a.m. period with 32%

Although televising starts
slightly earlier on Monday through
Friday in homes which have owned a
set for the seven months—0.8% are
shown in the 10:30-11 a.m. period
the percentage of those which de-
vote time regularly to watching
video is smaller. In the under six-
month group, televising starts in
the 11:30-12 a.m. period with 33%

Large Group 10-10:30

Largest percentage of television families reported using the set in the
10-10:30 p.m. time segment Monday through Friday for both
length of ownership classifications. In the under seven-month group, how-
ever, 94.5% are reported for Friday (Table I) while in the over seven-
month group the figure is 75% (Table II). While neither group
reports any radio listening at this time, the under six-month owner-
ship classification shows only 0.5% using both radio and TV simultane-
ously and 6.2% using neither. In those homes which have had video
over seven months both radio and TV are in use in 8.5% of the homes
while 16.7% report neither in use.

The 10:30-11 a.m. period shows the largest percentage of radio
listening in both length of ownership classifications. In those homes
which have had video for over seven months radio set use averages
higher than in the newer TV homes. It is worthy of note however, that
radio listening is higher in the 12-1 p.m. and 5:30-6 p.m. periods in the
six-month ownership homes than in the over seven-month homes. The
increased radio audience appears to come from sets turned on rather
than those viewing television since the video percentage figure in-
creases from 52.4% to 57.1% during radio telecasting hour period Monday through Fri-
day.

Combining all television homes, the percentage of those listening to
radio leads those watching television until 3:30 p.m., Monday through Friday,
Advertest reports.

IT'S A KNOCKOUT!

Another TV Success Story

Baltimore, Md.—WMAR-TV added another “TV Success Story” this week with the sale of more than $7,500 worth of merchandise through a single half-hour program which cost the sponsor $240.00. The client manufactures and sells a vertical type food mixer and blender. A half-hour film devoted mainly to selection of health foods and the use of fruits and raw vegetables was produced, using the mixer, which retails for $29.95, in the demonstration. No advance publicity or promotion was given the program.

A special telephone number and address were flashed on the screen for less than one minute at the conclusion of the film-lecture, and viewers were urged to place their orders.

Within the next 48 hours, a total of 262 orders had been received by both mail and telephone, totalling $8,044. The client, Natural Foods Institute of Olmsted Falls, Ohio, has ordered a series of subsequent programs of the same type on WMAR-TV.
nothing but smiles under our umbrella!

### Film Report

HAL ROACH STUDIOS INC., Culver City, Calif., has made half-hour weekly stunts for NBC's "Piper J. Heidsieck & Molly" program for network.

Same firm producing four one-minute TV commercials for Union Oil Co. Agency: Foote, Cone & Belding, Chicago; also completed are six one-minute TV spots for Procter & Gamble, three for Ivory Soap, and three for Drene. Agency: Compton Ad Agency, Hollywood.

United Artists' newest promotion feature, *Women In The News*, has made its debut on TV stations in 16 leading cities. Program is 15-minute weekly newscast produced especially for TV by All-American News, Chicago. It is sponsored in major markets by Freshener, a new patent automatic preservative in liquid form.

Churchill-Wexler Productions, Los Angeles, has completed one-minute combination live-action animated spots for Pennozai, Los Angeles, through Mayers Co., same city. Series of quarter-hour dramas entitled *Jonathan Story* being produced for Case-Swayne Inc., San Diego, Calif. (fruit and vegetable packer), by Will Lankerd Products, Los Angeles Series being telecast five times weekly on station KFIV, Los Angeles. Agency: Byrne-Grill, San Francisco.

Reorganization of American Releasing Corp., Los Angeles (TV film releasing agency), announced. Formerly assistant to Glenn Bever, replaces him as president of firm. Mr. Bever resigned post to devote full time to American Products Corp. Releasing firm moves to new offices at 5545 Sunset Blvd., Hollywood, phone Hudson 2-7421. In addition to releasing film, will produce commercial spots for TV.

King Studios Inc., Chicago, has opened new client-service office in Detroit at 1928 Guardian Bldg. Stanley H. Jack, formerly with Gilbert Assoc., appointed resident manager for Detroit office.

### Television Report

**2,398 Advertisers in Feb., Rorabaugh Reports**

A TOTAL OF 2,398 advertisers used television as a medium during February, according to a preliminary compilation made by N. C. Rorabaugh Co. from reports of the four national TV networks and 93 of the 98 commercial TV stations operating the first week in February. Breakdown shows 70 advertisers servicing network programs compared with 72 sponsors of 93 network shows in January; 438 spot advertisers, compared with 599 in January, and 1,850 local accounts, compared with 1,687 in January.

February total of 2,398 is up from a total of 2,158 for January, when 91 of the 98 stations reported.

**Three Stations Announce New Rate Cards**

NEW rate cards were announced last week by three stations—KECA-TV Hollywood, WDTV (TV) Pittsburgh, and WHAM-TV Rochester.

Effective April 1, KECA-TV rates will be increased approximately 30%. Increase, first since the station went on the air last Sept. 16, represents "realistic approach to growth of the medium and to mounting production costs of TV broadcasting," according to Robert Laws, ABC Western Division sales manager.

Class A night-time, hour rate goes from $500 for live or film shows to $600 for film shows; $700 for live studio shows. Spot rates increase from $100 for either live or film to $250 for film; $150 for live.

Further Changes

Other changes becoming effective with new rate cards include half-hour extension of Class A time to 7-11 p.m. (PST), Monday through Saturday, in place of present 7-10:30 schedule; 12 noon to 11 p.m. Sunday maintained as Class A time. All other time will be sold at Class B rates, including Saturday afternoon, formerly Class A.

Rehearsal charges will be $25 per half-hour program in excess of time purchased by advertiser. Advertisers using station prior to April 1 will be given 26 weeks' rate protection.

The new WHAM-TV rates became effective March 1 and set a Class A (6-11 p.m., weekdays; 12 noon-11 p.m., Saturday and Sunday) one-hour rate of $250. This includes ordinary film facilities and normal film preparation and recorded musical background for film commercial. Also not applicable to programs using live talent and personnel, the card states. Class B

### TV's Effect on Students' Grades Surveyed

THE OPT debated question of the effect of television on children's studies can chalk up a point for each side this week. From Fort Worth, Tex., comes a report that television viewing apparently isn't hurting the studies of local teenagers. The opposing view is recorded by officials of Abraham Clark high school, Roselle, N. J., who report that grade of students who watch TV regularly have dropped off "out of 100%" since the students took up the viewing habit.

After surveying 144 junior high and high school students, Ira Cain, Fort Worth Star-Telegram television editor, found that 46% of the schoolboys and girls with video sets raised their grades over the year before, had 40% lower grades.

And those whose marks improved showed a gain that was 5% above the percentage lost by the students whose grades fell off. Mr. Cain found that 20% of the students had television sets, and less than 15% listed any restriction by parents on viewing time.

The Roselle study was made by Burnett Z. Cooper, English teacher, and Robert Bosset, physical education instructor, at the high school. For the study 50 pupils of approximately the same I.Q. reportedly were selected—half with TV sets in the home, the other without. The report said that "the pupils without television sets in their homes averaged 10% better in grades than the group that had television sets. A careful analysis was made of the students who watched television for more than 25 hours a week. In 78% of the cases their marks were poorer than before they had television. The effect of television was measured of those who spent 10 hours a week or less was much less. Only 14% had lower grades."

The survey also pointed out that video apparently had a greater effect on the younger children; boys spent more time watching than girls, and the average amount of time spent viewing varied from 51 hours a week for those in the seventh grade to 19 hours a week for those in the 12th grade.

**Transmitter**

transmitter time is now $185.70 for a one-hour time.

Live studio time at WHAM-TV, exclusive of rehearsal facilities, is $290 for a Class A, one-hour time. Class B one-time hour is set at $227.50. Rehearsal time is $25 per half-hour or fraction thereof. A one-time announcement in Class A time is $375 and in Class B, $28.13, for film or slide with live voice and recorded musical background. For live announcements, one minimum fee of $100, and rehearsal, the rates are $50 for Class A and $37.50 for Class B on a one-time basis.

A one-time announcement will receive the usual 26-week protection on old rates, the announcement states.

The exact amount of the rate increases for WDTV have not been announced as yet.
Color Hearing

(Continued from Telecasting 3)

Dr. Goldmark explained “intensive work” has been done on this project in the CBS laboratory during the past four months. Under questioning he indicated the first completely “satisfactory” test results were achieved Monday night, with the CBS system operating on a closed circuit basis with a 4 inc video band. He asserted “double the overall resolution which we had previously obtained” was achieved.

Dr. Goldmark said a number of synchronizing methods are under consideration, “none of which represents complicated circuitry in view of the fact that, in contrast to RCA’s results so far, the horizontal interlace sampling does not demand nearly as close tolerances, especially since it has nothing to do with color rendition.”

Asking for details on the synchronizing methods, Dr. Goldmark said some were like RCA’s method and others were not. He said he “preferred not to elaborate on them” at this time, but did not consider synchronizing a “major problem.”

In inviting the Commission and interested parties to visit CBS and witness the development, Dr. Goldmark said that “although it is purely a laboratory arrangement, I am confident that it establishes that the CBS pictures which you have seen by no means represent the maximum potential of the system.”

Goldmark Testimony

Prior to revealing the new refinement, Dr. Goldmark presented extensive testimony comparing resolution characteristics and optimum viewing distances of the three chief color systems. He concluded that “whether we use a theoretically optimum viewing distance or people’s actual viewing distances, one thing seems clear—the CBS resolution falls safely within all possible requirements.”

He contended the CBS system permits the closest viewing distance of all three systems, while on the basis of actual viewing habits, as shown by a Rutgers U. survey, “the CBS system and RCA systems and possibly the CTI system, too, set ceilings on resolutions which are far higher than what the Rutgers survey shows the vast majority of people actually require.” He added that no matter where people sit, “they will always be able to tell good colors from bad.”

Dr. Goldmark said the CBS system with 405 lines and incorporating the earlier-developed “erispen-ring” circuit, calculated on the same basis as 525-line monochrome with viewing ratio of 4 to 1, “permits a viewing distance to picture height ratio of 5.3 to 1.” RCA’s dot sequential system, he said, has to be viewed according to an 8 to 1 ratio to take effect of the “interfering dot structure.” At this distance he charged the RCA picture would resemble only 263 lines. The CTI distance was cited as 12 to 1 with effective picture of 170 lines.

When Comr. Jones indicated concern over the patent situation in TV if any single system were adopted, Dr. Goldmark stated among other things that patent licensees are becoming more demanding of service from their licensors and hence the patent monopoly problem is becoming less important.

Dr. Goldmark said CBS would license anyone to manufacture under its system if adopted and asserted the fees would be “nominal.”

Sees ‘Confusion’

Asked by Comr. Jones if adoption of more than one system would cure the competition headache, Dr. Goldmark said he saw only confusion in a double standard. CBS is not afraid to compete, Dr. Goldmark said, provided the Radio Mfrs. Assn. “promises to make CBS sets.” He added, “I have a bunch they’re not excited about the idea.”

To questioning by Comr. Frieda B. Henneck, Dr. Goldmark said he believed RCA’s system would not be ready for standards even with its newly announced tri-color tube.

On Wednesday afternoon Prof. John W. Riley Jr., chairman of the Rutgers U. Sociology Dept., presented his survey of home viewing habits, made in New Brunswick, N. J., in February. Among main tendencies revealed, he said, were these:

(1) Most viewers normally sit at least 8 ft. from the TV screen and two-thirds at distances greater than 8 ft.; (2) About 50% sit within 20° of the perpendicular to the screen, or almost straight-on, while 50% or 50% is equally divided between 20° 30° and over 30° from perpendicular; (3) size of room does not appear to control seating distance; (4) people tend to spread out more in larger rooms; (5) most viewers choose seats on basis of custom and comfort although about one-third are conscious of distance as determining factor in choice.

On Thursday, Oscar Katz, CBS director of research, presented detailed surveys of public reaction to the CBS color shows during January and February in Washington at the Walker Bldg.

On the first study, covering the Jan. 12 to Feb. 1 showings and based on 9,423 returned questionnaires, Mr. Katz said 96.5% rated CBS color as “far more,” (83.8%) or “somewhat more” (13.1%) enjoyable than monochrome while 21.8% rated the overall quality of monochrome re-

(Continued on Telecasting 12)
Eastern-Columbia
(Continued from Telecasting 5)

Stodel Adv. Co. As TV set ownership soared, so did costs, not only of time, but of facilities, models, rehearsal, delivery, etc. This called for a re-examination of TV merchandising on the part of Eastern-Columbia.

The plan decided upon by Messrs. Scyler and Stodel, with Mr. Sieroty's approval, was to feature items in cooperation with major manufacturers that could be filmed and used over a period of time. Live spots were to be used only for important one-time sales promotions.

Utilizing some of Hollywood's best known cameramen, film editors and writers as well as actors, Stodel Adv. Co. planned and then produced all spots on items that could be repeated at least six or more times.

Most manufacturers, recognizing the success of Eastern-Columbia's sales technique, quickly cooperated on long range campaigns. Because of Stodel's original policy of motion picture action scripts, it proved practical to test out copy and camera shots on a live broadcast before filming from the very same script.

Products Stressed

Film spots, with Eastern-Columbia's direct selling approach have included such big suppliers as Leonard refrigerators, Wedgewood gas ranges, Emerson television and radio, Karistan rugs, Hoffman television, Proctor toasters, Cameo curtains, Health-Way bar bells, as well as many others, including upholstery and seat cover manufacturers.

These films are being presented in such major Eastern-Columbia spot adjacencies as Hopalong Cassidy on KTLA; Arthur Godfrey, Ed Sullivan Show and Men Against Crime on KTTV, as well as high rated feature Sunday film on KFI-TV.

All Eastern-Columbia film commercials are made silent, using synchronized electrical transcribed announcements for live copy. This, according to Mr. Stodel, has been found much more practical than sound on film spots where regular copy changes are desirable and often necessary.

Eastern-Columbia has made one major venture in TV shows to date. It was an original musical revue Camp to Camp on KECA-TV last fall. The quarter-hour program preceded telecast of every major college football game from Los Angeles Coliseum. With a top Hollywood cast, the revue used as many as five changes of scenes and process background settings.

Commercial spots were cleverly integrated into the 15-minute shows with apparel merchandise modeled by featured members of cast. Several leading manufacturers cooperated. Cost per show was $500.

Direct sales results reportedly were excellent. Cooperating firms whose merchandise was modeled confirm this.

Although Eastern-Columbia still maintains a sizeable radio spot schedule, it is probably the first department store which is a big user of air-time to surpass its AM budget on TV. Last November, for example, the video appropriation was well over the $1,000 mark, according to Mr. Scyler.

Present plans of Eastern-Columbia call for a continuance of the one-minute live and film spot formula of direct selling approach. The Tick-Tock jingle film signature with variations, including novel animated cartoons of the firm's building, will continue to be used.

Commending the job television advertising is doing for Eastern-Columbia, and the part played in that success by Stodel Adv. Co., Mr. Scyler said in part:

It is noteworthy that you have made television advertising pay off for us as far back as the fall of 1948 when there were approximately 16,000 set owners in the entire California area, and you are still doing it today as it passes the 350,000 set ownership.

KBTv(Tv) Plans

To Be Integrated With WFAA

OPERATIONS of KBTv (TV) Dallas, acquired by the Dallas News from Potter Television Co. [CLOSED CIRCUIT, March 13], will be integrated with that of WFAA Dallas, News affiliate, according to Martin B. Campbell, WFAA general manager.

The change in call letters to WFAA-TV will be deferred for a time, Mr. Campbell said. "For the immediate future," he stated, "we will be integrating the two operations, radio and television, and making permanent changes and improvements in the technical equipment and augmenting the present staff of KBTv with personnel from WFAA."

Mitchell Named

Bert Mitchell, WFAA production manager, has been appointed to direct the integration of WFAA's AM and FM service with TV. Headquarters and studios of WFAA are in the Santa Fe Bldg. Annex, while KBTv is housed in its own new building at 9000 Harry Hines Blvd., just north of the downtown district.

James M. Moroney, vice president of the News and supervisor of KBTv, will continue to manage the merger of the two stations. Mr. Moroney negotiated the purchase.

Mr. Mitchell, who attended the Chicago Television Council March 8-8, planned his return itinerary to Dallas by way of Cincinnati to visit WCP0-TV, WLWT (TV) and WKRC-TV and Atlanta's WSB-TV and WAGA-TV, to observe operations there.

Last month, Ray Collins, assistant manager of WFAA, made observation tours of WDSU-TV New Orleans and WMCT (TV) Memphis. To get some slants on women's TV programs, Julie Benell, WFAA woman's editor, begins a five-day stay today (March 20) at WTMJ-TV Milwaukee.

In the summer of 1948, Mr. Campbell and Mr. Collins took NBC's TV training course in New York, which Mr. Mitchell and Louis Breault, WFAA continuity director, took the following February.

EDITOR'S NOTE: WCTU concept...
Color Hearings
(Continued from Telecasting 11)

ceived from a CBS color signal, viewed in monochrome on the CBS color set, "as much better" than the overall display of standard black and white television."

He said 32.1% rated the monochrome of the CBS color signal as "somewhat better" than standard monochrome while 40% said it was about the same as 32.7% said CBS monochrome was poorer. These last comparisons resulted in lengthy attacks upon the validity of the studies by opposing parties and FCC's assistant general counsel, Harry Plotkin, assisted by H. H. Goldin, acting chief of the Commission's Economics and Statistics Div. Mr. Goldin subsequently was asked to take the stand to defend his criticism.

For some time the other parties have attacked the comparison of color with monochrome during the CBS medical and public demonstrations by pointing out that the searches were not made via the color system and not via the regular monochrome standard. Such comparison unfairly "biases" viewers, it was contended. Other "bias factors" mentioned were host-guest relationships, and question phrasing or language.

Against Double Standard

On Thursday afternoon, David B. Smith, vice president in charge of engineering for Philco Corp., took a vigorous stand against any double standard test period and even adoption of any single system at the present time. To questioning by Comr. George E. Sterling, he indicated he would abandon CBS as a system competitor. Replying to interrogation by Comr. Jones and Hennock, Mr. Smith claimed there is no such thing as a "limited commercial" test period as possible under the double standard all-stations trial since the public automatically would put its foot in the door as soon as it bought the set involved. He said Philco would be unable to continue selling parts under such circumstances and indicated it would not produce them for such testing.

Picking any single system now for standards, he said, is merely taking the word of the proponent that it will do what he claims it will. Mr. Smith stated he considers 6 mc compatible system in the VHF and UHF positions, but that specific standards must await further development. He warned against a possible second freeze ensuing in UHF allocation if sufficient care is not taken now to do the job right.

Comr. Jones pressed the Philco witness concerning his firm's similar position during the 1940 proceeding looking toward adoption of monochrome standards and pointed out that during those hearings it was claimed $10 would be necessary to make a set workable on two-line and UHF standards. The Commissioner charged the record of this monochrome hearing seemed to kill the "voodoo put out on incompatibility of lines and fields" during the present color proceeding.

In his prepared statement, Mr. Smith said during the fall hearing Philco indicated it was "consider-

RCA HITS CBS PLAN

Says It Admits 'Weakness'

THE CBS announcement Wednesday that it plans to adopt certain "sampling" principles, which according to RCA are inherent in the RCA all-electronic color system, was interpreted by an RCA official last week as an admission of the "weakness" of the CBS mechanical system.

Dr. Jolliffe cited testimony of Dr. Peter Goldmark, CBS engineering director, before FCC last week and noted that "CBS has finally recognized the merits of the RCA color television system by adopting several of its outstanding features."

"Of course, if CBS continues to modify its system by adoption of other important elements of the RCA system, including use of the RCA tri-color tube, there will be little technical difference left between the two systems," he said. "There would remain, however, the important element of compatibility to safeguard the public investment in television receivers."

Sanford At KBTV (TV)

J. CURTIS SANFORD is vice president and general manager of KBTV (TV) Dallas, Tex. In the Directory of Film Buyers at U. S. Television Stations [TELECasting, March 6] Mr. Sanford was erroneously identified with KEYL (TV) San Antonio. The film buyer for KEYL should be Mortimer Dank, program manager.

COLOR HEARINGS

(Continued from Telecasting 11)

inability ofstandard black and white television."

He said 32.1% rated the monochrome of the CBS color signal as "somewhat better" than standard monochrome while 40% said it was about the same as 32.7% said CBS monochrome was poorer. These last comparisons resulted in lengthy attacks upon the validity of the studies by opposing parties and FCC's assistant general counsel, Harry Plotkin, assisted by H. H. Goldin, acting chief of the Commission's Economics and Statistics Div. Mr. Goldin subsequently was asked to take the stand to defend his criticism.

DuMONT PLANS

Revamps Production, Programs

REORGANIZATION of DuMont TV Network's production and programming department has been announced by James L. Caddigan, DuMont director. All production facilities in New York and all programs will be supervised by a central group of executives rather than a local studio official, according to Mr. Caddigan.

Four major sections have been organized handling program development and procurement, production, studio supervision and training. Alvin Rollander, formerly supervisor of Studio A, has been named manager of production facilities, new post; Don Russell was named chief announcer, and Miss Duncan MacDonald was chosen to head the new training section.

WHITE-SANFORD

Named To CBS-TV Post

HENRY S. WHITE, president of World Video Inc., will join CBS as associate director of television programs, Charles Underhill, CBS- TV, announced last Thursday. Mr. White's appointment is effective next Monday (March 27).

Simultaneously appointment of Howard Soyg, head of the CBS-TV program department, as assistant to the director of programs, was announced.

COLOR ISSUE

Coy Lists Alternatives For Settlement

THE ALTERNATIVES among which the color television issue has been discussed in a speech at the U. of Oklahoma's day at Norman (for other details of He said he "hoped" but would not "predict" that the answers will be found in time to permit lifting the television licensing freeze "be before this year is out." The alternatives he listed included the possibility of establishing a council of representatives which would permit the operation of all the major competing color systems — those of RCA and CBS and possibly of Color Television Inc. Moreover also the alternatives of whether set manufacturers might not now begin building adapters into their new TV receivers, so as to reduce the obsolescence factor in event FCC ultimately adopts standards based upon the CBS system. Referring to the advantages which would come with development of a single standard, on which RCA, CTI and others are working independently, with RCA promising a demonstration of its results within a few weeks — Mr. Coy "I hope with all my heart such a tube develops and that when it is shown it will be perfect. However, in the case of this tube, as in case of RCA model, but other color television marvels, neither the Commission nor the rest of the industry can afford to count any such apparatus ready in the past few months I have seen too many press releases describing perfect color television badly mutilated by bad performances."

CBS Progression

He pointed out that the CBS system "has progressed farther than any of the other two systems" but is currently limited as to station size and will not permit color transmissions to be received in monochrome on existing sets without an adapter. The system is "infinitely versatile" and has shown improvements, but presently relies upon three separate color tubes, which makes for "costly and cumbersome procedure" and "involves fundamental problems of registration." He did not feel he should go into detail on the CTI system "until I have seen a demonstration with which [CTI officials] are satisfied."

Chairman Coy said the Commission regards it as "a reasonably safe risk to allow the public the "hand in" for commercial television," on the basis of data compiled from experimental and military operations in this area. Hearing on the proposal was allocated and later in the current proceedings.

He summarized the basic color questions facing the Commission as follows: . . . Certainly a 6-me color television system that would allow black-and-white reception on present-day receivers from color transmissions would be most desirable. At the present time we do not have such a fully developed system. On the other hand, . . . we do have a workable system with good picture quality but which is handicapped by limitations on tube size and which cannot be received by present black-and-white receivers without change. Must we choose an undeveloped system because its color transmission can be received in black-and-white on existing receivers? Or must we choose a workable system which can be received on existing receivers in black-and-white? Or must we permit all of the systems to have more time for experimentation and development? If more time were to be allowed for experimentation and development of all color television systems, could the freeze be lifted and permit black-and-white television to go ahead? Or should the freeze be kept on until it is possible to write engineering standards for color television? If there were to be time for further experimental and developmental work, is there any action which, taken now, will effectively prevent marketing of buying television receivers in a manner which would reduce the obsolescence factor in the event the Commission decision favored a color system incompatible with present black-and-white standards? Given the assumptions I have just stated, could it be expected that the television manufacturing industry would attempt for example, to develop automatic adapters in all television receivers? Would the relatively small cost for such a system in addition to a set be worth it in terms of giving the widest possible latitude for decision after further experimentation extending over many months? Or must we write multiple standards and let the public decide in the matter place which is the better system? Is there any way to assure the public that after they have ac
c ingly accept the risks and costs involved? Or must we reject all of the sys
tems and say that we will proceed immediately with black-and-white television in both bands and let color wait until such time as and in another, and now unexplored portion of the spectrum? There are the very difficult questions which the Commission has to face and resolve before it can decide the color television issue. Needless to say we are not prepared to answer these questions today . . .

The country is far richer in technology than any of our present hearings. There is no question in my mind but what the Commission's actions with respect to color have moved forward the development of color television by month and years. As a member of the Commission I take pride in the fact that we have been so diligent in looking after the public interest to seek Channel 6 (82-
88 mc) instead of Channel 7 (174-
180 mc). The station is owned by Hoyt B. Wooten, who won a grant in June 1948 for experimentation with "mechanical" television in the 4700-4900 kc band. His Memphis commercial application was filed in May 1948.

COMPOSITE COLOR SYSTEM

"Best Part Of All Systems' Urged by Johnson

COMPOSITE color television standard using the better parts of all systems was advocated last week by Sen. Edwin C. Johnson (D-Colo.), chairman of the Senate Interstate Commerce Committee. Questioned about his color attitude after viewing a demonstration staged by Color Television Inc., San Francisco, Sen. Johnson said, "I foresee "much progress ahead" in the field. He added that he hoped a composite standard could be worked out with room for continued improvement in the future. "Anyone who has seen the improvement in RCA and CTI can't help being tremendously impressed. I place great faith in multi-color tubes and with others on which many people are working. Much energy has been devoted to that phase—we're going to get something."

He also made it clear, however, that he believed in the American System when a little outfit like CTI can do what these people have done." CTI showed its system last week in a Statler Hotel suite in Washington. Color pictures appeared greatly improved and observers commented favorably on the 11x14 color picture. Carl I. Wheat, CTI's Washington attorney, told Telecasting CTI will file a formal FCC petition for a chance to show its system in San Francisco where it has laboratorfacilities. He said pictures will be much better than those shown in Washington through use of horizontal switching and three colors per line.

CTI was especially proud of a paddle-wheel test and the system's resistance to color breakup. Behind the wheels was a red, yellow, and green filter which were designed to show faulty definition at close range, though the images were acceptable at a distance of 10 feet. Use of horizontal switching has made the composite color signal more resistent to color breakup. For black-and-white, the same signal was used, and it was stated that CTI was also showing two colors per line but would show three in San Francisco.
No More! No More Plug-in Cartridges! No More Extra Pick-up Arms!

with the new... Fairchild TURRET-HEAD ARM

NOW... All 3 cartridges in ONE ARM

lateral, vertical and microgroove— or any other combination desired

Simply Turn Knob to select cartridge...

Granting authorizing new stations, changes in facilities, and transfers appear at the end of this department, accompanied by a roundup of new station and transfer applications.

March 10 Decisions

By Examiner Fred Johnson

KMPC Los Angeles, WJR Detroit, WGR Cleveland—Denied motion requesting continuance of approximately 45 days from local survery, scheduled in connection with applications for transfer of control and renewal of licenses.

By Examiner Fanny N. Lavin

Granting continuance of hearing from March 14 to April 18 re appliance and that of John Townsend, North Platte, Neb.

By Examiner Jack P. Blume

Wacross Co., Waycross, Ga., Waycross, Ga.—Denied motion requesting continuance of hearing that record hearing be reopened and that further hearing be scheduled on March 31, and petition of Waycross Co. opposing these requests and affirmatively requesting further hearing continuing.

By Examiner Leo Resnich

WAVL Apollo, Pa.—Granted in part petition requesting that hearing in Docket 9540 be reopened and that further hearing be scheduled on March 31, and petition of Telephones Inc. opposing these requests and affirmatively requesting further hearing continuing.

By Examiner Jack Blume

WWJ Detroit—Granted petition by party respondent requesting further hearing. Petitioner's applications of WDNQ Saginaw, Mich., and that of WKMH Inc. Jackson, Mich., now scheduled to be held on March 15 be continued for 60 days. Petition of Michigan Educational Television for further hearing continued to May 15 at Washington, D. C.

March 10 Applications

AFC—1,000 kw

KWBU Corpus Christi, Tex.—Request for AFC on 1,000 kw, 50 kw untl. Non-directed time for one year based on a non-commercial policy. It has been declared a non-profit, educational corporation by the federal government. Listener donations for its support are tax deductible.

March 13 Decisions

By A Board

CP Replacement Expired CP

WHIC-FM Henderson, N. C.—Granted new CP to replace expired CP with expiration date to be shown as of 6 mos. from date of grant.

KWHM-FM LaSalle, Ill.—Granted new CP to replace expired CP with expiration date to be shown as of 6 mos. from date of grant.

WFSS Coram, N. Y.—Same as above.

WHIM-FM Memphis, Tenn.—Same as above.

Following granted CPs for changes in existing facilities:

Creative Radii., Inc.—Change ERP from 276 kw to 50 kw; ant. from 120 ft. to 300 ft.

WMOX-FM Meridian, Miss.—Change ERP from 20 kw to 3.6 kw; ant. from 120 ft. to 150 ft.

KTUL-FM Tulsa, Okla.—Change power of 2.6 kw to 1.25 kw; ant. from 270 ft. to 300 ft.

WFMD-FM Frederick, Md.—Change ERP from 250 (101.5 mc) to Ch. 260 (99.9 mc),

WKNE-FM Keene, N. H.—Change from Ch. 260 (101.5 mc) to Ch. 265 (100.4 mc),

WISC-FM Madison, Wis.—Change from Ch. 235, (98.9 mc) to Ch. 251, (98.1 mc),

WVST Bristol, N. Y.—Change from Ch. 325 (101.0 mc) to Ch. 265 (100.3 mc),

KIRO-FM Seattle, Wash.— Granted mod. CP to change power from 7.7 kw to 4.3 kw DA.

KJAM-FM Fresno, Calif.—Change power from 7 kw to 3.7 kw DA, ant. height from 1,310 ft. to 630 ft.

Hearing Directed

KWBK-Laredo, Tex.—Directed for hearing in consolidated proceeding with application for rejection of license for transfer of control of station. KPBK from Mark Perkins to Allen K. Tish.

(Continued on page 85)

If you subscribe before March 31, we can still include the $5.00 1950 YEARBOOK as a bonus. The supply is almost exhausted, so act now!
Allied Arts

Arlington Kunsman appointed assistant general manager of duPont Co. newly-created film department. He has been with company for over 30 years, and was former manager of company's cellophane division.

Jerry Albert, director of advertising and public relations for United World Films, named editor of National Television Film Council's official publication, Televisa, which will begin publication in April. William Hol- land, of Hyperion Films, will act as chairman of membership committee of council replacing Mr. Albert.

Ray L. Polley, former advertising production manager for Lockwood-Shackelford Adv., Los Angeles, joins Capitol Records, same city, in similar capacity.

Terry Gilksyn, singer-composer, completes series of quarter-hour programs entitled The Solitary Singer, recorded by Audio-Video Recorders Inc.

Jack Melvin purchases interests of his partner David Silverman in Melvin-Silverman Inc., Hollywood public relations firm, with company name being changed to Melvin, Newell & Rector. Joining firm are Betty Newell, formerly assistant to Mr. Melvin at Poste, Cone & Belding, Hollywood, as secretary of organization and account executive; and Roy Rector, formerly operations supervisor and television director at WKY-TV Oklahoma City and prior to that with FCBH, joining as vice president. New firm has offices in Hollywood Plaza Hotel, 1637 N. Vine Street. Phone is Hillside 7338.

Irene Forman, formerly in charge of theatrical and radio research for The Answer Man radio program of Bruce Chapman Productions, joins Alvin Austin Assoc., public relations and advertising organization in New York.

Magnecord Inc., Chicago, announces new PT6-EL, continuous loop panel which firm says now makes it possible to repeat recording without rewinding original spool. Messages from two seconds to 15 minutes long can be played.

Equipment

Jack C. Gardner & Assoc. appointed Bendix Radio district merchandizer for Maryland and Southern Delaware.

George P. Lohman appointed field sales representative of RCA Victor Home Instrument Dept. in northern part of company's East Central Region, with headquarters in Cleveland. He entered radio 28 years ago with RCA, his most previous position being with Allen B. DuMont Labs Inc., in New York.

Eastman Kodak Co., Rochester, N. Y., announces new Model 25, Eastman 16mm Projector, for 115 volt, 60 cycle, AC operation, with various accessories. Illustrated brochure is available by writing company.

Walter S. Bopp, former procurement manager of RCA International Division, appointed manager of radio and appliance sales of the division.

World Renewals

World Broadcasting System has announced the signing of 20 more stations for renewal and extension of the firm's transcribed library service. Stations are:

GREAT testimonials to radio are these letters piled high in CBS Hollywood mailroom from: Please to radio star Garry Moore's (r) request that listeners drop him a line to help convince a prospective sponsor of his CBS show's appeal. Gathering the mail are A. E. Joscelyn, CBS Hollywood operations dir. and Mr. Moore. Over 92,000 letters reportedly were received in the first three days following the call.

Wgaf Grant

Taken to Court of Appeals

Complaint against FCC. August 1949 grant establishing WGAF Valdosta, Ga., was filed fortibnight ago with the U. S. Court of Appeals for the District of Columbia by the losing applicant in the proceeding, Okefenokee Broadcasting Co. Okefenokee in mid-February was denied reconsideration of the grant by the Commission (Broadcasting, Feb. 20). The losing applicant charged that the Commission improperly deprived it of comparative consideration in the proceeding and failed to give full opportunity to be heard. FCC in its final decision to award 5 kw fulltime on 910 kc, directional night, to Valdosta Broadcasting Co. for WGAF had concluded Okefenokee lacked the requisite qualifications to become a broadcast licensee and hence did not warrant comparative consideration.

Radio news and program department of Johnstown (Pa.) Democrat for Jan. 11 was read in part or in whole by 92% of paper's male readers and 72% of the women. Advertising Research Foundation reported after it had surveyed paper's readers in 13th study in continuing series of newspaper readership analysis.

KcMo Farm Tour Ends

KCMO Kansas City's 25 "touring farmers" have returned home after a 25-day, 15,000-mile tour of Europe under the guidance of KCMO's Director of Agriculture C. W. Jackson [Broadcasting Feb. 6]. Ireland was the last of 10 countries visited where farming conditions, agriculture problems and various recovery programs were observed first hand.
**DECISIONS of the New Mexico Supreme Court** in two cases involving KOB Albuquerque's protest against the state's 2% occupational tax provide a financial victory for the station, according to attorneys who handled the case (5236, 5237).

However, it is still possible that the opinion will not clear up confusion over the interstate character of the broadcasting business. The tax status of local broadcasters apparently has not been affected.

The court did not issue a flat ruling that broadcasting is interstate commerce and exempt from such a tax. Instead it held the station liable for a small tax covering business adjudged solely interstate, for which a tax had been paid under protest.

NAB took part in the litigation as a friend of the court.

In one case (5236) Chief Justice Bruce reaffirmed a former decision chafing the lower court for its stand that interstate and intrastate business could not be separated. This in effect held KOB liable for four months' taxes on local broadcasts and was based on a procedural technicality which forbids offering of new evidence that had been available at the first trial.

In the meantime, KOB had brought into contention the tax on another four-month period which New Mexico statute allowed.

The court held in the second case (5237) that none of KOB's receipts were subject to the tax.

**More and Better**

TWO NEW BABIES in one day is the boast of C. H. Fisher, president of KUGN Eugene, Ore., in announcement heralding the grant of "shiny new construction permit for a bouncing 1000 w on 590 kc unlimited time" to KUGN Inc., on Feb. 24th. The louder and lustier KUGN was followed by a grant to the same owners for the new Voice of Oregon-Washington Broadcasters at Hood River, Ore., on 1340 kc with 250 watts.

**WJBC... beams FM 400 feet above Bloomington**

The WJBC radio tower...a solid base, 346-foot guayl steel triangular tower, 54-foot RCA FM pylon antenna (designed to support additional 50-foot TV antenna) ... was completely engineered by IDECO. Bloomington Broadcasting Company picked an IDECO tower for two important reasons:

- Triangular-Section Safety — Extra rigidity...reduced wind load...freedom from distortion...triangular design—important factors that contribute to IDECO's outstanding safety record.
- Complete Engineering" — IDECO engineering covers everything from the solid base to the 3-foot beacon light...transmission lines, service ladders, platforms, and special accessories. Prefabricated sections fit together easily and quickly...no field cutting or welding is necessary.

IDECO radio towers are in service from coast to coast. Investigate before you build or buy a tower...find out how IDECO can relieve you of all tower responsibilities. Write today for bulletin RT-46 and SSRT-1.

March 20, 1950  •  Page 73
Prestige lifter of both radio and the press in Des Moines is the opening of the new Des Moines Press and Radio Club. Cooperation between the sound and printing professions brought about its establishment.

As a result, the city now boasts a smartly decorated club room. A former supper club was remodeled and redecorated as quarters for meetings, luncheons, dinners and social activities. A professional finishing job would have cost more than $5,000, but with a membership volunteer unit working "after hours" and on Sunday, the work was completed at a cost of only $509, members report.

The newly-organized group already lists 375 charter members. Charles McCuen, KRNT Des Moines newscaster, is president. Other officers are: Merrill Gregory, managing editor; 's former secretary; Gene Godt, WHO Des Moines newsmen, treasurer.

The clubrooms are large and attractive highlighted by a radio-depicting panel painted by Bud Sauers and a Fourth Estate panel by Will Conner. Both men are of the Register & Tribune art department.

**BOSTON MEET**

NERE Sets April 15

TECHNICAL papers, exhibits and a visit to WBZ Boston's Radio and Television Center will highlight the 1950 New England Radio Engineering Meeting at the Somerset Hotel in Boston on April 15.

Bulk of the day will be devoted to discussions and presentations of technical papers dealing with radio and television. Topics include industrial television, a new pulse generator for television, transient phenomena in loud speakers, a multichannel PAM-FM radio tele-metering system, design and utilization of a four-phase radio-frequency oscillator, a novel coaxial noise diode termination, and an experimental AM transmitter employing crystal-controlled magnetron.

Feature field trip will be the visit to WBZ's facilities following the late afternoon scheduled windup of paper delivery. W. H. Hauser, WBZ chief engineer, is in charge of the radio engineers' luncheon and Harold A. Dorschug, WEWI Boston chief engineer, is chairman of the papers committee. Business session is scheduled for 4:55 p.m. with the meeting's conclusion set for 6:30 p.m.

**Columbia Development**

COLUMBIA RECORDS Inc. has developed a new record-cutting technique, the thermal engraving process, now being used for long playing microgroove records. The technique produces a cleaner groove with greatly reduced loss of high frequencies, William S. Bachman, director of engineering and development, Columbia Records, has revealed.

For the fifth consecutive year, KRIC-AM-FM Beaumont, Tex., will broadcast all games played this year by the Beaumont Eufeneaks, Class AA Texas League and New York Yankee farm baseball club, the station has announced. KRIC holds an exclusive contract with the club and has tentatively arranged to feed the broadcasts to other Gulf Coast stations. Last year four additional stations carried the KRIC origination. Ed Dittert, KRIC's sports director, again will handle play-by-play, the station said. Sponsorships are on a cooperative basis with local merchants buying time.

**Canadian Ratings**

U.S. Network Shows Lead

AMERICAN network programs took the lead in the national rating report of Elliott-Haynes Ltd., Toronto, for February. First 10 evening programs, with rating, were: Charlie McCarthy 36, Fibber McGee & Molly 34.1, Radio Theatre 33.8, Amos' n' Andy 33.8, Our Miss Brooks 28.2, Bob Hope 27, Twenty Questions 25.3, My Friend Irma 25.2, Aldrich Family 23.8, and Mystery Theatre 22.2. There were a total of 40 commercial network evening programs in the February rating report.

Five leading daytime programs were Big Sister 38.1, Mc Perkins 32.5, Happy Gang (Canadian program) 15.8, Road of Life 14.4, and Wallace's Family 15.1. Leading French-language evening programs were: En Homme et ses Peche 39.2, Radio Carnabie 34.9, Metropole 31.9, Raittement de Rue 21.4, and En Chambre dans le Vinoir 33.2. Leading French daytime programs were: Jeunesse Dorree 28.7, Maman Jeanne 25, Quart Heure de Lotente 22.9, and Grande Soeur 22.6.

**KRIC Baseball**

For the fifth consecutive year, KRIC-AM-FM Beaumont, Tex., will broadcast all games played this year by the Beaumont Eufeneaks, Class AA Texas League and New York Yankee farm baseball club, the station has announced. KRIC holds an exclusive contract with the club and has tentatively arranged to feed the broadcasts to other Gulf Coast stations. Last year four additional stations carried the KRIC origination. Ed Dittert, KRIC's sports director, again will handle play-by-play, the station said. Sponsorships are on a cooperative basis with local merchants buying time.

WLAW-AM-FM Lawrence, Mass., signs off at midnight instead of 2 a.m. as was previously done, seven nights weekly.

**The 'Late' Mr. Phillips**

DON PHILLIPS, disc jockey of the early morning Farm and Ranch Hour on KTXL San Angelo, Tex., awoke to find he'd be a little late for work, a fortnight ago. In great haste, he phoned the transmitter to say he'd be in shortly. He dialed what he thought was 7677, the transmitter number, and told his story to the sleepy voice on the other end. Later in the day, Mr. Phillips received a call from A. D. Rust, president of Westex Broadcasting Co., owner and operator of KTXL. It seems the number Mr. Phillips called in the wee, small hours was 7877, Mr. Rust's number. Thanks to a boss with a sense of humor, Don Phillips is still heard on KTXL.
NEVER to be one who would turn his back on newswave. Craig Lowe, WSGN Birmingham news and special events director, slammed into action when his scheduled Air Force flight to cover Caribbean maneuvers for station's listeners had change of planes. Upon arrival in Washington coinciding with end of the coal strike, Mr. Lowe contacted local U. S. representative who was able to call William Mithe, president, District 20 UMW, Birmingham, from conference table. Using WML Washington facilities, Mr. Lowe gave WSGN listeners first-hand official report of signing of soft-coal contract, with Mr. Mitch urging workers to go back on their jobs.

Teen-Agers Program

DIFFERENT East Bay high school is featured each Saturday on KROW Oakland, Calif.'s Teen, Tunes, and Topics show conducted by Ray Yeager, disc jockey. Students of selected high school pick five favorite tunes each week. Interviews by Mr. Yeager of student leaders also are presented.

WBZ-TV's 'Caravan'

LOCAL Caravan of Stars bowed to WBZ-TV Boston audiences on March 16 with Dick Todd, Canadian singing star, as program's first guest star. Other celebrities scheduled to appear on weekly shows are Frank Fontaine, Mary Austin, Beulah Kay, and others. Program originates from WBZ Radio and Television Center Thursday at 7:30 p.m. Caravan is sponsored by Carpenter-Morton, maker of Carmote paints. Tom Sawyer, WBZ-TV staff producer, is director.

Radio Chapel Program

ANSWER to broadcasters' problems in presenting religious programs is offered by Allen T. Simmons, owner and operator of WADC Akron, Ohio. Mr. Simmons reports debut on March 5 of hour-long program that includes local non-sectarian preacher and staff announce dramatizing stories of Old and New Testament. Regular reading of inspirational poetry. Called The Chapel by the Side of the Road, program urges listening audience to attend church of choice rather than attempt to present substitute for church attendance. Week following premiere of program, Mr. Simmons reports, brought encouraging mail pull.

"Helen and Bud"

TOPICS of top interest of day are beamed to housewife by WKBW Buffalo's new Mr. & Mrs. show, Helen & Bud. Principal characters on program, heard from 4 to 4:30 p.m. Monday through Friday and premiered March 15, are Mr. and Mrs. Bud Hulick. Mr. Hulick is best remembered in original radio show Stoppnagle & Bud, What's My Name? and other network programs. Mrs. Hulick is still active as stage and radio star, known for her starring as active in her native Buffalo's women's activities. Show also provides music readings and interviews with visiting personalities.

Aviation History

TRACING history of aviation from its beginnings to present day, KNCH (TV) Hollywood March 17 started new Jenny's to Jets weekly series. Program features showing of some of greatest motion picture films on aviation and its pioneers; in addition to this, noted pilots of past and present appear on program to give their views on future of aviation. Col. Charles E. Hall, Jr., pilot in both World Wars, produces program.

Promote Savings Bonds

AIMED at promoting U. S. Savings Bonds, WWCD-AM-FM Washington has begun non-political and non-controversial program called Labor Speaks in cooperation with Treasury Dept. and organized labor. Program, which is veteran of stage at 10 p.m. for many years, speaks by labor leaders with its theme-note the purchase of savings bonds.

CKOY Airs Science

SCIENCE students' appetites are whetted in Excursions in Science, science information program produced by General Electric Research Lab, Schenectady, N. Y., and aired weekly, Thursday 10:45 p.m., by CKOY Ottawa. Fifteen-minute program highlights informal discussions of particular phase of science by leading authorities in field. Material covered in each broadcast is condensed in "scientific paper" and sent to listeners upon request.

Dignitaries on WBUR Script

HOUR-LONG documentary on WBUR Boston presentation, marked the station's inauguration on March 1. Written into script and playing themselves were President Daniel L. Marsh, of B. U.; Mayor John B. Hynes; Gov. Paul A. Dever and Prof. Samuel B. Gould, station director and head of department of radio, speech and dramatist.

ices at Boston U.'s school of public relations.

Baseball Coverage

MAJOR LEAGUE baseball games emanating from the East will be broadcast by KALI Pasadena, Calif. Station acting as Los Angeles outlet for new National Liberty Network, will carry broadcasts of National League games live and recreations of American League contests.

Al's Practical Politics

COMBINING education programming with political analysis, WMNR Marion, Ohio, carried broadcast from Grey Chapel at Ohio Wesleyan U. by Guy Gabrielson, chairman of the Republican National Committee. Address was in conjunction with school's institute of practical politics. Week previously, WMNR aired broadcast by Mrs. India Edwards, executive director of women's division, Democratic National Committee.

Science Quiz

WESTERN Pennsylvania high school students again will compete for college scholarships in 1950 School Science Experts' quiz series to be heard on KDKA Pittsburgh Monday nights for seven weeks beginning March 27. Student scientists from public, private and parochial schools in KDKA area will take part in competition which is held annually as forerunner of Budd Planetarium School Science Fair, exhibit of science demonstrations planned and built by high school students. On seventh broadcast, May 8, six finalists will vie for "championship" title and scholarship awards. Ed Young, KDKA production chief, will be moderator on programs.

Appeals to Women

NEW quarter-hour television series, Women in the News, featuring on-the-spot films of happenings regarding the fairer sex, starts on KFJ-TV Los Angeles. Program features Adelaide Heywa, radio and fashion reporter who also will conduct weekly interview with important woman personality, in addition to servicing and editing film recordings being filmed by camera crews in 18 key cities of country.

TR's New Accounts

TRANSIT RADIO Inc., New York, has signed four new advertisers this month. They are Bauer & Black (Blue Jay products) started March 6, through Henri, Hurst & McDonald; Bell Telephone of Pennsylvania, through Grey & Rogers, Philadelphia; General Foods (Birds Eye frozen foods) through Young & Rubicam, March 1; Manhattan soap through Duane Jones, starting in mid-April. Most contracts are for 52 weeks.

BRITISH RADIO

Book Studies BBC Monopoly

In this historical study of the monopolistic organization of broadcasting in Great Britain, R. H. Coase, reader in economics in London U., describes how the monopoly came into being. He then considers what effect it had on the development of and policy towards competitive services such as wire broadcasting and foreign commercial broadcasting intended for listeners in Great Britain.

The volume also contains a summary of the views which have been held on the monopoly of broadcasting in Great Britain as well as an examination of the arguments by which the monopoly has been justified. Book also is timely as the BBC's current charter expires on Dec. 31, 1951.

Amateur Radio Map

AMERICAN Radio Relay League of West Hartford, Conn., has announced its new and revised edition of the Amateur Radio Map of the World. A four-color special projection by Rand McNally, the map has been especially prepared for use by amateur radio stations primarily in their “DX” or long-distance international communications activities. Price of the 30 x 46 inch map is $2.

Pictorial Discs

A PICTORIAL phonograph record, designed specially for use as inexpensive transcriptions of radio programs, has been developed by Vis-I-Disc Corp. according to International Public Relations Corp., which represents the record firm. The new records are made of unbreakable composition plastic, light in weight, and will be produced for 78, 33 1/3 and 45 rpm speeds in 7, 10 and 12-inch sizes. Film uses a process which permits reproduction of art work from Kodachrome in full color over the face of the disc.

JACK EDMUNDS, formerly producer for NBC and CBS and head of program operations for ABC in Washington, appointed program supervisor of KPRC, Houston, Tex. From 1931 to 1939 with NBC, he produced the Ed Wynne show, Rudy Vallee Hour, Paul Whiteman's show and Chase & Sanborn show. At CBS, where he spent four years, he produced the Andre Kostelanetz show, Let's Pretend, Sunday afternoon symphony broadcasts and Abe Labora in Illinois series.

JOHN S. LUGT joins staff of KSL-TV Salt Lake City as producer. He formerly was with New York Daily News and its WPIX (TV) New York and also with Martin Stone Agency.

HUGH HODLER joins staff of WCOG Greenboro, N.C., as program director. He formerly was with Ways Charlotte, N.C.

STERLING QUINTLAN, publicity director of WBBR (TV) Chicago, named program director succeeding E. JOHNNY GRAFF, resigned (see Agencies).

M. MAXINE MULVEY, formerly of KOH Omaha, Neb., joins writing staff of KZL Denver.

NEWTON THOMAS Jr., formerly with WVRD Richmond, Va., joins announcing staff of WXGJ Richmond.

BILL NEWMAN appointed chief announcer.

JEFF EVANS joins WLDY Ladysmith, Wis., as chief announcer-engineer. He formerly was chief engineer at KRUL Corvallis, Ore.

GRETCHEN THOMAS appointed women's director of WERE Cleveland. She formerly was with WTAG Worcester, Mass., and WTIC Hartford, Conn. She also was formerly a network actress.

LUELLA ENGEL joins WPFB Middle tow, Ohio, to conduct her own show, devoting 15 a.m. to homemaking, Mon.-Fri.

GUY KIBBE, stage and screen actor, joins panel of Mutual-Don Lee Sports for All heard Thursday, 8:30-8:55 p.m. (FST).

ERNIE KERNS, formerly with WAOV Vincennes, Ind., joins WCSI (FM) Columbus, Ind. He replaces RONNIE MOORE who will do television work in Cincinnati.

DICK JOY starts as announcer on NBC Light Up Time and KHH Hollywood Nancy Dixon show.

DICK HAYMES and JO STAFFORD announced as permanent co-hosts of weekly CBS CARNIVAL Contested Hour starting March 26. Mr. Haymes will act as m.c.; Miss Stafford as featured feminine singer. This marks first permanent replacement of program's featured singer, Buddy Clark, who died several months ago. Program since that time had featured different singers from week to week.

MARY MARLOW, formerly with Sammy Kaye's band, joins music staff of WOC Des Moines. Miss Marlow will appear on both radio and television.

NORMAN WHITE, production director, WJE Detroit, named general chairman of Detroit Garden football championship game. Game is a fund raiser for needy children every Christmas.

LEE MORES, announcer at WSB Atlanta, Ga., is the father of a boy, John Lee.

JACK GARDNER, chief announcer, KLAC Hollywood, is the father of a girl, Valerie, born March 9.

ED EVANS, film program director of WPIX (TV) New York, is the father of a boy, born March 4.

WKRC CAMPAIGN

Daytime Listening Stressed

In an attempt to capture the overall audience lead in Cincinnati, CBS outlet WKRC has announced launching of a programming drive with emphasis on daytime listening.

Claiming top Cincinnati Hooper for evening listening, WKRC has scheduled six local shows addition-ally on its daytime schedule. Of these, four are sponsored. Neighborhood Grocery Stores and Salad Time vegetables, respectively, sponsor a housewives interview and a song and chatter show, both by Dave Upson. Ed Libby's platter giveaway is sponsored by the Cincinnati Times-Star and two early morning news shows are backed by Fenamint.

In addition, WKRC announced acquisition of Procter & Gamble's daily serials, Guiding Light and Big Sister, contracts for 15-minute weekly shows for Patricia Stevens Modeling School and Nash, and announcements for General Mills, Crest toothpaste, and Inghston and Ladies Home Journal. The campaign is in charge of General Manager Herman Fast and Paul Shumate, program director.

CONSOLIDATED net profit after taxes of $1,225,912 reported by Emerson Radio & Phonograph Corp. for 13-week period ended Feb. 4, 1950. Figure is equal to $1.39 per share or 679,606 shares outstanding.

WHY TAKE SECONDARY COVERAGE of Virginia’s FIRST Market?

Regardless of claims, if you’re trying to cover Greater Norfolk from the outside, nature’s terrain made it impossible.

Only Greater Norfolk stations can cover it. And only WSAP can cover it at lowest cost.

Avoidability costs from Ro-Tel will prove it.

WSAP . . . “solving advertising problems” in Virginia’s FIRST market.
Bag Promotion
To produce series of one-minute interviews now being broadcast 24 times weekly over WLAB Lawrence, Mass., Chief Announcer Richard Hickox traveled 1,000 miles by automobile. Sponsored by Megowan Edator Food Co. of Lowell and Chicago, series is being presented to listeners to stimulate consumer interest in new Educator Saltine container called "Inner Crisp" bag. Grocers in WLAB listening area were interviewed regarding their opinions on value of container. As additional promotion, participating grocers were provided with supply of post cards by Megowan Co. to mail to customers and other friends to notify them of times they would be heard over station.

Square Dance Promotion
KGW Stockton, Calif., McClatchy Broadcasting Co., outlet, and sponsor report all-out promotion of recent broadcasts of The Saturday Night Square Dance. Station sent letters to leaders of all dance groups in listening area informing them of broadcasts and carried spot announcements and newspaper advertising on show. In turn, Dunlap’s Dry Goods Co., sponsor, had store personnel dress in square dance costumes and feature square dance fashions. Square dance music also was played over store’s public address system all day long.

‘Name the Stars’
OFFERING $3,500 in prizes for the winning answers, WEAU-AM-FM Eau Claire, Wis., has been conducting its “Name the Stars” contest in which persons are asked to identify 44 radio stars whose pictures are run in newspapers, along with 50 words or less on “My favorite WEAU star is...” Station reports that “Name the Stars” offers tremendous “tune-in” hype to listeners. Car offered as first prize is displayed daily in surrounding towns and second prize, spinet organ, is played on air each evening.

Breweries for Lombardo
BREWERS, among purchasers of The Guy Lombardo Show, produced and transmitted by Frank W. Col., are being sent promotion pieces by Ziv Co. Prepared by W. B. Philley, sales promotion manager, mail piece is sent out of every brewery in country—with carbon copy of letter going to ad agency of each brewery. Letter points out three consistent tactics in key areas. As “Read on” indication, name and address of recipient are typed in red ink.

Limerick Contest
BOY or girl sending in best concluding line for any one of the limericks in the book is being awarded new, completely equipped bicycle by WKKW Albany, N. Y., WIBW, Topeka, Kans., and WOR, Newark, N. J. Contest, closing March 31, is in conjunction with World Music, Inc.'s publishing of “Bicycle Song.”

Turner’s Pull
MORE THAN 1,400 requests for handicraft tool sales catalog were received by Umer Turner after one-time offer during debut of his new WBKB-R TV (Chicago) show, Hobbies for Profit, station reports. Show is sponsored by Warner Electric Co. Mr. Turner, who demonstrates home handicraft that can be converted into profit items, is new editor of station. He is sponsored for 52 weeks through Paul Grant Agency, Chicago.

Favors From KCBS
PARTY favors carrying promotional material plugging Party at the Palaces, new Mon.-Fri. audience participation show, sent to trade by KCBS San Francisco. Material contained brief profile on M. C. Bill Weaver, Vocalist Ellen Connor and Ray Hackett and his orchestra, stars of program. Walter Conway, KCBS promotional manager, originated promotion stunt.

Hotel Tie-in
KENYON & ECCKERD, New York, distributed 2,500 cards to hotel patrons visiting city, as promotional tie-up with The Ford Theatre production of “Room Service” on WCAU-TV Philadephia. Cards calling attention to Ford drama and hotel’s room service were placed on tables in hotel rooms. Twelve hundred cards were distributed to conventioners of Hotel Greeter’s Assn., meeting at Benjamin Franklin Hotel. In addition red and white cards with attached lapel pins in shape of keys were sent to radio and TV editors throughout country. Cards read: ‘Recipient will please use this key as a reminder to enjoy ‘Room Service’.”

‘Daytime Drama’ Parade
FASHION line, featuring McKeetyck-Williams Co. designs named after 10 best known Procter & Gamble century serials, has been announced. Called “Daytime Drama” dresses, each product reflects P&G show. Among them are “Peggy Young” (Pepper Young’s Family NBC) and “Anne Malone” (Young Dr. Malone CBS). Kick-off of promotion will be first of nation-wide series of fashion shows at Stork Club luncheon in New York. Projects to be bolstered by program commercials and other forms of advertising.

‘Sell With Del’
“YOU Sell With Del” is bold-face legend on new direct mail promotion piece sent to 30,000 WIBW TV (TV) San Francisco. Copy tells of proven sales effectiveness of KPIX afternoon disc hockey show, stars of former band leader Del Courtneey. “When you buy participations on the Del Courtneey show,” copy advises, “you take your place in the outside circle of personalities who regularly visit the Del Courtneey Show—Rudy Vallee, Peggy Lee...”

Cue From Tailor
CUE from tailor is taken by Mutual in its promotion of “Mister Price Presents the Fit that suits” and displays. Inside of folder, tailor advises advertisers “how to custom-tailor the airwaves” by “tailoring their coverage to match their marketing patterns as snugly as they can.” Reason why “this network radio fabric is the most serviceable ever made,” folder reads, is because of Mutual’s “flexibility.”

Multi-color Pencils
PENCIL that writes in multi-colors (user can write in four colors in a single stroke) is being distributed by Best Dime. Called the Makebelieve Ballroom for service charge of 10¢. In conjunction with pencil distribution, Mr. Dale holds weekly “doodling” contest with the winner receiving in the best four colored “doodle” receiving a $10 prize.

WDSU-TV Sets Pace
TWENTY-PAGE Sunday supplement of the New Orleans Times Picayune on March 5 was designed exclusively for television. WDSU-TV, as only TV station operating in the area, highlighted section both in newstand and in advertisements. According to Robert D. Swezey, station’s general manager, paper’s circulation of 320,000 readers “cannot be further stimulated by television interest.” Mr. Swezey predicts number of TV sets in the New Orleans area number about 20,000.

KCOL Rifle Trophy
MARKSMANSHIP award—KCOL Rifle Trophy—was presented to Lafayette Col., rifle team early this month by Herb Hollister, KCOL Fort Collins, Col., owner. Team was winner of the northern division championships of Colorado Rifle Assn., broadcast over KCOL by Sports Director Jack Hitchcock. Follow-up promotion is display of trophy in all member clubs’ towns.

WDTV (TV) Camera Miniature
MINIATURE TV camera—4½ inch ceramic—distributed at first anniversary dinner of WDTV (TV), DuMont, New York, and installed in cameras in photo studio for sale in Pittsburgh, is responsible for flood of complimentary letters from the 200 guests at Jan. 24 affair, according to WDTV. Camera was designed by Harry Munson, WDTV film director.

Personnel
ANDY MURPHY, former publicity writer at ABC and NBC Chicago, joins press staff of WBBM-CBS Chicago.

FRANCIS X. ZUZULO, MBS’ assistant director of press, named to board of directors of U. of Missouri Alumni Association.

MARTHA CURRY, formerly of NBC Hollywood press staff, and Dennis Buckley have announced their marriage.
New Business
(Continued from page 12)

BLATZ BREWING Co., Milwaukee, March 30, renews sponsorship of Roller Derby, ABC-TV, Thurs., 10:30 p.m. to conclusion, for additional 26 week period. Program will be carried by 15 ABC-TV stations.

JULES MONTENIER Inc., Chicago (Stopette deodorant), will begin sponsorship on April 12 of What’s My Line, CBS-TV quiz program now heard on Thursday evening, but changing to alternate Wednesdays in 9-9:30 p.m. time-slot. Agency: Earle Ludgin, Chicago.

Adpeople • • •

R. C. PECK, who has been with Cities Service Oil Co., New York, since 1946, appointed advertising and promotion manager, succeeding ROBERT S. BLOUNT, recently named sales manager of Boston Division of Cities Service.

ARCHIBALD R. GRAUSTEIN Jr., director of market research for Thomas J. Lipton Inc., New York, resigns to rejoin Lever Bros. Co., as director of market research. He originally joined market research department of Lever shortly after graduation from Massachusetts Institute of Technology in 1967.

JACK C. GRIFFIN, account executive with Sherman & Marquette Agency, Chicago, appointed advertising and sales promotion coordinator of Consolidated Grocers Corp.

FLIGHT TO CUBA

KGW Newsmen Cover Trip

MASS flight of private planes to Havana, Cuba, which left Portland, Ore., Feb. 25 under sponsorship of the Portland Chamber of Commerce, is being accomplished by two representatives of KGW, Portland’s NBC affiliate. The pair are Bob Thomlinson, director of special events and chief announcer, and Earl E. Peterson, technical supervisor. They are handling, respectively, a tape-recorded commentary on the proceedings and supervision of all radio equipment.

The flight, second such sponsored by the Portland Chamber and covered by KGW, numbers 86 light planes, 244 pilots and passengers, and is accompanied by a USAF C-46 “Commando” from the 403rd Troop Carrier Wing. The big ship will act as tour press and headquarters ship, Mr. Thomlinson and Mr. Peterson served in similar capacities on last year’s flight to Portland, Me.

The tour is composed of businessmen, farmers, civic and commercial leaders from the Northwest. Dual purpose is to take a vacation and promote the Portland Rose Festival, Pendleton Roundup, Oregon itself and the Pacific Northwest. The tour has contacted 44 stations, including five in Havana, as well as all networks and their newsmen and the various chambers of commerce along the route.

CHICAGO SCHOOL BOARD

Mr. Herbert, public relations manager of the Seattle Chamber of Commerce, emphasized that those concerned with educational and social agency efforts must cure themselves of the idea that commercial stations are required to put on such programs.

John C. Crabbe, radio director of the College of the Pacific, Stockton, California, was re-elected chairman of the Western Radio-Television Conference, and Mrs. Inez Richardson of Stanford U., Palo Alto, was re-elected treasurer. Elected to the new post of public relations coordinator was James M. Morris, program manager of KOAC Corvallis, Ore. Los Angeles was selected as the site for the fourth annual conference, to be held in 1951. William Sener, director of the radio department at the U. of Southern California and manager of KUSC Los Angeles, was named 1951 Conference chairman.

Harold E. Maples

Harold Edmund Maples, 50, general manager and vice chairman of the board of Albert Frank-Guenther Law, New York advertising agency, died March 5 in St. Petersburg, Fla. Mr. Maples had been with the agency since 1928.

SUPPORTS FCC

Crabbe Hits Trafficking

NORTHWEST broadcaster E. B. Crabbe has told FCC "the extent to which trafficking in authorizations granted by the Commission has been permitted or attempted has been a genuine menace to the radio industry in recent years." He supported FCC's proposal to automatically forfeit the construction permit for any station which is sold before program tests commence [BROADCASTING, Jan. 16].

FCC's proposed rules "would halt an important aspect of this trafficking," Mr. Crabbe asserted. He added, "I have personal knowledge of several recent instances in which the holders of construction permits granted by the Commission have made no serious efforts to construct a station, but very strenuous efforts to sell the permits." Mr. Crabbe indicated the salability of CPs "can even be used as a club over existing broadcasters" with the latter being forced to "buy off potential competition." Mr. Crabbe stated he believed that so-called hardship cases would be very infrequent, and noted that "the possibility of hardships...would be a fair risk for the Commission to impose on every applicant.

Mr. Crabbe's station interests include KXL Portland, Ore.; KXLF Butte, KXJL Helena, KXL Missoula and KXLQ Bozeman, Mont., and KXLY Spokane, Wash.

BMI Honored

TRIBUTE to service of Broadcast Music Inc. was paid by the Alabama Broadcasters Assn. at its March 10-11 meeting, held at Huntsville. The association noted that BMI is celebrating its 10th anniversary as an industry source of music. President Carl Haverlin and the staff were commended along with board members for their service and their management of fresh material and new talent.
NOVIK ANSWERS

FCC Query on Series

M. S. NOVIK, president of WLJB New York, has asserted in a letter to the FCC that the station had not invited opponents of a Fair Employment Practices Commission to air their views after the station broadcast a series of editorial supporting FPEC, because to do so would have been to cause "controversy where no controversy, in fact, exists."

Mr. Novik stated his position in a reply to an FCC inquiry as to what affirmative action the station took to seek out views differing from those presented in its three-week editorial series on FPEC Jan. 15-17.

"The question of whether the obligation of the licensee is satisfied if he merely makes the time available, if granted, or whether he must actively seek out and present a differing point of view, depends basically upon the controversial issues involved," Mr. Novik wrote. "There are situations where WLJB might editorialize and not permit an opposing point of view to be presented even though the opposite could claim that the issue is controversial; a fortiori, in a case such as that, WLJB would not automatically seek out opponents and present their points of view.

The issues of religious and racial cleavage, said Mr. Novik, may be opposed by an "isolated few," but WLJB feels that neither issue is controversial.

"A dissertation if the actual danger could result if we even permitted a different point of view to be expressed," he said.

Mr. Novik said that if the station ditherized on "such highly controversial issues as government spending, U. S. vs. U. S. S. R. relations, present legislation affecting birth control, WLJB would not only 'afford opportunity' to those who opposed our point of view but would affirmatively seek out and present a differing point of view either as a special broadcast, or in the form of a debate or round table discussion."

-R EXPANDS

Adds San Francisco Office

R REPRESENTATIVES Inc., only organized station representative firm, has opened a San Francisco office, Frank M. Headley, resident, announced last week.

James M. Alsbaugh, former ace executive of John Blair, has been named manager of the R San Francisco office, which is located at 814 California St., Tel- one is Exzbrook 2-3407.

WHLI Cites Civic Influence

SUCCESSFUL and efficient use of radio editorials designed to marshall public opinion and spur action on the community level is claimed by WHLI Hemptead, L. I., following the recent railroad disaster at Rockville Centre, L. I.

WHLI sent its special events crew, together with News Director Jerry Carr and Public Affairs Director Arthur E. Paterson Jr. to the scene of the accident for interviews and other data. Then the station prepared an editorial calling for prompt installation of a safety device, and urging listeners to write to the Public Service Commission. A second editorial was aired 48 hours later asserting that human failure alone was not responsible for the accident, and that the PSC was responsible for the accident.

After the second editorial was repeated, public opinion was "immensely and forcefully," WHLI reported, with PSC ordering a hearing the next day and ordering installation of the safety device. In addition, the Nassau County grand jury decided to launch a sweeping probe. WHLI reported it was deluged with mail and telephone calls supporting its stand.

Presto 9A recording console, as new, with tubes, plugs and instruction book. $400.00. Box 518E, BROADCASTING.
COMMUNIST TAG
Bill Seeks Air Identification

MOVE on Capitol Hill to require an organization, listed as "subversive," to identify itself as a "Communist organization" when sponsoring a broadcast or teletack has been increased.

This provision is contained in measure (S 2311) to control subversive activities by setting up a "Communist Activities Control Board" or was added, pending, to bills on Communist and Communist front organizations. Sponsored by Senators Karl E. Mundt (R-S. D.), Homer Ferguson (R-Mich.) and Olin D. Johnston (D-S. C.), the bill last week had hurled the Senate Judiciary Committee and was expected to come before the Senate. An identical (HR 2913) already produced by Rep. Richard M. Nixon (R-Calif.) in the House, was referred to the House Un-American Activities Committee. According to Rep. Wally Bloss (D-Mich.) the radio provision of the bill is designed as a safeguard measure and would apply only to the organizations already found to be subversive as defined by the legislation.

The bill also would outlaw use of the mails or any other means of interstate or foreign commerce unless the following was contained: "Dissemintated by a Communist organization." The radio identification would be: "The following program is sponsored by a Communist organization.

The radio-TV provision reads:

It will be unlawful for any organization which is registered under Section 1, or for any organization which is in any respect to which there is in effect a final order of the Board requiring it to register under Section 7, or for any person acting for or on behalf of any such organization--to broadcast or cause to be broadcast over any radio or television station in the United States, unless such matter is presented by the following statement, with the name of the organization in the blank, in place of the blank: "The following program is sponsored by a Communist organization."

WOW SOUTH TOUR
Gets Off on Schedule

WOW OMAHA'S farm study tour of the South began on schedule last week with approval from the U. S. Interstate Commerce Commission following the May 16 start of the "Fate of the Day" project through 18 southern states and Cuba hung in the balance for a week because the travel ban imposed by the coal walkout. The vote of the company, said Hansen, WOW's farm director, said.

The 17-car, all-Pullman special is charged expenses $215.92 miscellaneous from the farm states to the "New South." The tour began March 15, and its return slated for March 30. First stop was the cattle area of Oklahoma where the WOW farm tour members were guests of Gov. Roy Turner. Each day's activities are being recorded for Mr. Hansen's radio-TV Farm Service Reporter program.

FCC Charge Denied

PHILCO Corp., Philadelphia, and Sylvania Electric Products Inc. Boston, have charged the Federal Trade Commission that they violated price discriminative provisions of antitrust laws purchase and sale, respectively, of radio tubes. FCC's complaint charges that Sylvania has granted lower prices to Philco, which "knowingly" induced and accepted them from Sylvania and other tube manufacturers.

Help Wanted (Cont'd)

TRAVELING SALES REPRESENTATIVE For LEADING TRANSCRIPTION COMPANY Liberal commissions. Territories open: South, Southeast, New England, Detroit, Cleveland, Montana, Wyoming, Maryland, Virginia, Delaware, Nebraska, Missouri, Kansas. Send photo and references. Transit Radio

Set for Twin Cities Area

INSTALLATION of music-equipped vehicles in the Minneapolis-St. Paul area has been assured with Broadcasting Services Inc., signing a contract with the Twin City Rapid Transit Co. authorizing the service. Installations will commence late this month andthumbnail cabs will begin around June 1 though no FM outlet has definitely been set. Announcement was made by Charles Green, president of the transit firm.

Arrangements between the transit company and Broadcasting Services, which is affiliated with Transit Radio Inc., Cincinnati, call for installation of receivers in about 500 buses and street cars in the area. Programming format will be similar to that followed in 20 other TR cities, with schedule to run from 6 a.m. to 10 p.m. or midnight, according to Myles Johns, president of Broadcasting Services.

WARD WEEK'

CBS Stars Aid Promotion

WARD Johnstown, Pa., attracted national attention to the city's 1950 sesqui-centennial celebration fortnight ago with special promotion spots by an array of topnotch CBS stars.

A CBS affiliate, WARD called on the network for cooperation of name stars in planning observance of WARD Week. Theme of the spots was: "Bee to wish to Johnstown, Pa., on its sesqui-centennial celebration and here's wishing 150 years more of good living and good listening to WARD."

Contributing special messages were Red Skelton, Garry Moore, Amos 'n Andy, Burns & Allen, Bergen & McCarthy, Art Linkletter, Arthur Godfrey and others. In addition, spots were aired on such programs as Theatre of Today, Garry Moore Show and Arthur Godfrey's daytime program. Locally WARD aired special local talent broadcasts, remotes and giveaways, with varied promotion stunts. City's Mayor Walter E. Rose proclaimed "WARD Week" March 6-11 on major newscasts.

TR’S ANSWER

TRANSIT radio’s triumvirate in the nation’s capital has asked the FCC to deny a complaint that would rule transit broadcasting contrary to the public interest.

The 12-page brief was prepared by firm, on behalf of Transit Radio Inc., Washington Transit Radio Inc., and the Capital Broadcasting Co. (Licensees of WWDF-FM Washington which holds a TR franchise). Transit Radio’s volley was directed particularly against the complaint filed before the FCC by Washington Attorneys Franklin S. Pollak and Guy Martin on their own behalf which paralleled complaints filed earlier by Transit Riders Assn. FCC has the matter under study [Broadcasting, Feb. 20, 13].

Opponents of music-equipped vehicles, the brief argued, have “draped their objections in the cloak of constitutional phrases which have no applicability to the factual situation.”

It was also argued that (1) the issue already had been settled by Washington’s Public Utilities Commission ruling in favor of transit radio; (2) that no disputable questions of fact require hearing or investigation by FCC, and (3) that the petitions ask FCC action to deal with matters “beyond its (FCC’s) jurisdiction.”

Messrs. Pollak and Martin had charged in their petition that transit radio is contrary to “the public interest” and urged the Commission.

Files Brief Asking FCC To Deny Complaint

The nation’s capital has asked the FCC to deny a complaint that would rule transit broadcasting contrary to the public interest.

The 12-page brief was prepared by firm, on behalf of Transit Radio Inc., Washington Transit Radio Inc., and the Capital Broadcasting Co. (Licensees of WWDF-FM Washington which holds a TR franchise). Transit Radio’s volley was directed particularly against the complaint filed before the FCC by Washington Attorneys Franklin S. Pollak and Guy Martin on their own behalf which paralleled complaints filed earlier by Transit Riders Assn. FCC has the matter under study [Broadcasting, Feb. 20, 13].

Opponents of music-equipped vehicles, the brief argued, have “draped their objections in the cloak of constitutional phrases which have no applicability to the factual situation.”

It was also argued that (1) the issue already had been settled by Washington’s Public Utilities Commission ruling in favor of transit radio; (2) that no disputable questions of fact require hearing or investigation by FCC, and (3) that the petitions ask FCC action to deal with matters “beyond its (FCC’s) jurisdiction.”

Messrs. Pollak and Martin had charged in their petition that transit radio is contrary to “the public interest” and urged the Commission.

**New Grants, Transfers, Changes, Applications**

- **U.S.-Cuban Treaty** *(Continued from page 23)*

  on 10 regional frequencies (the same number provided under the old NARBA); Cuban Class B rights on 15 radio channels; key rights on the 1340 kc local channel, and other privileges which would increase the limitations to seven existing U.S. stations and guarantee that future U.S. stations and other channels will be protected Cuban operations on those frequencies.

  The U.S. 1-A channels were 640 kc (KFI Los Angeles), 670 kc (WMAQ Chicago), and 830 kc (WCCO Minneapolis), with Cuba retaining privileges on 890 kc (WNWR-LWS Chicago). The 1-B frequencies on which Cuba would be accorded special privileges were 680, 810, 850, 1000, 1030, 1060, 1070, 1080, 1090, 1110, 1130, 1170, 1190, 1520, 1550, and 1500 kc.

  Regional frequencies on which Cuba would have “high power” rights were 550, 570, 590, 630, 790, 910, 920, 950, 980, and 1150 kc.

  DECCA Records Inc. last year recorded net earnings, after taxes, of $850,870, or $1.04 a share on 770,650 shares of capital stock outstanding, according to the company's annual report.
Richards Hearings
(Continued from page 28)

March 1948

He has been and is privately critical of the Roosevelt family. He believes that the action of James Roosevelt in urging the Commission to investigate these stations and to hold these hearings was biased and prejudiced and caused by James Roosevelt’s dislike of Richards’ political views.

He said Mr. Richards “asserts that he has a right to have and to express privately his own opinions with respect to the Roosevelt family and their motives in their attacks upon him, so long as he does not broadcast false or defamatory material concerning them over his radio stations.”

William Burns, former radio news writer and now a Los Angeles Times reporter, was the first witness. He identified letters which he said had been sent to FCC Comr. Paul A. Waring in February and March 1948, when he was secretary-treasurer of Radio News Club of Los Angeles.

Robert’s Second Witness
FCC’s star witness, Mr. Roberts, former director of public affairs for KMPC and now KFWB Hollywood newscaster, was the second witness.

President of the Radio News Club when the news-slan ting charges were filed two years ago, he said Richards was anti-Semitic and anti-administration. He claimed Mr. Richards directed him to slant newscasts against the Democratic Administration and the Roosevelt family, and to minimize the Truman position and eliminate the President’s speeches. He quoted Mr. Richards as referring to President Truman as “the neckbeard salesman in the White House.”

Mr. Richards, he declared, specifically instructed that Bernard Baruch, Edwin Paulie, Howard Hughes, Henry Wallace and Henry Kaiser, among others, be treated in an unfavorable light. Gen. Douglas MacArthur, Sen. Homer Ferguson (R-Mich.), and Sen. Owen Brewster (R-Me.), were to be highly praised, he said.

Mr. Richards, he said, made uncomplimentary remarks about William Paley, CBS board chairman; Ben Case, David Sarnoff, RCA board chairman, and Robert Kintner, now ABC president. Identifying them as Jews, Mr. Roberts testified Mr. Richards said “they are in league.”

Backs Republicans
The witness asserted that Mr. Richards’ said newscasters should be against this liberal move and we should lend our efforts through the medium of news to strengthen the political position of the Republican party so it could get into power in 1948.

Mr. Roberts said he once told Mr. Richards he was violating his broadcast license by news-slan ting, and that Mr. Richards replied: “To hell with the FCC. Let them take our license away. We’ll go down with all flags flying.”

Mr. Roberts told Examiner Johnson that Mr. Richards frequently met with KMPC staff members to tell them how he wanted news handled. On one occasion, Mr. Roberts stated, he had announced practice saying the word “Republican” in an effort to have it sound as good on the air as “Democrat.”

He testified Mr. Richards instructed him to use material from anti-Administration columnists and news commentators as factual news and to incorporate it in newscasts without mention of source. Anything anti-Administration was instructed to be used as fact, he added.

Mr. Richards said he didn’t always follow instructions and reported that he and his staff were often compelled of compromise regarding Mr. Richards’ instructions, according to his demands and then shipping in a paragraph that “would attempt to give the other side.”

“I figured,” Mr. Roberts said, “that he would only hear what he wanted to hear.” This technique didn’t always work, however, because sometimes Mr. Richards would dictate the entire text of a particular item of a news broadcast, he added.

He said that Robert O. Reynolds, KMPC vice president and general manager, agreed with his views. Before going to work for KMPC, Mr. Reynolds said he discussed the injection of editorial opinion into newscasts with Mr. Richards, because he knew Mr. Richards to be “a man of strong, fixed opinions.” Mr. Reynolds, he said, told him he thought they could “handle Richards.”

Dismissal Action
Mr. Roberts said his dismissal from KMPC in February 1948 followed an “open defiance” of a Richards order to always present Gen. MacArthur in a favorable light. Let them teach him, he testified, he had made Gen. MacArthur’s failing health and apparent age. He indicated this infuriated Mr. Richards and led to his own release.

In subsequent testimony, which continued through Wednesday, Mr. Roberts identified letters, memos, scripts, telegrams and clippings of newspaper articles he said were sent to him by Mr. Richards. Some bore “use this over and over.” More than two score such exhibits were submitted by FCC counsel and entered as evidence.

A CHARGE that FCC “may be using its authority over radio stations for political censorship” was raised in the Senate last week by Sen. Homer Ferguson (R-Mich.).

“In what was taken as a reference to the Commission’s current hearings in the G. A. Richards case (story adjacent), Mr. Ferguson told his colleagues Monday that he understood FCC “vigorously investigated” a station owner “who has expressed personal strong political views which appear to be pro-Republican and anti-Communist.”

On the other hand, he said, there was “the case of a radio licensee who owns five radio stations and who is known to have strong political views which have been identified by the House Un-American Activities Committee through his association with numerous Red-front organizations.”

In the latter case, he said, so far as he has been able to learn, the personal views of this individual have not provoked any action on the part of the Commission in relation to ownership or operation of his station.”

Sen. Ferguson cited a Saturday Evening Post editorial on the use of radio for “left-wing” propaganda (see story page 84). He said he asked FCC General Counsel Benedict P. Cottone about this and, specifically, “whether any in investigations had been started as to the activities of radio licensees who had shown strong political bias or whose association might lead to use of radio stations for avowed propaganda purposes.”

He said “Mr. Cottone told me that the Commission had taken action in cases of this kind by letter.”

Sen. Ferguson continued: These are peculiar circumstances—on the one hand the report of the investigation of a licensee who was a Republican stockholder and on the other hand the failure to investigate other radio licensee whose personal views show strong political bias in an opposite direction.

Let me make clear that I have not objective in the roles being laid down to permit any licensee to operate his station in the public interest, or to permit the views of any organizational group to be heard to the same extent as the views of the Commission in applying its rules and into the question of possible bias in their application.

If radio-station owners of opinion suffering are being favored and those of opposite leaning are being discriminated against, clearly the Commission is embarking upon a dangerous course of political censorship.

SUMMER DISCOUNT
Crosley Plans Bonus Tim

A SUMMER bonus time plan which announced last week by Robert I. Crossley, president and general manager Crosley Best, Co., apply to WLV Cincinnati and the three Crosley television stations, WLWT Cincinnati, WLWC Columbus, and WDAY, Fargo, N.D.

The plan would provide a tim bonus of up to 25% for spot radio advertisers and up to 50% for spot television users. “It’s more than justified if it helps solve the summer hiatus problem Mr. Dunville said.

The new schedule for time during July, August and September. Advertisers using 62-wave radio schedules would receive 20 bonus time; new accounts with 1 week schedules 15% bonus and new accounts with 10- to 22-week schedules 20%. New accounts for less than 5 months would receive a 25 bonus.

The television stations observe 40% summer discount in time cost or a 50% bonus in facilities if the same amount is spent during the period.

REPORTEDLY lowest-priced three portable radio produced by RC Victor since the war, currently being shipped to dealers for immediate distribution, is Crosley’s new version of “Globe Trotter” portable.

'LIGHTNING' TALK

From Scattered Previews

Upcoming

March 24: San Francisco Chapter Academy of Television Arts and Sciences, first annual award banquet, San Francisco, Calif.
March 24-25: CBC board of Governors meeting, Board of Trade and Commerce, Montreal, Quebec.
March 28: American Marketing Assn., Hotel Shelton, N. Y.
April 1-2: NAB convention, Stevens Hotel, Chicago.
April 3-4: NAB convention, Stevens Hotel, Chicago.
May 4-7: Institute for Education by Radio, Columbus, Ohio.
May 7-8: National Radio News Edit- ors, Columbus, Ohio.
May 9-11: IRE-AIEE-RMA Conference, Washington, D.C.
May 22-23: North Carolina Assn. of Broadcasters, annual meeting, Chapel Hill, N. C.
May 31-June 2: Forty-sixth annual convention, Advertising Federation of America, Statler Hotel, Detroit.
June 1-2: Pacific Coast 75th annual convention, Hotel Statler, San Francisco.
June 17: Second annual Radio News, Editor’s conference, Kent State, Kent, Ohio.

OPERATING results for Philco Corp.’s first quarter year to date are expected to be highest for any initial quarter in firm’s history.

MIXED reaction on the All-Radio Talk “Lightning That Talk” came last week following prequels in scattered parts of the country. Varied opinion on the film was voiced in a survey of viewers who attended a New York showing [Broadcasting, March 13].

Frank E. Pfeiffer, vice presi- dent of Transit Radio Inc. and for- mer NAB broadcast advertising director, observed that the New York showing was marred by what he described as “an atrociously bad sound and lighting system.” He added that the New York audience is “hypocritical” and the film should not be judged on its basis alone. He said he likes the film and believes it will do a lot of good.

In a joint report, three Spokane area station executives agreed they scribing station officials and their wives. All were described as “dis- appointed” in the film. Critical comments also were voiced at a showing to Spokane agency people.

The Spokane broadcasters sign- ing the report, submitted to Maurice B. Mitchell, Broadcast Adver- tising Bureaux, were Richard O. Dunning, KHQ; E. B. Craney, KXLY, and Cole E. Wylie, KREM. They suggested the film should be “completely re-edited,” with its length cut to 20 or 25 minutes. “We will not consider showing the film further in Spokane,” the trio concluded.

Charles A. Fuller, manager of WBET Brockton, a suburb, said the All-Radio film was favorably received at a showing conducted by the station. Here are some comments:

Dean Alexander, advertising repre- sentative, George E. Keith Shoe Co. — “I was impressed by the fair and imper- fect way the film presented radio’s selling advantages.”

Louis Hofman, merchant and Cham- ber of Commerce president — “It shows how just how radio can do a selling job for you under certain conditions.”

Richard O. Dunning, manager of KHQ — “The breakdown of listening habits in radio not only interested me but was an increase in it. Speed is radio can give an advertiser.”

Warner Alden Morse, advertising representative for various Brockton businesses and banks—“When used properly, radio has a place in the advertising budget of any progressive firm.”

THE TRIAL of anti-trust charges illegally discriminated against adver- tisers was completed in Cleveland last week.

Authorities thought the case, involving the Lorain Journal and its • • • 

nal, and Joseph Kelly, also of WONE, who related alleged discus- sions with Journal officers at a time when he was the newspaper’s classified manager.

Supporting the Journal’s denial of anti-trust violations, the newspaper’s attorney, Parker Fulton, claimed that “if the charge is cor- version against the advertisers, we deny it,” but “that the charge is (that) normal persuasion was used, there is no denial.”

Denied Injunction

Judge Freed last December de- nied a Government request for pre- liminary injunction, but the Journal pending outcome of the trial [Broadcasting, Dec. 12, 1949].

One government exhibit was an FCC decision, later upheld by the District Court of Appeals from the District of Columbia, denying a Journal radio application on grounds that its owners had sought to suppress competition in Mans- field, Ohio, where they own the Mansfield Journal.

Victor Kramer of the Justice Dept. was chief Government coun- sel in the trial. He was assisted by Baddia Rashid, Victor Otman, and Norman Seidler, WEOl, which was not a party in the suit, was represented by Marcus Cohn of the Washington law firm of Cohn & Marks as an observer during initial phases of the trial, which lasted two weeks.

All City High School Chorus of Pittsburgh will broadcast over WCAE that city, Monday, 6:15 p.m., for third year.

Gen. Sarnoff Receives $200,000 in ’49

BRIG. GEN. DAVID SARNOFF, RCA chairman of the board, was paid $200,000 salary in 1949; Frank M. Folsom, RCA president, received $175,000, it was reported last week.

Gen. Sarnoff’s 1949 remuneration was $24,540 more than he got in 1948. Mr. Sarnoff’s 1949 pay was up $14,849 from Mr. Trammell’s, who in 1948 was given an “incentive compensation” of $25,000 in addi- tion to his $100,000 salary, did not receive such a bonus in 1949.

The pay and other figures were contained in a proxy statement cir- culated by RCA last week in ad- vance of its forthcoming annual stockholders’ meeting, May 2.

Among NBC executives, only Mr. Trammell’s salary was reported in the statement.

John G. Wilson, executive vice president, RCA Victor Division, was given $90,000 salary and $25,000 incentive compensation in 1949, an increase of $30,000 over his 1948 pay.

Charles B. Jolliffe, executive vice president of RCA Labora- tories, received $50,000 salary and $17,500 incentive compensation, an increase of $1,950 over 1948.

The law firm of Cahill, Gordon, March 20, 1950 • Page 89
**At Deadline...**

**At&T Color Timetable, 1952, Called 'Too Late'**

**TIMETABLE** of 1952 projected by Frank A. Cowan, head of Engineering and Long Lines Dept., Bell System, Swindon, Pa., and Michael Edel, as earliest for AT&T provision of coaxial cable to transmit RCA color system, was called "too late" by Comr. Frieda Hennock in FCC's Friday hearing on color TV.

Mr. Cowan, in formulating firm's plans of increasing cable's TV bandwidth from 2.7 mc to 4 mc, said if broadcasters want faster program, they would have to bear part of construction costs. He said it would take two to three years to make present cable capable of passing 4 mc TV signal. Acceleration would cut this down to about end of 1951, Mr. Cowan added. He also revealed color relay system would be more costly than existing black and white for monitoring and shortening.

If broadcasters need to "meet demands for color," assuming FCC adopts standards, Mr. Cowan predicted, question would be whether they want "slowdown of normal expansion" of the country-area system, or plan on building up to 4 mc bandwidth would not increase rates necessarily for TV broadcaster, he said.

Also in hearing, Myron J. Greenwald, vice president, Celomat Corp., New York, displayed firm's plans for "whole color system called "Vue-See."" It consists of three-color laminated disc 12 inches in diameter, mounted on shaft connected to 1/70 HP induction type motor. Can be used on any size tube after picture reduction to five inches, Mr. Greenwald added.

**W. U. Rates Stand**

WESTERN UNION will be permitted to retain its present rates for play-by-play baseball wire service, subject to outcome of pending case involving broadcasters' protests that rates are unreasonable and discriminatory. Action was taken by FCC Friday in view of imminence of baseball season. On basis of complaint by WIND Chicago, operator of 32-station Midwest Baseball Network, hearing was held last spring and resulted in examiner's initial decision holding rates to be unlawful insofar as they make extra charge for each station in network aside from subscriber station [BROADCASTING, March 13]. Oral argument on examiner's decision is slated before full Commission March 27.

**MORRISVILLE DECISION**

INITIAL DECISION anticipating grant of application of WBUD Morrisville, Pa., to change from 1490 kc with 250 w to 1200 kc with 1 kw, DA full time, and to move main studio to Trenton, N. J., issued Friday by FCC Examiner James D. Cunningham. Rival application of WTNJ Trenton for power boost from 250 to 500 w, and for authority to continue operation during daytime on 1200 kc in lieu of 1300 kc, would be denied on grounds applicant is unqualified. Decision claimed WTNJ and Franklyn J. Wolf, part owner and manager of station also made "intentional misrepresentation of facts."

**McClure Moves to K&K**

JOHN F. W. McClure, former vice president and general manager of Sofskin Co., subsidiary of Vick Chemical Co., has joined Kenyon & Eckhardt, New York, as merchandising account executive.

**FCC Held Disregarding Appellate Court, Ruling**

U. S. COURT of Appeals for D. C. was told Friday that FCC is disregarding court's opinion. The FCC and AT&T Corp., which won court appeal, asked court for writs of prohibition and mandamus requiring FCC to issue findings in case and call off further hearing which has been scheduled.

In petition filed by Elliot C. Lovett, Washington attorney, Easton claimed Commission called for further hearing "in the apparent hope that something might develop to ... support its original conclusion" that Allentown Broadcasting Co.'s application for 1230 kc, 250 w should be preferred over Easton's. Petition argued that court opinion upholding Easton appeal from Allentown grant required only further findings by FCC, not further hearings.

Allentown Broadcasting is operating WHOL under FCC's original decision. Decision has been stayed pending further hearing, but with provision that WHOL may continue operations in meantime. Application for transfer of WHOL to group headed by Victor C. Diehm, which Easton had protested, was dismissed by FCC, which was made up of exclusive amendment reflecting same change. Easton claims this makes it "new application" and violates FCC rules.

**DR. STEWART SELECTING STAFF FOR POLICY BOARD**

DR. IRVIN L. STEWART, chairman of President Truman's newly appointed Communications Policy Board [BROADCASTING, Feb. 29], hopes to be able to announce selection of staff director for board when it meets in Washington April 20. Most of staff personnel expected to be drawn on loan from FCC and other agencies.

International communications probably will get board's first attention, according to Sen. E. W. McFarland (D-Ariz.), who heads Senate subcommittee making similar study of overall frequency use and communications problems, and who conferred with board members preceding weekend [BROADCASTING, March 12].-------------------

**SCRIPPS-HOWARD APPEAL**

SCRIPPS-HOWARD Radio appealed to U. S. Court of Appeals for D. C. last Saturday from January 1949 FCC decision denying its application for 5-kw station on 1300 kc in Cleveland and granting rival bid of Cleveland Broadcasting Co. (WCRE). FCC based choice of Cleveland Broadcasting on fact that newspaper association, local ownership, and integration of ownership with operation, Appeal, filed through Washington law firm of Segal, Smolka & Hennessey, followed last month's FCC denial of Scripps-Howard petition for rehearing [BROADCASTING, Feb. 27].

**DOWNEY HTS LICENSE PLAN**

PROPOSAL by Sen. Ed Johnson (D-Col.) to license movie film opposed Friday by Sen. Sherman (D-Conn.) and Sen. Downs (D-Vt.) and termed "dangerous precedent which "might easily" lead to government censorship of radio, TV, other media. Sen. Johnson earlier had promised deletion of clause in bill covering TV film (see story page 60).

**Closed Circuit (Continued from page 4)**

engineer's advisory post. Mr. Willoughby veteran of 20 years with FCC, and its predecessor FRC, has been urged by friends to seek broadcast chief post.

INSIDERS at FCC also are talking about another aspect of Willoughby case. FCC announcement on appointment of Mr. Plummer as new chief engineer suggested Mr. Willoughby would become assistant chief engineer. Official minutes, however, do not so state and question has been raised whether any provision whatever has been made for Mr. Willoughby's continued work with FCC after April 3 when he relinquishes acting chief engineer's port folio.

YOU CAN LOOK for relative quiescence a FCC on controversial broadcasting matters until completion of reorganization of broadcast structure as projected in new functional alignment. Appointment of Harry Pletkin, FCC legal "brain," as chief of new Broadcast Bureau, would be followed by plethora of crack downs in all phases of broadcast operations.

THERE'S no confirmation but it's true the feelers have been extended to AFM President Petillo to see if he'd be willing to take part in proposed labor panel during NAB Management Conference next month. Music boss undecided but his advisers favor participation.

THOMAS J. LIPTON Inc. (tea), through Young & Rubicam, New York, considering spo campaign for tea application.

DO NOT write off McFarland Bill (S-737) as dead duck even at this session. Even though Rep. Sadowski (D-Mich.) is ill and has been unable to follow through with plans for hearings on controversial bills, sentiment is building up in favor of action on McFar land measure, to completely remodel procedures work of FCC and place responsibility with Commission, rather than with staff.

In RE legislative picture, FCC staff is burring midnight oil working up its case for so-called Commission Bill designed as substitute for January measure and which was presented to House Committee several weeks ago [BROADCASTING, March 6]. Commission, or at least majority thereof, plans to go all out in support of its own bill and opposition to McFarland measure.

POWER of television as teaching medium is testified by U. S. Census Bureau in training 10 New York Metropola apartments for April house-to-house fast gathering. Special TV training film produced in Navy's Washington and Long Island laboratories.

**CBS News Shifts**

REASSIGNMENT of several CBS newsmen in next few weeks announced Friday. Allee Jackson, of Washington CBS, takes over 11-11:15 p.m. news analysis program. Richard Hottelet, now a newsmen based in Berlin, replaces Bill Downs who returns to U. S. for Washington assignment.

**Pearson Appointed**

THREE stations appointed John E. Pearson Co., station representatives, New York, to serve them. They are WIL St. Louis, KBO Omaha and KOLN Lincoln.

**Broadcasting • Telecastin**
And on this farm he has need for new implements, fencing, paint and electrical appliances for his home. Farmer MacDonald also has the money . . . plus the inclination to spend.

Just where can you find this potential customer? Right in the heart of WLW-Land. And there are 689,999 other WLW-Land farmers just like him. All together, they plan to spend $890,000,000 in 1950.*

_It's the greatest farm market in history_

And the quickest, surest way to reach this rich market is via WLW, which attracts one-sixth—16.1%—of all rural radio listening throughout WLW's four-state area.**

THE GREATEST FARM MARKET IN HISTORY
THE GREATEST SELLING MEDIUM IN THE MIDWEST

Of all farm families in the WLW Merchandise-Able Area, 38.7% listen to WLW more often than to any other station (with 257 stations competing). WLW reaches . . .

85.2% of all rural radio homes in four weeks
69.1% of all rural radio homes during an average week

And, the average rural home reached listens ONE HOUR AND TWELVE MINUTES PER DAY to WLW.

For further information, contact any of the WLW Sales Offices in Cincinnati, New York, Chicago or Hollywood.

New scintillation counter, using electron tube developed at RCA Laboratories, gives faster, more accurate measurements of atomic radiation.

What can you hear through an ear of grain?

When agriculturists want to learn what nourishment a plant is getting, they inject radioactive materials into the soil and trace their absorption with sensitive instruments. Industry and medicine also use this ingenious technique.

Until recently, scientists heard what was happening, by following the passage of atomic materials through plants, or machines, or even the human body, with a clicking Geiger counter. Now a more sensitive instrument for tracing atomic radiations—a new scintillation counter made possible by a development of RCA Laboratories—can do the job more efficiently.

Heart of this counter is a new multiplier phototube, so sensitive that it can react to the light of a firefly 250 feet away! In the scintillation counter, tiny flashes, set off by the impact of atomic particles on a fluorescent crystal, are converted into pulses of electrical current and multiplied as much as a million times by this tube. Extremely faint radiations are accurately measured—providing new and needed information in many fields.

See the newest advances in radio, television, and electronic science at RCA Exhibition Hall, 36 West 49th Street, New York. Admission is free. Radio Corporation of America, Radio City, N. Y.
Nighttime + Daytime

WOR has the largest single station audience in America!
During a recent broadcast of its National Barn Dance, WLS suggested to listeners that they join us in a square dance, wherever they were. At 10:30 p.m. that Saturday night, our John Dolee called the dance, with music broadcast by the National Barn Dance entertainers.

Without any inducement, square dancers in 25 states and 5 Canadian provinces wrote WLS to tell us they joined with us in the "World's Largest Square Dance"—in their homes, in their clubrooms, wherever they were having parties. Illinois—Oregon—New Hampshire—Arkansas—Saskatchewan—Maine—Florida—letters came from everywhere.

Once again the popularity of WLS programming is demonstrated—as is the power of WLS to bring response. For more information about this 50,000-watt station, with its loyal, friendly audience of substantial family folks, see your John Blair man or call WLS.
Closed Circuit

ATLANTA RADIO situation, growing out of merger of Journal and Constitution into Atlanta Newspapers Inc. [Broadcasting exclusive, March 20], looks this way: Fort Industry Co. (WAGA stations) will acquire plant and real estate of WCON, now using 550 kc, for about quarter-million, substantially less than cost, and will petition FCC to use 550 kc or continue on 500 kc, with one license turned in, depending on outcome of Cuban conversations. Construction permit for WCON-TV, slated to start in June, presumably would be relinquished, since duopoly rule would apply and since FCC to date has refused to transfer construction permits while freeze is on.

IN RE ATLANTA, question of network affiliation also is involved. If WCON, in effect, is discontinued, ABC must seek new affiliate. WGST, owned by Georgia Institute of Technology, and WATL, of Woodruff interests, are regarded as potential and presumably would be available. If WGST gets ABC, then WATL probably would succeed to Mutual, with which it was formerly affiliated.

PHILLIPS “66” through its agency, Lambert & Feasley, New York, considering spot campaign in addition to its regional network show featuring Rex Allen on CBS, which started last week.

THERE’S CONSTERNATION in Radio Row, notably among station representatives, over rate adjustments and package deals in both AM and TV stemming from competitive aspects primarily in TV markets. Representatives in both AM and TV regard network and group station “adjustments” geared toward summer hiatus as dangerous, if not bad business policy. Whether National Assn. of Radio Station Representatives will take formal notice, and blast away, currently being debated.

ALL SERENE between CBS front office and top AM-TV star Arthur Godfrey after Mr. Godfrey promised to curb questionable humor on his shows. Criticism of certain ad lib portions of a street sweeping sequence and threat to drop Godfrey show were sent direct to CBS President Frank Stanton by Walter Damm, vice president, WTMJ Milwaukee, last week. Star’s promise understood to have satisfied Mr. Damm.

REALLOCATION of advertising appropriations in radio and television expected as result of meetings being held in New York by Lever Brothers Co. and its agencies.

LOOK for House Interstate & Foreign Commerce radio subcommittee to shelve consideration of the so-called Sadowski Bill (HR 849) when it begins scheduled hearings on radio legislation. Target date now set for hearings’ start after House’s April 6-18 Easter recess [Broadcasting, March 20]. Insiders say Rep.

(Continued on page 86)

Upcoming

March 27-30: Canadian Assn. of Broadcasters annual meeting, General Brock Hotel, Niagara Falls, Ont.
March 29-April 1: AAA Convention, Homestead, Hot Springs, Va.
April 12-19: NAB Convention Week, Stevens Hotel, Chicago.
(Other Upcomings on page 51)

Bulletins

DON McNEILL, star of ABC’s Breakfast Club from Chicago, ready to sign new long-term contract with network late last week as ABC and personal lawyers readied fine-print details. Mr. McNeill made final decision to remain with ABC after onslaught of other networks, mainly NBC.

U. S.-CUBAN NEGOTIATIONS REMAIN UNSETTLED

STATUS of U. S.-Cuban NARBA negotiations —called off by U. S. Thursday but seemingly given new life by indications of change in Cuban tack on Friday—still unsettled at Broadcasting’s deadline Friday (early story page 21).

FCC Comm. Rosed H. Hyde, head of U. S. delegation, notified State Dept. Friday morning he was slated to confer with Cuban group at their request later in day. No details on outcome available in Washington late Friday. Cuban invitation for further discussions came after State Dept. granted Coma. Hyde’s request for recall of delegation from Havana Thursday. Despite late development, U. S. authorities reportedly holding firm to assertion that “government” tentatively reached earlier this month represents maximum concessions U. S. will make.

FTC CITES WHITEHALL

THIRD manufacturer of anti-histamine cold tablets charged Friday by FTC with misleading and false advertising (see story, page 42). Complaint filed against Whitehall Pharmacal Co., New York, manufacturer of Kophilin, claimed firm’s advertising represented product as “adequate and competent” treatment and cure for common cold and manifestations. Earlier in week, FTC similarly cited Bristol-Myers Co. and Anahtah Co., both New York, makers of Resistabs and Anahtah, respectively.

WEST COAST AFFILIATES

KSBR (FM) San Bruno, 250 kw station, signs on. Northern California terminus for Pacific Regional Network, according to Cliff Gill, KFMV (FM) Hollywood and network head. Franklin Evans, KSBR general manager, signed for his station. Mr. Gill also announces six additional affiliation requests bringing total to 22 for PRN.

Business Briefly

ORANGE JUICE SERIES • Hi-V Corp. (frozen fruit concentrates), April 4 starts Arthur Godfrey, Tues., Thurs., 7:45-8 p.m. on CBS-TV. Mr. Godfrey is member of Hi-V board. New program brings its total weekly CBS AM-TV time to 8 hours, 45 minutes. Agency, Franklin Bruck Adv., New York.

DIANA BOURBON PLANS TO LEAVE WHEELOCK AGENCY

DIANA BOURBON, national radio director, Ward Wheelock Co., Hollywood, resigning effective at summer’s end, after 16-year stay with agency where she attained distinction in 1938 of being first woman radio director of major advertising agency. Currently Miss Bourbon producing CBS’ Club 15 and NBC’s Double or Nothing. She plans concentration on freelance writing.

From 1938-1943 Miss Bourbon was radio director of Wheelock company’s New York office directing all daytime shows for agency and several nighttime programs including Reader’s Digest and Orson Welles’ Mercury Theatre. No replacement named.

ALBUQUERQUE PETITION IS DENIED BY FCC

FCC Friday denied request of New Mexico College of Agriculture & Mechanic Arts and KOB Albuquerque to waive rule which had refused their petition to continue a contract under which college reserved broadcast time as part of original price in selling KOB [Broadcasting, Dec. 12].

Oral argument had been asked on ground that FCC had considered only part of original claims, had not properly evaluated court decisions and had ignored some of original contentions. FCC also granted KOB until June 15 to comply with its denial.

TUBE SALES DOUBLED

SALES of radio receiving tubes in February, 1950, were nearly twice those of the same month in 1949, according to Radio Mfrs. Assn. The sales last month totaled 24,865,546 compared to 12,643,788 in the same month of 1949 and 22,272,024 in January. Of the February output, 20,073,094 tubes sold were for new sets, 3,935,796 for replacements, 786,007 for export and 98,049 tubes for government agencies.

ELLIS JOINS B&B

SHERMAN K. ELLIS, former president of Sherman K. Ellis Inc. and La Roche & Ellis, joins Benton & Bowles, New York, as vice president and member of plans committee, effective today (March 27).
are you singing the blues in St. Louis?

M. L. P. D. are the four letters we've borrowed from the alphabet to tell KXOK's outstanding story of results. They stand for More Listeners Per Dollar! Check the Hoopers... check the time costs... check KXOK's B. M. B. increase in audience (587,920 KXOK radio families day—up 10.2%—555,880 KXOK radio families night—up 9%)... and it all adds up to KXOK's top-rung position as the No. 1 Buy. KXOK is the answer to putting your sales (and your advertising budget) in better shape in the St. Louis Area Market.

KXOK

630 KC • 5000 WATTS • FULL TIME
Owned and operated by the St. Louis Star-Times
Represented by John Blair and Co.
He “beats” as he sweeps as he sells

Scoring news beats is an old habit of his. Selling customers for his sponsors is another, equally well-established custom. Says Mr. J. C. Thompson of The Southland Corporation, Texas grocery organization which sponsors him on WRR, Dallas; KFJZ, Fort Worth, and KVET, Austin:

“We value our Fulton Lewis, Jr. program very highly. As you know, we have the program 100 percent of the time in Dallas and Fort Worth. . . . I would not take $25,000.00 for the program.

“I hope this does not encourage you to raise your rates, but we feel the Fulton Lewis, Jr., program is most successful.”

Encouraging indeed—but the rate structure remains unchanged! The Fulton Lewis, Jr. program, currently sponsored on more than 300 stations, offers local advertisers network prestige at local time cost, with pro-rated talent cost. Since there are more than 500 MBS stations, there may be an opening in your locality. Check your Mutual outlet—or the Co-operative Program Department, Mutual Broadcasting System, 1440 Broadway, NYC 18 (or Tribune Tower, Chicago 11).
Pursuit!

There's nothing like the drama of the man-hunt for keeping big audiences happily glued to their radios, eager for every word... including yours. Now CBS, creator of such successes as "Suspense" and "Escape," recommends "Pursuit."

This is one of the best... the adventures of Scotland Yard's Inspector Peter Black, on the trail of the wily and wicked. The sponsor who catches this one will win a handsome reward.

A CBS PACKAGE PROGRAM
When Was The Last Time You Spoke to a Woman?

In Philadelphia WCAU's "FOR WOMEN ONLY" and "HOUSEWIVES' PROTECTIVE LEAGUE" speak to twice as many women, with half as many hours on the air, as Philadelphia’s four other women's radio programs combined.*

To put this great salespower to work for you, put your product on WCAU.

*Pulse of Philadelphia
HAROLD L. LESLIE, vice president and general manager of company's Boston office. Mr. Chirurg was re-elected president and became corporation treasurer, replacing Mr. Hardiman.

L. MARTIN KRAUTTER, advertising and merchandising consultant, merges his interests with Chicago office of Maxon Inc., to become vice president in charge of Hotpoint account.

LESLIE R. GAGE, formerly Western manager for Macfadden Woman's Group, Chicago, joins LeVally Inc., same city, as media director.

BECKER & LUSH Inc., New Haven, Conn., announces change of name to E. J. LUSH Inc., coincident with move to new and larger quarters at 207 Orange St., New Haven. HOWARD F. BECKER, formerly treasurer and majority stockholder, retires, remaining as legal counsel and research director for firm.

JACK MATTHEWS, formerly with Dancer-Fitzgerald-Sample Inc. as space buyer on Procter & Gamble accounts, and before that general media buyer with Sherman & Marquette, Chicago, appointed head of media department of Chicago office of Ross Roy-Fogarty Inc.

HARRY M. IRELAND, executive for Bristol-Myers account at Doherty, Clifford & Shenfield Inc., New York, and WILLIAM E. HOLDEN, merchandising director for firm, appointed vice presidents.

J. LARRY HAINES, formerly with Gimbel Bros. Department Store, joins Wasser, Kay & Phillips Inc., Pittsburgh, as assistant television director.

JOHN R. SHEEHAN joins Cunningham & Walsh Inc., New York, as associate director of radio and television. He formerly was director of radio and TV for Buchanan & Co.

ALFRED GOLDMAN, formerly with Van Sant, Dugdale & Co., Baltimore, joins copy staff of Huber Hoge & Sons, New York.

CHRIS LYKKE & Assoc. and WILLIAM J. WILKIN Co., San Francisco advertising agencies, consolidate under name of Lykke-Wilkin & Assoc. New firm will occupy Lykke office in Monadnock Bldg. Telephone: YUkon 6-5842.

GARRET E. HOLLIHAN, formerly with KARM Fresno, Calif., joins Brisacher, Wheeler & Staff, San Francisco, as radio and television director.

EUGENE W. COOPER, formerly with Foote, Cone & Belding, Chicago, transfers to San Francisco office of agency as account supervisor.

HILBURN JOHNSTON, manager of San Francisco branch of Campbell-Ewald Co., appointed vice president.

TARRY A. MAGEE, formerly advertising manager of Bendall Pontiac Co., Alexandria, Va., opens his own agency and public relations office in Burke & Herbert Bank Bldg., 110 S. Fairfax St., Alexandria.

HENRY HALPERN, previously with Young & Rubicam and before that associated with Dr. George Gallup, appointed research manager of Ward Wheelock Co., Philadelphia.

GEORGE H. BENEDICT, formerly with General Foods, joins Federal Adv. agency, New York, as account executive.

ARTHUR H. EATON, former copy chief of Sherman K. Ellis Inc., New York, appointed advertising copy director of Erwin, Wasey, succeeding LARRY BIGGS, retired.

HILTON T. KYLE and RICHARD A. CULLINAN named director and executive vice president, respectively, by Albert Frank-Guenther Law, New York.

ANDREW V. CHRISTIAN, formerly writer and producer with Chicago studios of CBS, joins radio-TV staff of McCann-Erickson, same city. RICHARD

GROVE LABS (Fitch Dandruff Remover Shampoo Div.), St. Louis, starts spot announcement campaign in about 60 markets. Harry B. Cohen Adv., New York, is agency.

WARD PRODUCTS Corp., Chicago, for its Magic Wand TV and car antennas, sponsoring one-minute sound-on-film TV spots in Kansas City, Oklahoma City, and Cleveland. Boston will be added at end of this month, after which campaign will go to 10 or 12 other markets. Contracts range from 13 to 26 weeks, and markets are not limited to use of one station. Agency: Burton Browne, Chicago.

BLUE CROSS and BLUE SHIELD (hospitalization plans) appoint West-Marquis Inc., Los Angeles, to handle Southern California advertising. Media plans have not yet been announced.

GEORGE E. DRAKE BAKING Co., Pittsburgh, appoints Wasser, Kay & Phillips Inc., to handle its advertising. Greatest portion of Drake's budget is being used in television.

SICKS' SEATTLE BREWING & MALTING Co. (Rainier Extra Pale Beer) launches six-month regional campaign using all Seattle stations and 21 others in Western Washington. In Seattle, spots are scheduled to be aired 20 to 22 times daily with other advertising, including television, carrying out theme of radio spots. Agency: Western Agency, Seattle. Tom Jones Parry is account executive.

NEW YORK TELEPHONE Co. starts television spot advertising campaign on New York TV stations through BBDO, New York. Theme of both 20-second and one-minute animated films is business listings in Classified Directory. All New York stations will carry film in addition to WNBF-TV Binghamton, WRGB (TV) Schenectady, WHEN (TV) WSYR-TV Syracuse and WKTU (TV) Utica.

F. H. SNOW CANNING Co. expands Snow Time show to include WIDE Biddeford, WGAM Portland, WGUY Bangor and WAGM Presque Isle, all Maine. Account is handled by Daniel F. Sullivan Co.

JACKSON INDUSTRIES Inc., Chicago radio-television manufacturing firm names Lawrence Advertising, same city, to handle its advertising. Radio and television will be used.

WOLVERINE HARNESS RACEWAY Inc., appoints BBDO, Detroit to handle its advertising.

PORTLAND PUNCH, Los Angeles, appoints Milton Weinberg Adv. Co., that city, to handle its advertising. Television planned in Western markets.

FEDDERS-GUIGAN Corp., Buffalo (air conditioning units), will augment advertising campaign by using television spot announcements to be placed through BBDO, New York, when plans are completed.

ASSOCIATED PRODUCTS, Chicago (5-Day deodorant pads), considering national TV spot schedule. Agency: Weiss & Geller, Chicago.

PRESTO RECORDING Corp., manufacturer of recording equipment and discs, appoints O'Brien & Dorrance, New York, as its advertising agency. William R. Seth, radio-television director of agency, will continue to handle account.

TRIJA GOLF EQUIPMENT Co., Los Angeles (golf clubs), appoints Ted H Factor, same city, to handle advertising and promotion. Television will be used.

WMT serves the heart of the richest farming area in the world. Iowa produces more corn, hay and oats, more beef and pork, more poultry than any other state. Iowa leads the nation in farm income. Each WMT farm family produces the food to feed 20 other American families; the area served includes one-fourth of the Grade A land in the country. Each week the WMT program schedule includes 119 1/4 hours of farm program features—3 1/2% of the total weekly WMT program schedule. The station fulfills its responsibility for agricultural leadership in the area, pointing the way through special activities toward better farm living. Everything from angleworms to weather forecasts interests farmers—and WMT provides the data.

Farm news makes listeners—listeners make customers—WMT makes customers! Ask the Katz man to show you how WMT sells in Eastern Iowa.

CBS STARS ARE ALWAYS SHINING OVER EASTERN IOWA... VIA WMT

CHUCK WORCESTER
Farm Service Director

Originates agricultural features; active in numerous positions of community and national agricultural leadership; supervises farm service programming.
Feature of the Week

A FOUR-YEAR-OLD boy probably owes his life to WROK Rockford, Ill., for the station's all-out efforts to find him when he was reported missing on March 15.

That evening at 8:30, the boy's father, James Umbohner, called WROK Announcer Ed Rodgers with a request for help in the search for Jimmy, who had been missing since 6 p.m. City and county officials, as well as the family and friends of the lost child, were combing the area.

Within 30 minutes after the appeal for help went out over WROK, 500 Boy Scouts had answered the call and were at the scene of the search, which had spread over a ten-mile-square area. The station was swamped with calls from listeners asking for the exact location of the search, offering rides to the scene for potential searchers who lacked transportation or asking for transportation so that their help could be given.

Hot coffee, prepared by Rockford bakers, was rushed to the searchers and two bakeries delivered rolls and doughnuts. From the search area, WROK Announcer Gale Brown relayed information to the station, including a request for desperately needed flashlights and flashlight batteries.

Fifteen minutes after this request was on the air, the owner of a sporting goods store was on the scene with hundreds of the needed lights and batteries.

Although WROK's regular sign-off time is midnight, Announcers Rodgers and Brown stayed with the search until the boy was located, exhausted and half frozen, at approximately 12:05 a.m. Reports on Jimmy's trip to the hospital, his examination and the subsequent announcement by a physician that he was unharmed were broadcast by WROK.

On All Accounts

CARNEGIE HALL is synonymous with the apex in musical presentation, and in radio, Robert Gile, Swan is synonymous with Carnegie Hall.

Radio and television director for the Joseph Katz Agency, Baltimore, Mr. Swan is producer for American Oil Co.'s much-acclaimed Carnegie Hall program on ABC. In his talented directorial hands lie the radio destinies of stars ranging from Riso Stevens to Margaret Truman.

With the Katz Agency for the past six years, Mr. Swan was, previous to his current assignment, agency executive on the Professor Quiz show, negotiating 50 trips in one year in 50 cities throughout the country.

Actually, however, those trips were but a symbol of the distance Mr. Swan has travelled to reach his present eminence. Starting as a staff member of WTAM Cleveland, he was allowed full exercise of his accomplishments, serving successively there as announcer, actor, writer and eventually producer. From there he veered to an announcing post at WXYZ Detroit and then on to Chicago as a freelance announcer.

During the war he transferred his energies to the Third Service Command in Baltimore. There he headed the radio operation, producing shows for the full course of the war.

It was at this post that his work came to the attention of Joseph Katz, head of the agency. With the close of hostilities Mr. Katz invited him to join the agency in his present capacity.

In addition to handling American Oil Co.'s radio and TV activities (boxing matches in Washington and Baltimore), Mr. Swan now supervises radio and TV campaigns for the following accounts: Globe Brewing Co. (Arrow Root), Ex-Lax, Rem., and Chunk-e-nuts.

The Swans—she is the former Dorothy Anne Hodge—were married June 2, 1943. They have one child, Elizabeth Alexandra, 21 months. The family home is in Long Green Valley, outside of Baltimore.
Camas, Washington, enjoys the unusual distinction of being a one-industry community...a modern city dominated throughout its commercial and community life by the influence of the largest specialty paper mill in the world. Since this mill was founded in 1883 it has been the major employer, the heavy industry of the area. It would be difficult to find a more stable community than Camas. Ninety per cent of the residents own their own homes...wages are at a high level the year around...the community serves a large nearby area of diversified farming, and is the trading center for an entire county.

Camas, Washington, is yours to tap...through COMPREHENSIVE COVERAGE KGW delivers Camas...as it delivers the rest of the fastest-growing market in the nation.

This chart, compiled from official, half-millivolt contour maps filed with the FCC in Washington, D.C., or from field intensity surveys, tells the story of KGW's Comprehensive Coverage of the fastest-growing market in the nation.

PROUD MAMA

Susan, the black swan, ruffles her feathers in a gesture of protection for her cygnets, the little ones she’s so proud of.

W·I·T·H is pretty proud, too! Proud of the way we produce low-cost results for advertisers in Baltimore.

The way W·I·T·H does it is this: first, W·I·T·H regularly delivers more home listeners-per-dollar than any other station in town. And second, in addition, a survey made under the supervision of the Johns Hopkins University showed that of all radios playing in drug stores, 34.6% were tuned to W·I·T·H.

That means that a little money does big things on W·I·T·H. Call in your Headley-Reed man today and get the whole W·I·T·H story.
SUMMER SALES

A WHIRLWIND NETWORK radio campaign utilizing perhaps as many as a dozen programs is being planned for mid-summer by General Mills Inc., BROADCASTING learned last week.

The campaign under consideration is not unlike that used by Ford Motor Co. early this year to announce the introduction of its new models. General Mills was understood to be considering shows on ABC, CBS and NBC.

The programs would be bought on a short-term basis—probably for eight weeks beginning in July. They would be programs already scheduled by the networks for summer presentation.

A total budget of more than half a million dollars reportedly will be spent in the campaign. Although secrecy surrounded the negotiations last week, it was learned authoritatively that the intense mid-summer campaign would be used to push the sale of Wheaties, a cereal. The agency is Knox-Reeves, Minneapolis.

The General Mills proposed campaign was by far the most ambitious bit of summer business yet reported among the networks.

The report came at a time when the pattern of summer radio network sponsorship was beginning to evolve. A survey last week showed that seven sponsors of current programs had decided to use summer replacements.

The majority of advertisers, it was learned, will take summer hiatuses, most of them for seven or eight weeks.

Summer Replacements

Among the sponsored shows which will go off the air for the summer, and known to be seeking replacements is the Aldrich Family on NBC for General Foods. The agency, Young & Rubicam, is understood to be looking for a program that will have a family appeal.

The Ann of American Railroads, through its agency, Benton & Bowles, is seeking another musical show to replace the vacationing Railroad Hour on NBC.

Other programs which will require summer replacements are the Jack Benny Show, sponsored by American Tobacco Co. through CBDJ on CBS; Amos 'n Andy, Lever Bros. through Ruthrauff & Ryan on CBS; Edgar Bergen for Coca Cola through D'Arcy Agency on CBS; Life of Riley for Pabst Beer through Warwick & Legler on NBC.

Among those programs scheduled for seven and eight week hiatuses are: Truth or Consequences on NBC, the Beulah Show on CBS, Ed Murrow on CBS, Father Knows Best on NBC and the Red Skelton program on CBS. Nabisco's Straight Arrow on MBS will take a 15 week hiatus.

On the other hand some shows such as the Original Amateur Hour on ABC, The Big Story on NBC, Dr. Christian on CBS, The Sheriff on ABC, Harvest of Stars on NBC, Record Parade on CBS will continue through the summer.

Sponsorship Set

One program already set for summer sponsorship is It Pays To Be Ignorant which will take the place of Light Up Time, on NBC, 2-7:15 p.m. for the American Tobacco Co. through BBDO, New York.

Meanwhile the networks were planning the programs that would fill the time vacated by sponsor hiatuses.

The trend in these programs in the summer of 1950 promises to differ from that in past years. Whereas in previous recent years, the mystery, the musical and the quiz program tended to form the staple of summer replacements, the trend this year is toward situation comedy and the dramatic program.

Subsidiary Trends

Though it is still too early for any definitive conclusions, three other elements emerge with sufficient clarity to be classified as subsidiary trends:

"New" motion picture names are receiving increased attention. These include people like Clifton Webb and Paul Douglas, the latter an old radio hand but never a featured performer in the sense that he is being now projected.

Year-round radio stars are being re-cast in special summer shows. This is the case principally at ABC.

Most active of the networks preparing new programs is NBC with approximately 16 shows in various stages of preparation.

Among the situation-type programs already scheduled to appear on NBC are The Trouble With The Traits, the adventures of a family in a trailer; Clifton Webb in Mr. Belvedere; the Paul Douglas show; and Tueboat Annie.

Dramatic programs include: Out of This World a science-fiction series; a program called The Doctor; Jack LaFit's Confidentially Yours, dramatic adventure; The Texas Rangers, a dramatization of pioneer days; and Douglas Fairbanks Jr., in a show entitled The Silent Man.

Other personalities on NBC will be Hedda Hopper; Joe DiMaggio in an adult sports show; and Sammy Kaye in a talent hunt show. At CBS at least three situation comedy programs are being auditioned, one featuring Don Ameche; another called Granite Acres and a third entitled Spy Guy. CBS also plans to prepare some public service summer programs. One of them, already scheduled, is called Up for Parole.

ABC Plans

ABC plans include the use of its established family of stars in new programs to implement the network's philosophy of building its own personalities. Among the personnel involved in the project are Walter Kiernan, Ted Malone, the Fitzgeralds and Jack McKay.

Mutual's summer program is solved during the daytime by its heavy baseball schedule. Present nighttime shows will continue through the summer.

SETS NEAR 89 MILLION

A TOTAL OF 88,964,000 radio and television receivers were in use as of Jan. 1, 1950.

This figure, computed jointly by Radio Mfrs. Assn. and the NAB, is the first joint compilation ever issued by the two industry associations. It represents an effort to obtain the highest possible degree of accuracy in radio's circulation through use of the combined facilities of the two organizations.

Of the 88,964,000 radio and TV sets, 65,436,000 radio-only sets were in homes and 5,000,000 in places of public assembly, a total of 70,436,000 radio-only receivers in the hands of the public, according to the NAB-RMA data.

Besides the home-public assembly receivers, 14,764,000 automobiles were equipped with radio receivers.

The total number of television sets in use at the year-end was 3,764,000, according to the joint industry statistics.

The figures were compiled under direction of Dr. Kenneth H. Baker, NAB director of research, and Frank W. Mansfield, Sylvania Electric Products, chairman of the RMA Industry Statistics Committee.

TV Distribution

At the year-end an estimated 401,000 television sets were in distributor and dealer pipelines, or about a month's production, according to RMA.

An independent projection of the NAB-RMA figures shows that about 2,500,000 radio sets will be turned out in the first quarter of 1950, along with over a million TV receivers. Adding this production to the NAB-RMA figures produces a total of perhaps 93 million radio and TV sets in operation as of April 1, 1950, allowing for normal dealer-distributor stocks.

Carrying this projection farther, it is indicated that radio-TV sets in operation will pass the 100 million mark before the end of 1950.

A separate analysis of FM circulation by the NAB FM Dept. shows that 5,000,000 U. S. home receivers are equipped to receive broadcasts in the FM band. This figure, which includes FM tuners, has been informally used by some FCC officials as the basis for calculations.

As of Jan. 1, RMA estimated 4,250,000 sets with FM had been manufactured by its members, a figure that now has reached the 4,500,000 mark. Allowing for production (Continued on page 53).
WFIL CUTS NIGHT RATES

Cites TV Growth

OVERHAUL of radio time to fit in's announcement was made last week by WFIL-AM-FM-TV Philadelphia.

In an unprecedented move, the its small Class A and B radio rivals with a change of rates that cuts the price of its evening time but increases charges on daytime purchases. At the same time, WFIL claimed the new BMB study shows the station with "a higher audience gain than any other Philadelphia network station."

With announcement of its new rates, effective April 1, WFIL said the change is based on a belief that television "ultimately will enforce a revision of rates throughout the radio industry."

According to WFIL's revised rate card, Class A time has been realigned from 7-10 p.m. to 9 a.m.-10 p.m. Class B time, which formerly comprised the hours of 8 a.m. to 7 p.m. and 10-11 p.m., has been changed to 7-8 a.m. and 10-11 p.m. Result is to establish the rates charged for daytime and nighttime on a more equal basis.

One-Time A Rate $300

Basic one-time Class A rate now is $300, a decrease in the nighttime rate of $30. Overall increase in the basic daytime rate will be $32 per hour, according to the station. New basic Class B rate is $260 per hour.

Explaining the station's rate adjustment, Mr. Clipp said: "We believe that within the next few years the drawing power of television will affect the nighttime radio audience to the point where a rate adjustment is indicated."

"... Daytime rates on most broadcast stations, in our opinion, have been too low. The job with the "drawing power of television" is that radio has been doing for advertisers during the daytime periods provides an abundance of evidence that results, per dollar expended, are equal to or better than any other medium in the world. We are doing today what we believe most of the industry will do tomorrow."

While acknowledging television's challenge to radio at certain nighttime hours, Mr. Clipp emphasized that radio's position "will remain unshaken in the morning and afternoon segments for years to come. Radio's performance outstrips its cost."

According to WFIL, BMB 1949 findings show an 18.5% daytime increase in WFIL's total radio family coverage, over the 1946 survey. In nighttime periods, the station also claims it "alone forged ahead" in Philadelphia, showing a 16.1% increase.

Claims 'Undersold'

Mr. Clipp maintained that the industry undersold itself for "too many years" on daytime segments. "Radio," he said, "can increase its daytime rates and still give the advertiser more for his money than any other media." Citing BAB estimates of 83 million radios as against 52 million daily set paid newspapers and 24 million magazine homes, Mr. Clipp pointed out that average family radio listening was 5 hours 53 minutes a day to newspaper reading at 3 hours 18 minutes per day.

Although television's coverage pattern and potential audience are on the constant increase, he went on to say more than a quarter of a century, "the same can be said of radio...the number of radio sets in use increased some 7 million during 1949."

Regarding the radio industry's picture, Mr. Clipp challenged the opinion that "after television enters the home, radio dies" by pointing out that surveys giving the listenership edge to television in new sets, have been modified after about the first six months of set ownership. Once again, he said, the home viewer becomes a radio listener, although on a selective schedule.

Cities Inevitability

At the same time, he said evidence shows that TV monies are new monies. However, Mr. Clipp cautioned, "sooner or later something has to give." Willingness to pay higher costs for TV production of such traditional radio shows as the Lone Ranger (General Mills) and The Aldrich Family (General Foods), Mr. Clipp said gives impetus to the strong advertiser appeal of TV.

While "nighttime radio is not doomed on its own account," he said, "it is certainly facing formidable competition. The well known difference between nighttime and daytime, therefore, is becoming ever more applicable to radio's selling techniques." Daytime radio, he added, is destined to "become America's most important time period for a suggested ad-

SHELL Oil Co. executives were guests at the National Assn. of Radio Station Representatives' Spot Radio Clinic luncheon early this month at Hotel Biltmore, New York. In an informal discussion are (l to r): Fred F. Hague, George P. Hollingbery Co., C. W. Shugert, assistant to the manager of Shell's sales promotion-advertising department; E. W. Lier, Shell radio representative, and Arthur McCoy, Avery-Knodel Inc.

All's Well That Sells Well

... AN EDITORIAL

THIS WEEK the Assn. of National Advertisers and the American Assn. of Advertising Agencies meet in almost concurrent conventions nearby Virginia and West Virginia resorts. As a finale, they get together for a combined meeting.

No matter how the respective agendas may read, these spenders of the national advertising dollar (several billion of them) are interested basically in two things: (1) how to preserve the integrity of advertising in our economy; (2) how to stretch their budgets to the limit.

That meteor which streaks across the advertising firmament—television—will get rapt attention.

Reports are seen in the enlivened discussion toward reduction of AM nighttime rates in multiple TV cities, to compensate for possibly decreased AM tune-in. This development was as obvious as the Stalin election. It's the standard rate of advertising.

The fact that there have been no general network or station rate increases in eleven years, whereas the printed media have boosted rates in tempo with overhead, isn't taken into account. The fact that the number of radio homes in that period has increased from 28,700,000 to 42,000,000; that the total number of sets has vaulted from 45,300,000 to 84,000,000, is similarly ignored.

Thus radio is delivering nearly double the homes and listeners today than it did in 1939, and at substantially the same rates. There's more no reason to bracket radio and TV as mutually exclusive media than there is to regard Time, Life and Fortune—published by the same firm and sold via the same methods—as identical media serving identical readers. They have common parents, different progeny. And there's another difference. The printed media have been infinitely smarter in their customer relations and their rate making. Radio rates have always been too low. The rate structures have set the pattern. Network rates serve as the base for spot rates. Hence the advertiser down the line has been reaping the rewards, getting more for that radio advertising dollar than he ever has received from his newspaper or magazine buck.

This was underlined a few weeks ago [Broadcasting, Jan. 30] in the revelation of Life that its gross billings were larger—by $12 million—than those of NBC or CBS, Life with 100-old pages over-all, published once-a-week and delivered to a claimed 5,200,000, as compared with a nationwide network program airing 18 hours a day, seven days a week, reaching people in the almost countless millions!

Advertisers cannot be criticized for striking the best bargain they can, TV's advent gives them a new medium, and makes it be taken to task for failing to sell itself for what it's worth and on its merits—and circulation.

Radio rates, after all, are but a part of the cost. The rub has been in the astronomical rates of top talent—prices that were bid up by the advertisers themselves, on the basis of audience-rating legerdemain.

So when the advertisers and their agencies rush this week, we hope they will recognize radio for what it is—the most potent means of reaching most of the people all of the time, and at the lowest cost. Let them also recognize TV for what it is—a phenomenal medium that sells as it demonstrates and that is incapable of comparison with any other force ever devised. TV sells in 59 markets and sells well. AM sells everywhere, and is destined to forevermore.

UPSERGE IN N.Y. RADIO

Independent Profit Despite TV

By JOHN OSBON

BUSINESS is booming at independent radio stations in New York, despite the fact that they are situated in the biggest television market in the world. The Broadcasting survey showed last week.

The seven most active independents reported that in the past year revenue had risen as much as 40%. Not one reported a decline in billings.

The upsurge in independents' business—much of it from local accounts—appears all the more significant in view of the growth of the New York TV market which doubled its television set count from 550,000 in February 1949 to more than one million last month. Number of families in the seven-station New York-Newark area reached by television is well over 3% million.

Add to that two other salient facts: New York consistently has been at the top in the number of television network and spot accounts, and independents' rates have remained substantially unchanged.

The increase would seem to be especially significant in view of figures offered in some quarters, which indicate a decline in down time of the radio audience has been diverted to television.

In New York, independent radio stations logically may have been expected to take a beating where it hurts most, for audience behavior appears to document a trend to TV.

Hooper Shows TV Up

C. E. Hooper early this month reported, for example, that the December 1949-January 1950 average showed radio's share of the N.Y. audience down from 56.3% to 55.3% from 80.3% for a previous 11-month period, January-February 1949—with TV's share up correspondingly from 19.7% to 44.7%. Daily afternoon viewing rose in New York from 9.6% of all broadcast reception to 22.5%.

The pattern set for the past 12 months—an appreciable increase in gross billings for independent radio outlets despite TV's all-round growth in advertising accounts, sets, audience viewing—may not be expected to develop into a further trend during the next 12 or 24 months, but that was the story in New York last week.

Some typical reports received by Broadcasting included:

One of the leading revenue grossers is WMCA, 25-year-old independent which has shown its greatest upsurge in the past 13 months during the impact in metropolitan New York.

Until March 1949 the station reportedly was losing as much as $30,000 a month—a sizable decline when projected over a 12-month period. Revenue for February was up from 40% to 50% over February of 1949 according to Norman Boggs, executive vice president and general manager.

Mr. Boggs thinks it is significant that he can talk about television among the bulk of our advertisers today than there was a year ago this time.

He declined to give actual dollar accounts but it is believed that paring of costs, as well as new business, and establishment of a "realistic" rate card, have been vital factors in WMCA's newly-won success.

WNEW Increases 20%

One of the sharpest increases in independents' ranks is shown by WNEW, which reports a 20% boost in revenue for the first 18 weeks of last year over a comparable period last year. New business was recorded primarily from drug and food accounts.

Ira Herbert, vice president and sales director of WNEW, doesn't share any unreasoness over TV's growth and, in fact, thinks the oft-predicted early demise of independent radio is premature. He calls for better programming and hard selling. WNEW itself may have its biggest year in history, in view of accounts already lined up and "baring unforeseen developments," he said.

WINS likewise has shown a billings increase over last year—15%, 25%, and in some instances, 30%. T. Murphy, business and co-man-ager of the station. Boosts are reflected in a 29% rise for January and 20% for February compared to figures for those months last year. March figure will hit the 30% level, Mr. Murphy added.

Much of the new business is from TV set manufacturers.

WQXR, New York's 'times' outlet, also declined to give actual figures, but reported its revenue for the first three months of 1950 has jumped 7% over a similar period last year.

"We haven't felt the impact from television during January-March 1950 as much as during January-March 1949," said Sangree Voss, the new executive vice president in charge of WQXR-AM-FM, reported.

Foreign language outlets, specializing in Italian broadcasts, also have indicated a definite upsurge. WHOM, with studios in New York and transmitter in Jersey City, N. J., claims its gross as of this month represents a 15% boost over that of March 1949.

Station spokesmen point out that WHOM is the only station airing Italian-language programs at night and on Sunday.

WOMG Warns

WMGM reports a 7% increase in gross for the same period over a similar previous period beginning March 1, 1949. It declines to give exact figures or 1949-50 month-to-month comparisons, but sounded a note of warning to independent outlets.

"Television has definitely affected billings, particularly from national advertisers, whose local deal now is being marked for diversion to TV," Bertram Lebhar Jr., WMGM executive director and sales director, said in a statement to Broad- casting.

"We feel that we have been able to do better than hold place. For the time being at least this has been possible because we've embarked on an aggressive publicity policy, mostly centering around Metro-Goldwyn-Mayer radio attractions."

NARBA HOPES REVIVE

Surprise Move Friday

What had appeared to be the final straw was delivered by the Cuban delegation last Wednesday, after the U. S. delegates had been kept coiling their heels for two weeks awaiting a formal answer on the tentative accepted U. S. agreement.

The "answer" was in the form of a counter-proposal which, according to Comr. Hyde's report to Capt. Cross, made demands that were even more stringent from the U. S. standpoint than those which broke up the overall NARBA sessions at Montreal last December (Broadcasting, Dec. 5, 1949).

Cuba's Counter-Proposal

Capt. Cross said Comr. Hyde informed the State Dept. that Cuba's counter-offer in general retained the concessions which Cuba wanted but left open a subsequent discussion—in the overall NARBA conferences—the protection ratios which the U. S. was seeking on behalf of stations in this country.

There was a widespread suspicion that Cuba would raise new fears of U. S.-Cuban channel warfare, though it was known the U. S. delegates were pressing for retention of the status quo channel. A Kiernan proposal pending possible negotiations later—perhaps at the scheduled resump- tion of the overall NARBA conference—had been a fact.

Some observers, however, feared that if the Havana breakout were final it would mean no further NARBA sessions, although the State Dept. was going on the assumption that they would be held. They are slated to get under way before Aug. 1, but it has been speculated that a later date may be neces-sary if Mexico is to be brought into the discussions.

Whether the U. S. would proceed with its tentative plans for bilateral NARBA negotiations with Mexico in event of failure at Havana could not be foretold. Some authorities felt a complete rift with Cuba would make early discussions with Mexico more imperative; others feared it would render negotiations with Mexico more difficult.

There was extensive hind-sight speculation as to possible causes of the conference's failure—if failure becomes a fact.

Some authorities contended a final agreement would have been assured if the U. S. had insisted that the tentative accord be signed at the time it was reached. The delay was occasioned by Comr. Hyde's recall to Washington that time the discussions.

But, it was pointed out, the purpose of his recall was to get reassurance that any U. S.-Cuba treaty would be subject to Senate ratification, for there had been widespread fear that the accord (Continued on page 47)
When Burlington Buys...
All Ears Are to Sears

If there's one thing a department store likes about as well as sales and goodwill, it's traffic—especially traffic that's in a buying mood.

The Burlington, Vt., branch exception to this retailing rule of thumb. As evidence, the branch can point to high recognition from the National Retail Dry Goods Assn. which last January awarded it first prize in the up-to-$5 million class for programs with general appeal.

This national recognition in retailing's annual radio competition wasn't the result of good luck or of Sears, Roebuck & Co. is no

good guessing. On the contrary it was attained by careful planning and by the careful coordination of a broadcasting station—WCAX Burlington—and the store's management.

Though many stores like to use broadcast advertising for direct selling, Sears in Burlington has found the medium peculiarly successful as both an institutional and a merchandising weapon. For radio has sold everything from roses to radios, from pinking shears to Pilgrim shirts. Radio has pulled about 15% better than newspapers on a dollar-for-dollar advertising cost basis in the sale of a sports item, for example.

At present the store is spending about 40% more in radio than it did some years ago when it first took up the medium as a major sales and institutional weapon.

Interesting phase of the store's use of radio is the basic programming device, Sears' Man-on-the-Street. When the program was starting to roll nicely in the summer of 1947, cold, clammy chills scampered up and down the backs of the WCAX and Sears management as an awful thought struck them. The thought: What chance has a sidewalk interviewer when Mother Nature doles out some of her choice specimens of New England winter?

The WCAX commercial manager was elected chief worrier. The more he contemplated the rigors of approaching winter the more he shuddered at the awful things that could happen to a program that was developing into an advertiser's dream. One balmy night when all was quietly conducive to efficient worrying, the WCAX official had a storm all his own—a brainstorm.

Next morning he called the weatherman and asked for the lowest average noon temperature in Burlington. The answer was the best news in weeks—lowest average noon temperature in Burlington was 22 degrees, in February.

Anyone who has bucked a New England winter will scoff at 22 degrees—especially in Burlington. Armed with this vital statistic, WCAX easily persuaded the Sears management that the show could go through the winter.

And so it has—from 52-week contract to 52-week contract. Only once has the sidewalk interviewer been blown off the sidewalk and into the studio because of bad weather.

One other time there was an incident, but it wasn't a weather incident. About three months after the program made its debut, arrangements were made to cut a transcription to send to Sears' headquarters. The interviewer moved along stylishly up to the final interviewee, an employee of another department store who made the best of her forensic opportunity.
These minor phases of a four-year schedule point up the successful side of Sears' Man-on-the-Street. One of the tests of an advertising schedule's success is its ability to produce a return. The current NRDGA contest has stressed sales results in contrast to the programming standards used in judging past competitions. The Burlington series has brought success in the form of program acceptance, sponsor identification and other institutional results, and specific item promotions.

Sears first opened a retail store in Burlington in 1938. This store was moving along nicely until February 1940. A year later a new store was opened on the main business street of Burlington.

The store's first use of radio occurred when WCAX was a 1 kw outlet. A disc show, *Housewives Flock*, was heard six mornings a week. The program was beamed at women and was supported by special seasonal promotions. It was successful, but was dropped when the featured disc jockey left town.

**THE** local manager has a lot of autonomy in the Sears organization. The Burlington manager is essentially a free agent, though guided by national advertising policies. He selects media with the help of the staff. The advertising manager operates on a budget, getting information from division heads. Operating on a commission override and bonus, division heads fight for their share of advertising and keep in close touch with media programs.

The Sears management in Burlington had long been sold on radio as an institutional medium and goodwill builder, promoting public acceptance, brand names and promotions. It had not been sold on the medium's active merchandising value in competition with newspapers.

Anxious to have a program the public would identify as “Sears’ program,” the store and WCAX finally came up with the idea of a man-on-the-street quiz program in front of the store. It was decided to try it three days a week, with the disc jockey show on alternate days, retaining the noon time because it would reach a general family audience.

Here are the initial objectives, mostly institutional:
- To create goodwill toward Sears by giving the public an interesting program of people who are their neighbors, by giving the public a chance to be on the radio and a chance to win something.
- To promote and keep the name Sears.

SEARS and WCAX executives map radio promotion. L to r: Fred Certy, assistant manager, Sears, Roebuck & Co., Burlington; Roland H. Truedel, manager of the store; Tom Braine, WCAX commercial manager, and Evelyn Robb, advertising manager for Sears in Burlington.

**And what about results?** Intimately familiar with this phase of the Sears series are the store's own executives. Roland H. Truedel, Burlington manager, described four types of results achieved through the program when he submitted his entry to NRDGA. Here is what he says about program acceptance and sponsor identification:

“We feel that a successful radio advertising campaign when using programs depends first on public acceptance of the program and second on sponsor identification. With these two requisites met, other objectives can be obtained. We know that the appeal of our program has not been limited to any age group or population segment. We have program acceptance and sponsor identification in the family audience which we set out to reach. We know this because:

“Nine out of ten people who are interviewed on the program know how the program works.

**THE** program has consistently maintained the highest rating of any station in the area at that period though at the time it went on the air this period had a mediocre rating.

“Special groups of people from Montreal came 100 miles to Burlington this summer just to see and be on the program.

“This program is known and talked about not as the Man-on-the-Street program but Sears’ Man-on-the-Street program, and we are convinced that it is a rare person in the WCAX listening area that doesn't know the program.

“And finally we know we have program acceptance and sponsor identification because we have checked the program within a year. The Burlington Sears, Roebuck management felt that it would help

RICHARDS PROBE MAY RECESS

Possibility that FCC's hearing on news policies of G. A. (Dick) Richards will be rescinded this week and not until next September was reported last Friday in Los Angeles, where the controversial proceeding flared through its second week.

A source close to William J. Fred Johnson, Jr., conducting the hearing into charges that the owner of KMPC Los Angeles, WGAR Cleveland and WJR Detroit stations news slant was planted, told Washington to assume his new administrative duties as FCC's chief hearing examiner April 3.

Night sessions previously had been planned to expedite the proceeding.

Use of information in a supposedly confidential affidavit to FCC on a broadcast of Mrs. Eleanor Roosevelt and her daughter, Anna Roosevelt Boettiger, was brought out by Hugh Fulton, counsel for Mr. Richards, in cross-examination of former KMPC Newsman Robert Horn on Thursday.

Mr. Horn had testified earlier that when Mrs. Roosevelt was involved in an automobile accident Mr. Richards suggested it be interceded on the grounds that she was intoxicated at the time.

Affidavits Sought

Mr. Fulton had requested FCC to produce original affidavits filed by Mr. Horn, Mr. Horn had refused to reveal their content on the ground that FCC promised they would be held as confidential. Then Mr. Fulton produced the Rothstein broadcast script, a document which contains a reference to Mr. Horn's affidavit and the purported suggestion that intoxication be interceded.

"It seems to have been a leak somewhere," Mr. Horn observed.

Examiner Johnson accordingly ordered Frederick W. Ford, FCC's chief counsel, to turn Mr. Horn's "confidential" affidavits over to Richards counsel for use in cross-examination.

Earlier Mr. Fulton had succeeded in obtaining affidavits from William Keenan, another former KMPC newscaster, read and identify more than 200 newscast scripts to ascertain whether he had broadcast them.

On direct examination by FCC counsel, Mr. Keeneally had testified that orders regarding news slanting were passed on to him, asked for by those who were newscaster. Now, news editor of KFMP Hollywood, he said Mr. Richards once told him to use a story because "the man's name is Jewish; all Jews are Communists and all Jews are Communists and all Jews are Communists..."

Mr. Keeneally said he didn't use the story since it wasn't "important."

He had received various instructions from Clete Roberts, then KMPC director of public affairs, and George Lewin, then news editor, saying it was his understanding that Negroes were to be ignored, some crucified, and some treated well, in accordance with Mr. Richards wishes.

He accused Mr. Richards of sometimes "altering" news items. Other former KMPC newscasters testified in support of Mr. Roberts' earlier assertions that Mr. Richards gave definite instructions to "abolish unfavorable news concerning Jews, Negroes, the Roosevelt family, Henry Wallace, and the Democratic party, and to insert editorial opinions into news casts."

Jack Gardner, now chief announcer of KLAC Hollywood, said he "ignored" a directive which he said was placed on the KMPC bulletin board ordering that Henry Wallace be referred to as "the pig boy."

Larry Thor, now CBS Hollywood announcer-newscaster, testified that when he was with KMPC Mr. Richards "gave me instructions on news on weekends," when he was the only one on duty. He said he asked a buffer be set up between himself and Mr. Richards on weekends.

Tom Latimer Jr., now KLAC and KLAC-TV announcer, testified he "never received official instructions (on news policy) from the front office" while he was at KMPC, but said Mr. Richards instructed him to insert items from the Examiner into newscasts and to delete portions of stories. He said he remem bered reading an Examiner editorial as straight news.

Mr. Horn, now disc m. c. of WIP and WPEN Philadelphia, formerly newscaster of KMPC under the name of Bob Adams, declared he received definite instructions every day from Mr. Roberts as to what should go on the station's news broadcasts.

Testifying as an FCC witness, Mr. Horn said: "There was no news editor at KMPC. The news editor was Mr. Roberts, and I was the only one through." When Mr. Ford asked why he followed Mr. Richards' instructions, the witness said: "After all, Mr. Richards is the licensee of KMPC. It was his responsibility to tell me what I was to work on. It was a question of obeying or quitting or being fired."

As to his leaving KMPC, Mr. Horn said, "It was really quite simple. I felt I couldn't go along with the news policy any longer."

Provision Cited

Prosecution cited Pronunciation of the word "blonde" and assertion of his belief that the public can be interested in news from other broadcasters, highlighted testimony of Mr. Roberts under cross-examination Monday.

The former KMPC director of public affairs testified he had been ordered to pronounce "blonde" op procrisely in connection with Elliott Roosevelt's wife (actress Faye Emerson) in a broadcast.

Mr. Fulton demanded a transcription of the broadcast, made by Mr. Roberts, be introduced into the records. This was refused on the ground that FCC regulations prohibit transcriptions as records. A shorthand report was ordered taken.

Mr. Ford objected, contending that a voice inflection could not possibly become part of a written record. This prompted Defense Counsel Fulton to move that all Mr. Roberts' direct testimony regarding his orders for "voice inflections" be stricken.

Mr. Fulton previously had testified that Mr. Richards ordered him to prepare the broadcast July 24, 1947, involving the financing of the huge $20 million wooden plane built by Howard Hughes. The KMPC news staff, Mr. Roberts stated, had been given instructions never to give Mr. Hughes favorable mention on the air.

Object of this broadcast, according to Mr. Roberts, was to raise question in listeners' minds about Mr. Hughes and to link his name with that of Elliott Roosevelt and his wife.

Script Recalled

Responding to previous questions, Mr. Roberts said he had a clear recollection that the Hughes script, when taken line by line, appeared to be "pretty accurate."

"Don't you agree," asked Mr. Fulton, "that Mr. Richards, with his background, and as owner of a radio station, has as much right to select the news as do you with your background and experience?"

"Yes," replied Mr. Roberts, "if (Continued on page 54)"

ABC FINANCES

Gross Income, Net Loss Increases

A NET loss of $519,085 for 1949 was reported by ABC in a financial statement for the year ending Dec. 31.

In 1948 the company earned net income of $408,656. This means a difference of $905,741 or $497,741 in the net loss for the year 1949.

But costs, depreciation and amortization were up too. In 1949 ABC operating and administrative expenses, commissions to advertising agencies, depreciation and amortization were $40,691,625. The figure was $35,240,450 in 1948.

Interest payments on the company's long-term indebtedness in 1949 were $224,404, compared with $181,056 in 1948.

The company's long-term debt totaled $6,441,592 at the end of 1949.

Coincidently, with the release of the financial statement, the company announced its annual stockholders' meeting would be held at its New York headquarters April 11 at 2 p.m.

The principal business at the meeting will be the election of directors. The re-election of all 10 members of the board was proposed.

In a proxy statement, the network disclosed that the stock interest of Edward J. Noble, chairman of the board and majority stockholder of the company, was unchanged in 1949.

Noble Holdings Intact

Mr. Noble owns 901,607 shares or 53.82% of the company's stock. Additionally 26,000 shares are owned by an unidentified member of his family and another 38,000 shares owned by the Edwad John Noble Foundation, of which he is trustee. Mr. Noble, therefore, owns or controls 57.17% of the total of 1,689,017 shares of ABC common stock outstanding.

Salaries of top officers of ABC also were announced in the proxy statement.

Mark Woods, who last year became president of the company, was paid $75,000 in 1949—the same as in 1948.

Robert E. Kintner, who was elevated from the executive vice presidency to the presidency last year, was paid the same salary in 1949 as in 1948—$49,999.92.

The salary of Charles C. Barry, vice president in charge of production, was reported to have increased the first time. In 1949 Mr. Barry was paid $35,666,56, an increase of $7,916.60 over his remuneration for 1948.

C. Nicholas Prlauh, vice president and treasurer, received $27,499.92 in 1949 compared with $25,249.88 in 1948.

In a statement included in the financial report, Mr. Noble said: "Television operations continue to require heavy expenditures." Mr. Noble said, "and yet the cost of operations continues to be less when compared to the first time. But the spread between costs and income is rapidly declining. Advertising appropriations for television are increasing as more and more receivers are installed."

"When the freeze upon the construction of new stations is lifted, when the freeze upon the advertising of television is further accelerated by reason of the extension of television service to many important market areas which now lack it,"
TO AIR BAM PLANS

BROADCASTING • Telecasting

PLANs to set up Broadcast Audience Measurement Inc. (BAM) as successor to Broadcast Measurement Bureau (BMB) will be submitted to the NAB Management Conference at Chicago April 17-19. Discussion of the projected new industrywide corporation will take place during the Tuesday morning business meeting. By that time BAM's tripartite organizers — NAB, ASCM and National Association of Television Program Marketers and American Assn. of Advertising Agencies—are expected to have the project in shape for industry discussion.

Voting Formula

NAB headquarters officials were working late last week on a formula to cover delegate voting planned during the Tuesday morning business session at Chicago. This formula would apply to any motions submitted during the business session and to the raw data submitted. Each broadcaster and six agency and advertiser representatives. BAM board representation would be based on a similar ratio [BROADCASTING, March 20].

“All the NAB board has approved the BAM idea, which is based on $1 million capitalization, with assets of BMB absorbed. In most instances directors and broadcasters and six agency and advertiser representatives. BAM board representation would be based on a similar ratio [BROADCASTING, March 20].

CONTRACTS for national NRI services have been received from 59 agencies, advertisers, stations, artists and program producers previously using Program Hooperatings. Arthur C. Nielsen, president of A. C. Nielsen Co., reported Thursday. Mr. Nielsen emphasized that the contracts do not include those companies who were previously buying from both Nielsen and Hooper.

"On a dollar basis, this includes 71% of the total, and this percentage is almost identical for each of the principal types of customers," Mr. Nielsen said. "Agreements have been signed by all but eight of the Hooper-subscribing agencies who handle one or more network programs."

The head of NRI called the response "prompt, enthusiastic, and most gratifying."

"Confidence in the future of network radio is clearly proved not only by the steady stream of contracts but by the strong tendency to elect commitments covering two years or more," he said. "Even those companies who currently have no network programs on the air have been quick to recognize the importance of keeping close watch on radio and television trends by acquiring our services."

Mr. Nielsen also disclosed that (1) contracts have been signed by 12 organizations who are not currently sponsoring or handling any network radio programs; (2) orders for Pacific Nielsen-Ratings have come from many agencies and advertisers, in addition to two of the four networks; (3) Positive assurances have been received from many others that their orders for various NRI services are on the way.

No Alterations

Mr. Nielsen noted that TV Network Hooper Ratings are not included in the report because, aside from the change to Nielsen ownership, there have been no alterations in the form of service rendered, and hence no need for new contractual arrangements with customers. It is expected that this condition will continue until next fall when the Nielsen company expects to have enough Audimeters available to permit use of the electronic recorder technique in the production of national network TV service.

"These computations of radio subscribers," said Mr. Nielsen, "include not only those who are contracted for Nielsen ratings (the Pocket Reports) but others who have elected to buy the complete form of NRI services. The latter group will be increased substantially as our representatives have time to contact the new subscribers and explain the advantages of this more comprehensive type of service, which has been used for years by about 50 of the leading agencies and advertisers and all four of the national networks. Due to the short time which has elapsed since our acquisition of Hooper's network services, the bulk of the recent orders has been received by mail."

The NRI president believes that the record of subscribers "provides eloquent proof of the high esteem with which NRI is regarded by the radio industry."

"It is already obvious that, when all of the 'ballets' have been counted, substantially 100% of the industry will be solidly behind this service. To us, this means that thorough research, soundly conducted, is appreciated by this industry, just as the same quality of research has always been appreciated by the other great industries served by our company."

Mr. Nielsen disclosed that, for the benefit of all NRI subscribers, a special Pocket Report has just been issued giving a concise record of Nielsen-Ratings for every sponsored network program during the past 10 months.

**NBC Chicago**

Realignment Made

NBC Chicago's personnel shake-down over the past few weeks came to its final stage last week with announcement of complete realignment in staffs of WMAQ, WMAQ-FM and WGN (TV), by I. E. Showerman, NBC vice president in charge of the network's Chicago operations.

John F. Whalley, former business manager, becomes comptroller, responsible for accounting, financial, personnel, office services and labor relations. William Ray, present chief of the news and special events staff, continues in that capacity and also heads the press and public affairs departments. Leonard Anderson, former personnel manager, was named manager of intervention service.

**NBC Stops ABC Music**

AN NBC station manager, Charles E. Denny of WERC Erie, Pa., stopped the music on Bert Parks' ABC program of the same name last week. Called during the program Mr. Denny answered the phone with: "This is really going to stop the music. In fact it may even kill you." He explained that he was manager of an NBC station. Mr. Parks carried on manfully and the NBC manager named the tune to win a small prize. Name of the jackpot tune eluded him.
THIS WEEK,

"THE EARLY BIRDS"

are celebrating

20 YEARS

ON WFAA-820 DALLAS

Radio's oldest breakfast-time show (7:15-8:00 a.m., Monday through Saturday) has MORE LISTENERS than ever—is doing an unparalleled SELLING job for

Earl Hayes Chevrolet Company (six quarter hours weekly), The Mennen Company, Morton Foods, and Red Arrow Drugs (each three quarter hours weekly), Chap Stick and Chap-an's, Birds Eye Foods, Vitalis, Nob-Hill Coffee, Anacin Tablets, Republic National Bank, Gold Tip Gum, B & B Cafe, and General Electric Company use participating announcements.

And soon—WFAA-TV! WFAA now owns KBTV, Dallas, and plans to present television in the traditional WFAA manner!
'LIGHTNING' STRUCK

ATTEMPT by a newspaper to make the industry promotion film "Lightning That Talks" backfire against radio developed in Hopkinsville, Ky., when F. E. Lackey, president of WHOP Hopkinsville, showed the promotion picture to a local group.

Less than a fortnight after the March & Hopkinsville showing, described as the first of its type, the local Kentucky New Era ran a large display ad captioned "Lightning That Double Talks."

In its ad the newspaper said that Victor M. Ratner, formerly of CBS who was active in producing the film, had joined R. H. Macy & Co., "the world's largest store in dollar volume." The ad quoted from a magazine interview in which Mr. Ratner is said to have declared he will re-examine Macy's media policy.

"In the comparatively short time I have been at Macy's, I have acquired a very healthy respect for the kind of jobs newspapers do," Mr. Ratner was quoted as saying, with examples cited of effective newspaper selling.

Newspaper Pitch

The newspaper's copy winds up with a pitch for the power of the printed medium.

Mr. Lackey wrote Mr. Ratner that he had been informed by Maurice B. Mitchell, director of Broadcast Advertising Bureau, that the picture "was to be a positive selling argument for radio and not a competitive type picture."

On the basis of the statement by Mr. Mitchell, we scheduled the showing and invited the publishers of the newspaper to attend. Fortunately, they did not come, since the portion of the picture in which Mr. Mitchell attacked the selling job of newspapers, and made comparisons of results, would serve only to have embarrassed them before a large gathering of our common advertisers.

"Since the showing of the film, the publishers of the paper have taken the attitude that the radio station has started a campaign to low-rate the effectiveness of news-paper advertising. This, we have no intention of doing."

Harry C. Butcher, owner of KIST Santa Barbara, Calif., declared that the All-Radio film met generally favorable reaction at a local showing, "with some spontaneous laughter at various bits of humor. There was somewhat more than perfunctory applause when the picture was finished. It is definitely too long. Luncheon clubs only have 50 minutes for speaker or film; this one runs 40 minutes."

"Of the 75 in attendance, 31 left written comment. Of these, there were a half-dozen rather unfavorable criticisms, the remainder complimentary."

RADIO'S FUTURE
Healthy Outlook—Gittinger

WILLIAM C. GITTINGER, CBS vice president and assistant to the president, last week predicted a healthy future for radio, despite the growth of television.

In an address entitled "Radio Is Here to Stay" before the Cleveland (Ohio) Advertising Club, Mr. Gittinger said that "television doesn't need to hurt any other medium...that the American people are ready and big enough in numbers to swallow up another big entertainment and advertising medium without harming or discarding the existing ones."

"Citing the fact that CBS in 1949 again increased its radio billings over the year before, Mr. Gittinger said that radio will continue to grow and that "it is going to take an awfully long time to cut radio's tremendous share.""

In regard to advertising, Mr. Gittinger said: "Television will bring new advertisers into the field—advertisers who never used radio."

Mr. Gittinger

MARS ACCOUNT
Names Burnett Agency

MARS INC., Chicago candy manufacturing firm, last week named Leo Burnett Agency, same city, to handle its million-dollar-plus advertising account effective April 1. Granti Advertising, also Chicago, has serviced the account since 1938.

Ralph Ellis, who has been executive on the Mars account at Grant for the past five and one-half years, moves to Burnett today (Monday) in a similar capacity. For three years during the war he was administrative officer in the Midwest for the Office of Defense Transportation. Mr. Ellis was assistant merchandise manager of Dennison Mfg. Co. (paper products), Framingham, Mass., for six years before the war.

Media Plans Discussed

Although media plans have not been discussed in detail, and probably will not be set for several weeks, it is expected Mars will use both radio and television. It entered TV for the first time last September with sponsorship of a segment of Howdy Doody on NBC-TV. Strong in radio, the past, Mars has sponsored Dr. J. Q., Dr. L. Q., Jr., and Curtain Time. The last show is being dropped on NBC-AM the end of this month.

On March 7, H. Gies, Mars advertising and sales director, in making the official announcement, said the account was resigned by Grant "several months ago" but announcement was delayed until firm appointed a new agent. Several Chicago firms made presentations to Mars.

AMBMEETING
In Cleveland June 1-3

SEVENTH annual convention of NAB's Assn. of Women Broadcasters will be held June 1-3 at the Hotel Cleveland, in Cleveland, according to Bette Doolittle, executive secretary, Assn. of Women Broadcasters, shows her the BAB brochure, "Radio's Feminine Touch." Miss Doolittle is studying basic concepts of democracy and will report on her U. S. tour to Gen. Douglas MacArthur.

ABW MEETING

The elaborate 32-page sales manual for women's programs will be supported by a companion directory listing women broadcasters' programs.

BAB Brochure

The BAB brochure was prepared with cooperation of Lee Hart, on leave as BAB assistant director, and Miss Doolittle. The convention program will utilize the BAB material to show how women's programs can be sold and merchandised.

Anticipated attendance at the convention will be around 400, according to Miss Doolittle. The agenda, along with speakers and panel discussions, are being drawn up and will be announced in the near future.
SUBSCRIBING STATIONS REPORT NEW PROGRAM

“LUCKY SOCIAL SECURITY NUMBERS

Sensational Success!”

NEW STATION PROMOTION SWEEPS COUNTRY IN TWO SHORT WEEKS.
READ ALL ABOUT IT!

From San Diego to Rutland . . . from Ann Arbor to Dallas! By phone . . . by wire . . . requests are pouring in for the new "Lucky Social Security Numbers" exclusive contracts. In two weeks the idea has caught on fire all over the place. But this story is not concerned with telling of how many stations bought the idea . . .

BUT IN THE INSTANTANEOUS RESULTS THE PROGRAM IDEA HAS BROUGHT TO SUBSCRIBING STATIONS!

In the box over at the right we've taken a few case histories at random. Read them carefully. Can you use that kind of selling tool? Does your Hooper need a boost up? Have you got time you haven't been able to sell? Check the stations that are already using the plan. If your area is open . . . right this second send your wire reserving the franchise for your station. Graduated cost makes it easy to introduce into your market at nominal expense.

HOW IT WORKS

We furnish you with ten numbers a day, one for each five minute newscast (or any other schedule that fits your needs). Whenever the number read out over the air matches the Social Security Number of the listener WE SEND YOU a $100 cash prize to pay the lucky listener.

for contracts

CAB MEET
16th Annual Session Opens Today

ROYAL Commission on Broadcasting, increased Canadian advertising agency commissions, standard rate book policy, television and selling and buying interests which constitute highlights of the 16th annual meeting of the Canadian Assn. of Broadcasters being held this week (March 27-30) at the Royal Commission at Ottawa in mid-April.

Tuesday, the annual meeting of the Bureau of Broadcast Measurement will be held under BBR President L. E. Phenner, followed by a luncheon address by Don Henshaw, account executive of MacLaren Adv. Agency, Toronto. Other business will include a discussion on an advertising agency request for increased commissions and resolutions regarding selling and rate policies. The annual CAB dinner will be held at the Hotel, Dr. Robert Stanford, North American consultant for UNESCO.

Wednesday business will include a television forum with Sam Cuff, TV consultant, New York, as speaker, and Malcolm Nell, CFNB Fredericton, N. B., as chairman. There will be a question period and general discussion on ideas submitted by CAB stations, under the chairmanship of Ken Soble, CHML Hamilton, Ont.

International Panel
A panel discussion, "Information, Please," follows under the chairmanship of Vic George, CFCF Montreal, with an international panel of experts, including:

W. D. Byles, Young & Rubicam, Toronto; Carleton Hart, Procter & Gamble, Toronto; W. F. Dibley, Radio Representatives, Montreal; Ruth Jones, Benton & Bowles, New York; Joe Weed, Weed & Co., New York; Bob Cappell, Cappell, Toronto; and Guy F. Herbert, All-Canada Radio Facilities, Toronto.

Thursday, the NAB film, "Lighting That Talks," will be shown for a Canadian preview, followed in the afternoon by a talk by Maurice Mitchell, director of NAB's Broadcast Advertising Bureau.

Also planned for the meet is a trip to inspect WBEN-TV Buffalo with RCA-Victor as host. A number of equipment firms also will have exhibits.

AGENCY CHOOSING
Book Advises Advertisers

SO YOU'RE GOING TO CHOOSE AN ADVERTISING AGENCY. By James Thomas. Chicago: Funk & Wagnalls Co. 167 pp. $3.

In this volume, one of the Printers' Ink Business Bookshelf series, James Thomas, owner of his own advertising agency since 1938, gives potential agency clients definite yardsticks, not only for judging agency operations in general, but also for determining different types of agencies (small, large, general, specialized).

He also evaluates work within specific departments (research, copy, art, media, production) and presents guidelines to help the client get exactly the information needed, and to pin down claims an agency may make.
Bound for town and Bound to BUY

SELL YOUR PROSPECTS IN TRANSIT—WHEN THEY ARE ABLE AND READY TO BUY—CLOSE TO POINT OF PURCHASE!

The remarkable sales increases National Advertisers are getting from Transit Radio* are the result of several sound, basic advertising advantages:

1. Your prospects are actually in transit—on their way to buy!
2. Listeners can act within minutes of hearing your commercial.
3. You get a counted, selective audience, of known dimensions and characteristics, at an attractively low rate.
4. Transit Radio is completely flexible; can exactly fit the campaign precisely to your needs.

In Houston, for example, Transit Radio not only delivers the 420,000 Houstonians who ride Houston Transit Co. buses every day, but includes all the passengers of all the “Shopper Special” buses serving the busy downtown retail business section. Every product has distribution there! Most products, too, have distribution in the thousands of neighborhood drug, food and other stores — handy to every transit stop. So, coming or going, bound for town or homeward bound, your Transit Radio commercial reaches a guaranteed, receptive audience, in a mood to buy, in position to buy now!

WITH a handshake, Ken Church (I), gen. mgr., WIBC Indianapolis, Ind., and Hassil Schenck, pres., Indiana Farm Bureau, mark bureau’s renewal for seventh year of sponsorship of WIBC news. Looking on are Glenn Sample (I), bureau information dir.; Gordon Graham, WIBC newsman sponsored by bureau.

CONTRACT giving KVER Albuquerque, N. M., exclusive rights to air baseball games of Albuquerque Dukes is set by L. N. McCullough (seated), partner, Broadway Lumber Co., sponsor. With him are William T. Kemp (I), KVER pres., and Herbert Fitch, Fitch Adv. Agency.

DISCUSSING the news after S&C Motors, San Francisco Ford dealers, arranged contract to sponsor 7:15 a.m. newscast on KGO San Francisco, are (I to r) Al Schlesinger, president, S&C Motors; Les Lutz, Ford dealer head for North California, East Nevada and Hawaii, and Tony Morse, KGO newscaster.

FRANK KILBERT Jr. (seated); pres., Hornell (N. Y.) Brewing Co., renews firm’s sponsorship of Hornell Pony League baseball games on WWGH (FM) Hornell. Others are (I to r) Glenn Sprague and Sheffield Davis of WWGH; Kenneth Cromwell, Hornell; Sportscaster Chuck Richard; George Miller, Miller Adv.; Morris Shepherd Jr. and John J. Kingston Jr., Hornell.

WORLD-WIDE RADIO

Benton Urges Action

IMMEDIATE action to set up a world-wide radio network capable of "laying a signal into every receiver in the world" despite Russian jamming efforts was advocated Wednesday by Sen. William Benton (D-Conn.).

Sen. Benton’s proposal—urging a U. S. radio unit that could broadcast "on longwave, shortwave, or medium wave"—was embraced by his" in his sweeping "Marshall Plan of American Ideas" presented to the Senate. It was the first major Senate speech by the former Assistant Secretary of State for charges of the Voice of America and other foreign information services.

Pleading for an expansion of the State Dept.’s International Information and Educational program, Sen. Benton declared, "We are in the crucial moments of a struggle for the minds and loyalties of mankind." As America’s answer to this struggle, he outlined a six-point plan that would tell the U. S. story "in a full-throated voice instead of a whisper."

The Senator, appointed to fill a Connecticut vacancy in the upper chamber of Congress last December, pointed to broadcasting as a "unique medium" for reaching the minds of foreign peoples. Unlike publications or the movies, Sen. Benton said, radio can reach rural and rural areas as easily as metropolitan centers. Radio does not depend on literacy, nor affected by shortage of paper or film stock, he said.

But, he said, "shortwave broadcasting is not enough, even if we had adequate transmitters which we have not. What is required is unified, world-wide network capable of laying a signal into every receiver in the world—mediumwave or longwave as well as shortwave. This can be done, despite many obstacles if we have the will to do it."

Cites Obstacles

These obstacles, he had explained, are principally Russian efforts to jam U. S. broadcasts. He revealed, however, that Edward Barrett, newly-appointed Assistant Secretary of State for Public Affairs, had given the Senator an optimistic report on possibly overcoming Soviet jamming.

He said the proposed $44 million budget is adequate for the information and educational program in fiscal 1951 is "woefully inadequate."

Also forward in his resolution (S. Res. 248), co-sponsored by 12 Senate colleagues, was a proposal to establish a non-governmental agency that would "inspire and guide" efforts of private citizens who desire to use talents and resources and overseas Co., which owns WHAM Rochester. They are Wesley M. Angle, honorary chairman of the board of Stromberg-Carlson, and Bernard E. Finucane.

Senator BT is S. 1280 kc with 5 kw. The transfer application was filed Tuesday by Frank U. Fletcher, Washington radio attorney.
Memo to

Another exclusive money-making scoop is in the making! Now you can line up sponsors as never before! March 28th is the mailing date. Watch for it!
MILESTONES

**MARKING the 20th anniversary broadcast of the Catholic Hour on NBC, Emmett Blues (l.), president of the National Council of Catholic Men, presents a citation to the network.** Niles Trammell, NBC board chairman, accepts the award.

**FIRST birthday anniversary of Washington Transit Radio was celebrated March 1 in novel fashion as the firm sent out 140 miniature “street car” cakes to local sponsors and advertising agencies. Attached was a card saying: “This is our first birthday. Today YOU take the cake. For the other 364 days a year we like to feel Transit Radio takes the cake as an advertising medium.” Mrs. Helen K. Mobberly, sales manager of Washington Transit Radio Inc., and Ben Strouse, general manager offirm and WWDC-AM-FM, Capital outlet, light a candle for the occasion.**

**KNBC San Francisco marks its 25th year of broadcasting with an illustrated direct mail promotion folder entitled “Background for Progress.” Illustrations show early day transportation and communication models with brief descriptive text. Promotion is contained in a single paragraph: “Today 25-year-old KNBC is as familiar to the people of Northern California as were the wagons and steamboats of the 1850’s. It is Northern California’s best buy.”**

**Ralph Nardella, commercial manager of WHOM New York for the past three years, celebrates his 25th anniversary in radio April 5. Previously he had been commercial manager of WOV New York for 17 years.**

**Walter Lanier (Red) Barber celebrated his 20th anniversary in radio March 4. In 1930 he was with WRUF Gainesville, Fla. Four years later he joined WLW Cincinnati to handle play-by-play of the Reds’ games. In July 1946 he was appointed CBS sports director, which position he still holds.**

**Abele Musical With the Two Henrys and Gene, program on WSPD Toledo, Ohio, celebrates 22 years of broadcasting with the same sponsor, Abele Funeral Home, April 9. Two members of the original cast are still with the show, the third having joined them in 1929. Format has never been appreciably changed.**

**WRGA Rome, Ga., an MBS affiliate, celebrated its 20th anniversary March 5. Station was saluted coast-to-coast on network programs.**

**Part of Farm Reporter show on WKY Oklahoma City, which features talks by state and federal experts on forestry, began its 11th year on the air last month. It is believed to be the oldest program of its kind.**

**The second anniversary of Girl and Boy Land, heard over WPFB Middletown, Ohio, Saturday, 10:30-11 a.m., was celebrated March 20.**

**Documentary broadcast dealing with the impact of the program in the past was aired March 5 commemorating the 20th anniversary of the Catholic Hour on NBC.**

**Recordings by business leaders in Danville, Va., are being aired by WBTM that city, as part of its 20th birthday celebration. Businessmen have gone on record congratulating the station during this month.**

**Guy Savage, sports editor for the Shamrock Broadcasting Co. and KXYZ Houston, completed 24 years in radio and seven years in TV on March 17.**

**The 25th anniversary of WHEC Rochester, N. Y., was celebrated by the station March 25 with a radio show, featuring CBS and local talent.**

**Commercial Manager William F. Malo of WDRC Hartford, Conn., is observing his 20th anniversary with the station this month.**

**Glenn Hardy this month celebrates his 16th year as newscaster on MBS Alka-Seltzer Newspaper of the Air.**

**Weather show, aired from the U. S. Weather Bureau in Washington over WASH (FM) Washington and the Continental FM Network, Mon.-Fri., 6:610 p.m., observed its first anniversary March 14.**

**KATL TO 5 KW Baseball Plans Announced**

KATL Houston, independent outlet owned and operated by Texas Broadcasters, has announced increase of its power from 1 kw to 5 kw on March 16. Installation of the new transmitter was directed and supervised by Chief Engineer Ed Martin.

Simultaneously, KATL said complete coverage will be given Major League baseball games during 1950 through the Liberty Broadcasting System, with which the station is affiliated for sports. For the fourth consecutive year, the Texas League’s Houston Buff games, played at night, will be broadcast, KATL reported.

**Walter Ziv’s Dallas Sales**

ELMER BIESER, member of the sales force of Frederic W. Ziv Co., has been promoted to sales manager of the firm’s newly formed southwestern division with headquarters in Dallas, the firm announced last week. The promotion, Ziv said, is in keeping with its 1950 expansion program which calls for the opening of new sales divisions throughout the country.

Prior to joining Ziv in 1947, Mr. Bieser was with the sales department of WKY Oklahoma City.

**STUDY POSTPONED Senate Group Session Delayed**

INABILITY to gain a quorum of members of the Senate Interstate and Foreign Commerce Committee last Wednesday delayed consideration of important measures which affect radio. Cancellation of the committee’s executive session deferred study of the President’s reorganization plans affecting governmental agencies including the FCC [Broadcasting, March 20].

Also held over until the next scheduled executive meeting on April 12 was committee action on the Langer Bill (S 1847) which would prohibit radio and other forms of interstate advertising of alcoholic beverages. Public hearings on the measure, authored by Sen. William Langer (R-N. D.), were held last January [Broadcasting, Jan. 16].

**WDZ DECATUR, Ill., laying claim as the third oldest station in the nation, celebrated its 29th birthday anniversary March 17—“B Day”—with a special four-hour-long program dramatizing its history since 1921. Engineer Don Watson (seated) throws the switch for the occasion while staff members stand by. L to r: Harry Smith and Hugh Gray, announcers; Marty Roberts, farm editor; Bill Miller, program director; Nancy Norman, woman’s editor, and Wick Evans, news director.**
Whether you use disc or tape recorders, Graybar is ready to serve you—with Presto recording discs or Scotch sound recording tapes.

Presto Green Label discs meet the "top-quality" requirements of broadcast stations, recording studios, and transcription manufacturers. Use these discs and you're sure of low surface noise, adequate chip throw, and maximum number of playbacks with minimum wear. Extremely careful inspection assures uniformly high quality.

Also available are other grades and types of Presto discs for recording jobs not requiring discs of such high quality: testing, air checks, rehearsals, recordings of short duration. Your nearby Graybar office also can supply cutting styli and playing needles.

Because of the increasing use by broadcasters of tape recording, Graybar nationally distributes Scotch sound recording tape. Scotch No. 111 (A or B) brings you better frequency response at slow recording speeds; low noise level; even, constant tracking. Scotch tape erases clean with low power, without a special erase head. It's easily edited, doesn't snarl, backlash, or kink. The tape is supplied on NAB hubs.

In addition to Presto discs and Scotch recording tapes, Graybar has everything you need in broadcast equipment...PLUS everything for wiring, ventilating, signaling, and lighting for your entire station and grounds! Whatever your requirements—to get the most suitable items most quickly, call your nearest Graybar Broadcast Equipment Representative. Graybar Electric Company, Inc. Censor of Thought

THE SEDATE and seldom-wrong New York Times appears to have fallen for the specious "scuriality" preoccupations of the FCC.

In an editorial on "Freedom of the Airwaves," the Times uses as its springboard the current hearings on renewal applications of the G. A. Richards stations (KMPC Los Angeles, WJR Detroit, WVGR Cleveland). It brings out that Mr. Richards is accused of ordering the slanting of news broadcasts, if rise to the customary mention and the spot announcements to the value of his merchandise as well!

There are only two of the schemes being hatched by misguided, muddled or downright unscrupulous promoters. They want the advantage of radio without paying card rates. More insidious than outright peri inquiry pitches, which most responsible station managers have learned to avoid, they solicit time under the guise of trading value for value.

In this competitive period every one must be alert to possibilities for profitable business for his operation. But anxiety for business must not overtake the good taste.

Radio, when properly used, gives the advertiser more for his money than any other medium. It is a bargain at established card rates.

R: Good Taste

The FCC Chairman Wayne Coy has lashed out against "poor taste" in TV, and the wisemen seem soon will be calling it "smellovation." Little more is needed to goad the columnists and columnists have already taken shots into shooting at radio and TV from the hip.

Mr. Coy took off against the lowering of program standards. It didn't take long for the boys to level their sights at CBS' ubiquity. That station has been more meteoric as that of TV itself. CBS affiliated TV outlets have threatened to cancel Godfrey shows unless he is checked.

There is doubt that CBS, having made Mr. Godfrey, can also retrain him. Networks will not take too lightly the reactions of their affiliates. TV is still groping for its formula. It doesn't do any harm to focus attention of these masters provided they remain the dead hand of Government stops there. Otherwise it's censorship. Telecasters, networks and affiliates should get together and devise means of themselves coping with these matters.

But the FCC action of requiring proof of public interest was adopted from the start. A dozen different codes of ethics have been adopted and revised. No one in radio has ever denied that there's need for improvement. What art, profession, business or government can't be improved?

We think we know what constitutes good taste. But that's our good taste. Yours is different. Mr. Godfrey's is different.

And where is the repository of the FCC's standard of good taste? Is it in the wrangling "executive sessions" of the sever seldom-if- ever-agreeing members? Is it in the crowded warrens where scurry the bewildered, innumerable and ill-trained recent graduates of public law school? Probably the FCC standard of good taste is really in limbo until the appointment of the expected chief of the new Broadcasting Bureau. He will fetch it forth, unencumbered by the red tape of public interest, convenience and necessity, give it a hard smash on its "discussion of public issues," bathe it in "integration of ownership," off it with "the identification, power it with the fragment of "sustaining programs" and christen it "Good Taste, by courtesy of the Government of the United States (under the Constitutional power to regulate Interstate Commerce) and subject to appropriate exceptions after oral argument."

Come on boys, let's go dig up Galileo!

Who Quizzed Whom?

THE AGGRESSIVE program director of a western station hit on what must have seemed to him to be a swell idea the other day. A news quiz show! Make the questions timely and informative by letting one of the newer abbreviated news magazines get them up. In return the show would plug the magazine. It sounded like a natural.

So he wrote to the magazine editors. They were delighted! The idea would give them a full radio program for free. They would get more and perhaps better time than competitive publications such as Reader's Digest, Look, and others were getting at regular rates. And why couldn't the idea be expanded?

The magazine avidly accepted. It followed through with a circular letter to stations making the same proposition.

Another firm has been in the business of furnishing prize quizzes for quiz shows. With quiz ratings falling they have found it harder and harder to get manufacturers to furnish prizes in return for the doubtful advertising they receive when their product is given away. Stations need prizes if they continue the show.

So this "merchandise consultant" saw a way to play both middle and ends of the business: sell the station on the middle 15% cut. He would "sell" the merchandise to the station, taking his "pay" in spots for the manufacturer. The station would get its quiz prizes and the manufacturer would get the customary mention and the spot announcements to the value of his merchandise as well!

These are only two of the schemes being hatched by misguided, muddled or downright unscrupulous promoters. They want the advantage of radio without paying card rates. More insidious than outright per inquiry pitches, which most responsible station managers have learned to avoid, they solicit time under the guise of trading value for value.

In this competitive period every one must be alert to possibilities for profitable business for his operation. But anxiety for business must not overtake the good taste.

Radio, when properly used, gives the advertiser more for his money than any other medium. It is a bargain at established card rates.

Our Respect To

CURTIS BLOOD PLUMMER

IT WOULD SEEM significant that the FCC, in its present time of television trouble, has called upon the head of its TV engineering division to be its new Chief Engineer.

There should be no surprise, however, that Curtis Blood Plummer is interested in, or familiar with, television exclusively. If he were, he probably would have never been tapped for the chief. He is, and his appointment the Commission is establishing the Office of the Chief Engineer on a higher and apparently broader plane. Effective April 3 the Chief Engineer, the General Counsel and the Chief Accountant will serve as "the top-level advisors and representatives of the Commission itself."

Improvable though his 37 years would make it seem, Curtis Blood Plummer has been associated affirmatively with broadcasting almost from the time of its beginning. With assists from his father he built his first radio receivers at age 8. Their cranking reproduction of the weather reports of WGI Medford-Hillside, Mazon, and the more famous and WDKA Pittsburgh was proof enough of their utility.

Practicing broadcasters can take encouragement from the fact that the new Chief Engineer has also worked broadcast transmitters for Radio Corporation of America. He "took it on the bull" may be charged off to the times in which he worked, when there were less than 900 stations and the directional antenna had just begun to envision commercialization.

He also is credited with an encouraging but bureaucratically rare disaffection for red tape in his dealings with licensees and applicants.

Colleagues say his direction of the Engineering Bureau's Television Broadcast Division, which he has headed since it was established in 1945, counted at least as much as his engineering know-how in FCC's decision to make him Chief Engineer.

"He's kept it running like a happy family," one FCC official reports. As Chief Engineer he will have a substantially bigger family to run happiness.

Curtis Blood Plummer was born Aug. 15, 1912, in Boston, Mass., but until recently it took two "birth" certificates to link the name with the birthplace and birthdate. He is the son of Richard and Alice Blood and was christened Curtis Roberts Blood. In 1924, upon the death of his father, he was adopted by J. W. and Flora Plummer, relatives of Alfred, Me., and took his present name. A 1946 general law of the Massachusetts Legislature cut his birth-certificate problem back to par. "Curt" Plummer can attribute his early

ABC LOAN
May Borrow $2.5 Million

ABC ANNOUNCED last week it had negotiated with the New York Trust Co. a loan agreement under which the network may borrow up to $2.5 million in the next year.

Any loan taken out under the agreement will have a maturity of five years.

The purpose of entering into the agreement was to provide the network with a total reservoir of borrowing power of $2.5 million against which loans could readily be obtained "to take full advantage of all favorable opportunities as quickly as they may present themselves," according to Robert E. Kintner, ABC president.

KVOE Santa Ana, Calif., moves to larger offices and studios at 105 E. Fifth St.

1950 Broadcasting-NAB Golf Tournament
will be held April 16 at the famous
TAM O'SHANTER COUNTRY CLUB

View of Tam O'Shanter, looking toward the club house.

Thanks to George May, NAB golfers will have the opportunity to play on the world famous TAM O'SHANTER course, scene of the country's outstanding golf tournaments. The date is Sunday, April 16.

Broadcasting-Telecasting will award silver cups to the low gross and low net winners. The usual blind bogey handicaps will apply, giving everyone an equal chance to win the trophies. Tee-off time 9:30 a.m. Free buses will leave the Stevens Hotel at 8:45. Please send in your reservation today. Use the coupon below.

ATTENTION: GOLF COMMITTEE

Respects
(Continued from page 38)

affinity for radio to both his father and his foster father. His father, who worked during World War II as a New England Telephone & Telegraph Co. engineer and nights as a radio experimenter, helped him with his first radio sets, which he helped his neighbors in Winchendon, Mass., where the Bloods were then living. His foster father, an automobile dealer who also sold the first commercial model radio receivers available in Alfred, encouraged the boy to develop his talents.

After earning high-school pin money with a radio repair shop in his foster father's garage and an appliance shop, young Plummer entered Hebron Academy at Hebron, Me., a preparatory school. Radio sets were forbidden to students, but he built them for faculty members and thereby made sure he would have one available for his own use.

In college — U. of Maine — he wanted to take several engineering courses but found this impossible. He did the next best thing, concentrating on electrical engineering and putting secondary emphasis on mechanical. His major was in radio and electronics, and he made the pleasing discovery that there are scientific reasons for some of the effects he had been noticing for years in his work repairing and building receivers.

Exceptional Memory
Before he received his Bachelor of Science Degree in electrical engineering in 1935, Mr. Plummer became a "ham"—a hobby he has indulged sporadically ever since. As a student he also won notoriety for his memory. Among other things, he memorized all the electrical characteristics of all the receiving tubes in the "Tube Book."

"It was much easier than looking the stuff up," he explains.

"Curt" Plummer got his first job in late 1935 with WHEB Portsmouth, then owned by the Christian Adventist Church. He was a combination man, the combination being just broad enough to include whatever job needed doing then.

Dropped from the staff because of the short hours of winter, he moved in 1936 to the Radio Recepter Co., New York. By mid-1937 he had concluded there were too many ups and downs in aviation radio and manufacturing, and left Radio Recepter to set up a receiver sales and electrical contracting business in his home town. This he gave up when he found the volume of business too small.

In early 1938 Mr. Plummer went to work installing WGAN Portland. The transmitter installation was completed weeks before the studio, with the result that he was called upon to set up a "quickie" studio in the transmitter building. He finished this assignment in a few hours, incidentally winding up with what he recalls as "the best acoustics job" he's seen.

"I wonder if I could repeat the accident," he muses.

After a year with WGAN he decided he didn't want to be a push-button operator and started taking Civil Service exams in search of something more to his liking. He "hit" with an application for appointment as an FCC inspector. His notification came while he was doing a remote pickup of a dance band, and he left WGAN at the end of the broadcast.

The following Monday—that was in July 1940—Mr. Plummer reported for FCC work in Boston. He was first assigned to intelligence work, then was given the job of installing sub-monitoring stations for the old Radio Intelligence Division. In January 1941 he was reassigned to Boston, where he helped move the monitoring station from Hingham to the Millis plant.

"Those were the best working hours I've ever had," he recalls.

"Worked from 4 p.m. till midnight five days a week, with four hours extra on Saturdays."
He soon tired of the routine, however, and applied for transfer to Washington. Upon his arrival there in August 1941 he was assigned to the Standard Broadcast Division. With the outbreak of war in December, he was assigned to Voice of America problems and, in 1944, was named assistant chief of FCC's Non-Station Broadcast Section of Engineering in addition to his chores for the Voice.

When the TV Division was created in 1945 he was named acting chief, taking the Voice duties along with him. In 1946 he was named chief of the division. Since then the Voice—international broadcasting—has occupied fully half his time.

He has represented the U. S. at three international high-frequency broadcasting conferences—Atlantic City in 1947, Geneva 1948, and Mexico City 1949.

In 1944 Mr. Plummer was married to Miss Helen Hale, a native of Boston who had spent almost all of her pre-college years in China with her parents, who were missionaries. When his dinner-table conversation becomes overloaded with kilowatts and tropospheric interference, she can return the compliment in Mandarin Chinese. They have one son, Lee Curtis, aged 2.

Mr. Plummer is a member of the American Institute of Electrical Engineers and a senior member of Institute of Radio Engineers. He has a cottage in Maine—and a boat to go with it—where the Plummers spend their summer vacations. Between times, he moves from one hobby to another—currently it's a study of economic treatises and cycles.

Let WIBW focus your Selling in...KANSAS

All you need is ONE station...WIBW to do the hardest selling...to do the biggest job in both CITY and FARM markets.

FOCUS on your CITY market!

It's Topeka—21 county market, according to the Audit Bureau of Circulation, Topeka has 23% of the state's effective buying power and 22% of all Kansas families. WIBW is the preferred station in this market. It has three times more listeners than all other Topeka stations combined.

For the CITY market

FOCUS on your FARM market!

A glance at Consumer Markets, 1949, will show that WIBW's farm market is made up entirely of families on farms and in agricultural communities. In this rich market, WIBW has ten times more listeners than all other Topeka stations combined.

For the FARM market

ALL YOU NEED IS WIBW!

Court Modifies Negative Ad Statement Requirement

FEDERAL TRADE COMMISSION received two setbacks last week when the U. S. Court of Appeals for the District of Columbia modified one FTC order and the Food & Drug Administration failed to support part of the charges against two manufacturers of antihistamine cold drugs.

In the first case, which legal observers feel could have placed widespread restrictions on radio, television and other advertising media, FTC had attempted to require Albert's Products Co. not only to state fully the limits of benefits to be derived from use of its Orixin Tablets but also to call attention to what the product will not do.

Neither the appeals court nor Albert's Products Co. denied FTC's contention that the firm should limit its claims of beneficial effect to the causes for which the product is helpful—in the case of Orixin Tablets, simple iron-deficiency anemia—but the court said FTC was overstepping its powers when it required an advertiser to include additional negative statements regarding his product.

Cites Extensive Scope

Pointing out the ends to which these limitations could have been extended, Judge E. Barrett Pettyman wrote in the majority opinion:

Almost every advertisement of a food, drink or drug, no matter how accurately described and carefully limited in its claims, would fall within the scope of the rule here sought to be established...

It if [FTC] has this power, it could, if it chose, require an advertiser of a breakfast food rich in iron to state not only that the food is good for those deficient in iron but also that iron deficiency is less frequent than other ills and that for these others the advertised food is valueless,... Such power seems to us to be no less than the power to control the marketing of all such products, because, if permitted to go through the commission, can be required not only to state accurately the limited benefits of their products but also to call attention to what the products will not do, the effect on marketing is clear enough.

In commenting on charges against another Alberty product, the court majority ruled that the firm did not have to tell the public that the claim made for its Phospho B are made under the principles of the homeopathic school of medicine.

In the second case FTC last Monday charged Bristol-Myers Co. and Anahist Co. Inc. with using false and misleading advertising in selling "both antihistamine cold products. The companies are charged with misrepresenting the therapeutic properties and effectiveness of their products in treating and preventing common colds. FTC's complaint also contends the firm's advertising is "deceptive" in regard to the safety of the product and that they "may be unsafe and produce injury or harm to the user."

The charges are directed against Bristol-Myers’ Resistabs and Anahist Co.'s Anahist.

It was in regard to the "safety" of the products that the Food & Drug Administration entered the picture. Associate Commissioner George P. Larrick, in a statement, said that despite contentions of FTC his agency has obtained no evidence that the two products are dangerous when taken according to label directions.

Deny Charges

Both companies denied the charges.

Robert R. Brown, vice president and general manager of Bristol-Myers, said the "allegations...and they are purely allegations—are completely erroneous and at variance from the true facts. All advertising of Resistabs has been based upon clinical and scientific investigation."

On behalf of Anahist Co., Stanley Lasdon, executive vice president, said "every advertising claim we have made is backed by clinical evidence. ... Anahist does not claim to destroy the cold virus. It is directed only to the relief of the cold symptoms."

Both firms have 20 days in which to answer the FTC complaints.

NEW TRANSMITTER and studio building housing WJER Dover, Ohio, had its formal opening and open house on March 21st. 1,102 visitors signed the guest book. Building was designed by WKJF (Cincinnati) General Manager Charles E. Dewey Jr. WJER, licensed to Mrs. H. C. Greer, operates on 1450 kc unl. with 250 w. Frank Shaffer is manager.

AFA CONVENTION

List Additional Speakers

ADDITIONAL speakers for the 46th annual convention of the Advertising Federation of America, to be held May 31-June 2 at Detroit's Statler Hotel, were announced jointly last week by Elliott Shumaker, convention general chairman and general advertising manager, Detroit Free Press, and Elcon G. Barton, president and general manager of the federation.

Added speakers include:

Other speakers, previously announced, include:

General theme of the three-day program will be "Advertising's Responsibilities in a Dynamic Market." Events planned include presentation of the winners of the national high school essay contest sponsored by the Federation, naming the "Advertising Woman of the Year," announcement of elections to the Advertising Hall of Fame and presentation of awards to Advertising Clubs.

Stanton-Storer Nuptials

ANNOUNCEMENT has been made of the marriage March 13 of George B. Storer Jr., son of George B. Storer, president of the Fort Industry Co., to the former Joan St. John of Birmingham, Al. The ceremony took place in Birmingham's Independent Presbyterian Church. Mr. Storer Jr. is manager of WAGA-TV Atlanta.
Mr. Smith

TR ADDS TRENTON
WTOA (FM) Feeds Transcasts

ADDITION of Trenton, N. J., to the list of cities whose transit systems provide programs to passengers riding city buses, was announced last week by Transit Radio Inc., Cincinnati. Programming will be provided by WTOA (FM) Trenton. According to R. C. Crisler, executive vice president of Transit Radio, Trenton is the 22d community now having the service.

Contracts for the service were completed by Thomas Kerney, publisher of the Trenton Times which operates WTOA, and Rankin Johnson, representing the Trenton Transit Co., it was announced. Transit Radio said five receiving units are now installed and will operate for a period of 30 days, after which, if both sides are satisfied, the agreement becomes permanent for a five-year term. The Trenton Transit Co. operates a to-

WHEN flying saucer allegedly down by Midge was reported sighted in Mexico, Alvin Perlmutter, promotion manager of WEOK Poughkeepsie, N. Y., had an idea. One thousand "teaser" cardboard saucers were thrown from an airplane at 9 a.m. on Saturday morning, bearing statement, "Greetings From Mars." Front page publicity was given saucers that afternoon. At 3 p.m., two more airplanes dropped 4,000 more discs on city. Midget dressed in Mars costume spread discs from car window in town. Discs promoted 45 rpm records, saying they were "out of this world." Each saucer bore one of WEOK's call letters, and station announced that first 75 persons bringing in discs with all letters would receive prizes. Remote unit from station was set up in town to interview citizens about "visit from Mars."

Farm Hour Brochure

LATEST promotion of WRAK Williamsport, Pa., describing WRAK Farm Hour is brochure mailed to 9,000 rural homes in Lycoming and surrounding counties in north central section of Keystone State. Brochure serves as introduction to WRAK and to all specials on program. Complete schedule also is included for benefit of farm folks who cannot tune in for entire hour. Last page is devoted to NBC shows to be heard on WRAK-AM-FM.

Radio Students Operate KILO

RADIO students and staff members of KFIU U. of North Dakota outlet were given opportunity to completely operate KILO Grand Forks, N. D., commercial station for two days recently. Some 15 students took part in training program with one regular member of KILO staff on duty to give help and offer suggestions. Duties assumed ranged from riding the network schedule to preparing news broadcasts and children's programs. Program was under supervision of Quentin W. Welty, instructor in radio at university and KFIU faculty advisor.

KGO-TV Mirrors

EIGHT-by-ten-inch mirrors have been sent to Bay Area radio, television and newspaper columnists by KGO-TV San Francisco to promote Admiral Magic Mirror Revue. Written on mirror in white show card paint is information about premiere and photo of show's star, Ruby Hunter.

Station Hails Growth

CITING triple-pronged growth achieved by 50 kw ABC affiliate, WLAW Lawrence, Mass., has launched extensive newspaper advertising campaign. Opening gun was 85-inch spread which featured chart and table to sustain its contentions. Heading used to stress major points was "3 Firsts in 3 Years!"—gains in daytime audience, nighttime audience and number of counties served. Claims in promotion involve both Merrimack Valley market and three counties of metropolitan Boston area. Advertisement emphasized gains of 101% in daytime listening, 176% in nighttime listening and 108% in coverage and service, figures being established on comparison of WLAW's 5 kw operation in 1946 and 50 kw operation in 1949.

WDBC Raises Coal

OVER a ton of coal was raised lump by lump by WDBC Escondia, Mich., in connection with the recent nationwide strike. Station offered to contributors an autographed picture of Dolores Hart, "Queen of the North," and Al LaGuire, WDBC announcer and disc jockey known as "The Light-house Keeper" in Upper Michigan. In three days, using an original song, "Buddy, Can You Spare a Lump," as a theme, the pair had stockpiled over 2,000 pounds of coal, with contributions ranging from one lump on up. Calls, telegrams, etc., flooded the station. As promotional campaign, the drive was very successful, WDBC reports.

Mystery Contest

WEEK-long contest, conducted in conjunction with downtown movie showing of "The Third Man," run by WINX Washington recently. Listeners to George Crawford's WIX rayettes were invited to enter contest by identifying mystery voices of Hollywood stars and writing, in 25 words or less, why "In Washington, nearly everybody listens to WINX." Merchandising gifts were awarded as prizes.

Grocers' Folder

LARGE multi-colored bulletin sent to grocers in area of WEVD New York urges them to be prepared for large purchases of Bab-O or Glim, due to premium offer aired on WEVD's My Mother and I, nighttime drama. Offer and show are beamed to large Jewish market in New York.

Show Invitation

LARGE card resembling screen and surrounding cabin of television machine is background of invitation sent to trade by Gimbel Bros., Philadelphia. Text written on screen announces party celebrating opening of new Gimbel Handy Man television show, five days weekly, 3:30-4 p.m. on WPRTZ (TV) Philadelphia, and party celebrating beginning of third year of Handy Man show with Jack Cramer. Dial on cabinet surrounding screen is tuned to Channel 3, WPRTZ's spot.

Personnel

A. RICHARD ROBERTSON, formerly member of public relations staff of U. of Utah, appointed assistant in promotion and merchandising department of KSL Salt Lake City.

LARRY WHITNEY, formerly of continuity acceptance staff of WGN Chicago, joins public relations staff of station.

THOMAS N. DWAN appointed director of national advertising for CJCI Calgary, and opens office at Toronto.

DONALD GETZ, of WGN Chicago sales promotion department, is father of a girl, Carolyn.

PIECE THE PITCH! . . .

DULUTH, MINN. — "No 'tripe and keister' stuff ... it's strictly on the legit," says chute-sneer Otto Mattick, riding high on his rocketen tubojet. "I ain't just 'whistling Dixie' when I tell you that the Duluth-Superior Market is now America's 51st in Retail Food Sales. And you don't have to take it from me—it's a matter of record—that KDAL is the market's No. 1 station." Greater coverage! Even more audience! That's the KDAL Story in the nation's 51st Food Market. Why not put KDAL to work for you on your next campaign?

Avery-Knuodel can give you the full story of KDAL's increased coverage and top audience. Get it before placing your next campaign.

L. B. Wilson

WCKY

CINCINNATI

50,000 WATTS OF SELLING POWER
By WAYNE COY
Chairman, FCC (as Told to BROADCASTING-TELECASTING)
WHAT MUST have been one of the
heaviest concentrations of radio news
coverage in the history of broad-
casting marked the Indiana High
School Basketball Tour-
nament in Indian-
apolis on March 16.

There were 34 separate aural
originations and one for television,
feeling the play-
by-play simultaneously to a total of
50 AM and FM
stations and two television stations
out of Indiana's combined total of
70-odd.

By comparison, coverage of even
the biggest world news events ord-
inarly is handled by a relatively
small number of newsmen working
on a pool basis.

The use of 30 separate feeds from
the Presidential stand at Mr.
Truman's inauguration in 1949 was
hailed as an all-time record for
coverage from that vantage point
in the quadrennial event.

Radio Representatives
At the 15,000-seat Butler Field in
Indianapolis, where the 1950 tour-
nament was held, there were only
a few "pools." Two entire court-
length rows of seats were given
over to the radio newsmen and
their engineers. And the stations
were charged nothing for the privi-
lege, whether their broadcasts were
commercial or sustaining.

The unprecedented—or at least
rarely rivaled—demand for cover-
age was attributed to the various
station's insistence upon using
their own announcers. They had
covered the games all year, they
explained, and their listeners would
prefer to hear the home-town an-
nouncer do the job.

The Indiana Commissioner of
High School Athletics, L. V. Phil-
ips, accordingly opened the gates
for all stations. His only stipula-
tion was that, in deference to the
teen-age audience and the nature
of the broadcasts, there should be
no advertising of alcoholic bever-
ages for a half-hour before and a
half-hour after the broadcasts of
the tournament games.

Each station was allotted three
seats—one each for a play-by-play
announcer, a "color" man, and an
engineer.

There were three games—two
semi-finals in the afternoon
and the final at night.

In the first game Madison edged
Marion 50-49 in the last 10 seconds
of play. In the second Jefferson
High School of Lafayette defeated
New Albany 41-39 in an overtime
period with a shot that was in the
air when the final gun sounded. In
the final Madison downed Jefferson
34-30.

Originating stations included
New Albany High School's 10 w
WNAS, an educational FM station.

The television origination was
handled by WFBM-TV Indianap-
olis, which also fed WTTV (TV)
Bloomington.

The follow aural stations carried
the games (originating stations are
marked with asterisks, and all sta-
tions are in Indiana unless signi-
fi ed):

NAB STANDARDS
Mull Recording Additions
ADOPION of additional standards for recording, mainly in the magnetic tape field, will be considered April 15 by the full NAB Recording & Reproducing Standards Committee. The group will meet Saturday afternoon at the close of the NAB Engineering Conference in Chicago, according to Chairman Neal McNaughten, NAB engineering director.

The proposed standards will augment those adopted at the 1949 NAB convention after a year of work by nine project groups. The standards serve as engineering guides to manufacturers as well as recording engineers and audio specialists, and are a revision of the basic standards adopted in 1942.

New items for the standards will include tape reels, hubs and flanges. Uniformity will permit use of reels on all makes of equipment. Mr. McNaughten described these standards as steps toward complete standardization of tape recording methods, with all tapes playable on all kinds of reproducing equipment.

The Chicago meeting April 15, to be held at the Stevens Hotel, will be open to any interested persons whether NAB members or not. If additional standards are approved at the meeting they will be submitted to the NAB board for approval.

WINSTON JOLLY, assistant public relations director at WGN Chicago, becomes traffic manager and supervisor of announcers station. He succeeds RAYMOND TAYLOR [see Commercial].

CHARLES PAYEN, graduate of New England School of Radio, Bridgeport, Conn., joins WNIB Norwalk, Conn., as disc jockey.

LEE STEWART appointed to handle Hillybilly Frolic show on WHAT Philadelphia.

DIK DARLEY, KECA-TV Hollywood program assistant, promoted to post of director for station.

FRANK BADDERS, formerly with WEYV Covington, Va., joins announcing staff of WMBG Richmond, Va.

FELIX GRANT, disc jockey for WWDC Washington, takes over all-night Town Patrol show on station, replacing ALAN CUMMINGS, resigned.

PHIL BERLE, brother of Milton, joins KNRL (TV) Hollywood as producer.

RUTH STONE joins WIS Columbus, S. C., as member of program department replacing HELEN HILL, promoted to music director. VIRGINIA DOLAN joins station's continuity staff replacing BETTY FELLERS, resigned.

WALTER M. LUCE, staff member of WJAX Jacksonville, Fla., resigns, effective April 3, to rejoin WWPF Palatka, Fla., as disc jockey.

ERNEST IVerson, known to radio listeners as "Shin Jim," begins daily show on WCCO Minneapolis.

TED BYRON named script writer for KECA-TV Hollywood Mama Rosa series.

THOMAS J. CARSON Jr., formerly with WSAM Saginaw, Mich., joins staff of WJW Cleveland.

KAL ROSS, formerly with WPWA Chester, Pa., joins WPEN Philadelphia as disc jockey. Also joining station's staff in similar capacity are: LARRY BROWN, returning to WPEN from WJNY Newark; STU WAYNE, formerly with KYW Philadelphia, and SHIRI HORTON.

SHIRLEY SCHUTT transfers from ABC Hollywood continuity compliance staff to same staff at KECA-TV Hollywood.

VIRGINIA LEE MITCHELL joins continuity staff of KWK-St. Louis, replacing PATRICIA WALSH, resigned because of ill health. Miss Mitchell worked formerly at WTMF East St. Louis.

JOHN WAGNER, assistant auditor at ABC Hollywood, promoted to auditor. Except for three years service with Arny he has been with ABC and its predecessor the Blue Network since 1942.

LLOYD FRASER TWEDDY joins staff of WDTV (TV) Pittsburgh. He formerly was associated with WARE Ware, Mass., and WMNB and WMFM (FM) North Adams, Mass.

CHARLES Koon, formerly instructor in television scenic and costume design and associate art director of Pasadena Playhouse, Pasadena, Calif., joins KTTV (TV) Los Angeles as production manager.

BART BROWN, formerly of CKRC Minneapolis, and CHAT Medicine Hat, joins production staff of CKCK Regina.

BOB (Vaughn) GLASSBURN, cartoonist on Cartoon Circus, KRON-TV San Francisco, joins KRON-TV program department as animation director.

WALLY SHUBAT, formerly of CKPC Branford, joins CKYO Ottawa, as announcer.

JOSEPH W. CONN, director of operations for KTTV (TV) Los Angeles, named executive producer in program department. In new capacity he will oversee all directorial and production procedure.

WALTER PHILLIPS, disc jockey for WCPO Cincinnati, presented scroll by Patricia Stevens School of Models naming him "the disc jockey whose selection of music we most like to model to."

DON OTIS today (March 27) starts two-hour Monday through Saturday record and interview program, Don Otis Show, on KLAC Los Angeles.

HARRISE BRIN, co-star of KECA-TV Hollywood I'll Buy That, and BOB FINE, producer of TV show, were married March 15.

HOBART GRIMES, member of WBBM Chicago staff orchestra, is the father of a boy born March 17.

CAROLYN GILBERT, star of her own show on ABC-TV from Chicago, and James D. Fitzgerald have announced their marriage.

DAWS BUTLER, of KTLA (TV) Hollywood Time For Bonny show, is the father of a girl. Kathy Dawn.

BILL O'CONNOR, WGN Chicago sports announcer, is father of a girl. John.

MILT MITLER, director of programs for WTTW Coral Gables, Fla., and DONA DANE, of WTVJ (TV) Miami, have announced their marriage.

GEORGE M. CAHAN, KECA-TV Hollywood executive producer, and Allee Talton, actress, were married March 18.

Bank Heads Ala. Group
BERT BANK, WTBZ Tuscaloosa, has been elected president of the Alabama Broadcasters Assn., succeeding Howard E. Pill, WSFA Montgomery. Emmett Brooks, WEBJ Brewton, was elected vice president, succeeding Mr. Bank. Graydon Aymus, WUOA (FM) Tuscaloosa (U. of Alabama), was elected secretary-treasurer. Officers were elected at the spring convention held March 10-12. The association adopted a resolution commending BMI for its 10 years of service [Broadcasting, March 20].

World's Largest Square Dance
Clear Channel Home of the National Barn Dance

covers 25 states and Canada

(See 2nd Cover)
would be accomplished by executive agreement or some other procedure which would become binding without further ado.

When Senate radio leaders assured the agreement would not become effective without the Senate's consent, the protests which had mounted began to subside (BROADCASTING, March 13).

In other quarters, political pressures within Cuba were given the blame. Elections are slated in Havana in May to name a mayor—the second-ranking elective office, long regarded as a stepping-stone to the Cuban presidency—as well as Havana's representatives in the Cuban Congress.

Thus it was felt that in reversing their position on the proposed agreement and submitting Wednesday's counter-offer the Cuban radio authorities were acting in fear that otherwise they would incur the ill will of Havana radio station owners at a time when they need access to radio facilities.

The Wednesday proposal was rejected Thursday after lengthy conferences within the State Dept. and between State Dept. officials and Comr. Hyde. Mr. Hyde reported he and the other delegates considered the proposal unacceptable and insisted that, in their view, it would be useless to prolong the discussions.

**Butler-Prio Talks**

In a high-level attempt to seal the rift—which had become obvious two weeks earlier—U. S. Ambassador Robert Butler had conferred Monday with Cuban President Prio to make clear that the terms which had been tentatively agreed upon represented the maximum concessions the U. S. could make.

President Prio was said to have replied that the terms appeared to give Cuba fewer rights than she had under the NARBA Interim Agreement which expired last March 29. Cuba delivered its counter-proposal two days later.

**'Talking Magazine'**

PROGRAM directed at blind listeners will be started by WNEW New York, at the suggestion of a blind person. WNEW has obtained permission from leading magazines to read material on its program, bearing the name 'Talking Magazine.' Name actors will be used as readers. The program will be heard Monday, 10-10:30 p.m. Only two popular magazines are available in braille.

BOOKLET describing sound equipment produced by Cinema Engineering Co., Burbank, Calif., currently being distributed by company.

**SHOW PRIZE EXCHANGE**

Robbins Proposes Trade of Spots for Products

EXCHANGE deal by which stations would pay for program prizes on a due-bill basis is proposed by Richard S. Robbins, merchandise consultant, 551 Fifth Ave., New York.

In a letter to stations, Mr. Robbins says the usual air mention or quiz programs is no longer "feasible." His fee for prizes is 15% of the retail value, payable as soon as shipment is received, he states.

Describing the plan, he declares that in exchange for prizes you would give that manufacturer an equivalent value in spot announcements at your prevailing station rates, over an agreed period of time. The manufacturer would supply you with the copy he wished used or with transcription records, and affidavits of air time would be sent to him just as in a regular transaction.

"The manufacturer has the right to specify Class A or Class B time, but the actual hour in that class would of course be determined by the station. This is being done already on about 200 stations and being utilized by national manufacturers who would not otherwise buy time on these local stations. If you wish to receive prizes on this basis, send your letter of confirmation and your rate card, and we will add your station to the list which we are presenting our clients."

Among new per inquiry projects reported is one offered stations by Lincoln Loan Service Inc., Pitts-

**SOUTH BEND IS A MARKET—
NOT JUST A CITY—AND**

**WSBT COVERS IT ALL**

South Bend is one of the biggest, richest, and most responsive markets in America. Its heart is two adjoining cities—South Bend and Mishawaka—with a combined population of 157,000. The entire South Bend market contains more than half-a-million people. In 1948, retail sales were over half-a-billion dollars!

WSBT—and only WSBT—gives you thorough coverage of this great market. Plus this, the rest of WSBT's primary area gives you an additional million people whose retail purchases in 1948 amounted to $911 million.

You need the South Bend market. You get it—all of it—only with WSBT.
MORGAN NAMED
Is Senate Probe Legal Head
EDWARD P. MORGAN, an attorney practicing before the FCC, will head up the legal staff of the Senate Foreign Relations subcommittee looking into Sen. Joseph R. McCarthy's (R-Wis.) charges of alleged disloyalty by certain State Dept. personnel.
Mr. Morgan, a member of the Washington law firm of Welch, Mott and Morgan, and also member of the Federal Communications Bar Assn., has been appointed special counsel for the subcommittee by its chairman, Sen. Millard E. Tydings (D-Md.). In that capacity, Mr. Morgan will serve as legal advisor and direct the investigation and hearings dealing with accusations.

A former chief inspector of the FBI in Washington before joining the law firm three years ago, Mr. Morgan has served as associate counsel of the Joint Congressional Committee investigating Pearl Harbor.

Native of St. Louis, he received his BA and MA degrees from Maryville State College, Maryville, Mo., in 1934 and 1936 respectively, and his LLB and LLM from Georgetown U. in Washington, in 1939 and 1942.

RICHARD H. GORDON, executive vice president, elected president of World Video, New York. He succeeds HENRY S. WHITE, who joins CBS-TV March 27 but retains stock interest. JOHN STEINBECK remains vice president. WALLACE A. ROSS, publisher of Ross Reports, elected sales director. He acquires stock interest in firm.

J. DONALD WILSON, formerly ABC New York vice president in charge of radio and television programs, joins Don W. Sharpe, Beverly Hills, Calif., radio and television packager. He will supervise production for firm.

WORLD BROADCASTING SYSTEM announces extensions of contracts for its service by WLPO La Salle, Ill.; WJJC Ft. Wayne, Ind.; KTGW Emo- ria, Kan.; WDLB Panama City, Fla.; WBKB (TV) Chicago; WTMV East St. Louis, Il.; KIMV Hutchinson, Kan.; WPFC Somerset, WSON Henderson, WVJS Owensboro, all Ky.; KMLB Monroe, La.; WFBR Baltimore; WOOD Grand Rapids, Mich.; WKE St. Louis and EKGL Billings, Mont.

RAY RICE publicity office moves to 150 East 50 St., New York. Telephone: ELorado 5-0426.

HERALD BECKJORDEN, former vice president in charge of research for AAAA and member of executive staff of Market Research Co. of America, joins Fact Finders Assoc. Inc., New York, as senior research associate.

VIDEO SCRIPT SERVICE Inc., syndicated script program service for independent television stations and advertising agencies, formed in Hollywood. Offices are at 6381 Hollywood Blvd. Principals are BOB STOCK, formerly program promotion director of Don Lee Broadcasting System, LEROY E. STOCK and DAVID J. Sachs, ROBERT LEDER is New York representative with offices at 366 Madison Ave. Firm offers service for payment based on per show percentage of station's rate card.

NATIONAL SAFETY COUNCIL announces film, "Easy on the Eyes," available from council in 35mm sound slides and for 16mm sound motion projectors.

HAROLD HIGGINS Co. opens offices in Guaranty Bldg., 6253 Hollywood Blvd., Hollywood, to handle special promotion projects for RCA and its subsidiaries. He was formerly with Adolph Wenland & Assoc., Los Angeles advertising agency.

HENRY A. GILLESPIE, DAVID B. ROEBERS and THOMAS M. DAVIES appointed southeast, central and southwest field sales representatives, respectively, for RCA's Thesaurus.

ASSOCIATED PROGRAM SERVICE, New York, has prepared "Associated Program Manual," booklet made up of merchandise, program notes and promotion-publicity sections. Service is given to subscribers. Firm announces three new shows featuring Vic Damone, Mindy Carson and Evelyn Knight. Shows are 15-minutes, three weekly. Westminster Choir of Westminster College signed to record exclusively for firm's library service.

Equipment

R. C. DOVE, with RCA Victor for past four years, and H. Y. SOMERVILLE, with company since 1929, appointed operating assistant to vice president and technical assistant to vice president, respectively.

HENRY GOLDSMITH named national sales manager of Jackson Industries Inc., Chicago. He will supervise all advertising and promotion. He has worked for Jackson Industries for the past six years.

NORTH-AMERICAN RECORDING Co. moves to new Chicago address, 100 E. Ohio St., Room 456. Telephone: DELaware 7-1644. GEORGE TASKER is manager.

RCA (Laboratory Division) sets up industry Service Laboratory at 1500 N. Vine St., Hollywood. New lab will offer clinical engineering service to manufacturers and others licensed by RCA.

GEN CITY APPLIANCE Co., Dayton, named distributor of Stewart-Warner radio and television products in seven Ohio counties. URBAN F. GOCHER is president and treasurer.

'MERCY' TRIAL
Covered by Granite Network

EXTENSIVE radio coverage of the so-called "mercy killing" trial of Dr. Hermann N. Sander, 41-year-old Candia, N. H., physician, who was acquitted of first degree murder March 9, has been reported by the Granite State Network.

With fulltime broadcast lines into the Manchester courthouse, the network reported it went on the air three times daily with resumes by Norm Bailey of trial testimony. The programs were heard over the network's WKB-B, Manchester, WTSV Claremont, WTBW Nashua and WWNH Rochester.

In addition to straight news broadcasts, Mr. Bailey also interviewed members of the press, both from this country and abroad, who were assigned to cover the trial. Connie Stackpole, the network's home economist, interviewed prominent women visitors including Novelist Fannie Hurst. After the "not guilty" decision was made known, interviews were made with Dr. and Mrs. Sander and the prosecute and defending attorneys, the network reported.

BROADCASTING activities of WHB New Britain, Conn., are extended to 24 hours per day.
**CENSUS**

Advertising's role in plans for the forthcoming 17th decennial census, slated to get underway next Saturday, were detailed last week by the Advertising Council in New York City.

Simultaneously, Dr. Roy V. Peel, newly-confirmed director of the Census Bureau, outlined major highlights of the census project which includes provision for radio and TV set counts in living units throughout the U.S. Dr. Peel held his first news conference at council headquarters Wednesday.

Radio and television campaigns get away officially today, with spots to be aired by the four major networks and by individual stations throughout the country. The next three weeks census radio announcements are part of the council's network regional or spot allocations plan.

**TV Plans**

Filmed 20-second announcements, prepared by Benton & Bowles Inc., which volunteered to handle all material for the census advertising phase, are being made available to TV stations. Prop material includes sample forms used by census enumerators, their identification cards and photographs of American towns and cities. In addition, census-takers are available for guest appearances on TV programs. Radio-TV material stresses that all data given enumerators is "confidential."

The council's census campaign, initiated in mid-March in newspapers with use of mats and other materials, will continue until mid-April.

"By explaining to Americans the need to answer willingly and truthfully the census-takers' questions, radio can help make the 1950 census more accurate and hence more useful," council officials stated in describing the campaign as "vitally important to the public interest."

Dr. Peel expressed hope that 140,000 census enumerators throughout the country would extend the count on radio and TV sets to each dwelling unit rather than on a sampling basis. Set figures, and especially breakdowns, may not be available before next year, he added.

A television training program, to be conducted by the Navy in New York, will train some 150 enumerators in the techniques of census-taking, Dr. Peel noted. He said that while the program would be launched merely as "an experiment" at this time, its adoption by the bureau eventually would result in huge savings.

**Stanley E. Baldwin**

STANLEY E. BALDWIN, 68, a founder and first manager of WTAM Cleveland, then owned by the Willard Storage Battery Co., died March 19 in Cleveland. Mr. Baldwin joined Willard in 1920 and was its advertising manager when he and two others founded the station, operating it on storage batteries. From 1930 until his retirement in 1947, he served as Willard's director of merchandising.
Lauds Farm Story

EDITOR, BROADCASTING: ... A fine job of telling the story of the National Farm and Home Hour [BROADCASTING, Feb. 27]. We have received many favorable comments. ... Thanks very much for this excellent treatment ...

Happy With Day-Only

EDITOR, BROADCASTING: WEO2 has made money every week since going on the air — so we'd rather you ask Mr. Suggs (WMGY) to speak only for himself when he talks of daytime stations losing money [Open Mike, March 6]. We're happy with the FCC, the NAB and all other commissions and organizations with which we are affiliated or do business. It's our thought that station owners would do much better to concentrate on programming and sales rather than spending so much valuable time getting angry with this person or that organization.

We appreciate our daytime only franchise. We wouldn't want a fulltime station in this TV infested area. After doing a good radio broadcasting job during the day we like to go home at night and watch our favorite TV program on one of the seven TV channels available to us.

In our area the folks have radio ears daytime — and TV eyes nighttime. WEO2 is going ahead with the business of informing and entertaining our listeners and getting topnotch results for our advertisers who pay us more than enough money to make ends meet.

Put us on the list of those who appreciate our daytime only license.

H. W. Cassill
President
WEO2 Poughkeepsie, N. Y. * * *

WCON Profitable

EDITOR, BROADCASTING: Your article, “Cox-Howell merger” [BROADCASTING, March 20], stated: “It is understood the radio properties barely broke even in 1949.” In the preceding paragraph you stated: “WCON began in 1947, and is managed by David Carpenter.”

WCON had a very profitable 1949. With allowances for the cost of special engineering, the station compared favorably with any in its class in the South.

I came here in August 1947 and have hired every person on the staff. We have more local and Atlanta-placed regional business than any other Atlanta station.

The February Hooper Share of Audience shows that we lead all stations in the morning and are showing steady improvement in all other periods. We have built and sold more live shows than this town’s seen in many a day.

David Carpenter
General Manager
WCON Atlanta, Ga.

[EDITOR’S NOTE: BROADCASTING regrets the inference that WCON was not a money-maker. It’s understood the station did in excess of a half-million-dollar gross in 1949, with net in the $50,000-$50,000 category, exclusive of heavy AM engineering expenses and installation of TV plant and equipment.] * * *

WSSV’s Thespians

EDITOR, BROADCASTING: In your March 20 issue of BROADCASTING, on page 46, you mention a Little Theatre production in Portsmouth, Ohio, in which three members of WPA-Y-1-PM were featured. Well, we can go them one better: Little Theatre production of “George Washington Slept Here” in Petersburg, Va., featured Paul Hennings, program director; George Lund, announcer; Gilbert Keys, copywriter; and James Lowell, promotion director, all of WSSV that city.

There you have four — who’ll make it five?

James Lowell, Promotion Director
WSSV Petersburg, Va. * * *

Defends ‘Read’

EDITOR, BROADCASTING: Mr. Norman Lasserter’s letter of your March 15, Open Mike in which he verbally chastises (and how!) the luckless announcer who asked his audience, “Did you READ about the Leopard,” certainly has a point — but there are exceptions. Some 535 AM stations are owned or operated by newspaper publishers. It is hardly reasonable to expect the announcers of these stations to completely eschew that word “READ.”

John F. Cleggett
Clagett & Schulz
Washington.

KNX-CPN CHANGES

Realigning Sales Staff

REALIGNMENT of KNX Hollywood and the Columbia Pacific Network sales staff will become effective between April 1 and April 15 according to an announcement by Merle S. Jones, general manager of KNX, and Wayne R. Steffner, CPN sales manager.

Ole G. Morby, CPN account executive in San Francisco, transfers to KNX-CPN headquarters in Hollywood, with Clark George, KNX-CPN account executive transferring to San Francisco to handle network sales there. Arthur W. Mortensen, CPN merchandising manager, and Frank Orth, formerly KPHO Phoenix sales manager, joins KNX-CPN sales staff. No replacement has been named yet for Mr. Mortensen.

OLYMPIC Radio and Television Inc., Long Island City, N. Y., reports its net sales of television and radio receiving sets in 1948 were almost three times those of 1947 and that net income after provision for federal income tax was $578,163.

(Letters are welcomed. The editors reserve the right to use only the most pertinent portions.)

187,980 families come to the biggest show in Central Ohio

The latest BMB report shows that WBNS has 187,980 families who listen to this station . . . a gain of 24,430. Just another indication that every day more and more central Ohio listeners tune to WBNS for entertainment, news and information. That's why WBNS delivers greater selling power for less money.

last half of Arthur Godfrey Talent Scouts simulcast on CBS and CBS-TV. Ruthrauff & Ryan, New York, is agency for Frostee. Young & Rubicam, New York, handles other Lipton products.

MILES LABS, Elkhart, Ind. (Alka Seltzer, One-A-Day vitamins), starts alternate-week instead of weekly sponsorship of Quiz Kids on NBC-TV (Fridays 7 to 7:30 p.m. EST) starting June 2 for June, July and August. NBC expected to keep remainder of show sustaining. Miles plans to return to weekly schedule in fall. Agency: Wadle Adv., Chicago. Miles Labs, also Ind., through W.Wade renewal showmanship of Monday, Wednesday and Friday broadcasts of Edwin C. Hill, ABC news commentator, heard Monday-Friday, 7-7:05 p.m. EST. New schedule is for 22 weeks and is effective April 3.

PETER PAUL, Inc., Naugatuck, Conn. (candy), will begin sponsorship April 15 of Buck Rogers over 19-station ABC-TV network, Saturday, 7-7:30 p.m. (EST). Initial contract is for eight weeks. Agency: Mason Inc., New York.

Adpeople

R. M. BUDD, with Campbell Soup Co., Camden, N. J., for 25 years, appointed to newly created position of general advertising manager. H. M. STEVENS, formerly with Lever Bros., appointed advertising manager of soup, and J. R. JOHNSON, formerly assistant to advertising manager, appointed advertising manager of Franco-American products.

FRANK M. ROGERS appointed sales manager of Elgin American, Div. of Illinois Watch Case Co. He has been with company since 1945, and assistant sales manager since 1947. Firm places business through Russell M. Seeds Agency, Chicago.

LEE PHARMACAL Co. combines with OGILVIE SISTERS, hair beauty products company, to form OGILVIE SISTERS-LEE Inc., which will produce new home permanents and help Lee Pharmaceutical also will be exclusive retail sales agents for all Ogilvie Sisters products. JOHN A. ROOSEVELT is president and RAYMOND LEE, chairman of board of Pharmacal Co. Advertising agency to handle new product not yet appointed.

ROBERT G. SPEARS, formerly product manager of Standard Brands Inc., appointed vice president and general manager of Jelte Good Luck Products Div., Lever Bros.

WFIL Cuts
(Continued from page 20)

vertising medium. WFIL's new rate structure is based on this thinking."

In the meantime, the station announced it has completed a move to strengthen WFIL's nighttime radio schedule while attracting new business. This has been done, Mr. Clipp said, by revising the evening program lineup and scheduling a number of "low-cost transcribed shows" providing increased revenue for the station and giving large savings for the sponsors.

To make room for the low-budget packages, Mr. Clipp said, the station discontinued about six hours of local and network sustaining broadcasts weekly. Only two of the 12 newly-scheduled programs remain unsold, he said.

PACIFIC GROUP

XL Stations Meet at Spokane

PACIFIC Northwest Broadcasters, which is comprised of the eight XL stations, held its second meeting of 1950 in Spokane March 18-19. All of the XL stations were represented except KXLE Ellensburg, Wash.

Managers attending were: Ernie Neath, KXLQ Bozeman, Paul Hatton, KXXL Great Falls, Barclay Craighead, KXLJ Helena, Arne Anjorn, KXXL Butte, Pat Goodover, KXLL Missoula, all Montana, and Bryan Woolston, KXLY Spokane, who acted as host. Also present were Jimmy Hunt, sales manager of KXXL Portland, Ore.; Tracy Moore, West Coast sales manager, and Ed Craney, manager of Pacific Northwest Broadcasters. Between business sessions, the members visited Sears Farm Store where KXLY helped conduct a three-day sale.

PEGGY LEE (3d I), songstress and author of hit tunes, who got her start at WDAY Fargo, N. D., in the late 30s, and her husband, Dave Barbour (4th I), are greeted at the airport on their arrival to pay a visit to WDAY. The group includes (1 to r) Ken Kennedy, WDAY programmer; Mrs. Kennedy; Peggy Lee and Mr. Barbour; Earl C. Reinke, president and general manager of WDAY; Mrs. Reinke; Bill Moher, WDAY announcer, and Glenn Flint, news editor.

SLADE, formerly writer and producer with KSTP-AM-TV St. Paul, and before that with WBBM Chicago and WWJ Detroit, also joins radio-TV staff of agency.

GARRETT E. HOLLAHAN joins San Francisco office of Brissac, Wheeler & Staff as radio-TV director. He was formerly commercial program director for KARM Fresno, Calif., and before that radio director of Beverly Hills office of Lever & Mitchell, producer at ABC New York, radio director of Chicago office of Erwin, Wasey & Co. and assistant to vice president in charge of program department of World Broadcasting, New York.

RUTH SMITH, formerly with Knox-Reeves, Minneapolis, joins copy department of Kenyon & Eckhardt, New York.

ROBERT SHELER of Young & Rubicam Inc., New York, is in Hollywood in connection with filming of Silver Theatre television series at Jerry Fairbanks Inc.

MAURICE LIONEL HIRSCHE, St. Louis, elected to membership in American Assn. of Advertising Agencies.

WASSER, KAY & PHILLIPS Inc., Pittsburgh, moves to new offices in Clark Bldg., effective April 1. Company was formerly Pete Wasser Co.

RRN RELAYS
Permits FM Quality—Hanna

RURAL RADIO (FM) Network in New York is operating the largest radio-relay broadcasting network in the country, Michael R. Hanna, general manager of RRN and of WHCU-AM-FM Ithaca, N. Y., said last week.

The operating efficiency and standards of the system—which conveys regular programming to 11-station network using only radio relays—"permit the entire capabilities of FM quality to be realized," Mr. Hanna said.

His statement on the technical worth of the radio-relay system was made to clarify reports last week in BROADCASTING, that a projected deal for the RRN to carry broadcasts of Yankee baseball games had fallen through because the Yankee management had questioned the practicability of radio-relay feeds.

The Yankee question did not arise in respect to the technical competence of radio relay. What the baseball officials had questioned was whether it might not be more desirable to use lines which could carry closed-circuit information to participating stations preceding the games. Radio-relay, of course, does not permit closed-circuit distribution.

WFDM DEDICATED

Formal Ceremonies Are Held

FORMAL dedication of WFGM Fitchburg, Mass., was held on Feb. 25, 10 days after its opening broadcast day. Ceremonies featured a dedicatory broadcast and open house. Speakers included State Senator George W. Stanton, Mayor Peter J. Levanti and Police Chief Carlisle F. Taylor, all of whom were introduced by Program Director Edward J. Penney. Owned and operated by the Wachusett Broadcasting Co., WFGM is assigned 1 kw daytime on 1380 kc.

announced [Broadcasting, March 20] a talk by Maurice R. Mitchell, director of Broadcast Advertising Bureau. His topic is “Selling the Program,” and will be included in a discussion on development of new program resources. Final event Sunday afternoon will be a sports clinic with Pat McDonald, WHHM Memphis, as director.

Tentative agenda for the Monday morning meeting, to be chaired by Matthew H. Bonebrake, KOY-FM Oklahoma City, chairman of the FM Committee, includes Howard Long, WJJD Chicago and Field Enterprises Inc. and retiring NAB board member, on “Functional Music”; Chet L. Thomas, KXOK St. Louis and president of Transit Radio Inc. on “Transit Radio—A Retail Medium”; Stanley Joseloff, president, Storecast Corp. of America, on “Advertising’s Biggest Challenge to Radio and How FM Will Meet It”; Mr. Bonebrake on “FM Networking”; Edward A. Wheeler, WEAW Evansville, III., on “FM’s Special Services, How to Use One or All.”

Duplication Question

Merrill Lindsay, WSOY Decatur, Ill., retiring NAB director for small stations, will discuss “Why I Duplicate.” Robert Dean, KOTA Rapid City, S. D., will take the opposite position and discuss “Why I Don’t Duplicate.” Winding up the FM meeting will be an FM panel including Messrs. Lane, Thomas, Dean, Joseloff, Lindsay and Bonebrake; Everett L. Dillard, WASH (FM) Washington, retiring NAB board member for FM; Frank U. Fletcher, WARL-FM Arlington, recently re-elected a NAB board member for FM; Victor C. Diehm, WAZL-FM Hazelton, Pa.; Josie Horne, WCEC and WFMA (FM) Rocky Mount, N. C.

Convention week opens Wednesday, April 12 with registration for the annual NAB Engineering Conference [see Broadcasting, March 13, for complete agenda]. Winding up the engineering meetings will be the annual NAB-FCC Roundtable. The annual equipment exposition in the lower level of the Stevens will open April 13, with light equipment to be displayed on the “Magical Fifth Floor.”

Principal Management Conference speakers will be Carlos Romulo, UN General Assembly president; Paul G. Hoffman, FCC administrator; Herman W. Stein- kraus, U. S. Chamber of Commerce president; Wayne Coy, FCC chairman; H. E. Babock, director of Acme Mfg. Corp. and widely known farmer, businessman, educator and author. Theme of the Management Conference is “The American Broadcaster’s Responsibility in the World Today.”

COINAGE PLAN

Propose 2½, 7½ Cent Pieces

PROPOSED minting of 2½ and 7⅛-cent coins met mixed reception last week at a hearing before a Senate Banking & Currency subcommittee, which is considering a series of bills. Fate of the proposal is of unusual interest to several major radio advertisers dealing in soft drinks and other low-priced products.

Edward Walsh Mehren, Beverly Hills, Calif., appeared on behalf of the American Institute for Immediate Coinage, of which he is chairman. He also is president of Squirt Co., Beverly Hills soft drink manufacturer.

Mrs. Nellie Taylor Ross, director of the U. S. Mint, opposed the plan and said every cash register would be outmoded. No condition now exists which would justify such coins, she testified, adding “How would you make change for a 3-cent stamp if you paid for it with a 7½-cent piece.”

Change Reply

In reply, it was explained that this change could be made with two pennies and a 2½-cent piece.

Mr. Mehren explained the institute is a non-profit organization backed by a number of business and industrial leaders. Soft drink purveyors, he said want to raise prices but the public doesn’t like to pay two coins for a drink and the next step above a nickel is a dime.

Inflationary trends since World War II have aggravated the need for intermediates, he said, suggesting effects of inflation “will remain with us in the establishment of a permanent new economic base.” He declared the new coins will eliminate waste in the distribution process and promote efficiency.

A saving of $5 billion to $8 billion a year is possible, he said. In the case of the 20 billion bottles of soft drinks sold annually the public would be saved $516 million, he said. Similarly savings were cited for beer and coffee as well as transit services. Other savings would be found in sales and luxury prices as well through split-cent pricing, he contended.

Heating on the coinage pro-

Bigger by 120,590 (18.5% MORE) listening families in the daytime and 112,780 (16.1% MORE) listening families at night than in 1946 . . .

WFIL is the only Philadelphia network station to show audience gains both day and night in BMB’s 1949 survey.

WFIL has increased its actual listening audience by half a million people—both day and night—since 1946. Progress with Philadelphia’s most progressive station. Right now, in 1950, WFIL will work night and day to carry your sales message to the largest BONUS AREA in BMB’s Philadelphia Report.

Better Buy WFIL . . . A BETTER BUY THAN EVER . . .

GoV. Herman Talmadge of Georgia (r) congratulates Frank White, president of MBS, after Mr. White received a commission as lieutenant-colonel on the governor’s staff. The presentation was made March 17 when Mr. White was in Atlanta to conduct a meeting of MBS affiliates.

posals were completed Thursday by the Senate subcommittee. Further support of minting the odd-denomination coins was expressed. Objection was voiced by the U. S. Independent Telephone Assn., finding the coin system not practical for telephone industry uses.

Juke Box Officials

The juke box interests, represented by J. W. Haddock, of AMI Inc., Grand Rapids, Mich., and Edward H. Renner, of the Northern Virginia Music Co., of the 7½¢ piece would aid them in combating high cost factors in their industry.

MUTUAL BASEBALL

Florida Group Heats White

EXECUTIVES from 10 Mutual affiliates in Florida have met with the network’s president, Frank White, to hear details of the proposed MBS major league baseball broadcasts. The session was held March 20 in Ft. Pierce.

Mr. White, accompanied by E. M. Johnson, Mutual vice president, and Charles Goodwin of its station relations department, outlined the background for “Game of the Day” broadcasts which start April 18 [Broadcasting, March 13]. The trio also presented a general discussion of sales techniques for local cooperative sponsorship of the games.

Arrangements for the event were handled by Doug Silver, co-owner-manager of host station WIRA Ft. Pierce, O. H. Peacock, co-owner of WIRA, took the Mutual officials deep sea fishing on his yacht the following day.

Those attending the session included:

Mr. Silver, Kingsley Butt and Frank McDowell, WIRA Ft. Pierce; Reggie Hooper, ECA, WPBB Jacksonville; Robert S. Taylor and Ted Covington, WONN-L, Cleveland; A. Frank Kattzene, WKEJ Miami Beach; T. S. Gilchrist, WMTC Orlando; Jack Faulkner and Herb Anderson, WTPR St. Petersburg; Joseph S. Field, WHOK West Palm Beach; Larry Rollins, WSIR Winter Haven.

SIXTEEN CBS network shows per week have been switched from New York to Washington, bringing total of Washington CBS origination to 30, aired from WTOP studios after April 3.
Richards Probe

(Continued from page 24)

he labels his opinions as such."

In response to Mr. Fulton's demand that he produce complaints received by KMPC from listeners, which he was unable to do, Mr. Roberts said he believes news can be cleverly "slanted" so that listeners would not be aware of the fact and the thought desired "subconsciously registered in their minds."

Further Revelation

Under cross-examination, Mr. Roberts said that in direct opposition to Mr. Richards' instructions, David Lilienthal and Bernard Baruch were not always given the worst end of the deal in his broadcasts.

Objecting to what he termed Mr. Fulton's attempt to "smear" Mr. Roberts, FCC chief counsel said the newscaster was not on trial and was not the complainant in the cause. Radio News Club was, he reminded.

At the conclusion of Monday's hearing, Mr. Fulton questioned the newsmen about files purportedly belonging to Mr. Richards, and cautioned that if he had certain papers, it was illegal and criminal.

Charges by Mr. Ford that Mr. Roberts was being "intimidated" and "impeached" by defense counsel highlighted the Tuesday session.

This developed when Mr. Fulton proposed that FCC chief counsel join him in requesting an official investigation into possible perjury, theft of documents, fraud and false statements before a federal agency by Mr. Roberts.

Mr. Roberts said he believes news can be cleverly "slanted" so that listeners would not be aware of the fact and the thought desired "subconsciously registered in their minds."

Davis Co. Issue

Under further questioning, Mr. Roberts testified that he was aware of the current Davis Co. probe and that he was also "cooperating with the district attorney."

"Then," said Mr. Fulton, "I now invite counsel for the Commission to join me in asking the examiner to send to the district attorney of Los Angeles County a transcript of all Mr. Roberts' testimony for investigation of possible perjury in this proceeding, possible theft of documents, possible fraud, and possible violation of federal statutes against making false statements in a matter within the jurisdiction of a federal agency."

Mr. Ford angrily rejected the invitation, charging this action was an "attempt to smear the witness."

"This is slander in cross-examination," he said. "Counsel has announced he is trying to influence this witness and he has had five days to do it."

Charges Intimidation

At Mr. Fulton's request that Examiner Johnson send a transcript of Mr. Roberts' testimony to the Los Angeles County district attorney, Mr. Ford again exclaimed:

"Counsel is trying to intimidate this witness. This is highly improper. I object to this motion and move it be stricken from the record."

Mr. Fulton again interrupted with an offer to strike out any Mr. Roberts' testimony so that the Commission "won't be in the position of vouching for this witness."

More words followed between Mr. Fulton and Mr. Ford when Mr. Richards' counsel claimed scripts introduced by FCC were property of the station. Mr. Fulton, after securing them for use in questioning, refused to return them to Mr. Ford unless it was specified they belong to KMPC and should remain in his possession when not being used by the FCC examiner.

Mr. Ford, however, said he was unable to give an answer to Mr. Richards' claim of ownership of the scripts returned to Mr. Ford with a stipulation that both parties should have free access to all records at all times.

Personal Criticism

Mr. Roberts during earlier cross-examination admitted he expressed personal criticism of the Republican controlled 80th Congress in 1948, "contrary to Richards' orders." He also said he praised the Republicans when he felt they were right.

Beginning a brief redirect examination of Mr. Roberts, FCC chief counsel was sustained in a motion to strike from the record Mr. Fulton's motion that the witness be investigated for perjury. Under redirect examination, Mr. Roberts read broadcasts he made concerning Gen. Douglas MacArthur for which he claims to have been fired from KMBC because they were not wholly complimentary in accordance with Mr. Richards' orders.

Lauds Richards Stations

COMMENDATION of the public service achievements of the G. A. Richards stations was voiced in a March 16 letter to FCC Chairman Wayne Coy from Clyde A. Lewis, national commander-in-chief of the Veterans of Foreign Wars. The letter, in part, stated: "The three stations, particularly WJR at Detroit have always given exceptional public service support to the patriotic and Americanism projects of the VFW. . . . It is my opinion that stations are judged by the public service they perform, rather than the private utterances and notes of the principal stockholder."

Sets Near 89 Million

(Continued from page 19)

of factories not members of RMA, the total number of FM sets produced as of the present date to be over 5,000,000. This total includes TV sets with FM-band tuners.

In the joint NAB-RMA analysis it was found that 14,500,000 radio and television sets were purchased in 1949. Home radio sets accounted for 7,556,000 of the total, with another 3,964,000 auto radios and 2,584,000 TV sets. The sales figures, of course, are below the actual factory production which consisted of 7,456,000 radios and 3,029,000 TV receivers, with differences accounted for by dealer-distributor stock.

Last year 78% of all cars manufactured were equipped with radios, a total of 3,964,000 sets that went into autos.

Average for '48-'49

Average number of radio sets, including TV, was 1,70 per home at the end of 1949, the same average as that found for 1948. The ratio of auto sets to homes hit a peak of 88% in 1947 before dropping to the 78% figure for 1949. However, a million more auto sets were turned out in 1949 than in 1947.

In the process of compiling the NAB-RMA figures, it was found that some unofficial estimates of the total number of radio homes had been based on misunderstanding of U. S. Census Bureau data.

The Census Bureau estimates there were 42,849,000 families in the United States as of Jan. 1, 1950. It figures that 95% of these families have radios, a total of 40,701,000 radio homes. The bureau's estimate of radio homes in 1948 was 94.2% of homes.

Radio-home estimates ranging as high as 42,000,000 are believed to have been computed on a Census Bureau estimate of 45,000,000 housing units, but this 45,000,000 figure covers all dwellings whereas only 42,849,000 are actually occupied by families.

The Federal Reserve Board estimates there are $6,000,000 "spending units" in the United States, compared to 42,849,000 families, but this spending unit figure is based on the number of persons who earn income and does not allow for families having more than one wage earner, according to board officials.
Dwindling returns casting a shadow?

See Daylight with Du Mont Daytime Television

Move to the sunny side of the street with Du Mont Daytime Television—modest in time and talent costs, ostentatious in results. Daytime television is Du Mont's baby. And Du Mont can show you how to apply it locally or on a network basis, on budget appropriations you can look at without wincing.
What's New in Television? Take a Look at WPTZ!

**Hollywood Playhouse**

_the Newest and Most Economical Buy in Television_

THANKS to “Hollywood Playhouse”, Philadelphia area television families are watching a full length, feature movie every afternoon. Naturally, it’s on WPTZ—another Philadelphia first on Philadelphia’s first station.

The 700 or so theatres which run daily matinees in our area attest to the fact that Philadelphians like movies, day or night. And a review of Pulse over the past year shows that feature films on television have averaged a rating of 17.3.

Musicals, detective stories, comedies, dramas now are served daily in thousands of television homes via, WPTZ at 2:00 o’clock. Philadelphians like movies and “Hollywood Playhouse” is your calling card to these thousands and thousands of customers.

We don’t mean for one visit a day, or two, or three, but six messages each day—all for the price of a single participation! Yes, it’s WPTZ’s new six-for-one “Hollywood Playhouse” package. It’s hour long coverage for the cost of a spot! It’s the newest and most economical buy in television.

For full information on this “plus” program, drop us a line here at WPTZ or see your NBC Spot Sales representative.

WPTZ FIRST IN TELEVISION IN PHILADELPHIA NBC
COLOR WINDUP

HOPES that FCC may complete its contentious and protracted color television hearing not later than mid-April arose last week as these developments brought the presentation of direct testimony near an end:

- Development of a color set which will receive RCA color transmissions and, without additions, may also receive transmissions by the Color Television Inc. and CBS systems was reported by FCC Commissioner Robert F. Jones. He said he had seen such a set but did not say where.
- CBS President Frank Stanton called for a "clean-cut decision" on color "at the earliest possible moment," promised to be airing 20 hours of color weekly within three months after a decision adopting CBS standards, and foresaw a possibility of almost 100% colorcasting in two years. He opposed multiple standards on grounds that public and industry confusion would result and color might be delayed.
- President Joseph H. McConnell of NBC, RCA subsidiary, said NBC would increase its present 8-hour-week schedule of Washington colorcasts to 12 hours a week "immediately" if the RCA system is adopted, and would be networking at least 18 hours a week a year later.
- The outlook for cross-examination dropped from a total of about 30 hours to a little less than 20 when CBS announced it will waive cross-examination altogether. FCC cancelled this week's sessions, but it was hoped direct testimony would be completed early next week if not in last Friday's sessions (see late story page 86), with cross-ex-

NBC's President McConnell at FCC's color TV hearing.

HARPER DEFENDS TV

TWO CURRENT appraisals of television—that it is suited only for "big-time" advertisers willing to meet "high price tags," and that its market coverage is "too thin, too sectional"—were challenged last week by Marion Harper Jr., president of McCann-Erickson Inc.

Stressing television in a general media discussion last Thursday before the Radio Executives Club at the Hotel Roosevelt, New York, Mr. Harper found little support for either thesis, which he denied on the basis of other media histories and TV's history established marketing accomplishments.

"To the contrary, indeed, there seems every indication that TV is now and will continue to be a strong, valid, new kind of medium qualified . . . for the use of practically any advertiser," Mr. Harper asserted, adding that some observers tend to overlook TV's potential impact.

He cited McCann-Erickson's list of 23 TV clients whose budgets range from $14,000 to over $1 million, and noted that "each of these advertisers is in this medium to accomplish a marketing advance."

He observed further that each uses TV with other media and that most of them can show "good money's worth in sales results."

Mr. Harper coupled his challenge with a plea for more and better media sales case histories in support of his contention that all media can be properly measured only "in the nude" though they are usually seen only "when dressed to kill." His subject was "the naked medium," which he described as "the net, clear demonstrable ability . . . to bring home the kind of bacon the purchaser lives on."

Television is especially suited to take the lead in development of concrete data because it is sharply sectional and homes within any area are readily located to make possible "matched samples" of those homes. This is no longer possible in radio, he added.

He concluded, "until the 'naked medium' itself can be seen and appraised, neither media seller nor media buyer has lived up to his obligation. . . ."

Connell would concede the existence of a workable "combination" set which, as Comr. Jones described it, is based on the RCA system and will also receive CTI color and reportedly may be arranged to receive CBS color—all with no additions to the equipment needed to receive RCA color.

When Comr. Jones asked the CBS president whether he would accept his word that he had seen such a set, Dr. Stanton replied: "I'll take your word for it but I won't take the engineer's word." If such a set existed, he claimed, it would have been—should have been—exhibited in the hearings before now.

Cites 'ifs' of Issue

But he conceded that if such a receiver exists, and "if it works and if the cost is right," the public would not be harmed by adoption of dual or multiple standards. At that point he had been contending that approval of more than one system would cause confusion among the public by requiring them to choose "programs" in advance, since they could not receive on (Continued on Telecasting 16)

Acceptance Put to Vote

ASCAP REVISIONS

"ACCEPTANCE" of the new ASCAP-government consent decree, which provides changes in the society's licensing procedures for TV stations, will be put to a vote among the organization's some 12,400 members in the next fortnight before ASCAP evolves its revised charter or by-laws.

The charter (articles of association) would then be approved by membership prior to submission to the Justice Dept. for its approval sometime in the next two months.

Meanwhile, TV industry and ASCAP attorneys last week were still weighing the potential ramifications of the new decree which supersedes the 1941 agreement (TELECASTING, March 20).

While they declined to be quoted directly, these opinions appeared to emerge after early consideration of the new decree:

(1) ASCAP's practice of claiming fees for non-ASCAP music programs immediately preceding and following a program using its music apparently would be curtailed.

(2) The conflict between payment for participation and spot programs using ASCAP music still appeared to hang in the balance. ASCAP has exacted payment for commercial participation a few times and has contended that use of spots in effect, renders the programs commercial.

TV Licensing Process

(3) Decree spells out procedures which provide for licensing of TV stations by the TV network thus clarifying the radio - as distinguished from TV issue. Accordingly, ASCAP is restrained from negotiating individually with stations affiliated with any TV network whose commercial programs it carries.

(4) Synchronization - the right of incorporating ASCAP music into motion picture film and performance rights are plainly separated with one exception.

Performance rights from ASCAP are deemed to carry with them synchronization rights as well where stations record and air delayed broadcasts, such as by kinescope. Generally, the two rights involve clearance from the publisher, acting for the author or composer, and ASCAP.

(6) Previous decree is further clarified to the extent that use of existing motion picture film originally designed for theatre purposes would be excluded from ASCAP, and film prepared for TV performance would not be shown in theatres.

(7) Provision that ASCAP would be prohibited from entering into any contract over five years, such as is now in force with the radio networks. The second ASCAP-radiio nine-year contract governing use of the society's music went into effect last Jan. 1. Ruling does not affect the existing contract, however.

(8) ASCAP could not levy different charges for delayed and simultaneous TV programs.

The decree specifically provides that TV stations may clear "at the source" for use of motion pictures and music on network telecasts with ASCAP asked to issue a single license for all performances; enjoins and restrains ASCAP from "requiring or influencing" a broadcaster or telecaster to bargain for a blanket license before negotiating for a per-program license; requires changes in ASCAP membership eligibility, and cease "monopolistic" practices in licensing of foreign music in the U.S.

New Scene Changer

NEW technique to change one TV scene to another, a "horizontal camera" as used in movies, has been made possible by John Wilner, director of engineering for WBAL-TV Baltimore. The electronic device developed by Mr. Wilner to produce the camera permits two sources of TV signals to occupy the same space usually taken by a single camera signal. Device was introduced by WBAL-TV on March 11 birthday show.

ASCAP LICENSES

ASCAP representatives and a TV broadcasters committee have agreed to extend stations' interim per-program licenses from April 1 to May 1 and also have deferred further negotiations on license terms until later next month.

This action resulted from two-day sessions of the society's officials and the telecasters' committee meeting in New York March 15 and 16. It was the first conference since negotiations were held last December (TELECASTING, Dec. 12, 1949) when committee members settled on indefinite extension of TV licenses.

Attending this month's meetings was a subcommittee composed of Dwight Martin, vice president and general manager, Crosley Broadcasting Corp.; Roger Clipp, WPIT-TV Philadelphia; Howard Lane, Field Enterprises Inc., Chicago, and Stuart Sprague, attorney for TV broadcasters. Fred Ahlert, ASCAP president, also sat in briefly at the meetings.

Considerable discussion on per program license terms produced "nothing acceptable" by either ASCAP or industry representatives, Mr. Sprague reported after the meetings. Also aired was the recent ASCAP-government agreement which changes the society's licensing methods for TV stations and provides for a single license for all performances of a motion picture or entire network telecasts [TELECASTING, March 20].

Provides Court Review

Conferences generally felt, Mr. Sprague said, that the new agreement will serve to implement provisions of the original 1941 decree for ASCAP music, while substantially all of the remaining active video stations are on an interim basis.

The present interim fee scale ranges from $50 to $250 per month, based on station income. Scale provides that TV stations with gross revenue from non-network advertisers of under $50,000 pay $50 per month; those with annual gross of $50,000 to $150,000 pay $100 monthly; from $150,000 to $300,000, $175 monthly and over $300,000, $250 per month.

Adjustments on fees now being paid will be made once per-program license terms are set and accepted by the stations. Fees are retroactive to Jan. 1, 1949.

ASCAP REVIEWS

SADLAK TAX STAND

Says TV Needs Encouragement

THE TELEVISION industry needs encouragement "not a tax burden to retard (its) progress," Rep. Antoni N. Sadlak (R-Conn.) told his House colleagues last week. His statement came in connection with his announced stand against the administration's proposed tax on TV sets.

Rep. Sadlak also offered for Congressmen's inspection an editorial printed by the Bridgeport (Conn.) Sunday Herald, entitled "Television Revolution Will Be Digested Too." Editorial points out the art of video is slowly becoming "another adjunct to a full life" and parental objection to TV is decreasing because as time goes on "selectivity returns, even to children ..."

Cable and Relay to Triple Size of Present Connected Audience in Year...

The Outlook as AT&T's Network Expands

By J. FRANK BEATY

TELEVISION sponsors will have a vastly expanded audience available via network cable and relay facilities when the fall-winter season opens next autumn.

Under the Bell System intercity construction program, TV advertisers will be able to use a network running from Boston to Jacksonville, Fla., on the east; across the south to Atlanta, Memphis and Birmingham, and bounded on the west by Kansas City, Omaha and Minneapolis-St. Paul (see map).

On the West Coast a microwave relay will connect Los Angeles and San Francisco.

This greatly broadened service area for live TV networking will be accompanied by advances in TV recording processes and program sources, bringing to viewers improved sight-sound quality far in advance of that available in the fall of 1949.

The TV audience available next fall via interconnected network will be nearly triple that of last October, judging by estimates of the audience reached at that time and the audience to be available next autumn.

When the 1949 autumn-winter season opened, the interconnected Bell System network operating in the eastern half of the country was able to serve fewer than 2 million TV sets, according to industry estimates. At that time set production was starting to skyrocket. The pace has continued to increase right into the early spring weeks and weekly TV set output now is over the 100,000 mark.

Audience Grows

Total TV circulation is nearing 5 million. As the cable and microwave facilities of Bell System continue to reach into new areas, the audience reached by the network grows accordingly.

By next October, when the present networking construction program is to be nearly complete, the TV stations linked by coaxial and microwave facilities will be serving an estimated 5½ million video receivers with chance that the figure will exceed 6 million if present factory output and dealer sales continue to mount.

Latest additions to the Bell System network are a microwave link from Richmond to Norfolk, Va., and a coaxial extension from St. Louis to Memphis.

Scheduled for summer completion are microwave relays expanding New York-Chicago service, via Philadelphia, Pittsburgh, Cleveland and Toledo; Pittsburgh-Johnstown, Pa., microwave; more TV service by microwave.

September completions, under Bell System's schedule, are to in-clude more Washington-Richmond coaxial facilities; coaxial service from Richmond to Charlotte, N.C., and Charlotte to Birmingham via Jacksonville and Atlanta.

In October the telephone company plans to add Dayton-Indianapolis microwave; Indianapolis-Louisville coaxial; Chicago-Des Moines microwave; Des Moines-Minneapolis coaxial; Des Moines-Omaha microwave; Omaha-Kansas City coaxial. Ames, Iowa, will be added in December.

The Los Angeles-San Francisco radio relay, consisting of two northbound channels, is scheduled to open in September.

Microwave Link Underway

Construction of a cross-country microwave link from Omaha to San Francisco is in the early stages, according to AT&T officials. Engineering work is underway and much of the basic construction work has progressed into Colorado, it is understood.

AT&T will not hazard a guess on the date this telephone facility will be open to TV, providing an interconnected transcontinental network. Some informal estimates have suggested possible completion in 1951 but AT&T says its own planning officials have no idea when the channels can be opened. Best guess is that the channels will be opened to TV sometime in 1952, assuming there is a demand for what obviously will be an expensive service.

Transcontinental Service

Some regional telephone company officials have been quoted as saying transcontinental service can be provided within months by installing relay and terminal facilities on the southern cable running from Atlanta through Dallas-Fort Worth (with Houston leg), to El Paso and Phoenix to Los Angeles.

At AT&T headquarters, however, it is pointed out that the job adapting the cable to television requires vast amounts of equipment and installation expense. They appear to doubt if there is a present demand for this service that would justify the cost.

While Bell System is engaged in its extensive 1950 coaxial-microwave construction it also is expanding present facilities by adding channels and providing two-way service in a number of cases.

Present coaxial facilities are rated by AT&T at 2.7 me bandwidth, a limitation that has brought frequent complaints about quality of the signal transmitted. Radio relay facilities are rated at above 1.

According to AT&T, 47% of its TV network channels will be microwave by the end of 1950 and the remaining facilities will be coaxial cable. It was indicated informally that first TV channels have been of the coaxial type because cables already existed and conversion to TV was easier and quicker than construction of new microwave towers and relay facilities.

In two or three years, according to AT&T, as much as 75% of the network will be of the microwave type.

And what about cities that won't be connected to the eastern network or the California link under the 1950 AT&T construction program?

Texas telecasters have informed TELECASTING they see little chance of network service in the next two years. The same situation applies in the case of Oklahoma City, Phoenix, Albuquerque and other areas. Miami is less than 300 miles from the Jacksonville connection but AT&T hasn't expected to install TV equipment on the existing telephone until service is ordered by a subscriber.

Concerned Over Cost

Telecasters in many cities told TELECASTING they were concerned over cost of the service, especially with the improvement in sight-sound recording techniques.

In one city, where service will soon be installed, two operators voiced concern over the cost of the cable and the inconvenience of sharing channels. They also commented on the problem of constantly changing from network to recorded telecasts and the danger of audience dissatisfaction.

Some stations said they hoped the cable never comes to town. If costs run as high as predicted, they agreed, recorded and local programs are fine.

Lewis Allen Weiss, chairman of the board, Don Lee network on the West Coast, said the charge "for a one-way service from the South to the North on an eight-hour day will run approximately $15,000 per month which, under present conditions, would make that cost prohibitive to us."

Rex Scheppe, president and general manager of KFTV, TV in Miami, said, "Frankly, we think it will be quite a while before the cable is.(Continued on Telecasting 17)

BELL SYSTEM TELEVISION NETWORK ROUTES

(Planned for completion by Oct. 1, 1950)

Note: Includes both coaxial cable and microwave relay. Ames, Ia., link to be ready by Dec. 1, 1950.

March 27, 1950

Page 59 • BROADCASTING
A YEAR AGO, Frank P. Schreiber, manager of Chicago Tribune Broadcasting activities, generalized about television as he surveyed a year of achievement by WGN-TV Chicago, youngest of the illustrious Tribune offsprings.

"An open mind; the courage to take a chance; the ability to learn quickly from trial and error—these are television's prime requisites," he declared.

Last week, Mr. Schreiber was more specific as he spoke with pride of the approaching second anniversary of WGN-TV. He called the station "our more glamorous and beautiful baby."

"Much emphasis" is put on WGN-TV in the current multimillion-dollar building program of WGN Inc., he revealed. Mr. Schreiber cautiously added, however, that AM facilities likewise are being improved and WGN's overall expansion program "exemplifies faith in the future of both radio and television."

Nevertheless, observers see in Mr. Schreiber's enthusiasm for television an indication that in WGN-TV, the Tribune has as great a money-maker in the TV field as WGN is among AM operations. With 105 local advertisers, every minute of its five sports programs sold out; success stories and testimonials coming in by the dozens; more viewers for such pooled telecasts as the World Series than for all other Chicago TV stations combined—this two-year-old "baby" seems to have hit its stride.

WGN-TV was a million-dollar investment even before it took the air April 5, 1948. Its premiere, in WGN's famous radio theatre—Studio One—featured a parade of the best talent then available in Chicago, plus speeches by a United States Senator, the governor of Illinois, and the mayor of Chicago. There were 17,000 receivers in the Chicago area at the time.

With the influential Tribune promoting it to the hilt, WGN-TV was an important factor in bringing up receiver sales in the Chicago area by nearly 100,000 during the station's first year of operation. The Tribune not only published a record-breaking television edition on the eve of WGN-TV's premiere, but earlier had invited hundreds of Chicagoland dealers to a "TV Open House."

Heavy Opening Schedule

Station started out with an unprecedented schedule of 42 hours weekly. Such events as the International Golden Gloves, Chicago Cubs baseball games, exclusive White Sox baseball telecasts, other local sports features and special programs were included in the first month's operation. Succeeding months brought Chicago television viewers the Alexander Korda productions. President Truman was televised for the first time in Chicago when he appeared at the Swedish Pioneer Centennial.

The summer of 1948 brought the first telecast Big League night baseball games, as well as the nation's first complete 154-game major league schedule. Other midsummer highlights were from the Chicago Railroad Fair and a Lincoln Festival in nearby Park Ridge, Ill.

As in preparation for its first anniversary celebration, the station averaged 51 hours per week on the air during March 1949, and increased its weekly commercial time to 60%, as compared with 24% at the outset. The average March program week broke down as follows: 29% live studio shows; 15% remotes (outside the studio); 30% film; 26% network feeds.

In step with program and commercial developments, WGN-TV made long strides engineering-wise during the latter part of its first 12 months, and early in its second year moved its antenna tower and transmitter from a temporary location at the Chicago Daily News Bldg. to Tribune Tower. However, delays in construction of a spacious new WGN building, adjacent to the "Tower," made it impossible to move all of WGN-TV's facilities from the Daily News Bldg. until recently.

The 100-foot combination TV-FM antenna, supported by a steel mast rising 33 feet above Tribune Tower, puts the top of the present antenna 610 feet above ground level. This represents an increase of more than 180 feet over the height of the temporary installation. The station is on Channel 9 (186-192 mc) with 7.2 kw aural, 11.2 kw visual.

Station started its new year with a full Chicago Cubs schedule and exclusive White Sox baseball telecasts. Chicago retailers became increasingly active as the station promoted its "second year on the air." Rosen's Men's Wear took on Friday night boxing and reported sales increases from the first telecast. By the third week enough customers were brought in by TV for this advertiser to break even.

One of the most encouraging reports of the station's new year came late in April when Mystery Players was shown by two rating services to be only two points be-
hind the second highest rated network drama in the nation, and well ahead of all other local productions of this type. That same month the station started wooing women's audiences with a Friday afternoon show sponsored by a ladies' foundation manufacturer. It was the first time in the Midwest that such a concern had used television to promote the sale of its products.

In June a rating group gave the station occasion to crow when it revealed the results of a survey showing what products viewers had purchased after seeing them advertised on television. The top four products were all network advertised, but the fifth product was WGN-TV advertised Tavern Pale Beer. Two places below Tavern Pale was Dad's Root Beer, an advertiser that allocated 50% of its appropriated time to WGN-TV.

During this same month station officials were pleased when DuMont offered a commercially sponsored, hour-long Saturday night variety show, Cavalcade of Stars. WGN-TV had planned to leave the CBS-TV network by fall, so this program-building by DuMont fitted nicely into its plans. Walgreen Drug Co. picked up the local tie-in.

In August another survey revealed that five out of the top six TV shows in the country were on WGN-TV, and nine out of the highest 13 were telecast by the station. Important from the local advertisers' viewpoint was that all programs were local WGN-TV originations.

LAST fall WGN-TV gradually moved into prominence as one of Chicago's most successful "local" operations. It leveled off with more than 85% of its time non-network and 67% commercial. By October its local status became even stronger when it was revealed that commercial programming from two networks accounted for only 11% of all its time. When CBS-TV was dropped later that month, station was away only four hours of unsold time during the period 6:30-11 p.m., Monday through Sunday.

Early this year Chicago Cooks with Barbara Barkley loomed as one of the nation's most successful TV shows. Mail count of 3,015 in November and 3,350 in December moved up to 5,085 in January and had passed 6,700 by the third week of February. Starting as two half-hour shows per week, Barbara Barkley now has five 45-minute shows weekly with 31 announcements paid for by 19 clients. All of Friday's show, plus one announcement on Wednesday, is sponsored by Kelvinator, which recently was moved to send in a testimonial letter.

"We have received more direct returns from this program than from any other advertising we have ever done," stated G. C. Miskoe, advertising and sales promotion manager. "Our advertising dollar spent in television has gone further than in any other medium. The direct results from the use of this program have far exceeded our expectations and we wish to compliment your organization on a job well done."

Another recent commercial achievement was the avalanche of votes pulled by a contest to select "Miss Tavern Pale of 1949." A total of 1,842,000 ballots were received, and the sponsor, Tavern Pale Beer, has started another contest for 1950.

One advertiser tried WGN-TV for a test last year and soon found it necessary to expand from a 4,000 sq. ft. location with three employees to a 25,000 sq. ft. layout with 70 people. Dulane Inc., a 1940 newcomer in the electrical appliance field, uses Harold Ishell, with 26 years of broadcast experience, on both Spell with Ishell and Stop, Look, and Learn. Dulane plans to put the Ishell shows on the network to back nation-wide distribution.

"Although we sold only 100 units in January 1949, our October sales were 15,000 units," wrote Robert Duske, president. "Television is ideal for the little fellow with the modest income. The only city in which we purchased advertising was Chicago. Sales in Chitown have soared four times faster than in other major cities."

WGN-TV now is on the air 87 hours a week. Its hourly live rates range from $750 (Class A) to $375 (Class C).
**Telecasting**

**Telecasting**

**Weekly Television Summary—March 27, 1950**

**Caldwell Estimates TV Investment**

*Report 104*

TELEVISION INDUSTRY, despite its relatively tender years, already represents an investment of over $2.5 billion. This estimate was released last week by Dr. Orestes H. Caldwell, former U. S. Radio Commissioner and now editor of the Caldwell-Clements magazines, *Tele-Tech* and *Radio & Television Retailing*.

Dr. Caldwell figures that the approximately 5 million television sets, with their installation costs, repairs, etc., make up the bulk of the investment—$2 billion. With their inventories and places of business, TV dealers and distributors represent approximately $300 million. Another $100 million may be added for television service.

The 101 television stations now on the air represent an investment of approximately $50 million, Dr. Caldwell estimates, with another $50 million invested in coaxial cables.

Adding the huge sums that the television industry has spent in research, patents, FCC hearings, legal controversies, etc., Dr. Caldwell feels that another $50 million is currently accounted for.

Combining all these items, Dr. Caldwell sets the present television investment at $2,680,000,000. By the end of 1950, he estimates this total will have increased to $4.5 billion.

**Three Video Outlets Revise Rate Structure**

**WABD-TV** (New York) New York raises its Class A time rate from $1,500 to $2,000 an hour, effective April 1. Class A time is 6:30 p.m. to 11 p.m. Monday through Friday, 12 noon to 11 p.m. Saturday and Sunday.

**KPI-TV Los Angeles**, moving into nighttime operation, has noted the following basic rate structure: Hourly rate, $300; one-minute announcement, $82.50; participation, $90.

Station's air-time rates remain the same—$210 per hour; $35 for one-minute or less; $40 per participation.

One-way 19 tv rate structure of WEWS (TV) Cleveland was revised. New rate for one hour of Class A air-time (7-11 p.m. Monday through Saturday and 4-11 p.m. Sunday) is $500, including use of studio facilities. Old rate for the same time and facilities was $500.

**WHIO-TV Dayton Surveys Student Viewing**

IN A recent survey at Madison Trottwood Elementary School, Dayton, Ohio, it was found by WHIO-TV Dayton that over 35% of the students owned television sets in their homes. Another 7% visit neighbors regularly to watch TV.

Among the children in set owning families it was found that almost half of them now stay home more than the before the TV era entered the home. First choice in programs among the small fry was *Hopalong Cassidy*, WHIO-TV Dayton. The *Looney Looney Looney Yacca Star Theatre* ranked second and third, respectively. Average viewing is reported as better than four hours per day per child.

Children also were asked for any comments from their parents. Most frequent one reported was that television should remind children when to go to bed. Another that alcoholic beverages and tobacco should not be advertised until after 8 or 8:30 p.m.

**States File Bills Governing TV in Cars**

BILLS governing the use of television in motor vehicles have been introduced for legislative action in Massachusetts, Mississippi, New York and Virginia, according to the legislative service reporting the Automobile Manufacturers' Assn.

The bill filed in Virgina would make it unlawful for anyone to install any TV set in automobile, truck, bus or other vehicle where it would be visible to the driver. In New York, a bill would make it unlawful to equip or operate a motor vehicle with a television receiving unit. The Mississippi bill would make it unlawful to install a TV set in any motor vehicle. And in Massachusetts, the bill reads that no person shall drive any motor vehicle equipped with an TV viewer, screen or other means of visibly receiving a telecast which is located in the motor vehicle at any point forward of the back of the driver's seat, or which is visible to the driver while operating the motor vehicle.

---

**ARB Expansion To Issue Monthly Report**

EXPANSION of service to two new cities and the proposed issuance of a national television rating were announced last week by American Research Bureau, Washington.

The first issue of the "United States Television Audience" is slated for release in October, according to James W. Seiler, ARB director. The report will be issued monthly thereafter and will be based on a probability sample representing all television homes in the U.S. Program audience figures will be shown in terms of actual numbers of homes and men, women and children viewing.

The ARB diary method is used with the diaries placed in all TV areas—urban, rural or suburban—on the basis of actual set ownership. An entirely new sample will be selected for each month's report.

In the case of ARB city reports, audience duplication, cumulative audience, audience composition and data flow will be available.

Two new areas have been added for regular city reports—Cleveland and Chicago. City reports hereafter will be issued monthly for New York, Philadelphia and Chicago and quarterly for Baltimore, Washington, and Cleveland. First reports for the two new cities will be released next month.

Top television shows in New York and Philadelphia during the March 1-15 test week were reported by American Research Bureau as follows:

### NEW YORK

1. *Star Theatre* 68.0
2. *Toast of Town* 64.0
3. *Out of Nowhere, N.Y.* (NBC Fri.) 57.0
4. *The Goldbergs* 53.0
5. *Gadfly and Friends* 47.0
6. *Studio One* 41.0
7. *Saturday Revue* 38.0
8. *Boxing—N.Y.* (NBC Fri.) 35.0
9. *Children’s Hour* 33.0
10. *The Lone Ranger* 32.0

### PHILADELPHIA

1. *Star Theatre* 74.0
2. *Talent Scouts* 69.0
3. *Toast of Town* 65.0
4. *Out of Nowhere, N.Y.* (NBC Fri.) 63.0
5. *Gadfly and Friends* 56.0
6. *Cavalcade of Stars* 56.0
7. *Film Theatre* (WFIL-TV Sun.) 52.0
8. *The Edgar Marley* 51.0
9. *Stop the Music* 50.0
10. *The Goldbergs* 50.0

---

**Editor's Note:** Sources of set estimates are based on data available from dealers, distributors, TV Circulation committees, electric companies and manufacturers. Since many are compiled monthly, some may remain unchanged in successive summaries. Total sets in all areas is necessarily approximate.
Every survey has shown WSB-TV to be the overwhelming choice of viewers in the Atlanta market. Latest report—by more than 2 to 1.

Note to Advertisers and Advertising Agencies: If your television plans include Atlanta, get the full facts from your Petry man.
Complex TV program continuity is reduced to a simple push-button operation with an RCA TS-20A System.

This Relay Switching System does what RCA's Audio Relay Systems have.

This video relay system removes all switching restrictions from equipment operations. It imposes no limitation on equipment installation—no matter where you set up your units. It provides unlimited flexibility—enables you to add facilities as your station grows, without losing a penny's worth of your original equipment investment.

Actual switching in the RCA TS-20A system is done by d-c operated relays located in the video line itself. Designed by RCA for this special service, these relays are controlled by simple d-c lines from any point you choose. No expensive coaxial line required to and from control points. No extra cable connectors needed. You can rack-mount the relays wherever you want them. You can set up your control positions wherever you like. There are circuit provisions for sync interlocks and for tally lights.

The RCA TS-20 System provides complete master or studio facilities for program monitoring, production talk-back, and video switching between studio camera, film camera, remote pick-up and network programs. For example, you can fade or lap...

2. Simple Studio Control layout. Additional facilities include: Preview monitoring and line monitoring, fades, lap dissolves, and superimposition.
Switching RELAYS!

for TV master or studio control done for aural broadcasting.

dissolve between studios. You can set up for program previewing and other monitoring functions (up to 5 program monitors available). You can combine the TS-20A System with audio switching and presetting, so that the sound switches with the picture automatically!

For long-range planning of your TV programming facilities, overlook none of the advantages of this revolutionary new relay switching system. Ask your RCA Broadcast Sales Engineer about it. Or write Dept. 19 CD, RCA Engineering Products, Camden, N. J.

RCA'S TS-20A SYSTEM.

3. A more elaborate master control room set-up than shown in No. 1. Switches any of 12 inputs to any of 5 outgoing lines. Includes preview and line monitoring.

Mr. Mullen's prophecy followed an earlier prediction that television stations would "in no time at all" double their present average of 50 hours of operation a week to 100 hours weekly.

In conclusion Mr. Mullen said that not only will television not kill radio, motion pictures, reading and various other things, but it will stimulate them.

Centering television's future around kinescopes, Ralph Lovell stated that the merit of kinescopes lay in their being relatively fast, simple and economical as compared to other methods of TV programming. Kinescopes, he feels, are presently serving as the core of program material for new television networks. Further, with the coming improvement in kinescope recording as to techniques, cameras, tubes, film, he believes that "great possibilities for the future," he said.

It is just a matter of time before all cities are interconnected by television lines, according to Mr. Worthington. Such comparison, he said, would be the demands of broadcasters. He did not venture a guess as to the date of completion of transcontinental facilities. By the end of 1950, he stated, 18 additional cities will be linked, with Los Angeles to San Francisco microwave radio relay installation ready by the fall of the year.

Speaking of the phone company's efforts toward television, Mr. Worthington announced a new system being developed for coaxial cables to increase band width to about eight million cycles. This would be divided between telephone and television service. The TV'S it at age prophecy spoke the picture Fairbanks FILM microwaves to the film industry, tremendous demands, to vision possible among other things, but it will stimulate them. TV DIRECTORS

RTDG, SDG Seek Jurisdiction

JURISDICTIONAL dispute over television directors was set off in Hollywood last week following an announcement by Screen Directors Guild that it was taking immediate action to establish jurisdiction over directors of both filmed and live programs.

Move was challenged by Radio and Television Directors Guild whose ranks include 36 of the 45 television directors connected with local stations. Representatives of both groups were scheduled to meet to discuss the problem last Friday.

No results were available as TELECASTING went to press.

The screen guild based jurisdictional claim on Section 9 of the Labor Management Relations act that named it bargaining representative of television directors. Guild further stated that the action was prompted by “five years’ research of the television field and by the rapidly increasing employment of SDG members in preparation of film material for world’s television screens.”

Guild’s Contention

The guild also adds that men who are directing live TV programs, as viewed on home screens, are directing moving pictures, in that they deal with same visual and aural elements common to all screen techniques.

Special meeting of the board of directors of Screen Directors Guild was called for tomorrow (March 28) to plan action in taking over jurisdiction of television directors and assistants. In the meantime, Radio and Television Directors Guild was holding meetings with network and station representatives on behalf of television directors, most of whom are members of RTDG.

Support was given the SDG stand for jurisdiction with a statement last Thursday by Frank Capra, movie producer-director, that the SDG action is the first major step in what must become “a concerted cooperative movement by picture makers to recognize the TV industry and join forces with it.”

30-INCH TUBE
DuMont Reveals Development

DEVELOPMENT of a 30-inch direct-viewing television tube designed for use in restaurants, schools and other public places was revealed last Wednesday by Dr. Allen B. DuMont, president of Allen B. DuMont Labs, at a luncheon marking the official opening of DuMont’s Allwood tube plant in Clifton, N. J. The tube probably will be released after next September, according to Dr. DuMont.

More than a million standard tubes of various types will be produced this year, according to Irving G. Rosenberg, manager of the tube division of DuMont Labs. Overall, he predicted, six million sets would be turned out.

WABD MOVES ANTENNA
5th To Use Empire Tower

THE FIFTH of seven television stations in the New York metropolitan area last week decided to move its antenna to the Empire State Bldg. tower. WABD (TV) New York, the DuMont station, announced it would install its antenna in the world’s tallest building as soon as the FCC authorized it. A new transmitter will be built.

The station will maintain its present transmission center atop its headquarters, 515 Madison Ave., indefinitely for emergency purposes. Other New York stations which will use the Empire State tower are WNBT (TV) WCBS-TV WJZ-TV WPIX (TV). Only WOR-TV, which has its own tower on the Hudson Palisades, and WATV (TV) Newark will remain at other locations.

NBC Leases TV Space

NBC has leased three floors at 517 West 50th St., New York, to house television scenic design facilities, it has been announced by Carleton D. Smith, network’s director of TV operations.

TELEVISION “Isotap,” test instrument designed to bring safety and efficiency to testing and servicing of TV and radio receivers, announced by RCA Tube Dept.

WHAS-TV bows
Second Louisville Outlet

WHAS-TV Louisville, makes its debut today (Monday), adding a second TV station for the Kentucky city. Victor A. Sholis, WHAS-AM-FM-TV's director, said the station would "concentrate on quality of programming" rather than on quantity, expanding its facilities as experience and performance warrant. At present the station will program 2-10:30 p.m. six days weekly.

WHAS-TV, like its parent AM station, Mr. Sholis said, is a primary CBS affiliate. Station operates on Channel 9 (186-192 me) with 7.2 kV aural, 9.6 kw visual.

The newest and latest technical equipment has been used in the construction and installation of WHAS-TV, Orrin W. Towner, technical director, said. The tower supports a 12-bay GE TV antenna which, along with a three-section transmitter, would eventually permit the station to transmit a 54 kw signal, Mr. Towner added. Also employed is a fluorescent lighting system automatically controlled for its main studio, six skyhooks and a rear screen projection unit. In addition to this large studio, the station has an audience-participation and organ studio.

Studies are maintained on the sixth and seventh floors of the Louisville Courier-Journal-Times Bldg. Kinescope recordings of network shows will be presented until about Oct. 1, date when the coaxial cable is expected to reach Louisville.

WKY-TV Policy

P. A. Sugg, manager of WKY-TV Oklahoma City, has announced adoption of a general policy against the telecasting of any programs based principally upon "horror story" plots until after 9 p.m. when "the younger children should normally have retired." Pointing out that sponsors have been "most cooperative" in agreeing to program revisions to fit the new policy, Mr. Sugg said two NBC-TV shows featuring "mystery-violence dramatization" have been moved from 7:30 and 8 p.m. spots to 9:30 on Monday and Wednesday.

FREDERICK A. NILES

Fred Niles has watched TV activity at Kling Studios, Chicago, grow in the same proportion that TV set sales have skyrocketed in the Midwest. In 1947 when he originated the video branch of the film production firm, there were 12,000 sets in Chicago. Now there are more than 380,000.

Since mid-1947, when Kling had produced one million television commercial (Goebel beer, Detroit), Television Director Frederick A. Niles has supervised more than 100 film spots for such clients as Proctor & Gamble, Stewart-Warner, Elgin-American, Motorola, Reddi-Wip, Old Colony (Orange Crush), Fox DeLuxe beer, Magnavox, Minute Mop, Fehr beer, Pinaphore chicken and Griesedieck Bros. beer.

His methods are improved, but his theories remain the same. Fred gathered a lot of both training and teaching in an information education division organized by the War Dept. as a propaganda unit for U. S. troops. He conducted four-week courses for GIs, teaching production of slides, films, radio shows and newspapers.

From 1942 until 1946 he taught procedure at Carlisle Barracks, Pa., after originating, writing and editing a news sheet at Ft. Sill, Okla., in which he stressed foreign policy. News had been of prime interest to him since college days at the U. of Wisconsin.

After he was graduated, he combined news writing and commentary with announcing and continuity at WMAM Marinette-Menominee, Wis., moving on to KYFD Ft. Dodge, Iowa., KGLO Mason City, Iowa, and WAAF Chicago as news editor, the last in 1942.

College Radio Work

At college, Fred majored in speech and psychology, and—less officially—radio at the university station, WHA Madison, operating with such persons as Cy Howard (My Friend Irma) and Ben Park (Report Uncensored, It's Your Life), he produced, announced, wrote and acted.

For his acting ability, he was chosen "best actor of the year" when he was a senior, and was elected to the Haresfoot Club, men's drama group. He toured Wisconsin for public performances with Haresfoot and the Wisconsin Players. He is a member of Alpha Tau Omega fraternity.

Until Fred went to Chicago in 1941, he spent most of his life in Wisconsin. He was born in Milwaukie. For three years however, his father (banker) moved the family to California.

Fred again worked at WAAF Chicago after the war as news editor, handling his own commentary five nights weekly for a year before joining Kling. He knew Kling had considered establishment of a TV department, inasmuch as it had specialized in most other visual media several years. Always a photography enthusiast, he once thought of starting his own package firm for TV commercials.

Fred still thinks the ultimate future of a TV production firm lies in shows, but only after it has been grounded in creation and development of commercials. "There is a definite trend toward film in TV, and eventually a tremendous number of program hours will be on film," he says.

An active partner in the TV division with Jack Lieb, who heads the motion picture section, Fred built the video department from an idea. The firm now offers all kinds of commercials, but insists always and primarily on quality.

Films are shot on 35mm film, with 35mm sound reproduction, on a stage a block long on Chicago's north near side. Only union technicians (from four locals) are employed, and each person creating a TV commercial work as few hours as possible.

Primarily a Chicago concern, Kling Studios has branched out to New York, Detroit and Cincinnati in the past 15 years. Most of the video work, however, is done in Chicago.

Fred is married to the former Jane Turner. They met in Oklaho when he was in the Army, and have one year-old daughter, Stephanie Jane. When he isn't on the job, he's home watching TV—affirming his convictions that video will revolutionize the advertising world in five years. He believes too often too much attention is placed on the show and not on the commercial. Pacing is the only important factor in production of a TV film spot he concludes.

TEXACO THEATRE

Tops Hooper TV Ratings

With a rating of 65.4, Texaco Star Theatre was first place in the top 10 Hooper- Network Tele-ratings for February, it was announced last week.

The February ratings are the last network television ratings to be issued by C. E. Hooper Inc. Under terms of the recent sale of National Hooper Services to A. C. Nielsen Co., Hooper will continue to conduct television network ratings but they will be issued through the Nielsen Company.

February Leaders were:

1. Texaco Star Theatre—Milton Berle Show (35 NBC-TV cities) 65.4
2. Arthur Godfrey's Talent Scouts (5 CBS TV-cities) 56.2
3. Bob Hope (12 CBS TV-cities) 43.5
4. Goodyear and His Friends (40 CBS-Olive TV-cities) 41.0
5. The Toast of The Town (15 CBS- TV cities) 40.7
6. The Lone Ranger (25 ABC-TV cities) 39.8
7. Kraft Theatrical Programme (20 NBC-TV cities) 35.8
8. Philco Playhouse (39 NBC-TV cities) 35.6
9. Red Skelton Presents Your Lucky Strike Theatre (13 NBC-TV cities) 34.1
10. Fibeside Theatre (16 NBC-TV TV cities) 33.3

MONKEY BUSINESS

MORE MONKEYS having a barrel of fun was the order of the day on This Is Your Zoo over WAAM (TV) Baltimore, March 21. Babes the Baboon celebrated her first birthday, with eight of her simian friends from the zoo, on the regular Tuesday afternoon program. She was the recipient of some 992 cards and many gifts from her WAAM audience. Of a lace trimmed slip replete with sash, which she received, Babes says: "I simply can't appear on TV in that, no one is going to make a monkey out of me."

LIVE OR FILM?

No Labeling Needed—FCC

FCC refused last week to grant a request that television stations be required to announce at the beginning of each program whether it is live, a film, or a kinescope recording.

Denying a petition of Charles W. Curfen of Jackson Heights, N. Y. (Telecasting, Jan. 30), the Commission held that its present rules on the subject (3.688) are adequate.

The rules already require stations to make it known when "spliced or mechanical reproductions" are used. Thus, FCC held, it should be obvious that a program is live if it is not otherwise announced.

BROADCASTING • Page 68
**Film Report**

Dick Strome Television, Philadelphia, has released one-minute and 20-second spots for Goldenberg Candy through Clements Agency, and spots for Porto Rico Beverages through Deane Klein Davidson Co. Goldenberg Candy anticipates enlarging spot campaign to cover several markets on eastern seaboard. Firm has also completed six 20-second films for Adam Scheidt Brewing Co., through Lawrence I Everling Adv. Agency.

Thirty-two feature length western films have been leased by KLAC-TV Hollywood from Oho Video Productions, that city, at undisclosed price. Included are 12 Tex Ritter films, 10 Ken Maynard, six Bob Steele and four Jack Perrin films. First of series which were telecast earlier this month are beginning serialization in half-hour segments to be followed by complete hour length films.

Lou Croxton, formerly with RKO Hollywood, joins Jerry Fairbanks Inc., that city, as art director. Fairbanks is expanding TV production operations to New York. Firm will set up complete studio facilities at 157 E. 65th St. and present New York office will be moved to new location. Eastern facilities will include three large sound stages and latest type sound and camera equipment. Trained personnel of Hollywood staff will be transferred to New York. Russ Johnson, vice president in charge of sales and distribution, will head N. Y. operations. New York firm is currently producing new series of commercials for Camels featuring Fran Warren, singer, and Bill Stern, sportscaster. Agency: William Esty Co. Inc., N. Y.

Color Windup  
(Continued from Telecasting 2)

one set the programs broadcast under all systems. 

Even if a combination set eliminated this argument, he continued, each broadcaster would have to choose the one system he wished to employ.

Mr. McConnell also conceded the public would not be able to adopt multiple standards—assuming the accuracy of your statements,” he told Comr. Jones.

The NBC executive told FCC that if it approved RCA standards the network “immediately” would extend its WNBW (TV) Washington color programs from the present eight hours a week to at least 12. “The programs would include commercial as well as sustaining shows, in choice time as well as at other hours,” he said.

Outlines Transmission
Further, he reported, the Washington color programs would be sent to New York by “existing relay facilities as well as AT&T relays, which the telephone company has said will be available this summer.” Color broadcast there. Work would be started “at once” on equipping WNBW (TV) New York studios for color originations, he asserted. He continued:

Since the RCA color system presents no problem of reception on present sets, our color programs would be selected from our regular schedule. Our stations in Chicago and Cleveland would receive color programs over the AT&T radio relay, which is already in use in many places and will be available this summer. Thus these stations would be able to transmit in color before they have their own facilities for originating color broadcasts.

Mr. McConnell noted that all NBC colorcasts would be available for color broadcasts by “stations reached by radio relay” (the present coaxial cable passes RCA color only in monochrome).

He said he understood that the RCA color relay facilities will extend from Boston to Omaha, “serving such intermediate points as Providence, New York, Philadelphia, Pittsburgh, Cleveland, Toledo, Chicago, and Davenport-Rock Island.”

Wilmington, Baltimore, Washington, Detroit, and Milwaukee also will be served by radio relay by that time, he reported, adding that Albany, Schenectady, Utica and Syracuse also could be served if the General Electric relay to Schenec-
tady were restored. RCA-NBC’s experimental UHF “booster” at Bridgeport also would carry color pickups, he said.

Adoption of a non-compatible system, he said, would mean a station “would lose its entire circulation” during the time it was color-casting, except for persons “who had bought adapters, converters or new color receivers.” He felt economic considerations accordingly would mean that “most color programs, under a non-compatible system, would be broadcast in fringe time” and would not include “choice programs.”

Sees 100% Color
Dr. Stanton, however, contended that CBS might well be broadcasting almost 100% in color within two years after approval of the CBS standards. This belief was premised on early and quantity production of reasonably priced color equipment, and prompt production of internally adapted sets.

He said if the CBS system is approved, CBS would start originating color programs in New York “within a few days,” offering the colorcasts to all interconnected markets. Within three months he said the total could be expanded to at least 30 hours a week, including both studio and remote programs.

Of the 20 hours, three hours daily, five days a week, would be carried before 6 p.m.; 30 minutes daily, five days a week, would fall in the 6-8 p.m. period, and another 30 minutes daily would come at the close of the monochrome transmis-
sions or at some other time after 8 p.m.

For promotion, he said, each intercon-
ected affiliate would be provided with at least one color set for demonstration purposes. Sponsors for the color programs will be sought, he continued, adding that “endorsed” color programs will have been received. Additionally he said CBS would conduct educational clinics for licensees, manufactur-

ers, and sponsors and agencies.

But Columbia’s plans, he noted, assume FCC will decide the color question “in the near future.” He said that “necessarily Columbia cannot commit itself to plans the execution of which may be delayed if this decision cannot be inaugurated until next year, or the year after.”

Normal Conditions
He said he also was assuming that color will develop “under conditions of a normal economic cli-
mate”; that other networks will feed color programs to their affili-
ates and that their affiliates will carry them; that manufacturers will publish the required equipment including black-and-white sets internally adapted to receive CBS color in monochrome, and that sponsor support will continue as in black-and-white.

If FCC decides to adopt multiple standards, he contended, the various systems should be approved only after demonstrating that they meet minimum performance requirements. The CBS system, he claimed, already has done so.

Dr. Stanton told the Commission that color, if put off now, will “rear its head again.” He said CBS would stand for such a system as an event, because it is useful for many non-broadcast purposes, but that he saw little use to press again for its adoption as a broadcast service in that “we’ve pressed twice” already.

He submitted an exhibit reporting CBS has spent $4.2 million on color—$2.7 million on its old 12-me system, and $1.5 million on the present technique.

He said he didn’t think it possible for the industry to get together voluntarily on standards, and that he didn’t think the CBS system would be made completely compatible.

Would Accept CTI
Mr. McConnell was not as emphatic as Dr. Stanton in rejecting the idea of multiple standards. After prolonged questioning during which he said the CTI system would become acceptable to NBC because of its compatibility, the NBC chief said he could find no particular reason why it could not be made acceptable by multiple standards would not “encourage color television to the public.”

To questions by Comr. Jones, he said the necessity of installing studio equipment would be the main objection to 100% color coming by NBC one year after FCC adoption of standards.

Opening the Thursday session, W. B. Sullinger, Western Union radio research engineer, noted that the company has video facilities between New York and Philadelphia but said the facilities have never been used commercially and are only for the transmission of video. Audio would have to be transmitted by the Bell System or otherwise, he said.

Mr. Sullinger presented proposed plans of Western Union to expand its present facilities. These expansions are, he said, dependent upon the outcome of the interconnec-
tion question, economic questions and demand for the company’s service.

Considering resolution of these factors, he presented a company plan to install facilities between New York, Washington and Pitts-
burgh—with all three cities to be interconnected by two reversible TV channels—which he said could be in operation within 10 months of the date started. Most of the towers now are in place, he said, but television relay equipment would have to be added.

Three additional plans—one of which would be used at present with demand the determining fac-
tor—also were presented. These services proposed interconnected of

1. (1) New York, Hartford, Boston, Albany, Syracuse, Buffalo, Cleve-
land and Pittsburgh; (2) Pitts-

burgh, Cleveland, Toledo, Detroit, Jackson, Kalamazoo and Chicago; (3) Pittsburgh, Cincinnati and St. Louis. Branches would be included to intermediate TV cities if service were required.

See Completion by ’52
Mr. Sullinger said the company felt one of these added services could be completed by the end of 1952 although the installation would depend on the resolution of the three determining factors of interconnection, capital and de-
mand.

At the request of the Commissi-

tion, Alex G. Jensen of Bell Tele-
phone Labs appeared to present information on compromises neces-

sary for a color system to fit a 6 mc band. Mr. Jensen appeared as an individual and not as a repre-

sentative of Bell. Basis for his testimony was a paper delivered by him on the subject at the recent IRE convention.

During cross-examination by the Commissioner, Mr. Jensen conceded that under ideal theoretical circumstances a dot-interlace system of video transmission would cut the necessary width for black-and-white to approximately half its present 4 mc width. He pointed out, however, that he has never seen this system used in black-and-white transmission and doesn’t

FCC ATTORNEYS in the color case include Assistant General Counsel Harry M. Plotkin (r), chief counsel, and John E. McCoy, chief of the tele-
vision branch of the Commission’s Legal Bureau. They’re shown here at the Commission counsel table at last week’s sessions.

March 27, 1950
known of any such equipment that has been developed.

Under questioning by Comr. Jones as to the cost of dot interface in black and white, Mr. Jensen said he felt the cost would be approximately equal to that of color. He said this was only his opinion after rapid consideration since no black and white equipment of this type had been developed.

Asked by Comr. Frieda B. Henning whether similar standards for only one system would delay development of the television art, Mr. Jensen said he felt experimentation should be continued.

The bulk of Thursday afternoon testimony was consumed by the remainder of Mr. Jensen's prepared statement and clarification of his remarks under cross-examination by members of the Commission and counsel representing the three color systems under consideration.

In reply to Comr. Jones, Mr. Jensen stated he felt the writing of color standards could be done now only in a broad statement and that more exact standards would have to wait for some future date.

Joseph V. Heffernan, RCA vice president and general attorney, proposing a theoretical color system combining dot interface, time multiplexing and the present FCC standards, asked Mr. Jensen if he felt such a system would be compatible. An affirmative answer was given.

Hugh M. Beville Jr., NBC director of research, appeared to present information which his department had gathered on the reception of RCA color television tests on black and white receivers. The information was based on mail response received following the start of color transmissions on WNBW (TV) Washington and outlined the reaction of viewers on the question of compatibility.

L. A. WRESTLING
MCA Signs 20 Grapplers

It looks like local wrestlers will be throwing their weight around again on Los Angeles television with taking over by MCA Agency of representation of 20 top wrestlers last week. There has been no telecasting of local matches since promoters slapped on ban Feb. 9, charging that telecasting cut local office receipts. According to an MCA spokesman, the plan is being considered to allow telecasting of those matches once a week and from a small arena, in order not to hurt large spots.

Affected by the ban are KTLA, KTSF, KJAC-TV, KECA-TV and KNDB.

KTSF has met the problem with kinescopes of Sunny Side Garden, New York, wrestling; KTVV has a weekly kinescope of matches from St. Nicholas Garden, New York, with lady wrestling on its future calendar, and other Los Angeles TV stations have turned to either film or live talent shows. None lost a sponsor as a result of the ban, it was reported.

The Outlook
(Continued from Telecasting 5)
set up for use through Phoenix. I would say three years and then the big question is whether or not we would want to pay the price for the service with the continued improvement in kinescope plus film service and local ties. I question whether or not we will ever want to use the coaxial cable in Phoenix. Certainly it is not in the cards for our television station in Phoenix to pay for a 1,000-mile haul for this cable.

David Carpenter, general manager of WCON-TV Atlanta, said there is little about the average TV program that demands immediate viewing for full enjoyment. "With the gradual improvement of tel-transcriptions," he said, Atlanta stations could be served in a manner which would give reasonable satisfaction to the listeners and enable the stations to do a better all-around program job because of the easing of overhead. "Another aspect is that three stations in Atlanta must share the line equally and the contrast from kinescope to live will add to the dissatisfaction," he said.

Economic Question
Robert D. Swezey, general manager of WDSU-TV New Orleans, also is concerned about the economic angle. He said AT&T had indicated it would take 12 or 18 months to adapt the southern cable for TV service to New Orleans. "I gather that an order could be placed tomorrow," he said, "but whoever placed it would have to undertake to meet the tariff for airline mileage between New Orleans and Memphis—some 360 miles—which, as I recall, is $35 per mile per month.

"In all the circumstances the entry date of the TV coaxial in New Orleans seems to depend pretty largely on the practical economics of working out an arrangement to support it financially. At best, it looks as though it is two or three years removed."

Thad Holt, president of WAFM-TV Birmingham, said, "We have been approached by the local office of Southern Bell Telephone & Telegraph Co., stating that DuMont and ABC did not sign up for 'shared' video service to Birmingham by the deadline date of Jan. 15, 1962."

Local Channels
"We are also told that we are to order local channels from toll office to individual television stations, which is a departure from radio network service. This was transmitted to the local office on Feb. 14, but I understand may have been countermanded.

"The matter of furnishing network video service seems to be between the networks and AT&T. We have not been advised that any network has signed up for the cable into the Southeast, and if the costs are what we hear, then we are very happy with TVR.

"The economies of network television are also important in smaller cities, judging by replies from a dozen station operators not yet on the network. For example, Marshall Rosen, general manager of WSAM-TV Huntington, W. Va., described the AT&T cost estimate for a Cincinnati-Huntington link as "prohibitive."

"We are working very seriously toward the establishment of a relay connection of our own, privately owned and operated," he said. "We have made all the necessary studies preparatory to building such a system and a final go-ahead decision is now largely dependent upon administrative matters." He added that new techniques were being studied, and hoped to have service in operation this summer so big league baseball as well as direct network services could be provided local viewers.

George S. Johnson, manager of KOB-TV Albuquerque, N. M., said the station is interested in one-time service for special events. "We do not see how we could support service on a continuing basis," he said. "If we could tell our audience they might get one football game or a world series game direct plus the regular kinescopes we now have, I believe it would have a tremendous influence on the sale of receivers," he said.

Future Outlook
Harrison M. Dunham, general manager of KTTV (TV) Los Angeles, feels that network facilities may be used by Pacific Coast stations only in the case of national emergencies or outstanding public events because of the cost. "It is our further feeling," he said, "that as Hollywood's motion picture industry becomes more closely allied with television broadcasting, the coaxial cable throughout the east will become less important to the television industry."

Station managers in all parts of the nation not now getting network service reflect views generally similar in many cases, to the above comments. Their estimates of network service to be provided this year parallel AT&T's own published schedule.

Telefile

(Continued from Telecasting 7)

build the station. During three wartime years as a commander in the Navy's Bureau of Aeronautics, he had a part in the development of television by the military forces. All WGN-TV studio and mobile equipment was designed and installed under his direction.

Vernon R. Brooks is director of operations. At one time traffic manager and supervisor of announcers at WGN, Mr. Brooks was assigned to the planning and development of WGN-TV on its return from the war. He attended TV clinics and workshops throughout the country during the months preceding station’s debut and has studied all phases of television broadcasting and techniques.

Jay Faraghan, former production manager at KSD-TV St. Louis, became traffic manager two months before station took the air. Five months later he was named program director. In addition to holding this position today, Mr. Faraghan personally directs some shows.

Harvey Called In

George W. Harvey, sales manager, is responsible for many of the station’s commercial achievements. In July 1948 he was recalled from New York where he headed WGN’s eastern sales office. He has been associated with Tribune broadcasting properties since 1935, with the exception of a brief period with Mutual in Chicago.

Jack Brickhouse, one of the nation’s outstanding sportscasters, is sport service manager. Originally at WMED Peoria, he developed into a popular basketball announcer as he followed Bradley Tech’s champions. But he is best known today as a baseball, football, boxing and wrestling announcer. He joined WGN in 1940, but left during the war to enter the Marines and later freelance in New York and Chicago. He returned to Tribune Tower in 1948 to occupy the position he now holds.

Field Director is one of the most important jobs at WGN-TV because of the station’s coverage of many special events and sports programs. In charge of this department is Don Cook, who learned television from the apprenticeship level at Chicago’s pioneer WBKB (TV). Mr. Cook directs all remotes from the interior of a specially designed and constructed mobile unit. He was assistant stage manager before becoming a director. He produces the station’s daily baseball telecasts, weekly wrestling and boxing bouts, and frequent remote special events.

Hooper To Speak

C. E. HOOPERS, head of C. E. Hooper Inc., will be guest speaker at the March 31 Los Angeles Chamber of Commerce Television Committee meeting at the Chamber’s offices, 1151 S. Broadway. Topic has not yet been named, it was announced.

DALLAS JONES

Firm Adds Studio Space

DALLAS JONES Productions, Chicago, has bought all assets of Frank Lewis Inc., same city, increasing its television and motion picture studio space from 10,000 to 25,000 square feet. The firm, headed by Dallas Jones and his wife, will specialize in production of TV films.

New quarters are located at 1725 N. Wells St. Mr. Lewis, who produced slide films and illustrations, remains as head of the new illustration department.

EXCLUSIVE television rights to games of Girl’s Professional Softball League of Los Angeles, have been acquired by KTTV (TV) Los Angeles. Series play starts in May.

SCIENCE AND DRAMA

WTVJ (TV) and U. of Miami Are Rewarded in Joint Effort

MUTUAL cooperation between WTVJ (TV) Miami and the U. of Miami in Florida is combining educational value with entertainment in video programming.

The university’s radio and television department says the collaboration is responsible for TV shows of unusual local interest and for quality training of its students. WTVJ receives two regular feature programs from the department, both sponsored by the Taylor Construction Co., a local building firm. The school uses the station’s studio six hours a week for student instruction in a TV workshop course in which WTVJ personnel augment faculty teaching.

On-the-air production experience is gained by students while aiding university-produced shows and setting up and breaking down equipment on remote telecast locations.

The cooperation grew out of an arrangement made between Col. Mitchell Wolfson, WTVJ president, and Sydney W. Head, headman of the radio and TV department, before the station went on the air last March.

The university produces a half-hour show each Tuesday at 9 p.m., at present alternating a dramatic program with a science show every other week. Additional special programs are produced frequently.

Most unusual is the science series, called Science Show Window, that brings to the camera interviews on plant and animal life peculiar to the subtropical, southernmost reaches of the peninsula.

Professors of the various “ologys” are interviewed by Oliver Grissom, member of the department, and live mammals, loaned by the zoo, are exhibited on the show.

In the dramatic series, the first production was outstanding in the choice of a play and in the manner of presentation, Mr. Grissom explains. Hans Roth’s (professor and formerly with Max Reinhardt in Europe) modern version of Shakespeare’s “The Comedy of Errors” was telecast remote from the stage of the U. of Miami drama department’s Box Theatre. Prof. Head supervised video production; Mr. Roth directed the play. Audience could see stage action or by turning their heads watch the telecast on receivers placed in the theatre. Backstage, a receiver presented on-stage action to members of the cast not performing at the moment.

REPTILE is displayed to viewers by Prof. Julian D. Corrington, of the Zoology Dept. L to r: Profs. Grant Shepard and Sydney W. Head (seated); Mr. Grissom, Prof. Corrington and Lloyd Gaynes, WTVJ cameraman and student.
The New
Du Mont-Holmes
SUPERSPEED
Projector

Sets new standards of performance, utility and economy for TV station operation. Provides a means of film pickup that approaches the contrast and clarity characteristic of studio productions.

DIRECT FILM PROJECTOR
Used with a Du Mont Special Image-Orthicon film pickup to give studio clarity to movies and teletranscriptions.

BACKGROUND PROJECTOR
Brings dramatic moving sets and backgrounds into any studio. Eliminates costly and cumbersome sets and backdrops.

For information on the Superspeed Projector or other Du Mont Telecasting Equipment write, phone, or visit.

ALLEN B. DU MONT LABORATORIES, INC., TELEVISION TRANSMITTER DIVISION, CLIFTON, N. J.
WORK of group of speech and hearing clinics in Oklahoma is highlighted on Out of the Silence, series of eight public service programs on WKY Oklahoma City. Shows dramatize efforts of clinics to rehabilitate youngsters with speech and hearing defects. Purpose of series is to acquaint public with work of state clinics and recruit teachers in field. Programs will culminate in conference of clinic workers and parents at U. of Oklahoma in April.

Personal Touch
PLAYING personal angle for all it's worth is Mark Sheeler, m.c. of morning show on WPIK Alexandria, Va. Mr. Sheeler enters Washington homes armed with tape recorder and leading questions such as, "Do you think that marriage will ever replace the automobile?" Informal chats with housewives resulting from such questions are recorded and presented on Mr. Sheeler's program.

Dances of Countries
NEW studio program at WBAP-TV Ft. Worth, Tex., is Dance Parade, starring Mary Parker. Show is built around dances of different countries and features costumed set and live music. Aired 8:30-9 p.m., Friday, show is sponsored by Stromberg-Carlson and Gibson Electric.

Distant Coverage
NATIONAL Amateur Hockey tournament in Lewiston, Me., recently was covered by KROC-AM-FM Rochester, Minn., 1,066 miles away. KROC sent its sports director, Bernie Lusk, to Lewiston to give play-by-play accounts of meetings between Rochester Mustangs and Lewiston's team. Rochester Post-Bulletin, sponsor of KROC broadcasts, also sent its hockey writer, Ozzie St. George, on trip.

BROADCASTING in Schools
FIVE-minute interviews were sold to exhibitors by WOC-TV Davenport, Iowa, at city's recent Annual Home and Food show. Exhibits were telecast with interviewees telling their sales stories and explaining their products. Program Director Charles Freburg and his camera and lighting crews dallied from booth to booth with Ranger Jensen and Norman Bacon doing running commentaries and interviews. Successful results indicate that station will use "roving camera" technique at future Home and Food shows.

Bi-Lingual Shows
LIVING up to its French title, Mouette show on WIRS Cleveland, is bi-lingual. Conducted by George Thompson, modern language teacher at Western Reserve U., Cleveland, format of show is French music, interspersed with talk in both French and English. Show is aired Mon. at 7:45 p.m. Due to its success with persons of French extraction and students in Cleveland, another show, Fiesta Tropical, has been started on WBBR by Mr. Thompson. Format of program is similar, with Spanish being substituted for French, and Spanish guests welcomed to program weekly. Show is piped over public address system at Kent State U. students union.

'Casts That Speak'
FIFTY-five minute show over WLWD (TV) Dayton, Ohio, has format specially constructed for deaf mutes. Entitled Hands That Speak, program is made up of devotional messages delivered by minister. Message is interpreted in sign language as are hymns sung for listening audience. Idea for show originated with Mrs. Peg Kylistra, local school teacher, who worked out production details with A. Donovan Fauntleroy, plant general manager in charge of programs at WLWD. Show is sponsored by Church Federation of Dayton and Montgomery county, and is on trial schedule until after Easter.

Catering to Tastes
VARIETY of music to suit its listeners' preferences is aired Mon.-Sat. on Milkman's Matinee by Larry Brown, m.c. of WPEN Philadelphia show. Mr. Brown divides four-hour show into half-hour segments, using them for pop tunes, light modern experiments in music, classics, hits of 30 or 40 years ago, old-time instrumental favorites, background music from current motion pictures, and one hour of past and current show tunes. Format satisfies tastes of old and young alike, station reports. Milkman's Matinee is heard from 2:05 to 6 p.m.

New Controversy
NEW quarter-hourly weekly program Seven Seventy on The Air-TV taking up discussion of controversial subjects starts April 3 on KTVV (TV) Los Angeles. Program is believed to be first television program sponsored by local labor union, Retail Clerks Union Local 770. Speakers on program will include James Roosevelt, Rep. Helen Gahagan Douglas, Harry Flannery and Gordon Severson, in addition to authorities on science, business and communications. Leonard Shane will produce program with Robert S. Howell as associate producer. Bob Breckner will direct.

Play-By-Play Checkers
WGBF Evansville, Ind., lays claim to play-by-play description of first broadcast of checker game when Evansville's champion, Walter Giannini, met the Harrisburg, Ill., champion, Jim Lutwinski. Forty-five minute game was described by J. C. Kerlin, WGBF's local newsmen.

Calling All Cabs
ACTUAL workings of taxi meter are shown as part of two week series on Calling All Citizens program over WTVR (TV) Richmond, Va. Series comprises two shows, having theme to demonstrate control exercised by city on this mode of transportation. Second show in series was devoted to discussion by taxi squad of Richmond Police Dept. Enforcement steps taken by police in regulation of taxis and drivers were shown.

Spot Reporting
LESS than an hour after airliner crashed in South Minneapolis, killing 15 persons, WCCO Minneapolis-St. Paul aired first eye-witness report. Clellan Card and Phil Lewis, of station's staff, were on scene shortly after accident and phoned police report to station. Telephone coverage was recorded and aired on 10 p.m. newscast, just 58 minutes after tragedy.

'Club Duo
SECOND late evening disc show broadcast by WJNR Newark, N. J., from night club has been inaugurated by station. First program was Hello From the Ivanhoe, featuring Carl Ide and broadcast from Ivanhoe Club in Irvington, N. J., from 11 p.m. to 12 midnight nightly. Latest series features Ed Bonner spinning records and interviewing guest stars from Club Diana, Union, N. J. Mr. Bonner is heard from 10-10:30 p.m., nightly, except Monday.

Prize Party Popularity
NEW TV show on WFLY-TV Philadelphia recorded 6,758 mail pieces in one week, station reports. Half-hour show, WFLY Ranch Prize Party, is aimed at children viewers and aired Mon.-Fri., 5 p.m. Daily telephone question and answer sessions with youngsters who have written station asking to be called, is format of show which immediately follows WFLY Ranch Theatre, hour-long feature-length Western movie. Children who successfully answer questions asked by "Ranch Boss" Pete Newman, appear on show following day and receive prizes.

Weekly Beauty Queens
WEEKLY TEEN-AGE beauty queens are picked by CKOY Ottawa, on Club 1310 Friday show. Paul Allen, m.c. of program, chooses four men from audience and each in turn picks one girl from audience as his choice. All five then cast ballots for winner who receives beauty kit, and is qualified to take part in spring finals for CKOY Club 1310 "Tops in Teens" title.

Well, not intentionally. But Broadcasting-Telecasting will tell anyone who wants to know exactly how hundreds of national spot and network advertisers used radio and television in 1949. You'll find it all in the April 17th issue . . . which incidentally is the same issue covering the NAB convention.

**from A to Z**

Here you'll find the stuff that planning board sessions and leading time buyers consult all through the year . . . Broadcasting's copyrighted product analysis of 29 basic groups, from automotive to cigarettes to toiletries. On April 17th we'll tell . . .

* national spot expenditures in 1949 by 29 product groups
* network gross expenditures in 1949 by product groups
* who spent the most advertising dollars and where in 1949
* how competing products split their advertising budgets between radio and television
* active spot accounts in 1949
* individual product analysis showing leading network and spot advertisers

**plus - - advertisers analysis**, the forecast by key people of business prospects for broadcast advertising during 1950.

Yes, sir, right here between the covers of Broadcasting you'll find this wealth of information. It's a really complete analysis of network and spot advertising by every major classification of industry, company and product divided according to radio and television.
tell LEVER?

WHAT EVERY TIME BUYER, EVERY RADIO DIRECTOR WILL WANT
... this treasure house of data with year 'round worth ... an exclusive source for fundamental facts on broadcast advertising.

WHAT EVERY STATION SHOULD DO (now)
In a word, advertise.
And we mean in the April 17th NAB Convention issue of BROADCASTING.
Think what extra attention such an information-packed issue will command ... what extra circulation you'll get. Over 17,500 total circulation.
This is no one-shot venture, but something invaluable—where the very people (advertisers and their agencies) you want to reach can see your station's story for the rest of 1950.

WILL THEY SEE YOU REPRESENTED THERE?

DEADLINE IS APRIL 7th.
... so don't be an April 18th mourner who wishes he'd done what you can still do. Get in BROADCASTING's April 17th NAB issue for sure, right now. Regular rates prevail. On a one-time basis that's - - -

Situations Wanted (Cont')

College community sought by successful
Independent network manager, 12 years broadcasting
experience. Must have university degree. Box 359E, BROAD-
CASTING.

Southern stations attention; Manager and
chief engineer would like job in 250-1000 watt
station in located in highly competitive
market. Excellent opportunity for man with
experience in all aspects of broadcasting.
Great opportunity for young successful broadcaster
Box 582E, BROADCASTING.

Manager with twenty years experience
in broadcasting. Thorough knowledge in
management to produce highest gross sales
with lowest overhead. Expert on sales
programming, both local and national.
Excellent opportunity for manager of
1 kw fulltime station. Have contacts with
network executives and advertising agencies.
Married. Will go anywhere. Reply to
48 hour notice. Box 569E, BROAD-
CASTING.

Young successful manager desires
change. Built two stations. Always ready for
opportunity. Write to you a station you will be proud to
own. Box 572E, BROADCASTING.

Two men, executive capacities New
Network. Need man to oversee
midwest or midsouth town 25-50
thousand. Own or manage station.
Western and Northwestern College teaching ex-
perience. Presently 17 years, New York, Los
Angeles. Two positions available for program-
ning, production, office routine, news, special events, station management,
contracts, sports, newscasting, selling advertising.
Wish to leave New York operating as
sale manager. You and station are
well established. Will consider only
New York area. Box 591E, BROADCASTING.

Thoroughly experienced general
manager. Must be familiar with all
radio aspect, distribution, relations
with all model. Can give references.
Inquire for more details. Box 609E,
BROADCASTING.

Manager's experience every
phase of radio except engineering
class, New York sales. Minimum $1000 per
week. Box 612E, BROADCASTING.

Five successful record in top
eastern seaboard metropolitan markets
with large market audience.
Thoroughly experienced in hard
selling, promotion, plus an outstanding
knowledge in New York representative
and agency setup. Excellent reputation
and completely reliable. Finest refer-
ences. Eager for position. Have
moved only three times and am in
love with hot weather. Bright for a
relationship with permanence and se-
curity. Please mail your personal
interview at your station, will even
accept a phone interview to prove that I would be an asset to your
organization. Box 567E, BROADCASTING.

Salesmen

Sales manager, aggressive experi-
extended sales experience in sports
station in medium-sized eastern market.
Excellent recommendation. Box 555E,
BROADCASTING.

Situations Wanted (Cont')

Salesman: Manager: Forget your management
problems. Forty watt western station tired of
cold sales climate. Located in California.
Twice unusually successful year. Has
shows, ads in local papers, promotion,
programming, plus an outstanding
knowledge in employee relations, public
relations and a leader in civil 30 years.
First concern is not size of station but
opportunities for myself and family. Available
for interview. Box 412E, BROADCASTING.

When Burlington Buys

(Continued from page 2)

guide our efforts to get comments from our audience on how they liked the program before we make suggestions they might have for improvements.

"In order to accomplish this, small prizes were offered for questions submitted for use on the program provided they were submitted with comments regarding the program. A first prize of $10 in Sears Credit Coupons was offered for the best question, two second prizes of $5 in Credit Coupons and $1 for every question used on the program. This offer was made for three weeks. In that three-week period over 400 entries were received. Praise for the program was more than abundant. Though the audience was instructed to send its entries to WCXW, well over a third of them were directed to Sears, Roebuck.

That description by Mr. Trueldel of program acceptance and sponsor identification is backed up by his version of the institutional results attained by the broadcast series:

Results Attained

"The institutional objectives are being accomplished. We are being kept in the public mind day in and day out. We have created goodwill because of the public acceptance of our program. Our slogans are becoming common knowledge. Our credit plans and credit coupon programs are being used, as is the Sears merchandise. "Four out of five days we draw a crowd in front of our store. Five days a week an average of 10 persons comes into our store to listen to their voices on our Sears Silverton wire recorder. Identification of our principal brand names has improved measurably. In short, the initial objectives for which this program was started have been met beyond our expectations.

"One specific institutional value is worth mentioning. Because of the arrangement of having the people interviewed on the program come into the store to hear their voices, the m. c. has the opportunity to say as he completes each interview, ‘Be sure to come upstairs and hear your voice on the Sears Silverton wire recorder.’"

This has meant that our brand name Silverton has become as familiar in the public mind in this area as any of the nationally advertised radio brand names. We cannot imagine the accomplishment of the same result in any other way or through any other medium or combination of media without a tremendous expenditure far and above the cost of the program which, as we have explained, served many other purposes."

Results General

These results are of a general nature. Getting down to cases, Mr. Trueldel lists a few examples of merchandising projects. Here is the way he put it in the NRDA entry:

"The first specific results which may, to wonder if we weren’t understanding radio came about after devoting one program to announcing that the new Sears catalog was available. We had placed a newspaper ad on this the day before and had gotten some action. We put it on the radio the next day just as a matter of course. The response was immediate, and all catalogs were ordered by mid-afternoon."

"For the past three months we have been regularly using radio to sell merchandise. The results have been more than satisfactory in relation to the cost of promotions. Three specific results follow where no other advertising was used."

Pinking shears were advertised for three successive days—Monday, Tuesday, and Thursday. We ordered our complete stock of 950 dozen rongs.

Our department had a vacuum cleaner promotion which was supported twice by our radio program. Twenty-seven units were sold and the department had a 28.7% increase over last year.

We carried a special traffic-getting rose promotion, and in one day sold our complete stock of 580 dozen roses.

In most instances we tie our radio in with the rest of our advertising and have been aware of the real sales help it has been. However, in these instances it is difficult to assess the relative results of different media. For that reason we have confined our examples to the few instances when radio has been exclusively used or its results could be specifically ascertained.”

Long-Range Aspect

That’s Mr. Trueldel’s summary of some of Sears’ specific promotions. Summarizing the long-range aspects of the broadcast, he says: "Our Sears, Roebuck store in Burlington has had a good growth these past few years. Though logically we cannot attribute this to any major portion of our radio program—there are too many other factors—do we feel that our Sears Man-on-the-Street program has been a major factor in our public relations and hence our sales effort.

“The things that we have been able to accomplish by this program could hardly be accomplished so neatly and easily by any other program or at any cost. Sears Man-on-the-Street program has become a part of Sears, Roebuck and a part of the public consciousness of Sears in this area.”

Sears satisfied to sit back and remain satisfied with these results, good as they are? Not at all. Looking forward Mr. Trueldel says, "We have been pleased to discover the merchandising possibilities of our program and intend to explore these further.”
HUGO REYER APPOINTED TO NEW POST AT FCC

HUGO REYER, FCC's executive assistant chief accountant, was appointed assistant chief accountant under Chief William J. Norfleet in Commission's new Office of Chief Accountant ([BROADCASTING, March 13, 20]). Hyman H. Goldin, acting chief of economics and statistics division, to chief of new Office's Economics Division. John J. Nordberg, chief of original cost and depreciation branch of present accounting regulation division, named chief of new Office's Accounting System Division.

Following appointments announced for FCC's new Common Carrier Bureau under Chief Harold J. Cohen, now assistant general counsel in charge of law bureau's common carrier division:

Jack Werner, assistant chief of law bureau's common carrier division, to be assistant chief of Common Carrier Bureau; Marion H. Woodward, now assistant chief engineer and chief of operating division, to be chief of International Division; John R. Lambert, now chief of tariffs and telephone rates branch of Accounting Bureau, to be chief of telegraph division; Curtis M. Bushnell, now in Accounting Bureau's field division, to be chief of telephone division; Charles R. Makela, now chief of Accounting Bureau's field division, to be chief of field council's unit; Alexander Ueland, now in construction carrier branch, to be Accounting Bureau's economics and statistics division, to be chief of Common Carrier Statistical Division.

All appointments effective April 3.

ALLOCATION PROPOSAL ADDS 10 TV CITIES

TV ALLOCATION proposal which it said would provide 10 cities with their first VHF channels without robbing any other community was filed with FCC Friday by WBTM Danville, Va.

Station said its plan would revive but not curtail FCC's own proposed allocation for 17 cities in eight states and that one VHF channel would be provided for each of following communities omitted from FCC's VHF proposal: Durham, Greenville, and Raleigh, N. C.; Zanesville, Ohio; Galveston, Tex.; Waco, Tex.; Johnson City and Kingsport, Tenn., and Charlotteville, Danville, and Winchester, Va.

WBTM's proposal, filed by Washington Attorney John H. Midlen and Consulting Engineer George C. Davis, "can be effectively accomplished without any serious problems of co-channel or adjacent-channel interference to the Grade A or B service of the respective assignments." FCC was told, WBTM said, it would apply for Channel 7, which its plan would move to Danville from Roanoke. Roanoke would get VHF Channels 9 and 11 in lieu of Nos. 7 and 10 as proposed by FCC.

EXAMINER REVIEWS ORDER

EXAMINER J. Fred Johnson Jr., conducting FCC hearing on news-slant charges against G. A. (Dick) Richards, agreed Friday to take under further consideration his order that FCC's counsel permit Mr. Richards' attorneys to examine so-called "confidential" affidavits filed by Robert Horn, former newsman for Mr. Richards' KMFC Los Angeles. Decision to reconsider came at urging of Frederick W. Ford, FCC's chief counsel in hearing (early story, page 24).

RTC'S NEW COLOR TV TUBE DEMONSTRATED FOR FCC

POTENTIAL SOLUTION of some of color television's present technical problems was seen Friday after closed-door demonstration of RTC's new single tri-color picture tube to FCC and staff members. Demonstration of awaited tube, first outside laboratory, was held Thursday night and reportedly to other participants in FCC's hearing at Friday session. FCC meanwhile set April 6 as date for official demonstration for record of hearing.

Although details of tube and its performance were not disclosed officially, it was known that RTC presented two types of tri-color—one single gun and one single gun, with latter said to give rendition most nearly approaching performance of RCA's present three-color system. Some observers considered new tube to be "great stride" in color development, emphasizing its usability in all color systems and removal of restrictions on screen size.

Two tube models shown were 16-inches, longer than RCA's present monochrome scopes of color sets and hence said to present unique conversion problem in that they protrude from rear of set. RCA witnesses already have testified they can build large tri-color tube easier than single gun, but all three-gun tri-color picture tube was said to require about 10 receiver tubes more than monochrome sets, plus accompanying extra circuitry, while triple-gun picture tube adds still another tube plus simple circuitry, design which many experts said was cited as cost for "adding a tube" and its circuits, making single-gun sets cost some $100 above monochrome, not considering cost of tri-color picture tube itself.

RTC color showing continued Friday with CBS showing off-tube 16mm films of 525-line monochrome transmission, black-and-white pickup of 405-line CBS color, and CBS color TV medical demonstration at Atlanta (TELECASTING, Feb. 6, 14).

ABC STORE SPONSORSHIP

EXPERIMENTAL techniques that ABC-TV believes may set pattern for future use of television by department stores will be used in special half-hour program sponsored by Arnold Constable, New York store, on WJZ-TV New York, (Monday, March 23). Program will be telecast live from store itself, with store's buyers appearing in person to talk about products advertised.

EASTON-ALLENTOWN PLEA

SECOND petition for writ of mandamus against FCC in Easton-Alleentown, Pa., case filed in U. S. Court of Appeals for D. C. by Allentown Broadcasting Co. (WHOL Allentown), winner of FCC decision which court remanded for further action. In sequel to rival Easton publishing Co.'s petition for writ of prohibition and mandamus [BROADCASTING, March 20], Allentown Broadcasting asked court to issue mandamus requiring FCC to comply with court's decision and issue further order on basis of original hearing record rather than hold further hearing which FCC has scheduled.

NBC SATURDAY CHANGE

ALTHOUGH not abandoning entire original plan to sell one-minute announcements in its 24-hour telecast of television show, NCB TV now offering half-hour blocks of show for single sponsorship as well.

Page 86 * March 27, 1950

6TH OLDEST CBS AFFILIATE — PROGRAMMED BY KMBC
...you can't cover California's Bonanza Beeline without on-the-spot radio

Capture the Beeline and you capture a big, fat market. One that takes in all of inland California plus western Nevada—with more people than Los Angeles...twice the buying power of Baltimore.*

But don't expect to cover this inland market with outstate radio. Because the Beeline audience naturally finds its favorite listening on its own on-the-spot stations...the five BEELINE stations.

With all five, you cover all the Beeline...at combination rates. And you choose best availabilities on each station without line costs or clearance problems. Or use the BEELINE stations individually, for top coverage of any major Beeline shopping area.

*Scale management's 1939 Campaigned丛ns

Here's what you should know about KERN Bakersfield

The CBS station for 50,000 Kern County radio families. Last Hooper shows KERN with nearly twice the audience of next best station, Mon. through Fri. afternoons; 30% more audience than next best station, Sun. through Sat. evenings.
